BOYS' AND GIRLS' BICYCLES

It pays to buy a good bicycle for a boy or girl. A good bicycle will last longer, give better satisfaction and look better than any cheap bicycle.

Our boys' and girls' model bicycles have the same type construction as our standard diamond frame bicycles, but are furnished only in 16 and 18-inch frames. The complete and up to date nature of the equipment, combined with the regulation frame construction, makes them worthy of any parents' choice. You can buy one of these bicycles from us knowing that it duplicates, on a slightly smaller scale, the quality you expect in an adult's model bicycle.

Napoleon single tube corrugated tread tires, Peerless junior triple coil spring saddle, arched and corrugated mud guards and a standard block chain are all items of the equipment proving their quality. The finish is a very attractive one. The frame head is finished in a rich red, the balance of the frame in jet black, with color darts on the upper and lower frame bars next to the head, matching the head finish and outlined with a gold color stripe. The wheel rims and mud guards are enameled to match the frame, having a red center panel, gold color edge, with black sides. The polished nickel plated metal parts complete a most pleasing color combination.

BE CAREFUL to order the correct size bicycle. To get proper size take leg measurement from crotch to heel. Allow 4 inches for length of crank, 2½ inches for saddle above frame. Thus a 16-inch frame is the right size for any boy or girl having leg measurement of 18 to 22 inches; 18-inch frame, leg measurement 22 to 26 inches. Where leg measurement is greater than 26 inches we recommend our Men's Bicycles or our Women's Josephine Bicycle, described on these pages.

Our CHIEF MOTOR-BIKE

CHIEF Is Our Own Trade Mark, Registered in U. S. Patent Office.

In our splendid CHIEF Motor-Bike we present a model which represents our finest achievement in up to date motor-bike design and equipment. Our latest model CHIEF contains the same excellent features that quickly made this model a leader among motor-bikes with its introduction a few years ago. The artistic beauty of the rich ivory and deep cherry red finish, the high grade nature of the handle bar, saddle and pedal equipment, the famous Sturmey-Archer Three-Speed Coaster Hub with which the model is equipped, the motor-bike design front fork, the standard arched and corrugated mud guards, with splasher equipment on the front guard, and the standard type stand furnished—these and other features testify to the comfort, convenience and safety in riding offered in our CHIEF, as well as to its up to date motor-bike design. To the many bicycle riders who insist on the best in motor-bike design, we recommend our latest model CHIEF.

Details of CHIEF Construction and Equipment.

FRAME—Standard up to date type Motor-Bike frame of truss type and short coupled, made of standard 1-inch steel bicycle tubing, with flushed joints reinforced by long pressed steel fishmouth reinforcements. This frame is patterned after regulation motorcycle design.

SIZE—Furnished in one size only, the distance from seat post cluster to center of bracket being about 20 inches. The dip in the top bar of frame makes it practicable to raise or lower the seat post to permit comfortable riding for anyone who can ride a 20, 22 or 24-inch diamond frame bicycle.

TIRES—Famous White JUSTICE Auto-Bike Tires, with the same two-ply fabric made for motorcycle tires. Non-skid and long lasting. See page 1342 for complete description and illustration of these tires. NOTE—We can furnish our CHIEF Motor-Bike with Columbia Clincher Tire equipment at 90 cents extra or G. & J. style clincher tires at $0 more than the regular catalog price of the CHIEF. See pages 1342 and 1343 for description and illustration of these tires.

SADDLE—Troxel Tru-Form Motor-Bike Saddles are somewhat similar in design to Troxel Tru-Form Motorcycle Saddles. Comfortable riding. Furnished with good grade leather top. Springs are beehive cushion type, nickel plated.

PEDALS—Attractive design rubber pedals of block type, bearing the name CHIEF. Metal rubbers are removable for replacing. Metal parts are nickel plated.

HANDLE BARS—Famous De Luxe Motor-Bike bars, complete with substantial reinforcing bar with diamond tapered ends. Complete with CHIEF 6-inch red motor-bike grips, shock absorbing and steel reinforced.

FAMOUS STURMEY-ARCHER THREE-SPEED COASTER HUB—Probably the greatest advance known in cycling development. Makes for easier and faster, yet safe riding. See page 1343 for complete description and illustration of this remarkable invention.

WHEELS AND RIMS—Made with double swaged spokes, thirty-six spokes in both front and rear wheels, an up to date construction. Rock maple rims, Crescent cement type, finished with ivory color centers and cherry red sides to match frame.

FRONT HUB—Spindle shape one-piece hub, nickel plated.

MUD GUARDS AND STAND—Arched and corrugated, supported by flat, cherry enameled braces. Front guard fitted with rubber splasher of motorcycle type. Complete with motorcycle style stand of improved type, with stand lock clip on rear mud guard for engaging stand when bicycle is being ridden.

HANGER—One-piece drop forged crank with hanger locking ring. Recessed sprocket of attractive design, strong but light weight, with sprocket teeth carefully punched. Fitted with 7-inch tapering pedal cranks, diamond faced, nickel plated.

CHAIN—Roller chain, ⅛x½ inch.

GEAR—81-gear on normal, 61-gear on low speed and 106-gear on high speed. The famous Sturmey-Archer Three-Speed Coaster Hub with which this bicycle is fitted permits shifting to the above gear ratios, a range which meets practically every requirement of riding conditions and gives the rider a choice of speeds similar to that enjoyed by the driver of an automobile.

TOOL BAG AND TOOLS—Heavy leather tool bag, reinforced with black enameled metal ends. Has nickel plated clasp and ring adapted for sprocket lock. Equipment comprises nickel plated telescope bicycle pump, bicycle wrench, spanner wrench, tube of quick repair tire cement and oiler.

FINISH—One of the most attractive and artistic finishes we have ever offered. The head, crossbar and seat post mast are ivory color, the balance of the frame cherry red, with contrasting color darts on front fork sides and the frame bars. Rims are enameled with ivory centers and cherry red sides, matching the finish of the frame. The richly fired enamel artistic name plate furnished with our CHIEF is the finest name plate we have ever placed on a bicycle and completes a splendid finish.

No. 28N1281¼ Three-Speed CHIEF Motor-Bike. Shipping weight, about 70 pounds. Price.....

No. 28N1285¼ CHIEF Motor-Bike, equipped with coaster brake. Shipping weight, about 70 pounds. Price.....

Our MASTER MOTOR-BIKE-BOY'S MODEL

STER Is Our Own Trade Mark, Registered in U. S. Patent Office.

Our Master Motor-Bike will particularly interest the many boys who want their own size motor-bike model bicycle, being especially designed for riders of regulation style bicycles of 20 or 22-inch diamond frame. The detailed description below of the construction and equipment of our Boys' Master Motor-Bike proves the excellence of this model, the sturdy frame being completed by a splendid, up to date equipment rivaling that of the Chief in many respects. Furnished in one (motor-bike) size only. Adapted for any rider of a 20 or 22-inch diamond frame bicycle by adjusting the seat post. It presents a most attractive appearance with its combination of green, black and nickel coloring in harmonious contrast.

Proofs of a High Quality Motor-Bike Construction.

RAME—Has dip in top bar; finished with flushed joint reinforcements. Furnished e size only. Adapted for any rider who can ride a 20 or 22-inch diamond frame e, by raising or lowering the seat post. For those riders who require a 24-inch nd frame bicycle, we recommend our Chief Motor-Bike. (See pages 1338 and 1339.)

WHEELS—Rock maple rims, laced with thirty-six double swaged spokes both front ear. Furnished with green centers and black sides to match frame.

UBS—Spindle shape one-piece hubs, nickel plated.

ANGER—One-piece drop forged crank hanger, fitted with 7-inch diamond faced ng pedal cranks, nickel plated. Well designed sprocket with teeth carefully punched.

ANDLE BARS—De Luxe motor-bike bar with substantial, attractive reinforcing Complete with motor-bike type rubber grips.

ADDLE—Well known Troxel Tip Top Saddle. Has black enameled beehive type n springs, good quality leather top. Length of top, about 10¼ inches; width, 7¼ inches.

TIRES—Splendid America Blue Tread Tires, of wear resisting, anti-skid, puncture healing type. See page 1341 for complete description and illustration.

PEDALS—Motor-bike type rubber pedals with pedal rubbers adjustable. A strong, long lived pedal.

CHAIN—Roller chain, ⅛x½-inch pitch.

MUD GUARDS AND STAND—Arched and corrugated mud guards, with flat braces. Enameled to match frame. Front guard fitted with splasher; rear guard has clip for fastening stand when bicycle is being ridden. Stand is of regulation type, white nickel finish.

TOOL BAG AND TOOLS—Heavy leather tool bag, with black enameled metal ends. Complete with bicycle wrench, hand pump, tube of quick repair tire cement and oiler.

FINISH—Furnished with dark green frame head and seat post mast, black enameled top and lower bars, with contrasting color darts, gold color edged. Rims and mud guards enameled with green center and black sides to match frame.

We Guarantee Everything We Sell to Give the Service You Expect

AMERICA BLUE TREAD TIRES

$4.10 PER PAIR

America Bicycle Tires Stand the Test of Time. America Blue Tread Tires, although introduced only a year and a half ago, proved their worth so quickly that today they are our fastest selling bicycle tire, displacing from this position America Tough Tread Tires. The latter, described and illustrated lower on the page, have been a favorite among bicycle riders for many years.

America Blue Tread Tires owe their splendid reputation to their many excellent features. Note the sectional view showing the closely woven bicycle tire cotton fabric layers united into a one-piece four-ply construction by layers of frictioned rubber. The tough anti-skid blue tread with its large, thick studs offers a combination of long wear, protection from skidding and attractive appearance. The resiliency or liveliness of these tires is very marked, in spite of the thickness of the tread. The inside rubber air chamber shown in the detailed illustration is treated to make most small punctures self healing. America Bicycle Tires are noted for their puncture healing qualities.

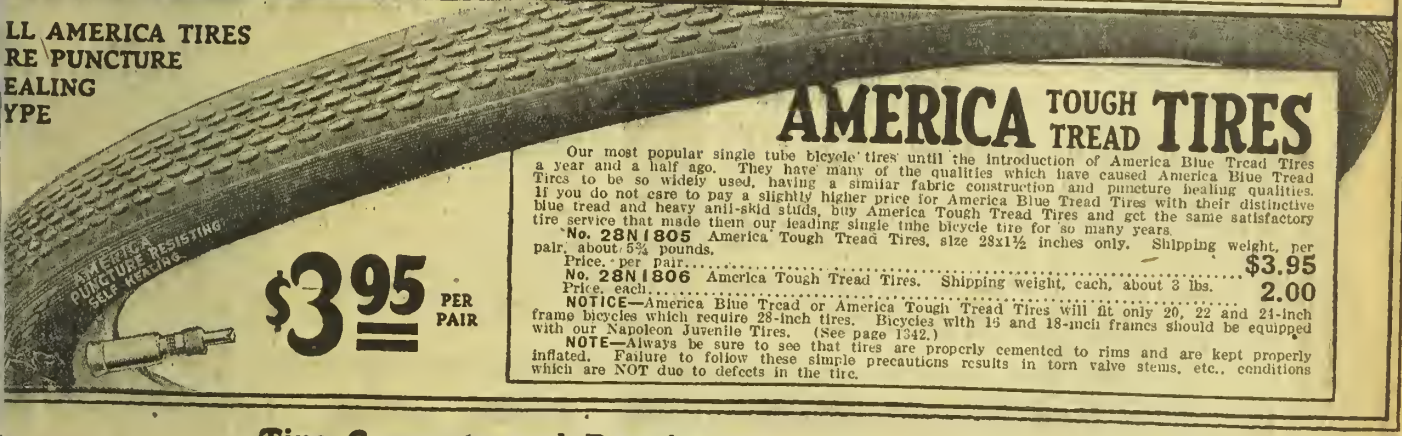
Our wide use of America Blue Tread Tires as equipment on our bicycles proves OUR confidence in their quality. One trial will win them YOUR confidence.

We GUARANTEE to replace or repair without extra charge any America Blue Tread or America Tough Tread Tire which develops defects in use. This does not cover punctured or cut tires or tires worn out in actual service.

No. 28N1810 America Blue Tread Tires, size 28x1½ inches only. Shipping weight, per pair, about 5¾ pounds. Price, per pair **$4.10**

No. 28N1811 America Blue Tread Tires. Shipping weight, each, about 3 lbs. Price, each **2.05**

LL AMERICA TIRES
RE PUNCTURE
EALING
YPE



$3.95 PER PAIR

AMERICA TOUGH TREAD TIRES

Our most popular single tube bicycle tires until the introduction of America Blue Tread Tires a year and a half ago. They have many of the qualities which have caused America Blue Tread Tires to be so widely used, having a similar fabric construction and puncture healing qualities. If you do not care to pay a slightly higher price for America Blue Tread Tires with their distinctive blue tread and heavy anti-skid studs, buy America Tough Tread Tires and get the same satisfactory tire service that made them our leading single tube bicycle tire for so many years.

No. 28N1805 America Tough Tread Tires, size 28x1½ inches only. Shipping weight, per pair, about 5¾ pounds.
Price, per pair **$3.95**

No. 28N1806 America Tough Tread Tires. Shipping weight, each, about 3 lbs. Price, each **2.00**

NOTICE—America Blue Tread or America Tough Tread Tires will fit only 20, 22 and 24-inch frame bicycles which require 28-inch tires. Bicycles with 16 and 18-inch frames should be equipped with our Napoleon Juvenile Tires. (See page 1342.)

NOTE—Always be sure to see that tires are properly cemented to rims and are kept properly inflated. Failure to follow these simple precautions results in torn valve stems, etc., conditions which are NOT due to defects in the tire.

Tire Cements and Repairs

Rubber cement, comes in collapsible metal tubes.
No. 28N2270 Acme Rubber Cement. Collapsible tubes, ¾x4-inch size. Shpg. wt. four, about 9 ounces.
Price for 4 ..... 11c

Shpg. wt., any of above, 2 oz.

JUSTICE AUTO-BIKE TIRES

$5.45 TO $5.95 PER PAIR

JUSTICE Is Our Own Trade Mark, Registered in U. S. Patent Office.

We offer JUSTICE Auto-Bike Tires to bicycle riders as an important feature of good motor-bike equipment. Complete tire satisfaction in motor-bike riding demands the use of tires heavy enough to give satisfactory wear on motor-bikes, whose construction and equipment add to their weight, and lively enough for comfortable riding. JUSTICE Auto-Bike Tires have the same two-ply fabric made especially for motorcycle tires. We call particular attention to the very attractive prices at which we offer these tires—prices that will save you money. Their wear resisting anti-skid tread and their attractive appearance combine with their splendid fabric construction and comparatively low prices to make them a popular favorite among motor-bike riders. JUSTICE Auto-Bike Tires are furnished in gray, red and white. The equipment of white JUSTICE Auto-Bike Tires on our CHIEF Motor-Bike is proof of the unusual quality of these tires.

Shipping weight, per pair, any color, about 6 pounds.

No. 28N1850 JUSTICE Gray Auto-Bike Tires. Size, 28x1½ inches. Price, per pair.. **$5.45**

No. 28N1851 JUSTICE Red Auto-Bike Tires. Size, 28x1½ inches. Price, per pair..... **$5.69**

No. 28N1852 JUSTICE White Auto-Bike Tires. Size, 28x1½ inches. Price, per pair..... **$5.95**

NOTE—Be sure that tires are properly cemented to rims and that they are kept well inflated to avoid torn valve stems and often even punctures, conditions which are NOT due to defects in tires.

We guarantee to replace or repair without extra charge any JUSTICE Auto-Bike Tire which develops defects in use. This does not cover punctures or cuts or tires worn out in actual service.

BUILT LIKE A MOTORCYCLE TIRE

COLUMBIA CLINCHER TIRES

$6.10 PER PAIR

Columbia Clincher Tires meet every requirement of the many bicycle riders who prefer clincher tire equipment, from the standpoint of price, service and utility. They fit both G. & J. style wood rims and steel clincher rims. They have a corrugated, wear resisting, anti-skid tread. They are easily attached and detached, punctures being repaired without removing the wheel from the frame. The remarkably low price at which we offer these high grade clincher tires is made possible by our economical method of selling by mail.

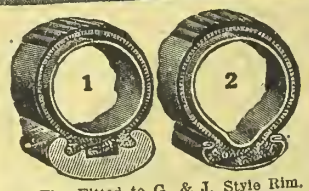
NOTE—We will furnish these tires on your new bicycle at an additional price of $2.75 to the catalog price of the bicycle fitted with America Blue Tread Tires. We furnish Columbia Tires on our CHIEF Motor-Bike at an additional price of 90 cents to the regular catalog price of the bicycle.

No. 28N1800 Columbia Combination Clincher Tires. Size, 28x1½ inches or 28x1⅝ inches. **In ordering specify size wanted.** Shpg. wt., per pair, about 7 lbs. Price, per pair..... **$6.10**

No. 28N1801 Casings only. State size. Shpg. wt., about 3 lbs. Price, each..... **$2.25**

Note—For price of Clincher Style Inner Tubes see below.

We guarantee to replace or repair without extra charge any Columbia Tire which develops defects in use. This does not cover punctures or cuts or tires worn out in actual service.



1—Tire Fitted to G. & J. Style Rim.
2—Tire Fitted to Steel Clincher Rim.

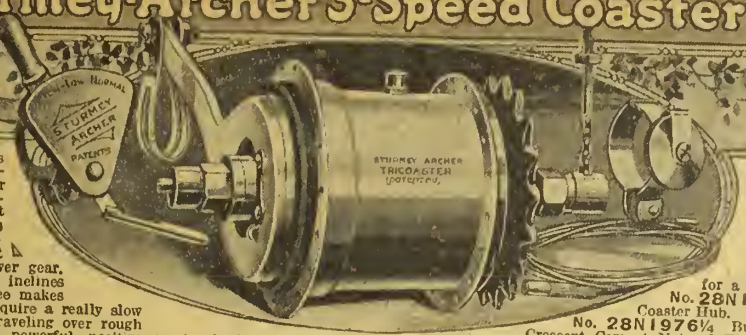
OUR GUARANTEE STANDS THE TEST in the Scales of Just

Sturmey-Archer 3-Speed Coaster Hub



all the pleasure that cycling offers nuipping your bicycle with the fa- Sturmey-Archer Three-Speed Coaster This remarkable device makes cy- easier, permitting you to travel at hor rate of speed on good roads it increased effort and making rid- easier on rough roads or against nd by simply dropping into a lower gear. d speed is usually used on slight inclines ere the condition of the road surface makes ding uncomfortable, yet does not require a really slow Use low gear for climbing hills, traveling over rough otc. In addition, the rider has a powerful, positive coaster brake under instant nd at all times.

e equipment includes a quadrant with lever adjustment permitting three positions, low and normal gear. Bowden wire fulcrum clip for attaching quadrant to top bicycle at a point convenient for readily operating, pulley wheel for attaching to seat post mast, and protected Bowden operating wire, connecting quadrant and le through pulley.

r Three-Speed Coaster Hub can be readily fitted to any bicycle with 1-inch frame Comes in desirable gear ratios, providing gears of 61, 81 and 106, in low, and high gear positions, respectively. This gives a rise of 31 per cent and a on of about 25 per cent from normal or middle gear.

Furnished complete, drilled for twenty-eight or thirty-six spokes with 7, 8 or 9-tooth sprocket for 1x⅜-inch chain and 16, 18 or 20-tooth sprocket for ⅛x½-inch chain. **When ordering specify number of teeth in sprocket.** Unless otherwise specified, for a 1x⅜-inch chain we will ship you a hub for thirty-six spokes with 9-tooth sprocket, and for a ¼x½-inch chain an 18-tooth sprocket.

A. Tread.
B. Fabric layer.
C. Frictioned rubber layer.
D. Fabric layer.
E. Air chamber.

Other Favorite Bicycle Tires

Napoleon Single Tube Tires.

Well known tires furnished in 24 and 26-inch sizes with corrugated tread and in 28-inch size with plain tread. Our tremendous, constantly increasing sales on these tires prove their popularity among those cyclists who wish a reliable, durable tire at a lower price than our America Blue Tread Tires at $4.10 a pair, or America Tough Tread Tires at $3.95 a pair. They are made with a tough, durable tread, two layers of bicycle tire fabric joined into practically one piece by a frictioned rubber layer, and an inside rubber air chamber.

No. 28N1808 Napoleon Single Tube Tires. Size, 28x1½ in. Plain tread. Shpg. wt., per pair, about 5¼ lbs. Price, per pair.... **$3.50**

NAPOLEON TIRES FOR JUVENILE BICYCLES.

These tires are furnished with corrugated tread, as illustrated. In ordering follow the instructions for ordering tires as found below.

No.	Sizes	Price, per Pair

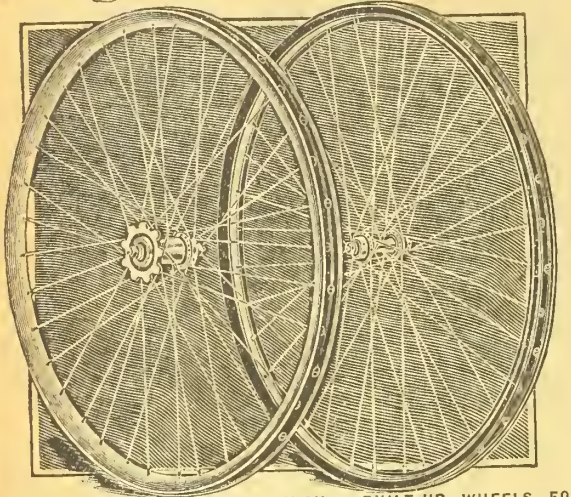
Bicycle Wheels



New wheels are often all that is needed to put an old bicycle in good riding condition. All our built-up cement-on type wheels have a coat of hard cement which should be moistened with gasoline or benzine before putting the tire on. All wheels have regulation type one-piece spindle hubs, hardened cones and bearings and standard spokes. Sprockets for rear wheels can be furnished 7, 8, 9 or 10-tooth for use with 1x3/16-inch chains. We furnish 9-tooth sprocket for this size chain where number of teeth wanted is not specified. Hubs are furnished with 14, 16, 18 or 20-tooth sprocket for use with ½-inch chains. We furnish 18-tooth sprocket for this size chain where number of sprocket teeth wanted is not stated. **In ordering be sure to state size of wheel and number of sprocket teeth.** Always order wheels by tire size, not by rim size.

Adults' bicycles (20, 22 and 24-inch frames) always have 28-inch tires. Order 28-inch wheels for these sizes of bicycles. Children's bicycles (16 and 18-inch frames) take 24 and 26-inch tires, respectively. State whether 24 or 26-inch wheels for these smaller bicycles. Wheels for children's bicycles are furnished only in black, red centers.

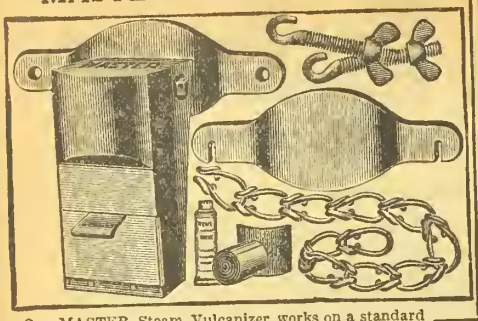
Vulcanizers and Accessories

MASTER Steam Vulcanizer.



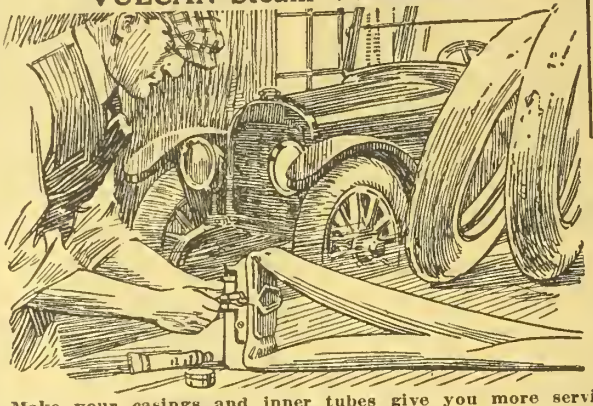
Our MASTER Steam Vulcanizer works on a standard vulcanizing method. Prepare tube patch or casing cut according to directions furnished, apply vulcanizer in place, fill vulcanizer pot to within about ½ inch of top with gasoline and ignite. Allow vulcanizer to stand ten minutes after gasoline has burned out. You can vulcanize a casing without removing it from rim. No gauge nor heat thermometer is required. Vulcanizer comes in japanned finish, complete with tube of cement, roll of repair gum and sandpaper, with instructious. Shipping weight, about 7 pounds.

No. 28N9070 MASTER Steam Vulcanizer. Price..... **$1.15**

No. 28N9066 Small Rolls Repair Gum for use with our MASTER Steam Vulcanizer. Shipping weight, about 2 ounces.

Price, each **10c**

VULCAN Steam Vulcanizers.



Make your casings and inner tubes give you more service. Neglected cuts and holes in tires shorten the tires' life. Vulcanize them! You can vulcanize inner tube punctures, too, and make a permanent, satisfactory repair.

Use a Vulcan Steam Vulcanizer for vulcanizing any size casing or tube. Seal cuts or stone bruises in casings before dirt works into them, causing quick ruin through blowouts, tread separation, etc.

These vulcanizers have nickel plated body and come complete with roll of repair gum, tube of vulcanizing cement, gasoline measure, which will hold the correct amount of gasoline needed for vulcanizing, sandpaper and instructions.

Hollow metal body of vulcanizer is partly filled with water, which is converted into steam when fire pot is filled with gasoline and ignited.

About fifteen minutes is required for fuel to burn out. Allow vulcanizer about ten minutes to cool after fire is out.

No. 28N9040 Vulcan Jr. Automatic Steam Vulcanizer, with vulcanizing surface about 4x2¾ inches. Shipping weight, about 3¾ pounds. Price..... **$1.65**

No. 28N9050 Vulcan Automatic Steam Vulcanizer, with vulcanizing surface about 5x3½ inches. Shipping weight, about 5 pounds. Price..... **$2.75**

Tire Reliners

Make Your Tires Last Long

Don't Throw Away Your Old Tires! A Re Will Often Give You Much Additional M age From Apparently Worn Out Tire

You can usually get considerable more mileage apparently worn out tires by placing Triumph Re inside the tires. These reliners practically ma blowout patch for the entire casing and lengthe life of a tire whose fabric has become broken which the tread has worn down in places to the layers. Triumph Reliners also strengthen weak in worn tires, tending to prevent blowouts at points and help avoid punctures, the reliner pro another thickness between the inner tube and the surface. Triumph Reliners are substantially ma frictioned tire fabric. To put them in, wipe ou casing inside with a cloth, moistening dark (cem side of reliner with a gasoline saturated cloth pressing the reliner into place, a small section time.

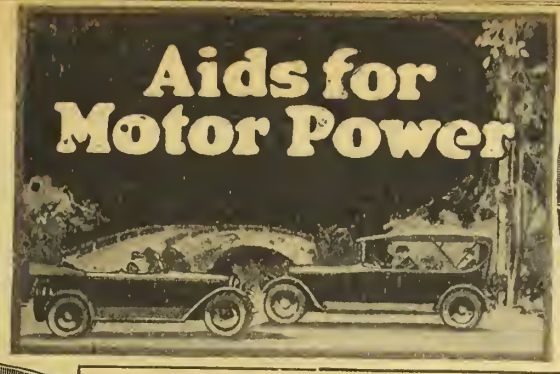
Aids for Motor Power



Poor compression and loss of power are often due to the worn condition of piston rings. The excess oil passing worn rings forms carbon and fouls the spark plugs, causing irregular firing.

Piston Tite Rings

-piece piston rings, individually cast gray iron.

2 volt.

Peerless Storage Batteries.
(FOR LIGHTING OR IGNITION ONLY.)

Discharge rate in hours of 6-volt 40-ampere battery, 12 and 5 bours at 2½ and 5 amperes per hour respectively; 6-volt 60-ampere battery, 17½, 7 and 4 hours at 2½, 5 and 7½ amperes per hour respectively; 6-volt 80 ampere battery, 26, 10, 6 end 4 hours respectively at 2½, 5, 7½ and 10 emperes per bour respectively; 6-volt 100-ampere battery, 34½, 14, 8 and 5½ bours at 2½, 5, 7½ and 10 amperes per hour respectively; 6-volt 120 ampere battery, 39½, 18, 10½ and 7 hours at 2½, 5, 7½ and 10 amperes per hour respectively.

SIZES AND PRICES OF PEERLESS STORAGE BATTERIES.

Catalog No.	Type of Battery	Disch'ge Rate, Hours, 1 Amp.	No. Plates	Price
28N8521¼	6-V. 40-Am.	40	15	$10.85
28N8516¼	6-V. 60-Am.	57	21	13.65
28N8510¼	6-V. 80-Am.	80	27	16.50
28N8507¼	6-V.100-Am.	97	33	19.65
28N8505¼	6-V.120-Am.	115	39	23.40

Length of batteries, 8¼, 10½, 10¾, 11½ and 12¾ inches, respectively. The two smallest sizes are 6⅜ inches wide, the three larger sizes 7⅛ inches wide; all batteries are 9 inches high. Shipping weights, about 20, 36, 42, 49 and 57 pounds, respectively.

One empero lamp load is equivalent to 6-candle power at 6 volts. When discharged intermittently the battery will give approximately 10 to 25 per cent more capacity than the rate given above.

Battery Gauge Meter.

Thie instrument tells you whether the battery is fully charged and in good condition, warns you when battery trouble begins to develop or tells you positively if battery is already in bad shape and needs expert attention. Its use may save its cost several times over. Instructions furnished for using. Shipping weight, about 1¼ lbs.

No. 28N8669 Battery Gauge Meter. Price..... **$4.50**

Triumph Hydrometer.

Has rubber collars protecting glass tube, rubber buffer at bottom of glass tube protecting hydrometer, and rubber tube, practically eliminating danger of breaking tube or hydrometer. Battery jar filler is about 1-quart size. Fill with distilled water for battery and keep hydrometer in it. To test acid draw from cell enough acid to float hydrometer freely in the glass tube.

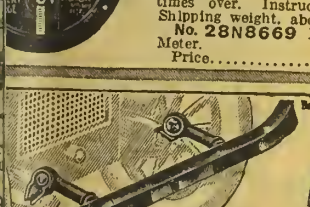
No. 28N13175 Triumph Hydrometer, complete with battery filler jar. Shipping wt., about 2¼ lbs. Price..... **$1.25**

No. 28N13179 Triumph Hydrometer only. Shipping weight, about 1 pound. Price..... **.75**

Battery Testing Hydrometer.

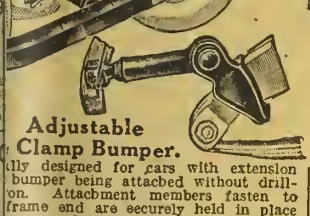
Inexpensive practical insurance against storage battery troubles due to lack of proper, systematic battery inspection. Test the condition of your storage battery regularly and help keep it in good condition by using this instrument which comprises hydrometer, rubber bulb, glass and rubber tube. Use it both to test the strength of the acid solution (specific gravity) in battery cells, and to add distilled water to battery cells when necessary. Always keep solution slightly above top of battery plates, to avoid danger of ruining battery plates. Full instructions furnished for using.

No. 28N8560 Battery Testing Hydrometer. Price..... **55c**



Standard Bumpers

Before ordering either front or rear bumper, see notes at bottom of page. For bumpers for Ford cars, see page 1366.

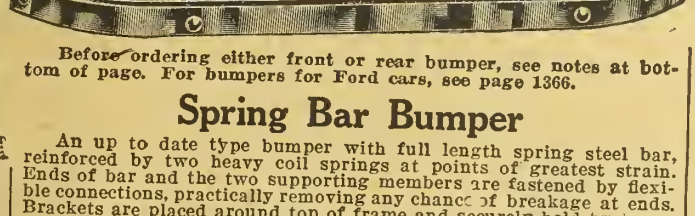


Adjustable Clamp Bumper.

ully designed for cars with extension bumper being attached without drilling. Attachment members fasten to frame end are eecurely held in place y cup point eet screws. Brackets have djustment, adapting them to frames of ve or angle. Furnished with black and either black or nickel plated bar 2 inches high and 1½ inches hipping wt., either style, about 30 lbs.

8N10161⅓ Adjustable Side Clamp black bar. **$6.50**

8N10161⅓ Adjustable Side Clamp nickel pleted bar. **$7.05**

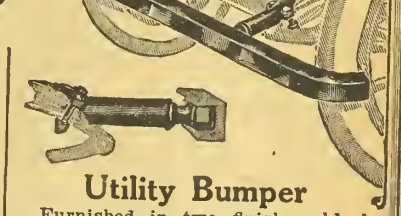


Spring Bar Bumper

An up to date type bumper with full length spring steel bar, reinforced by two heavy coil springs at points of greatest strain. Ends of bar and the two supporting members are fastened by flexible connections, practically removing any chance of breakage at ends. Brackets are placed around top of frame and securely held by heavy cup point set screws. They have pivot adjustment, adapting them to frames of any curve or angle, and are specially designed for cars whose extension apron prevents connecting brackets on side of frame. Bar is 2 inches high. Furnished in black or nickel plated finish. Complete with black brackets. Shipping weight, either style, about 40 pounds.

No. 28N10150⅓ Spring Bar Bumper, black bar. Price..... **$7.60**

No. 28N10151⅓ Spring Bar Bumper, nickel plated bar. Price..... **9.25**



Utility Bumper

Furnished in two finishes, black enameled throughout or nickel plated bar with black clamps. Has channel bar about 2 inches high and 1½ inches wide. Shipping weight, either finish, about 30 pounds.

No. 28N10145⅓ Utility Bumper, black enameled finish. Price..... **$5.40**

No. 28N10146⅓ Utility Bumper, with nickel plated bar. Price..... **$5.95**

FRONT BUMPERS.

'E—In ordering bumpere be sure to state make, year and model of car so that we hish the proper fittings. We ship bumpers from our Chicago etore or from in Northeastern Illinois. In ordering front bumpers of any type for Packard, er, Saxon, Chevrolet, Briscoe, Franklin and Dodge cars, add 75 cents to the catalog price of the bumper furnished in black enameled finish and $1.15 to the catalog price of the bumper furnished in nickel plated finish.

REAR BUMPERS.

Rear bumpers can be furnished in any of the styles shown on this page. In ordering rear bumpers, always state make and model of car and whether one or two tires are carried at rear. If only one tire is carried at rear, prices of rear bumpers are same as front bumper prices. If two tires are carried at rear, add 75 cents to the regular catalog price of the bumper in black enameled finish and $1.15 to the regular catalog price of the bumper in nickel plated finish.

Supplies for Your Garage

Auto Body Polishes

Johnson's Prepared Wax.

Needle Valve Extension Adjuster.

For adjusting the carburetor conveniently right from the instrument board, on cowl type cars having instrument boards. Instructions furnished for installing. Bottom rod is especially designed to replace present carburetor dash adjusting rod on 1918 model Ford cars, but can be used on earlier models. Shipping weight, about 8 ounces.

No. 28N11149 Needle Valve Extension Adjuster. Price..... **60c**

Desirable Equipment for the Ford

Lustro Wax and Cleaner.

Lustro Wax leaves a hard, dry, lustrous veneer. Apply it to a new Ford car to keep the finish bright. Apply it to an old car to revive the finish. On dirty, greasy cars, to get the best results, use Lustro Cleaner first. To remove dust and mud without scratching or injuring the finish and save frequent washing or occasional repainting, occasionally rub with a dry cloth the surfaces on which Lustro Wax has been applied. Lustro Wax comes in 5-ounce cans, Lustro Cleaner in 9-ounce cans, both complete with directions. You need them both. Shipping weight, either, about 1½ pounds.

No. 28N13102 Lustro Wax. Price..... **29c**

Auto Varnish-Paint

Make your car look like new. You can do the work yourself with this Automobile Varnish-Paint and you will be surprised at the wonderful improvement it will make in the appearance of your car.

This varnish-paint is made of a combination of high grade varnish and pure non-fading colors. It flows freely and dries with a smooth finish and high gloss. Three quarts should be enough to varnish the body and gear of a touring car two coats. No other finish need be applied. Directions for applying are printed on each can. To remove the gloss of the present finish use No. 1 Steel Wool, No. 30N2670, shown on page 1583. About 1 pound will be required.

Black Dressing for Mohair Tops

It will dry over night ready for use and will not collect dust. Leaves cloth soft and pliable. Mohair has a drill backing held to it with cement. This cement loses its adhesive qualities through age, thus causing the mohair to readily wear out. This special Seroco Mohair Top Dressing revives the adhesive qualities of the cement as well as waterproofing the mohair and making the old top look like new. About 1 pint is needed for a runabout, and 1 quart for a touring car.

No. 30N3421 Black only.

Engine and Radiator Enamel

Prepared to withstand the enormous heat to which an automobile engine and radiator are frequently subjected. Paint your engine or radiator with this high grade enamel and it can be easily kept clean and will not rust, the high gloss of the enamel leaving no surface for the grease and dirt to accumulate. Will not blister, peel or rub off. One-half pint should be enough to cover the average size engine one coat. Apply with a 1½ or 2-inch varnish brush, Nos. 30N3035 or 30N3037, shown on page 1584.

Auto Body Varnish

A brilliant, transparent and durable varnish for finishing carriage, buggy and auto bodies. This varnish will not show laps or streaks and can be used on large surfaces with the greatest safety and satisfaction. It is very pale and will not darken or injure the lightest shades of body color. Easy to apply and dries free from dust in sixteen hours and hardens properly in three days.

Metal Polish

Nickel Polish.

This Nickel Polish is made especially for nickel parts of automobiles and bathroom fixtures and may be used for polishing any plated metals of nickel, silver or gold. It polishes quickly and produces a luster that lasts. We guarantee that it will not cut away the plating of the most highly polished surface. Simple to use. Full directions on each can.

Brass Polish.

A polish designed for nickel will not work as quickly on brass, while a polish designed for brass may cut away the nickel plating. These polishes should be used only on the surfaces for which they are recommended. To remove all tarnish, finger marks, etc., and to produce a highly lustrous finish on brass and steel, this Brass Polish is especially recommended.

Cross Country
Automobile Lubricating Oil

Use Only Pennsylvania Oil.

It Will Help Safeguard the Money You Paid for Your Car.

To safeguard your original investment in an automobile we have left no stone unturned in our efforts to be able to furnish you with a lubricating oil in which you could have absolute confidence.

We decided upon this particular lubricating oil only after many laboratory and practical tests which proved conclusively that a certain grade of Pennsylvania oil could be recommended above all others—then we named it "Cross Country."

That was several years ago. Since that time this oil has made many friends and thousands of our customers are ordering it repeatedly. Our increased sales show that it is gaining in popularity. It is satisfying the requirements of thousands of motorists with every make of car.

Increases Mileage.

Use of the proper lubricating oil is of much greater importance than most motorists realize. It is a big factor in getting the greatest possible number of miles per gallon from your gas, and is a positive necessity if you would get the years of satisfactory service from your car which you have a right to expect. Be sure to use an oil which has been found by scientific tests to be the proper one for your motor, and you will secure maximum mileage and prolong the life of your car.

When you use Cross Country Automobile Oil, you attain that freedom from friction—that increased power and maximum mileage which only a perfect lubricating oil can give you.

Quality Guaranteed—and We Save You Money.

You owe it to your car to find and use the proper lubricant for its engine. It is difficult for the average car owner to make the tests himself and he therefore must place his confidence in a firm which has a reputation for fair dealing. Our guarantee is a broad one—absolute satisfaction or money returned. Send for a gallon of this oil and see for yourself that Cross Country Automobile Oil is all that we represent it to be.

Sponge or Fiber Transmission

Made From First Grade Cylinder Stock.

This grease is of a spongy nature, making it adhere perfectly to the gears. It will not work out of the transmission or differential gear cases. Nearly all automobile manufacturers recommend the use of fiber transmission grease, and, after many experiments and thorough tests, we have no hesitancy in recommending this grease. It will prove satisfactory and is a high quality grease at a price which means a big saving to you.

Automobile Oil for Ford Cars

ıe Ford engine runs at a
rate of speed and is cooled by the
ıo-syphon system, both of which combine
ısing the engine to attain a higher temperature than
water cooled engines.

e have devoted considerable time and study to the problem of
ırly lubricating the motor and transmission of the Ford automobile.
ıad to produce an oil which would lubricate perfectly in spite of existing con-
ıs. After exhaustive laboratory experiments and actual tests in cars in daily use,
ıve discovered an oil which will overcome your most common source of trouble and
ance. It is the only oil that we could recommend with the assurance that it will give
e service you have a right to expect from oil sold under our guarantee. It will lubricate the cylinder
and pistons of your car at the high temperatures which the engine attains.

s an oil of slightly lower viscosity than the oils which are commonly used in other cars. We recommend
cially because most people over oil their Ford engines and the oil is liable to work up into the explosion
er. By using our Special Oil for Ford cars the troubles due to over oiling are eliminated. Whatever oil
ıppen to work up into the explosion chamber will be immediately burnt and blown out of the exhaust, thus
ting carbon trouble, instead of depositing carbon on the piston heads and spark plugs, as a heavier oil might do.

safest way to buy automobile oil—the surest way to get perfect satisfaction—is to deal with a reliable, respon-
ɔncern. Buying "anywhere"—buying "any kind"—is usually followed by disastrous lubricating inefficiency, fric-
ear and tear on parts, wasted power, wasted fuel, wasted money and, eventually, replacement.

l for a gallon of this Special Oil with the understanding that it will give you the service you have a right to
that your money will be returned to you if you are not entirely satisfied.

Special Oil for Ford Cars.

No. 30N3343

		Per Gal.
50-gallon wood barrel	(Shpg. wt., 430 lbs.)	45c

NOTE—The 1-gallon can is fitted with a spout and is especially made to be carried underneath the seat, since it measures only 3 inches wide at the narrow end. It may be refilled as required and you will find it a very handy addition to the regular equipment of your automobile.

As you will note, there is a few cents difference in the price per gallon of oil in the various containers. This difference is due to the cost of putting up and handling as well as the difference in price charged us for the empty cans and barrels. For example, five empty 1-gallon cans cost us more than one empty 5-gallon can, and six empty 5-gallon cans cost more than an empty half barrel, and so on.

Because of the uncertainty of the oil market we cannot guarantee the prices in this catalog for any stated period. Therefore we must reserve the privilege of changing our oil prices without notice in accordance with the market changes. In the future as in the past we will save you money.

Cross Country Differential Compound for Ford Cars

Entirely Overcomes All Rear Axle Trouble.

This Differential Compound for Ford cars is the same quality as that used in all Ford cars when shipped from the factory. 1½ pounds of this quality of compound is the amount standardized by the Ford Motor Car Co. as the correct quantity to be used in the rear axle. This is guaranteed to overcome the trouble of a leaky axle. Thoroughly clean the rear axle with a little kerosene before putting in this grease, as it should not be used on top of old grease.

This compound is manufactured from high viscosity oils and made according to a formula that gives an adhesive semi-solid body guaranteed to remain on the wearing surface without running, channeling or separating at any speed. It has a melting point of approximately 380 to 400 degrees Fahrenheit and a cold test of 30 to 40 degrees below freezing point. This makes it an ideal all weather lubricant for differential and timing gears.

Read This Description

The Liberty Washing Machine tub is strongly built of selected washing machine lumber and is corrugated inside. It measures 22¾ inches in diameter at bottom and 12 inches deep inside and is fitted with a brass drain faucet threaded so that hose can be attached, if desired.

The mechanism is made up of smooth, heavy castings and is simple in design. Drive pulley and gears are mounted on a single large casting securely attached to the steel base. Raising the lid stops the washing mechanism, thus eliminating the use of clutches or belt shifting devices. Engine has a flanged pulley and drives the washer by means of a 1-inch flat belt. This is a sure, safe, simple and noiseless means of power transmission.

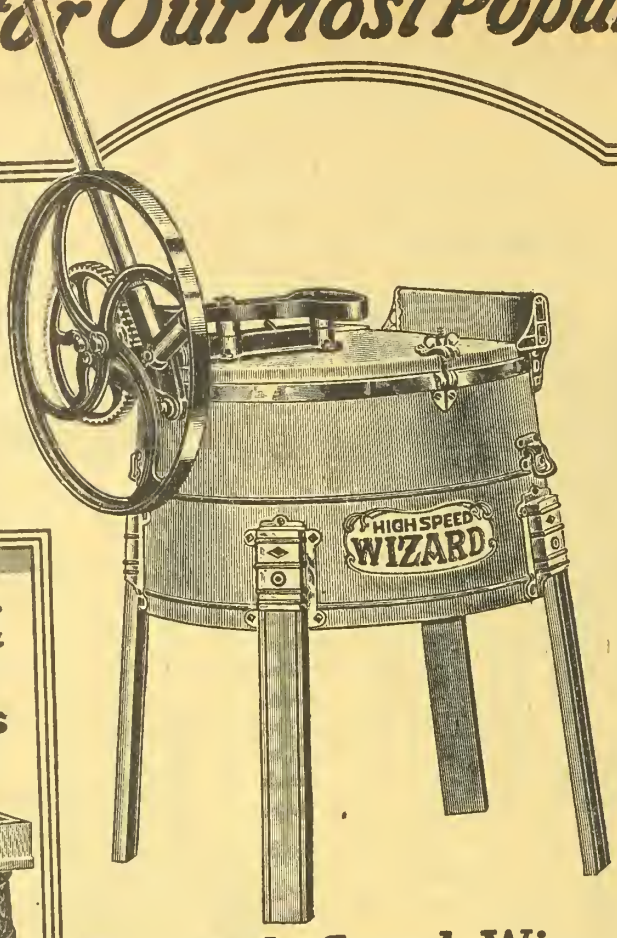
The power driven wringer can be swung so you can wring the clothes from the various tubs, as illustrated. Wringer drive is very simple, a slight movement of the lever being sufficient to start, stop or reverse the movement of the 10x1¾-inch rolls of extra grade white rubber, securely vulcanized on the shafts.

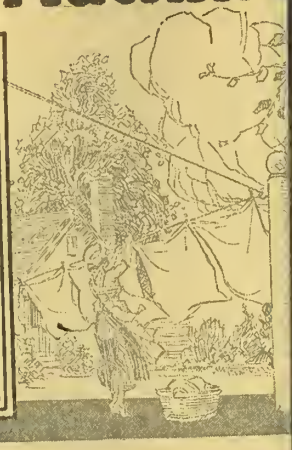
The engine is of the two-cycle air cooled type rated at ½ horse-power with inverted cylinder, which eliminates that tendency to flood which is a common fault of two-cycle engines. It is fitted with a special geared starter. One pressure on the foot pedal spins the engine several times and the first pressure usually starts it. All moving parts are enclosed so the engine is as safe as a small electric motor. Lubrication is taken care of by mixing oil with the gasoline. No oil cups to leak and no oil can to fuss with. Engine can be adjusted to run from 500 to 1,400 revolutions per minute while running. Spark coil and switch are mounted on engine at factory. A short wire from the multiple battery to engine is all the wiring needed and is furnished with the outfit. Muffler is of the automobile type, effectively silencing the exhaust noise. Exhaust gases from engine should be piped outside with ordinary ¾-inch iron pipe.

Where it is not convenient to use iron pipe, we can furnish flexible metal tubing which is almost as flexible as a garden hose and is leakproof.

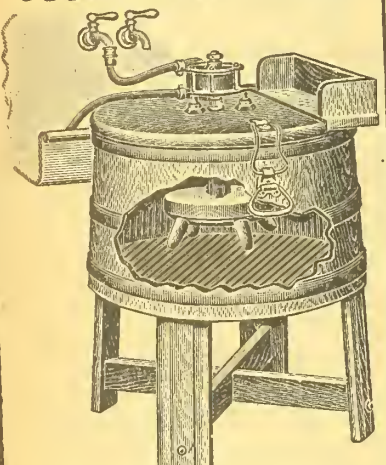
No. 44N7551 Flexible Metal Tubing. Price, per foot **25c**

$13.75 for Our Most Popular Washing Machine





Let the Power *in the Faucet* Wash the Clothes



To use a water power machine it is necessary that the water in your home be supplied from a pumping system of some kind at a pressure of not less than 15 to 20 pounds to the square inch and a flow of 4 to 6 gallons per minute.

We have sold this machine for many years, have shipped thousands of them to all parts of the country and it has proved to be a successful water power machine in every particular.

The tub is made of lumber that is especially adapted for washing machine construction, and measures 22¾ inches in diameter at bottom and 12 inches deep inside. Sides and bottom are corrugated. The dolly slides up and down on the post, according to the quantity of clothes in the tub and rotates back and forth when the machine is in operation.

The Water Witch Motor is of the gearless type, made entirely of brass and is very simple. Inlet hose is provided with a standard hose coupling so machine can be connected to any threaded faucet. Outlet hose has anti-splasher weight, which prevents splashing. Full directions for use furnished with each machine. Shipping weight, 70 pounds. **Shipped from our CHICAGO store or factory in NEW YORK.**

No. 44N7518¼ Water Witch Water Power Washing Machine. Price..... $15.25

No. 44N7519 Smooth Faucet Connection. A device threaded for standard hose coupling and provided with rubber packed stuffing box that slips on a smooth faucet, enabling you to connect hose to any standard smooth faucet. Weight, 1 pound. **Price..... 50c**

The High Speed Wizard

We have sold thousands of High Speed Wizard Washing Machines. One of your friends or neighbors no doubt already has one and will be glad to tell you about it. If not, bear in mind that we have sold more High Speed Wizard Washing Machines than of any other brand and that it is the most successful hand operated washing machine we ever sold.

The High Speed Wizard Washing Machine will wash the clothes clean. The inside and bottom of the tub is corrugated. The dolly or dasher rotates a three-quarter revolution each way. This action cleans the clothes very rapidly and thoroughly.

The High Speed Wizard Washing Machine will run easily. The flywheel revolves at high speed when the operating handle is moved back and forth, or up and down, depending on which socket the handle is placed in. The momentum of this high speed flywheel enables you to keep the machine in motion with but little effort. One socket holds the operating handle in just the right position to work while in standing position. The other socket holds the handle in just the right position to work while sitting. This enables you to do a great deal of the washing without being on your feet.

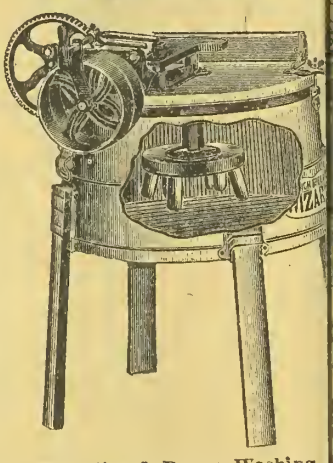
The High Speed Wizard Washing Machine will give good service. By this we mean everything that the term "good service" implies. The tub is made of selected lumber that is specially adapted for making washing machine tubs and is assembled and bound in a substantial manner. The gearing is made from well designed castings molded from machined brass patterns and all gears run on steel shafting, insuring smooth action and easy, quiet running. The parts are interchangeable, and you can get repairs at any time should they be needed. Any part proving defective or giving poor service will be replaced without any charge to you.

Let us prove it. Order a High Speed Wizard Washing Machine and enclose our catalog price. When you receive the washer, try it out for thirty days. Use it every day if you like. If you are not entirely satisfied you can send it back at our expense and every penny you paid out for the machine, including freight and cartage on it, will be returned to you. Full directions furnished so that you will understand how to use the machine even though you never used one before.

The tub measures 22¾ inches inside diameter at the bottom, 21½ inches at the top and 12 inches deep inside. Cover is of two-ply construction, securely hinged to the tub and will not split or warp. **Shipped from CHICAGO.** Shipping weight, 90 pounds.

No. 44N7513 High Speed Wizard Washing Machine. Price..... $13.75

Power Washer



The Wizard Power Washing chine is a development of the I Speed Wizard Washer, but the w ing parts are heavier and so ranged that lid can be raised w out removing belt from pulley.

Before deciding to buy this p washing machine we advise yo read the description of the Lil Power Washing Machine on page Consider carefully the advant offered by the use of the Lil Washer. It is a stronger mac It has a power driven wringe all the hard work by hand wrin as well as hand washing is away with.

If you do not care for these vantages and simply want a p driven washer at a moderate p the Wizard Power Washer will p you. This machine is fitted tight and loose pulleys, 8 inch diameter and 2¼-inch face an adjustable belt shifter. Shoul driven at 175 to 200 revolution minute. Hardwood wringer boa provided so hand operated wr can be attached. Tub is full measuring 22¾ inches in dia and 12 inches deep inside and is of selected lumber. Shipped our CHICAGO store. Shipping 95 pounds.

Combination Floor and Ceiling Register and Ventilator

$2.75 8x10 In. $4.20 10x12 In.

HEATS THAT COLD ROOM UPSTAIRS WITH THE EXCESS HEAT FROM THE ROOM BELOW.

Can be used in connection with regular heating stoves or with heating stoves equipped with hot air flue; or with pipeless furnaces. Consists of a black floor register with valves; a white ceiling plate and an adjustable sheet metal box connecting the two. Easily and quickly put into position; just cut the holes in floor and ceiling, place register and ceiling plate in position and hook the two coil springs that hold them together. Adjustable to fit any floor or ceiling from 7 to 12 inches apart. When used in connection with stove will take 6-inch pipe on all sizes.

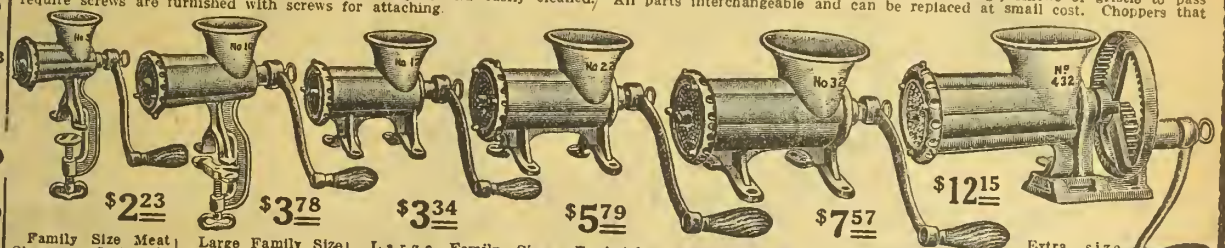
ENTERPRISE MEAT CHOPPERS

These well known machines have been on the market for many years. They are made of cast iron, heavily tinned, and will not rust. Enterprise Choppers have guaranteed knives, which cut like scissors; do not tear, grind or squeeze the meats; impossible for any strings, sinews or gristle to pass through without being chopped. Quickly taken apart and easily cleaned. All parts interchangeable and can be replaced at small cost. Choppers that require screws are furnished with screws for attaching.



$2.23 — Family Size Meat Chopper. Cuts 1½ lbs. meat a minute. (Size No. 5.) Shpg. wt., about 6 lbs. 99N2826 Price..... **$2.23**

Wisconsin Pattern Riveted Milk Cans.

$5.15 8-GAL.

We recommend these cans for wagon use, but for shipping purposes we recommend our One-Piece Seamless or our Silver Steel Cans.

Made of smooth sheet steel, double seamed and riveted throughout. Neck and bowl drawn in one piece. Breast is joined to body in such a manner as to form a very strong and rigid edge which has a heavy steel hoop shrunk on over the outside. Heavy steel bottom is riveted to body. Wisconsin pattern cans are tinned and retinned, and inside seams are soldered, have full rounded breast and bottom and are easily cleaned.

No. 99N2502 10-gallon size. Shpg. wt., about 16 lbs. Price $5.40

No. 99N2501 8-gallon size. Shpg. wt., about 15 lbs. Price $5.15

No. 99N2500 5-gallon size. Shpg. wt., about 12 lbs. Price $4.25

Silver Steel Elgin Pattern R. R. Milk Cans. $6.80

A SANITARY MILK CAN, ONE OF THE BEST AND MOST POPULAR PATTERNS ON THE MARKET.

8-GAL.

They are built of heavy steel plate, seamed and riveted, tinned and retinned, then heavily soldered with half and half solder so as to leave no crevices or corners to collect germs and dirt. Body and bottom rest on heavily flanged bottom hoop and are solidly riveted together. (See illustration.)

Silver Steel Cans are rigid and stiff and will stand hard usage. They are sanitary cans. Breast and bottom are full rounded which makes cleaning easy. Silver Steel Cans are guaranteed to give satisfaction.

"BABCOCK PATTERN" STANDARD HIGH SPEED MILK TESTING OUTFITS. $4.95

Many states now require a license of every person who operates a Babcock Tester for commercial purposes.

Illustration shows 4-bottle size for milk and cream.

These Milk Testers tell the exact quality of each cow's milk.

A tester is absolutely necessary when buying cows, as the quantity of milk a cow gives is not always an index of the value of the cow.

This Tester has cut spiral gear wheel steel spindle with worm thread enclosed in heavy case, is fitted with swinging rockers, malleable heads and can be attached to any table. Price includes bottle of acid, test bottles, brush, acid measure, pipette and simple directions for making tests. Cannot be shipped by parcel post.

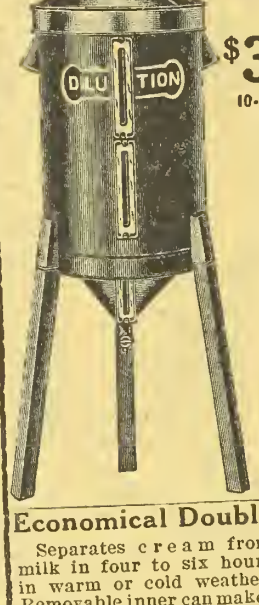
Improved Dilution Cream Separators



$3.45 10-GAL.

Separates cream from milk in three to four hours, gives sweet diluted milk, which is far superior to sour milk as stock food. Saves several hours waiting for cream to rise and gets 20 to 25 per cent more butter fat than the old method. As water mixes with milk, cream separates and rises to top; this can be watched through gauges. Heavy tin, securely seamed and soldered. Enameled on outside. Prices include tin tubes, strainer, faucet and legs. Cannot be shipped by parcel post.

Extra Heavy One-Piece Seamless Milk Cans. $

Meet All Requirements of Food Experts and Health Commissions.

Drawn from a single piece of sheet steel and heavily retinned inside and outside. Not one seam anywhere. The bottom, body, breast, neck and bowl of can are all one piece of steel, reinforced outside at bottom, breast and top by a heavy rim which is securely welded to the can (no holes or rivets in the can) and guaranteed not to come off. A very durable milk can that will last for years. Furnished complete with seamless cover. Every can is full capacity and guaranteed satisfactory in use.

R PRICE, **$4.65** Satisfaction Guaranteed or Your Money Returned.

BUTTER IN 3 Minutes!

The "Holstein" Butter Reaper

BY ACTUAL TESTS MAKES BUTTER FROM SWEET OR RIPENED CREAM IN FROM

3 to 5 Minutes

The peculiar construction of the dasher gives a violent action to the cream and, without breaking their granular form, quickly extracts all the butter fat particles, forming solid first quality butter in from three to five minutes' time.

Save Your Time! Save Your Strength!

Why waste valuable time using the old time slow and hard method of churning when by using modern methods you can obtain better results in but a few minutes' time.

Churn is light in weight and easy running. Can made of heavy tin plate and holds 3½ gallons. Churns up to 1½ gallons. Shipping weight, about 21 pounds.

No. 99N2591 **$4.65**
Our price.....

Old Reliable Star Barrel Churns.

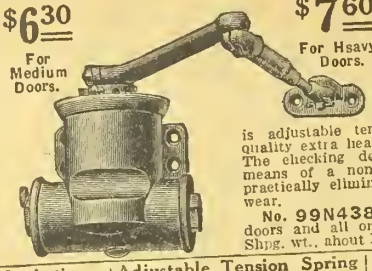
DOOR CHECKS
DOUBLE ACTING SPRING HINGES

IMPROVED LIQUID DOOR CHECKS.

$6.30 For Medium Doors.

$7.60 For Heavy Doors.



Noiseless door closing device which is simple, strong and durable. Very easy to apply and regulate. Its action is automatic, prompt and effective. Positively prevents the slamming of doors, destruction of glass and jarring of building.

No. 99N4385 For medium inside doors and light outside doors. Shpg. wt., about 12 pounds. Price $6.30

Satisfaction Guaranteed. The Improved Liquid Door Check is suitable for either right or left hand doors without changing. The spring is adjustable tension, made of first quality extra heavy clock spring steel. The checking device is operated by means of a non-freezing liquid and practically eliminates all friction and wear.

No. 99N4386 For heavy inside doors and all ordinary outside doors. Shpg. wt., about 14 lbs. Price..$7.60

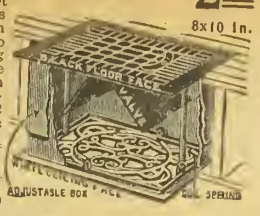
Combination Floor and Ceiling Register and Ventilator. $2.75



For use in connection with heating stove with or without hot air flue. Also ideal for use in homes equipped with pipeless furnaces. Will carry excess heat from room below to heat room above. Consists of a black floor register with valves, a white ceiling plate and an adjustable sheet metal box connecting the two. Easily and quickly put into position; just cut the holes in floor and ceiling, place register and ceiling plate in position and hook the two coil springs that hold them together. Adjustable to fit any floor or ceiling from 7 to 12 inches apart. When used in connection with stove will take 6-inch pipe on all sizes. State size wanted.

$3.95 KENWOOD HIGH GRADE SICKLE GRINDERS. $3.70

A strong, simple and compact sickle grinder. Is entirely automatic in its grinding movements, the beveled stone moves up and down against the sections, grinding them even and true. Does not grind at any one point long enough to heat or draw temper. Can be adjusted to grind from point to heel or to grind only down to the knife bar. Knife holder works with a lever handlo which makes it possible to easily and quickly change the position of the knife for grinding the next section. Made in two styles, one for bench use, the other for use in the field.

9N5532 Kenwood Sickle Grinder for fastening to bench. g weight, about 25 pounds. Price.....$3.95

N5954 Extra Stones for above grinders. Weight, about 2 pounds. Price, each.....75

Fitted with 4x¾-inch fast cutting corundum wheel. Suitable for grinding small tools, shears, knives, etc. Intended for use in the home or office. Readily attached to table or bench. Axle for wheel, ¾ inch in diameter. Shipping weight, about 5 pounds.

No. 99N5536 Price $2.40

HIGH POWER TOOL GRINDER. $6.85

Mounted on Steel Frame.

A tool every blacksmith, mechanic and farmer should have. Simple and practical in construction, and embodies strength, durability, power and speed. The spindle and pinion of the grinder head are turned and milled from one piece of steel, the larger gear is machine cut and all are enclosed in tight casing, insuring long wear, as dust and dirt from the wheel are excluded. Tool rest is adjustable to any reasonable position. Frame is steel and is strongly and substantially put together. Seat is well braced and adjustable to different heights. Equipped with a 6x1¼-inch fast cutting corundum wheel of medium grit. Guaranteed to give entire satisfaction. Shipping weight, about 65 pounds.

No. 99N5540 Price $6.85

Gear case 8½ inches in diameter and 1¼ in. thick.

Emery wheel revolves about 16 times to 1 revolution of the large gear wheel.

CRYSTALLINE METAL FARM BELLS.

$3.60 No. 3. $4.85 No. 4.

Illustration of Sizes Nos. 1, 2, 3 and 3.

Every farm, no matter how small, should have a good bell. Our bells are standard in every detail and are unexcelled for service. The metal in crystalline bells is properly distributed to insure a clear, pleasing tone that can be heard for a long distance and tone will always remain the same as when new. Will not go flat with use. Every size a bargain at the price we name. We recommend size No. 3 for use on the average farm.

Illustration of Size No. 4. Lag screws furnished for attaching.

Complete Hose Outfits

SPELL HOSE ECONOMY

Do you realize that aside from the great convenience and cleanliness of keeping garden hose on a reel that the life of the hose is more than doubled thereby? The reel drains the water from the hose, thus allowing it to dry inside and pays for itself many times over.

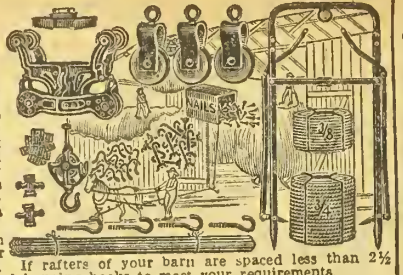
No. 99N1006 Price, per foot.....5c

Kenwood Standard Complete Hay Carrier Outfits. $23.50 and up. For steel track.



A complete outfit for a 30-foot barn consists of one hay carrier, one short tine double harpoon hay fork, twelve rafter brackets, twelve hanging hooks, four floor hooks, three steel yoke knot passing pulleys, 90 feet ¾-inch manila carrier rope, which is abundantly strong, and 35 feet ⅜-inch manila check rope. For each 5 feet additional length of barn we add two rafter brackets, two hanging hooks, 10 feet of carrier rope and 5 feet of check rope. Double angle steel track furnished with all steel track outfits; but as any farmer can make his own wood track from ordinary 4x4-inch lumber, we do not include track with wood track outfits. Manila rope larger than 1 inch cannot be used.

NOTE—Price of outfits includes enough hanging hooks and rafter brackets for barns with rafters spaced 2½ feet apart. If rafters of your barn are spaced less than 2½ feet apart, order enough extra brackets and hanging hooks to meet your requirements.

$10.40 Steel Cultivator

Compound Lever Expander.

A high quality garden cultivator. Solid and rigid in construction. Has horse hoes, lever wheel, rear wheel depth regulator and outside handle braces. Lever wheel and rear wheel depth regulator enable operator to control the working depth of teeth. This enables the cultivator to run steadily and relieves the operator from strain of holding cultivator from running too deep. Teeth can be raised entirely out of ground for moving from one field to another. Lever expander widens or narrows width of cultivator to suit different widths of rows. A most complete and serviceable tool and guaranteed to be satisfactory in use. Shipping weight, about 90 lbs.

No. 99N6231 Price, complete..... $10.40

90c "Sure-Foot" Horseshoe Screw Calks. 90c

ANO UP For 50.

With Improved Exposed Hardened Steel Centers.

Improved "Sure-Foot" Calks have exposed hardened steel centers. (Try them with a file!) Hardened centers are welded in tough soft steel outside stock, making it impossible for them to jar loose or fall out. Threads are deep and well cut.

THEY SAVE YOUR ANIMALS AND SAVE YOU MONEY.

Note our remarkably low prices.

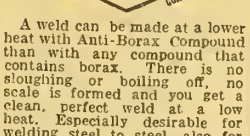
45c Anti-Borax Welding Compound.

5 Lbs.



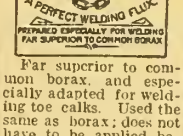
A weld can be made at a lower heat with Anti-Borax Compound than with any compound that contains borax. There is no sloughing or boiling off, no scale is formed and you get a clean, perfect weld at a low heat. Especially desirable for welding steel to steel, also for welding all kinds of iron.

No. 9N3535

Price, per 5-lb. box.....45c

55c Borax-Ette Welding Compound.

5 Lbs.

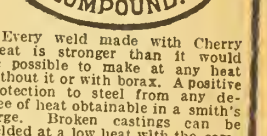


Far superior to common borax, and especially adapted for welding toe calks. Used the same as borax; does not have to be applied between the lap like other compounds.

No. 9N3537 Price, per 5-lb. box.....55c

15c Cherry Heat Welding Compound.

Per Lb.



Every weld made with Cherry Heat is stronger than it would be possible to make at any heat without it or with borax. A positive protection to steel from any degree of heat obtainable in a smith's forge. Broken castings can be welded at a low heat with the compound, and cast iron firmly welded to either wrought iron or steel.

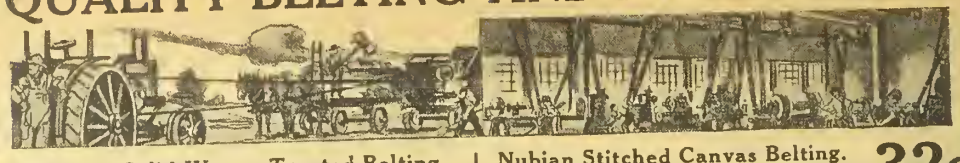
QUALITY BELTING AND ACCESSORIES



36c Per Foot. 4-Ply. Solid Woven Treated Belting.

Made of hard twisted long fiber cotton, woven solid in one piece. Tbreads go through and through as well as crosswise and lengthwise. There are no stitches to wear out nor plies to come apart. Thoroughly stretched and then treated with a special compound which preserves and strengthens the fiber. It is not affected by heat or cold, is always flexible and thoroughly waterproof. For the purpose of comparison, we call this belt 4-ply and 6-ply, which means that it is about the same thickness and weight as ordinary 4-ply and 6-ply canvas belting. Be sure to state width wanted.

WE CANNOT FURNISH THESE SOLID WOVEN BELTS MADE ENDLESS.

No. 99N7460 4-Ply or Medium Weight Solid Woven Treated Belting.

Nubian Stitched Canvas Belting. 32c Per Foot. 4-In. 4-Ply.

Nubian Belting is made from heavy cotton duck treated with Elaterite Compound (sometimes called mineral rubber). This compound acts as a filler and greatly increases the tensile strength of the fabric, absolutely preserving the cotton from mildew or decay. Elaterite is not only one of the greatest waterproofing materials known, but is also heat resisting and impervious to cold. Nubian Belting remains pliable under all conditions and will not harden or crack. State width.

$22.00 6-Inch 4-Ply. 50 Ft. Long. Endless Belt. Red Stitched Canvas Belts

Made of heavy long fiber cotton duck or canvas, woven very hard and with rows of stitching close together. Thoroughly soaked in oil to keep it flexible and waterproof and then painted red with a special composition paint which gives it an excellent friction. Thoroughly stretched before leaving the factory. Especially recommended for threshers, sawmills, quarries, woodworking plants and similar uses.

32c Per Ft. 4-Inch 4-Ply.

Endless Stitched Canvas Belts.

Endless belts listed below are carried in stock and can be shipped promptly from Chicago with other goods. About 3 feet of belt is used in making the splice, making the finished Endless Belt about 3 feet shorter than the number of feet you pay for. Be sure to state length wanted.

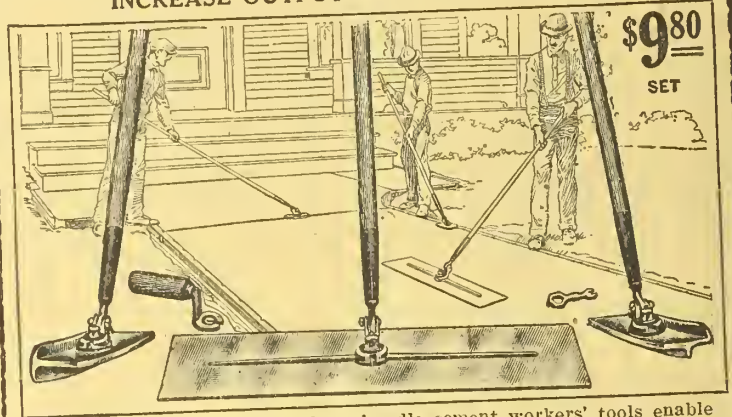
Genuine Arrowsmith LONG HANDLE Cement Workers' Tools

INCREASE OUTPUT—SAVE MAN POWER.



$9.80 SET

Efficient, sensible, these long handle cement workers' tools enable the workman to stand in a comfortable upright position while at work, thus conserving his energy and increasing his output. The old style short handle cement tools are imitations of plasterers' and bricklayers' tools which cannot be conveniently used by the cement worker as they necessitate his getting down on all fours like a scrubwoman, thus hampering his work and cutting down his output.

Why continue to work in an uncomfortable, handicapped position when by using these modern long handle tools you can not only be comfortable, but can accomplish more work with less effort?

Tools are well made throughout. Handles are 6 feet long, adjustable to any height and can be set to any angle. Trowel made of tempered steel, jointer and edger made of iron, nickel plated. Set includes one 24-inch trowel, one jointer, one edger, three long handles, one short handle and one wrench as illustrated. Shipping weight, per set, about 14 pounds. **$9.80**

22-Inch Swing Band Saw Machine

With Stand, for Power Only.

DESCRIPTION.

Tilting Table for sawing bevels, made of cast iron, planed true. Size, 14¼x17⅞ inches and stands 40 inches from floor.

Saw Guides are adjustable and ball bearing. Upper guide has improved ball bearing discs and can be raised to saw material up to 7 inches thick.

Swing—22 inches capacity to cut to center of 44-inch circle.

Wheels are 22 inches in diameter by 1½-inch face and have endless rubber bands for saw to run on. Upper wheel has tilting adjustment on top bar for leading saw with proper tension against the guide. Also has hand wheel adjustment for regulating the tension on the saw. Can be adjusted to take saws 12 feet to 12 feet 6 inches long.

Shafting—Cold rolled steel, 1 inch in diameter.

Bearings—3 inches wide, full babbitted with high quality babbitt.

Shipping weight, 260 pounds. Approximate floor space, width, 2 feet 8 inches; length, 2 feet 8 inches. Tight and loose pulley, 8-inch diameter by 3-inch face. Speed, 550 R. P. M. Power, 1 to 2 H.-P.

No. 99N8132⅓ 22-Inch Swing Band Saw Machine with Stand, as illustrated and described, with one ⅜-inch band saw and belt shifter, but without table shown in outline in illustration.
Price, complete $44.50

$44.50

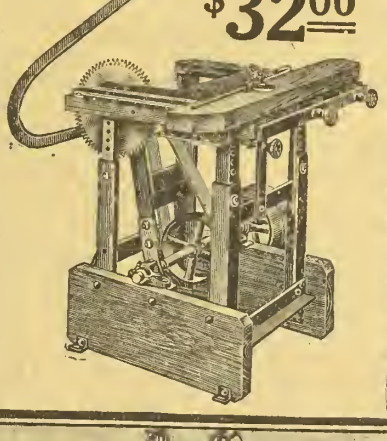
Swing Cut-Off Saw

For Power Only.

$32.00



Swing cut-off saws are great labor savers, especially in cutting long material of large dimension. One man can lay the work in position to get any special cut desired. The swinging frame being short and rigid gives a clean square cut with but little effort on the part of the operator. Cuts a 1-inch board 20 inches wide or a 3-inch plank 15 inches wide. Saw swings back below table surface out of the way, or by means of an adjustable stop, can be set to swing back just far enough to clear the work being done.

DESCRIPTION.

Frame, 1½-inch angle steel, securely bolted together.

Saw Table, 26 inches wide by 24 inches long and has an adjustable bracket on each side to bolt on extensions for making ss wide a table as desired for convenience in cutting off long material. Height is variable to suit the work, extreme height being 32 inches.

Saw Mandrel, 1 inch in diameter with 3x3-inch pulley, takes saws with ⅞-inch hole.

Countershaft, 1 inch in diameter with 8x3-inch tight and loose pulley.

Hand Lever for pulling saw through the work.

Shpg. Wt.	Floor Space Required	Tight and Loose Pulley	Speed	Power

$1.95 FULTON NAIL CUTTER SAW

Mechanics—Don't spoil your high grade saws on repair work, house-wrecking or second hand lumber. BUY ONE OF OUR NAIL CUTTER SAWS. They are especially suited for carpenters, plumbers, electricians, tinners or any one who requires a saw that will actually cut right through wood, nails, sheet metal, wire, gas pipe, etc. This Fulton Nail Cutter Saw is made of special saw steel, hand filed and tempered by a process which makes it exceedingly hard but very tough. The Fulton Nail Cutter Saws can be filed when they become dull, but do not require setting, being taper ground. Made in one size only, with 18-inch blade. Weight, about 1¼ pounds. **$1.95**

ROYAL COPPER FINISHED SQUARES.

$2.60 Royal Copper Finished Rafter Square. A fine square for high class mechanics. Heavily copper plated and is as nearly rustproof as a steel square can be made. Has deep, clear figures and graduations filled with white enamel. Body, 24x2 inches; 16-inch tongue. Marked on face, 1/16, ⅛ and ¼-inch spaces; on back, 1/32 and 1/32-inch spaces. In addition it has brace measure, eight square, patent rafter table, which gives the measure of rafter for any one of seven pitches of roof. Weight, about 2¼ pounds.

No. 9N5538 Price, including full directions for using.....$2.60

TAKE DOWN SQUARE WITH RAFTER TABLE.

$2.30 Polished Finish.

The smooth sliding fit of tongue gives this square great strength at the joint and when the locking cam is turned the tongue cannot slide out or slip. No springs to get out of order. Cam is easily turned by inserting a coin or flat tool in the slot. No wear at the joint. The waterproof carrying case protects the tool and very little space is taken up in the chest. Marked in 1/32, 1/16, 1/32, ⅛, ¼-inch spaces. Brace measure, eight square and new rafter table. Body, 24x2 inches; tongue, 16 inches.

No. 9N5536 Gunmetal finish, yellow markings. Wt., about 2¾ pounds.

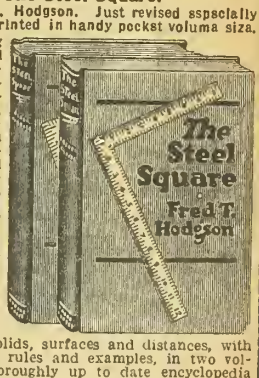
The Steel Square.

By Fred T. Hodgson. Just revised especially for us and printed in handy pocket volume size.



Including pitches and roof framing, the laying of rafters, hoppers, bevels, combination squares, polygons, and miters. Special chapters are devoted to stair building, finding length of jacks, securing bevels, practical calculations, showing how to measure solids, surfaces and distances, with miscellaneous rules and examples, in two volumes. A thoroughly up to date encyclopedia on the steel square. Contains 500 practical and instructive illustrations. Besides there are over 100 practical house plans, giving the carpenter many valuable ideas in house building. The set (two volumes, size 4¾x7¼ inches) contains over 600 pages. Bound in cloth. Shipping weight, 2 pounds.

No. 3N9102 Price, per set (two volumes) boxed.....$1.78

The Improved Fulton Special Ratchet Bit Brace

$2.60

10-Inch Sweep.

Heavily Nickel Plated and Nicely Finished Throughout

Frictionless roller bearings. Heavily nickel plated and nicely finished throughout.

SWEEP—High grade steel, 15/32 inch in diameter.

HEAD—Select hardwood, steel clad to protect it from being split or bruised. It is attached to the sweep by means of a steel quill that revolves on roller bearings.

HANDLE—Select hardwood, with brass bushings inserted in the end to prevent it from splitting. Revolves on patent adjustable tapered steel collare and bearings. By means of set screws any looseness from wear may be instantly taken up.

RATCHET—Simple in construction, easily operated, strong and durable. The ratchet teeth are cut on the end of the steel body that revolves in the socket attached to the sweep and are concealed and protected by this socket.

SLEEVE—Made of malleable iron, has knurled grip. Nickel plated.

CHUCK—Has forged steel jaws. Takes regular square shank bits and round shank bits up to 5/8 inch in diameter. Will take a large size expansive bit.

FINISH—All metal parts are polished and nickel plated. State size.

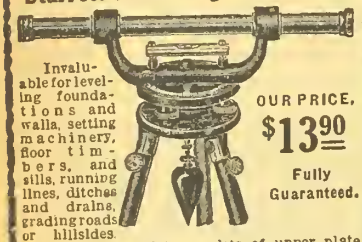
Starrett's Leveling Instrument.



Invaluable for leveling foundations and walls, setting machinery, floor timbers, and sills, running lines, ditches and drains, grading roads or hillsides.

OUR PRICE, $13.90

Fully Guaranteed.

Instrument complete consists of upper plate with graduated arc divided by degrees, tripod, head, plumb bob and line. Tripod is made of iron japanned; improved extension legs are separate from tripod. With this improvement over the old style you can make the height from 2 feet 6 inches to 4 feet 6 inches. Sight tube, 12 inches long, is brass, nickel plated, with small eye opening at one end and usual cross wires at other. Level case and graduated arc are also nickel plated and the other parts nicely japanned. No magnetic needle or complicated mechanism about this instrument, and with the complete directions we furnish with each one, anyone can use it and get perfect results. Shipping weight, about 25 pounds.

No. 9N5475 Complete in nicely finished wood box.....$13.90

For other leveling and surveying instruments write for Special Surveying Instrument Catalog.

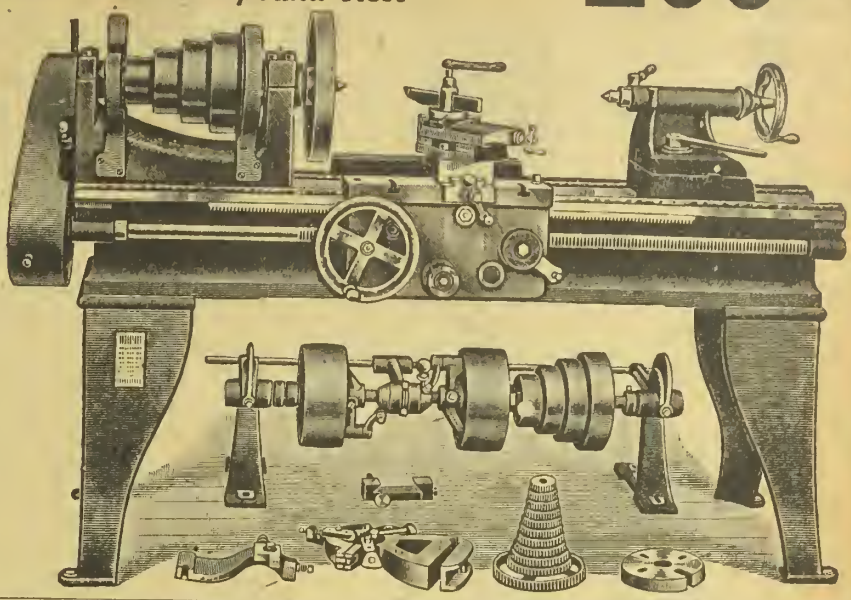
Expert Screw Cutting Engine Lathes $266.00 and up

Automatic Longitudinal and Cross Feed—Compound Rest

WE MAKE PROMPT SHIPMENT on any lathe ordered from this catalog. Parts are in stock at factory finished ready for assembling as soon as order is received and shipment is usually made within ten days.



SPECIFICATIONS.

Bed is rigid. Cross ribbed by heavy box braces cast in at short intervals entire length. Three V's and one flat way for guiding head stock, tail ck and carriage. Rack is of steel cut from the solid bar.

Head Stock, equipped with reverse. Cone has four steps for belt which, h back gears, gives eight changes of spindle speed. Spindle is of special bon steel with hole its entire length. Centers are No. 3 Morse Taper. arings are phosphor bronze with ample oiling facilities and are adjust- le for wear.

Tail Stock is offset to allow compound rest to swivel parallel to bed l is provided with set over for turning taper. Tail stock center is self- cting.

Carriage has T slots for clamping work for milling and boring. Both omatic cross feed and automatic longitudinal feed are operated from nt of apron and but one feed can be engaged at a time. Both feeds are ven by a splined lead screw and work so that the thread of the lead sw is used for screw cutting only.

Thread Cutting. Lathe is indexed to cut standard threads from 4 to 40, ht or left, including 11½ pipe thread.

Graduation. Compound rest is graduated in degrees. Cross feed screw graduated micrometer collar reading in one-thousandths of an inch.

Equipment (as shown in illustration) is included in the price and sists of large and small face plates, compound rest, two steel centers, ter rest, follower rest, change gears, adjustable stop for screw cutting, l gears, gear guards, necessary wrenches and a double friction counter- ft.

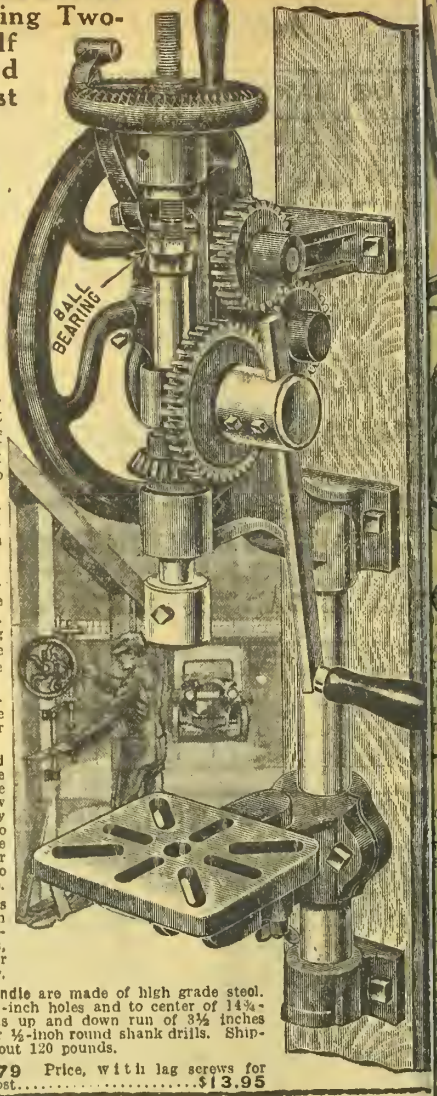
Blacksmiths' Acme Ball Bearing Two-Speed Self Feed Third Gear Post Drill.

$13.95

EASY RUNNING.

STRONGLY MADE OF HIGH GRADE MATERIAL.



Made extra strong at points of greatest strain. Adapted to all kinds of work. Especially recommended for general blacksmith and repair shops.

DESCRIPTION.

Bearings are made of die steel. Make running easy and double the life of the drill.

Self feed attachment can be set to a fast or slow speed.

Improved third gear enables the operator to change to a fast or slow speed by simply changing the crank from one shaft to another on the same side of the machine.

Drill table is extra heavy, can be raised or lowered 11 inches, swung around or removed entirely.

Shaft and spindle are made of high grade steel. Drills up to 1¼-inch holes and to center of 14¾-inch circle. Has up and down run of 3½ inches and is bored for ½-inch round shank drills. Shipping weight, about 120 pounds.

No. 99N5079 Price, with lag screws for fastening to post.....$13.95

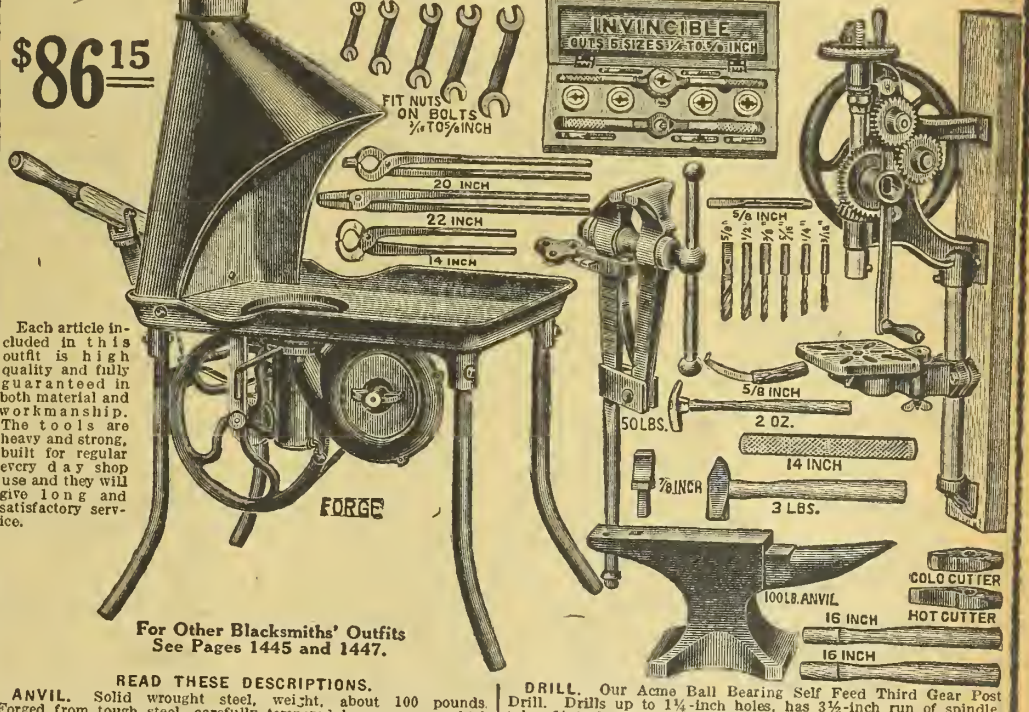
Improved Vulcan Outfit of Blacksmiths' Tools

$86.15



Each article included in this outfit is high quality and fully guaranteed in both material and workmanship. The tools are heavy and strong, built for regular every day shop use and they will give long and satisfactory service.

For Other Blacksmiths' Outfits See Pages 1445 and 1447.

READ THESE DESCRIPTIONS.

ANVIL. Solid wrought steel, weight, about 100 pounds. Forged from tough steel, carefully tempered by a process which makes it exceptionally hard without being brittle and very tough without being soft. The horn and heel are long and well shaped. Base has a wide spread insuring great stability and prevents tipping when forging heavy work on the extreme ends of the anvil.

FORGE. Our Improved Vulcan Forge with half hood. Has 12-inch blower, 24½x35½-inch hearth, is 30 inches high and weighs about 195 pounds. Will furnish blast enough to produce a welding heat on 3-inch iron in five minutes.

DRILL. Our Acme Ball Bearing Self Feed Third Gear Post Drill. Drills up to 1¼-inch holes, has 3½-inch run of spindle, takes ½-inch round shank bits and drills to center of 14¾-inch circle. Weight, crated, about 120 pounds.

SCREW PLATE. Invincible Screw Plate, with five taps and five pairs of dies, cutting ¼-20, 5/16-18, ⅜-10, ½-12 and ⅝-11-inch. Set has one stock, 16 inches long, and one tap wrench, 16 inches long in hardwood box.

VISE. Our Blacksmiths' 50-pound wrought Vise with solid box and steel jaws. Outfit also includes complete assortment of good quality hand tools, as illustrated.

No. 99N5013 Complete outfit, as illustrated and described. Shipping weight, about 500 pounds. Price $86.15

Blacksmiths' Solid Box Vise

Heavy steel jaws, tempered hard and tough. Screws are heavy and strong, threads are carefully cut and thread boxes are solid. Vise furnished with two loose screw collars to work on outside of jaws, which prevents binding. Lag screws furnished for fastening to bench.

Farmers' Big Combination Repair Outfit

A Big Outfit of 16 High Grade, Useful Tools, Invaluable for Making Quick Repairs in Busy Times.

Every farmer and ranchman should own one of these handy outfits for making light repairs. Saves valuable time that would otherwise be spent on the road to and from the blacksmith shop. These tools will enable you to make all ordinary repairs in a few minutes' time. On even a small size farm this outfit will save its first cost many times over.

OUTFIT INCLUDES:

Combination Vise and Pipe Vise, Anvil, Drill, Forge and Blower. Vise jawe are 3½ inches wide and open 9 in. Pipe vise takes any size pipe up to 1¼ inches outside measurement. Anvil measures 12 inches long over all and is furnished with hardie. Drill takes all sizes round shank drills with ½-inch shank. Blower has crank handle, works easily and furnishes a sufficiently powerful draft to heat all ordinary work.

Blacksmiths' 1-Lb. Hammer.
Solid Frame Hack Saw with 8-inch blade.
8-Inch Steel Monkey Wrench.
6-Inch Combination Pliers and Wire Cutter.
Thread Cleaner and Alligator Wrench.
6-Inch Champion Pattern Screwdriver.
4-Inch Champion Pattern Screwdriver.
⅝-Inch Cold Chisel.

YOU'LL FIND ORDER BLANKS IN THE BACK OF THIS CATALOG

$99.65 Our Big Masterworkman Blacksmiths' Outfit

THIS OUTFIT WILL TAKE CARE OF THE HEAVIEST WORK, AND CONTAINS ALL THE TOOLS NEEDED BY THE BLACKSMITH AND HORSESHOER. ESPECIALLY FOR HIGH CLASS IRONWORKERS, MEN WHO DEMAND THE BEST.

READ THESE DESCRIPTIONS CAREFULLY.

ANVIL. American Wrought Anvil. Weight, about 125 pounds. Made of tough steel properly tempered. Has long well shaped horn and heel. Wide spread of base prevents tipping when forging heavy work on extreme ends.

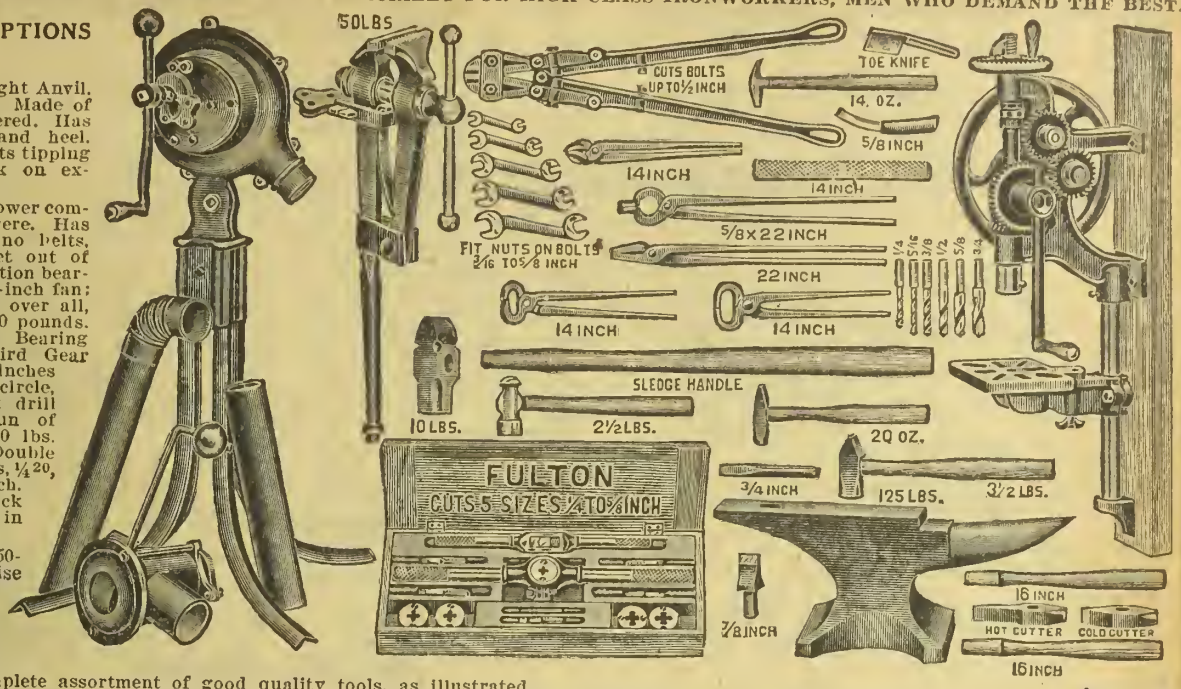
BLOWER. Our Tiger Blower complete with piping and tuyere. Has flat, straight cut gears; no belts, clutches or ratchets to get out of order, steel shafts, composition bearings, and turns easily. 8⅞-inch fan; 1¼-inch fan case; height, over all, 3 inches; weight, about 120 pounds.

DRILL. Our Acme Ball Bearing Two-Speed Self Feed Third Gear Drill. Drills holes up to 1¼ inches and to center of 14¾-inch circle, takes ½-inch round shank drills, lifts, and has 3½-inch run of spindle. Weight, about 120 lbs.

SCREW PLATE. Fulton Double Die Screw Plate, cuts five sizes, ¼-20, ⅜-16, ½-12 and ⅝-11 inch. Complete with 22-inch stock and 16-inch tap wrench, in hardwood case.

VISE. Our blacksmiths' 50-pound solid box wrought vise with tempered steel jaws.

BOLT CLIPPERS. One pair Fulton Bolt Clippers, will cut up to and including ½-inch bolts. Adjustable to take up wear and have rubber bumpers.



Outfit also includes complete assortment of good quality tools, as illustrated.

No. 99N5018 Complete outfit, as illustrated and described. Shipping weight, about 540 pounds. Price..... **$99.65**

Mole Tire Shrinker or Upsetter

$15.35

By means of pin and three holes in end of lever bar, shrinker can be adjusted to take either light or heavy tires. Bringing down lever forces dogs to grasp tire and shrink it, making it shorter without cutting and welding. Made of cast iron, with steel pins, bolts and springs and case hardened dogs. So proportioned that the weight is distributed at points of greatest strain. Anti-Kink attachment holds tire down, not allowing it to kink or buckle up. We can only furnish sizes 2 and 3 equipped with Anti-Kink, as per list below. Size 1 not made with Anti-Kink attachment. All sizes furnished with iron lever stub for welding to any length handle desired.

No.	Size		Shrinks Tires, Inches	Shpg. Wt., Abt., Lbs.	Price
99N5150	No. 1	Without Anti-Kink	Up to 2½	130	$ 8.95
99N5151	No. 2	Without Anti-Kink	Up to 3	210	14.35

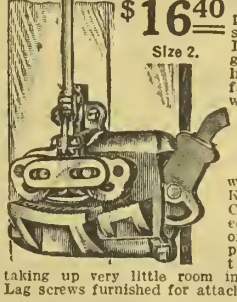
99N5154	No. 3	With Anti-Kink	Up to 4	290	17.90

Stoddard Tire Shrinker

$16.40



Well made, powerful and substantial. Dogs that grip tire have chilled faces which will not soften by contact with hot iron. Equipped with Anti-Kink device. Can be bolted to plank or upright post out of the way, taking up very little room in the shop. Lag screws furnished for attaching to post.

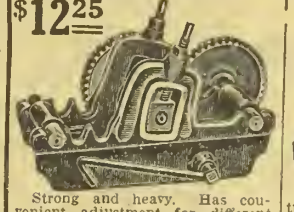
No. 99N5161 Size 1. Shrinks tires up to 2 in. Shipping weight, about 120 pounds. Price.....$8.90

No. 99N5162 Size 2. Shrinks tires up to 4 in. Shipping weight, about 250 pounds. Price.....$16.40

No. 99N5163 Size 3. Special. Sets axles up to 1¾ inches and has extra jaws for shrinking tires up to 4 inches wide. Shipping wt., about 320 pounds. Price.....$19.90

Double Geared Tire Bender

$12.25



Strong and heavy. Has convenient adjustment for different thicknesses of tires. Turned rollers on steel shafts. Bends tires up to and including 5 in. Has 2 cranks which can be used on opposite sides thus giving double power when used on heavy work. Lag screws furnished for fastening in place. Shpg. wt., about 160 lbs.

No. 99N5146 Price.$12.25

Acme Geared Tire Bender

$7.95 For Tires up to 3¼ In.

Made on heavy iron base, has turned rollers, steel shafts, gear and pinion. Will bend tires to a 24-inch circle or larger and bend a perfect circle every time.

No. 99N5144 Bends tires up to 3¼ inches wide. Shipping wt., about 85 pounds. Price...$7.95

No. 99N5145 Bends tires up to 6 inches wide. Shipping weight about 120 pounds. Price..$10.15

Wiley & Russell's Graduated Tire Measuring Wheel

Figures and lines on wheel are stamped and easily read. Wheel is drop forged and is exactly 24 inches in circumference. Weight, about 1¼ pounds.

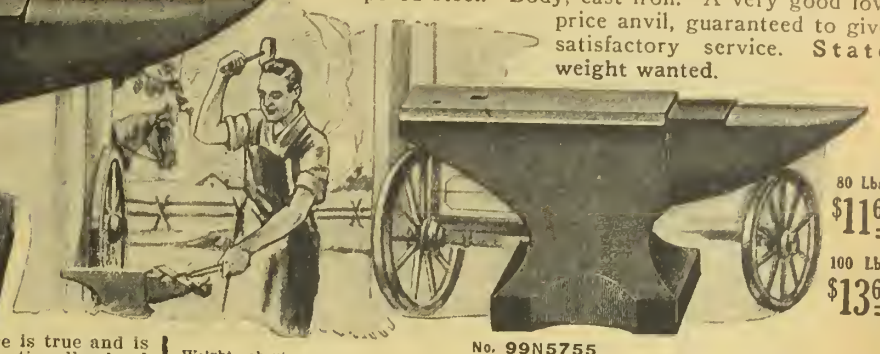
Acme American Wrought Anvil

"RINGS LIKE A BELL"

Correct in Temper, Design and Finish. High Grade in Quality, Material and Workmanship.

HARDIES FOR ANVILS
Order ¾-inch for anvils up to 100 pounds; ⅞-inch for anvils 100 to 150 pounds; 1-inch for anvils over 150 pounds. See below for prices.

Only **20c** Pound and Up.



80 Lbs. $11.60
100 Lbs. $13.60

Stands the test of the most critical mechanic. The face is true and is carefully tempered by a process which makes it exceptionally hard without being brittle and very tough without being soft. The horn and heel are long and well shaped. The base, having a wide spread, insures great stability and prevents tipping when forging heavy work on the extreme ends of the anvil. **State weight wanted.**

OUR GUARANTEE

We guarantee the Acme Anvil to be absolutely satisfactory in everyday use, and if after using it in your shop for thirty days you are dissatisfied with it in any way, you may send it back at our expense and get your money back.

Here Is a Handy Pipe Threading Tool.

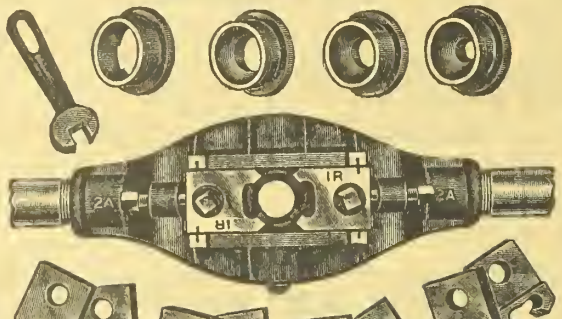
Threads three different sizes of pipe, ⅜, ½ and ¾-inch, without changing a die or guide. Any Armstrong pattern No. 2 die and guide can be used in it. Dies are adjustable to cut deep or shallow threads, as desired, and can easily be sharpened on a grindstone when dull. Stock is malleable iron. Dies are tempered tool steel.

No. 42N6011 Hercules 3 in 1 pipe stock with three dies and guides to thread ⅜, ½ and ¾-inch pipe. Price **$8.00**

No. 42N6012 Extra dies for above stock, pipe sizes, ⅛, ¼, ⅜, ½, ¾ and 1 inch. Price, each size..... **$1.00**

No. 42N6013 Extra guides for above stock, pipe sizes, ⅛, ¼, ⅜, ½ and ¾ inch (the stock acts ae a guide for 1-inch pipe). Price, each size..... **20c**

You Can Adjust and Resharpen the Dies in These Stocks.



Hercules Adjustable Stocks are fitted with dies that can be adjusted to cut a deep or shallow thread on the pipe. This is very convenient when threading pipe for old fittings that have been spread or for new ones that are not tapped quite deep enough. The dies are quick and easy cutters and can be sharpened on grindstone or emery wheel when worn. Each die has a double taper, forming a lead which causes them to start on the pipe without filing, even when there is a swell or burr.

No. 42N6014 Hercules No. 2 Adjustable Stock and Dies. Threads ¼, ⅜, ½, ¾ and 1 inch, right hand. Complete as illustrated. Shipping weight, about 17 pounds. Price, per set..... **$6.10**

Extra Pipe Dies, each size, two pieces. Price..... **1.00**

Extra Guides. Price, each size..... **.20**

No. 42N6015 Hercules No. 2½ Adjustable Stock and Dies with four dies, cutting ½, ¾, 1 and 1¼ inches, right hand. Furnished with handles, dies and guides, complete. Shipping weight, about 23 pounds. Price, per set..... **$7.20**

No. 42N6020 Hercules No. 2¾ Stock and Dies, furnished with dies to thread from ¼ to 1¼-inch pipe. Price, per set..... **$10.80**

Extra Pipe Dies for either of above numbers, each size, two pieces **1.75**

Extra Guides. Price, each size..... **.25**

No. 42N6016¼ Hercules No. 3 Adjustable Stock and Dies. Complete with three size dies, cutting 1¼, 1½ and 2 inches, right hand. Shipping weight, about 29 pounds. Price, per set..... **$9.35**

Extra Pipe Dies, each size, two pieces. Price..... **2.50**

Extra Guides. Price, each size..... **.35**

No. 42N6017¼ Hercules No. 6 Adjustable Stock and Dies. Shipping weight, about 80 pounds. Price, complete with 2½ and 3-inch dies **$24.00**

No. 42N6018¼ Hercules No. 7 Adjustable Stock and Dies. Shipping weight, about 100 pounds. Price, complete with 3½ and 4-inch dies. **$27.25**

NOTICE—All parts of above will interchange with standard makes of Armstrong Stocks and Dies.

Prices quoted on application for dies or guides for No. 42N6017¼ and No. 42N6018¼ stock and dies. When writing be sure to state size wanted.

For Blacksmiths' Die Stocks See Page 1438.

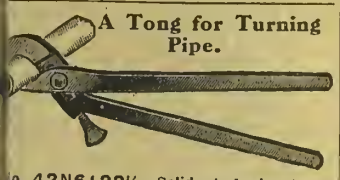
Automatic Pipe Wrench.

No. 42N6150 Grips pipe without adjustment. Made of drop forged steel with polished head.

Length, in.	10	14	18	24
Takes pipe, inches	⅛ to 1	¼ to 1½	⅜ to 2	½ to 2½
Shipping wt., abt., lbs.	1½	2½	4½	11
Price	80c	$1.08	$1.60	$2.40

A Tong for Turning Pipe.

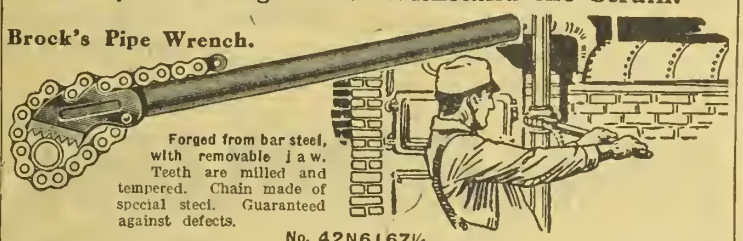


No. 42N6122¼ Solid steel pipe tongs, drop forged.

Number	Takes Pipe From, In.,	Shpg. Wt., Abt., Lbs.	Price
1	⅛ to ¾	3¼	$0.90
1½	⅜ to 1	4½	1.15
2	⅜ to 1¼	5	1.30
3	½ to 2	13	1.80
4	1½ to 3	21	4.05

They Hold Tight and Withstand the Strain.

Brock's Pipe Wrench.



Forged from bar steel, with removable jaw. Teeth are milled and tempered. Chain made of special steel. Guaranteed against defects.

No. 42N6167¼

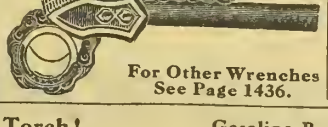
Size No. 1. Will hold pipe ¼ to 2 inches; length, 20 inches. Shipping weight, about 5 pounds. Price $2.65

Size No. 2. Will hold pipe ¼ to 3 inches; length, 27 inches. Shipping weight, about 8 pounds. Price $3.85

Size No. 3. Will hold pipe ¾ to 6 inches; length, 37 inches. Shipping weight, about 24 pounds. Price $5.40

Hercules Chain Wrench.

Has a double set of jaws with teeth slanted so as to allow it to take an immediate hold on pipe, and also force jaws against handle instead of spreading them. All parts interchangeable. Made of wrought steel.



No. 42N6168¼

Size	1	2	3
Length, inches	20	27	45
Will hold pipe, in.	⅛ to 1½	¼ to 3	¾ to 6
Shpg. wt., about, lbs.	5	14	24
Price	$2.95	$4.10	$7.45

For Other Wrenches See Page 1436.

The Tool for Home, Shop or Garage.

Holds material of any shape, square or round or oval. Length, 7 inches. Drop forged steel, nickel plated. Shpg. wt., 1 lb.

No. 42N6138 Price 75c

Handy Adjustable Wrenches.

No. 42N6146 For gripping pipe, bolts, rods, etc. Well made with jaws and nut of steel.

Length, 6 inches. Takes pipe ⅛ to ⅜ inch. Shpg. wt., about 8 oz. Price 65c

Length, 8 inches. Takes pipe ⅛ to ¾ inch. Shipping wt., abt. 1 lb. Price.. 80c

Length, 10 inches. Takes pipe ⅛ to 1 inch. Shipping wt., about 2 lbs. Price $1.02

Length, 12 inches. Takes pipe ⅛ to 1½ inches. Shipping wt., about 3½ lbs. Price.. $1.30

Same as above, except has jaws at both ends. One for bolts or pipe, the other for squares or hexagons. Takes pipe ⅛ to ½ inch. Shipping weight, about 8 ounces.

No. 42N6144 Price. 94c

Soline Blast Torch.

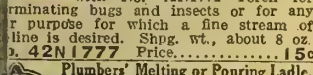
With soldering copper attachment. High quality brass.

No. 42N1770 Capacity, 1 pint. Shipping wt., about 4½ lbs. Price $4.25

No. 42N1771 Capacity, 1 quart. Shipping weight, about 5½ pounds. Price, $4.60

Brass Spray Nozzle. Used with No. 42N1771 Torch for exterminating bugs and insects or for any other purpose for which a fine stream of gasoline is desired. Shpg. wt., about 8 oz. **No. 42N1777** Price 15c

Plumbers' Melting or Pouring Ladle.



No. 42N1780 Wrought iron, with two pouring lips.

Length across bowl, in.	3	4	5
Shipping wt., about	12 oz.	1 lb.	1¼ lbs.
Price	30c	35c	40c

1¼ inch ladle fits Melting Pot No. 42N1769.

Melting Pot.

To fit No. 42N1767¼ and 42N1768¼ Furnaces. Shipping weight, about 4 pounds.

No. 42N1769 Price..40c

Use a Blow Torch! Use a Blast Furnace!

Have you a soldering copper to heat? Have you old paint on wood or metal to burn off? Do you have frozen water pipes in the Winter to thaw out? Use a Blow Torch.

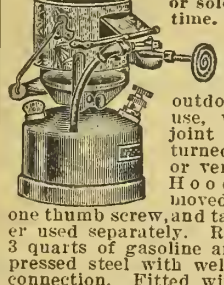
Have you solder or lead to melt? Have you more than one soldering copper to heat at the same time? Do you ever go camping? Use a Blast Furnace and Camp Stove.

Gasoline Brazing Torch.

With soldering copper attachment. Heavily constructed. Neat, compact design. No pump. Pressure created by gasoline vaporizing. Gives 1,800 degrees heat under proper conditions. Suitable for all purposes for which an intense heat is required. Can be held in any position. Copper plated steel container with oxyacetylene welded joints; adapted for rough usage. Capacity, ¾ pint. Shipping weight, about 4½ pounds.

No. 42N1772 Price..... $5.90

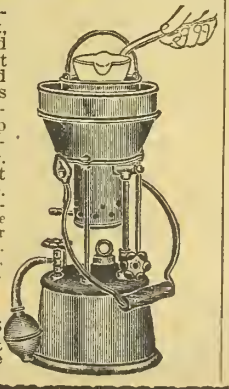
Combination Gasoline Furnace.



Heats soldering irons and melts lead or solder at the same time. Compact. Reliable. Has new type burner, designed for outdoor or indoor use, with swivel joint so it can be turned to horizontal or vertical position. Hood can be removed by loosening one thumb screw, and tank with burner used separately. Reservoir holds 3 quarts of gasoline and is made of pressed steel with welded seam and connection. Fitted with brass filler plug and improved brass pump with needle stop valve. Hood has cover, soldering iron rest and wind shield. Height, 12 in.; diameter, 8¼ in. Shpg. wt., abt. 11 lbs.

No. 42N1767¼ Price..... $8.75

Gasoline Plumbers' Blast Furnace and Camp Stove.



Easy to generate. Compact, well made and reliable. Lift off top and furnace makes a very satisfactory camp stove for cooking, frying, etc. Produces a hot blue flame. Melts lead or solder quickly. Made of steel. Reservoir has welded seams. Shipping weight, about 12 pounds.

No. 42N1768¼

Price $4.95

Melting Pot not included in above price.

Gasoline Flat Blow Torch.

With soldering copper attachment. Takes but little space in your automobile tool box or plumbers' tool kit. Made flat, for use in narrow or close places. Made of brass, with steel conductor tube and needle valve. Has double check pump and bracket to prevent tipping. Size, about 7x9x2 inches. Capacity, 1 pint. Shipping weight, about 6 pounds.

No. 42N1776 Price..... $6.60

The New Way in Farming

Multiplies Farm Production and Profits

Amazing discoveries have been made in farming which have completely revolutionized production and profits. The New Way has turned failure land into profit land, has made the difference between small profits and big profits, has solved difficult problems of soil fertility, drainage, plowing, planting—in fact, practically every farming operation including live stock, dairy, marketing methods and the farm home. You cannot afford to farm the old way when you can secure, for less than 7 cents a day, the help of over one hundred of America's New Way farmers and farming authorities—each man a specialist in his chosen branch of agriculture. The net result of the experience of these men has been compiled and made instantly available to every farmer through Sears, Roebuck and Co.'s new library of farming practice—

FARM KNOWLEDGE

This splendid work comprises four volumes—2,000 pages—3,000 illustrations. Every chapter written in simple language, easy to understand. The ideas given are so practical they can be applied at once. Glance at the partial list of contributors—think of having the constant help, on your own farm, of over one hundred such men! Glance at the partial list of contents—think of having at your finger tips over 2,000 pages of such facts completely illustrated. Why farm alone when you can have such help?

Partial List of Contributors

Only a few of the one hundred Farming Authorities who wrote FARM KNOWLEDGE for you.

C. F. Curtiss, one of the biggest live stock men in the country and probably the best judge of heavy horses in America.

W. S. Corsa, owner of "Carnot," one of the finest Percheron horses in the world; a practical farmer with a large model farm at Whitehall, Ill.

C. B. Hutchison, one of the owners of Waterloo Jersey Farm, at Waterloo, Iowa. A practical breeder and dairyman of many years' experience.

F. C. Minkler of New Jersey and J. M. Evvard of Iowa, two big national authorities on cattle and swine feeding.

C. H. Eckles of the University of Missouri, an outstanding American authority on Dairy Breeding.

E. H. Farrington, one of the most prominent authorities in America on Agricultural Chemistry.

C. S. Plumb of Ohio, a national authority on producing beef.

Alva Agee, famous Secretary of Agriculture of New Jersey.

Dean W. N. Jardine of Kansas, a leading authority in the United States on Dry Farming.

Reese V. Hicks, formerly president of the American Poultry Association.

Partial Table of Contents

Space permits giving only a brief list of the other contents of each volume. See the set for yourself at our risk.

Volume I.

Practical Horse Breeding, Breaking, Training, Feeding. Care of the Dairy Herd. Care of the Beef Herd. How to Raise Hogs. Care of Poultry and Birds. Common Diseases of Farm Animals and How to Treat Them. Milk, Butter and Cheese, etc.

Volume II.

Soils, Tillage, Drainage, Irrigation, Dry Farming, Explosives, Fertilizers. Systems of Farming in Every Section of the Country. How to Grow Crops. Truck Growing. Fruit Growing. How to Better Your Yields from Year to Year. Plant Enemies and Diseases and How to Fight Them, etc.

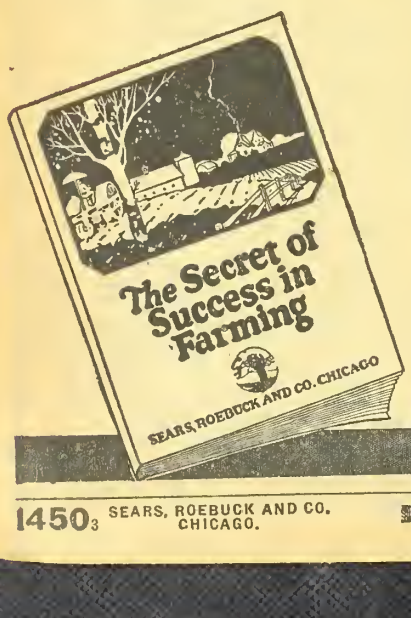
Volume III.

Horse-Drawn Work Outfits and Pleasure Vehicles. Harness, Its Use and Care. Motorcycles and Light Automobiles. The Auto-Truck on the Farm. The Farm Tractor. Farm Machines and Machinery. Gasoline and Kerosene Engines. Electricity. Farm Buildings. Walls and Fences. The Silo etc.

Volume IV.

System of Farming. Successful Marketing Methods. The Farmer and the Law. The Farm Woman. Her Work and Play. Boys and Girls on the Farm. Farming Facts and Opportunities. Importance of Different Crops. General Price of Farm Land, etc. (Volume IV also contains Index of the four volumes.)

Write Postal or Mail Coupon For This Book



Send your name and address TODAY on coupon below or use a post card. We want every farmer in the United States to have a copy of this new illustrated booklet about better farming methods and bigger profits. It tells about the thousands of secrets of great farming successes presented in FARM KNOWLEDGE—shows how this new helping hand enables YOU to apply these secrets to your own farm so you can make more money and stop losses.

You cannot afford to miss the complete description of this great work. Send today for the free booklet, "The Secret of Success in Farming," which goes into detail, gives a list of contributors, table of contents, sample pages and shows many illustrations from the four volumes. Mail coupon or postal now. Please ask for Farm Knowledge Booklet No. 1450N2, "The Secret of Success in Farming."

"FARM KNOWLEDGE" Means Real Help for Every Farmer.

Official War Pictures Taken and Distributed by the U. S. Government

Description

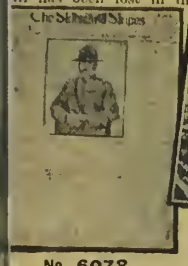
These photographs, which come from the archives of the Government, are made by the official photographers of the Signal Corps of the United States ny, of the French Army and the Belgian Army, and are distributed to you at t by the committee on Public Information of the United States Government. y are 6½x8½ inches in size, photographed on heavy paper and enable you to ive photographs which you could not get in any other way. These photographs er points of information and interest to everyone, not only pertaining to our boys oad, but general information about the war.
The pictures you receive are actual photographs, but much of the wonderful ail has been lost in these small reproductions.

10c EACH

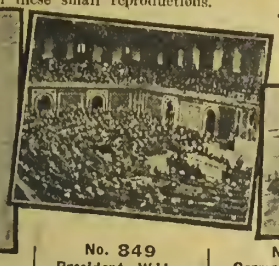
How to Order

Write the number or numbers of the photographs desired and enclose coin or money order at the rate of 10 cents each. Write your name and address plainly and send the order to Division of Pictures, Committee on Public Information, Washington, D. C. Photographs will be sent to you postpaid. This space is donated to the Government by Sears, Roebuck and Co. We do not have these pictures for sale. Send order and money direct to Division of Pictures, Committee on Public Information, Washington, D. C. Do not send your order to Sears, Roebuck and Co. Send your order direct to Washington.

Historical



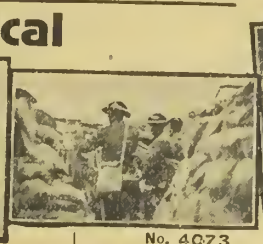
No. 6078
he Sammies' Newspaper. newspaper printed for Sammy in France ap- ed on Feb. 8, 1918. The ograph of Pershing is of his first pictures ing the four-star insig- of a General.



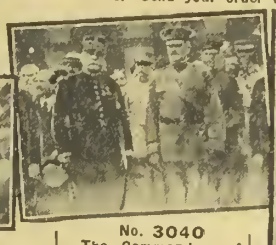
No. 849
President Wilson on December 4, 1917, reading his message to Congress recommending a declaration of war against Austria-Hungary. The declaration was passed December 7, 1917.

No. 1565
German Submarine and Crew which surrendered to the U. S. S. Fanning. This was the first capture at sea of Germans by American forces and is an event which will go down in history.

No. 2470
Declaration of War Against Germany. This is a photograph of the actual document which marked America's entrance into the world war. It is signed by President Wilson, Vice-President Marshall and Speaker Champ Clark.



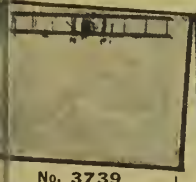
No. 4073
First American Troops In Trenches. This photograph is of great historical value as it shows the American troops actually on the firing line in France, equipped with steel helmets and gas masks.



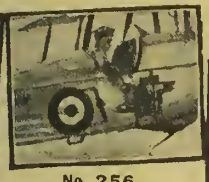
No. 3040
The Commanders of the American and French Armies. General Pershing and Marshal Joffre, attended by their staffs in France. Brings you face to face with two of the really great military men of the present time.

No. 229
American Troops Marching Through London in June, 1917. The welcome they received can be realized by the crowds shown in this photograph.

Airplanes and Camouflage

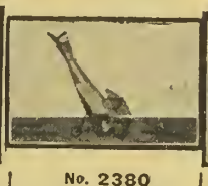


No. 3739
Giant Caproni. This of airplane is the of the airplane fam- In the big cabin can een several passen- and the size of the ine may be judged mparing the size of nen in it with the d of the wings.

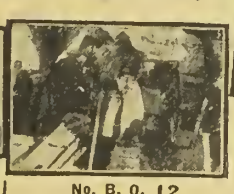


No. 256
One of the chief uses of the airplane in war is to fly over the battlefields and make photographs. This picture shows how the camera which takes such pictures is operated. The shutter is worked by strings or buttons and new plates are loaded into the camera automatically.

No. 2953
The Dirigible Balloon has certain advantages over its faster brother, the airplane. This picture shows a close up view of the car and bag of the American machine.



No. 2380
One of the most difficult things a student aviator has to learn is how to make a safe landing. This picture shows a student who has not yet learned this lesson.

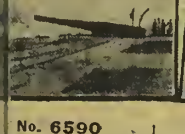


No. B. O. 12
The use of trees and brush to hide artillery is the simplest form of camouflage, and has been used in previous wars, but has been improved to make it effective against airplane scouts.

No. 340
The "Dead Horse" Camouflage. Seen from the other side this would appear to be a dead horse lying on the battlefield, but the picture shows it is artificial and hollowed out so that an observer can be concealed within.

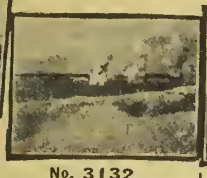
No. 1342
President Wilson recently had a lesson in the art of camouflage. A soldier was concealed under a rock within ten feet of the President. The plaster paris imitation rock was then rolled away and the soldier jumped out.

Artillery and Trenches



No. 6590
s is the type of **nat is mounted all** **our coasts to pro-** **us against inva-** This 12-inch disring gun at Fort r, Key West, Fla., ng sunset salute. of even larger r are placed in forts.

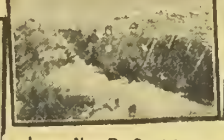
No. 6365
Heavy artillery used by the American Expeditionary Forces is being built by the French Government. Here we see some of these big guns being hauled by Renault tractors. The guns are 155 millimeter caliber, which is approximately 5.8 inches.



No. 3132
When Troops Advance Over No Man's Land they are protected usually by a curtain of fire known as "barrage." This consists of laying shots next to each other in a straight line, as shown in this picture.

No. F. D. 869
Famous French "75" Millimeter Gun mounted for antiaircraft use and camouflaged to prevent its detection by the airplanes which it is seeking to destroy. The bore of this gun is approximately 2.8 inches.

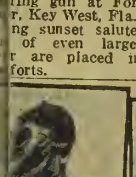
No. F. O. 85
At intervals in front of the regular trenches there are observation posts, called "listening" posts. The soldier on the left is using a range finder which is camouflaged to prevent detection.



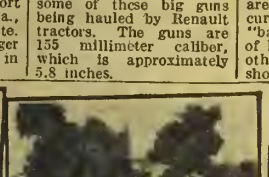
No. B. O. 13
Belgian Soldiers of the Front Line Trench removing comrade overcome by gas. This picture shows how the Belgians protect themselves from the gas, also the kind of trenches constructed in the sandy part of Flanders.

No. F. O. 98
When the army advances it leaves behind it a trail of destroyed forests, shell-pitted earth, and mud, and when No Man's Land comes in the control of one side or the other it looks like that shown in this picture.

Gas and Flame—War Ruins

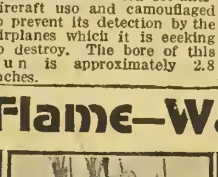


No. 706
soldier in this pic- wearing a regula- us, mask. The mask e face is designed tect the eyes and om poisonous gases. ibe runs into the ier of chemicals and the air breathed.

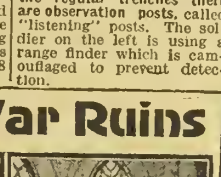


No. 3260
Here we see French soldiers demonstrating liquid fire. This method of warfare, invented by the Germans and adopted by the Allies, is now being taught to American troops. The effect of the fire is shown on the flaming trees and bushes.

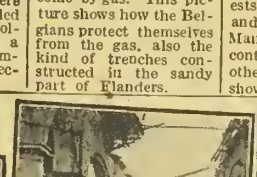
No. 651
In this picture we see two soldiers wearing gas masks for protection, cleaning the gas out of the trench with fans, called flappers. The gas remains in the surface earth of the trench and must be blown out.



No. F. D. 44
After having been under German gun fire this is all that is left of the beautiful French chateau and its parks. Pulverized ruins give some idea of the trail left behind the Germans in France and Belgium.



No. F. O. 367
When we think of Rheims we usually think of the great cathedral there, but that was not the only church in Rheims which was wrecked by the invader's guns. The church of St. Andre is now a ruin. The crucifix seems to be the only part intact.



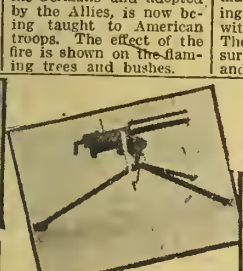
No. F. O. 337
Magnificent cathedrals and simple churches have suffered equally at the hands of the invading Germans. This simple church is almost a total ruin and is only one of hundreds that met the same fate.

No. F. O. 120
The Nave of the Beautiful Cathedral of Arras was demolished by the continuous bombardment in that neighborhood. This city is near one of the most active sectors of the Western front, and the ruin suffered by the cathedral is typical of the devastation in the entire vicinity.

Miscellaneous

Send order and money for pictures on this page (10 cents for each picture) direct to Division of Pictures, Committee on Public Information, Washington, D. C. Do not send your order to Sears, Roebuck and Co. Send your order direct to Washington.

No. 3069
eral John J. Pershommander of the an Expeditionary n France. General g is the first and American general nding United States ou European soil. photograph shows ated at his desk work.

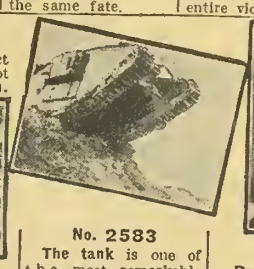


No. 5308
This is the 1918 Model Browning Machine Gun. It is fed from a belt of 250 rounds of cartridges. In one test 20,000 shots were fired in 48 minutes and 16 seconds. The gun weighs 34½ pounds.

No. 2505
The artistic value of this photograph is great. It was taken in Georgia during battle practice by artillerymen and shows the training they are receiving.

No. 1079
The U. S. Destroyer Jacob Jones. First American warship lost in the great world war. Torpedoed and sunk December 6, 1917. The commander was Lieutenant David Worth Bagley, U. S. N.

No. 2511
Our boys in khaki. Here we see several thousand at Camp Hancock, Ga., going through their setting up exercises.



No. 2583
The tank is one of the most remarkable machines the war has brought forth. Tanks have "done their bit" at the front. British Tank F-1, about to cross a deep shell crater.

No. 4984
President Wilson. Every home should have a photograph of the President of the United States, the Commander in Chief of all our armed forces.

PLOW AND IMPLEMENT REPAIRS

We guarantee these repairs to fit the plows or implements for which they are intended whenever the original parts made by the manufacturer will fit. All items on this page are shipped from our CHICAGO store.

FINISHED FITTED PLOWSHARES.

With Bolts. Ready to Attach.

Right Hand Only.

Right Hand Shares to fit plows only as listed.

Crucible Steel Shares should be used in sandy, gravelly or stony soils, or where obstructions are apt to break hard tempered shares. No manufacturer can guarantee hard tempered shares against such breakage, or against breakage through being improperly bolted to the plow bottom.

Hard Tempered Soft Center Steel Shares are intended for use in sticky soils and ground practically free from stones, but unless your soil is of such a nature, we recommend the use of Crucible Steel Shares.

When ordering give our catalog number, size of share wanted, the name or make of your plow and the exact figures and letters which appear on the back of your old share. Average weights, 12, 14 and 16 pounds for corresponding sizes.

MOWER SECTIONS (WITH RIVETS).

When ordering give our catalog number, the name and kind of machine and the size of section wanted. It is also well to send us a paper pattern showing exact size and shape of old section and size and location of rivet holes. We can furnish sections for all the prominent makes of machines and can fill your order from the paper pattern if the repairs you want are not listed below.

No. 32N7100 Box of 20 Smooth Sections, complete with rivets. Weight, about 4 pounds. Price.....89c

Champion ..3x3⅜ | Deering ....3x3⅜ | McCormick...3x3⅜

ROUGH BINDER SECTIONS (WITH RIVETS).

No. 32N7101 Box of 20 Rough Binder Sections, complete with rivets. Weight, about 3 pounds.

Price.....90c

McCormick...3x2⅛ | Deering....3⅛x2⅛ | Milwaukee.3⅛x2⅛

MOWER KNIVES COMPLETE WITH KNIFE HEADS.

When ordering state the name and kind of machine, how many cutting sections are on the old knife and also give us the figures or letters on the old knife head.

No. 32N7105 4½-Foot Smooth Knife, with 18 sections or less. Shipping weight, about 9 pounds. Price.....$2.00

Champion...A415X | Deering.....D463 | McCormick...M139

No. 32N7106 5-Foot Smooth Knife, with 19 or 20 sections. Shipping weight, about 10 pounds. Price.....$2.15

Champion...A415X | Deering.....D463 | McCormick...M139

No. 32N7107 6-Foot Smooth Knife, with 21, 22, 23 or 24 sections. Shipping weight, about 12 pounds. Price.$2.40

Champion...A415X | Deering.....D463 | McCormick...M139

KNIFE HEADS.

When ordering state the name and kind of machine, also give us the figures or letters on the old knife head.

No. 32N7109 Knife Head. Wt., abt. 2 lbs. Steel Knife Heads, Deering F123 and Buckeye 864. Price, 45c; all others..29c

Champion...A415X | Deering.....D463 | McCormick...M139

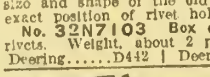
GUARD PLATES.

When ordering tell us the name and kind of machine and give us the figures or letters that appear on the guard the plates are to fit. If possible send us a paper pattern showing size and shape of the old plate and the exact position of rivet holes.

No. 32N7103 Box of 20 Guard Plates, complete with rivets. Weight, about 2 pounds. Price.....72c

Deering.....D442 | Deering.....D698 | McCormick...M462

GUARDS.



When ordering guards tell us the name and kind of machine and give us the figures or letters which appear on the old guard. Guards to fit machines other than listed can also be furnished if this information is given.

No. 32N7104 Guards with plates attached. Weight, about 1½ pounds. Price, each.....24c

Deering.....D442 | Deering.....D698 | McCormick...M402

GRAIN DRILL DRAG CHAIN COVERERS.

Attach to any standard drill boot. Rings, links and rod are wrought iron, rings 3⅜ inches in diameter. Furnished assembled as shown in illustration. Weight, each, 1⅛ lbs.

No. 32N1123 Price, each.....25c

GRAIN SAVING GUARDS.

Made of malleable iron, light and strong. Easily attached to any binder. They pick up and save the lodged grain and will pay for themselves many times over each season. Entire guard oscillates and is held to its work by strong coil springs. These features prevent breakage of cutter bar and guards from digging into ground. Generally used and ordered in sets of five guards to a binder, but sometimes four or six can be used to advantage. Weight, each, 4¼ pounds.

No. 32N7058 Grain Saving Guards. Price, each...$1.10

Seat Cushion for Farm Machines.

Will enable you to ride your tractor, plow or other machinery with less fatigue. Cushion is made the shape of and to shape itself to the seat of any farm implement. Made of heavy brown drilling, hair filled, machine tufted, 2 inches thick, strongly sewed. Has straps to fasten to seat. A well made durable article, and worth many times its cost for the comfort derived from its use. Weight, 2 pounds.

No. 32N7123 Seat Cushion. Price.....65c

Harrow Discs.

Concave discs of standard weight and quality, as used on all standard disc harrows. Have 1⅜-inch square hole to fit ⅞-inch square axle. Solid round or cut-out; 16, 18 or 20 inches in diameter. Round discs weigh 7, 10 and 12 pounds each. Cut-out discs weigh 6, 9 and 11 pounds each, according to size. State diameter also wanted.

	16-Inch	18-Inch	20-I
No. 32N7070¼ Round Disc. Price, each.....	$1.05	$1.52	$1.
No. 32N7071¼ Cut-Out Disc. Price, each.....	1.15	1.62	1.

Steel Jointer.

Fits all makes of walking pl either wood or steel beam, and be easily adjusted to any des position. The reversible steel p has three separate wearing parts. ing this attachment extra long w Shank is made of malleable i Moldboard and reversible point m of forged steel. Shipping wei about 15 pounds.

No. 32N7055¼ Right hand Price, each.....$2.

No. 32N7056¼ Left hand. Price, each.....$2.

Attachments for Walking Plo

Excepting the fin outter these attachments any make of steel walking plow.

32N115¼

32N118 32N119¼ 32N117 32N114

These attachments are for use on steel beam or wo beam steel walking plows. If attachments are ordered w out plow, state whether wanted for wood or steel beam, or left hand and what kind of plow.

No. 32N114 Knife Coulter. Wt., 9 lbs. Price..$1

No. 32N115¼ 13-Inch Bradley Caster Relling Cou Fits any make of walking plow. Large chilled bearings, venient to oil and easily replaced if ever worn. No weau axle bolt. Adjustable in all directions. Weight, 26 pou Price.....$3

No. 32N116 Quincy Reversible Coulter. Same as sh in illustration of No. 32N130 Brush Plow on page 1453. We be attached to any make of steel walking plow. We 9 pounds. Price.....$1

No. 32N117 Fin Cutter. Can be furnished only David Bradley Stubble, General Purpose and Royal Walking Plows. When not ordered with plow be sure to number appearing on bottom of your old share. Weigh pounds. Price.....

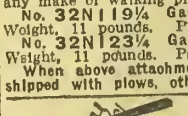
No. 32N118 Bradley Steel Moldboard Jointer. Wi any make of walking plow. Weight, 15 lbs. Price...$2

No. 32N119¼ Gauge Wheel for steel beam Weight, 11 pounds. Price.....

No. 32N123¼ Gauge Wheel for wood beam Weight, 11 pounds. Price.....

When above attachments are ordered with plows they shipped with plows, otherwise we ship from CHICAGO.

PEA HARVESTING GUARD

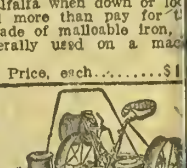


For use on mowing machines harvesting cowpeas and field also of great advantage in cu alfalfa. They pick up and raise peas or alfalfa when down or lo make the cutting easier and will more than pay for t selves in the crops they save. Made of malleable iron, and strong. Five of them generally used on a mac Weight, each, 5 pounds.

No. 32N7059 Pea Guards. Price, each.....$1

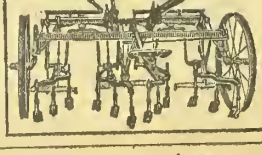
Send for this Special Catalog of Farm Machinery if the implement you want is not shown in our Big Catalog.

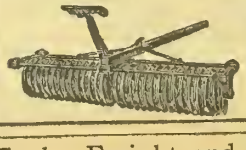
Limited space necessitates that we show only the most seasonable goods in this General Catalog. However, we have on hand ready for shipment at all times a most complete line of Farm Implements and Farm Equipment Supplies. Also a complete line of

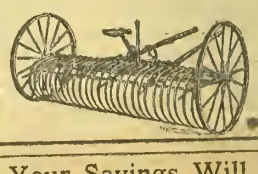


Mower Sections	Cultivator Shovels
Knives	Pulverizers
Binder Canvases	Harrow Teeth
Cultivator Sweeps	Etc.

to fit the leading machines. For our complete line of Implements, including Planters, Cultivators, Mowers, Rakes, etc., send for our Special Catalog of Farm Machinery. Mailed free on request.

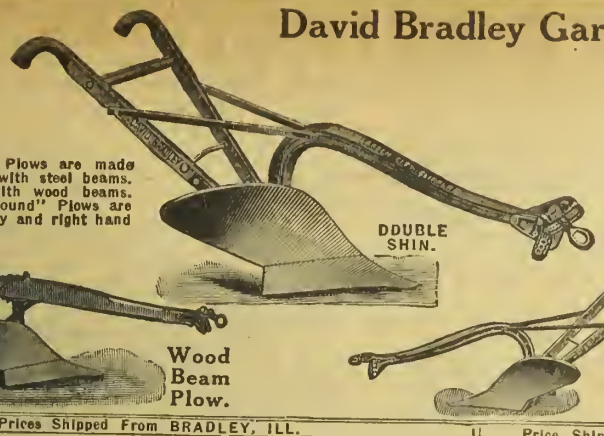






Order Enough Merchandise to Go by Freight and Your Savings Will Be Still Grea

David Bradley Garden City Clipper Walking Plows



"General Purpose" Plows are made right or left hand with steel beams. Right hand only with wood beams. "Stubble or Old Ground" Plows are made steel beam only and right hand only.

For eighty-six years the David Bradley Garden City Clipper has been a most popular walking plow, and a careful examination will convince you of its quality. Every David Bradley plow is sold subject to a fair test in your own field and with the understanding that it must please you perfectly, that it must satisfy you both as to quality of material and work performed, or we expect you to return it to us at our expense and we will return to you the full purchase price, together with the freight charges you paid.

MOLDBOARDS, SHARES AND LANDSIDES are made of hard tempered soft center steel. SHARES are 5/16 inch thick, and have reinforced points, insuring long wear.

MOLDBOARDS are double shinned, that is, an extra thickness of hard steel is welded on top of the front of the moldboard, the point where the wear is the greatest.

LANDSIOES are medium high, and are double thickness at the heel, where the wear is the greatest. They are bolted to an inner steel landside bar, which is securely welded to the steel frog underneath the moldboard and share.

TEMPERING: Moldboard, share and landside are all uniformly hard tempered by the David Bradley process, insuring long wearing and easy scouring qualities. They are carefully ground and highly polished, the grinding of the plow bottom being done in the same direction as the land or furrow slice follows the mold. That is one reason why David Bradley plows scour so readily. The entire bottom is strongly braced.

STEEL BEAMS are made of double beaded high carbon steel. They are heavy enough to insure ample strength and are formed with high arch so as to clear in trashy land. Clevises are malleable iron, broad and adjustable in all directions. Beams on 12 and 14-inch plows are set for two horses, and on 16-inch plows for three horses.

WOOD BEAMS are made of first quality oak. They are rigidly braced and can be adjusted to cut more or less land. **Made right hand only.**

HANOLES are first quality steam bent oak, securely attached and braced to the beam with flat steel braces.

For Coulters, Gauge Wheels, Jointers, etc., for these plows see page 1452.

David Bradley Prairie Breaking Plows.

Complete With Coulter, Gauge Wheel and One Extra Share.

These plows have long tapering moldboard and slanting share which lies nearly flat and turns a smooth furrow. Intended for breaking original prairie land, but will do good work in old sod. Moldboard, share and landside are crucible steel, natural tempered. The flat bar steel brace running from beam to standard and bolted to the inside handle insures great rigidity. Beam is extra heavy seasoned oak with adjustment to make plow cut more or less land. Price includes coulter, gauge wheel and one extra share.

Bradley Riding Attachment for Walking Plows.

Makes a first class frameless sulky plow out of any wood or steel beam plow or middle breaker. It will make your plow run steadily without side draft and without making the work a bit harder on your team. It can be set for any depth furrow. Levers operate easily. Being tongueless the attachment can not be backed up by the team, neither does it carry the plow high from the ground. By placing the attachment back of a drag harrow and connecting the harrow draw bar by a long pole or 2x4-inch timber you have a splendid harrow cart. Made entirely of malleable iron and steel. Wheels are the regular type of riding plow wheels with wide oval tires and dustproof hubs. The attachment is not intended for use on smaller than 10-inch plows and cannot be used on rod breakers, upon which the beams are too low. Price is for the complete attachment, everything shown in the illustration, excepting the plow.

No. 32N192 Bradley Riding Attachment for Right Hand Plows. Weight, 147 pounds.
Price, shipped from BRADLEY, ILL.....$13.92

No. 32N193 Bradley Riding Attachment for Left Hand Plows. Weight, 147 pounds. Price, shipped from BRADLEY, ILL.....$13.93

David Bradley Northwest Breakers.

Designed for heavier work than the standard type of prairie breaker. Splendid plows for heavy prairie sod and brush work, also for road making and grading purposes. Beam is extra heavy selected oak. Standard le heavy steel, solidly braced. Moldboard, share and long bar landside are crucible steel, with natural temper. The heavy steel coulter is made with a shoe at the point, into which the point of the share is inserted, making it absolutely solid. Rolling coulter cannot be used. Gauge wheel is adjustable. Handles are steam bent selected oak, extra heavy and strongly braced. Price includes wheel and coulter.

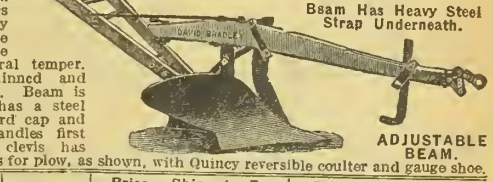
David Bradley Brush Plows.

Wood Beam. Right Hand Only.



For tough plowing and heavy general purpose work among vines, berry bushes and in timber or stony land. Moldboard, share and landside are crucible steel, with mild or natural temper. Moldboard is double shinned and share has reinforced point. Beam is heavy seasoned oak and has a steel strap underneath.— Standard cap and all braces are steel. Handles first quality oak. Malleable clevis has ample adjustment. Price is for plow, as shown, with Quincy reversible coulter and gauge shoe.

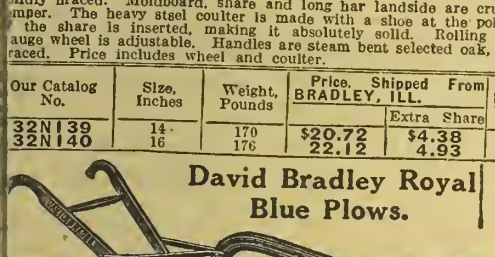
David Bradley Royal Blue Plows.



For use in light loam or in a mixture of sand and clay. They do good work in stubble or tame sod, also stony land. The moldboard, share and landside are crucible steel with old or natural temper. They are securely bolted to a steel frog, and outer landside secured to a cast inner landside which has an adjustable slip heel. Bottoms are ground and highly polished. Moldboards are double shinned on top, insuring good wearing qualities. Beam, heavy double beaded forged steel, highly arched so as not to foul in trashy land. Handles are of first quality oak, well braced to beam and adjustable. Shpg. wts., 95, 100 and 110 lbs. according to size.

David Bradley Chilled Plows.

Price Includes One Extra Share.

Materials used in the bottoms are a special mixture of metals of extreme hardness, yet possessed of strength and toughness. Beam is oak and adjustable for more or less land. A jointer should be used with No. 32N175 and larger plows when plowing trashy ground. **NOTICE—** Chilled iron plows are for use only in sand or gravel soils and should never be used in black or sticky soils. This type of plow is always made with slanting landside and is measured from top of moldboard to outer edge of share. The bottom of share measures about 2 inches less than full cut of plow. Price includes one extra share, wrench and adjustable malleable clevis. Jointer and gauge wheel are extra. **Shipped from BRADLEY, ILL.**

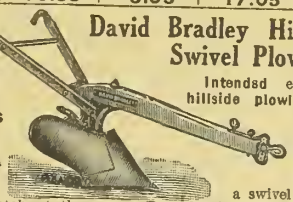
David Bradley Hillside or Swivel Plows.

Price Includes One Extra Share.



Intended especially for hillside plowing, but can be used with good results in level land. The bottom operates on a swivel held in place by a latch at the rear. By releasing the latch the bottom can be reversed from right to left. Moldboard, landside and share are of chilled metal, the same as used in the David Bradley Chilled Plows. Bottoms are ground and polished. These plows will turn a furrow from 1 to 3 inches wider than the share, according to condition of the soil or incline upon which they are used. Reversible jointer can be used on 10 or 12-inch plows. Gauge wheel can be used on all sizes. Beam and handles are oak. Clevis is malleable and adjustable. Price includes one extra share. **Shipped from BRADLEY, ILL.**

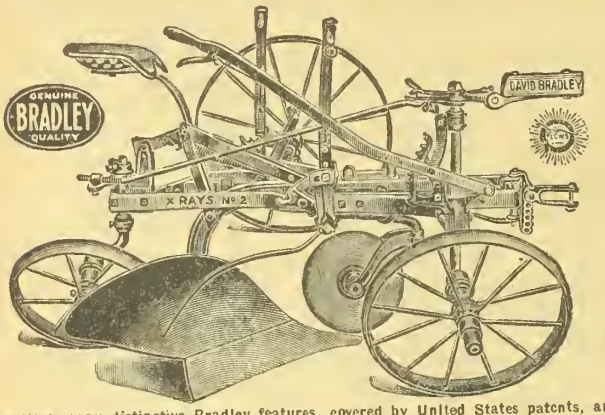
DAVID BRADLEY RIDING PLOWS

X-RAYS SULKY PLOW.



Possesses many distinctive Bradley features, covered by United States patents, and by reason of which it has become a most popular riding plow.

THE FRAME is wide and is made of extra heavy high carbon steel 2¼ inches wide and ⅝ inch thick, securely bolted and rigidly braced. Wheels are high, giving a clearance to the frame of 23 inches from the bottom of the plow and, point of plow lifts 7 inches from the ground. The beam is contained entirely within the frame, the hitch being made from a forward point on the frame directly in line with the point of the plow beam, thus relieving the plow bottom of the weight of heavy eveners. Just so much less weight for the rider to lift, one reason why this plow can be easily raised from the ground by the slight foot pressure of a small boy.

THE X-RAYS is the ideal type of sulky plow in hard ground. It will not jump out. When the plow bottom is lowered into the ground the point of the beam rests against a stop inside the frame which locks the plow in the ground. There is no side motion to the beam, it being held firmly in place by a heavy ball with wide bearings and is unaffected by position of the hitch. The frame and wheels carry the entire load; consequently the plow, being relieved of all load, operates with extremely light draft and turns a smooth, even furrow at all times. The land wheel is 34 inches in diameter; the front furrow wheel 24 inches and the rear furrow wheel 20 inches in diameter. Wheels are all steel, with oval tires and heavy round steel staggered spokes, solidly welded into the Bradley patent long distance grease retaining dustproof hubs. The bearings are 9 inches long. When they are properly oiled, one oiling is sufficient to plow a 40-acre field. Boxes are removable and easily and cheaply replaced. The plow enters the ground point first and raises in immediate response to the slightest pressure on the foot lever, this being accomplished by the heavy coiled lifting spring and the compound arrangement of levers constituting the foot lift.

LEVERS ARE CONVENIENTLY LOCATED so as to operate easily from the seat. The hitch is short and couples plow and team up close, does away with side draft and makes the plow easy to handle. A pole plate adjuster enables the driver to adjust pole from seat with team in motion.

FOR $1.00 EXTRA we will furnish our Patent Spring Clevis with the X-Rays Sulky when fitted with three-horse evener. It often prevents breakage of shares, lightens the jar and makes work easy on your horses' shoulders. The spring clevis cannot be used with four-horse evener.

Spring Clevis.

PLOW BOTTOMS FURNISHED with these plows are the Garden City Clipper, celebrated for their perfect shape and easy scouring qualities. Prices are for the plows complete with three-horse hitch, pole, neckyoke, Bradley 15-inch rolling coulter, weed hook and wrench. Jointer will be furnished in place of coulter if so ordered. For $1.75 extra we will furnish instead a four-horse hitch with an attachment which permits one horse to walk in the furrow and three on unplowed ground. This hitch is desirable for plows with breaker bottoms and for work in listed ground.

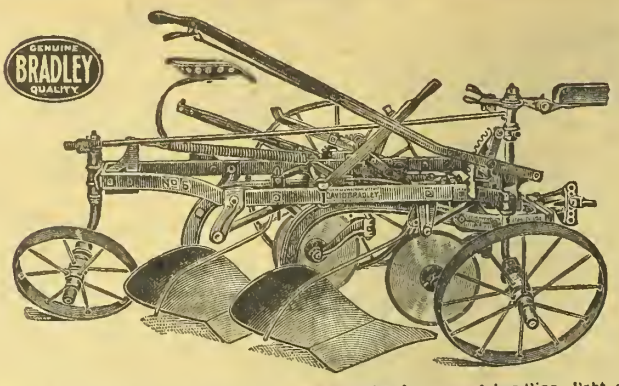
No. 6 GANG PLOW.



The David Bradley No. 6 Gang Plow is a wonder for ease of handling, light draft, durability and capacity for all kinds of work. Although of exceptionally strong construction throughout the David Bradley No. 6 Gang Plow is as easily handled as an ordinary sulky plow, because the design of the plow is correct and the weight properly distributed.

A FEW OF THE BEST FEATURES OF No. 6 CONSTRUCTION.

FRAME—Made of heavy high carbon steel bars, 2¼ inches wide, ⅝ inch thick, securely bolted and braced. All parts subject to strain are either steel or tough malleable iron produced right in the Bradley foundry.

BEAMS—Heavy first quality high carbon steel, 1¾ inches thick, with high arch, giving ample clearance in trashy land. Beams strongly braced front and rear. Rear beam brace is a round forged steel bar about 1¾ inches in diameter, flattened at the ends, firmly fitted into the beam channel and extending clear down to the frogs of the plow bottom. We guarantee that you will not twist, bend or break the beams on a No. 6.

FOOT LIFT—So powerful and works so easily a boy can handle the bottoms. Bottoms are automatically locked when they reach their depth, a slight pressure on the foot lift lever releases the lock and causes the bottoms to start from the ground point first and the forward pull of the team does the lifting. Lift is high, bottoms rising 5½ inches from the ground.

NO SIDE DRAFT—Hitch and furrow wheel are so adjusted that the friction is removed from landside and the draft is distributed on the thoroughly lubricated wheels.

ADJUSTMENT—Easily made to suit conditions. An adjustable steel rod connects furrow wheels to pole. Pole plate lever permits quick adjustment of front furrow wheel.

Hitch adjustment of the No. 6 is a very valuable feature. The clevis is attached to a steel bar, and by loosening a bolt and sliding clevis to right or left, adjustment down to the finest point is quickly obtained.

Bottoms can be so adjusted as to float and jump over obstacles where they are too frequent to use the foot lift. This often prevents broken shares, especially when plow is used among large stones.

WHEELS—Land wheel, 34 inches in diameter; front wheel, 24 inches in diameter; rear furrow wheel, 20 inches—all steel, with heavy staggered riveted spokes and the celebrated Bradley long distance, oiltight, dustproof hubs with bearings 9 inches long.

COULTERS—The Bradley rolling coulters, 15 inches in diameter, with fine steel blades, chilled bearings, malleable yokes and full adjustments.

BOTTOMS—The celebrated Garden City Clipper, perfectly shaped, long wearing. Hard tempered soft center steel moldboards and shares on the stubble and general purpose bottoms. Shares of prairie breaker bottoms are crucible steel.

Plows are furnished complete with rolling coulters, pole, four-horse evener, neckyoke, weed hooks and wrench. Will furnish a four-horse string out hitch instead, if wanted, without extra charge, or a five-horse string out hitch instead for $2.35 extra, or a six-horse string out hitch instead for $2.79 extra. Jointers furnished in place of coulters if so desired.

See bottom of this page for illustrations and descriptions which will assist you in selecting the proper style bottom. Send for our Special Catalog of Agricultural Implements if you want prices on extra bottoms for either sulky or gang plows.

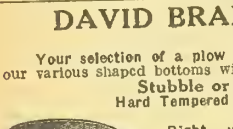
DAVID BRADLEY GARDEN CITY CLIPPER BOTTOMS.

Furnished on All David Bradley Riding Plows.

Your selection of a plow bottom should be governed by the nature of your soil, and the following description of our various shaped bottoms will guide you in ordering the bottom best suited to your needs:

Stubble or Old Ground.

Hard Tempered Soft Center Steel.

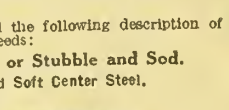


Right Hand Only.

For use in old stubble ground which has been highly cultivated. The moldboard is comparatively short, with a bluff turn which pulverizes this particular soil and puts it in better shape than any other style. We recommend this shape for turning under stubble, weeds, cornstalks and trash on old ground, but it should not be used in plowing sod, for which our General Purpose shape described to the right is best adapted. Moldboard and share are hard tempered soft center steel. The bottom we recommend for the Red River Valley and most parts of Kansas, Nebraska, Minnesota and the Dakotas.

General Purpose or Stubble and Sod.

Hard Tempered Soft Center Steel.

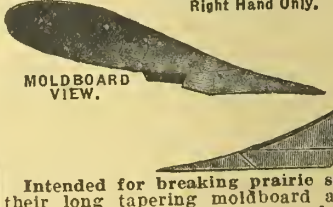


Right or Left Hand.

Also known as Turf and Stubble shape. The difference between this and the Stubble shape is that the General Purpose shape has a longer turn moldboard which turns timothy, clover, tame sod, etc., clear over. We recommend this shape for plowing very weedy ground, clover, timothy or blue grass sod and for deep stubble plowing. Moldboard and share are extra hard tempered soft center steel.

Prairie Breaker Shape.

Right Hand Only.



Intended for breaking prairie sod. Because of their long tapering moldboard and share, they turn the furrow to perfection and are remarkably light of draft. Moldboard is of hard tempered soft center steel, share is crucible steel and each bottom is furnished with one extra share.

Do you know which crops are best adapted to YOUR climate? Those are the ones which it will be easiest for you to raise and bring you the most profit. Do you want to find out? Page 537 of this catalog tells you how.

Bradley Power Lift Tractor Plow

This plow is designed and built to meet the most difficult plowing conditions in any territory. We not only guarantee it to have strength to meet almost any demand but that it will go into the field, parallel rows with any moldboard plow and satisfy you in the quality of work it will do.

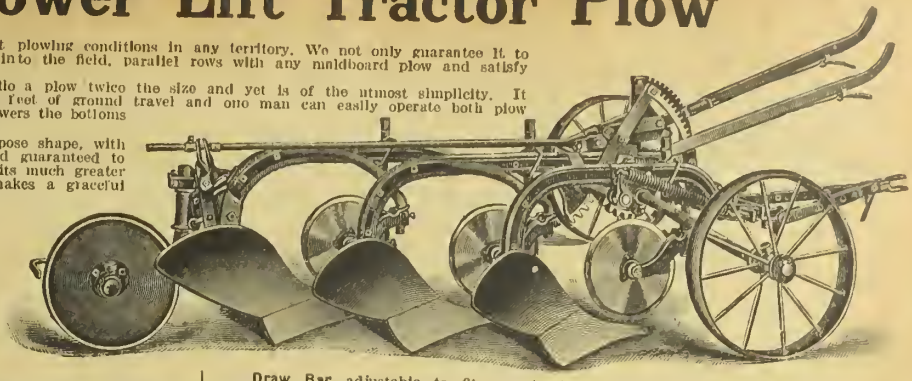
The Power Lift is so stanch and powerful it would handle a plow twice the size and yet is of the utmost simplicity. It lifts the bottom 7½ inches from the ground in less than three feet of ground travel and one man can easily operate both plow and tractor. One slight jerk on the pull rope either raises or lowers the bottoms and plows always enter and leave the ground **points first.**

Bottoms are the Famous Garden City Clipper, General Purpose shape, with moldboards and shares of Hard Tempered soft center steel and guaranteed to scour in your soil. The peculiar roll of these moldboards permits much greater traveling speed without affecting the lay of the slice which makes a graceful natural turn at any reasonable speed and with equal success thoroughly pulverizes old ground stubble.

Beams are extra heavy high carbon steel 2¼ inches thick and arched to give a clearance of 24 inches from furrow bottom to beams. There is also ample clearance between bottoms to avoid choking in foul ground.

Beam Braces are round forged steel 1¾ inches in diameter, flattened at ends and hot pressed to fit perfectly into the channels of beams.

Levers are conveniently placed and shaped to suit operator's reach and are spring balanced so that a boy could operate them. Their closely spaced locking notches allow the finest adjustment and an extreme plowing depth of ten inches.



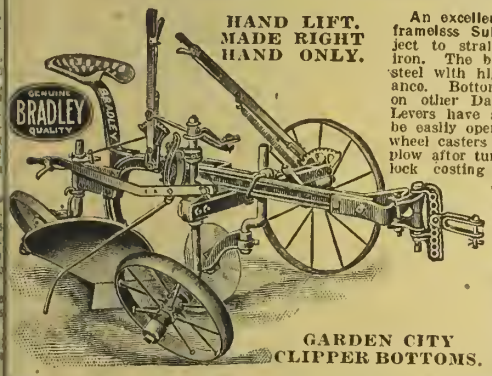
Wheels. Front wheels are 26 inches in diameter with 4-inch tires. Spokes are staggered and riveted into long dustproof, oiltight hubs with large hard oil cups. Rear wheel is solid pressed steel 20 inches in diameter—it will not gather trash, is properly slanted to relieve landside of thrust and automatically casters on heavy steel axle.

Coulters are of finest steel, 15 inches in diameter, self castering on 1½-inch stems of round forged steel. A unique bearing adjustment insures perfectly true running coulters regardless of wear. Bearings have chilled surfaces with large receptacle for hard grease.

Draw Bar adjustable to fit any tractor, flexible and compensating for turning but rigid when hacking which permits plow to be backed by power. A wood break pin in draw bar protects the plows. Made only with two or three General Purpose bottoms. **Shipped from factory at BRADLEY, ILL.**

No. 32N274	14-Inch Two-Bottom Tractor Plow. Weight, 950 lbs. Price	$132.50
No. 32N275	14-Inch Three-Bottom Tractor Plow. Weight, 1,065 lbs. Price	167.50
No. 32N278	Extra Share, Hard Tempered Soft Center Steel. Weight, 15 pounds. Price	3.70
No. 32N279	Extra Share, Crucible Steel. Weight, 15 lbs. Price	3.10

David Bradley Perfection Sulky Plows



HAND LIFT. MADE RIGHT HAND ONLY.

GARDEN CITY CLIPPER BOTTOMS.

An excellent light, medium high lift frameless Sulky Plow. All parts subject to strain are steel or malleable iron. The beam is heavy high carbon steel with high arch and ample clearance. Bottoms are the same as used on other David Bradley sulky plows. Levers have such power that they can be easily operated by a boy. The rear wheel casters and locks in line with the plow after turning corners. Rear wheel lock casting is adjusted by two set screws, enabling operator to set plow to carry the landside away from the land, reducing friction and insuring light draft. The short lever attached to the beam is for adjusting the front furrow wheel and the plow can be successfully guided for more or less land. The operator can do this from the seat while plow is in motion. Strong wheels have staggered spokes. Land wheel is 30 inches, rear and front furrow wheels are 20 inches diameter. Rear wheel is of solid pressed steel and trash will not collect. Wheel boxings are dustproof with 7¼-inch wearing surface and it is only necessary to occasionally fill the cups with hard oil to insure proper lubrication. The plow is furnished with three-horse evener, coulter, wrench and weed hook. **Shipped from BRADLEY, ILL.**

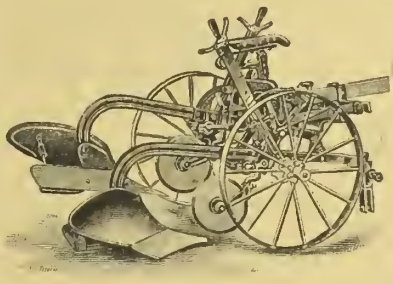
Two-Way Sulky Plow



Especially adapted for hillside plowing, but will do as good work on level land as an ordinary sulky plow. Used on hillsides, all furrows can be turned one way, either up or down, leaving land free from ridges or dead furrows and preventing washing of soil. They can be used either as a right or left hand sulky plow for plowing a field in the usual way. Another advantage when both bottoms are used is that all plowed ground being together, the harrow and planter can follow immediately, conserving moisture. Plowing one way of field, horses always turn on unplowed ground.

The Two-Way Sulky is a combination of two plows, each being controlled by independent levers. Beams are connected to a rigid frame. At the end of a furrow the plowing bottom is raised, the turn made, and the other bottom lowered in the ground. Horses do the lifting. By pressing a foot trip, or the lower latch on lever, the plunger engages with the wheel rachet which revolves with the wheel until the correct position is reached, when it releases automatically. Draft is from point of beam. Large diameter steel wheels have wide tires, staggered spokes and removable dustproof boxes. Seat adjusts to any angle required. Operator can ride comfortably on steep hillsides. Tongue has lever adjustment, which enables operator to regulate landing of plow, width of furrow, or relieve side strain on team. Price of plow includes three-horse evener, neckyoke and rolling coulter. Jointer will be furnished in place of coulter if so ordered. Plow bottoms are general purpose shape, with hardened soft center steel moldboards, shares and landsides. **Shipped from factory near CHICAGO.**

No. 32N200	12-Inch Two-Way Sulky Plow. Weight, 740 lbs. Price	$89.75

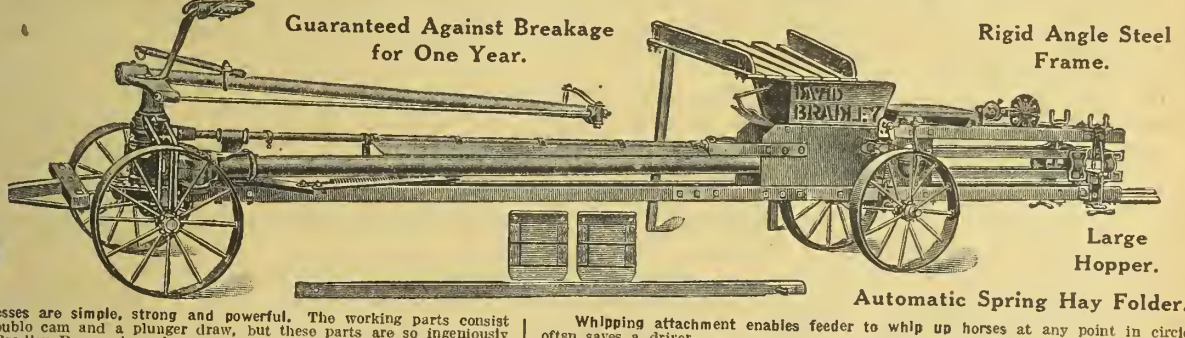
David Bradley Double Cam Hay Press

Complete With Whipping Attachment and Lifting Jack.

Guaranteed Against Breakage for One Year.

Rigid Angle Steel Frame.



Large Hopper.

Automatic Spring Hay Folder.

David Bradley Presses are simple, strong and powerful. The working parts consist of but a plunger, a double cam and a plunger draw, but these parts are so ingeniously combined that David Bradley Presses have become noted for their smooth, easy working qualities and great power and capacity. Presses are of the full circle type and take feeds to each round of the horses. Two horses required for full capacity and heavy feeding, but one horse can easily operate on light work.

Automatic plunger draw is operated by the cam. Plunger rebounds quickly, but comes up slowly, allowing time to place large feeds. Press handles hay, straw, hair, shredded fodder, pea vines, alfalfa, oat hay, excelsior, cotton, etc., and makes perfect, all weight bales. Oscillating crosshead on plunger prevents breakage if hay is unevenly fed. Powerful compression bolts, set perpendicularly on sides of bale chamber, regulate tension on bale and prevent bulging at sides of bale chamber. Automatic spring folder makes smooth bales. Follower boards are reinforced with steel strips.

Press is made entirely of steel and iron, except table, and so strongly constructed there is little chance of breakage. Many users have used their Bradley presses for years without having a breakage or spending a cent for repairs. Press is low down and easily filled. Automatic alarm bell rings signal for placing follower board and can be set for any length of bale. Powerful worm gear lifting jack furnished makes it easy to lift and lower press without danger of dropping it. Press lies perfectly flat when wheels are removed.

Whipping attachment enables feeder to whip up horses at any point in circle and often saves a driver.

Wheels are steel, 30 inches high, 4-inch tires. Press can be drawn by two horses on ordinary roads. Price is for the press complete with trucks, lifting jack, two bridges, three follower boards, whipping attachment, evener, neckyoke, tongue, feeding fork and wrench.

CAPACITY of the 14x18-inch press is 8 to 10 tons; 16x18-inch press, 10 to 12 tons; 17x22-inch press, 12 to 14 tons of hay per day, depending on the kind of hay and the skill of operators. **Shipped from BRADLEY, ILL.**

No. 32N930 Double Cam Hay Press, with 14x18-inch bale chamber. Weight, 3,238 pounds. Price $213.50

No. 32N931 Double Cam Hay Press, with 16x18-inch bale chamber. Weight, 3,308 pounds. Price $225.25

No. 32N932 Double Cam Hay Press, with 17x22-inch bale chamber. Weight, 3,350 pounds. Price $236.80

No. 32N943 Tie Making Machine for making bale ties for any press. Weight, 45 pounds. Price $4.98

No. 32N945 Extra Follower Boards or Blocks. (Will fit any Bradley press of corresponding size.) Price, each, 14x18-inch size, **$1.50;** 16x18-inch size, $1.65; 17x22-inch size, **$1.90.**

Ideal Junior Elevator Potato Digger.

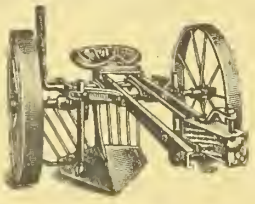
The Ideal Junior Elevator Potato Digger is intended for use in light or medium soils and will also serve all purposes where but a small acreage is planted. However, we recommend the Ideal Digger No. 32N441 in heavy soils, or where there is much trash, or for large acreages.

The Ideal Junior Digger can be handled by two good horses in any soil. It is a strongly constructed machine and will give good service. The main frame has heavy channel steel sides. The plow point is soft center steel 5/16 inch thick, and will scour easily in any soil. Elevator chain is made of 7/16-inch round spring steel and is 20 inches wide inside. The links pass over agitator sprockets, which give the elevator chain a wavy motion and results in a thorough separation. Shaker platform is made of spring steel rods and is operated from both main gears by means of rollers against special shaped roller blocks, causing the shaker to deposit the potatoes and vines behind the machine, free from dirt. Wheels are 26 inches in diameter with 3-inch large malleable traction lugs. Price includes pole and tongue truck. **Shipped from factory near CHICAGO.**

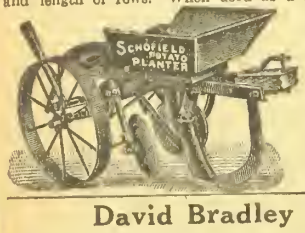
No. 32N440 Ideal Junior Elevator Potato Digger. Weight, 775 pounds. Price.....$99.85

Schofield Potato Planters and Diggers.

The combination of planter and digger is a convenient feature and gives two machines at a low price.



The Planter is especially suitable for use in light soils. Strongly made entirely of iron and steel. It has a convenient lifting and depth regulating device with which the planter or digger can be lifted clear of the ground, or adjusted to plant or dig to any depth desired. Planter requires two people to operate; one to sit at rear of machine and feed seed to the dropper, while the driver walks. The dropper is fed by hand, insuring an accurate drop. Axle is tubular and wheels run any desired distance apart, from 30 to 42 inches, thus determining the distance between rows, as one horse follows the last wheel track. Machine will plant 13, 16 or 19 inches apart in a row. Covering discs can be adjusted to gather more or less dirt and run deep or shallow. They will cover on side hills and in all kinds of soil. Slanting knife coulter prevents clogging in trashy ground. Plants 5 to 10 acres a day, according to condition of soil and width and length of rows. When used as a digger, driver rides. If the soil is not heavy and is free from stones and roots this machine will give good satisfaction. If, however, you have a large acreage or the soil conditions are severe, we recommend the purchase of one of our heavier planters and a separate digger. **Shipped from factory in NORTHERN ILLINOIS.**



No. 32N425 Potato Planter and Digger Combined. Weight, 240 pounds. Price, complete.....$35.95

No. 32N426 Potato Planter only. Weight, 190 pounds. Price.....$31.80

No. 32N427 Potato Digger only. Weight, 180 pounds. Price.....$30.75

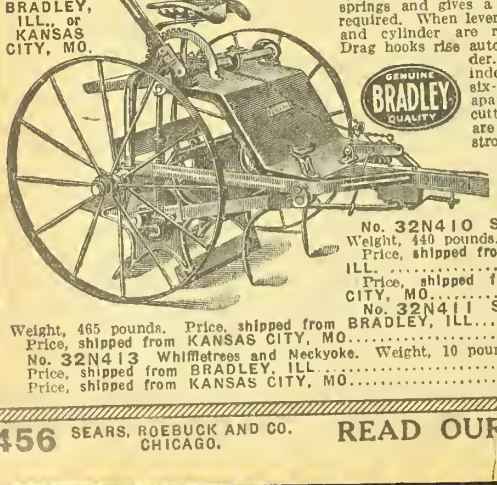
David Bradley Shaker Potato Digger.

This digger will give good results under proper working conditions, but no shaker digger will do good work in ground too soft or loose to turn the trip wheel. We recommend that you be governed by local conditions and if other growers are using shaker diggers successfully you can order the David Bradley with assurance that you are getting a good digger. The roller weed fonder parts the weeds and vines, leaving the way clear for the blade. Blade is hardened polished steel, flat in shape, 17 inches wide, 15 inches long. The rod platform is operated by a trip shaker wheel underneath, which gives an up and down shaking motion, which shakes the dirt from the potatoes. The rods on the shaker platform are malleable, 20 inches long, and will not break. Beam is heavy steel and high arched. Shaker has side rails which prevent the potatoes from shaking off at the side. Clevis is adjustable. Handles are first quality oak with adjustable braces. We furnish this digger with or without adjustable gauge wheel truck, shown in illustration. The truck straddles the row and holds the digger at a uniform depth. It is very desirable in hard ground. We recommend that you buy digger complete with truck. **Shipped from BRADLEY, ILL.**

No. 32N437 Shaker Potato Digger without truck. Weight, 130 lbs.. Price..$12.63

No. 32N438 Shaker Potato Digger with truck. Weight, 160 lbs. Price.. 15.60

David Bradley Cotton and Corn Stalk Cutters.



Shipped From BRADLEY, ILL., or KANSAS CITY, MO.

A high grade stalk cutter of unusually stanch construction. The diameter of the cylinder heads is extra large and having no center shaft through the cylinder it will not clog even in the heaviest work. The cylinder revolves easily and the blow which cuts the stalks is accelerated by two spiral springs which can be compressed to suit the work. When lever is pushed back it forces down the rods around which the springs are coiled. This compresses the springs and gives a heavy or light stroke as required. When lever is thrown forward, frame and cylinder are raised from the ground. Drag hooks rise automatically with the cylinder. They can also be raised independently. Knives of the six-knife cutter are 13 inches apart and on the seven-knife cutter, 11 inches apart. Wheels are steel, 36 inches high, strongly built, with 2-inch tires. Price includes pole but not neckyoke or evener.

No. 32N410 Six-Knife Stalk Cutter. Weight, 440 pounds. Price, shipped from BRADLEY, ILL.....$38.45

Price, shipped from KANSAS CITY, MO.....40.65

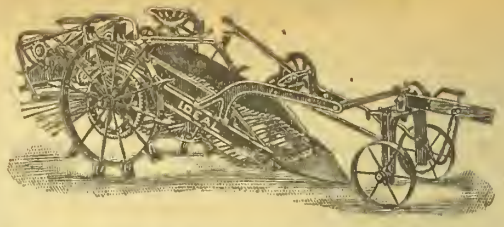
Price, shipped from KANSAS CITY, MO.....2.05

Ideal Elevator Potato Digger.

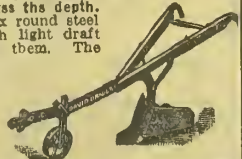


A strongly made machine, with many improved features, which enable it to successfully meet varying soil conditions. The main frame sides are heavy steel channels. Beams and draft connections are heavy malleable iron. Hand lever gives close adjustment to the work, and a foot lever in connection with the hand lever gives a powerful, easy lift. Steel wheels are 30 inches in diameter, with 3-inch tires and malleable lugs bolted to tires. Endless chain elevator is 22 inches wide, made of 7/16-inch round crucible spring steel, with agitator sprockets which give the chain a wavy motion and insure perfect separation of dirt and potatoes. The plow blade is soft center steel 5/16 inch thick, and scours in any soil. Rear shaker platform has malleable frame with steel sides and heavy spring steel rods 7/16 inch and 9/16 inch in diameter. Vines, grass and weeds are separated by the upper set of rods which turn them off to the side of the row, leaving the potatoes on the top of the row clean and free from trash. Kicker forks, operated by a crankshaft, keep the vines and trash from accumulating and clogging. Adjustable coil relief springs prevent breakage of kickers. Gears and pinions are heavy pattern and key seated, avoiding lost motion. Bearings are large and provided with compression grease cups. Front truck has 14-inch wheels and pivotal axle, which prevents tipping or straining when turning, and is a great advantage in uneven soil. **Price includes pole. Evencrs and neckyoke not furnished. Shipped from factory near CHICAGO.**

No. 32N441 Ideal Elevator Potato Digger. Weight, 975 pounds. Price.....$129.75

David Bradley Steel Beam Potato Hillers and Diggers.

The beams are made of forged steel with high arch to clear in trashy patches and an adjustable rear gauge wheel regulates the depth. Blades are ground and polished. The digger blade has six round steel rods in addition to the flat side blades. It works with light draft and throws potatoes out of the ground without cutting them. The hiller or wing shovel blade has hinged wings, which are adjustable for width. Either the hiller or digger blade can be used on the same beam and it is but a moment's work to detach one and replace it with the other. The handles are rigidly braced and adjustable for height. If front gauge wheel is wanted it must be ordered and paid for extra. We recommend its use especially in hard ground. Buy the combined hiller and digger. Every farmer has need for both and the combination will serve as both. **Shipped from BRADLEY, ILL.**



No. 32N432 Potato Digger only. Weight 100 pounds. Price.....$ 8.7

No. 32N433 Potato Hiller only. Weight, 91 pounds. Price..... 8.3

No. 32N434 Combined Potato Hiller and Digger. Weight, 118 lbs. Price.. 10.9

No. 32N435 Front Gauge Wheel, extra. Weight, 11 pounds. Price..... .9

X-L-ALL One-Horse Grain Drills.

Plain Disc Drill.

FOR HAND SEEDER SEE PAGE 1403.

Pla Ho Dri

This type of drill is used principally for sowing grain between rows of standi corn. They have the well known fluted feed and will sow any small grain, wheat, oa flax, barley or beets in drills 7 inches apart, also cowpeas or corn without cracking t seed. The feed is driven by chain from the axle on front wheel and amount sown indicated on a gauge, which can be changed with drill in motion. Drill is throw out of gear by hand lever at rear. Frame is seasoned hardwood strongly brace **Handles have guards to prevent knuckles from rubbing against cornstalks.**

The Hoe Drill has adjustable frame which, by a convenient lever, can be adjust from 31 to 40 inches in width while in motion. Hoes are 7 inches apart. Boots hinged to frame and have wood break pins, making this a successful drill for sto or sticky soil.

The Diso Drills have five high quality steel discs with hard chilled dustpro bearings. Oil tubes insure perfect lubrication. Outside discs are mounted on self adju ing wings, springs of which hold them out to cut extreme width. When they come contact with corn rows they swing in and immediately return to natural position. Wi of cut is 38 inches.

Agitator attachment is necessary for sowing the long bearded oats grown in Southwest.

Broadcast grass seeder attachment is useful for sowing clover between rows of co Has same style fluted feed as grain bopper.

The Fertilizer Drills are the same as the plain drills, excepting that they h fertilizer attachment. The fertilizer feed can be regulated to sow all kinds of comm cial fertilizer from 50 to 300 pounds per acre. It drills grain and fertilizer toge through the same tubes and can be thrown in or out of gear independently of the gr feed. Revolving agitator keeps the fertilizer from sticking to sides of hopper. Ship **from factory in EASTERN INDIANA.**

No. 32N1125 5-Hoe Grain Drill, plain. Weight, 150 pounds. Price....$23.

No. 32N1126 5-Hoe Grain Drill, with fertilizer attachment. Weight, 200 pou Price.....$35.

No. 32N1127 6-Diso Grain Drill, plain. Weight, 200 pounds. Price.... 40.

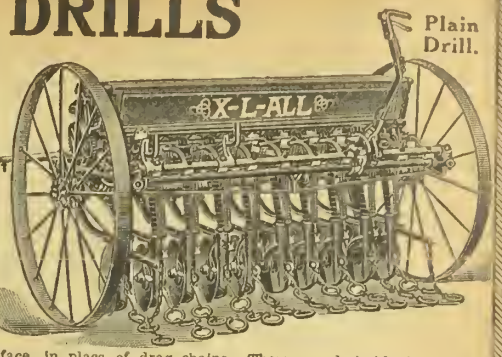
No. 32N1128 5-Diso Grain Drill, with fertilizer attachment. Weight, 250 Price.....$53.

No. 32N1120 Agitator Attachment for any size drill. Additional weight, 10 Price.....$2.

No. 32N1122 Grass Seeder Attachment. Additional weight, 20 lbs. Price.. 4.

READ OUR LIBERAL GUARANTEE ON INSIDE FRONT COVER PAGE

X-L-ALL DISC GRAIN DRILLS



Plain Drill.

These are successful seeding machines of modern design and of strictly first class construction throughout. The frames are constructed of 1½-inch seamless steel tubing. Frame will not sag and the drill can be operated over rough ground without straining working parts. Drills with ten or more disc openers have a truss rod from end to end of frame, smaller sizes do not need it and it is not furnished. The axle is continuous cold rolled steel.

The Double Run Positive Feed sows all the common grains, as wheat, oats, rye, barley, beans, cowpeas, corn, also flax. It is guaranteed not to crack the larger seeds such as peas, beans and corn. The speed of the feed shaft is controlled by chain gears from a gear box on the main drive shaft. Twelve different speeds are possible and any desired amount of seed can be sown by changing the speed of feeding. The speed is changed automatically by setting the dial indicator to the amount of grain desired to the acre. The land measure attached to axle shows each acre as it is sown.

The Single Disc Furrow Openers work perfectly in any soil without collecting mud or trash. Discs are high grade steel, 13 inches in diameter, and scour in any soil. They are fitted with spring steel scrapers which can be thrown on or off quickly. Drag bars are heavy flat steel, so placed that they do not catch stalks or trash. End drag chains have rod extension to prevent chains getting under wheels. Pressure rods are placed in rear and have strong springs. Pressure is controlled by ratchet lever and seed can be deposited at any depth desired. Discs clear ground 4½ inches when raised. Seed tubes are flexible wire, heavily japanned.

Double Run Force Feed.

Drills are chain driven; 8 to 12-disc drills drive with a single chain; 14 to 22-disc drills drive with two chains, one at each end.

The hitch is practically direct from discs and drills are so well balanced that neck weight is practically eliminated. The draft is light. The bearings are easily lubricated and practically dustproof.

At an extra price we can equip drills with pressure wheels 14½ inches in diameter, 1½-inch face, in place of drag chains. These are desirable in wheat growing sections where the soil is loose.

Grass seeder attachment furnished only at an extra price when ordered, sows broadcast alfalfa, clover, timothy, etc., and will sow separately or with grain and ahead or back of discs as desired. Special alfalfa seeder sows seed through seed tubes in furrows.

Agitator attachment is necessary for sowing long bearded oats. Seat is not regularly furnished, as most operators prefer to ride on seed box. If seat is desired, we furnish at $2.25 extra.

Steel wheels 48 inches in diameter are regularly furnished. Drills with 8 to 14 discs have wheels with 3-inch tires; drills with 16 to 22 discs have 4-inch tires.

Fertilizer drills have double hoppers, one compartment for sowing grain, the other for the fertilizer. Agitator feed sows 100 to 400 pounds per acre. Feed is thrown out of gear by hand without stopping the grain feed.

Prices are for drills complete with evener and neckyoke. Two-horse evener furnished with 8 and 9-disc drills, 3-horse evener with 10-disc drills, and 4-horse evener with larger size drills. **Shipped from factory in EASTERN INDIANA.**

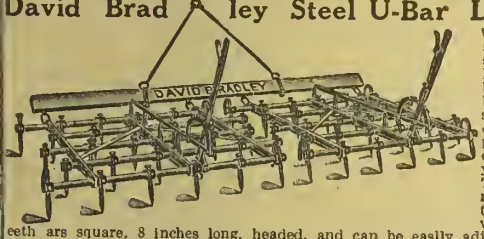
David Bradley Steel U-Bar Lever Harrows.



Frames are heavy U bar steel diagonally braced with steel braces. Each section has five heavy steel tooth bars. Teeth are attached by steel clips with set screws and lock nuts. Tooth clips are movable to any place on the bars, so you can use as many teeth as you want to on each bar. The Bradley tooth clip is most satisfactory; when the teeth are properly set they will not become loose. The teeth are square, 8 inches long, headed, and can be easily adjusted for depth. Made in sections of either 25 or 30 teeth. Each 30-tooth section cuts 5 feet wide and the 25-tooth section 4 feet 3 inches. Each section has runner teeth at corners. The teeth can be reversed to renew the cutting edge. Illustration shows the 60-tooth, two-section harrow. Wood drawbar and irons furnished with two, three and four-section harrows. Draw irons only, furnished with one-section harrows.

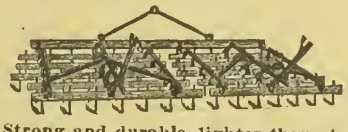
End Guard Rails, similar to those used with our regular Guarded End Harrows, can be furnished for these harrows. Easily attached. One pair sufficient for each complete harrow.

No. 32N379 End Guard Rails. Fit any size of above harrows. Weight, 13 pounds. Price, per pair.....99c

David Bradley Wood Frame Lever Harrows.



Strong and durable, lighter than steel. Frames are first quality seasoned oak, strongly riveted at each tooth and connected by iron and steel pivot plates and crosspieces. Made in sections, each section having thirty-five ½-inch square teeth and cutting about 5 feet wide. Frames are painted with high grade oil paint. Teeth can be set at any angle by adjusting the ratchet levers, or harrow can be tilted to run on the runners. Price includes drawbar.

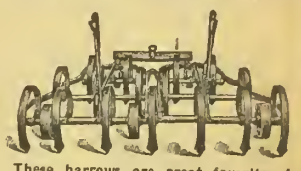
David Bradley Steel Frame Spring Tooth Harrows.



These harrows are great favorites in timber countries. They are constructed of steel and iron throughout and furnished with special design teeth of standard weight, length and size. The levers give the teeth any desired angle and depth. Illustration shows a wheel harrow, but we can furnish either on wheels or on shoes. Harrow has 17 teeth, cuts about 6 feet wide, is made in two sections and is hinged and flexible at center. A strong, durable harrow which we guarantee to give satisfaction. For $1.25 extra we furnish these harrows with special pointed teeth for cultivating alfalfa. Price includes drawbar. **Shipped from BRADLEY, ILL.**

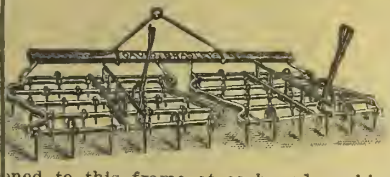
No. 32N390 Extra Spring Teeth. Weight, 5 pounds. Price, each....59c

David Bradley Steel Guarded End Lever Harrows.



Popular for use in new or stumpy ground. The sides and front end of the harrow are protected by a heavy steel I beam which forms the frame. The U shaped steel tooth bars are fastened to this frame at each end, making a very rigid construction. This outer frame serves to prevent the harrow from catching on trees, stumps, stones or other obstructions. The teeth are triangular in shape. They are 7 inches long and connected to the bars with the celebrated Bradley steel tooth clip, the same as used on the Bradley S-bar harrow. This clip enables one to place the teeth as far apart as desired, or to use as many teeth on a bar as wanted. Teeth are swedged. Harrows are made in sections having either 25 or 30 teeth; each section has 5 tooth bars and runner tooth at each corner. The 25-tooth sections cut about 4 feet and the 30-tooth sections about 4¾ feet wide. Illustration shows 60-tooth two-section harrow. Wood drawbar and irons furnished with two, three and four-section harrows. Draw irons only with one-section harrows. **Shipped from BRADLEY, ILL.**

David Bradley Boss Harrows.

Frames are made of seasoned oak, strongly riveted at each tooth and firmly braced. All wood parts are well painted with a first quality oil paint. Teeth are ½ inch square. Sections are independently connected to drawbar with drop link clevises, allowing flexibility. The 48-tooth harrow cuts 8½ feet, has two side sections and two-horse drawbar; the 60-tooth harrow cuts 10½ feet, has one center and one side section and a two-horse drawbar; the 78-tooth harrow cuts 13 feet, has one center and two narrow side sections, and a two-horse drawbar; the 102-tooth harrow cuts 16½ feet, has one center and two wide side sections, and a three-horse drawbar; the 150-tooth harrow cuts 26 feet, has one center, two wide and two narrow side sections, and a four-horse drawbar which is fitted with a sheave pulley and roller chain draft equalizer. If you purchase a 150-tooth harrow, you can use it as a 78-tooth or as a 102-tooth harrow by separating the sections and using a shorter drawbar.

David Bradley Wood Frame Spring Tooth Harrows.

Especially adapted for use in timber countries. Made in two sections, hinged and flexible at center. Frames are first quality seasoned oak, painted with high grade oil paint, and fitted with stump guard around the sides and front and lined with steel on the bottoms. Teeth are made of spring steel finely tempered in oil and firmly secured to the bars. The 16-tooth harrow cuts 5 feet; the 18-tooth, 6 feet, and 20-tooth, 7 feet wide. Price includes drawbar. Don't buy an unlined harrow; it will cost you nearly as much as a lined harrow and wear out in a much shorter time. **Shipped from BRADLEY, ILL.**

No. 32N384 16-Tooth Lined Harrow. Weight, 175 pounds.
Price.....$13.17

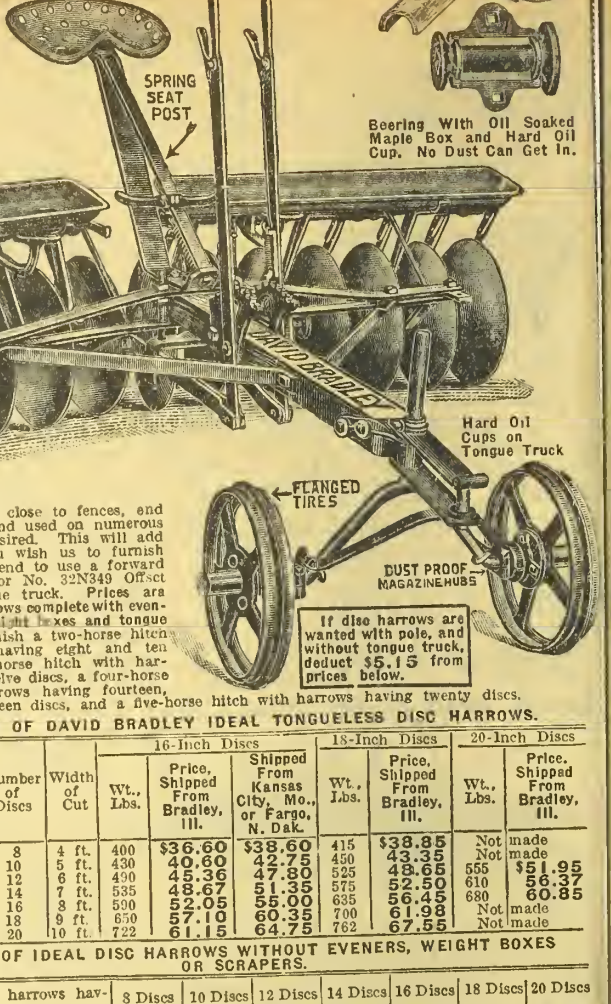
David Bradley Ideal Tongueless Disc Harrows

These machines possess every important improvement in disc harrow construction, and we guarantee them to be unusually strong and perfect working implements. The frame is made of heavy steel throughout. It is rigidly braced in all directions. The gangs have bumper washers on their inner ends and are flexible and operated by independent levers. The steel bars connecting the levers with the disc sections are placed under a heavy steel yoke, which is adjustable up and down on the frame. This holds the discs level and makes them cut a uniform depth. **Hitch is low and the pull is direct from the gang bearings. The harrow is of perfect balance, which insures unusually satisfactory work.**



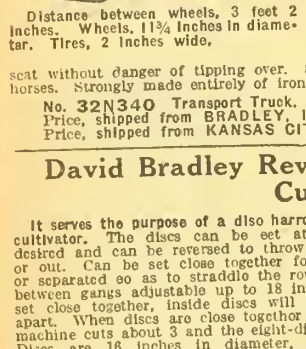
Beering With Oil Soaked Maple Box and Hard Oil Cup. No Dust Can Get In.

Weight boxes are pressed from a single sheet of heavy steel. Discs are carefully tempered steel and highly polished. Spools are iron. **Bearings run in oil soaked maple boxes and are** provided with large compression grease cups. Bearings are absolutely dustproof. Axles are steel, ⅞ inch square. The **oscillating spring steel scrapers** are operated by slight foot pressure on a foot lever at each side of seat post. They are also provided with a **throw off lever** at rear, so that the operator can free the scrapers from the discs at any time. This feature not only saves wear on scrapers and discs, but lightens the draft when scrapers are not required. **The spring seat post,** fully covered by Bradley patents, can be used on no other disc harrow. This feature, together with the large, roomy seat, makes the David Bradley Ideal an extremely easy riding disc harrow.

A David Bradley adjustable oscillating tongue truck is secured to the stub tongue. The advantages of a tongueless disc harrow are so readily appreciated by farmere that it is coming into almost univereal use.

Buy this harrow and you will have a disc harrow as satisfactory and up to date as you could purchase at any price, a machine which does perfectly uniform work. The truck relieves your horses of worry and neck weight and makes it possible for you to work clear out to the edge of plowed ground, close to fences, end to turn corners easily. The tongue truck can be easily detached and used on numerous other implements. A forward pole can be used on the truck if desired. This will add no neck weight, merely serves to better control the team. If you wish us to furnish a pole with the harrow, we will do so for $1.10 extra. If you intend to use a forward pole, you should order extra either our No. 32N348 Pole Plate, or No. 32N349 Offset Pole Attachment, listed on this page, with David Bradley tongue truck. Prices are for the disc harrows complete with eveners, scrapers weight boxes and tongue truck. We furnish a two-horse hitch with harrows having eight and ten discs, a three-horse hitch with harrows having twelve discs, a four-horse hitch with harrows having fourteen, sixteen or eighteen discs, and a five-horse hitch with harrows having twenty discs.

If disc harrows are wanted with pole, and without tongue truck, deduct $5.15 from prices below.



Distance between wheels, 3 feet 2 inches. Wheels, 11¾ inches in diameter. Tires, 2 inches wide.

David Bradley Transport Truck for Disc Harrows.

A very practical and useful device. Intended for use with Bradley Tongueless Disc Harrows or others with similar frame construction. The forward arms are placed under the disc axles of both gangs and hooked on to the forward frame. When the lever is thrown up the disc gangs are automatically raised from the ground and the harrow is ready for transporting on the road or from field to field, while the driver rides in the seat without danger of tipping over. Saves your discs and makes the work easier for horses. Strongly made entirely of iron and steel and should last a lifetime.

No. 32N340 Transport Truck. Weight, 80 pounds.
Price, shipped from BRADLEY, ILL. $5.45
Price, shipped from KANSAS CITY, MO., or FARGO, N. DAK. 5.85

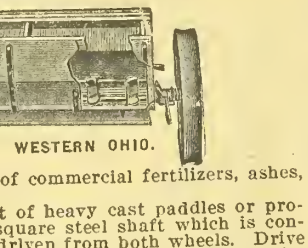
David Bradley Reversible Disc Harrow and Cultivator.



It serves the purpose of a disc harrow or a disc cultivator. The discs can be set at any angle desired and can be reversed to throw the dirt in or out. Can be set close together for harrowing or separated so as to straddle the row. Distance between gangs adjustable up to 18 inches. When set close together, inside discs will be 6 inches apart. When discs are close together the six-disc machine cuts about 3 and the eight-disc machine about 4 feet. Discs are 16 inches in diameter, tempered and polished. Aside from cultivating grain, hilling potatoes, cultivating tobacco, etc., this implement can be used to run between rows of berries, grapes, etc., for which work the ordinary disc harrow is too wide. Discs can be tilted either way so as to hill or trench. They have oil soaked maple bearings and scrapers. Neckyoke and pole with two-horse hitch furnished regularly. Can furnish with ehafts for one-horse, for light work, in place of pole, for $1.50 extra.

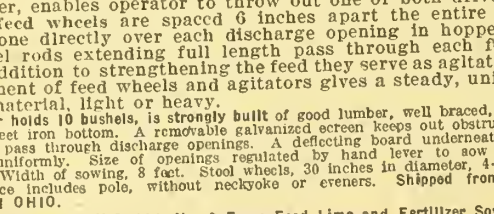
X-L-ALL No. 2 Force Feed Lime and Fertilizer Sower.



Shipped From Factory In WESTERN OHIO.

Strongly built to handle all kinds of commercial fertilizers, ashes, lime, marl and pulverized limestone.

The agitator and force feed consist of heavy cast paddles or propeller wheels mounted on a 1¼-inch square steel shaft which is connected directly to the steel axles and driven from both wheels. Drive shaft has a center bearing, and each wheel drives half the shaft independently of the other half. A clutch on each wheel, operated by a hand lever, enables operator to throw out one or both drives.

The feed wheels are spaced 6 inches apart the entire length of hopper, one directly over each discharge opening in hopper bottom. Two steel rods extending full length pass through each feed wheel and in addition to strengthening the feed they serve as agitators. This arrangement of feed wheels and agitators gives a steady, uniform feed of any material, light or heavy.

Hopper holds 10 bushels, is strongly built of good lumber, well braced, with hinged lid and sheet iron bottom. A removable galvanized screen keeps out obstructione which would not pass through discharge openings. A deflecting board underneath distributes fertilizer uniformly. Size of openings regulated by hand lever to sow any desired quantity. Width of sowing, 8 feet. Steel wheels, 30 inches in diameter, 4-inch concave tires. Price includes pole, without neckyoke or eveners. **Shipped from factory in WESTERN OHIO.**

No. 32N1133 X-L-ALL No. 2 Force Feed Lime and Fertilizer Sower. Weight, 385 pounds. Price $38.95

David Bradley Adjustable Oscillating Tongue Truck.

Dustproof Magazine Hubs and Hard Oil Cups.

For use with disc harrows, seeders, land rollers, etc. The same truck furnished with the David Bradley Tongueless Disc Harrow. Relieves the team of neck weight, and does away with the constant worry of an unwieldy tongue. Made with cast iron wheels, 15 inches high, with flanged tires 2 inches wide. They have wide oil retaining dustproof hubs and hard grease cups. Distance between wheels is 24 inches. The high arch steel axle allows the wheels to pass clear under the tongue, permitting short turns either way. The casting which attaches to the stub polo is adjustable up or down on the standard, so as to accommodate all heights of hitches and insure direct draft. The construction of this casting is such as to permit the wheels to oscillate and adjust themselves to uneven ground. Wheels can be run over an obstruction several inchcs high without disturbing the position of the tongue or hitch. We furnish at extra prices quoted a pole plate, which can be used with two or four-horso hitches whenever it is desired to usa a forward pole with the truck, or an ofiset pole attachment for forward pole with three or five-horse hitch. The truck is easily attached to any implement. It is only necessary to saw off all but about 4 feet of the tongue and bolt the truck to the stub with bolts we furnish.

No. 32N347B Tongue Truck, with cast wheels. Weight, 65 pounds.

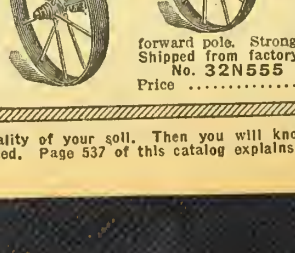
Universal Binder Tongue Truck.



Especially designed for use on binders and harvesters, but can also be successfully used with disc harrows and other implements. Enables one to do away with side draft on any harvester. Easily attached to any machine, either right or left hand. Wheels set 36 inches apart; truck will not skid. Oscillating frame permits truck to follow line of draft over roughest ground without affecting tongue or implement. Truck can be used with or without forward pole. Strong steel wheels, 22 inches in diameter, have 3-inch tires. **Shipped from factory in NORTHERN ILLINOIS.**

No. 32N555 Universal Binder Tongue Truck. Weight, 120 pounds.
Price $12.48

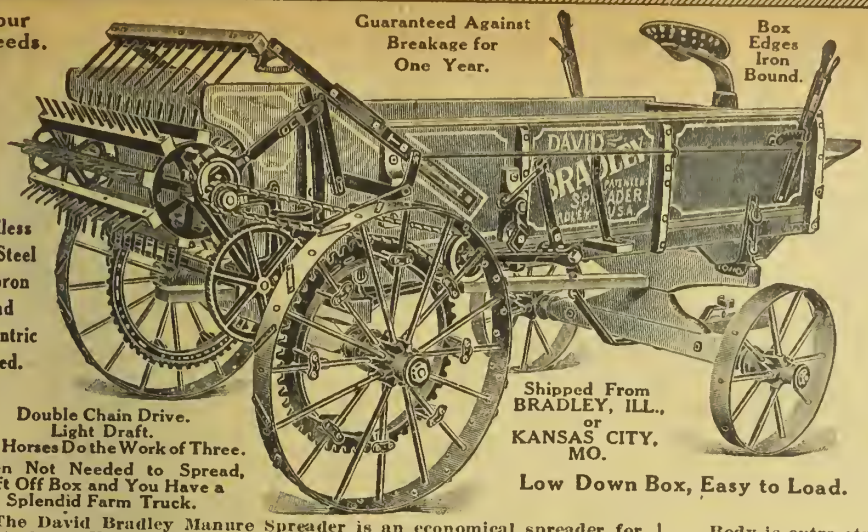
David Bradley Manure Spreader



OUR GUARANTEE

We guarantee the David Bradley Spreader to please you in every way. Try it out in your own field, taking your own time and spreading as many loads as you wish. Then if in your own opinion the David Bradley has not proved satisfactory in strength, ease of handling, quality of work and lightness of draft, you may send it back to us at our expense, and we will return your money and also whatever freight charges you paid. We will replace free of charge any part which breaks within one year or which ever shows defect in material or workmanship.

SEARS, ROEBUCK AND CO.

The David Bradley Manure Spreader is an economical spreader for you to buy. You can get more use out of it than from a heavier type of spreader requiring three or four horses, because it is so light of draft that you can hitch to it any time, and spread with it on hard or soft ground, uphill or down. Two horses will handle it with ease under any ordinary conditions. When not used for spreading manure, you have an excellent farm truck to use with an ordinary wagon box.

SIMPLICITY. Freedom from complications is one of the striking features of the David Bradley Manure Spreader. The parts are few and all parts subject to strain are made of either malleable iron or steel. Danger of breakage is practically eliminated.

Our improved eccentric feed cannot get out of adjustment. There are no springs to weaken, no small parts to break or wear quickly.

Extra heavy No. 62 malleable drive chain on both sides engages with large, heavy iron sprocket attached to each rear wheel. Both chains are engaged or released with one movement of lever. Chains are held in gear by our positive chain lock and cannot jump or skip. Idler arms are adjustable in or out on square shaft and idler arm lever has threaded adjustment. These features insure chain always being in allignment, and any slack can be quickly taken up. Idlers and arms are heavy malleables, idler arm levers heavy steel.

Beater is made of eight oak crossbars bolted on heavy malleable spiders. Steel teeth ⅝-inch round and shear pointed, are set into these bars, which are cross riveted to prevent splitting. Teeth are arranged so as to shred every bit of manure. A spring trip rake is placed above beater which helps pulverize the manure. It automatically trips if any unyielding substance is encountered and prevents injury to beater.

Endless steel apron has heavy No. 62 malleable chains and steel angle crossbars. Apron runs on a strong steel shaft with sprocket at each end. Chains are protected under box by steel angles. Chain adjusters are provided at front end for adjusting apron. Apron clears out all manure.

Body is extra strong construction. Bottom is matched flooring built on two heavy hard pine sills running full length of box. Hard pine cross girts are mortised into sills. Two steel angles underneath reinforce full length of sills. Box sides are 17 inches high above bottom and are solidly bolted to eight posts, and an iron brace is bolted to middle of each box side and the extended ends of center cross girt. Box will not bulge. Top edges are iron bound to protect from knocks of fork or shovel. **Box** is 10 feet long and higher at front than at rear and also 2 inches wider at rear than at front. This taper permits load to travel back freely. **Steel seat** is mounted on strong steel standard and folds forward when loading.

We furnish the complete spreader with a 3¼x10-inch steel wheel truck. The truck is very strong and compact, permits easy handling of the team, turns short, and is low enough for easy loading. The top of box sides is only 50 inches from the ground. The bolsters are 3½x4½-inch oak; the gear is hardwood and wrought iron throughout, except the malleable iron stakes; axles are hickory; reach, tongue and bolsters are oak. Entire truck well ironed and braced. **Reach may be lengthened out** in case you wish to use truck for some other purpose requiring long wheel base. Wheels are practically unbreakable; front, 28 inches, and rear, 40 inches in diameter. Tires, ⅝ inch thick and 4 inches wide. **Removable mud lugs** or traction cleats are bolted to rear wheels, insuring positive traction. The hubs are extremely heavy cast, and wide oval spokes are set into and upset in rims. Front and rear wheels track; don't make unnecessary tracks in your field.

Prices of David Bradley Manure Spreaders, complete with trucks and without trucks.

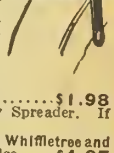
In ordering Box Spreader tell us whether your truck has wood or steel wheels, diameter of rear wheels, and number of spokes.

David Bradley Manure Spreader Box.

If you wish to purchase a spreader box for use on a wagon truck you already have, you cannot make a better selection than the David Bradley Spreader Box. It is exactly the same as that furnished on our complete spreaders. The price for the spreader box includes everything necessary to make a complete David Bradley Spreader except the truck. Drive chains, sprockets, clamps and everything necessary to attach are included.

It will fit any ordinary farm wagon truck you may have, wide or narrow track, wood or steel wheels. You run no risk as to perfect fit because of its complete **adjustability.** The clamp blocks are formed so that sprockets may be held out the proper distance from spokes whether flat or dished wheels. Idler arms are adjustable in or out on shaft and beater shaft sprockets are similarly adjustable. Thus a **perfect** alignment is always possible; chain, idler, drive sprocket and beater sprocket all in a straight line.

David Bradley Mud Lugs.



We furnish mud lugs or traction cleats with every complete David Bradley Manure Spreader.

Mud lugs are NOT included with the spreader boxes. We recommend that you order a set when buying spreader box only. They will be found helpful when the machine is used where an ordinary wagon wheel would slip.

No. 32N810 Set of eighteen David Bradley Mud Lugs. When ordered alone state whether wanted for wood or steel wheels and width of tire. Weight, per set, 16 pounds. Price, per set.....$1.98

Whiffletree and Neckyoke are not regularly furnished with David Bradley Spreader. If wanted they must be ordered extra.

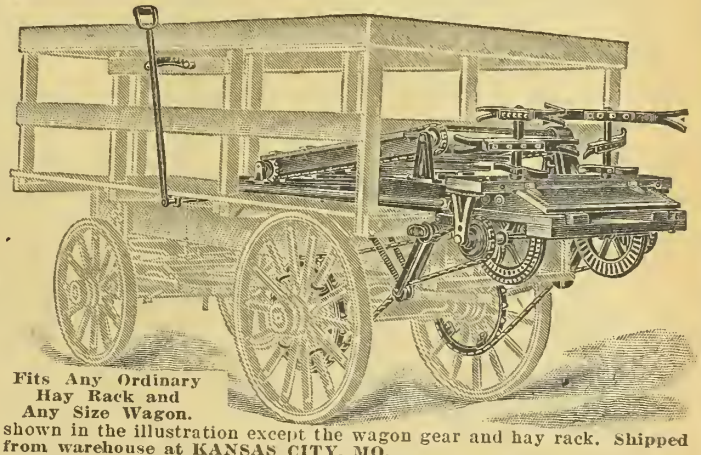
No. 32N812 Three-Horse Whiffletree and Neckyoke. Wt., 55 lbs. Price.....$4.97

Double Drive Straw Spreader Attachment

Agricultural colleges and hundreds of farmers attest the act that straw properly spread, greatly increase the yield. It vill retain moisture, prevent washing, prevent Winter kill and s easily the best method of preventing light soils from blowng. In no way can you so cheaply supply the soil with the nuch needed humus. The Double Drive Spreader has been uccessfully in use for six years. It is the original straw preader having double drive through differentials getting qual power from both wheels, permits spreading while turning nd prevents breakages from backing up. Either wheel turns oth propellers. The propellers, gears and traveling apron, re built in a unit that lies through the center of your rack nd is quickly and easily removable. The single conveniently laced lever throws machine in gear. This stanchly constructed preader attachment is furnished to fit any wagon regardless width of tread, high, low, steel or wood wheels. When ordering ate distance between rear wheels, center to center of tires and whether ood or steel wheels. You can mount it on any ordinary hay rack or eader barge. The straw, as delivered to the propellers, is nipped to small bits and spread evenly over a width of 12 to 20 feet, depending on conditions of straw. Since many authorities agree that straw more valuable as a fertilizer, ton for ton, than barn yard manure, and nce this spreader will enable you to spread as much as 10 to 15 acres r day, it will easily be seen that the spreader should more than pay r itself in one season, by the increased yield and in fact may save entire crop from drought or Winter kill. Many farmers use this reader for both manure and straw. Price is for attachment complete th everything necessary to attach to any rack or wagon, everything



Fits Any Ordinary Hay Rack and Any Size Wagon.

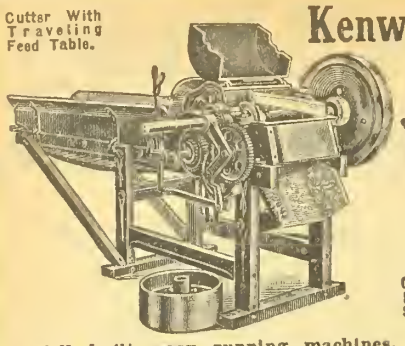
shown in the illustration except the wagon gear and hay rack. **Shipped from warehouse at KANSAS CITY, MO.**

No. 32N820 Double Drive Straw Spreader Attachment. For 4-foot 8-inch narrow tread wagon. Weight, 775 pounds. Price.....$75.00

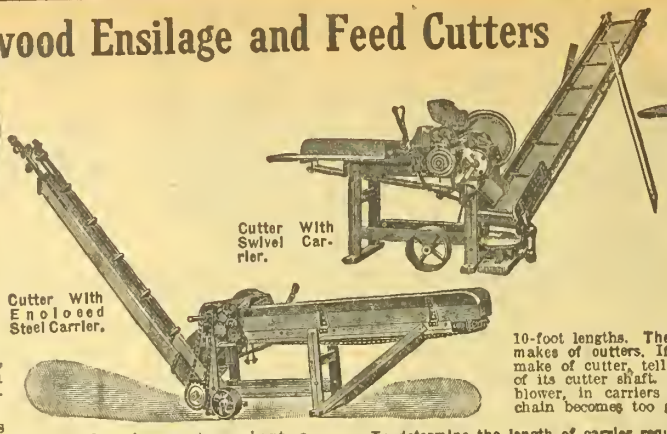
No. 32N821 Double Drive Straw Spreader Attachment, for 5 foot 2-inch wide tread wagon. Weight, 800 pounds. Price.....$75.50

State whether for wood or steel wheels.

Kenwood Ensilage and Feed Cutters

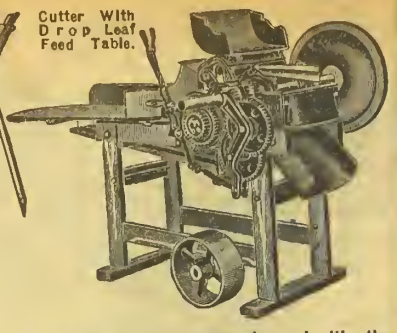


Cutter With Traveling Feed Table.



Cutter With Swivel Carrier.

Cutter With Enclosed Steel Carrier.



Cutter With Drop Leaf Feed Table.

Well built, easy running machines, with gears, shafts and frames extra heavy and strong. They give large capacity with little power.

Four heavy high carbon steel knives set spirally on solid disc knife heads give a shearing cut against a tool steel cutting bar; bar is reversible with four edges, and each edge can be used before regrinding is necessary. Knives are adjustable on knife heads. Length of cut in all sizes is adjustable to ¼ inch, ½ inch or ¾ inch, and by removing two opposite knives the cuts will be ½ inch, 1 inch or 1½ inches long. Size number of cutters indicates length of knives in inches.

Shaft is extended on both sides so pulley and balance wheel can be placed on either side. Heavy safety flywheels are secured to shaft with a friction block so they will slip on shaft in case cylinder should clog. Cone gears are held in place on shaft with a thumb latch, and can be quickly shifted from one length of cut to another. No ect screws, pins or keys to bother with when changing length of cut.

Gearing is controlled by a quick stop lever and all running parts, except cutting cylinder, can be instantly stopped or started. Pressure on the roll is controlled by an equalizer which is subjected to an even tension spring pressure, which on plain table machines is obtained from a wood spring board underneath the table, and on traveling table machines from a steel coil spring. Both ends of the roll rise uniformly.

On traveling table machines the feed table consists of an endless apron of hardwood slats which greatly reduces the labor of feeding and increases the capacity, as it enables the operator to keep the rolls full and the machine cutting steadily. The apron is controlled by the same quick stop lever which controls feed rolls. One movement of the lever stops or starts both rolls and the feed table.

The carriers shown attached to the cutters in the small illustrations are not furnished unless ordered at the separate prices quoted. Our swivel carrier will deliver at any point within a half circle and can be raised or lowered, as desired. It is 12 feet long, and if you wish a longer carrier you must then order, in addition to the swivel carrier, as many extra carrier extensions as required. Carrier extensions may be ordered in 4-foot, 8-foot or 12-foot sections.

Our enclosed all steel carrier is a great improvement over other forms of carriers. Cut feed cannot spill or blow out. Body is oval shaped, made of No. 20-gauge galvanized steel; top enclosed with board running full length. Driven by a single extra heavy chain running in center. Carrier buckets return on top, hence no side strain, no catching, stretching, nor breaking of chains. Carrier is driven from sprocket attached to head of cutter. The enclosed steel carrier is made in the straightaway type only and cannot be swiveled around at different angles to cutter. The first section with hopper is 12 feet long. Additional sections or extensions can be furnished at any time in 5 or 10-foot lengths. **The enclosed steel carriers can be used with other makes of cutters.** If ordered without cutter or to use on another make of cutter, tell us the name and size of cutter and diameter of its cutter shaft. For silos over 30 feet high we recommend a blower, in carriers of extreme length the weight of carrier and chain becomes too great to handle conveniently.

To determine the length of carrier required of either style, find the distance from the ground to the opening in silo and add 12 feet to this measurement. **Cutters and carriers shipped from factory in SOUTHEASTERN WISCONSIN.**

NOTE—When ordering be sure to tell us the horse-power of your engine, the diameter and face, in inches, of its belt pulley and the number of revolutions it makes per minute. We will then furnish the cutter with a pulley of suitable size to give the best results. Do not overlook this requirement, as the successful operation of the cutter depends on its running at the proper speed.

CAPACITY AND POWER REQUIRED.

Size No.	Diameter Shaft, Inches	Capacity, Tons per Hour		Horse-Power Required	
		Green Fodder	Dry Fodder	Plain Table and Carrier	Traveling Table and Carrier
13	1¼	3 to 5	1½ to 2½	3 to 4	4 to 5
16	1¾	6 to 8	3 to 4	5 to 6	6 to 8

Capacity depends on power and speed and skill of operator.

X-L-ALL Grain Grader, Separator and Fanning Mill

Sheet Steel Drum. Won't Warp or Crack. Bolted Frame.

Mill No. 2 Without Sacking Elevator, **$19.75**

Complete With Sacking Elevator, **$27.45**

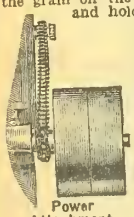
The X-L-ALL mill will clean and grade any kind of seed, save the grass seed from grain, and throw out all dirt, trash and weed seeds. It is strongly constructed, nicely finished and very easy running. Only first grade kiln dried lumber used. Fans enclosed in large sheet steel drum, give strong, steady air blast. Mill shipped crated and all set up except drum, which requires only a few minutes to attach. Lowest freight rate is thus secured and you are saved the bother of putting an entire mill together.

Made in two sizes and styles. No. 2 mill with single shoe, capacity 30 to 50 bushels an hour. No. 3 mill with double shoe, capacity 80 to 100 bushels an hour. No. 2 mill has screening space 24x24 inches. Single oscillating shoe has large capacity so that a combination of several screens and riddles can be built up to take care of especially bad mixtures. Shake can be regulated as desired. Screens are cleaned and kept from closing by a heavy cast iron knocker, operated by the movement of shoe. No. 3 mill has screening space, 30x30 inches. Upper shoe has side shake, lower shoe has end shake. Lower screen has scrubbing bars which prevent sagging and clogging of screen.

EQUIPMENT—Eight screens and riddles are regularly furnished to clean and separate wheat, oats, rye, barley, peas, beans, corn, rice, buckwheat, kaffir corn and broom corn. We can furnish at extra prices, as shown below, other screens and riddles which adapt the mill for cleaning, grading and separating almost every kind of seed. We send with every mill a book of directions telling how to operate the mill for every class of work.

Any kind of seed or grain can be successfully handled with either size of mill. The No. 2 mill serves every purpose where large capacity is not required. The No. 3 mill has double the capacity, and has the advantage that double gangs can be rigged, one in each shoe, which is especially desirable in separating wheat from oats and oats from barley, and even with the very worst mixture any desired result can be immediately obtained. We guarantee both mills to do perfect work if suitable equipment is used and they are operated according to directions we furnish. Both sizes of mill run very easily and a boy can operate them without trouble.

The sacking elevator is an extremely valuable attachment and we recommend that you order it. It saves time and labor, keeps the grain off the barn floor, and prevents weed seeds and dirt getting mixed again with the seed. Discharge spout is double and holds two sacks. When one sack is filled the grain is instantly switched to the other by turning a valve.



Power Attachment

No. 32N1725 No. 2 X-L-ALL Grain Grader and Fanning Mill, without elevator. Weight, 140 pounds. Price.....$19.75

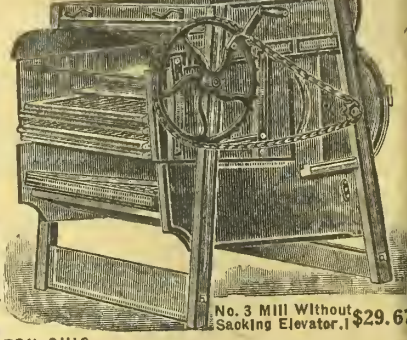
No. 32N1753 No. 3 X-L-ALL Grain Grader and Fanning Mill, complete with sacking elevator. Weight, 250 pounds. Price.....$39.75



No. 3 Mill Without Sacking Elevator, $29.67

X-L-ALL Fanning Mills and Attachments are shipped from factory in NORTHWESTERN OHIO.

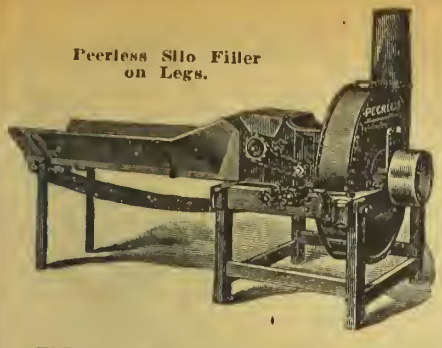
Extra prices of special screens and riddles for X-L-ALL Fanning Mills. Weights of attachments are given for No. 2 mills. Attachments for No. 3 mills weigh from 2 to 5 pounds more each.	For No. 2 Mill, Price	For No. 3 Mill, Price
No. 32N1728 Succotash Attachment. A double five-ply zinc gang for separating wild or tame oats from wheat, barley and rye. Wt., 14 lbs.	$4.53	$5.66
No. 32N1729 Cheat Screen. Takes cheat and small oats from wheat, barley and rye. Weight, 5 pounds.	1.07	1.33
No. 32N1730 Flax Attachment. Takes mustard, wheat, oats, weeds, etc., from flax. Weight, 9 pounds.	2.13	2.66
No. 32N1731 Special Flax Attachment. A three-ply zinc hurdle end screen. For very dirty flax. Will handle successfully a flax mixture that looks impossible to separate. Weight, 14 pounds.	4.55	5.67
No. 32N1755 Timothy Attachment. Takes out sand, clover, alfalfa, millet, alsike, red top, also pepper grass, plantain, daisy and other weeds. Weight, 12 pounds.	2.80	3.60
No. 32N1733 Clover and Alfalfa Attachment. Cleans and separates these seeds and takes out buckhorn and weed seeds. Wt., 10 lbs.	2.00	2.54
No. 32N1734 Millet, Hungarian and Alfalfa Attachment. Cleans any of these seeds. Weight, 4 pounds.	2.02	2.55
No. 32N1735 Grass Seed Attachment. For cleaning Johnson, English, blue or orchard grass. Weight, 8 pounds.	2.07	2.60

Extra prices of special screens and riddles for X-L-ALL Fanning Mills. Weights of attachments are given for No. 2 mills. Attachments for No. 3 mills weigh from 2 to 5 pounds more each.	For No. 2 Mill, Price	For No. 3 Mill, Price
No. 32N1736 Red Top Attachment. Consists of very fine screens required for this seed. Removes all dust and chaff. Wt., 8 lbs.	$4.56	$5.93
No. 32N1737 Lespedeza or Japanese Clover Attachment. Consists of five zinc riddles and two screens. Weight, 20 pounds.	5.60	7.40
No. 32N1738 Bean Attachment. For large varieties, such as lima, kidney, yao, etc. When ordering state kind of beans. Weight, 8 pounds.	2.03	2.56
No. 32N1739 Pea and Corn Attachment. For large varieties, such as marrowfat peas and horse tooth corn. When ordering state kind of peas or corn. Weight, 8 pounds.	2.04	2.57
No. 32N1740 Corn Sorting Attachment. Sorts out the misshapen kernels of the tips and butts. Weight, 8 pounds.	1.95	2.47
No. 32N1742 Timothy Seed Saver. Saves the timothy seed when cleaning oats and wheat. Weight, 14 pounds.	2.87	3.53
No. 32N1751 Power Attachment. Consists of 8x2 tight and loose pulley with sprocket wheels and chains; should run about 350 revolutions per minute. Weight, 15 pounds.	3.33	3.33

NOTE—These mills are not intended for hulling or shelling peas, but with the equipment regularly furnished they will clean and grade them and separate dirt and hulls from peas already hulled.

Page 903 Tells You Quickly What We Have for You in This Catalog.

Peerless Blower Silo Fillers



Peerless Silo Filler on Legs.

FRAMES are heavy hardwood, mortised and bolted together. Shafts, gears and all bearings extra heavy. Machines are made strong and rigid.

THE FEED GEARS are completely enclosed in housings. Compression grease cups for oiling are placed on raised pipes.

Every machine is tested at 25 per cent higher than its rated speed.

THE KNIFE WHEEL is extra heavy. The rim is turned true on the face as well as on the sides, and a wrought iron band shrunk on the outside.

KNIVES are convex, giving a clean shear cut. They are easily adjusted. An extra set of knives is included with each machine.

FEED ROLLS are toothed. A special feature of Peerless machines is a third roll, or spider roll, which sets over the feed table and passes the feed to the feed rolls. This spider roll practically does the work of a man in keeping the rolls full.

The depth of throat opening in all sizes is large, and all except the No. 210 will take full bundles of corn without cutting the bands.

THE BLOWER is strongly constructed and furnishes ample blast for the full capacity of the machines.

FAN WINGS are made of ¼-inch steel in one piece, securely bolted and riveted to the wheel, so shaped that they will blow and throw the cut feed through the pipe with the least power and friction possible. Fans project slightly above wheel rim so as to keep casing clear of cut feed.

THE CONTROL LEVER operates a clutch in which the gears are always in mesh. Moving the lever from one notch to another starts, stops, or reverses the machine. Three different lengths of cut can be obtained by changing sprocket wheels on the lower roll shaft.

All Peerless Silo Fillers are equipped with self feeders. The table is of wood with both sides flaring so that it is convenient to operate the machine from either side.

The bottom of the table is cut out on either side to permit of sand and grit dropping through, and in this way keeping it out of the ensilage. The tension of the apron is regulated by means of tightener screws in adjustable boxes at the outer end of the table.

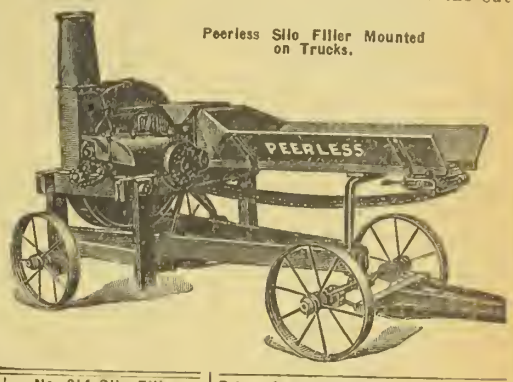
The drive for the feed apron is obtained from the lower roll shaft by means of sprockets and chain. This chain is equipped with a tightener.

We recommend the purchase of machines mounted on trucks in all cases, especially when machines are bought for job work and must be moved from one farm to another. Should a machine be purchased unmounted, trucks can be purchased later and can be attached directly to the frame without any changes whatever.

Wheels are steel, 24x3 inches, with heavy rims and staggered and riveted spokes. Axles are heavy tubular steel.

The prices we quote on Peerless Silo Fillers do not include blower pipe, elbow or distributer. An elbow, of course, is always necessary, and sufficient blower pipe must be ordered to reach the opening in silo. Blower pipe is furnished in 2½, 5 and 10-foot lengths, so that any required length can be obtained. The lengths are securely coupled by means of malicable flanged rings.

When ordering blower pipe you will need 5 feet less than the height to the opening in silo. The elbow, which we furnish only when ordered, can be used with or without a distributer. Distributers are generally used, as they pack the ensilage as well as distribute it uniformly. The distributer complete consists of a 4-foot length tapering hopper in two sections and as many 4-foot tapering pipe sections as required. The sections are connected to each other by snaps and rings, making the pipe flexible and permitting quick removal of the sections as the silo is filled.



Peerless Silo Filler Mounted on Trucks.

Showing Distributer in Silo.

PRICES OF PEERLESS BLOWER SILO FILLERS.

No. 32N1341 No. 210 Silo Filler, on Legs. Weight, 1,015 pounds. Price.....$ 89.65
No. 32N1343 No. 212 Silo Filler, on Legs. Weight, 1,175 pounds. Price..... 99.75
No. 32N1340 No. 210 Silo Filler, Mounted on Trucks. Weight, 1,375 pounds. Price..... 121.50
No. 32N1342 No. 212 Silo Filler, Mounted on Trucks. Weight, 1,535 pounds. Price..... 129.75
No. 32N1344 No. 214 Silo Filler, Mounted on Trucks. Weight, 1,670 pounds. Price..... 159.50

Prices do not include blower pipe, elbow, or distributer. Neckyoke, evener and singletrees are furnished with each mounted machine.

Average weights, per foot, of blower pipe, crated, are: 7-inch, 5 lbs.; 8-inch, 7 lbs.; 9-inch, 10 lbs. Distributer elbow weighs about 50 pounds. Distributer pipe weighs about 5 pounds per foot.

When ordering be sure to tell us the horse-power and speed of your engine, and the diameter and face, in inches, of its belt pulley. We will then furnish the cutter with a pulley of suitable size to give the best results. Do not overlook this requirement, as the successful operation of the cutter depends on its running at the proper speed. **Peerless Silo Fillers are shipped from factory near CHICAGO.**

Prices for Elbows, Blower Pipe, Distributer Pips.

No. 32N1346 Elbows.
7-inch for No. 210. Each..$10.85
8-inch for No. 212. Each.. 10.95
9-inch for No. 214. Each.. 11.10

No. 32N1347 Blower Pipe.
7-inch for No. 210. Per foot....60c
8-inch for No. 212. Per foot....65c
9-inch for No. 214. Per foot....70c

No. 32N1348 4-Foot Distributer Hopper.
7-inch for No. 210. Each....$6.35
8-inch for No. 212. Each.... 6.45
9-inch for No. 214. Each.... 6.60

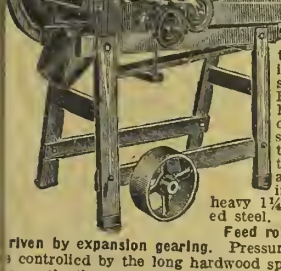
7-inch for No. 210. Each....$2.00
8-inch for No. 212. Each.... 2.10
9-inch for No. 214. Each.... 2.25

Be sure to order an elbow and blowsr pipe with every machine. Blower pipe is furnished in 2½, 5 and 10-foot lengths. The additional purchase of a 4-foot distributer hopper, and several 4-foot lengths of distributer pipe will give you a complete distributer.

No. 11 Power Feed Cutter



Extra strong construction. Frame is heavy hardwood strongly braced. Feed table is long, broad and deep, with fixed sides, and feed throat is large to permit quick and easy feeding. Shaft is heavy 1¼-inch cold rolled steel.

Feed rolls are large and driven by expansion gearing. Pressure on upper roll is controlled by the long hardwood spring shown underneath the feed table. A handy lever quickly starts or stops rolls and gearing. Sliding cone gears provide for quick change of lengths of cut.

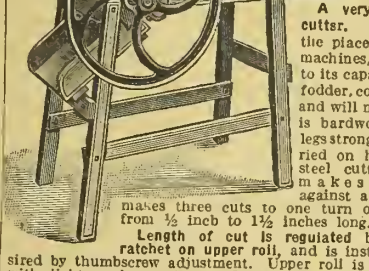
Has four tempered tool steel knives 11 inches long, which make a downward shearing cut. Steel cutter bar has four edges, and all can be used before regrinding. Machine cuts ¼, ⅝ and 1 inch long or, by removing two opposite knives, cuts will be ½, ¾ and 2 inches long. Flywheel is very heavy and has safety friction block. Pulley is 12x4 inches, requires 1 to 2 horse-power, should run 400 to 500 revolutions per minute, and will cut sufficient feed for twenty to forty head of cattle. Capacity, per hour, 1 to 1½ tons of dry fodder or 2 to 3 tons of green fodder.

As an additional convenience we can furnish a crank for occasional hand use, but machine is too heavy for continuous hand use. Crank is extra. **Shipped from factory in SOUTHEASTERN WISCONSIN, or from warehouse at KANSAS CITY, MO.**

No. 32N1530 No. 11 Power Feed Cutter. Weight, 380 pounds.
Price, shipped from factory.....$38.65
Price, shipped from KANSAS CITY, MO. 40.95

No. 32N1531 Crank for hand use.
Price 1.07

No. 5 Hand Feed Cutter



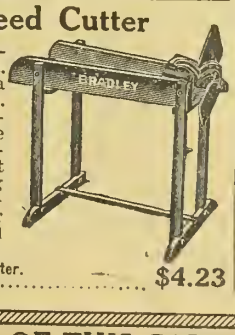
A very handy, easy running feed cuttsr. While not intended to take the place of our larger Nos. 8 and 10 machines, No. 5 does as good work up to its capacity. Cuts hay, dry or green fodder, cornstalks without the ears, etc., and will not clog if properly fed. Frame is hardwood, strongly bolted together, legs strongly braced. All mechanism carried on heavy cast end frame. Tool steel cutting knife, 11 inches long, makes a downward shearing cut against a hardened cutting edge, and makes three cuts to one turn of the crank. Machine cuts from ½ inch to 1½ inches long.

Length of cut is regulated by eccentric which operates ratchet on upper roll, and is instantly changed to length desired by thumbscrew adjustment. Upper roll is spiked and rises and lowers with light or heavy feeds. Lower roll is smooth. Shaft is 1-inch cold rolled steel. Balance wheel extra heavy.

Capacity from 150 to 200 pounds of dry fodder, and from 300 to 400 pounds of green fodder per hour.

No. 32N1505 No. 5 Feed Cutter. Weight, 150 pounds.
Price, shipped from factory near CHICAGO.....$13.75
Price, shipped from KANSAS CITY, MO..... 14.65

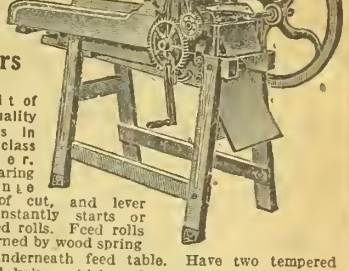
Bradley Lever Feed Cutter



Frame is of heavy, carefully selected material and nicely finished. The steel knife is curved to give a shearing cut. Adjustment is positive. Gauge plate is adjustable for different lengths of cut. One of the handiest machines on the farm, always ready for work, never gets out of order. Just the thing for cutting small quantities of feed for immediate use. There is need for one or more of them on every farm. Shipped from **BRADLEY, ILL.**

No. 32N1500 Bradley Lever Feed Cutter. Weight, 65 pounds. Price..... $4.23

Nos. 8 and 10 Hand Feed Cutters



Built of high quality materials in a first class manner. Have gearing to change length of cut, and lever which instantly starts or stops feed rolls. Feed rolls are governed by wood spring shown underneath feed table. Have two tempered tool steel knives which make a shearing cut against a hardened cutter bar. Will cut either ½ inch, ⅝ inch or 1 inch long, and length of cut may be doubled by removing one knife. Pulley can be attached to shaft. **Pulley is extra.** By power, machine should run from 400 to 500 revolutions a minute. **The No. 8 Cutter** has knives 8½ inches long. Capacity, by hand, 200 to 300 pounds of hay or dry fodder or 400 to 600 pounds of green fodder per hour. By power, capacity can be doubled. **The No. 10 Cutter** has knives 10½ inches long. Capacity, by hand, 300 to 450 pounds of hay or dry fodder or 600 to 900 pounds of green fodder per hour. By power, capacity can be doubled. Each cutter has heavy safety flywheel.

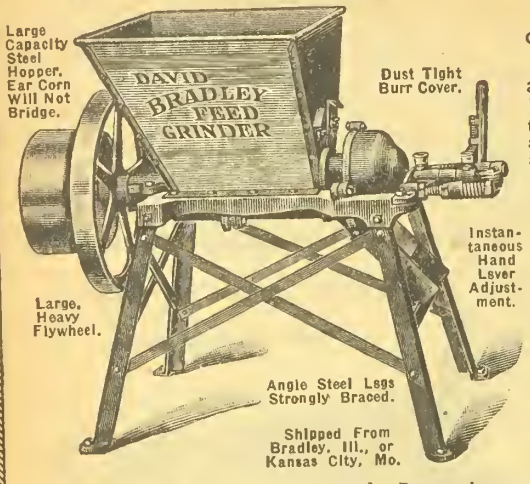
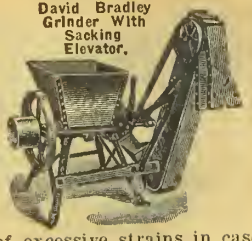
The David Bradley Corn and Cob Crusher and Feed Grinder





David Bradley Grinder With Sacking Elevator.

Grinds corn and cob (without the shuck), shelled corn, oats and all small grains, coarse or fine.

We have had many years' experience in the manufacture and sale of feed grinders, and in designing the David Bradley Feed Grinder we have very successfully applied this experience in producing a most efficient grinder. This is not a cheap mill, but a superior mill which our big Bradley factory and efficient sales methods enable us to produce at an attractive price.

Here are some of the good features of the David Bradley Grinder:

Extra heavy frame, cast in one piece.

Hinged bottom with wood break pins, which relieve grinder of excessive strains in case a stone or other obstruction gets in.

Cold rolled steel shaft, 1½-inch diameter, with ball bearing end thrust.

Large bearings lined with engine babbitt and fitted with hard oil cups.

Extra heavy grinding burrs, bolted with plow bolts to extra heavy discs. These avoid breakages and excessive vibration and noise when grinding.

Easy to change burrs. No difficult adjustments to make because burrs are self adjusting and self aligning.

Snug fitting cast burr case prevents dust flying out.

Quick adjustment for coarse or fine grinding. Movement of hand lever accomplishes this. Lever can be thrown off instantly in emergency, separating the burrs.

Heavy coil relief springs give a cushion effect to the pressure on burrs and help protect grinder from damage in case an obstruction gets in burrs.

Large capacity sheet steel hopper, strongly formed and riveted, so proportioned that ear corn will not bridge.

Angle steel legs, strongly braced. Large, heavy flywheel and assortment of pulley sizes.

The great advantage of the David Bradley Grinder is in the design and arrangement of the feeding device. The cob breakers are so shaped and arranged on the shaft as to slice and cut the cobs into small bits. A ring cob breaker is placed next to the burrs, and through this an auger or worm feed extends to the burrs, thus the cobs are thoroughly pulverized before they reach the burrs. The arrangement of the cob breaker on the shaft and the worm feed constitute a force feed, which is one reason for the large capacity of the grinder, and make it an excellent mill for grinding small grain and shelled corn, as well as for ear corn.

The grinder is regularly furnished with two sets of burrs, one set coarse for grinding ear corn and cracking shelled corn for rough feed; one set medium burrs for finer grinding of shelled corn and small grains. At an extra price we furnish a set of special oats burrs which will grind oats to required fineness for feeding purposes and in astonishing quantities. They are also suitable for making table meal and for extra fine grinding of small grains.

With a grinder of this size we recommend the use of from 4 to 6 horse-power and the grinder should run 300 to 500 revolutions per minute, according to power.

Regular pulley is 12 inches in diameter with 6-inch face, but we will furnish either 8x6, 10x6 or 14x6-inch pulley instead without extra charge. We recommend that when ordering grinder you tell us the horse-power of your engine and the diameter and speed of its pulley, and we will furnish the grinder with the size of pulley to give best results.

Capacity cannot be definitely stated, as it depends on the power, the speed, the kind of grain and its condition, whether damp or dry, and whether grinding coarse or fine. The range of capacities indicated by our tests, and in reports from users of our mills, is from 10 to 25 bushels of dry ear corn, and 10 to 40 bushels of shelled corn, wheat, oats or barley per hour, depending on the horse-power, speed, kind and condition of grain and fineness of grinding, as above explained.

The price of the feed grinder does not include the sacking elevator. This is furnished only when ordered at the extra price shown.

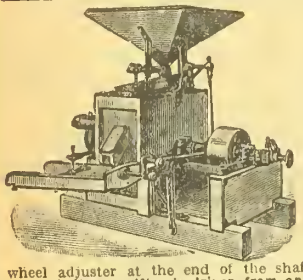
For hand grinders and small grist mills see page 1397.

EUREKA STONE BURR MILLS.



These mills are fitted with native stone burrs, which make a softer, less granulated meal than is produced by the French buhr mills, and are therefore preferred in some sections, especially the Southern states, for making table meal. They also do good work on grinding shelled corn and small grains for feeding purposes, and are suitable for custom work, as well as for individual farmer's use.

The wood frame is made of extra heavy selected lumber, rabbeted and bolted together. Entire construction is very strong and rigid and the mill is well finished throughout and nicely painted. Hopper is wood, rigidly supported by heavy castings. Feed is adjustable for regulating flow of grain, and is self locking. A fan cleaner blows out light trashy matter before reaching the burrs. The fineness of grinding is regulated by a hand-wheel adjuster at the end of the shaft, working against an end thrust ball bearing.

The bolter or sifter is driven from an eccentric on main shaft. Bolter can be attached or detached while mill is in motion. These mills will grind rapidly, coolly and evenly. With ordinary care the stones will give long service. Instructions are furnished for operating mills and for redressing stones. **Shipped from our factory in NORTH CAROLINA.**

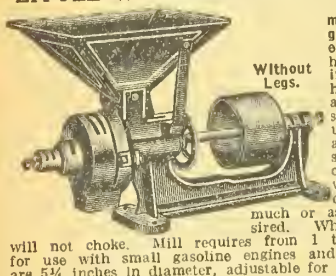
LITTLE WONDER GRINDING MILLS.



Without Legs.

Little Wonder Grinder on Legs.

One of the most satisfactory grinders we have ever handled. It has an easy feeding sheet steel hopper. The burrs are flexible, insuring fine and uniform grinding, and the mill is supplied with a cut-off feed regulator which permits the operator to feed as much or as little to the burrs as desired. When properly operated, burrs will not choke. Mill requires from 1 to 3 horse-power. Designed for use with small gasoline engines and other light powers. Burrs are 5¼ inches in diameter, adjustable for grinding coarse or fine. Grinds all kinds of small grain, coffee, etc. Pulley is 4x4 inches and should run from 700 to 1,300 revolutions per minute. Capacity, 5 to 15 bushels of mixed feed per hour, depending upon speed and fineness of grinding. Burrs cannot run together when empty, and nails pass through without injuring the mill. Furnished with one set of coarse and one set of fine burrs. **Fine burrs grind table meal. When ordering extra burrs state whether coarse or fine burrs are wanted. Shipped from BRADLEY, ILL., or from our warehouse at KANSAS CITY, MO., or FARGO, N. DAK.**

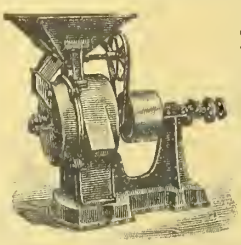
GENUINE FRENCH BUHR MILLS.



This type of mill is unexcelled for custom use where the grinding of fine meal or table meal is the principal duty. The stones are a genuine imported French buhr stock, perfectly dressed and accurately fitted. They will grind coolly and evenly, producing a medium soft, thoroughly pulverized meal, of a quality that cannot be excelled on any steel buhr mill, and they require less power on fine grinding. They are also highly satisfactory for grinding shelled corn for feed. The housings are lathe turned and flanged, insuring a dust-tight joint and making the bed stone come exactly to position and square with the spindle. The spindle is fitted to runner stone casing by a taper fit and the stone becomes tighter on spindle as the grinding pressure increases. Bearings are extra heavy, long and babbitted. End thrust has ball bearings. Relief spring prevents stones running together when empty. Improved agitating worm force feed is driven by belt from spindle. Entire frame and hopper made from cast iron, heavy and substantial, insuring rigidity and durability. The speeds as listed can be safely increased 10 to 20 per cent when grinding coarse feed, and capacities increased accordingly, if sufficient power is applied. This is one of the leading French buhr mills on the market and is sure to give the highest satisfaction with proper handling. With ordinary care they will last for years. We furnish instructions for dressing stones with every mill. **Shipped from factory in SOUTHWESTERN OHIO.**

Catalog No.	Size of Buhrs, Inches	Speed R. P. M.	Bushels of Feed per Hour	Bushels of Meal per Hour	Horse-Power Required	Size of Pulley, Inches	Weight, Pounds	Price

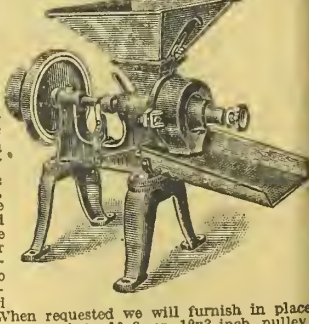
FAMILY FLOUR AND MEAL MILL.



This mill meets the demand for grinding table meal or flour with small power outfits. A lever operated valve below the hopper regulates the quantity of grain admitted to the burrs, thus adapting the mill to engines of 1½ to 3 horse-power. The hand nut on end of shaft regulates fineness of grinding. The metal screen bolter is operated from a cam on main shaft and can be quickly detached when not needed. Two sets of burrs 5½ inches in diameter are furnished with each mill, one fine for grinding flour or meal and a coarse set for cracking grain for feed. A worm force feed on main shaft insures large capacity in coarse grinding. Capacity is from 6 to 20 bushels per hour, according to fineness of grinding and conditions of grain. The heavy flywheel contributes to steady motion when run with small engine. Regular pulley is 4½x6½ inches in diameter and should run from 600 to 1,000 revolutions per minute. When requested we will furnish in place of regular pulley and without extra charge either an 8x4, 10x3 or 12x3-inch pulley. Illustration shows No. 32N1656 mill mounted on legs. **Shipped from factory near CHICAGO.**

No. 32N1655	**Family Flour and Meal Mill** with flywheel and bolter, without legs. Weight, 103 pounds. Price	$16.65

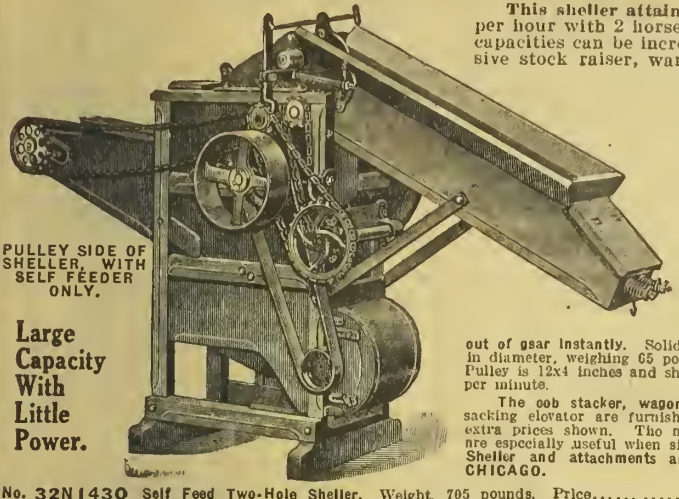
Every Article in This Book Is Exactly as Described and Illustrated.

X-L-ALL Self Feed Two-Hole Corn Sheller



PULLEY SIDE OF SHELLER, WITH SELF FEEDER ONLY.

Large Capacity With Little Power.

This sheller attains large capacity with very little power. It will easily shell 50 to 75 bushels per hour with 2 horse-power, and 75 to 100 bushels with 4 horse-power, and with good corn these capacities can be increased. **It will perfectly fulfill the requirements of the large farmer** or extensive stock raiser, warehouseman, or for general custom work, and we guarantee it to stand up under the work.

The frame and all other parts are unusually heavy; the sheller is well proportioned, and it will not rack to pieces nor any parts get out of alignment no matter how heavy the work put on the machine. Shafting, chains, gears and all mechanism are very heavy. Running parts are accurately fitted, insuring smoothness of operation. The interior of machine is easily accessible from the top through a hinged lid covering the adjusting springs.

The sheller is quickly and easily adjusted for different kinds of corn, and is guaranteed to shell clean without breaking up the cobs or grinding the corn. Having an extra large and powerful fan, it delivers the shelled corn free from cobs and dirt.

Sheller is 5 feet high, 30 inches wide and 55 inches long over all. Frame is selected hardwood and machine is nicely painted, striped and varnished.

Gears are protected by guards and a shifting clutch throws feeder in or out of gear instantly. Solid web balance wheel, 22 inches in diameter, weighing 65 pounds, insures steady operation. Pulley is 12x4 inches and should run about 700 revolutions per minute.

The cob stacker, wagon box elevator and the 5-foot sacking elevator are furnished only when ordered at the extra prices shown. The mounting trucks, No. 32N1585, are especially useful when sheller is used for custom work. **Sheller and attachments are shipped from factory near CHICAGO.**

Two-Hole Corn Sheller.

A well built, substantial machine of good capacity for general farm or warehouse use. Balance wheel is large and heavy. The rag irons and springs are adjustable for different sizes of ears. The cob rake separates the shelled corn from the cob, delivers the cobs at a distance from the sheller and allows the sheller to be run at a good speed without throwing corn out with the cobs. Furnished with fan, feed table, crank and an 8-inch diameter by 4-inch face pulley. When run by power the pulley should make from 300 to 400 revolutions per minute. Capacity is from 25 to 35 bushels of shelled corn per hour. **Shipped from factory in SOUTHEASTERN WISCONSIN.**

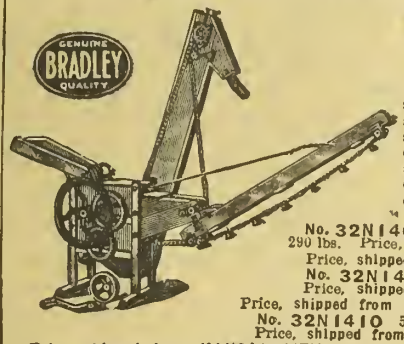
No. 32N1412 Two-Hole Corn Sheller. Weight, 250 pounds.
Price $20.60

DAVID BRADLEY TWO-HOLE CORN SHELLER

A two-hole table feed sheller of exceptional merit and large capacity. Frame and parts are of extra heavy construction. It runs as easily by hand as the lighter two-hole machines, but is especially adapted to be run by power. Frame is hardwood, strongly bolted and braced, and all running parts are very carefully fitted. Balance wheel is extra heavy. Sheller stands 40 inches high, 14 inches wide, 29 inches long. Frame over all is 52 inches long, including the cob carrier, which has a heavy drive chain. Feed spouts have adjustable rag irons and springs. Fan has strong blast and delivers the corn free from dirt and chaff. Sheller has a capacity of 350 to 450 bushels a day with power. Pulley is 10 inches in diameter with 3½-inch face and should be speeded about 350 revolutions per minute. A 1 horse-power engine will handle sheller easily.

With Sacking Elevator.

For Hand or Power.



Large illustration shows sheller with sacking elevator; small illustration shows sheller with wagon elevator and cob stacker, but price on sheller does not include any of these attachments, which are furnished only at the extra prices quoted below. Price on sheller includes crank, pulley, fan and feed table.

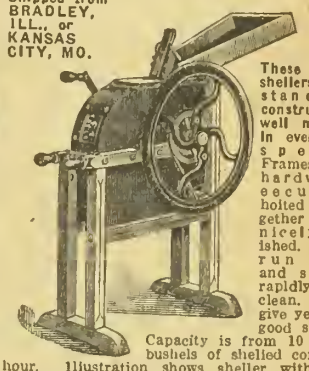
One-Hole Corn Shellers.

Shipped from BRADLEY, ILL., or KANSAS CITY, MO.



These are shellers of standard construction, well made in every respect. Frames are hardwood, securely bolted together and nicely finished. They run easily and shell rapidly and clean. Will give years of good service. Capacity is from 10 to 15 bushels of shelled corn per hour. Illustration shows sheller with feed table and fan attached, but they are furnished either without table or fan or with table only.

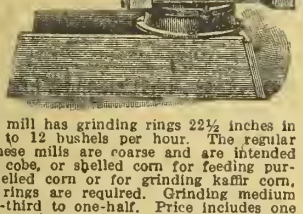
Acme Sweep Feed Mills.



They do first class work, but do not have as great capacity as our triple geared mills. Capacities are based on coarse grinding of dry corn and cobs or shelled corn for feeding purposes. The No. 1 mill has grinding rings 20 inches in diameter and has a capacity of 8 to 10 bushels per hour. The No. 2 mill has grinding rings 22½ inches in diameter and a capacity of 10 to 12 bushels per hour. The regular grinding rings furnished with these mills are coarse and are intended for coarse grinding of corn and cobs, or shelled corn for feeding purposes. For finer grinding of shelled corn or for grinding kaffir corn, wheat, oats, etc., fine grinding rings are required. Grinding medium or fine reduces the capacity one-third to one-half. Price includes one pair of grinding rings only. **When ordering mills or extra rings, always state whether you want coarse or fine rings. Coarse rings shipped unless otherwise specified. Shipped from factory in SOUTHWESTERN ILLINOIS.**

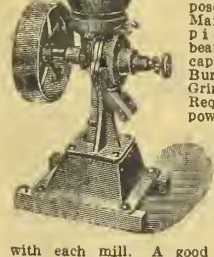
No wood parts are furnished with mills listed "Irons Only." Purchaser builds own box.
Mills on Legs have wood platform.

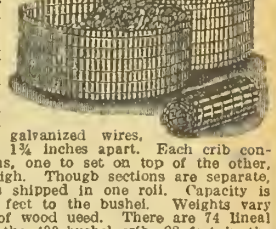
Badger Small Grain Grinding Mill.



A good strong mill, takes up small space; recommended where only a limited amount of grinding is done, as for family purposes, chicken feed, etc. Main frame is cast in one piece. Long babbitted bearings. Worm feed. Large capacity metal hopper. Burrs 5½ inches diameter. Grinds all small grains. Requires 1½ to 4 horse-power. Capacity, 5 to 10 bushels of feed per hour. Pulley, 12x3 inches. Can furnish 10x3 or 8x4-inch if desired. Speed 150 to 600 revolutions per minute according to power. One set coarse and one set fine burrs furnished with each mill. A good quality of table meal can be made with fine burrs if meal is sifted. Illustration shows No. 32N1646 mill mounted on cast iron sub-base. **Shipped from factory in SOUTHEASTERN WISCONSIN.**

No. 32N1645 Badger Small Grain Mill. Without sub-base. Weight, 65 pounds. Price $8.68
No. 32N1646 Badger Small Grain Mill. With cast iron sub-base. Weight, 85 pounds. Price $9.98
No. 32N1647 18-Pound Balance Wheel, extra. Price.....$1.25
No. 32N1648 Extra Pair of Burrs. State whether coarse or fine. Weight, 3½ pounds. Price 94c

Portable Corn Cribs.



Made by automatic machinery and entire uniformity in construction and spacing prevails. Made of heavy hardwood fence lath, 4 feet long, securely woven together with six pairs of No. 12 galvanized wires, leaving slats about 1¾ inches apart. Each crib consists of two sections, one to set on top of the other, making crib 8 feet high. Though sections are separate, they are sometimes shipped in one roll. Capacity is figured at 2 cubic feet to the bushel. Weights vary according to kind of wood used. There are 74 lineal feet of cribbing in the 400-bushel crib, 88 feet in the 600-bushel crib, 108 feet in the 900-bushel crib, 124 feet in the 1,200-bushel crib, and 138 feet in the 1,500-bushel crib. When not used as a crib they make a good garden fence. **Shipped from factory in NORTHERN ILLINOIS, or from warehouse at KANSAS CITY, MO.**

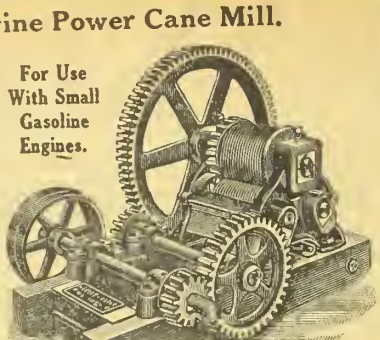
Complete Information About Freight and Express Shipments, Read Pages 926 and 927

Little Giant Engine Power Cane Mill.

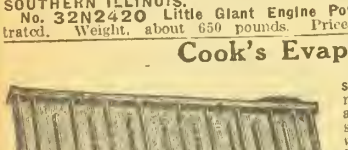
Strongly built and thoroughly well made. A strictly high grade cane mill in every way. Large roll is 8 inches in diameter; small rolls are 5½ inches in diameter, and all rolls are 8 inches long. Large rolls are flanged so as to give full width of rolls for pressing. Rolls are also corrugated to insure a positive and regular feed and are adjustable by means of set screws for large and small cane. Shaft in large roll is 2 5/16 inches in diameter cold rolled steel; in small rolls, 1 15/16 inches in diameter. Shaft boxes are babbitted with hard engine babbitt. The frame consists of very heavy castings, held together with heavy bolts extending through from one side to the other, all forming a very strong and rigid structure. Mill is double back geared to adapt it for use with small gasoline engines from 2 horse-power upward. Pulley is 6 inches in diameter with 5-inch face and should run about 400 revolutions per minute. Estimated capacity of mill is about 1 ton of cane per hour. **Shipped from factory in SOUTHERN ILLINOIS.**

For Use With Small Gasoline Engines.



No. 32N2420 Little Giant Engine Power Cane Mill on wood platform, as illustrated. Weight, about 650 pounds. Price.....**$73.50**

Cook's Evaporator Pans.



These pans are for evaporating sorghum, sugar cane and other thick juices. They are not suitable for maple sap or thin juices of any kind. They are strongly made with wood sides, heavily bound, riveted and soldered, with no seams exposed to the fire. Pans are 3 inches deep with division bars 6 inches apart. Galvanized pans are made of No. 26 gauge sheet steel. Copper pans are 16-ounce cold rolled copper. Syrup is drawn off through small spout in corner of pan. Price includes two skimmers. Pans can be set on brick arch or mounted on rocker furnace. All pans are 44 inches wide. Capacity for twelve hours is about as follows: 66-inch pan, 20 to 30 gallons; 72-inch pan, 30 to 40 gallons; 90-inch pan, 40 to 50 gallons; 108-inch pan, 50 to 80 gallons; 126-inch pan, 75 to 120 gallons; 144-inch pan, 100 to 140 gallons; 180-inch pan, 125 to 175 gallons of syrup, depending upon the richness of juice. **Shipped from factory in EASTERN MISSOURI.**

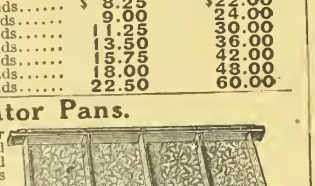
Buckeye Evaporator Pans.



For making maple syrup or evaporating other thin juices, but equally as good for sorghum and sugar cane. Strongly made with wood sides and heavily bound, riveted and soldered, but the sides of the pan are turned up square so that the juice does not touch the wood. Each section is made of a single sheet, without seams, and forms a pan of itself. No seams exposed to the fire. Pans are 4 inches deep with division bars 15½ inches apart. Galvanized pans are made of No. 24 gauge sheet steel. Copper pans are 16-ounce cold rolled copper. Syrup is drawn off through small spout in corner of pan. Price includes two skimmers. Pans can be set on brick arch or mounted on rocker furnace. All pans are 42 inches wide. Capacity per twelve hours based on sorghum or cane is about as follows: 63-inch pan, 30 to 40 gallons; 80-inch pan, 40 to 60 gallons; 96-inch pan, 60 to 80 gallons; 112-inch pan, 80 to 100 gallons; 128-inch pan, 100 to 120 gallons; 144-inch pan, 140 to 160 gallons of syrup, depending upon richness of juice. On maple syrup capacity is much less, because it takes about 40 gallons of sap to make 1 gallon of syrup, though it evaporates quicker. **Shipped from factory in EASTERN MISSOURI.**

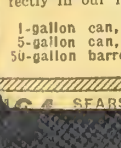
Hog Oil, Medicated.



Contented hogs grow fat quickly. Restless hogs stay thin and scrawny. Lice is one of the most irritating influences in making a hog restless and keeping him thin. Rid your hogs of lice and your feed quickly becomes pork.

We recommend this Hog Oil not only for hogs that are constantly irritated by lice, but also as a preventive to keep healthy hogs from getting lice. It may be used both as a spray and for hog oiling posts. It is a scientific combination of medicated oils that is safe and effective in ridding hogs of lice and has just the proper consistency to operate perfectly in our hog oilers listed at the right.

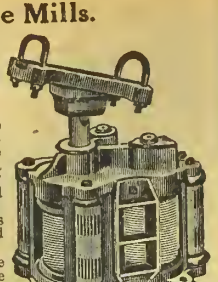
Champion Horse-Power Cane Mills.



These are extra heavy vertical three-roll mills and are suitable for crushing sorghum as well as the heaviest kind of Southern cane. All sizes are held together with four main bolts and are made rigid by a panel frame at the ends. This construction gives great strength and stability and prevents the gears and rollers getting out of line.

The gears are cast separate from the rolls, with two large clutches on each which fit into corresponding clutches on the rolls, thus doing away with keys and pins. This avoids the purchase of expensive repairs in case of accident and makes it possible for anyone to take the entire mill apart by simply removing the four main bolts. Gearing is encased so it will not become clogged, and prevents danger to the operator.

Both top and bottom journals run in brass boxes. Shafts are steel with turned bearings. Rolls are turned with serrated faces, securing a steady feed.

Main rollers are flanged at top and bottom, preventing cane from passing either up or down, and full length of roll can be used.

These mills are noted for their large capacity, which is due to their heavy construction and large rolls, and they press the cane dry.

The regular sweep cap is single pitch, as shown in the illustration, but we can furnish double pitch cap or level top cap, at the same price. Estimated capacities are stated in tons of cane per twelve hours. **Shipped from factory in SOUTHERN ILLINOIS.**

Catalog No.	Horse-Power Required	Capacity, Tons. per 12 Hours	Length of Rolls, Inches	Diameter of Rolls, Inches. Large	Diameter of Rolls, Inches. Small	Shipping Weight, Pounds	Price

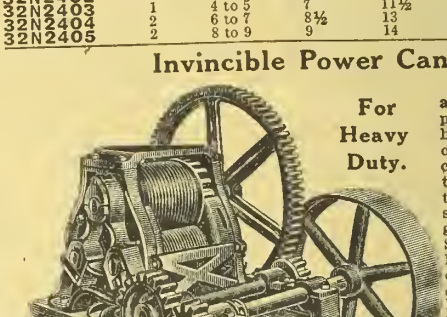
32N2405	2	8 to 9	9	14	8¾	1,050	76.25

Invincible Power Cane Mills.

For Heavy Duty.



These mills are simple, strong and substantial throughout. All parts are of ample size to stand heavy strain; and the rolls being of large diameter, they press the cane dry. Rolls are made of hard tough iron, flanged and lathe turned. Main roll is stationary; small rolls are adjustable. Roll gears are cast integral with rolls. Shafts are heavy cold rolled steel. Boxes babbitted with high grade engine babbitt. Gears are made of a special tough iron and solidly attached to shafts. Mills are double back geared, thus adapting them to be run direct from gasoline or steam engines. Pulley is 24 inches in diameter, with 6-inch face, and should make about 150 revolutions per minute. **Shipped from factory in SOUTHERN ILLINOIS.**

Catalog No.	Horse-Power Required	Capacity, Tons of Cane per Hour	Dimensions of Rolls, Inches. Length	Large Diam.	Small Diam.	Diameter of Shaft in Main Roll	Diameter of Shaft in Minor Roll	Wt., Pounds	Price
32N2422	4	2	10	10	7	2 7/16	2 1/16	1,250	$122.00
32N2423	6	3	16	10	7	2 11/16	2 7/16	1,450	158.00

Long Roll Invincible Power Cane Mills. *Extra Large Capacity.*

Similar to the Invincible Mill described above, except that the gears are cast separately from the rolls and keyed to extended shafts on the outside of roll frames instead of being cast integral with or a part of the rolls. This gives 2½ inches greater length and pressing surface to the rolls and provides easier and cheaper replacement of gears in case of accident. The greater capacity and additional convenience is well worth the difference in price especially where mill is wanted for heavy custom work. **Shipped from factory in SOUTHERN ILLINOIS.**

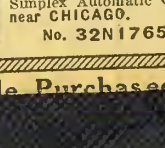
Catalog No.	Horse-Power Required	Capacity, Tons of Cane per Hour	Dimensions of Rolls, Inches. Length	Large Diam.	Small Diam.	Diameter of Shaft in Main Roll	Diameter of Shaft in Minor Roll	Wt., Lbs.	Price
32N2424	4	3	12½	10	7	2 7/16	2 1/16	1,350	$169.00
32N2425	6	4	18½	10	7	2 11/16	2 7/16	1,500	187.50

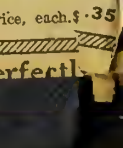
The All-Year Sanitary Hog Watering Fountain.

A sanitary waterer that will not freeze in Winter and will keep the water cool and clean in Summer. Will give the hogs all the water they can drink at a comfortable temperature in coldest weather. The water is automatically fed to the drinking pan by the vacuum system. Trough is always full, but never overflows. No mudhole around the drinking place. Fountain has two troughs, one on each side, and so protected that stock cannot get their feet into them. The vacuum in the top of the tank helps prevent freezing in Winter and keeps the water cool in Summer. Two lamps furnished, which set directly under drinking pans. Tank and outer casing are separate, with air space between. Heat from lamps passes around trough and up through casings around tank and keeps water at right temperature. Lamps burn kerosene. Waterers are made of galvanized steel. The 55-gallon size is 31 inches in diameter, 40 inches high. The 90-gallon size is 34 inches in diameter, 48 inches high. **Shipped from factory in CENTRAL IOWA.**

No. 32N1882 55-gallon Fountain. Weight, 95 pounds.
Price **$26.95**
No. 32N1883 90-Gallon Fountain. Weight, 140 pounds.
Price **$35.10**

Simplex Automatic Hog Oiler.





A three-bar oiler, very simple in construction and automatic in operation. The only moving part is a simple plunger at the top of the rubbing posts which is positive in its action and supplies each rubbing bar with the required amount of oil and no more, and only on the particular bar on which the animal is rubbing. When the animal rubs one of the bars, the corresponding plunger is forced into a small cup, displacing the few drops of oil the cup contains and causing the oil to flow down over the rubbing bar. Thus the animal gets only the small amount of oil required to allay its discomfort, and there is no waste of oil. There are no valves to become clogged or held open and no half way point where a continuous flow of oil would be possible. The oil is contained in and supplied from an inverted tank clamped on the top of the post. Vacuum maintains a full supply chamber into which the plunger works and at the same time seals the only opening in the supply tank. Thus it is dust, weather and evaporation proof. Any oil draining from the rubbing posts is caught in the recessed cup in each leg of the pedestal and from there is applied to the under parts of the animal. This oiler will appeal to you for its economical handling of the oil, for its simplicity and stanch construction. With no parts to wear out and none to get out of order, it should give exceptionally long service. We believe we are offering you in this Simplex Automatic Oiler one that will meet your entire approval. **Shipped from factory near CHICAGO.**

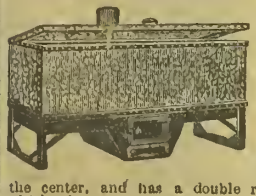
No. 32N1765 Simplex Automatic Hog Oiler. Weight, 40 lbs. Price, each.**$ 35**

Kenwood Feed Cookers.

The boilers are made of heavy galvanized sheet steel. Illustration shows 100-gallon size with hinged double cover. The 35 and 50-gallon sizes have hinged single covers and the 20-gallon size has single cover to lift off. The body of the fire box is heavy sheet steel, the ends, door and hearth are cast iron. Cookers for coal will burn wood as well. All sizes have elbow for 6-inch pipe, but price does not include pipe. **Shipped from factory in WESTERN ILLINOIS.**

No. 32N1962 20-Gallon Cooker, for wood. Weight, 60 pounds. Price...**$7.85**
No. 32N1963 35-Gallon Cooker, for wood. Weight, 70 pounds. Price..**$9.40**
No. 32N1964 50-Gallon Cooker, for wood. Weight, 95 pounds. Price..**$13.85**
No. 32N1965 100-Gallon Cooker, for wood. Weight, 135 pounds. Price..**$18.45**
No. 32N1967 35-Gallon Cooker, for coal. Weight, 120 pounds. Price..**$14.10**
No. 32N1968 50-Gallon Cooker, for coal. Weight, 130 pounds. Price..**$17.75**
No. 32N1969 100-Gallon Cooker, for coal. Weight, 170 pounds. Price.**$23.85**

Lightning Feed Cookers.



Used for the same purpose as our Handy Feed Cooker shown on this page, but has extra large capacity. The fire box is in the center, and has a double return draft which throws the heat the full length of both ends of the cooker. Fire box is heavy gauge sheet steel with cast grate and back wall and cast doors. Legs are angle steel strongly braced. Burns coal, wood, cobs, etc. Boiler is No. 20-gauge galvanized steel with hinged cover, with flanges which extend down over edge of boiler all around. Boilers are all 28 inches wide and 2 feet deep. One joint of 6-inch pipe furnished with each cooker. **Shipped from factory in NORTHERN INDIANA.**

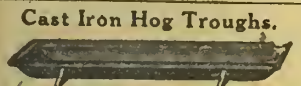
No.	Cap., Barrels	Lgth., Feet	Wt., Lbs.	Price
32N1985	6	5	275	$29.95
32N1986	7	6	300	35.50
32N1987	8	7	320	39.90
32N1988	9	8	365	45.60

Quick Meal Feed Cookers.

The furnace is made of heavy gauge black sheet steel, with cast iron door frame and doors. Ash door and fuel doors are separate. Furnace measures 24 inches in diameter, 24 inches deep, has steel bottom and sets flat on the ground. Furnace burns straw, wood, etc. Grate for coal furnished at extra price. The boiler is made from No. 20-gauge galvanized steel and has flanged bottom which fits down over top edge of furnace. Handles enable user to readily lift off boiler. A close fitting galvanized removable cover is also furnished. A quick heater and a handy outfit for cooking feed and heating water for all purposes. **Shipped from factory in NORTHERN INDIANA.**

No. 32N1945 25-Gallon Cooker. Weight, 90 pounds. Price.....**$12.25**
No. 32N1946 35-Gallon Cooker. Weight, 95 pounds. Price.....**$13.20**
No. 32N1947 50-Gallon Cooker. Weight, 100 pounds. Price.....**$14.40**
No. 32N1948 Coal Grate. Weight, 15 pounds. Price.....**$2.25**

Cast Iron Hog Troughs.



On account of their weight and durability these troughs are very popular among hog raisers. They have smooth bottoms inside and can be easily kept clean. Made of a good quality of close grained iron and are sufficiently heavy so they are not easily tipped over. The 3-foot trough has one wrought iron partition, the 4-foot trough has two, and the 5-foot trough has three partitions. Troughs are 12 inches wide. **Shipped from our CHICAGO store or factory in WESTERN ILLINOIS.**

No. 32N4495 2-Foot Trough. Weight, 6 pounds. Price.....**$1.65**
No. 32N4496 3-Foot Trough. Weight, 1 pounds. Price.....**$2.69**
No. 32N4497 4-Foot Trough. Weight, 8 pounds. Price.....**$4.28**
No. 32N4498 5-Foot Trough. Weight, 6 pounds. Price.....**$5.25**

Kenwood Agricultural Boilers.

FULL CAPACITY GUARANTEED.

Design Patented.

A strictly high quality boiler, our own exclusive design. Used by both farmers and butchers. Can be used indoors or outdoors for any purpose where a smooth kettle is required, such as cooking feed for stock, boiling soap or rendering lard. **Caldrons are made of fine grain iron, very smooth, with black lead finish inside, and we guarantee them to be full capacity. Furnaces are cast iron throughout,** put together as well as any stove made, and the design is ornamental and pleasing. Price is for the furnace and caldron complete as shown, but does not include pipe. Furnaces for wood have plain firebox, without grate or lining. Furnaces for coal have iron grate and heavy firebrick lining which can be taken out and replaced through the door. **Shipped from CENTRAL OHIO.**

Farmers' Friend Feed Cooker and Caldron Furnace.

FULL CAPACITY GUARANTEED.

The jacket is heavy cold rolled steel plate, supported at the bottom by heavy wrought iron bands. Kettles are made of smooth, fine grained iron with black lead finish inside, and we guarantee them to be full capacity. The rim of the kettle rests on top of the jacket and the kettle can be easily removed. Cooker is intended to set on the ground, as it has no bottom. For indoor use set on a base made of brick and sand. Can be used for cooking feed, rendering lard, or for any other purpose where an ordinary kettle can be used. Prices are for the cooker for burning wood, complete with elbow, damper and one joint of pipe. Coal grates and cover are extra. **Shipped from factory in CENTRAL OHIO.**

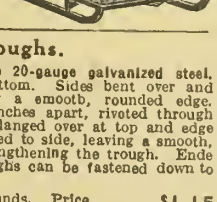
Automatic Hog Feeder.

It is claimed that by the use of these feeders, whereby the hogs have free access to the feed at all times, they actually eat less and gain faster than when they are fed only at intervals. Thousands of large hog raisers have installed these feeders with satisfactory results. The feeder has a large compartment holding about twenty-five bushels shelled corn and two small compartments holding two bushels each of mineral feed and tankage. It is built in sections, to be bolted together, and is shipped knocked down flat, taking low freight rate. Dimensions, about 6 feet long, 3½ feet wide, 3½ feet high. Ends, sides and bottom are ⅞-inch dressed lumber with lapped joints. Trough has 2-inch sides. A removable board above trough provides a larger opening for feeding ear corn. Hinged cover extends well over the trough so that rain will not drip in. Painted with oil paint. Runners on bottom with hook to hitch to for moving feeder. The low price we place on this feeder makes it cheaper than you could buy lumber and make it. **Shipped from factory near CHICAGO.**

No. 32N1875 Automatic Hog Feeder. Weight, about 350 pounds. Price **$16.85**

Sanitary Hog Watering Fountains.



Water feeds to trough automatically and does not overflow. Fountain can be filled through funnel at top without removing from the sled. Fountain has a patent lock faucet and can be lifted off sled and used for storage of oils, etc. Tank and pan are made of No. 20-gauge galvanized steel; sled is strongly made of angle steel and well braced. **Shipped from factory in NORTHERN INDIANA.**

No. 32N1850 60-Gallon Fountain. Weight, 114 lbs. Price **$16.85**
No. 32N1851 90-Gallon Fountain. Weight, 127 lbs. Price **$17.60**
No. 32N1852 120-Gallon Fountain. Weight, 138 lbs. Price **$22.35**

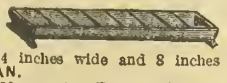
Galvanized All Steel Hog Troughs.

All troughs 12 inches wide and 6 inches high.

Body and ends are 20-gauge galvanized steel. One-piece rounded bottom. Sides bent over and turned under, leaving a smooth, rounded edge. Cross braces are 12 inches apart, riveted through the sides. Ends are flanged over at top and edge turned under and riveted to side, leaving a smooth, rounded edge and strengthening the trough. Ends are flanged out at bottom, forming a standard by which troughs can be fastened down to a board or floor. **Shipped from our CHICAGO store.**

No. 32N4456	2-Foot Hog Trough.	Weight, 7½ pounds.	Price.....	$1.15
No. 32N4457	4-Foot Hog Trough.	Weight, 18 pounds.	Price.....	2.06
No. 32N4458	6-Foot Hog Trough.	Weight, 19 pounds.	Price.....	2.99
No. 32N4459	8-Foot Hog Trough.	Weight, 25 pounds.	Price.....	3.84

Galvanized Hog Troughs With Cast Iron Ends.



Our strongest galvanized steel hog troughs. Ends are cast iron, having flat bottom with a bolt at each corner. Body is 20-gauge steel. Crosebars are 1 foot apart. All sizes 14 inches wide and 8 inches deep. **Shipped from factory in SOUTHWESTERN MICHIGAN.**

No. 32N4450	4-Foot Steel Hog Trough.	Weight, 32 pounds.	Price....	$3.95
No. 32N4451	6-Foot Steel Hog Trough.	Weight, 40 pounds.	Price....	5.19
No. 32N4452	8-Foot Steel Hog Trough.	Weight, 46 pounds.	Price....	6.53
No. 32N4453	10-Foot Steel Hog Trough.	Weight, 55 pounds.	Price....	8.16

Handy Feed Cookers.

Full Capacity.

Boiler is made entirely of heavy galvanized sheet steel, strongly bound at top and bottom and has a close fitting hinged cover. Fire box is full cast iron, giving greater heating capacity and durability than in any cooker with sheet steel fire box. Fire flue is 4 inches deep and extends entire length of boiler. A partition in the center directs the heat from the fire box to the opposite end and then back to the smoke pipe. Can be used for cooking feed, boiling water and many other purposes, and will burn coal, wood or cobs. Price includes one joint of 6-inch pipe. **Shipped from factory in SOUTHWESTERN MICHIGAN.**

No. 32N1981 60-Gallon Cooker, with full cast iron fire box. Weight, 220 pounds. Price **$16.95**
No. 32N1982 90-Gallon Cooker, with full cast iron fire box. Weight, 230 pounds. Price **$18.45**
No. 32N1983 115-Gallon Cooker, with full cast iron fire box. Weight, 260 pounds. Price **$20.33**
No. 32N1984 160-Gallon Cooker, with full iron fire box. Weight, 320 pounds. Price **$24.46**

Caldron Kettles.

Full Capacity.

The same kettles as are used in our Farmers' Friend Feed Cookers. Made of fine grain smooth iron, and can be used for cooking feed, rendering lard, boiling syrup, etc. **Shipped from CENTRAL OHIO.**

No.	Size, Gallon	Weight, Pounds.	Price
32N1950	15	53	$ 3.36

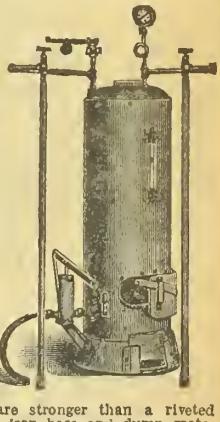
For Copper Kettles and Other Size Iron Kettles See Page 1383.

Dairy Boilers and Steam Feed Cookers.



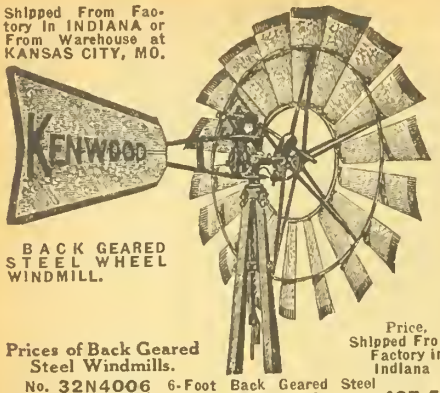
Burns cobs, wood or coal. A quick steamer and very economical in fuel. Used for cooking feed, scalding hogs, scalding milk cans, thawing out water tanks and for all steam cooking, washing and renovating purposes. Used indoors or out of doors. Made of heavy boiler plate steel with steel head. Shell and head are welded together by a special process, and there are no riveted or patched joints to leak. The welded seams are stronger than a riveted seam. Has cast iron base and dump grate. Has a cone shape fire box extending full height of boiler inside. This fire box is surrounded entirely by water and will not burn out. The water surface is least where the heating surface is greatest, making the boiler a quick steamer. Tested to more than twice their required working capacity and safety valve prevents danger from excess preseure. No. 2 boiler holds 30 gallons and is for a working pressure of 20 pounds. No. 3 boiler holds 40 gallons and is for 40 pounds of working pressure. Boilers are furnished with two sets of steam pipes, shut off valves, one try cock, water glass, lever safety valve, steam gauge and hand pump. Each boiler when used for cooking will heat to the boiling point about four times as much water as is converted into steam. **Shipped from SOUTHWESTERN MICHIGAN.**

No. 32N1998 No. 2 Boiler. Height, 56 inches; diameter, 17 inches. Weight, 270 pounds. Price.....**$50.75**
No. 32N1999 No. 3 Boiler. Height, 68 inches; diameter, 17 inches. Weight, 290 pounds. Price.....**$56.95**

Complete Information About Freight and Express Shipments, Read Pages 926 and 927

Kenwood Ball Bearing Windmills

Shipped From Factory In INDIANA or From Warehouse at KANSAS CITY, MO.



BACK GEARED STEEL WHEEL WINDMILL.

All Galvanizing Done After Cutting and Punching. No Raw Edges Left Unprotected.

Their construction represents the highest standard of windmill quality. They are extra heavy and strong. A Kenwood Windmill will give long service, withstand the stress of storms longer, and prove more satisfactory in every way than any light built windmill.

Ball Bearing Turntables and Ball Bearing End Thrust back of the wind wheel permit the Kenwood to respond readily to changes in direction of the wind, and they will run and pump water in the lightest breezes. Testimonials from many purchasers prove the high quality of Kenwood Windmills.

They are self governing. The adjustable weight and lever governor as used in the Kenwood is the most reliable form of windmill governor. It will hold the windmill into any wind in which it is safe to run. Should the wind become too high, the windmill will swing quietly out of the wind. When the wind abates, the windmill will swing back into the wind and resume pumping.

Prices of Back Geared Steel Windmills.

		Price, Shipped From Factory in Indiana	Price, Shipped From Warehouse at Kansas City, Mo.
No. 32N4006 Pumping Windmill.	6-Foot Back Geared Steel Weight, 305 pounds	$27.50	$29.48
No. 32N4008 Pumping Windmill.	8-Foot Back Geared Steel Weight, 425 pounds	37.95	40.70
No. 32N4010 Pumping Windmill.	10-Foot Back Geared Steel Weight, 630 pounds	56.80	60.90
No. 32N4012 Pumping Windmill.	12-Foot Back Geared Steel Weight, 970 pounds	89.25	95.25

DIRECT STROKE STEEL WHEEL WINDMILL WITH SIDE RUDDER.

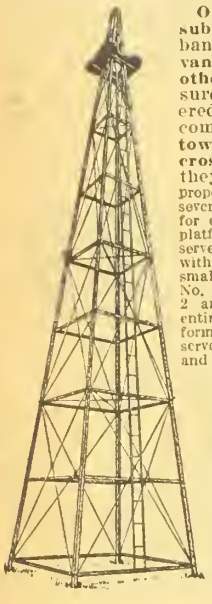
Shipped From Factory In INDIANA.

Workmanship and materials are first class. Shaft bearings are of large proportions and lined with hard engine babbitt. Gears are smooth and true. Large oil reservoirs provide ample lubrication. Complete instructions for erecting are furnished, with which any farmer without expert help can easily erect his windmill.

The steel wheels are made of heavy gauge steel and galvanized after all the parts are made. Each wheel section is thue practically soldered into one solid piece by the galvanizing. This is a most important featuro, as it means thorough protection against rust. There are no raw edges or bolt holes exposed to rust. All bolts on wheel and rudder are galvanized and have double nuts. Steel wheels and rudders are nicely etriped with red paint.

Wood wheels and rudders are made from clear straight grain material, thoroughly painted with white lead paint and trimmed with red.

Kenwood Four-Post Windmill Towers



Our Steel Towers are very strong and substantial. Every corner post, brace, band girth, bolt and nut is heavily galvanized after all cutting, punching and other machine work is done. This insures every part of the steel being covered with non-rusting metai and gives complete protection against rust. **Our towers are braced diagonally as well as crosswise at every corner post joint** and they are so strong and rigid that when properly anchored they will withstand the most severe storms. No. 1 towers have one set of bands for each 10 feet of their height, also a band at the platform and two bands above the platform which serve as steps. No. 1 towers are intended for use with 6 and 8-foot windmills, but in view of the small difference in price we recommend that a No. 2 tower be used with an 8-foot windmill. Nos. 2 and 3 towers have bands 5 feet apart for the entire height of the tower, also a band at the platform and two extra bands above the platform which serve as steps. No. 2 towers are suitable for 8-foot and 10-foot windmills, but we recommend that you use a No. 3 tower for 10-foot windmills when elevated more than 40 feet. No. 3 towers are suitable for 10-foot or 12-foot windmills at any height. **Our towers are full height;** every corner post section is 10 feet 6 inches long, the extra 6 inches being allowed for the lap of one post over the one below it. This feature makes a stronger and better finished tower and also serves to prevent water from running into the corner post joints. **Illustration shows a 40-foot No. 2 or No. 3 tower.** Prices are for towers complete with platform, ladder, rod guides, anchor posts, anchor plates and instructions for erecting, but do not include windmill, bed plate, truing spider, pump pole, pull-out wire nor reefing gear, these being parts of the windmill.

Prices of Direct Stroke Steel Wheel Windmills.

Shipped Only From Factory In INDIANA.

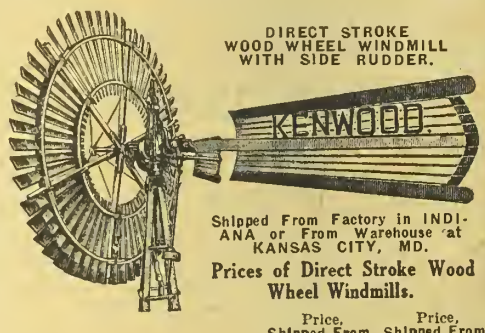
No. 32N4018 8-Foot Direct Stroke Steel Pumping Windmill. Wt., 400 lbs. Price, at factory.... **$36.45**

No. 32N4020 10-Foot Direct Stroke Steel Pumping Windmill. Wt., 565 lbs. Price, at factory.... **$49.80**

No. 32N4022 12-Foot Direct Stroke Steel Pumping Windmill. Wt., $60 lbs. Price, at factory.... **$78.00**

Prices include pump pole, pull-out wire, reefing gear, bedplate and truing spider with which the mill is attached to tower, but price does not include tower or platform. When windmill is ordered without tower we will ship it with bedplate and truing spider for a four-post wood tower, and with sufficient pump pole and pull-out wire for a tower 40 feet high, unless otherwise ordered. **Kenwood Windmills and towers are shipped from factory in NORTHEASTERN INDIANA or from warehouse at KANSAS CITY, MO.**

A 6-FOOT WINDMILL is intended for light service and shallow wells, and under such conditions will give excellent satisfaction. For wells over 25 feet in depth and where a considerable quantity of water is required we recommend a windmill 8 feet or larger, according to the conditions to be met. They are more powerful than the 6-foot windmill and stronger, therefore will prove more durable, and even where the service is light may be considered preferable as a permanent investment.



DIRECT STROKE WOOD WHEEL WINDMILL WITH SIDE RUDDER.

Shipped From Factory in INDIANA or From Warehouse at KANSAS CITY, MD.

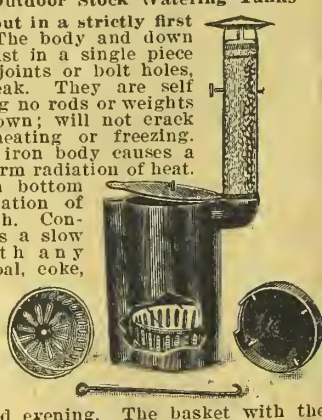
Cast Iron Tank Heaters

For Heating Outdoor Stock Watering Tanks



Made throughout in a strictly first class manner. The body and down draft flue are cast in a single piece without seams, joints or bolt holes, and will not leak. They are self sinking, requiring no rods or weights to hold them down; will not crack or leak from heating or freezing. The heavy cast iron body causes a steady and uniform radiation of heat. Short legs on bottom permit circulation of water underneath. Construction insures a slow combustion with any kind of fuel, coal, coke, wood or cobs, and the draft can be regulated so as to keep the fire alive for hours, requiring attention only in the morning and evening. The basket with the fire in it is easily hooked out by the bail and the ash pan is then removed in the same way, and the whole replaced without removing the heater from the tank. Prices include heater complete with iron ash pan, fire basket, lifter and smoke pipe 2 feet high with damper and spark arrester. **Shipped from factory in WESTERN ILLINOIS.**

No. 32N4490 No. 2 Cast Tank Heater, 12 inches in diameter, 24 inches high. Weight, 125 pounds. Price **$6.98**

No. 32N4491 No. 4 Cast Tank Heater, 14 inches in diameter, 24 inches high. Weight, 170 pounds. Price **$8.78**

No. 32N4492 No. 6 Cast Tank Heater, 16 inches in diameter, 24 inches high. Weight, 195 pounds. Price **$10.47**

We recommend the larger sizes of these heaters for the best results. While the No. 2 heater will give good satisfaction for small tanks, the No. 4 heater has about one-third more heating capacity, and the No. 6 about double that of the No. 4 and you will get greater fuel economy.

Our Famous Crystalline Metal Bells

Guaranteed for 5 Years Against Breakage.

Illustration Shows a Schoolhouse or Factory Bell.

Celebrated for their volume of sound and for their loud, clear, round and sweet tone. These bells are cast from a special mixture of metal of high quality. Thousands of schools, churches and factories use our crystalline metal bells with perfect satisfaction.

We allow sixty days' trial on every Crystalline Metal Bell we sell. During this period you can give it a thorough trial, compare it in tone, volume and quality with composition bells of any other make, and if you find any reason to be dissatisfied, you can return the bell to us at our expense and we will return to you every cent you paid for it and freight charges.

We guarantee these bells for five years against breakage and should any part break through defect in material or workmanship, we will furnish a new part to replace the broken one, or, if necessary, an entire new bell without extra charge.

Our schoolhouse, factory and church bells are all of the same general design. Thirty-eight-inch and larger bells are mounted on roller bearings. These bearings enable one person to ring our largest bells with as great ease and regularity as ringing a small bell. Bells 24 inches and larger are fitted with our **improved springs and clapper,** which insures a full stroke of the clapper without the possibility of a second stroke. Iron rope wheels are furnished with 20 to 36-inch bells and sectional wood rope wheels with 38 to 48-inch bells. **Tolling hammer is furnished with church bells.**

CHURCH BELL.

Prices are for the bells complete with frame, wheel and wood sills. **Shipped from factory in CENTRAL OHIO.**

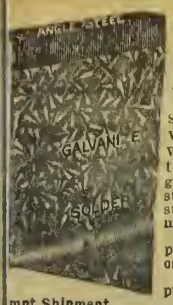
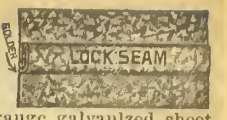
STANDARD GALVANIZED STEEL TANKS





We guarantee our STEEL TANKS to be first class in every respect and our prices to effect a saving for you, quality considered. Order a tank from us with the understanding that it must be exactly as we represent it and perfectly satisfactory to you or you can return it at our expense and we will return your money and freight charges. Prompt shipment of all sizes.

Our Standard Steel Tanks are honestly made. We use nothing lighter than United States Standard No. 20-gauge galvanized sheet steel. Tanks made of light materials will not give good service and will soon rust out. We will not sell them, knowing that they will not give the service our customers have a right to expect. The weights shown for our tanks are the actual average shipping weights. Remember this when you are ready to buy. Workmanship on our tanks is absolutely first class. All seams in No. 20-gauge tanks are lock seams and are carefully soldered, no edges coming in contact with the water. Stock tanks made of No. 18 and No. 16-gauge steel have riveted and soldered seams. Tops are bound with angle steel. Bottoms of all tanks over 1 foot in height are secured between two pieces of flat steel or are bound with angle steel, depending upon size and shape of tank. (See illustrations.) Sides are firmly braced (when size and shape require it) with angle steel bars. Round end, square end and oval tanks 6 feet or longer have angle steel bars across the top, the number of bars depending on the size of tank. Measurements in all cases are outside, over all.

Certain Standard tanks which are regularly shipped set up can and will be shipped knocked down if so ordered, and when such tanks weigh much over 200 pounds and are to be shipped over 500 miles, or when any size of such tanks which weigh 125 pounds or more are to be shipped over 1,000 miles, we advise you to order them shipped knocked down, because you will then save in freight charges more than it should cost you to put the tanks together.

When tanks are shipped knocked down, all holes are punched, every part is fitted together at the factory and sufficient solder and rivets are sent with which to put the tank together. Capacities shown in barrels are based on 31½ gallons to the barrel.

We do not cut pipe connection holes in steel tanks. You can easily cut holes exactly where you want them by using a cold chisel and cutting against a block of hardwood. Order pipe connections if you wish to connect pipes to tank.

mpt Shipment.

Pipe Connections for Steel Tanks.

We do not cut pipe connection holes in steel tanks, because it is a difficult matter for anyone to tell until he receives his tank just where it is best to cut the hole. You can easily cut the hole by using a cold chisel and cutting against a block of hardwood. Our galvanized pipe connections consist of one close nipple, two leather washers, two lock nuts, and pipe cap, to close the pipe hole when you wish. Shipped n our CHICAGO store or from factory.

Round Storage Tanks.

Sizes Nos. A23, A8, A24 and A25 are made of No. 20-gauge galvanized steel, but can be made of No. 18-gauge at prices one-fifth higher, or of No. 16-gauge at prices two-fifths higher. Size No. A12 is made of No. 18-gauge steel, but can be made of No. 18-gauge at a price one-sixth higher. Size Nos. A18 and A28 are made of No. 18-gauge steel, because lighter gauge is not strong enough for such large tanks. These tanks are always shipped knocked down because they are too large to go into the door of a freight car. They do not have lock seams, but are punched for rivets. Prices include sufficient solder and rivets. Shipped knocked down from factory in SOUTHWESTERN MICHIGAN.

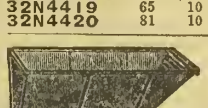
Dipping Tanks.



For dipping sheep and hogs, as a preventive of coutagious diseases. They are placed in the ground with the top level with the surface. The animals can then be driven in and out of the tank. Made of No. 20-gauge galvanized steel, but can be made of No. 18-gauge at prices one-fifth higher. Always shipped set up. The long incline of these tanks allows the sheep or hogs to walk out easily. All sizes are 2 feet wide at top and 1 foot wide at bottom and are furnished with end ladder. Shipped from factory in SOUTHWESTERN MICHIGAN.

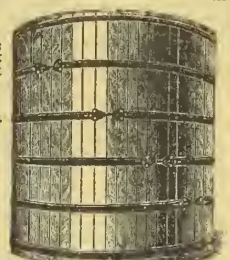
For Oils and Disinfectants see page 1481.

Wood Tanks.

A tank which is 2 feet or 2½ feet in height is called a stock tank, and a tank which is 4 feet or more in height is called a storage tank.



Made of first quality Louisiana cypress tank stock, free from unsound sap and unsound knots. Prices are for tanks made of 1½-inch cypress. We can furnish tanks made of 2-inch cypress at prices three-tenths higher than prices shown. We advise that a tank be made of 2-inch stock when the bottom is 8 feet or more in diameter. The 1½-inch stock is dressed to about 1⅜ inches thick and the 2-inch stock is dressed to about 1¾ inches thick. Furnished with flat bands and adjustable draw lugs. Will furnish with round hoops at same price if so ordered. Always shipped in flat, unpainted. Shipped from factory in NORTHERN INDIANA or WESTERN IOWA.

Thresher Tanks.

Made of No. 20-gauge galvanized steel. Will make of No. 18-gauge at prices one-fifth higher. Trusses are heavy angle steel and entire tank is built far in excess of necessary strength. Seams are double locked. Fuel box large and its bottom is lined with 1-inch plank. Rear end of top has a 14-inch round manhole. Has 1-inch feed pipe connection in the bottom between trusses. Just wide enough to fit a 38-inch bolster, but you can bolt a piece of 2x4-inch lumber to each side of each truss to make fit a 42-inch bolster. A stationary metal bulkhead secured to fastenings on inside walls stays the water against sudden movement and supports the tank against outward pressure. Price does not include trucks. Shipped set up from factory in NORTHERN INDIANA.

Wagon Tanks.

Our wagon tanks are made in two different styles of construction. In our standard wagon tanks a 1x1x⅛-inch galvanized steel angle is riveted around the inner side at the top and the cover is flanged over this angle and closely riveted between the angle and a strip of ⅞x⅛-inch bond steel, extending all around the tank. Construction is shown in left hand illustration at top of page. This makes a firm and strong platform and adds to the durability of the tank, besides lessening chances of leakage at top. We recommend this tank to those desiring a tank for continuous or hard service. In our special wagon tanks the top and sides are flanged together and closely riveted between two strips of 1x⅛-inch band steel. While this is not so strong a construction as used in our standard wagon tanks, it is serviceable.

In our standard tanks a three-quarter partition is fitted across the center of 8-foot tanks and two partitions fitted in 10-foot tanks. In the special tanks one partition is placed in 8-foot and 10-foot tanks. These partitions serve the double purpose of splash boards and braces and give strength. Tanks are made of No. 20-gauge galvanized steel, but will make of No. 18-gauge at prices one-fifth higher. All made 2 feet high, and with watertight top, having 14-inch round manhole, 1-inch pipe connection in rear end. Used on any wagon by laying board on the wagon gear. Capacity not quite as much as shown in table, no allowance being made for round corners. Shipped from factory in SOUTHWESTERN MICHIGAN.

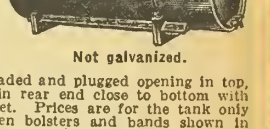
Oil Wagon Tanks.



Not galvanized.

Especially designed for hauling kerosene and gasoline for tractors and other purposes, but can be used for other liquids as well. They are made of extra heavy black sheet steel with welded seams, making one solid steel shell. No riveted nor soldered seams. Have 2-inch threaded and plugged opening in top, and 1-inch threaded opening in rear end close to bottom with 1-inch brass lever handle faucet. Prices are for the tank only and do not include the wooden bolsters and bands shown in illustration. Can be used on any standard wagon gear. Tanks are nicely painted. Shipped from factory in SOUTHWESTERN MICHIGAN.

PEERLESS DAIRY BARN EQUIPMENT

SANITARY STEEL STALLS.

Simple, strong, practical. No complicated parts to get out of order, yet contain all the features necessary for cleanliness and convenience. Made from high carbon brazed steel tubing, 1⅝-inch outside diameter, 1⅜-inch inside diameter, very stiff and strong. Put together with heavy malleable clamp fittings. No threads in tubing or fittings, everything bolted together. Upright posts stand 5 feet 5 inches high above floor with 5 inches additional for imbedding in the concrete.

The stall partitions extend back 42 inches from uprights and are 42 inches high from floor. Partitions have a cast flange riveted to bottom end to hold them securely in the concrete.

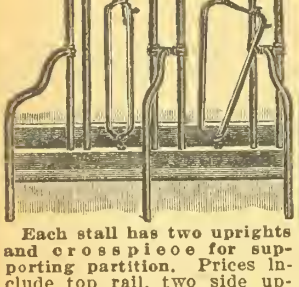
Stalls are finished in a durable blue gray enamel paint and shipped from factory in SOUTHEASTERN WISCONSIN.

When ordering stalls be sure to give us the following information:

The number of stalls you desire.
Into how many rows the stalls are to be divided.
The desired width of stalls.
Do the rows join the building wall at one or both ends?

Also furnish us with a rough pencil drawing showing the number of stalls in each row, the location and size of any posts that may be in the way of the rows, and the distances between posts from center to center in both directions.

Model A Stall.



Each stall has two uprights and crosspiece for supporting partition. Prices include top rail, two side uprights, one bent partition, one stanchion with anchor and necessary clamps and bolts. Furnished 3 feet 6 inches to 4 feet wide, as ordered. **State width.** Illustration shows two stalls with triple bend partitions and one extra end section.

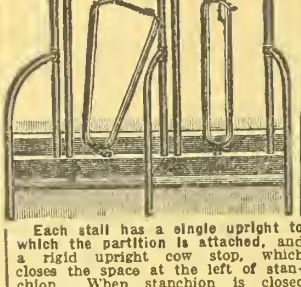
The Stanchion furnished is our No. 32N2214 Peerless Oval Steel Stanchion described below.

No. 32N2262 Model A Steel Stall with Single Bend Partition. Wt., abt. 75 lbs. Price, each..**$8.55**

No. 32N2263 Model A Steel Stall with Triple Bend Partition. Wt., abt. 75 lbs. Price, each..**$8.65**

Stanchion No. 32N2211 with these stalls, $1.00 extra per stall.

Model B Stall.



Each stall has a single upright to which the partition is attached, and a rigid upright cow stop, which closes the space at the left of stanchion. When stanchion is closed there is ample head room. Price includes top rail, one side upright and partition, rigid cow stop, stanchion with anchor and necessary clamps and bolts. Furnished up to 4 feet wide as ordered. **State width desired.** Illustration shows two stalls and one extra end section.

The Stanchion furnished is our No. 32N2214 Peerless Oval Steel Stanchion.

No. 32N2264 Model B Steel Stall with Single Bend Partition. Wt., abt. 65 lbs. Price, each..**$8.00**

No. 32N2265 Model B Steel Stall with Triple Bend Partition. Wt., abt. 65 lbs. Price, each..**$8.10**

Stanchion No. 32N2211 with these stalls, $1.00 extra per stall.

Model C Stall.

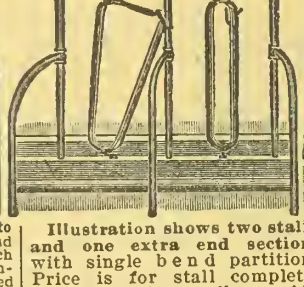


Illustration shows two stalls and one extra end section, with single bend partition. Price is for stall complete, consisting of top rail, one side upright and partition, stanchion with hanger and bottom anchor. Furnished any width, 3 feet to 4 feet. **State width of stall desired.**

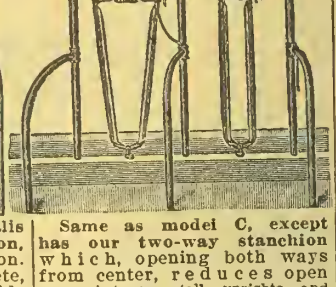
The Stanchion furnished is our No. 32N2214 Peerless Oval Steel Stanchion described below.

No. 32N2266 Model C Steel Stall with Single Bend Partition. Wt., abt. 56 lbs. Price, each..**$6.65**

No. 32N2267 Model C Steel Stall with Triple Bend Partition. Wt., abt. 56 lbs. Price, each..**$6.75**

Stanchion No. 32N2213 with these stalls, 80 cents extra per stall.

Model D Stall.

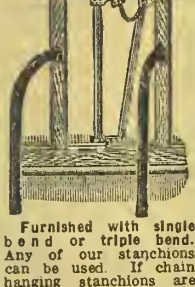


Same as model C, except has our two-way stanchion which, opening both ways from center, reduces open space between stall uprights and stanchion, provides a wide entrance and insures animal going straight into stanchion every time. Does away with necessity for any sort of cow stop and leaves full width head room when stanchion is closed. Stalls furnished 3 to 4 feet wide. **State width desired.** Weight, about 65 pounds. Illustration shows two stalls and one extra end section.

No. 32N2260 Model D Steel Stall with Single Bend Partition. Price, each.....**$7.65**

No. 32N2261 Model D Steel Stall with Triple Bend Partition. Price, each.....**$7.75**

Steel Stall Partitions for Wood Frames.



Furnished with single bend or triple bend. Any of our stanchions can be used. If chain hanging stanchions are used they can be set forward or backward of frame by using the 6-inch Hook Bolts, No. 32N2273. When wanted for wood floor one extra heavy malleable floor flange, No. 32N2272, must be ordered with each partition. With each partition we include one flange with lag screws for uprights. Prices do not include stanchion or woodwork, and are for one partition only.

No. 32N2269 Single Bend Stall Partition. Wt., 15 lbs. Each..**$1.80**

No. 32N2270 Triple Bend Stall Partition. Weight, 15 pounds. Each....**$1.90**

No. 32N2272 Flange for Wood Floors. Wt., 5 lbs. Each.....**35c**

No. 32N2273 6-inch Hook Bolt. Weight, each, 1 lb. Each.....**9c**

Where the ends of rows of stalls are independent and do not join the wall of building, one extra end section composed of an upright and bent partition is required for finishing off the end of row.

No. 32N2268 Extra End Section for finishing end of row (either style of bend). Shipping weight, 25 pounds. Price, each.....**$3.20**

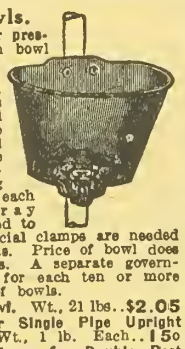
Galvanized Steel Manger for Peerless Steel Stalls.

Showing Galvanized Steel Manger Attached to Stalls.

Made of No. 20-gauge galvanized steel reinforced at the top by 1-inch angle steel and at the bottom by a ¼x⅞-inch steel band. A heavy coil balance spring is connected to each partition. Mangers can be obtained in sets of two to five, according to the number of stalls in a row. Mangers measure 19 inches deep at the upright and 28 inches wide. **State length.** Price does not include stalls.

No. 32N2280 Galvanized Steel Manger, complete with lifting springs. Weight, per stall, about 30 pounds. Price, per stall.....**$5.45**

Sanitary Water Bowls.



Require water under head or pressure. Level of water in each bowl is regulated by a governing tank fitted with a float valve. Bowls are **malleable iron,** 12x10½ inches, 8¼ inches deep, inside measurements, and have brass valve. Bowls are tapped for ¾-inch standard iron pipe. Line pipe should be 1 inch or 1¼ inches, according to number of bowls, using a tee reducing to ¾ inch at each bowl. Bowls finished in gray enamel. Bowls can be screwed to wooden stall uprights, but special clamps are needed to attach to pipe stall uprights. Price of bowl does not include screws nor clamps. A separate governing tank should be provided for each ten or more stalls to insure rapid filling of bowls.

No. 32N2291 Water Bowl. Wt., 21 lbs..**$2.05**

No. 32N2292 Clamp for Single Pipe Upright Stalls. (Models B and C.) Wt., 1 lb. Each..**15c**

No. 32N2293 Double Clamp for Double Post Stalls. (Model A.) Wt., 4 lbs. Price, each.....**45c**

No. 32N2294 Galvanized Governing Tank, 23x14½x11½ inches, complete with float valve and tinned copper float, galvanized nipple and locknuts. Weight, 20 pounds. Price.....**$7.00**

For Other Stock Waterers and Feed Boxes See Page 1392.

Write for This Special Catalog of Dairy Barn Equipment.

Besides showing larger illustrations with more complete descriptions of the items shown on this page, it shows our complete line of Dairy Barn Equipment, including cow, calf, and bull pens, horse stall guards, tubular steel columns, etc., also our complete line of Litter and Feed Carriers.

If you are building a new barn, or remodeling an old one, you will need this special catalog. Our equipment is strictly up to date, our line is complete and our prices will save you money.

FREE BARN PLAN SERVICE.

Our architects will furnish complete plans for building your new barn. This service is free if building material or equipment is bought from us.

Aligner.

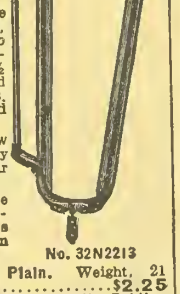
Permits adjustment of the stanchion backward or forward to align cows with the gutter. Gives extreme adjustment of 10 inches. Supplied with our stalls only at the extra price as quoted. When ordered separately a higher price is charged, because extra chain links are required and the regular stanchion clamp is not used when aligner is furnished with the complete stall.

No. 32N2275 Aligner, when ordered with stalls, price, extra, per stall **60c**

When ordered separately, price, each **80c**

Peerless Oval Steel Stanchions.

Our Most Popular Pattern.



Side bars are heavy U bar steel, lined with smooth, rounded hardwood strips. The channel of the steel U bars being turned inward, the wood linings are firmly supported by the steel and are not likely to split off.

Hinge and top are malleable castings. Latch is malleable, easily opened by slight thumb pressure. Stanchions are adjustable top and bottom for 5½, 6½ and 7½ inches neck space, and are 48 inches high inside. Chains, 6 inches long. Durably finished in black japan.

Furnished plain or with cow stop at side, which automatically folds up close to stanchion bar after the animal is in place.

Five or more stanchions will be shipped from factory in SOUTHEASTERN WISCONSIN; less quantities can be shipped from our CHICAGO store.

No. 32N2214 No. 32N2213

No. 32N2214 Oval Steel Stanchion, Plain. Weight, 21 pounds. Price, each.....**$2.25**

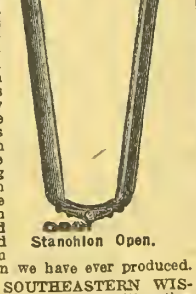
No. 32N2213 Oval Steel Stanchion with Automatic Folding Cow Stop. Weight, 28 pounds. Price, each.....**$3.05**

No. 32N2220 Bottom Anchor for fastening stanchion to concrete curb. (Suitable for any chain hanging stanchion.) Weight, 1½ pounds. Price.....**25c**

No. 32N2221 Malleable Clamp with bolts for hanging stanchion to pipe frame (1⅝ inches outside diameter). Weight, 8 ounces. Price.....**25c**

Peerless Two-Way Steel Stanchion.

Stanchion Closed.



Stanchion Open.

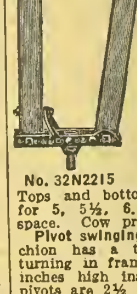
Enormously strong and wonderfully convenient. Sides are heavy steel U bars lined with hardwood strips. Bottom hinge heavy malleable. This stanchion opens both ways from the center, giving extra wide head space when open. A pinion or cog wheel pivoted in the center engages with the two malleable top bars, causing them to move in or out equally on both sides. Mechanism is firmly supported by a strong malleable frame. Stanchion is about 48 inches high inside. Neck space is adjustable. Spring latch locks stanchion when closed. The top bar construction provides a rigid frame all around and relieves the bottom hinge from strain. The best stanchion we have ever produced.

Usually shipped from factory in SOUTHEASTERN WISCONSIN, but when less than four are ordered with other goods they can be shipped from our CHICAGO store.

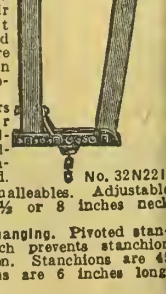
No. 32N2211 Peerless Two-Way Stanchion. Weight, 35 pounds. Price.....**$3.25**

Stalls Models A and B, regularly furnished with Stanchion No. 32N2214, will be furnished with the Two-Way Stanchion No. 32N2211 at an extra price of $1.00 per stall.

Peerless Wood Bar Stanchions.



No. 32N2215



No. 32N2216

Low priced, but strong and satisfactory. Sold by us for many years, and in their present improved stage are still in great demand. **Side bars** are clear white hardwood, rounded, smoothed and oiled. Tops and bottoms heavy malleables. Adjustable for 5, 5½, 6, 6½, 7, 7½ or 8 inches neck space. Cow proof lock.

Pivot swinging or chain hanging. Pivoted stanchion has a tumbler which prevents stanchion turning in frame when open. Stanchions are 49 inches high inside. Chains are 6 inches long, pivots are 2½ inches long.

Five or more stanchions will be shipped from factory in SOUTHEASTERN WISCONSIN. Less quantities can be shipped from our CHICAGO store.

No. 32N2215 Wood Stanchion, Pivot Hanger. Weight, 17 pounds. Price, each.....**$1.70**

No. 32N2216 Wood Stanchion, Chain Hanger. Weight, 17 pounds. Price, each.....**$1.80**

PEERLESS LITTER CARRIERS AND ATTACHMENTS

Plain Carrier, Without Automatic Lift.

Best for barns with low ceilings. Bucket, 42 in. long, 24 inches wide, 16 in. deep. No. 18-gauge reinforced galvanized steel body, double hardwood ends, 2 in. thick. Channal steel rail. Large wheels with roller bearings. Malleable castings throughout. Weight, 125 pounds.

No. 32N1278

Price, carrier only.....**$21.25**

With Automatic Lift.

All galvanized steel bucket, body No. 18-gauge, ends heavier No. 16-gauge, reinforced all around with steel angles. Heavy 2-inch channel steel rail. Roller bearing wheels. Malleable castings throughout. Weight, 280 lbs.

No. 32N1295

Price, carrier only.....**$44.45**

Peerless Litter Carriers and Attachments Are Always Shipped From Factory in SOUTHEASTERN WISCONSIN.

HOW TO ORDER A LITTER CARRIER.

Remember, when ordering a rod track carrier outfit, that for each line of rod track, two Tension Bolts No. 32N1282, and two End Loop Clamps No. 32N1281 are required, and if the track extends out to a post an Anchor Loop No. 32N1284 is necessary. If the rod track turns a square corner, two independent lines of rod track are necessary, each with tension bolts and end loop clamps, also a Curve or Switch No. 32N1285.

If there is anything you do not understand, write to us for information. Our advice and services are free and we will be glad to help you plan a new barn or equip or remodel an old one. Address inquiries to Dairy Barn Equipment Department.

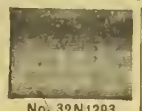
From this information on this page an order can easily be made up for an ordinary outfit. We recommend that you send with your order a rough floor plan, showing where you want tracks to run, and we will make any minor corrections necessary, or write you before shipping and give you our suggestions.

If your requirements are complicated, we recommend that you send for our **Special Catalog of Dairy Barn Equipment,** which gives information that will enable you to equip any barn and shows our complete line of attachments and fixtures.

Besides the carriers shown on this page, we also have other and cheaper litter carriers, feed carriers, milk can carriers, feed trucks, swinging cranes or booms for barnyard; all shown in this special catalog.

Rod Track.

No. 32N1280



No. 32N1293

Polished round steel rod, can be twisted and looped like ordinary wire. Rolls in a coil for shipment. Illustration shows actual size.

No. 32N1280 No. 0000 Rod Track, 13/32 inch in diameter. Weight, per foot, ¼ pound. Price, per foot.....5½c

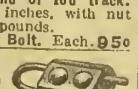
No. 32N1293 No. 000000 Rod Track, 15/32 inch in diamster. Wt., per foot, ½ lb. Price, per foot.....6½c

Tension Bolt.

One required at each end of rod track. Welded eye. Size, ⅞x30 inches, with nut and washer. Weight, 7 pounds.

No. 32N1282 Tension Bolt. Each..95c

End Loop Clamp.



One required at each end of rod track. They hook into tension bolt for stretching the track.

No. 32N1281 End Loop Clamp. Wt., 2 pounds. Price, each.....30c

Complete 100-Foot Straightaway Rod Track Outfits.

Include carrier, 100 feet rod track, two end loop clamps, two tension bolts, one anchor loop with turnbuckle and anchor rod.

No. 32N1275 Complete Outfit with Carrier No. 32N1278 and 100 feet No. 0000 rod track. Weight, 200 pounds. Price, complete.....**$32.65**

No. 32N1277 Complete Outfit with Carrier No. 32N1274 and 100 feet No. 000000 rod track. Weight, 250 pounds. Price, complete.....**$49.80**

If longer track is wanted, order as much extra Rod Track Nos. 32N1280 or 32N1293 as required. State whether wanted all in one piece, or in what lengths if more than one piece.

Anchor Loop.

Necessary where rod track attaches to post. Includes 20 feet No. 000000 rod, two loop clamps, turnbuckle and ⅝x6 feet anchor rod. Weight, 20 pounds.

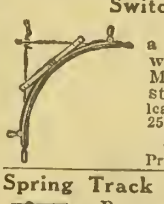
No. 32N1284 Price.....**$3.40**

45-Degree Angle Curve.

Runs rod track off at an angle to clear an obstruction. Heavy malleable iron. Weight, 4 lbs.

No. 32N1287 Price **$1.25**

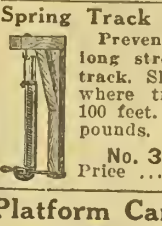
Rod Track Curve or Switch.



For turning a square corner with rod track. Made of angle steel with malleable points. Wt., 25 pounds.

No. 32N1285 Price **$3.65**

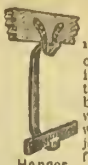
Spring Track Suspender.



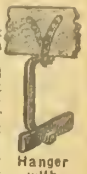
Prevents sagging in long stretch of rod track. Should be used where track exceeds 100 feet. Weight, 10 pounds.

No. 32N1288 Price **$2.30**

Rail Track.



Hanger with Bracket No. 32N1224



Hanger with Bracket No. 32N1223

Oval edge high carbon steel, 1¼x1½ inch. Can be bent cold to form curves or turns. Supported by malleable hangers which can be screwed to ceiling or joist, but usually joist brackets are used, being more convenient. We furnish a special hanger with two set screws for coupling track joints. Order one hanger and bracket for each 4 feet of track, or with Mammoth carrier for each 2 or 3 feet of track.

No. 32N1220 Rail Track. Weight, per foot, 1⅝ pounds. Price, per foot.....**10½c**

No. 32N1221 Malleable Hanger, 11½ inches long. Weight, 2 pounds. Price, per foot.....**32c**

No. 32N1222 Malleable Hanger, 9 inches long. Weight, 1¾ pounds. Price, per foot.....**23c**

No. 32N1223 Joist Bracket for track running across joist. Weight, 1 pound. Price, each bracket only..**7½c**

No. 32N1224 Joist Bracket for track running parallel with joist. Wt., 1 lb. Price, each bracket only..**7½c**

We furnish carriers with slightly smaller wheels when Hanger No. 32N1222 is used.

We also furnish track hangers with extension rods where track must pass below cross timbers. Send for Special Catalog of Dairy Barn Equipment if these are required.

Splice Connection.

Forms connection of rod track outside barn to rail track inside, making possible the use of rod track out to dump, and rail track inside barn. Can be attached to door sills frame, or overhead. Swings out of way to permit closing door. Made right or left hand. Illustration shows right hand. Spring track suspender is included. Weight, 20 pounds.

No. 32N1235 Removable Section Splice Connection. Right hand. Price.....**$4.95**

No. 32N1236 Removable Section Splice Connection. Left hand. Price.....**$4.95**

Switches.

For switching carrier from one track to another. Automatic switch is mounted on malleable and steel frame, is self contained; operated by pulling cords. Made right or left hand. State which is wanted.

Plain switch consists merely of a removable track section which can be shifted from one track to the other. With a slight modification it is used also as a removable section where track passes through a doorway or aisle.

No. 32N1228 Automatic Two-Way Switch. Weight, 40 pounds. Price.....**$5.95**

No. 32N1229 Automatic Three-Way Switch. Wt., 45 pounds. Price.....**$7.25**

No. 32N1227 Plain Two-Way Switch. Weight, 6 pounds. Price.....**$1.85**

No. 32N1226 Removable 2-Foot Track Section. Weight, 5 pounds. Price.....**$2.10**

Any of our carriers will run on either our rod track or our rail track, or a combination of both.

Where work is not heavy, or track arrangement not complicated, a rod track system gives satisfaction. With rod track, the operator can stand at the barn door, give loaded carrier a shove, and it will travel out to post, dump the load, and automatically return for reloading.

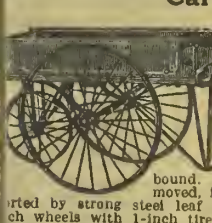
For heavy work, in barns with low ceilings, or where track arrangement is complicated, we recommend rail track inside the barn, and rod track outside—using our splice connections to connect the rod track to the rail track at the door.

Steel Frame Barrel and Spray Cart.

Useful for carrying swill for feeding, also as an orchard spray cart, and for numerous other purposes. Will outlast several wood frame carts. Made entirely of steel and iron. The steel wheels are 36 inches high, with 1¼x¼-inch tires. The frame is bolted solidly to the axle castings, and these castings are made to fit the sides of a barrel to which they are to be bolted. A kerosene, molasses or vinegar barrel can be used. Price includes bolts to attach to barrel and one bracket or rest for bottom of barrel. **Shipped from our CHICAGO store.**

No. 32N2225 Barrel Cart. Weight, 66 pounds. Price **$5.25**

Perfection Three-Wheel Delivery Cart.



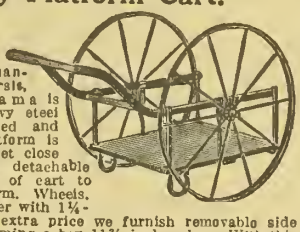
An Easy Running, Durable Cart.

Suitable for commercial as well as farm purposes. Wheels have heavy steel rod spokes, firmly riveted into broad half oval steel tires and set tangent in double flanged hubs, like a bicycle wheel. Boxes are first quality lumber, handsomely painted and varnished, top edges, iron bound. Ends and sides can be removed, leaving bottom flat. Boxes supported by strong steel leaf springs. No. 2 cart has 26-inch wheels with 1-inch tires and a 14-inch third wheel. Box is 34 inches long, 18¾ inches wide and 7 inches deep inside. Capacity, 200 to 500 pounds. No. 4 cart has 30-inch wheels with 1½-inch tires and a 14-inch third wheel. Box is 37 inches long, 22½ inches wide and 9 inches deep inside. Capacity, 500 to 1,000 pounds. Tops of wheels on both carts are below top of box. **Shipped crated from factory in NORTHERN OHIO.**

No. 32N2232 No. 2 Delivery Cart. Weight, 85 pounds. Price.....**$9.75**

No. 32N2233 No. 4 Delivery Cart. Weight, 115 pounds. Price.....**$12.15**

Handy Platform Cart.



Very useful for handling milk cans, barrels, sprayers, etc. Frame is constructed of heavy steel bars, strongly bolted and braced. Wood platform is 32x28 inches and set close to ground. Has detachable chain across front of cart to hold load on platform. Wheels, 36 inches in diameter with 1¼-inch tires. At an extra price we furnish removable side and end boards, forming a box 11¾ inches deep. With this box the cart is adapted for almost any use to which a hand cart could be put. **Shipped from factory near CHICAGO.**

No. 32N2236 Handy Platform Cart. Weight, 100 pounds. Price.....**$8.18**

No. 32N2237 Removable Box. Weight, 32 pounds. Price **$1.85**

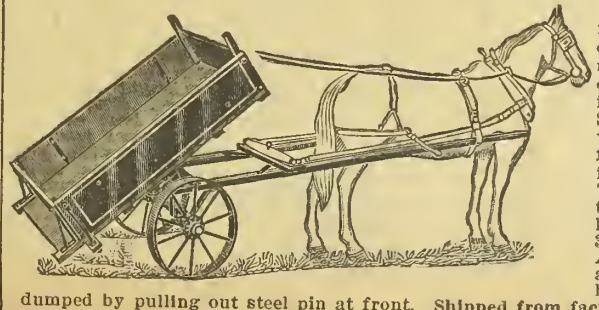
Bradley Hand Cart.

A strongly constructed and high grade hand cart, without springs. For farm work and other rough usage. Has large and deep hardwood box, 1-inch steel axle. Wheels are 36 inches high with 1¼x1¼-inch tires. The box is 36 inches long, 21 inches wide and 9½ inches deep inside. End boards are held in place by steel rods. Ends and sides can be removed, leaving bottom flat. We can furnish a top extension box, 9½ inches deep, to be set on top of the regular box, as shown in illustration. **Shipped from BRADLEY, ILL.**

No. 32N2227 Bradley Hand Cart. Weight, 100 pounds. Price.....**$7.98**

No. 32N2228 Top Extension Box for above cart. Weight, 15 pounds. Price.....**$1.20**

One-Horse Low Down Farm Dump Cart.



A light one-horse cart—suitable for use in fence building, for gathering fruit and truck crops, hauling manure for gardens, light loads of dirt, stone, fodder, etc. Can be taken in places inaccessible to a wagon. Strongly built of good sound lumber, well painted. Box is 5 feet long, 3 feet 4 inches wide, 11½ inches deep, inside measurements, and made of ⅞-inch material, well braced. Bottom is strongly framed. Wheels are heavy steel, 24 inches in diameter, 3-in. tires, and the tread is 48 inches. Axle is solid steel, 1⅝ inches in diameter. Top of box is about 3 feet high from ground. Box can be dumped by pulling out steel pin at front. **Shipped from factory near CHICAGO.**

No. 32N2231 Handy Farm Cart. Weight, 300 pounds. Price.....**$19.95**

DAVID BRADLEY SAW FRAMES

Extra well made and finished. Frames are made of heavy selected hardwood, strongly bolted together, and nicely painted. Shafts are 1½-inch cold rolled steel and run in ample babbitted bearings which are connected by a heavy iron frame, insuring perfect and permanent alignment. Steel and iron parts are heavy, well finished and well painted. Frames are shipped knocked down, crated, thus securing low freight rate. Directions for setting up accompany each frame. **The cut-off saw blades furnished for use on these saw frames are filed and set ready for use.** 20 or 22-inch saws should be run from 900 to 1,400 revolutions per minute and require 2 to 3 horse-power; 24 or 26-inch saws should be run from 800 to 1,200 revolutions per minute and require 4 horse-power; 28 or 30-inch saws should be run from 700 to 1,000 revolutions per minute and require 6 horse-power. **Rip Saws cannot be used on these frames** and 30-inch is the largest cut that can be used.

DAVID BRADLEY POLE SAW FRAMES.

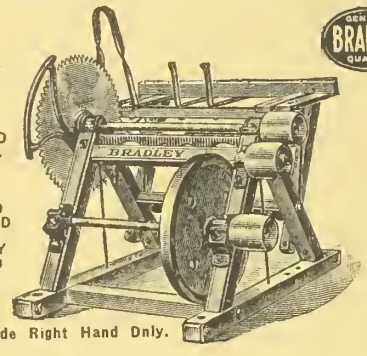
HEAVY BALANCE WHEELS.

—

BABBITTED BOXINGS.

—

SELECTED HARDWOOD FRAMES, STRONGLY MORTISED AND BOLTED.



Made Right Hand Only.

Suitable for sawing cord wood and long poles of every description. The mandrel shaft is 4 feet 1 inch long with 1⅜-inch saw arbor and 5-inch arbor flanges. It has grooves in boxes to prevent end play. The mandrel shaft boxes are connected with an iron frame which keeps them in perfect alignment. The center tightening pulley is hung on a heavy cast iron bracket with heavy steel shaft, and is so strongly made that it cannot get out of line. All pulleys are 5 inches in diameter with 6-inch face. Balance wheel weighs **100 pounds.** The saw guard is adjustable to fit saws from 20 inches to 30 inches in diameter.

Catalog No.		Weight, Lbs.	Price, Shipped From Bradley, Ill.	Price, Shipped From Kansas City, Mo., or Fargo, N. Dak.

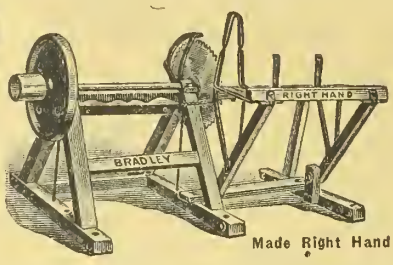
For Other Styles of Saw Rigs See Page 1509

DAVID BRADLEY EXTENSION TABLE WOOD SAW FRAMES.



Made Right Hand Only.

For sawing poles or regular 4-foot cord wood. The table can be set at the side for sawing long poles, as shown in the illustration, or it can be set in front of the saw frame in the usual manner for sawing cord wood. The shaft is 4 feet 5 inches long with 1⅜-inch arbor and 5-inch arbor flanges. It has grooves in the boxes to prevent end play. The boxes are connected by an iron frame which keeps them in perfect alignment. Driving pulley is 5 inches in diameter, with 6-inch face. Balance wheel weighs **100 pounds.** The saw guard is adjustable to fit saws from 20 to 30 inches in diameter. If machine is wanted without extension parts for table deduct 55 cents.

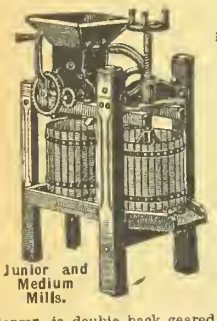
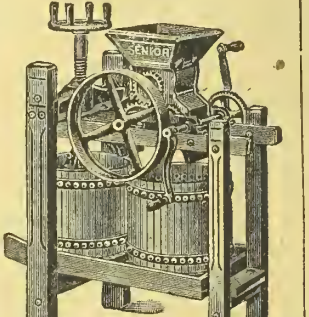
Standard Cider Mills.



Junior and Medium Mills.

Strictly high grade in every particular and guaranteed to give perfect satisfaction. The frames are heavy hardwood, strongly bolted together. The grinding parts are cast iron and steel. Cross heads for press screws are extra heavy cast iron. Press screws are steel, accurately threaded and fitted. These mills will grind large as well as small apples. **The Junior mill** has a capacity of two to four barrels of cider per day. Tubs are 10 inches high by 12 inches outside diameter. **The Medium mill** has a capacity of three to six barrels of cider per day. Tubs are 12 inches high and 13½ inches outside diameter. **The Senior mill** has a capacity of six to twelve barrels of cider per day and tubs are 14 inches high by 17 inches outside diameter. Balance wheel on Senior mill has wide face and can be driven by belt from engine. Each size is back geared and has a heavy balance wheel. Hoppers are large and have forced feed. The Junior and Medium mills are of the same general construction, differing only in size, and are operated by a single crank. The Senior mill is much larger, is double back geared and fitted with two cranks. Tubs are strongly made of smooth selected hardwood with heavy wrought iron loops. **Shipped from factory in EASTERN INDIANA.**

No. 32N2387 Junior Hand Cider Mill. Weight, 190 pounds. Price....$15.60
No. 32N2388 Medium Hand Cider Mill. Weight, 240 pounds. Price.... 18.90
No. 32N2389 Senior Hand and Power Cider Mill. Weight, 420 lbs. Price. 26.45



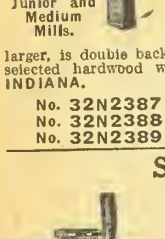
Senior Hand and Power Mill.

Force Feed Cider Mill.

A first class single tub cider mill and press for family use which will do a satisfactory quantity and quality of work. It is a geared cylinder mill which crushes the apples and automatically forces them through the grinding rolls. It has a larger hopper and wider throat than usually found in mills of this type and will handle larger apples. It is strongly constructed and nicely finished in natural wood. Capacity is one to two barrels of cider per day. Tub is 12 inches high and 13½ inches outside diameter. Press screw is heavy steel accurately threaded. The ideal mill for family use. **Shipped from factory in EASTERN INDIANA.**

No. 32N2386 Cider Mill. Weight, 150 lbs. Price $10.95

Stutzman Fruit Evaporators.



For drying and evaporating all kinds of fruits, berries, vegetables, apples, etc. Made of galvanized steel. Have equal currents of hot and dry air passing from bottom to top. With proper care will produce clean, white fruit and will give perfect satisfaction. The stoves have heavy cast iron ends. Grate, pipe and instructions for evaporating are furnished with each size. **Size No. 2** is about 4 feet 6 inches high, 30 inches wide, 24 inches deep and has 16 galvanized wire cloth trays, each 12x24 inches. Will take in 22-inch wood. Has double doors. Capacity, 3 to 4 bushels per day. **Size No. 3** is about 5 feet 2 inches high, 32 inches wide, 24 inches deep and has 20 galvanized wire cloth trays, each 12x24 inches. Will take in 22-inch wood. Has double doors. Capacity, 4 to 5 bushels per day. **Size No. 4** is about 6½ feet high, 36 inches wide, 31 inches deep and has 26 galvanized wire cloth trays, 15x30 in. Will take in 24-inch wood. Has two pairs of double doors. Capacity, 6 to 8 bushels per day. Capacities are based on green apples. **Shipped from factory in NORTHERN INDIANA.**

No. 32N2375 No. 2 Fruit Evaporator. Weight, 175 pounds. Price.....$25.95
No. 32N2376 No. 3 Fruit Evaporator. Weight, 225 pounds. Price..... 31.20
No. 32N2377 No. 4 Fruit Evaporator. Weight, 390 pounds. Price..... 47.70

Stutzman Cook Stove Fruit Driers.

Can be used on any cook stove or range. Low priced, but a dependable and most convenient cook stove fruit drier. Made of galvanized steel and has divided current of hot air. **Size No. 1** is about 25 inches high, 26 inches wide and 11 inches deep, has six galvanized wire trays, each 21x10½ inches. Capacity, 2 to 4 pecks per day. **Size No. 2** is about 31 inches high, 26 inches wide and 11 inches deep. Has ten galvanized wire trays, 21x10½ inches. Capacity, 1 to 2 bushels per day. Capacity is based on green apples. **Shipped from our CHICAGO Store.**

No. 32N2373 No. 1 Fruit Drier. Weight, 50 pounds. Price.....$7.80
No. 32N2374 No. 2 Fruit Drier. Weight, 65 pounds. Price..... 8.73

Home Sanitary Evaporator.

Drying vegetables and fruits is not only a national necessity, but in few other ways can the housewife do as much to bring down the cost of living. The Home Evaporator enables any family to preserve perishable food for Winter use without jars or sugar. A pamphlet of directions for handling and drying all fruits and vegetables goes with each evaporator. The evaporator is so compact that it occupies a space of only 18x23 inches. Heat is supplied by a safety kerosene lamp specially constructed for supplying heat and requires little or no attention. The evaporator is made up of six round seamless trays about 18 inches in diameter, stamped from bright tin plate, with galvanized wire cloth bottoms. Trays nest closely in each other so that no heat can escape until it has passed through each tray. The bottom pan or heating space just above the lamp is supplied with numerous heat radiators and a deflector that spreads the heat evenly throughout the whole evaporator. It is impossible for the fumes from the lamp to come in contact with the food. Fumes are thrown out through the holes in the heating segment at the bottom. The combined area of the six trays gives a drying surface of nearly 10 square feet, a capacity of 3 to 4 bushels of apples per day or a proportionate quantity of other fruits and vegetables. The purchase of an evaporator will help you to avoid the expense of cold storage, fancy packages and cost of cans. Much easier and quicker than drying on a roof in uncertain weather and certainly more sanitary. **Shipped from our CHICAGO store.**

No. 32N2378 Home Sanitary Evaporator. Weight, 25 pounds. Price.....$6.75

Genuine Dandy Green Bone Cutters

No. 13 Cutter on Low Legs.

Known Everywhere for Their Large Capacity, Durability and Easy Running Qualities.

To materially increase egg production or stimulate the growth of young chicks feed green bone properly cut. With even a small flock this machine will more than pay for itself in a season. The bones are placed in an oblong box, across the end of which revolves a large geared disc and on the face of which are placed four planing bits or knives. These revolve across the ends of the bones, reducing them to bone meal. Three of the knives are notched, or grooved edged, which cut grooves in the bone, and the fourth is straight edged, which follows and planes off the grooves. The bits are easily removed and sharpened. Bones are forced against the disc by an automatic screw feed and follower block. Speed of the feed screw is adjustable in all sizes. To refill the bone box on the No. 9 and No. 11 machines, as regularly equipped, the follower and feed screw must be screwed back by means of the handwheel with solid nut. However, at the extra price shown below, we will equip either of these machines with the split nut illustrated, and which is more convenient in that the nut can be opened, thus freeing the screw and allowing it to be pulled back instantly. The No. 13 machine is equipped with the split nut regularly. Machines are so accurately made and carefully finished that the greatest capacity is attained with least friction. **Shipped from factory in WESTERN PENNSYLVANIA.**

No. 9 Dandy Bone Cutter.

Illustrating how split feed nut may be opened, allowing instant return of follower and screw.

Bone box, 3½x3x9 inches, inside. Capacity to feed 100 to 150 fowls. Running machine by power will more than double capacity.

	Price, With Solid Nut	Price, With Split Nut
No. 32N3225 Cutter on Low Legs. Wt., 107 lbs.	$14.28	$17.05
No. 32N3226 Cutter on High Legs. Wt., 125 lbs.	17.00	19.80
No. 32N3233 Power Pulley, 12x4-inch. Wt., 18 lbs. Price, extra	2.12	

No. 11 Dandy Bone Cutter.

Bone box, 4x3x13 inches, inside. Capacity to feed 200 to 250 fowls. Running machine by power will more than double capacity.

	Price, With Solid Nut	Price, With Split Nut
No. 32N3227 Cutter on Low Legs. Wt., 120 lbs.	$19.20	$21.30
No. 32N3228 Cutter on High Legs. Wt., 138 lbs.	21.75	23.90

No. 9 or No. 11 Cutters on High Legs.

No. 13 Dandy Bone Cutter.

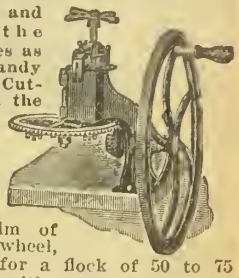
Bone box, 4x4x20 inches, inside. Capacity to feed 400 fowls by hand power. 1,500 fowls by engine power. Price includes split nut for feed screw on all No. 13 Cutters.

No. 32N3240 Cutter for Hand Power. Weight, 165 pounds. Price.....$28.88

No. 32N3241 Cutter for hand and power with crank and pulley. (Both cannot be used at the same time.) Weight, 165 pounds. Price.....$31.40

No. 32N3242 Cutter with tight and loose pulleys, for power only. Weight, 171 pounds. Price.....35.40

No. 0B Dandy Green Bone Cutter.



Constructed and operates on the same principles as our larger Dandy Green Bone Cutters shown at the left, except it does not have an automatic feed. It is back geared, operated by handle on rim of large balance wheel, and suitable for a flock of 50 to 75 fowls. Made with a standard to be fastened to a bench. The bone box is 3¼x4⅝x6 inches inside. It is fed by a hand feed screw which has the split nut illustrated with the large Dandy Cutters and which swings entirely out of the way when filling bone box. Cutter has one straight and two corrugated knives. Shipped from factory in WESTERN PENNSYLVANIA.

No. 32N3200 No. 0B Dandy Bone Cutter. Weight, 75 lbs. Price.$11.30

Clover Cutter.

Will cut green or dry clover, alfalfa or vegetable tops into ⅛-inch lengths, suitable for poultry. The cutting head has four 7-inch steel knives bolted to malleable heads. Knives can be easily removed, sharpened and replaced. They cut against a hardened cutting bar which is adjustable. Has two corrugated feed rolls with spring tension, the upper roll raising and lowering as the machine is fed. Cutter head makes about twenty revolutions to one turn of the crank. Machine is made entirely of iron and steel. Has three short legs for bolting to bench or box. Shipped from factory in WESTERN PENNSYLVANIA.

No. 32N3127 Clover Cutter. Weight, 70 pounds.....$12.30

Peerless Root Cutters.

Root crops supply a tonic your stock needs and which is not found in other feeds. A balanced ration will obtain better results and a saving of the more expensive feeds. These machines cut all kinds of roots and vegetables into long half round pieces, just right for feeding cattle, hogs and sheep. The cutting is accomplished by half round shaped knives set in the face of a heavy cast cutting disc. Knives are easily replaced or sharpened. A grate in the hopper allows dirt to fall through before it reaches the knives. Cutters are stanchly made with hardwood frames bolted together and well painted. No. 1 and No. 2 machines are the same, except that the No. 2 is equipped with a 12x3-inch pulley for power. Used with power it should run 80 to 100 revolutions per minute. Shipped from factory in NORTHERN OHIO.

No. 32N1395 No. 1 Root Cutter, with crank for hand power only. Capacity, 30 to 50 bushels per hour. Weight, 120 lbs. Price.....$9.85

No. 32N1396 No. 2 Root Cutter, with crank and 12x3-inch pulley. Capacity, by power, 60 to 80 bushels per hour. Weight, 135 pounds. Price.....$11.45

If interested in Root Cutters of larger capacities than shown above write us for prices.

Oats Sprouters.

Furnish green feed for poultry the year around and stimulate the production of Winter eggs. No lamp or fuel required; cost nothing to operate. Sprouters consist of a series of perforated galvanized pans 11x15 inches and a bottom drip pan. The pans are firmly supported by galvanized legs. The oats to be sprouted, after soaking twenty-four hours, are placed in the pans and sprinkled once or twice daily. By setting in a warm place the sprouting is quickly accomplished. Sprouters are shipped flat, packed in a box. When not in use can be taken apart and packed away. Can be shipped by parcel post. Made with seven pans and drip pan, the popular size, suitable for medium to large size flocks; and with 4 pans and one drip pan, suitable for small, or "back yard" flocks. Shipped from our CHICAGO store.

No. 32N7067 Popular size with 8 pans. Weight, 15 pounds. Price $3.75

No. 32N7066 Small size with 5 pans. Weight, 10 pounde. Price $2.85

Poultry Root Cutters.

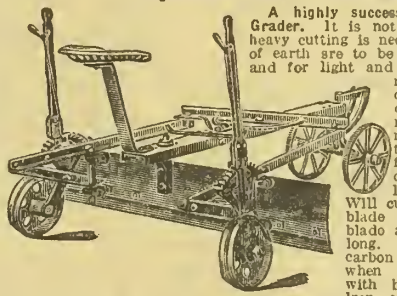
Cut all kinds of roots and vegetables into fine ribbon-like shavings. Vegetable feed thus prepared can be mixed with the mash feed that is fed to fowls. Cutting is done by steel knives set around a large cast disc. An iron grating in the hopper allows dirt to drop through before reaching the knives. The small machine has crank only and is suitable for ordinary poultry yards, but not for any larger stock. The larger machine can be furnished with pulley for power, and is for poultrymen with large flocks, but can be used for cutting feed for sheep and lambs where large capacity is not required. It cuts much finer than our Peerless root cutters and is not suitable for feeding cattle. No. 32N1390 can be shipped either from our CHICAGO store or factory in NORTHERN OHIO. No. 32N1391 from factory only.

No. 32N1390 No. 1A Poultry Vegetable Cutter. Weight, 40 pounds. Price $5.15

No. 32N1391 No. 2A Poultry Vegetable Cutter, with crank only. Weight, 150 pounds. Price.....$14.85

No. 32N1392 Pulley. Wt., 10 lbs. Price $1.47

Improved Ideal Farm and Road Grader.



A highly successful light two-horse Farm and Road Grader. It is not intended for heavy road work where heavy cutting is necessary, nor where very large quantities of earth are to be moved, but for general farm purposes and for light and frequent working of roads wonderful results are obtained with it, far out of proportion to the very small first cost of the machine. The blade is reversible, to throw the dirt to the right or left. Blade can be reversed to either side, merely by pressing on foot latch and turning team to right or left. Cutting blade is raised or lowered by lever conveniently located. Will cut deep or shallow. High carbon steel blade is 6 inches wide, moldboard with blade attached is 12 inches wide and 6 feet long. Blade is bolted to the curved high carbon steel moldboard and can be replaced when worn. Wheels reverse automatically with blade. Machine is made entirely of iron and steel, and measures 6 feet long from center to center of trucks. Rear wheels are 14 inches in diameter and have steel roller bearings. Front trucks have both caster and ball and socket action, so machine can be worked either with or without tongue, and it can be turned in any place the team can turn. As the grader can be worked anywhere, at times and places where very heavy machines could not be used, it is of great value to farmers for leveling fields and barnyards, keeping lanes and driveways in order, etc. Generally used tongueless, but we can furnish a tongue for $1.75 extra. Price does not include hitches. Shipped from factory in CENTRAL OHIO.

No. 32N2552 Improved Farm and Road Grader. Weight, 600 pounds. Price $49.50

No. 32N2553 Extra Blade. Weight, 30 pounds. Price..... 3.85

High Quality Road Scrapers.

MADE OF HEAVY GAUGE STEEL.

DOUBLE BOTTOM SCRAPER.

DOUBLE RUNNER SCRAPER.

Bowls are pressed from a single sheet of special high carbon scraper steel, and by a special method of stamping the full thickness of steel is preserved at the point of greatest wear, whereas scrapers stamped by ordinary methods are stretched thin at the center. Corner, sides and back are formed on a gradual curve, causing scrapere to fill and clean easily. Sides are stiffensd by a projecting flange all around upper edge. Nose is rounded and enters ground easily. Ball and swivel are heavy forged steel. Hooks and handle eockets are heavy steel securely riveted in place. Hardwood handles. Double runner scrapers are the favorite, having two runners of hardened steel riveted to bottom. Double bottom scrapers have an extra bottom plate of hard steel, 13x21 inches, riveted to bottom. Our scrapers are entirely suitable for the heaviest work of farmers, contractors, townships and railroads. Shipped from factory in WESTERN OHIO.

Cast Iron Stone Boat Head.

Don't pay freight on the wood part of a stone boat. With this iron stone boat head you can make a stone boat and use any straight plank you happen to have. It will outwear several sets of plank. The head is 29 inches wide, heavy and strong. It will last a lifetime. Shipped from factory at BRADLEY, ILL.

No. 32N2550 Cast Iron Stone Boat Head. Weight, 70 pounds. Price $4.38

Tongue Scraper.

For cutting and cleaning out ditches and moving large quantities of earth. Drawbars and bit are steel. Body, tongue, crossbar and handles are made of seasoned hardwood, well ironed and bolted. Shipped from factory in WESTERN OHIO.

No. 32N2520 Tongue Scraper with 48-inch blade. Weight, 135 pounds. Price.....$8.78

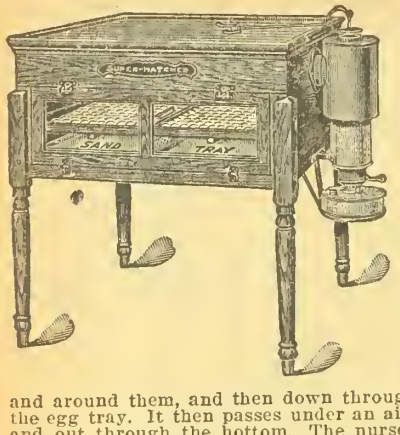
Ditching Scraper.

An excellent scraper for cleaning out and filling ditches, and for leveling roads and uneven places. Is well made of seasoned hardwood. Steel bit is 48 inches long, 7 inches wide and ¼ inch thick. This scraper is well ironed, has 1¾ by ¾-inch steel hounds, with ⅜-inch cable chain. Shipped from factory in WESTERN OHIO.

No. 32N2525 Ditching Scrapsr. Wt., 75 pounds. Price.....$7.45

Pages 925, 926 and 927 Tell You How to Figure Transportation Charges.

Super-Hatcher Double Wall Incubators



Super-Hatcher Bodies are made of clear, bone dry cypress, handsomely finished and varnished in the natural wood. This is the ideal incubator material. It resists moisture and decay, and will not shrink, warp or crack. The case is high grade cabinet work. The double walls are thoroughly insulated with non-conducting packing, and the machines will easily maintain a uniform temperature.

The outstanding feature is the hot air heating and ventilating system. Fresh air, heated without coming in contact with flame, is carried directly to the egg chamber and distributed to all parts. The fresh air current does not, however, pass downward through the eggs, but over and around them, and then down through openings in the walls above the egg tray. It then passes under an airtight space under the nursery and out through the bottom. The nursery is warmed only enough to remove the chill, and no bottom heat is supplied the eggs. The heater is heavily constructed end has an outer jacket packed with asbestos. **No lamp fumes can enter the egg chamber.**

Incubator is furnished with a galvanized sand tray. By filling this tray with moist sand, practically the seme degree of humidity as in netural incubation is easily maintained.

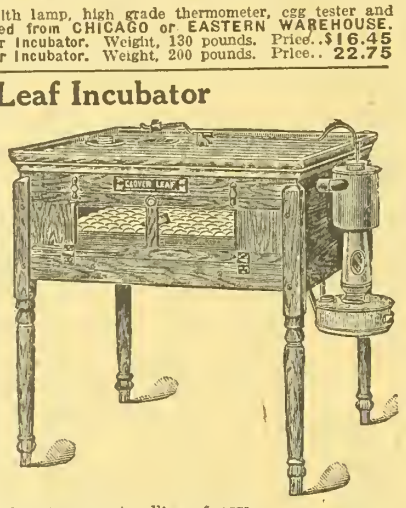
The regulator is of the compound metal bar type, very sensitive, accurete and dureble. Egg treys are strongly framed have wire screen bottoms, removable chick drops, end movable elets to prevent rolling of eggs.

Lamp is made of heavy galvanized steel, one-piece bowl, has high grade burner and self centering chimney.

Price is for incubator complete with lamp, high grade thermometer, egg tester and full instructions for operating. **Shipped from CHICAGO or EASTERN WAREHOUSE.**

No. 32N3022 125-Egg Hot Air Incubator. Weight, 130 pounds. Price..$16.45
No. 32N3023 240-Egg Hot Air Incubator. Weight, 200 pounds. Price.. 22.75

Clover Leaf Incubator



A thoroughly reliable hatcher of the single wall, hot weter heated type. It is a well made machine in every respect. It is designed for those whose requirements do not justify other than a very moderate investment; end, while at times it may require more close ettention than our Double Wall Super-Hatcher Incubators, the Clover Leaf will be found convenient to operate and satisfactory in hatching qualities.

The case is of selected cypress, nicely varnished in the natural wood. The top and sides are insulated with fiber board. The closely fitted door has a large single gless.

The heating system consists of a heavy rust resisting eteel tenk wbich extends eround the four sides inside and connects by two pipes to the outside heeter. Thus a constant, uniform temperature is maintained in all parts of the egg chember.

The regulator is of the expansion diso type and sensitive and accurate.

Egg trays have wire screen bottoms, removable chick drops, and moveble slats to prevent rolling of eggs.

Lamp is made of heavy galvanized steel with one-piece bowl and high grade burner.

The incubators are furnished complete with lanup, egg tester, thermometer and full instructions for operating. **Shipped from CHICAGO or EASTERN WAREHOUSE.**

No. 32N3026 125-Egg Hot Water Incubator. Weight, 75 lbs. Price....$ 8.79
No. 32N3027 240-Egg Hot Water Incubator. Weight, 125 lbs. Price.... 10.88

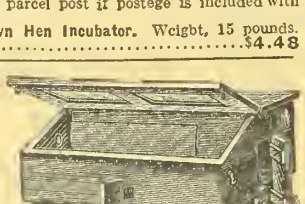
Little Brown Hen Incubator

This all metal, nest type Incubator met with instant approval as soon as we offered it to our customers. We guarantee it to give good results if operated according to our directions. It is especially popular because settings can be made as the fresh eggs are gathered.

The Little Brown Hen holds fifty oggs which rest on a felt-boerd lined bottom eloping toward the center. Eggs eveporete no more rapidly than under the hen, which accounts for high hatching percentago and big strong chicks. Bottom is double with ventilated air space. The heater is double walled and made of enameled sheet iron. No fumes cen enter the hetching chamber. Regulator is of the brass expansion disc type. Thermometer is visible through glass window. Price includes thermometer, burner, wick and instructions. Shipped by parcel post if postege is included with order. **Shipped from our CHICAGO store.**

No. 32N3011 Improved Model Little Brown Hen Incubator. Weight, 15 pounds. Price $4.48

Clover Leaf Brooders



Poultry raisers can entrust their chicks to the care of these brooders with perfect confidence. The construction of the brooders is stanch, carefully put together and well painted with red gloss oil paint.

The floor space is divided into two compartments by a heavy felt curtain. The outer compartment affords spaco for the exercise of the chicks and has two lerge rainproof glass panels in the top, giving plenty of light. The inner compartment or hover is directly under the heating pipes. The floor of brooder is raised off the ground to retein the warmth and prevent dampness.

The lamp is made of heavy sheet metal with one-piece bowl, and is contained in separate lamp compartment. No fumes can enter brooder. Heating pipe is galvanized steel and extends from lamp to opposite end of brooder and returns to lamp box, preventing loss of heat.

Brooders can be used either indoors or outdoors, although we recommend that whenever possible a brooder should be set in a shed or outbuilding.

Price includes thermometer. Shipped from factory near CHICAGO.

No. 32N3080 125-Chick Brooder. Inside measurement, 24¾x31 inches. Weight, 75 pounds. Price.....$7.77
No. 32N3081 240-Chick Brooder. Inside measurement, 24¾x46 inches. Weight, 95 pounds. Price.....$10.08

Perfection Beehives and Bee Keepers' Supplies

The bodies of our hives are made of clear white pine, free from sap. This material takes a smooth finish and cuts easily, permitting the very close accurecy of fit which is so necessary to insure a perfectly satisfactory completed hive. As beehives are generally set on the ground, the reversible bottom boerds are made of cypress.

Beehives are always shipped partly knocked down and are not painted. Complete and simple instructions for putting together are sent with eech crete of brood chambers and supers, and a sufficient supply of nails is also included.

We carry a full stock of beehives, sections, frames and similar supplies at our Chicago store.

Dovetailed Hives COMPLETE WITH SECTIONS.

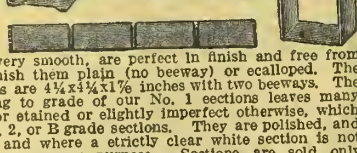
No. 32N3544 Globe Bee Veil. Weight, 5 oz. Price $1.10

Section Honey Boxes



Our No. 1 sections, also known as "A" grade sections, are exceptionally high in quality. Tbey ere made of clear basswood, polished very smooth, are perfect in finish and free from defect. We furnish them plain (no beeway) or ecalloped. The ecalloped sections are 4¼x4¼x1⅞ inches with two beeways. The very close sorting to grade of our No. 1 eections leaves many slightly darker or etained or elightly imperfect otherwise, which ere known as No. 2, or B grade sections. They are polished, and perfectly made, and where a strictly clear white section is not required, will eerve every purpose. Sectione are sold only in the full eize packages listed. When ordering sections be careful to order the size and style for which your hives are equlpped. Weights are about as follows: 100 sections, 8 pounds; 250 eections, 18 pounds; 500 sectione, 35 pounds; 1,000 eections, 70 pounds.

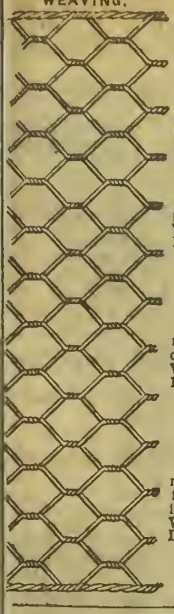
Diamond Mesh Poultry Netting.

GALVANIZED BEFORE WEAVING.



This netting is woven from genuine Bessemer hard steel wire which is "galvanized before weaving." The existing high cost of galvanizing materials has increased the cost of netting "galvanized after weaving" so greatly that we have temporarily discontinued handling it, as we consider the netting here offered to be more economical for our customers' use and far better value.

Should you require netting "galvanized after weaving" we will quote prices on application.

When to the advantage of our customers we will fill orders for poultry netting from stock at our CHICAGO store, or if we can save you in freight by doing so, we will ship from warehouse at KANSAS CITY, MO. Our poultry netting is put up in rolls containing 150 feet. We do not sell less than full rolls.

No. 32N5452 Diamond Mesh Poultry Netting, with 2-inch mesh, made from No. 19 wire. The standard size mesh most generally used.

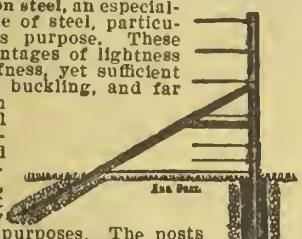
Indestructible Angle Steel Fence Posts.

Showing punching of posts and method of attaching line wires with staples.

Painted or Galvanized. No Extra Charge for Painting.

Made from rail carbon steel, an especially pure and high grade of steel, particularly suitable for this purpose. These posts possess the advantages of lightness with strength and stiffness, yet sufficient springiness to prevent buckling, and far greater durability than a tubular post of equal weight. They are particularly well adapted for use around orchards, poultry yards, vineyards, etc., but when firmly set they will serve for all farm fencing purposes. The posts are pointed for driving in firm soil, but many form a concrete base by setting the post in the hole and pouring cement around it.



Line posts are rigid angle steel, in which oval shape holes ¼x7/16 inch are punched 2 inches apart and through which ordinary fence staples can be driven and clinched, or the fencing can be attached by tie wires.

Corner and end posts are not punched like the line posts, as it has been found most satisfactory to wrap the wires around them. Line posts are 20 inches longer, and corner and end posts 32 inches longer than the heights we name. Shipped from factory near CHICAGO.

Easy Fence Stretcher.

Light, strong, powerful, easily handled by one man and perfectly safe. Cannot slip. Self locking at every point. No cogs nor springs. Pulls direct from center without side draft. Stretches up to the end post. Price includes pair of 62-inch wood clamps, and 8-foot heavy wrought chain with hook. The stretcher can also be used as a hoist by making a derrick, placing a pulley at the top, and attaching a rope to the chain.

The crank or handle furnished is a combination handle and finishing tool, which is very handy for stretching the line wires around the end post, also for stretching single lines of barbed or smooth wire. A separate illustration of his finishing tool is shown, and it is sold separately from complete stretcher f desired. The double fence stretcher consists of two Easy stretchers with hains and with one handle and one pair of wood clamps. It is designed for tretching heavy or big wire fences. Shipped from our CHICAGO store, or vith fencing from our fencing factory at KNIGHTSTOWN, IND., or from our varehouse at KANSAS CITY, MO.

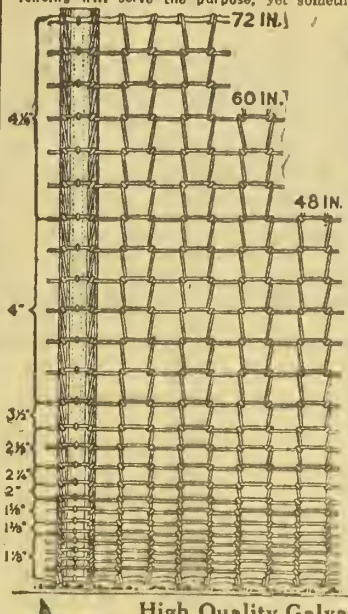
X-L-ALL Poultry and Rabbit Netting.

Shipped from our fencing factory at KNIGHTSTOWN, IND., or from our warehouse at KANSAS CITY, MO.

We recommend this netting for all purposes where a fabric lighter than regular field fencing will serve the purpose, yet something stronger and more durable than ordinary poultry netting is desired. It is closely spaced at bottom, the spaces between line wires being graduated from 1½ inches at the bottom to 4¼ inches at the top, as shown in the illustration. Vertical stay wires are spaced about 4½ inches apart. This netting can be stretched between posts without any top or bottom rail, and makes a stiff, tight fence. The heavy top and bottom line wires and the interlocked stay wires hold up the fabric and prevent sagging. This netting is made in two weights.



The standard grade is for poultry yards only. The top and bottom line wires are No. 14, and the intermediate line wires and the vertical stay wires are No. 18 hard galvanized steel wire.

The heavy grade is heavy enough to use for a light fencing around gardens and orchards, but is lighter than our X-L-ALL Poultry and Farm Fencing, and is not intended to serve as regular farm fencing. The top and bottom line wires of the heavy grade are No. 14, and the intermediate line wires and vertical stay wires are No. 16 hard galvanized steel wire.

Sold only in 10-rod bales.

No. 32N5463 X-L-ALL Poultry Netting. Standard grade.

High Quality Galvanized Barbed Wire.

Hog wire has barbs about 3 inches apart; cattle wire has barbs about 5 inches apart. Evenly and compactly wound on good, substantial reels.

Standard Barbed Wire. Two-Point and Four-Point.

Cables are No. 12½ wire, barbs are of No. 14 wire. The 80-rod spools contain 80 rods of perfect wire and weigh about 78 pounds in the 2-point wire and about 90 pounds in the 4-point wire. We sell full reels only. Shipped from factory in CENTRAL INDIANA.

No. 32N5404	Galvanized 2-Point Hog Wire.	Price, per 80-rod spool....$4.22
No. 32N5405	Galvanized 2-Point Cattle Wire.	Price, per 80-rod spool.... 4.11
No. 32N5406	Galvanized 4-Point Hog Wire.	Price, per 80-rod spool.... 4.83
No. 32N5407	Galvanized 4-Point Cattle Wire.	Price, per 80-rod spool.... 4.68

Special Barbed Wire. Two-Point Only.

We recommend the purchase of this wire because in nearly every instance it will serve your purpose fully as well as heavier wire and in many instances much better. Has two cable wires made of No. 14-gauge wire and barbs made of No. 15-gauge wire. This is easier to handle than heavier wire; it is also more elastic and will yield quicker to pressure. For this reason it is really less dangerous to stock. Put up in spools containing exactly 80 rods. We guarantee each spool to contain this amount of perfect wire. Full spools weigh about 57 pounds each. Shipped from factory in CENTRAL INDIANA.

No. 32N5411	Galvanized Special Cattle Wire.	Price, per spool.....$3.03
No. 32N5413	Galvanized Special Hog Wire.	Price, per spool..... 3.10

NOTE—Prices on barbed wire are always quoted subject to market fluctuations.

Champion Automatic Wire Fence Stretcher.

Our strongest, most powerful stretcher. The great power and strength of this stretcher make it possible to do a better job with a heavy fence and also to handle a longer stretch of any fence, thus saving time and labor. Attaches to fence quickly without the use of bolts. The two worm gear jacks are immensely powerful, are self locking at every point and, there being no back action to the handles, are perfectly safe. Jacks are made with heavy malleable castings; clamp bars are angle steel 60 inches long with malleable clamps. Stretchers are furnished complete with two jacks, clamps, post chains and stretcher chains with swivels as shown. A single wire stretcher is also included which can be used as a finishing tool, or for stretching single lines of barbed wire. We sell this finishing tool separately from the complete stretcher if desired. Shipped from our CHICAGO store, or with fencing from our fencing factory at KNIGHTSTOWN, IND., or from our warehouse at KANSAS CITY, MO.

No. 32N5380 Champion Automatic Woven Wire Fence Stretcher, with Finishing Tool. Wt., 115 lbs.

Peerless Fence Stretcher.

Simple, strong and powerful. Easily operated and perfectly safe. Holds every ounce gained and cannot slip back in operation. Made of malleable iron and steel. Long malleable lever with compound leverage gives great power, and makes a long stretch easy work. Furnished complete with 5-foot hardwood clamps and 8½-foot heavy anchor chain. Shipped from our CHICAGO store, or with fencing from our fencing factory at KNIGHTSTOWN, IND., or from our warehouse at KANSAS CITY, MO.

No. 32N5387 Peerless Fence Stretcher. Weight, 48 pounds.
Price, at Chicago or factory.....$6.25
Price, at Kansas City.....6.50

Easy Barbed Wire Stretcher.

Construction and principle of operation the same as our Easy Fence Stretcher. Frame is steel, working parts malleable iron. A grapple clamp is provided at both ends of stretcher so that ends of two wires can be drawn together for splicing. This is an extra strong stretcher and can also be used for stretches of light woven fencing and netting. Shipped from our CHICAGO store, or with fencing from our fencing factory at KNIGHTSTOWN, IND.

No. 32N5390 Easy Wire Stretcher. Weight, 8 pounds.
Price.....$2.45

For Smaller Stretchers See Page 1403.

X-L-ALL Woven Wire Fencing

Shipped From Our Fencing Factory at KNIGHTSTOWN, IND., or From Our Warehouse at KANSAS CITY, MO.

OUR INTERLOCKED STAY.

Our interlocked stay is a distinctive feature found only in X-L-ALL Fencing. The stay wires of X-L-ALL Fencing are in one continuous length and are interlocked with the intermediate line wires. This feature enables us to do away with all ties, thereby effecting a saving of about 2½ inches of wire at every junction of the wires. This method of construction makes X-L-ALL Fencing stretch up perfectly. The strain is evenly distributed over all wires of the fence. You can climb the entire height of the fence and each wire will spring back into place. There are no exposed ends to rust, a feature which adds to the life of the fence.

X-L-ALL Fencing is made from the very best galvanized fencing wire that we can buy. Neither too hard nor too soft. The galvanizing will not scale off, which insures a substantial fence that will last for years.

HEAVY STANDARD X-L-ALL WIRE FENCING.

ACTUAL SIZES OF WIRE USED IN HEAVY STANDARD X-L-ALL FENCING.

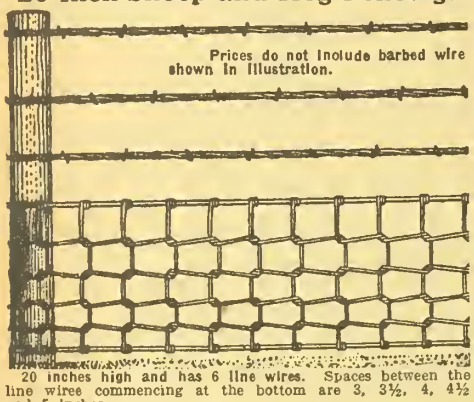
The top and bottom line wires of all Heavy Standard X-L-ALL Fencing are made from No. 9 hard galvanized steel wire. Intermediate line wires and vertical stay wires are made from No. 12 hard galvanized steel wire. Our Heavy Standard X-L-ALL is a standard weight fencing with great strength and durability.

MEDIUM X-L-ALL WIRE FENCING.

ACTUAL SIZES OF WIRE USED IN MEDIUM X-L-ALL FENCING.

The top and bottom line wires are made from No. 10 hard galvanized steel wire. The intermediate line wires and vertical stay wires are made from No. 13 hard galvanized steel wire. Medium X-L-ALL Fencing differs from corresponding heights of Heavy Standard X-L-ALL Fencing only in the size of the wires, they being one gauge lighter, otherwise it is of exactly the same construction. It is a high grade durable fencing and we do not hesitate to recommend it for all farm purposes.

20-Inch Sheep and Hog Fencing.



20 inches high and has 6 line wires. Spaces between the line wires commencing at the bottom are 3, 3½, 4, 4½ and 5 inches.

Fence and Netting Staples.

Carried in stock at our fencing factory and if you order staples at same time you order fencing all will be shipped together. Price per keg ie for etaples delivered on the cars at KNIGHTSTOWN, IND., but will ship from our CHICAGO store in smaller lots. Netting staples are for poultry netting and fencing, but it is best to use fence staples for the top and bottom line wires. The 1-inch and 1¼-inch fence staples are suitable for stock, or farm fencing, though with soft posts 1½-inch staples should be used. In a pound there are about 550 ¾-inch or about 230 1-inch netting staples, about 120 1-inch, about 100 1¼-inch or about 80 1½-inch fence staples.

We do not sell less than 5 pounds of any size. Any desired quantity less than full kegs can be obtained by ordering as many packages as are necessary to make the required amount.

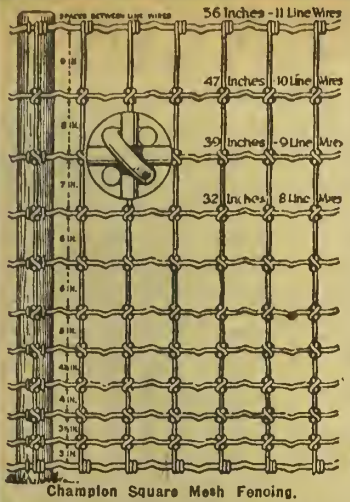
We recommend that you select fencing with stays spaced 6 inches apart, especially if you wish to confine sheep or hogs.

We ship fencing in bales containing 5, 10, 20 or 40 rods.

We do not cut bales.

YOU'LL FIND ORDER BLANKS IN THE BACK OF THIS CAPIALOG

Champion Square Mesh Fencing



Champion Square Mesh Fencing.

Champion Square Mesh Fencing meets every requirement of a farm fencing, from the lightest sheep fence to the heaviest stock fence. It is constructed of full U. S. standard gauge hard galvanized steel wire, which is the product of a process that gives wonderful **springy** stiffness and strength without sacrificing toughness or becoming brittle. Line and stay wires are of the same quality. If necessity calls for high quality in line wires, surely a better fence results from the use of that same quality in stay wires as well. All line wires are heavily crimped between each stay wire to compensate for the expansion and contraction of temperature changes. Champion Fencing never loses that crimp, and regardless of excessive heat the fence will not sag, and regardless of cold the tension will never exceed the strength of the wire. However, with the best of materials a fence may fall short of its purpose unless those materials are properly held together and properly preserved.

The Champion tie or lock is unique and unsurpassed in the purpose of locking both stay and line wires without possible slipping in any direction. It is put on with sufficient crimp and tension in both stay and line wires at the tie so that both wires carry their full share of strain, producing a fence that stands the most severe strains and comes back to its original upstanding position straight and stiff. **Observe that the tie crosses the line wire on a slant,** thus no pocket is formed any place in the tie to hold water and encourage rust.

We guarantee our fencing to be satisfactory in resisting rust. By the perfected process used, the galvanizing sinks into the pores of the wire and practically becomes a part of the wire itself.

Your only concern need be the selection of the weight of wire best suited to your needs. The three different weights are "Standard," "Heavy" and "Extra Heavy." Also notice the "Champion Special Fencing," which is the same as the Champion "Heavy" and "Extra Heavy" except for the alternating half stays.

Sizes of wire used in Champion Square Mesh and Champion Special Fencing.

CHAMPION SQUARE MESH, "STANDARD."

Top and bottom line wires No. 9, intermediate line wires and vertical stays are No. 12. Stays are full height and spaced 6 inches apart.

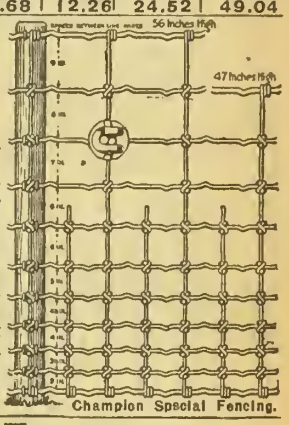
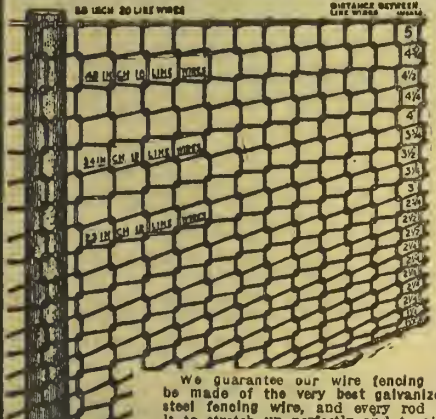
Our Champion Special Fencing with alternating short stays is the same as the Champion Square Mesh Fencing, except for the short stays, and has met with great favor among our customers. It is made in the 47-inch and 56-inch heights in two weights, heavy and extra heavy. For the first seven wires from the bottom, or 26 inches high, the stay wires are all 6 inches apart. At this point every other stay is cut off, making the stay wires 12 inches apart for the upper part of the fence. The short stay wires extend slightly above the seventh line wire and act as barbs. This produces a fencing which will successfully confine hogs and sheep as well as larger stock and at a lower price than would be possible if all the stay wires were extended to the top of the fencing.



Champion Special Fencing.



We guarantee our wire fencing to be made of the very best galvanized steel fencing wire, and every rod of it to stretch up perfectly and to give complete satisfaction in every respect, otherwise the fencing may be returned to us at our expense and we will return every cent paid for it and freight charges.

X-L-ALL Poultry and Farm Fencing

A Closely Woven Durable General Purpose Fencing.

TOP AND BOTTOM LINE WIRES ARE No. 11; INTERMEDIATE WIRES No. 14 GALVANIZED STEEL WIRE. STAY WIRES ARE SPACED 6 INCHES APART.

This fencing, while more particularly intended for poultry yards, orchards, gardens, etc., is really an all purpose fencing, and because of the close spacing of the stay wires and the substantial way in which it is constructed, it is strong enough for general farm use. With posts placed one rod apart it will stretch up as stiff and straight as a board and does not require top or bottom rails to support it. While strong enough to successfully confine the larger kinds of stock, the smaller animals cannot squeeze through, and it will exclude from your garden any poultry large enough to do harm. This fencing costs less than ordinary poultry netting, but it will give you much longer and more satisfactory service. The 23-inch and 34-inch heights provide a close mesh sheep and hog fence and a stock fence of good height which will serve ordinary farm purposes. The 58-inch height has proved the most popular with our customers and is the height we recommend for all general use. **Shipped from factory at KNIGHTSTOWN, IND., or KANSAS CITY, MO.**

X-L-ALL Fence Anchor.

Every farmer should use these anchors and save time and money. Make fences hog tight—attach one to bottom line wire, between each post, and no hog can squeeze under. Enable you to set **fence** posts farther apart and get along with fewer posts. Anchor end posts and line posts solidly. Prevent posts pulling out in low places. Repair fences quickly where posts have rotted off. Firmly anchor stack covers, tents, etc., and prevent young trees from damage by winds. Form a perfect ground connection, and protect live stock from lightning, by connecting all the line wires of your fence with the anchor, thereby grounding any current caused by the lightning.

Made of heavy sheet steel 2¾ inches wide, 3¼ inches long, with about 5 square inches of surface, enough to resist a pull of a ton or more. Easily applied by driving in the ground with a slotted end steel drive bar, first passing a No. 8 or No. 9 wire through holes in the anchor. The anchor turns over flat when upward pressure is applied. Then fasten the connecting wire to the bottom line wire of your fence. **Shipped from our CHICAGO store, or with fencing from KNIGHTSTOWN, IND.**

Don't forget to order a drive bar with your first lot of anchors.

ORNAMENTAL LAWN FENCING

Made in our own wire fencing factory at Knightstown, Ind. Designs are practical and artistic, and so varied in style and price as to offer a satisfactory choice for any taste.

Only strictly first quality heavily galvanized steel wire is used, while the looms on which the fencing is woven are so carefully adjusted and the weaving so closely superintended that every piece of fencing is guaranteed to be perfect in every respect.

The twisted pickets in all designs are very closely twisted, making the fencing extra stiff and strong. It takes more wire to make fencing this way, but adds to its durability. All designs are closely woven and practically poultry proof. This fencing can be erected on either wooden or steel posts, as preferred. All fencing on this page shipped **from our wire fencing factory at KNIGHTSTOWN, IND.**

Send for This Book.

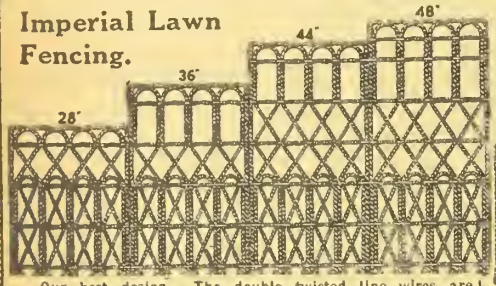
Besides the styles of fencing shown on this page, we also have a complete line of Steel Picket Fencing, also Tubular Steel Fencing filled with wire fabric, all suitable for lawns, parks, cemeteries, playgrounds, etc. These styles of fencing are shown in a Special Catalog of Lawn and Cemetery Fencing.

This catalog also contains a full line of large Iron Flower Vases, Steel and Iron Settees, Entrance Arches and other Lawn Goods.

Be sure to ask for our Lawn and Cemetery Fencing Catalog, because we also have a separate book for farm fencing.

For Tombstones See Pages 890 and 891.

Imperial Lawn Fencing.



Our best design. The double twisted line wires are wrapped around the pickets with right and left twists, providing means for taking up expansion. Line wires are two No. 12½ galvanized wires tightly twisted together, and are spaced about 8 inches apart, excepting that the two top line wires in the 48-inch height are about 4 inches apart. The bow pickets overlap at the top, adding to their stiffness and strength. These pickets are made of two closely twisted No. 11½ galvanized wires and extend continuously from top to bottom. The bow pickets at bottom extend about 20 inches high, making a very close fabric. Upright pickets are spaced about 5 inches apart.

No. 32N5368 Imperial Lawn Fencing.

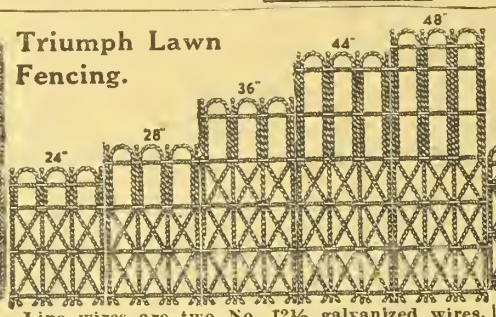
Triumph Lawn Fencing.



Line wires are two No. 12½ galvanized wires, wrapped around pickets with right and left twists, and are spaced about 8 inches apart, excepting the two top line wires in the 24-inch and 48-inch heights, which are spaced about 4 inches apart. The bow top pickets extend continuously from top to bottom, forming the diamond meshes shown in the illustration. A separate upright picket is placed between each pair of bow pickets. All pickets consist of two No. 11½ galvanized wires tightly twisted together. Pickets are spaced about 5 inches apart.

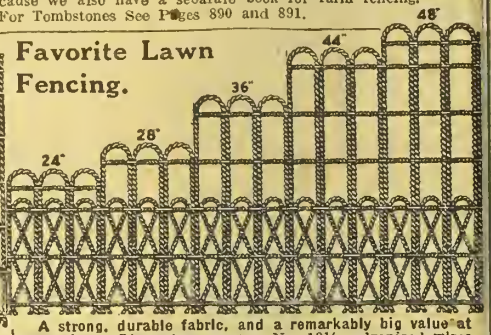
Favorite Lawn Fencing.



A strong, durable fabric, and a remarkably big value at our prices. Line wires are two No. 12½ galvanized wires wrapped around pickets with right and left twists, and are spaced about 8 inches apart, excepting that the two top line wires in the 24-inch and 48-inch heights are spaced about 4 inches apart. The bow top pickets are continuous from top to bottom and are spaced about 5 inches apart. They are formed from two No. 12½ galvanized wires closely twisted together. A single No. 13 galvanized wire is woven into the lower line wires in the different heights, as shown in the illustration, filling the space between the upright pickets, thus making the fabric practically poultry proof, and adding to its appearance.

No. 32N5371 Favorite Lawn Fencing.

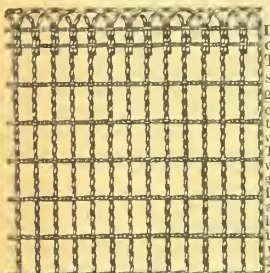
Windsor Lawn Fencing.



One of our most popular designs of lawn fencing. The uprights are single No. 9 galvanized wires closely corrugated their entire length, which adds stiffness. The double cable line wires are two No. 13 galvanized wires tightly twisted together, and placed about 6 inches apart, excepting the two top line wires, which are about 2½ inches apart. This fabric is made with pickets spaced either 2¼ inches apart or 2⅞ inches apart. Illustration shows 42-inch fencing.

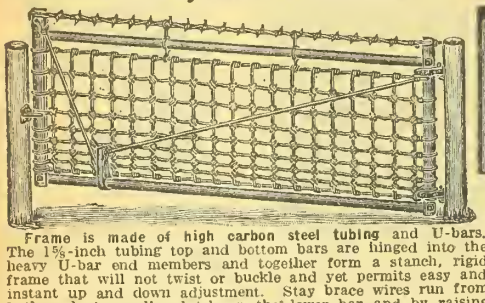
X-L-ALL Adjustable Farm Gate.



Frame is made of high carbon steel tubing and U-bars. The 1⅝-inch tubing top and bottom bars are hinged into the heavy U-bar end members and together form a stanch, rigid frame that will not twist or buckle and yet permits easy and instant up and down adjustment. Stay brace wires run from both ends to a slip clutch on the lower bar and by raising the outer end of the gate and slipping the clutch along the lower bar any desired height adjustment is automatically and positively maintained. This is a handy feature in case of sagging posts, to clear snow, or sorting small stock.

Frames are filled with our Champion "Heavy" Galvanized Square Mesh Farm Fencing with a strand of Standard Barbed Wire across the top which is held by threaded hook bolt for tightening. Gates are hog and chicken proof, all frames are painted black and heavy screw bolt hinges and latch are furnished. A gate of sufficient strength and durability to match the heaviest fence and yet sufficiently light to be easily handled.

All sizes are 4½ feet high. **Shipped from KNIGHTSTOWN, IND.**

No. 32N5332 Adjustable Gate.

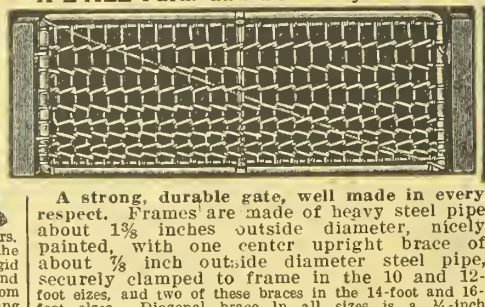
X-L-ALL Farm and Driveway Gates.



A strong, durable gate, well made in every respect. Frames are made of heavy steel pipe about 1⅜ inches outside diameter, nicely painted, with one center upright brace of about ⅞ inch outside diameter steel pipe, securely clamped to frame in the 10 and 12-foot sizes, and two of these braces in the 14-foot and 16-foot sizes. Diagonal brace in all sizes is a ¼-inch diameter steel rod. Corner elbows and fittings are heavy malleable castings. Entire construction of gate is strong and rigid, to guard against sagging.

The filling or fabric is our Heavy Standard X-L-ALL Farm Fencing, with vertical stays spaced 6 inches apart. Spaces between the line wires vary from 3 inches at bottom to 9 inches at the top, making a close fabric.

We furnish strong eyebolt hinges and a splendid latch which supports gate when closed and prevents it from sagging. Posts should be set 4 inches wider than gate to allow for hinges and latch. All sizes are 4½ feet high. **Shipped from our fencing factory at KNIGHTSTOWN, IND., or from our warehouse at KANSAS CITY, MO.**

Hog Supplies

Pig Meal

The valuable milk substitute food for safely weaning little pigs and rapidly developing strong, sturdy frames.

Analysis—Protein, 18 per cent; fat, 5 per cent; carbohydrates, 62 per cent; fiber (maximum), 7 per cent.

The most critical time for little pigs is during and just after the weaning period. The right start means no setback, no runts, and early market.

Reputation Pig Meal is a concentrated food, containing just the right amount of protein, fat, carbohydrates, ash, etc., to be a real milk substitute and to supply the needs of the infant pig. It gives them a gradual and safe change from the sow's milk to the full grain ration or to the pasture. It makes them grow bone and muscle without overfattening.

Reputation Pig Meal should be added to the ordinary feed all through the growing period. Also excellent as an addition to the ration of older pigs as well. Balances the corn ration and improves the quality of pork and bacon. Gruel easily prepared. Full directions. Prices subject to market changes. See center page note. Shipped from factory in NORTHEASTERN ILLINOIS.

No. 51N805½	100-pound bag.	Price	$4.98
No. 51N806½	25-pound bag.	Price	1.40

Digester Tankage

Guaranteed Full 60 Per Cent Protein.

Makes corn go much farther; cuts your cost of producing hogs; builds bone, flesh and muscle; makes strong, healthy hogs; saves you money, because it finishes hogs for market two or three months quicker than corn alone.

You cannot afford to feed corn alone. Corn and other grains do not contain sufficient protein to produce maximum results at the least cost. By adding from 200 to 300 pounds of Reputation Digester Tankage to every ton of corn, you increase the protein, balance the feeding value and lower your feeding costs materially.

Reputation Digester Tankage is a high grade product, thoroughly sterilized; contains full 60 per cent protein and 6 per cent phosphate or mineral matter; is appetizing, clean, wholesome, nourishing, and is the most economical source of protein feed for hogs. You cannot afford to be without it. Prices subject to market changes. See center page note. Shipped from factory in NORTHEASTERN ILLINOIS.

Hog Tonic

Supplies the Necessary Mineral Matter, Aids Digestion and Tones the System.

Where a tonic only is required and no worms are present, we recommend our Reputation Hog Tonic. It keeps the appetite keen, tones the system and assists the hog to put on flesh. Reputation Hog Tonic contains medicines recommended by the Government for this purpose. They are the same high grade medicines contained in our Hog Regulator, without the worm expelling ingredients. The contents of Reputation Hog Tonic are plainly printed on every bag. Shipped from our warehouse in NORTHEASTERN ILLINOIS.

No. 51N858½	250-pound bag.	Price	15.50

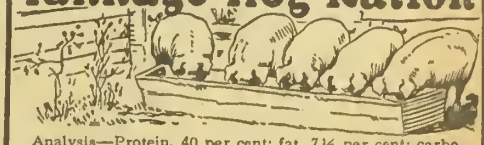
Stock Feed Shipments

All our feeds are high quality. All are registered in the states from which we ship. On account of being sold for consumers' use only, and shipped from one state to another, it is not necessary that the feeds be registered in more than the state from which shipped.

Stock Feed Prices! Read This!

Market prices on quality feeds are very unsettled and it is impossible to quote definite prices. Send us your order and the amount quoted for the feed you desire and if our prices are lower, we will return you the difference; if our prices are higher, we will ship the feed and charge you the difference. If, however, you desire to know the exact prices before ordering, write us when you are ready to order and we will quote you our prices at that time. **We assure you our prices will be based on the Chicago market the day your order is shipped and will be lower than Chicago market prices on the same high quality feed.** Do not buy feeds by name only. It pays to buy quality feeds. Prices may vary, but our standard of high quality will remain the same. You have our guarantee of right treatment and low prices and your interests will be fully protected.

Tankage Hog Ration



Analysis—Protein, 40 per cent; fat, 7½ per cent; carbohydrates, 30 per cent; fiber (maximum), 7¼ per cent.

Corn, fed alone, is not a balanced ration. Combined with Reputation Tankage Hog Ration, 10 to 30 per cent, the starch in the corn is balanced with the proper amount of protein and fat. It puts quality as well as weight in every animal. Reputation Tankage Hog Ration is composed of linseed meal, best Digester Tankage, flour middlings, alfalfa meal, locust beans, rice bran and rice polish. Hogs relish it when fed either with corn or mixed with water or skim milk. Full directions on every package. Prices subject to market changes. See center page note. Shipped from warehouse in NORTHEASTERN ILLINOIS.

Hog Charcoal

Hog Charcoal.

Hogs are big eaters and oftentimes bolt their food. A small amount of charcoal fed to the hogs will assist in the prevention of many ailments. Charcoal absorbs gases, aids digestion and promotes the general health of the hog. Prices subject to market changes. See center page note.

Reputation Worm Powder

(With Santonin.)

If you are feeding hogs infested with worms, you are not getting maximum results from your feed. A wormy hog is a menace, a disease spreader and is undesirable in a swine herd. Worms devour your feed, make your hogs subject to disease and rob you of your profits. The treatment for worms is simple and you will make money by freeing animals of them as early as possible.

Our Reputation Worm Powder with Santonin is a reliable and dependable preparation.

One pound of this Reputation Worm Powder is sufficient for thorough treatment of fifteen hogs, thirty shoats or sixty pigs. Perfectly safe and easily administered. Full directions for use on every package. Shpg. wt., 1¼ lbs.

Nn. 51N850 Price, per 1-pound carton.....$2.50

Hog Regulator

Makes Your Hogs Thrifty.

A very large per cent of hog losses are caused by worms and by keeping them insufficiently nourished. Stop these losses and gain additional profits by using Reputation Hog Regulator. It contains the tonic ingredients recommended by the Government, with the addition of reliable and safe worm expelling medicines.

Reputation Hog Regulator not only expels the worms but also contains the necessary ingredients for toning up the hog during the time the worms are being expelled; it acts in a double capacity. Shipped from our warehouse in NORTHEASTERN ILLINOIS.

Petty's Worm Powder

(Without Santonin.)

On account of the high price and scarcity of santonin, we are offering this inexpensive yet effective worm powder.

Formula—Reputation worm powder is composed of the following worm destroying medicines: Areca nut, American wormseed, quassia and tobacco, together with sulphate of iron for its tonic properties. Treatment should be followed with an active cathartic. Full directions on every package.

Nn. 51N873
5-lb. package. Price....$1.98

Medicated Salt

Reputation Medicated Salt will aid your hogs' digestion, give them a keen appetite and tend to improve their condition. If hogs are strongly infested with worms, Medicated Salt is not the remedy to use. Take them off their feed for a short time, administer Reputation Worm Powder with santonin and later use Medicated Salt.

It costs but a fraction of a cent per day. Especially useful in Winter when hogs are confined to the stable and cannot have access to green food. Ingredients printed on every package.

Cattle and Dairy Supplies

Dairy Feed

Guaranteed analysis: Protein, 25 per cent; fat, 4 per cent; carbohydrates, 50 per cent; crude fiber (maximum), 15 per cent.

Are Your Cows Milk Producers or Merely Boarders?

A dairy cow must receive proper nourishment to produce the maximum amount of butter fat. Reputation Dairy Feed supplies the needed nutrition in a well balanced ration. Composed of cotton seed meal, gluten feed, wheat bran, oil meal, malt sprouts, hominy feed and brewers' dried grains. We are offering this high protein feed to meet the demands of feeders of dairy cows. Dairymen demand milk producing feeds, realizing the cows which give big yields month after month increase their profits. Reputation Stock Molasses increases the action of the dairy feed.

If you have never fed Reputation Dairy Feed, order some today. See page 1477 about price changes on feeds.

Molasses for Stock

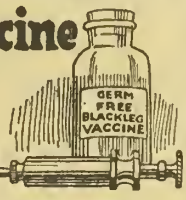
Molasses aids in milk production. A very healthful yet inexpensive feed. Fed with hay, oats straw, rye straw, cornstalks and many mixed feeds makes them more palatable and nutritious.

Molasses is valuable both as an appetizer and for its feeding value. By stimulating the appetite it causes cows to consume more food. It makes a dairy cow give more milk and beef cattle take on more fat.

Order a barrel to day and try feeding it to your cattle, horses and hogs. They will improve and fatten upon it. It is easily digested. We have bought a large quantity of a very good grade, which enable s us to offer it to you at a low price. Shipped in barrels and half barrels only.

No. 51N843⅓ Price, 55-gallon barrel; at 32c per gallon. **$17.60**
No. 51N844½ Price, 30-gallon barrel; at 33c per gallon. **9.90**
No. 51N845½ Price, 5-barrel lots (barrels of 55 gallons each); at 31c per gallon. **17.05**

Germ Free Blackleg Vaccine



The United States Government advises and recommends the vaccination of calves and cattle as a prevention against blackleg. Blackleg cannot be cured once the cattle are affected, but it can be prevented. Both the pellets and germ free vaccine are made for us in a Government licensed laboratory.

Pellet Outfit.

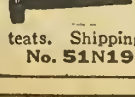
Teat Dilator.



Made of black hard rubber for tightness in teats. Shipping wt., 2 oz.
No. 51N1978 Price. **29c**

Calf Meal

A Complete Milk Substitute for the Baby Calf. Saves the Milk and Saves the Calf.

By feeding Reputation Calf Meal (guaranteed analysis: protein, 24 to 26 per cent; carbohydrates, 51 to 52 per cent; fat, 5 to 6 per cent; fiber (maximum), 5 to 6¾ per cent), you may safely take the baby calf away from its mother after the fifth or sixth day and still raise a fine healthy calf.

Two pounds of Reputation Calf Meal when mixed with water, or 1 pound when mixed with skim milk makes a gallon of growth promoting milk equal food. When mixed with water it costs less than 11 cents per gallon. A palatable and nourishing gruel.

Contains in its analysis just the right proportion of protein, fat and carbohydrates to make it a complete milk equal food.

It takes 300 gallons of whole milk to raise a calf to five months old—10 gallons to every pound of gain—according to Bulletin No. 192, Wisconsin Agricultural Experiment Station.

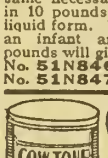
Fifty pounds of Reputation Calf Meal is sufficient to properly nourish a calf from the time it is born until the time it is able to eat ordinary food.

Shipped from our warehouse in NORTHEASTERN ILLINOIS.
Prices Subject to Market Changes.
51N817⅓ 100-pound bag. **$5.05**
51N815¼ 25-pound bag. **1.45**

Reputation Dried Buttermilk for the Baby Calf

Reputation Dried Buttermilk is a dependable product and we recommend its use to all feeders of infant animals. 10 pounds is sufficient to mix with 90 pounds of your home mixed feeds. It can also be added to commercially mixed feeds where it is not present in the same ratio and give excellent results.

Dried Buttermilk has become one of the most desired products for feeding to baby calves. Its action tends to prevent scours. It is a predigested food. Contains the same necessary lactic acid feeding value in 10 pounds as does 100 pounds in the liquid form. Why cram 100 pounds down an infant animal's stomach when 10 pounds will give the same results?
No. 51N846¼ 100 lbs. Price. **$9.65**
No. 51N847¼ 25 lbs. Price. **2.50**



Cow Tone

A Quality Condition Powder for Cattle.

The amount and quality of milk a cow is able to produce depends entirely on the health of the cow. In Summer when on pasture no conditioner is required, but it is useful in Winter when confined to the barn.

Reputation Cow Tone contains the necessary ingredients for toning the system, increasing the appetite and keeping the animals' digestive organs in the best of condition, enabling them to consume the maximum amount of feed for the production of milk. You will find the reason for many "poor milkers" to be that their systems are not working properly. Therefore, they are not big producers. Keep a can of Cow Tone on hand in the dairy for use during the Winter months.
No. 51N882 5-pound can. Price. **69c**

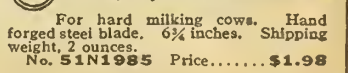
Salt Brick

In brick form and cows lick as wanted. Place either in the stalls or in the trough in the field.
No. 51N861 Price, per brick. **22c**
No. 51N860 Price, per dozen bricks. **$2.45**

Reputation Dehorning Paste.

For applying on the heads of young animals, about 1 week old. Apply to correct position and horn will not form. More humane than cutting off later. Dehorned cattle are the most satisfactory in every way. Full directions on every package. Shipping weight, 5 ounces.
No. 51N885 Price, per tube. **33c**

Cow Teat Slitter.



For hard milking cows. Hand forged steel blade. 6¾ inches. Shipping weight, 2 ounces.
No. 51N1985 Price. **$1.98**

Egg Mash

Egg Mash, Not Scratch Feed, Makes Eggs.

Rapidly increases egg production. To get more eggs, feed our Egg Mash—all your hens will eat. A great mistake most poultry raisers make is the idea that scratch feeds produce eggs. **Scratch feeds do not make hens lay.** It maintains life of the hen, but does not produce eggs. Feed SILVER QUILL Egg Mash with SILVER QUILL Scratch Feed for maximum egg yield. SILVER QUILL Egg Mash is carefully balanced and furnishes the necessary food required for formation of eggs. Greatly increases Winter egg production. Contains about twenty different ingredients, each having its special purpose. Order a bag of Egg Mash and Scratch Feed today. Feed both and note results.

Full directions contained in every bag. Shipped from our warehouse in NORTHEASTERN ILLINOIS.

SILVER QUILL Poultry Feeds

POULTRY FEED PRICES! READ THIS!

Market prices on quality feeds are very unsettled and it is impossible to quote definite prices. Send us your order and the price quoted for the feed you desire and if our prices are lower, we will send you the difference; if our prices are higher, we will ship the feed and charge you the difference. If, however, you desire to know the exact prices before ordering, write us when you are ready to order and we will quote you our prices at that time. **We assure you our prices will be based on the Chicago market the day your order is shipped and will be lower than Chicago market prices on the same high quality feed.** Do not buy **Scratch and other feeds by name** only. A large percentage of grit reduces cost without increasing the value of the feed. It pays to buy **quality** feeds. Prices may vary, but our standard of high quality will remain the same. You have our guarantee for right treatment and low prices and your interests will be fully protected.

SHIPMENTS — READ THIS!

All our feeds are registered in the states from which we ship. Inasmuch as our feeds are sold for consumers' use only, and not for resale in the state in which they are shipped, it is not necessary that they bear the tags of the state in which you live.

Meat Scraps

SILVER QUILL Meat Scraps analyze 50 per cent protein, 8 per cent fat and 10 per cent phosphates. Feeds and mashes must contain sufficient protein to make a balanced ration; grains fed alone are fattening and do not produce a maximum egg yield.

SILVER QUILL Meat Scraps are made from clean, lean fresh meat, thoroughly sterilized, and contain no waste material of any kind. Meat is essential for health and growth, and unless your hens are provided with meat as part of their daily feed, you cannot expect the best returns.

SILVER QUILL Meat Scraps are easily fed; simply place in open hoppers, as hens will not overeat. Shipped from our warehouse in NORTHEASTERN ILLINOIS.

No. **51N925⅓** 100-pound bag.
Price..... **$5.20**

Prices subject to market changes. See note at top of this page

Dried Buttermilk

Chick losses can be attributed in most cases to bowel troubles on account of improper feeding at the start. By the addition of 5 to 10 per cent. of Dried Buttermilk to home-made mashes or to crate fattening feeds it will increase the feeding as well as the digestible value to a very great extent.

It has been found that the lactic acid in buttermilk has a very beneficial action in destroying disease germs in the bowels, especially white or bacillary diarrhea, and aids the general digestion. Reputation Dried Buttermilk retains the valuable lactic acid with its necessary digestive and food values. Shipped from our warehouse in NORTHEASTERN ILLINOIS.

No. **51N847¼** 25-lb. bag.. **$2.50**

READ NOTE BELOW REGARDING FREIGHT RATES.

Silver Quill Scratch Feed, Chick Feed and Pigeon Feed contain nearly all grain. They will be shipped at a freight rate which is considerably lower than "4th Class."

By comparing the freight rates shown below with the 4th Class rate from Chicago found on page 927, you will readily see how much money you will save in freight:

5th Class Freight, per ILLINOIS 100 Lbs.		5th Class Freight, per OHIO 100 Lbs.		D Class Freight, per GEORGIA 100 Lbs.		D Class Freight, per 100 MISSISSIPPI Lbs.	
Cairo	19c	Cincinnati	18c	Atlanta	35c	Hattiesburg	39c
Joliet	11c	Columbus	19c	Macon	37c	Jackson	37c
Rock Island	15c	Toledo	17c	Savannah	35c	Natchez	26c
Springfield	15c			Waycross	42c		

You will be entitled to these low rates on grain feeds if you live in the above states or any other state east or south of Chicago and east of the Mississippi River. **Write us for rates.**

Scratch Feed

Guaranteed Analysis.

Protein, 9 per cent. Carbohydrates, 60 per cent. Fat, 2 per cent. Crude fiber (maximum), 5 per cent.

SILVER QUILL Scratch Feed is our standard grain mixture for full grown or mature hens. Contains only pure, sweet, clean grains, free from chaff. A very good combination and a high grade feed. Scratch Feed gives vitality and life and should be fed with SILVER QUILL Egg Mash for maximum egg production. You will find Egg Mash pays well to feed. Shipped from our warehouse in NORTHEASTERN ILLINOIS.

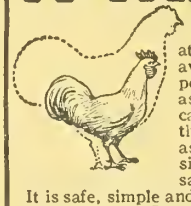
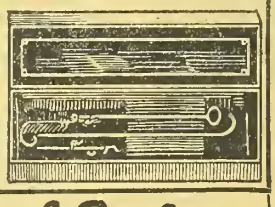
No. **51N961⅓** 100 pounds, net weight, medium fine. Price..... **98c**

IT PAYS TO CAPONIZE



Which would you rather market—a rooster weighing 6 pounds at 25 cents a pound or a capon that weighs much more at a higher price per pound? Capons weigh nearly double the average weight of a rooster or hen. They are the most desired by poultry meat buyers. At the age of ten to twelve weeks, or as soon as cockerels can be distinguished from the pullets, they should be caponized. From this time on their chief aim in life is to grow as big, tender and juicy as possible. More weight per fowl in the same feeding time spells profit. It is safe, simple and an easy matter to caponize with Dr. Edwards' Caponizing Instruments if the simple directions are followed which you will find contained in every box. Set complete with the new model twisting hook for removing the testicles. Packed in a handy velvet lined pocket case. Shipping weight, 8 ounces.



No. **51N1940** Price..... **$2.79**

Silicate of Soda

PRESERVE YOUR EGGS FOR WINTER.

The U. S. Government is advocating the use of water glass for preserving eggs. One gallon of this Silicate of Soda Solution, commonly called Water Glass, is used for preserving from forty to fifty dozen eggs. A quart will preserve ten to fifteen dozen eggs. Preserves your eggs at home from the time they are plentiful until they are scarce and high priced. Full directions on every package. Sold at customer's risk.

Growing Mash

Guaranteed analysis.

Protein, 15 per cent. Carbohydrates, 45 per cent. Fat, 4 per cent. Crude fiber (maximum), 10 per cent.

For raising big, healthy, sturdy chicks. After chicks are six weeks old they need a coarser food than our SILVER QUILL Milk Mash. Then feed SILVER QUILL Growing Mash to build up and nurse to a strong, healthy condition. Contains linseed oil meal, corn meal, meat scraps, wheat bran, wheat middlings, ground oats, alfalfa meal, and not over 5 per cent shell. Feed SILVER QUILL Growing Mash with grain and note the growth. Shipped from our warehouse in NORTHEASTERN ILLINOIS.

No. **51N967⅓** 100-lb. bag.... **$3.79**

Prices subject to market changes. See note at top of this page.

Milk Mash

Saves the Baby Chicks.

A dependable milk food for baby chicks, broilers and roasters. This mash is safe for the baby chick after the third day. Chick Feed grains produce heat and energy, but it requires a milk food like SILVER QUILL Milk Mash to provide a nutritive food for developing strong, sturdy frames. A combination of the two provides a properly balanced ration for the tender digestive organs of the baby chicks. Directions in every bag. Shipped from our warehouse in NORTHEASTERN ILLINOIS.

B-K-B-K-B-K-B-K

B-K is a very powerful germ killer. Absolutely safe to use. It is clean, colorless and leaves no stain on floors or walls. An excellent deodorant because it not only destroys foul odors, but leaves no odor itself. B-K promotes health and hygiene wherever used. B-K mixes readily with water. In short, it is an all around safe and sanitary preparation and can be used with perfect safety in barns, pens, poultry houses, dairies, kennels and even on the animals themselves; also in kitchens, schools, public buildings, etc., to keep them clean and sanitary.

No. 5IN2205¼ 1-gallon jug, boxed. Shipping weight, 17 lbs. Price...$1.98
No. 5IN2206¼ 5-gallon carboy, boxed. Shipping weight, 78 pounds. Price $9.45

B-K-B-K-B-K-B-K

Indoor Closet Disinfectant

This chemical can be used with any of the chemical closets that are sold today. Put in closet 2 gallons of water and add twelve tablespoonfuls of "Handy" Chemical. It acts upon excrement, is a disinfectent, and deodorant. It is harmless and will not freeze. This chemical is a much stronger germicide than carbolic acid and is safe to handle. Shipping weight, 12 pounds.

No. 8N4054¼ Price, per gal.$1.59

Out House Disinfectant

Three times stronger than carbolic acid. Flies spread disease germs. Guard against this by thoroughly disinfecting the privy. Mixes easily with water. Dilute according to directions and sprinkle, or, better, spray generously through the openings and about the premises. Full directions on every package. Shipping weight, 12 pounds.

No. 5IN2207¼ 1 gallon. Price.....$1.33

Reputation Dry Disinfectant

Easily rids stock of lice and vermin. Requires no mixing with water. Easy to apply. The nests and roosts of poultry houses may be rid of lice and mites by thoroughly dusting with Reputation Dry Disinfectant. It can be used in the coldest weather when dipping is impracticable. Full directions on every package.

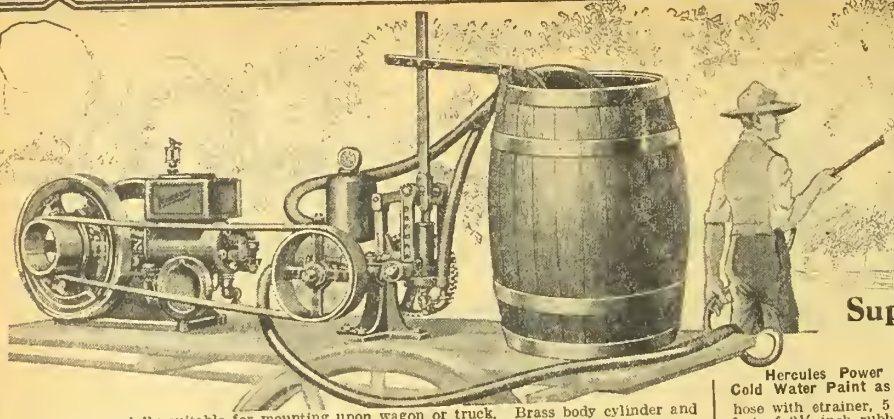
Spray For



Supplies Two Nozzles at a Constant Pressure of 125 Pounds

Hercules Power Sprayer—A High Quality Power Sprayer. Sprays Whitewash and Cold Water Paint as Well as Chemical Solutions for Killing Insects and Plant Diseases.

Pump especially suitable for mounting upon wagon or truck. Brass body cylinder and large cast iron air chamber mounted upon cast base which also supports drive gears. Cylinder of seamless brass tubing with brass ball intake and discharge valves; diameter, 2¼ inches, 4½-inch stroke. Pump has 10-inch drive pulley. Back geared 4 to 1.

Our Economy Engine with magneto, capacity 1½ horse-power, is fully described on page 1504.

Agitator (not shown in illustration) for keeping solution thoroughly mixed is made to fit ordinary 50-gallon hardwood barrel or tank or reservoir of same height.

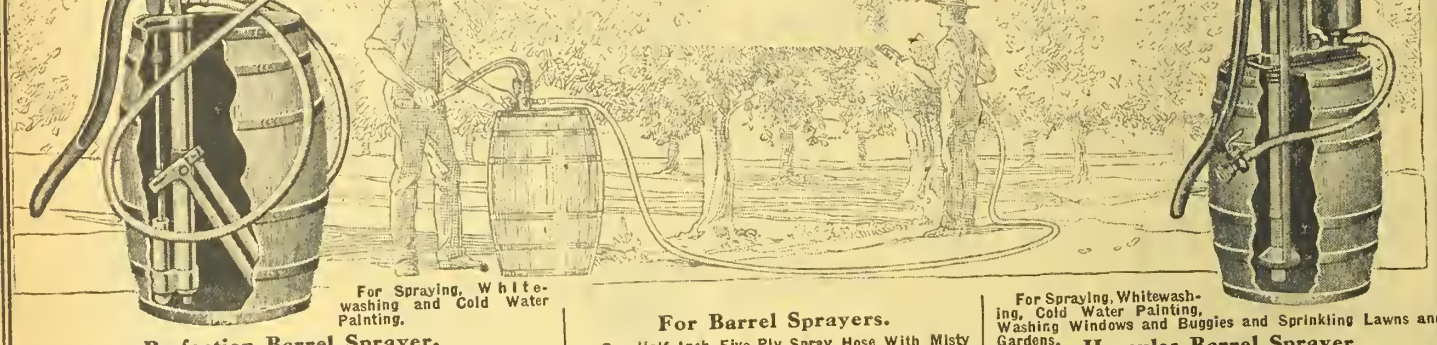
Accessories consist of pressure gauge, relief or overflow valve, one 20-foot length of ½-inch spray hose with 3 feet of spray pipe, shut off cock and nozzle, 6 feet of suction hose with strainer, 5 feet of overflow hose to lead from relief valve back to tank, and 10 feet of 2½-inch rubber belting. For extra lead of hose and other accessories see bottom of opposite page.

Shipping—Engine shipped from factory in INDIANA. Shipping weight, about 280 lbs. Pump and accessories are carried in stock at our CHICAGO store. Shpg. wt., 175 lbs.

No. 42N5563⅓ Hercules Power Sprayer, complete as described above, without engine. Price.....$36.30

No. 42N5564⅓ Hercules Power Sprayer, complete as described above, with a 1½ horse-power Economy engine, equipped with magneto. Price.....$82.30

Above prices do not include barrel or tank.



For Spraying, Whitewashing and Cold Water Painting.

Perfection Barrel Sprayer.

All parts of pump, excepting handle, are inside barrel or tank. Nothing to catch in low hanging branches. As suction cylinder is submerged it requires no priming. Pump consists of large tube, into which solution is compressed before delivered to nozzles. This produces an even, steady flow. Pressure of 100 or 125 pounds can be obtained, breaking up even heavier solutions into fine, mistlike spray. Brass suction cylinder, valves and valve seats. The prepared canvas packing not affected by strong solutions and will last a long time. Paddle agitator, consisting of two paddles, keeps solution thoroughly stirred up. Can be attached to any ordinary watertight barrel. Prices quoted do not include hose, shut offs, nozzles or barrel. These, except barrel, listed at right. Shipping weight, about 60 pounds.

No. 42N5565¼ Perfection Barrel Sprayer, with paddle agitator. Fitted for one lead of hose. No hose included.....$8.20

No. 42N5566¼ Perfection Barrel Sprayer. Fitted for two leads of hose. No hose included. Price.....$8.75

For Barrel Sprayers.

One-Half Inch Five-Ply Spray Hose With Misty Nozzle and Shut Off Cock.

No. 42N5514 5 feet long. Shipping weight, about 3 pounds. Price.....$1.35

No. 42N5515 10 feet long. Shipping weight, about 6 pounds. Price.....$2.45

No. 42N5517 25 feet long. Shipping weight, about 13 pounds. Price.....$4.25

For Spraying Tall Trees.

No. 42N5516 Galvanized Extension Tube, 8 feet long. Shipping wt., about 7 lbs. Price..55c

For Spraying Whitewash or Cold Water Paint.

No. 42N5534 Hercules Whitewash Nozzle. Fits hose or ¼-inch pipe thread. Shipping weight, about 8 ounces. Price.....60c

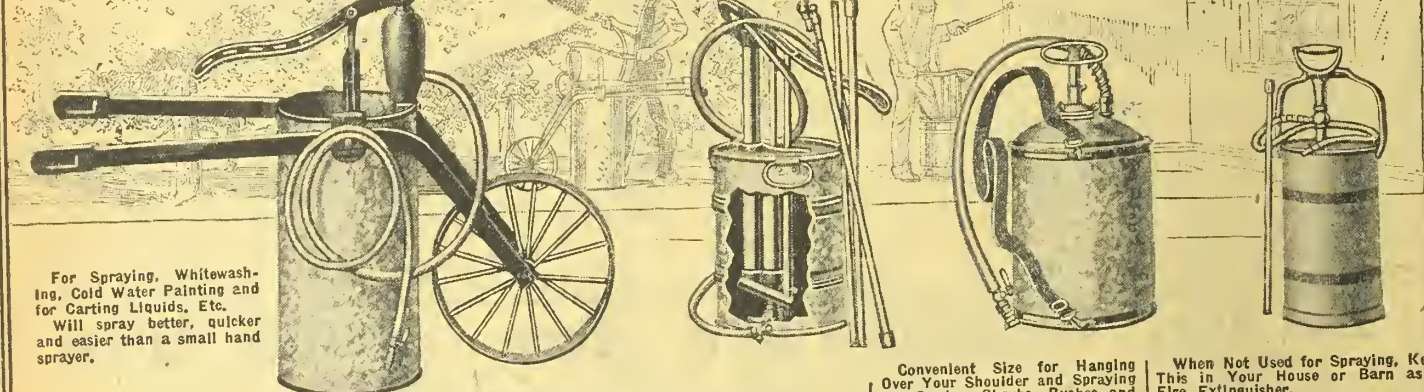
For Spraying, Whitewashing, Cold Water Painting, Washing Windows and Buggies and Sprinkling Lawns and Gardens.

Hercules Barrel Sprayer.

Easy to operate, simple in construction. Has a large air chamber which produces an even, steady spray from one or two nozzles. Body of pump is of cast iron, with large cast iron air chamber, brass cylinder, brass ball check valves and brass strainer. Agitator moves up and down around suction strainer, keeping it free from sediment while sprayer is in use, also keeping the solution thoroughly mixed. Can be attached to a barrel by simply cutting a hole in the top and fastening pump in place with four screws or bolts. Prices below do not include hose, nozzles, shut offs or barrel. These, except barrel, are listed on page 1483. Shipping weight, 60 pounds.

No. 42N5507¼ Hercules Barrel Sprayer. Fitted for one lead of hose. No hose included. Price.....$9.00

No. 42N5508¼ Hercules Barrel Sprayer. Fitted for two leads of hose. No hose included. Price.....$9.55



For Spraying, Whitewashing, Cold Water Painting and for Carting Liquids, Etc.

Will spray better, quicker and easier than a small hand sprayer.

Combination Sprayer and Wheelbarrow.

With this sprayer you can also whitewash or cold water paint chicken house, hog pen, cattle barns and horse stables in less time than it takes with a brush for hen house alone. Pump can be removed and tank and barrow used for carting feed, grain, slops, etc. Tank made of galvanized iron and holds 10 gallons. Pump will produce a pressure of 100 pounds, sufficient to break up solution into a fine mist or fog. Disc agitator works over strainer, keeping solution thoroughly mixed and preventing strainer from becoming clogged. Shipping weight, about 60 pounds.

No. 42N5525¼ Hercules Barrow Sprayer, complete, as shown, with 8 feet of spray hose, shut off cock and nozzle.

Price $13.15

Whitewashes, Paints and Sprays.

Our Handy Improved Sprayer produces high pressure. Reservoir of heavy galvanized iron holds 7¼ gallons. Pump entirely of brass, except handle. Agitator keeps solution thoroughly mixed. Pump fitted with 8 feet of three-ply hose, stop cock and three 2-foot 6-inch lengths of extension pipe, with **latest pattern Vermorel nozzle.** Five extra inserts furnished with each nozzle. Sprayer, filled, is easily carried. Shipping weight, about 44 pounds.

No. 42N5503¼ Handy Improved Sprayer.

Price.....$9.55

No. 42N5500¼ Same as above, except that reservoir and cover are made of high grade brass.

Price $14.60

HERCULES WHITEWASH NOZZLE.

No. 42N5534 Designed especially for whitewashing and cold water painting. Made of cast brass with chilled steel disc. Shipping weight, about 8 ounces.

Price 60c

Convenient Size for Hanging Over Your Shoulder and Spraying the Garden, Shrubs, Bushes and Small Trees.

Sprayrite Portable Sprayer.

Galvanized iron tank holds 2 gallons. Brass pump. Handle locks for carrying. Safety valve, 2 feet of hose and brass nozzle for fine mist or coarse spray. Shipping wt., about 12 pounds.

No. 42N5570¼

Sprayrite Compressed Air Sprayer $4.35

When Not Used for Spraying, Keep This in Your House or Barn as a Fire Extinguisher.

Marvel Spray Pump and Fire Extinguisher.

Pump and all valves and fittings that come in contact with solution are brass. Two nozzles furnished, one for fire or washing windows, etc.; other for spraying. Fire nozzle throws stream 25 to 30 feet. Capacity, 6½ gallons. Shipping wt., about 17 lbs.

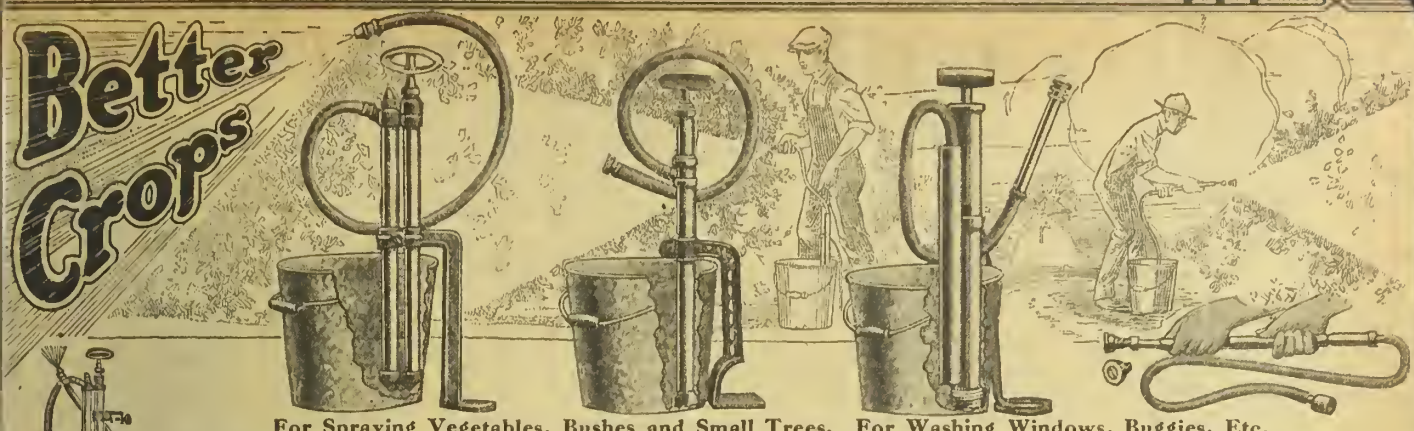
No. 42N5519¼ Marvel Pump and Fire Extinguisher with galvanized steel tank, 2-foot extension pipe and 3 feet of hose.

Price $5.15

No. 42N5522¼ Same as above except with copper tank.

Price $7.85

Better Crops



For Spraying Vegetables, Bushes and Small Trees. For Washing Windows, Buggies, Etc.

Brass Body Bucket Sprayer. Has brass body and brass ball valves. Pressure on handle is entirely on down stroke, making it easy to operate. Spray nozzle can be detached and a solid stream nozzle attached for sprinkling. Shipping weight, about 9 pounds.

No. 42N5521 Handy Bucket Sprayer with foot rest. Price.....$3.30

No. 42N5520 Handy Bucket Sprayer without foot rest, but with bucket clamp, otherwise above. Price.....$3.25

Bucket not included in above prices.

For Spraying and Whitewashing.

Bucket Whitewash Sprayer. Discharges solution from nozzle in a steady, even spray. Made of brass, except handle and foot rest. These are iron. Furnished with 3 feet of hose and two nozzles, one for spraying, the other a straight stream nozzle. Shipping weight, 8 lbs.

No. 42N5552 Bucket Whitewash Sprayer. Price.....$3.00

Bucket not included in above price.

Gives Excellent Results for Spraying or Whitewashing.

Made of galvanized iron, with brass screw cap at top and bottom of cylinder for cleaning. Ball check valves in the intake and discharge chambers. Includes 3 feet of hose, 1-foot brass extension pipe and nozzle for both a coarse and fine spray. Shpg. wt., abt. 3½ lbs.

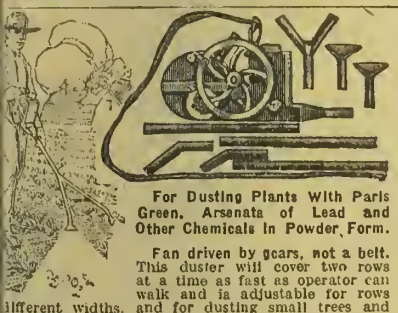
No. 42N5553 Whitewash Bucket Sprayer. Price.....$2.00

Bucket not included in above price.

For Spraying, Whitewashing, and Applying Disinfectants.

Perfection Rod Sprayer. Pump is double acting, forcing solution from nozzle in a continuous spray under high pressure. Sprayer made of brass with two wood handles and rubber suction hose, with piece of pipe and strainer on end. Shipping weight, about 4 pounds.

No. 42N5541 Perfection Rod Sprayer. Price.....$3.85



For Dusting Plants With Paris Green, Arsenate of Lead and Other Chemicals in Powder Form.

Fan driven by gears, not a belt. This duster will cover two rows at a time as fast as operator can walk and is adjustable for rows different widths, and for dusting small trees and bushes. Furnished with three tubes, two nozzles, one connection, two elbows and carrying strap with screws. Complete instructions included. Shipping weight, about 10 pounds.

No. 42N5506¼ Gem Crank Duster. Price.....$9.25

For Spraying Trees, Plants, Animals, Stable and Chicken Houses; Also Used for Washing Windows and Buggies.

Compressed Air Automatic Sprayer. Sprays more than two gallons of solution under a pressure of from 40 to 75 pounds. Solution is put in reservoir, and then air is pumped into it with the air compressor in center of tank. Reservoir has total capacity of 3 gallons. Pump cylinder is of brass tubing with rubber valve, brass valve spring, leather plunger and steel rod. Sprayer fitted with heavy web shoulder strap, 2-foot length of spray hose. By attaching extension pipes, listed below, tall trees and high windows can be reached. Spray calendar sent with each sprayer. Shipping weight, about 16 pounds.

Automatic Cock.

No. 42N5555¼ Galvanized Sprayer with automatic cock. Price.....$5.00

No. 42N5556¼ Brass Sprayer with automatic cock. Price.....$8.05

Common Cock.

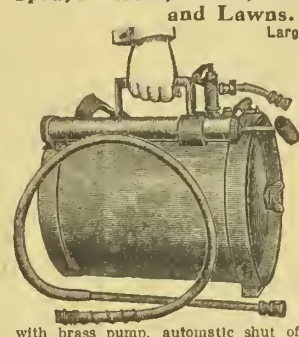
No. 42N5501¼ Galvanized Sprayer with common cock. Price.....$4.50

No. 42N5502¼ Brass Sprayer with common cock. Price.....$7.35

No. 42N5558 Brass Extension Pipes. Length, about 2 feet. Shipping weight, about 8 ounces. Price, each.....55c

NOTICE—This sprayer cannot be used for whitewashing.

Sprays Plants, Trees, Bushes, Gardens and Lawns.



Large Size Compressed Air Sprayer.

Capacity, 4 gallons. After solution is poured in air is pumped in to a pressure of 50 to 75 pounds. Sprayer is then carried in hand or hung from shoulder by atrap. Merely pressing lever of automatic cock releases a fine mist-like spray. Sprayer conaists of galvanized steel tank with brass pump, automatic shut off, nozzle producing coarse or fine mistlike spray, 3 feet of spray hose with 1-foot brass extension pipe. Shipping weight, about 20 pounds.

No. 42N5554 Compressed Air Sprayer, complete. Price.....$5.95

Sprays Any Chemical in Liquid Form.

Ideal Sprayer. Made with tin or brass reservoir, simple and efficient. Capacity, about 1 quart. Shipping weight, about 3 pounds.

No. 42N5527 With tin pump and reservoir. Price.....30c

No. 42N5528 With tin pump and brass reservoir. Price.....99c

Will Dust Paris Green, Hellebore, Dry Arsenate of Lead and Other Insect Killing Chemicals.

70c

Dry Powder Duster. Made of tin, nicely painted. Adjustable elbow allows powder to be dusted up, down or sideways. Reservoir holds over a quart. Shipping weight, about 3 lbs.

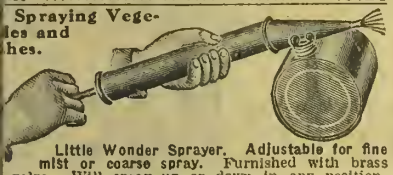
No. 42N5557 Dry Powder Duster. Price.....70c

For Spraying Tall Trees.

Bamboo Extension Pipe. Light, but substantial, and sufficiently thick to give user a firm grip. All metal parts are brass, preventing the formation of scale to clog nozzle. Made 9 feet long only. Shipping weight, about 5 pounds.

No. 42N5545¼ Bamboo Extension Pipe. 9-foot length with shut off cock. Price.....$2.80

Spraying Vegetables and Bushes.



Little Wonder Sprayer. Adjustable for fine mist or coarse spray. Furnished with brass valve. Will spray up or down in any position. Capacity, 1 quart. Shipping weight, about 3 pounds.

No. 42N5523 With Tin Pump and Reservoir. Price.....56c

No. 42N5524 With Tin Pump and Galvanized Reservoir. Price.....63c

No. 42N5530 Little Wonder Sprayer, with tin pump and 2-quart galvanized iron reservoir. Shipping weight, about 4½ pounds. Price.....75c

Has Detachable Glass Reservoir.

Glass Reservoir Sprayer. Finger has spring expander, ring leather washer expands at all times. Capacity, 1 quart. Shipping weight, about 3½ pounds.

No. 42N5529 Glass Reservoir Sprayer. Price.44c

Medium and High Pressure Spray Hose.

For sprayers with ⅜ or ¾-inch standard hose connection.

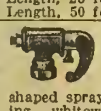
No. 42N5504¼ Perfection ½-Inch, 5-Ply Spray Hose for 150 pounds pressure. Comes only in lengths specified below with coupling connection at each end. Shipping weight, per foot, about 8 ounces.

Length, 5 feet...$0.66 | Length, 25 feet...$2.00
Length, 10 feet... 1.04 | Length, 50 feet... 3.75

No. 42N5505¼ Hercules ½-Inch 2-Ply Spray Hose for 300 pounds pressure, special seamless braid-weave, high quality and expert manufacture. Comes only in lengths specified below with a coupling connection at each end. Shipping weight, per foot, about 8 oz.

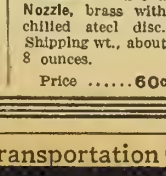
Length, 10 feet...$1.60 | Length, 25 feet...$4.00
Length, 15 feet... 2.40 | Length, 50 feet... 8.00

No. 42N5531 Straight Nozzle. Has standard nozzle for hand and power sprayers. Has fine and coarse spray discs. Shpg. wt., 8 oz. Price.....55c



No. 42N5532 Misty Nozzle. Price.....55c

No. 42N5533 Bordeaux Nozzle. Produces a fan shaped spray. For spraying, whitewashing and cold water painting, brass throughout, with regulating screws. Shipping wt., about 7 ounces. Price.....53c

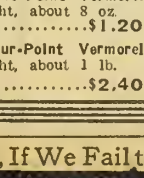


Simple, Easy to Operate, Light and Convenient.

Made of bright tin coated with Egyptian lacquer. Four nozzles included, as illustrated. Shipping weight, about 4 lbs.

No. 42N5518¼ Bucket Spray Pump. Price, ea.$ 0.95 Per doz.. 11.25

Bucket not included in above prices.



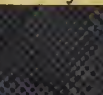
No. 42N5546 Brass Strainer, for straining solutions into sprayer. Size, about 3x5½ inches. Shpg. wt., 8 oz. Price.....77c

No. 42N5534 Hercules Whitewash Nozzle, brass with chilled steel disc. Shipping wt., about 8 ounces. Price.....60c

No. 42N5536 One-Point Vermorel Nozzle. Shipping weight, about 4 ounces. Price.....60c

No. 42N5537 Two-Point Vermorel Nozzle. Shipping weight, about 8 oz. Price.....$1.20

No. 42N5538 Four-Point Vermorel Nozzle. Shipping weight, about 1 lb. Price.....$2.40



No. 42N5539 Cast Brass U, ¼-inch pipe thread. Shipping weight, about 5 ounces. Price.....36c

No. 42N5549 Brass Elbow. For spraying from beneath. Shipping weight, 8 ounces. Price.....36c

No. 42N5550 Cast Brass Ground Key Shut Off. Threaded. Male and female for ¼-inch pipe. Shipping weight, about 12 ounces. Price.....46c

Fertilizers for All Farm Crops

Fertilizer Shipments.

All our fertilizers are registered in Illinois, Maryland, and the various states from which we ship. They are sold to consumers only for their own use and not for resale. It is therefore not necessary that they be licensed in any state except the one from which they are originally bought and shipped.

We do not recommend any one particular fertilizer, but as we are supplying all states we offer the best of each kind of fertilizer. On this page you will find listed Acid Phosphate, Nitrate of Soda, Ground Bone, Complete Fertilizer and Raw Phosphate Rock. We are prepared to supply any of them at the very lowest market prices in any quantities.

Authorities in different states vary in their opinions regarding the best form of phosphorus to apply to the soil for fertilizing purposes, their opinion being based on the particular soil and their respective tests on these soils. Some states advise Raw Rock Phosphate and legumes and other states recommend Acid Phosphate as the more quickly available form.

If you are in doubt about the kind of fertilizer your soil needs, we suggest that you consult your County Advisor or State Agricultural Department.

Nitrate of Soda

Guaranteed Analysis:

15½ Per Cent Nitrogen. Equivalent to 18¾ Per Cent Ammonia.

For Timothy.

Nitrate of Soda (Chile Saltpeter) being immediately available to the plant is now generally known to most growers as being the most satisfactory top dressing for all crops. A very small application oftentimes will give striking results, increasing the yield and aiding early maturity. The standard application for nearly all crops is from 100 to 150 pounds per acre broadcasted or distributed between the rows, as the case may be.

The best time to apply Nitrate of Soda when used as a top dressing is immediately before or immediately after a rain.

Nitrate of Soda may be applied with good success in the orchard at the rate of from 100 to 200 pounds per acre broadcasted, or better, apply at the rate of from 4 to 6 pounds per tree, according to size and age, around the tree as far from the trunk as the branches extend.

For Corn.

For small gardens Nitrate of Soda should be used at the rate of about 25 pounds for an area 100x100 feet. A solution of 1 pound in 16 gallons of water may be applied by means of a watering can to flowering plants and small lawns.

Shipped from our warehouse in NORTHEASTERN ILLINOIS.

Full directions contained in all packages. Prices subject to market changes.

No. 51N305 5-lb. bag. Price 59c
No. 51N304¼ 10-lb. bag. Price $1.15
No. 51N303¼ 25-lb. bag. Price $2.50
No. 51N302¼ 100-lb. bag. Price $7.45

Shipped by freight only. Cannot be sent by mail or express.

For quantities of 200 pounds or more send for special prices for shipment from NEW YORK, BALTIMORE or CHICAGO.

For Vegetables and Fruits.

Truck and Garden Fertilizer

A high grade combination of available plant food analyzing 5 per cent ammonia and 11 per cent available phosphoric acid. Composed solely of Nitrate of Soda, Sulphate of Ammonia, Fine Ground Bone and 16 per cent Acid Phosphate. No filler of any kind used. There are enough quick acting materials contained in this mixture to give the plants the proper start and of the slower acting materials to feed the crop to early maturity.

Shipped from warehouse in NORTHEASTERN ILLINOIS. Full directions for use contained in every package.

No. 51N317¼ 5 lbs. Price.....$0.59
No. 51N318¼ 10 lbs. Price..... 1.00
No. 51N319¼ 25 lbs. Price..... 1.98
No. 51N320⅓ 100 lbs. Price..... 5.50

For quantities of 200 pounds and above write for special prices for shipment from CHICAGO or BALTIMORE, MD.

Reputation Finely Ground Steamed Bone.

Analysis: 3 Per Cent Ammonia; 27 Per Cent Total Phosphoric Acid.

Finely ground steamed bone is one of the oldest and most widely known sources from which to derive phosphorus in combination with ammonia. Our Reputation Brand is steamed to remove the excess grease and make it more available and quicker acting as a plant food.

Shipped from warehouse in NORTHEASTERN ILLINOIS. Full directions packed in every bag.

No. 51N307⅓ 100-pound bag. Price.....$2.98
No. 51N308¼ 25-pound bag. Price..... .98

For quantities of 200 pounds and above write for special prices. Shipped from CHICAGO only.

Acid Phosphate

16 Per Cent Available Phosphoric Acid.

For Wheat and Oats.

Phosphorus is the element lacking in most soils and can be supplied by means of Acid Phosphate when quick results are required. Acid Phosphate can be combined with Nitrate of Soda and both applied at the same time.

We carry large stocks of 16 per cent Acid Phosphate at BALTIMORE and CHICAGO, which can be shipped to you in straight carloads, in mixed carload quantities with Nitrate of Soda, or smaller quantities if desired.

Acid Phosphate is one of the most necessary fertilizer materials, especially in the grain belt. Many farmers find an application of from 300 to 400 pounds per acre applied at time of planting gives very satisfactory results on such crops as wheat, corn, oats, barley, etc.

We advise early orders on Acid Phosphate due to the enormous demand and scarcity of the supply. Do not wait until you actually need it, but order your supply and have it on hand when you are ready to use it. Reputation Acid Phosphate is thoroughly cured and dried before bagging and will not lump or clog in your distributing machine.

For Rye.

It is packed in new 200-pounds burlap bags. Prices subject to market changes.

No. 51N329½ 200-pound bag. Price $3.49

For quantities of 2,000 pounds up, send for special prices for shipment from BALTIMORE or CHICAGO.

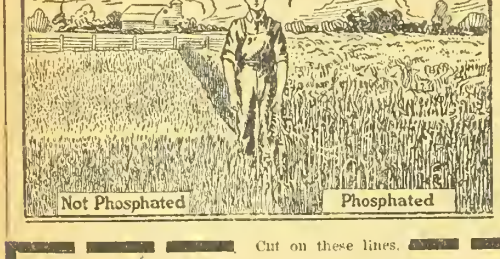
For Corn.

Reputation Raw Phosphate Rock

TRADE MARK

"Phosphorus and decaying organic matter are the two substances which constitute the key to profitable systems of permanent agriculture on most of the normal soils of America."
—Prof. C. G. Hopkins.

"The cheapest form in which you can buy phosphorus is in raw phosphate rock. The safest way to get results is to plow it under with a sufficient supply of organic matter."
—Frank I. Mann.



There Is No Special Crop Nor Any Special Time That Raw Phosphate Rock Must Be Spread

It may be spread on the land any time when convenient for hauling. All the following crops will benefit more or less for years. It does not dissolve in the soil to any great extent without the action of decomposing organic matter, so that on any soil where there is but little decaying vegetable matter the raw phosphate rock should be used in connection with decaying vegetation of some kind, like manure, clover, or unripened weeds—anything that will decay rapidly. **Under average conditions it will pay to use about one ton per acre, and apply it once in four years.**

BIGGER CROPS BETTER CROPS

Phosphorus is the one element the average farmer needs to buy (except calcium in the form of limestone) and is the one fertilizer every farmer must buy sooner or later. It will pay most farmers to add phosphorus to their soil right now.

Raw Phosphate Rock plowed under with organic matter pays! Mr. Mann's yields for 1916 were: Wheat 51 bushels; oats, 80 bushels. For 1917: Wheat, 62½ bushels; oats 96 bushels per acre.

Cut on these lines.

Cream Separators

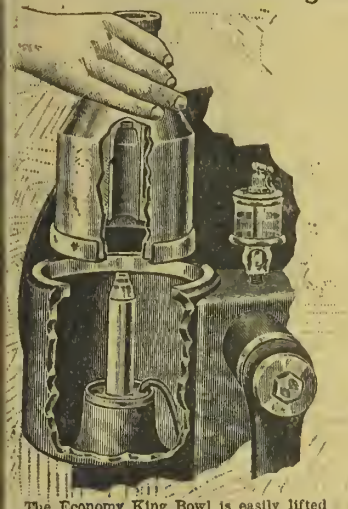
Our Economy King Cream Separators are all built in our own factory and designed to insure two things: First, easy operation; second, simplicity of construction. Note how well we have carried out this policy.

The operation of an Economy King Cream Separator is simplicity itself. Pour the milk into the supply tank, turn crank at the required speed and open the milk faucet. From one spout flows the pure, perfectly separated cream; from the other spout flows the skimmed milk. That's all there is to it. Simple, isn't it? But this is only part of our aim in building the Economy King. We seek also simplicity of construction. In this, too, we have succeeded.

To house the moving parts we designed a sturdy frame, with a sanitary open base—a frame that will stand rough usage; that will not shake nor weave while the machine is in use. Into this frame we build the simplest gear train that can be used for a separator. This insures easy running qualities and long life.

To lubricate these gears and most other moving parts of the Economy King we use a splash oiling system, by which they run in a bath of oil when the separator is in use. There is but one oil cup on the Economy King. This lubricates the upper bowl spindle bearing. Should you wish to know if there is an ample supply of oil in the machine, a glance at our patented oiling indicator—a tiny glass window conveniently placed—reveals the fact at once. Thus every moving part is perfectly lubricated.

Another Economy King triumph is our sanitary bowl. You lift it right off the bowl spindle, which remains in the machine. This construction lightens the bowl and protects the spindle from accidental injury. It is but the work of a moment to take off the sanitary steel bowl shell and remove the skimming discs from the bowl base for cleaning. A child can transfer the discs to the disc washer, so easy is the operation. Note here an important feature of our skimming discs. We electrically weld each spacer in place on the upper surface of the disc. Thus no dirt or other foreign matter can hide behind these spacers.



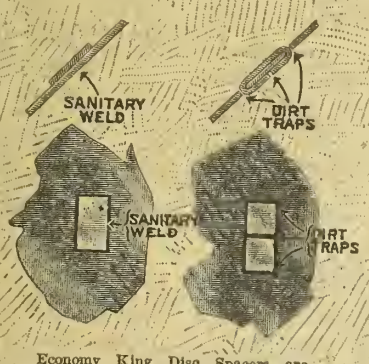
The Economy King Bowl is easily lifted out of the machine for cleaning. The bowl spindle, being detachable, remains in place, preventing accidents and making the bowl lighter and more convenient to handle.

It is almost a pleasure to clean the Economy King Cream Separator, so easy have we made it, and the entire process takes but a few minutes. The smoothly rounding one-piece supply tank has no sharp corners to evade the cleaning brush. The broad top rim is convenient to the hand for cleaning and lifting. You lift out the faucet key and find the faucet is also designed for quick and easy cleaning. There is nothing about the cleaning of the discs on our disc washer that could not be done by a girl in her early teens. In short, little time is consumed in keeping the Economy King in a highly clean and sanitary condition.

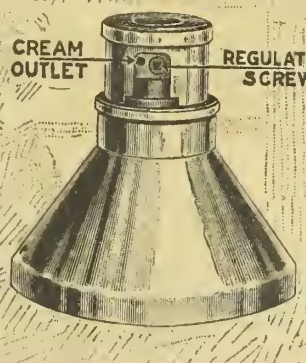
Nearly 600,000 users of Economy Separators know the wonderful skimming qualities, the ease of operation, the sturdy yet simple construction of these splendid cream separators. Why not share these advantages with them, and profit by the low prices which this immense volume of sales has made possible? Read carefully the descriptions of these machines you will find on the following pages, select the one best suited to the size of your herd and send us your order for an Economy King Cream Separator today. You will find it one of the very best investments you ever made.

This is the strong, sturdy gearing which contributes so much to Economy King simplicity and ease of operation. The gears run in a bath of oil, due to our oil splash system of lubrication, insuring long wear.

To transfer the discs to our ndy disc washer takes but a oment. The operation of wash- and replacing them in the wl consumes but little more ne than would be needed to sh a single piece.



Economy King Disc Spacers are electrically welded to the top surface of each disc. Thus they are permanently joined to the discs. This leaves the under surface of the discs perfectly smooth.



This patented cream regulating screw controls cream output perfectly. Simply turning this screw gives a wide range of cream, from thinnest to heaviest.

The seamless one-piece Economy King Supply Tank with its wide rim is easy to hold when cleaning. There are no sharp corners to catch and hold dirt or germs. The act of cleaning is as simple as rinsing a dishpan, and takes about the same time.

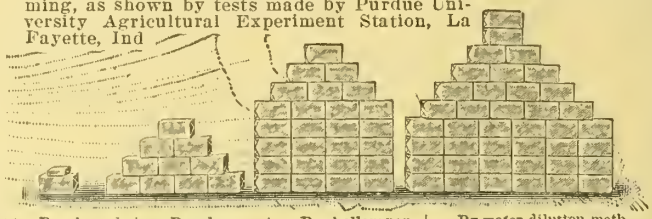
Let the Economy King Help You Get Greater Dairy Profits

Your dairy profits come from several sources. You increase these profits when you get from each source all that it can produce. Observe how an Economy King Cream Separator enables you to do this.

Get Every Possible Drop of Cream.

Your first step on the road to greater profits lies in seeing that you get every possible drop of cream from the milk. With an Economy King you take the cream from the milk down to almost the last trace. No other way of separating the cream gives such perfect results. The older ways of skimming by gravity in pans, cans or crocks are but makeshifts, for they leave a large part of the butter fat in the skim milk. Countless tests have proved this to be true. The illustrations to the right tell the story of Economy King skimming efficiency. Note how the little particles of butter fat which do not come to the top remain in the milk after hand skimming. An Economy King saves this butter fat, which is the main source of your dairy profits. And because it gets the cream while fresh and sweet, you can always find a ready market for it at a good price.

These pictures represent the loss of butter fat in skim milk from one cow in a year's time, by various methods of skimming, as shown by tests made by Purdue University Agricultural Experiment Station, La Fayette, Ind



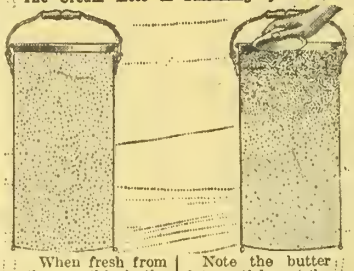
By hand separator machine, the loss of butter fat, 1⅞o pounds.

By deep setting method, loss of butter fat, 10⅞o lbs.

By shallow pan method, loss of butter fat, 26⅞o pounds.

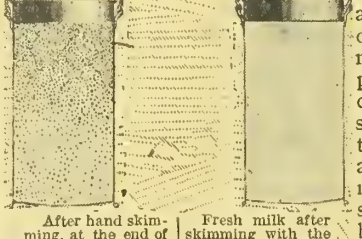
By water dilution method, loss of butter fat, 40⅞o pounds.

The Cream Loss in Skimming by Hand.



When fresh from the cow this is the way the butter fat particles are distributed through the milk.

Note the butter fat particles at the top of the milk, after the milk has set twenty-four hours.



After hand skimming, at the end of twenty-four hours, much of the butter fat still remains in the milk.

Fresh milk after skimming with the Economy King Cream Separator. Note the absence of butter fat.

Creameries always prefer separator cream because it not only churns in less time than gravity raised cream, but because it churns out more butter. Butter made from separator cream keeps longer and commands a higher price than butter made from cream raised by gravity in the old fashioned way.

Not only will an Economy King get practically every drop of cream from your milk, but it will, when desired, deliver a heavy cream, cleansed, aerated and in fine, sweet condition for shipping. If higher prices than offered by your local creamery prevail in distant markets, you can safely ship separator cream to a point where you can realize a greater profit. Your Economy King thus makes you independent of local creamery price conditions.

A simple cream regulating screw in the bowl head of the Economy King enables you to skim any cream from the thinnest to the heaviest, so you can always supply just what your trade demands. The old fashioned way of skimming a thin more or less soured cream from milk that has been standing for hours, exposed to the air, cannot offer this advantage with its opportunity for increased profits.

Four hundred pounds more of butter yearly from a herd of twenty cows is not unusual as an increase when an Economy King is substituted for old style ways of skimming.

A greater yield of high grade butter is but one source of larger earnings from your dairy when you use the Economy King. Note how it adds to your profits in other ways.

You Get Warm Skim Milk for Feeding.

Gravity skimmed milk usually contains from one-third to one-fifth of the butter fat which fails to rise to the top where it can be skimmed off, and when you feed this old soured skim milk, still rich in butter fat, to your stock, you are throwing away a large part of what should be your rightful profit.

How much wiser it is to skim with an Economy King, which, by saving this butter fat, always brings big returns and will often turn a losing dairy into a good money maker. For baby calves and pigs a better feed than warm separator skimmed milk would be hard to find. They thrive on it. Replace butter fat removed from the skim milk by adding a small quantity of oil meal or corn meal to it and a nearly perfect food for young stock will result.

You Can Handle Milk From More Cows.

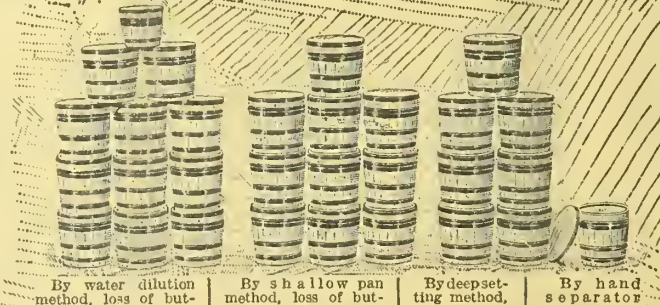
To add more cows to your herd, if you use the old style gravity method of cream separation, means more work and, as a rule, added expense. With an Economy King, however, you can often double your herd and more than double your profits and still the dairy work will be easier and take less time than before. Practically all the hard, disagreeable work, the heavy lifting and water heating, the fire building and the never ending drudgery of old style ways of separating are done away with by the modern Economy way. Is it any wonder that practical dairymen, in ever increasing numbers each year, are using Economy Kings, and that nearly 600,000 Economy Separators have been sold by Sears, Roebuck and Co.?

Experts Say Cream Separators Return Greatest Profits.

On this page we show, in the form of illustrations, how little butter fat is lost when a cream separator is used. These illustrations are prepared from the results of tests conducted by experts at an Agricultural Experiment Station of national repute. These tests prove conclusively the superiority of the cream separator over any other method of skimming. And in these times the lesson taught by these tests and illustrations has an added value. For never before have the dairymen of this country been called upon to face so large a task as now confronts them. Never before has it been so imperative that every particle of butter fat be saved — that every ounce of skim milk be utilized to feed the stock upon which the nation depends for food and shoes and countless other needs.

Wasteful methods, in the face of the great national demand for the utilization of every resource to its fullest extent, must be displaced by methods which will insure increased production, not only in the dairy, but in every department of the farm. And old time ways of skimming are among the wasteful methods that now should give place to the better, quicker and more profitable Economy King way. You will find, as thousands of other up to date dairymen have found, that greater profits follow the use of an Economy King.

A graphic story of the loss of butter fat in skim milk from twenty cows in one year by various methods of separation, as shown by tests of the Purdue University Agricultural Experiment Station, La Fayette, Ind.



By water dilution method, loss of butter fat, 678 pounds.

By shallow pan method, loss of butter fat, 595 pounds.

By deep setting method, loss of butter fat, 426 pounds.

By hand separator machine, the loss of butter fat, 64 pounds.

Try The Economy King For Ten Weeks on Your Own Farm

Ten weeks' trial of our Economy King Cream Separator is offered to every purchaser. This means that for more than two months from the time your Economy King reaches your place it is on a straightforward, wide open demonstration of its superiority as a part of your dairy equipment, and it must make good.

Ever since we have been selling Economy Separators we have put them out on trial. Nearly 600,000 Economy Separators thus have been tried by their purchasers. Observe just what this offer means to you and every Economy user.

First—In this test our Economy King must prove to you that it is a money saving and time saving investment; that it will give you the maximum amount of cream with the greatest possible ease. As you are to be the sole judge of its performance, you may know that we have every faith in the ability of our separator to show you an increase in your dairy income from the day you start to use it.

Second—To satisfy you our Economy King must be as nearly perfect, mechanically, as any separator can be. For it is your privilege to have your Economy King inspected by any friend or neighbor, or any mechanic who knows a fine piece of machinery when he sees it, all in addition to the critical inspection you yourself will make as the user. We know you will pass careful judgment on its easy running, on its close skimming and its simplicity of construction and of operation. So we have built the Economy King to meet every fair test you, or anyone you care to have examine your separator, can make.

Third—Our Economy King must absolutely show the results we claim for it. We know that an Economy will be your choice when you see how wonderfully close it skims, how quickly it may be made perfectly clean and sanitary, and how strong, sturdy and yet how compact it is.

So we say: Try an Economy King ten weeks in your dairy. Use it yourself; let your wife run it; let the hired man operate it; put it to any and every fair test you can think of.

Take plenty of time. Study just what these advantages really mean in the daily morning and evening skimming. Consider the value and efficiency of our oil splash system of lubrication, of our separable bowl spindle, our sanitary bowl, our wide range of cream regulation, our sanitary no splash tank and other valuable features. In short, give our Economy King a most thorough and searching test. At the end of ten weeks, if you have any doubt whatever that the Economy King is not one of the best investments you ever made, we want you to return it to us at our expense. We will promptly return every penny you paid us for the separator, including full freight charges, so that your ten weeks' trial of an Economy King will not cost you one cent if you do not keep it.

CERTIFICATE No. **CERTIFICATE OF GUARANTEE.**

This Is to Certify that we hereby guarantee *the genuine Economy King Cream Separator No..... to be free from flaws or defects in material and workmanship and perfect in operation if the regular directions furnished with it for setting up and operating are followed.*

We agree to replace any part giving out through defect in material or workmanship at any time during the entire period this separator is in use and, furthermore, to replace any part, except cleaning brushes and rubber rings, giving out through natural wear within one year from date, free of charge. When referring to this guarantee be sure to give the certificate number and machine number which will be found stamped on bottom of bowl of machine.

CHICAGO, ILLINOIS.

THE GUARANTEE WE GIVE EVERY BUYER.

Guaranteed for the Entire Period It Is in Use

Our Economy King Cream Separator comes to you with a guarantee which protects you against defects in workmanship and material for the entire period the machine is in use. If at any time during the life of your Economy King a flaw should develop, or any part of the separator break through faulty construction or inferior material, we will at once replace the broken or defective part with a perfect one, entirely free of cost to you.

We will do this no matter how long you have owned your Economy King, so there is no possibility of your being put to any future expense for repairs due to faulty construction. A copy of our liberal guarantee, as shown in the center of this page, is sent to every Economy King purchaser, and will protect you in all the years you use the separator.

Our Careful Factory Inspection.

Our Economy Separator factory is one of the largest manufacturing plants in the world devoted to the production of fine cream separators. We aim for perfection in every separator we turn out, and every part is made of the material best adapted for its purpose and with painstaking accuracy.

Our raw material, sheet and bar steel, forgings, bronze and pig iron are made according to our own specifications and tested when received in our own chemical laboratory. Every part when finished is measured and calipered with accurate gauges by expert inspectors to insure its being true to size.

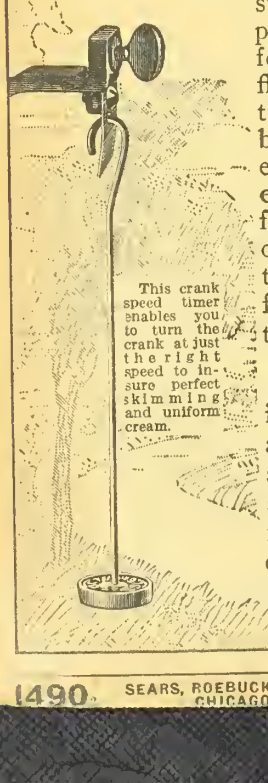
Our machines are put together without fitting or filing, as parts are each alike and interchangeable. Each finished machine is operated and carefully tested by a skilled inspector of many years' experience. All this painstaking care goes to insure the separator we send you will be so perfect as to prove to your own satisfaction that the Economy King is a truly wonderful machine.

Perfect Lubrication Means Long Life

To reduce friction and increase the ease of operation, every bearing and shaft in the Economy King runs in a constant bath of oil, which forms a film between the bearing surfaces, thus protecting them and reducing wear to almost nothing.

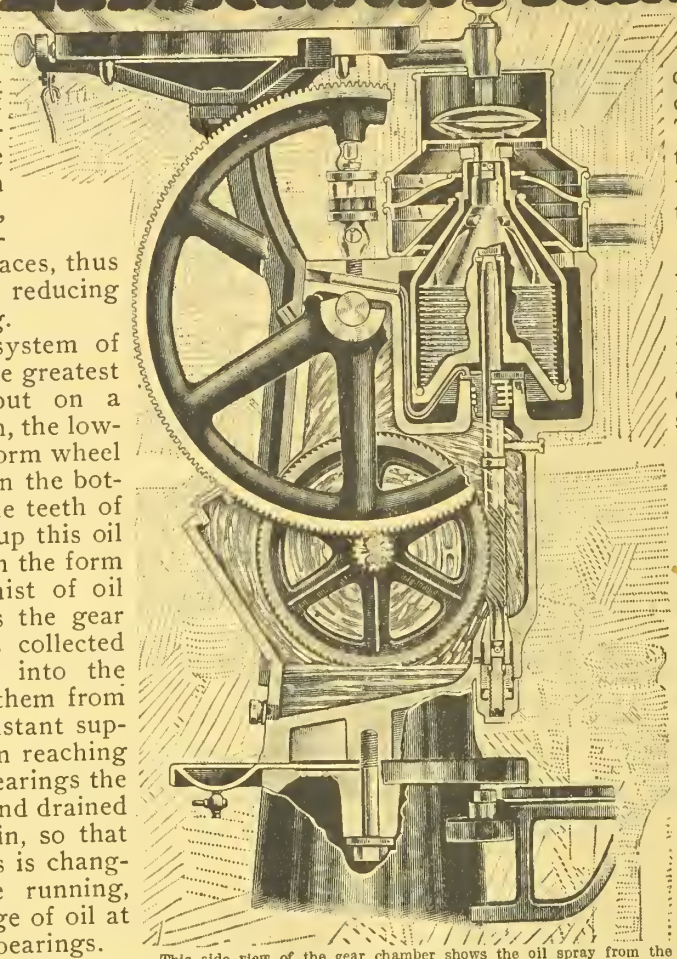
Our splash oiling system of lubrication is one of the greatest improvements ever put on a separator. In operation, the lower rim of the bronze worm wheel runs in a basin of oil in the bottom of the frame. The teeth of the worm wheel pick up this oil and throw it upward in the form of a fine spray or mist of oil which completely fills the gear chamber. This oil is collected in passages and fed into the bearings, lubricating them from end to end with a constant supply of fresh oil. Upon reaching the outer end of the bearings the oil is again collected and drained back into the oil basin, so that the oil in the bearings is changing constantly while running, and there is no leakage of oil at the outer end of the bearings.

There is but a single oil cup for you to watch. This lubricates the upper bowl spindle bearing and provides fresh oil for the oil basin. See that it is regulated to feed about five drops a minute. Turn it on when starting to skim and turn it off when finished, and you can be sure that every part is oiled perfectly. An overflow pipe keeps the oil in the basin at the proper level, and as each drop of fresh oil from the oil cup falls into the basin a drop of old, worn out oil from the bottom of the basin passes out through the overflow.

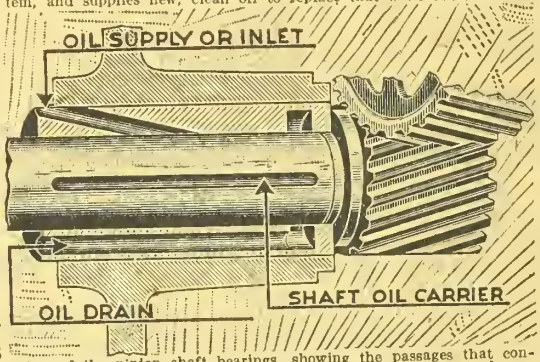


This crank speed timer enables you to turn the crank at just the right speed to insure perfect skimming and uniform cream.

Our patented oiling indicator, which is a little window in the back bracket against which the oil constantly splashes while running, enables you to see that the oil is feeding properly. If for any reason the oil supply is too low or the oil is frozen, you can see it at a glance, so there is no danger of your operating the machine without complete and proper lubrication. The Economy King oiling system is indeed a wonderful advantage, and should add years to the life of your separator.



This side view of the gear chamber shows the oil spray from the bronze worm wheel reaching all bearings and lubricating every moving part with the exception of the upper bowl spindle bearing. The oil cup shown in the illustration—the only one on an Economy King—lubricates the only bearing not reached by the splash oiling system, and supplies new, clean oil to replace that worn out in use.



One of the pinion shaft bearings, showing the passages that continuously feed the oil into the bearings while running, and thence, after traversing the bearing and oiling the shaft, back into the gear chamber.

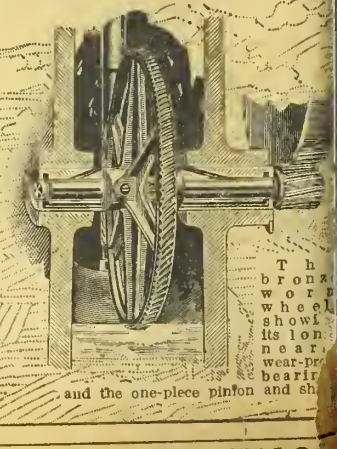
To still further insure long life and easy running all shafting is made from high carbon steel and is of extra large diameter. It is ground to a perfectly true circle, and accurate to the thousandth part of an inch. The bearings are extra long, giving ample wearing surface. The gears are broad faced and the gear teeth are cut with greatest exactness to prevent friction and vibration.

The gears, in addition, are made of materials that run best together. The slow moving driving gear, for example, is made from smooth gray iron and meshes with a hard carbon steel pinion, while the high speed worm wheel, which runs the carbon steel bowl spindle through a spiral worm gear, is of high grade phosphor bronze. These are materials that run together with the least friction and wear, as any competent machinist will tell you.

Economy King Cream Separators are sturdy and substantial. They are built to stand up under the stress and strain of everyday dairy use, Winter and Summer; under all sorts of farm conditions. Year in and year out they will do their work, skimming the daily milk crop with little attention and few repairs.

Compared with other farm machinery, their durability is wonderful. Your reaper, hay loader or cultivator is used but a few weeks each season and then put aside for another year. An Economy King Cream Separator, on the other hand, is used twice every day in the year, is geared higher and runs many times faster than other farm machines, yet so carefully is it made and so finely balanced that with ordinary care it will far outlast almost any other machine used on the farm.

No other farm machine can compare with it in quality of material and accuracy of workmanship. Parts are made and assembled with the care and precision used in manufacturing a high grade watch, yet the design is so simple, and each part is so strong in comparison to the strain it is subjected to, that with the usual attention any good machine must have, it will do its work for years with practically no adjustments and few repairs.



The bronze worm wheel shows its long, near, wear-pr bearir and the one-piece pinion and sh

The Sanitary Bowl Insures Clean Cream

Economy Cream Separator Bowls have always been noted for skimming efficiency. Away back in the early days of the separator business our first machines created a sensation because of their remarkably close skimming, and established a reputation of taking the cream from the milk right down to a trace under the hardest farm conditions.

That reputation has been maintained to this day, and while our modern sanitary bowls have been improved in so many ways that they bear little resemblance to the first bowls we put out, we have never lost sight of the fact that the object of a cream separator is to get the cream not only under favorable conditions but to take it from the milk practically to the last drop under any condition that milk can be skimmed.

Our perfected bowls of today are guaranteed to skim to their full rated capacity. They will skim new or old milk; skim it warm or cold; skim milk from breeds whose milk is hardest to skim and milk from cows far advanced in lactation, also milk from cows on dry feed, or goats' milk. They will, in fact, skim any milk that is not thick and curdled or freezing cold, and take the cream from it almost to the last drop. Under ordinary circumstances the amount of butter fat they leave in the skim milk is so small that it can only be detected by a careful chemical test, and amounts to almost nothing in the milk of an ordinary cow for an entire year.

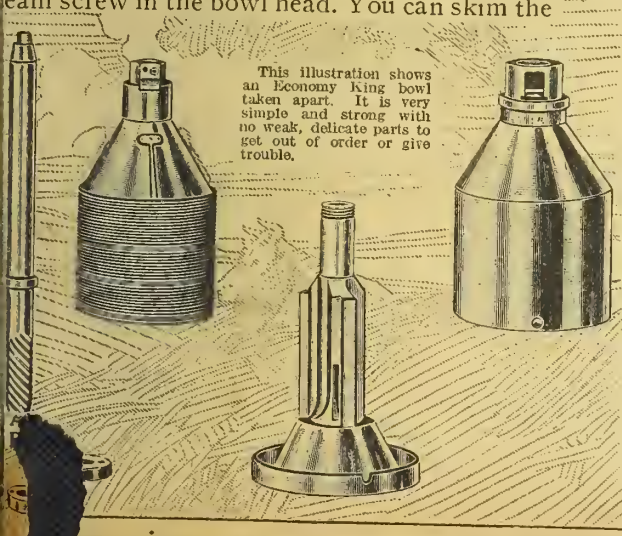
The Economy bowl will give you a cream of any density you wish, from the thinnest to a cream so heavy it will hardly flow, all regulated by turning a single simple cream screw in the bowl head. You can skim the thin cream that city milk dealers and ice cream makers ask for; a medium cream for butter making, or a 45 to 50 per cent cream, or even heavier if desired, for shipping.

Note how easy it is to take apart the Economy bowl. Simply remove the bowl nut, lift off the bowl shell and dividing disc and the skimming discs may then be removed for cleaning. This entire operation takes but a moment or two.

In passing through the bowl both cream and skim milk are cleansed by the giant power of centrifugal force. Any dirt, hair or insects that may have fallen into the milk are removed and both cream and skim milk leave the bowl purified, aerated and in better condition than the original whole milk. The cream is smooth and velvety, free from froth, and after cooling is in ideal condition for shipping, for table use or to ripen for butter making.

Our bowls vary in size according to capacity, but all sizes are of moderate weight and convenient to handle. They can be easily and quickly taken apart for cleaning or put together for skimming. In all sizes, the bowl for cleaning is removed from the driving spindle, which remains in the machine, making the bowl lighter and preventing accidental damage to the spindle. They are all of our improved, loose disc pattern, and consist only of the separable skimming discs, bowl base, shell, dividing disc and bowl nut. All parts are turned or drawn from high grade wrought steel and heavily double tinned, giving them a smooth, bright, rust resisting finish that is very easy to keep in a clean and sanitary condition.

In skimming, the milk is fed into the skimming chamber near the bottom, while the separated cream and skim milk pass out through openings near the top of the bowl neck. In this way every drop of milk must pass from the bottom to the top of the bowl, under the influence of the great centrifugal force generated by its rapid revolution, and every inch of skimming surface on the discs is utilized equally and to its full capacity, resulting in the most perfect skimming even under difficult conditions.



This illustration shows an Economy King bowl taken apart. It is very simple and strong with no weak, delicate parts to get out of order or give trouble.

Our bowls are designed to make long runs without clogging. Ample space and wide passages are provided for both skim milk and cream, and it is not necessary to stop to clean the bowl in the middle of a run. This is a splendid feature, and one that the owners of big dairies where the skimmings are heavy will appreciate.

For everyday dairy use it would be hard, indeed, to find a better bowl than the Economy King. It skims practically to a trace always and delivers the cream in splendid condition.

These sanitary skimming discs are stamped from sheets of tough steel. The disc spacers on their upper surfaces are electrically welded without perforating the discs. Thus there are no holes around these spacers to catch and hold dirt.

The Economy King Bowl is Easily Cleaned

The neat housewife will be delighted with the case with which the Economy King bowl can be kept in a clean, sweet and sanitary condition. It is most important that a separator bowl be clean to insure a pure untainted cream, free from bad flavors and of good keeping quality, and we make this a simple matter for Economy King users.

There are no long, crooked milk tubes in our bowls; no inaccessible corners where dirt and germs can gather beyond the reach of the cleaning brush. Countless perforations, tubes and graterlike surfaces are not necessary to do good skimming. In the Economy King they are all done away with. All parts of our bowls are smoothly polished and double tinned, giving a smooth, shining, rust resisting surface that is ideal for cleaning.

The bowl shell is smooth inside and outside, without sharp corners or hidden crevices. The bowl base is equally simple. The skimming discs are perfectly smooth on the under side and have electrically welded disc spacers on the top side, which are solidly united with the disc so moisture or germs cannot collect beneath or around them.

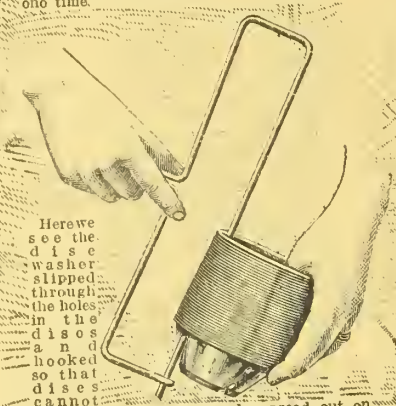
Please note especially this important point: Our skimming discs are not removed from the base or replaced separately, but are always handled in a pile, the same as if they were a single piece, so that the operations of taking them off for cleaning and replacing require but a minute and are most simple.

To clean the discs the base is reversed and the discs dropped off in a pile. Our handy disc washer is then inserted through registering holes near the rim of the discs, the ends hooked together, and the discs are ready for rinsing. When ready to skim, the discs are gathered in a pile in the same easy manner, the disc washer removed, the bowl base slipped through the center of the pile and the discs are in skimming position.

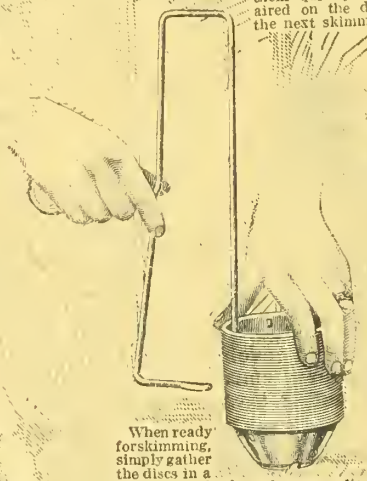
You will find the same simplicity in the other parts that require a daily cleaning. The supply tank is formed from a single sheet of steel. It is heavily double tinned, and has full rounding surfaces and no seams or joints where dirt can gather. The supply tank faucet has a large smooth milk passage and removable key, so that a brush can be run right through it, cleaning it in a moment. The milk and cream covers are the easy cleaning kind, without hard to get at crevices or sharp corners, and are quickly cleaned with the brushes we supply with the machine. A pan of hot water and a few minutes' time are all that is needed to keep the parts that require regular cleaning in a clean and sanitary condition.

Note also from the illustrations on these pages the smooth surfaces and rounding corners of our sanitary frame. The open base is a splendid feature; plenty of room to sweep or mop under it, and no place where dampness or mold is likely to collect. A drip shelf between the frame and base prevents oil stains on the floor. All gearing is carefully protected so that it is impossible to catch and injure the fingers or tear the clothing. Every part of the Economy King, in fact, is designed to give long and satisfactory service.

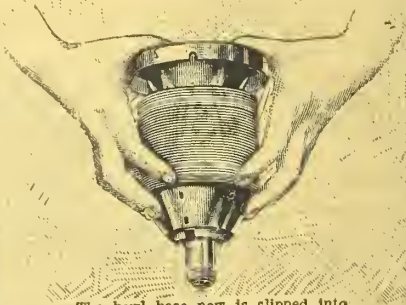
This shows how easily the discs may be removed from the bowl base by inverting the base and dropping discs onto a table. When the base is lifted out of its place the openings near the edge of the discs are in line, so that it is an easy matter to slip the handy disc washer through the openings in all of the discs at one time.



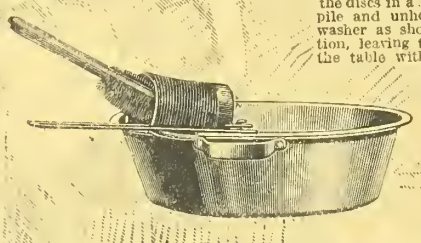
Herewe see the disc washer slipped through the holes in the discs and hooked so that discs cannot slip off. They now may be spread out on the washer and rinsed. Next pour hot water over them. The heat of the metal dries them quickly and they can be aired on the disc washer until the next skimming.



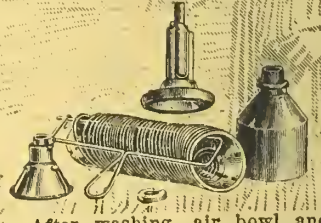
When ready forskimming, simply gather the discs in a pile and unhook and remove disc washer as shown in this illustration, leaving the inverted discs on the table with the holes in line.



The bowl base now is slipped into the opening in the center of the discs, its wide rib fitting into the wide slot in the discs. The discs are then drawn up into place with the ends of the fingers. The base and discs now may be turned over, the other parts assembled and the bowl is ready for use.



A small dish pan, or even the tank of the separator itself, makes an ideal place in which to quickly clean the discs on our convenient disc washer.



After washing, air bowl and tinware in a dry sunny place and they will be as clean and sweet after years of use as when new.

It's possible that there's some question about dairying you want answered in a simple, direct way. You can find out at once at all you want to know on any phase of this subject. Page 537 of this catalog tells you where to look for it.

Four Convenient Ways to Order Your Separator on 10 Weeks Trial

Send Full Price With Your Order.

Just send a postal or express money order, bank draft or your personal check for the price of the separator selected. When the separator arrives at your freight station, pay the small freight charges due, take it home and use it for ten weeks. If you do not want to keep it after the trial, send it baek by freight at our expense. We will return your money promptly and will include the freight charges you paid.

Ten Weeks' Trial Before Paying.

By this plan you can order an Economy King Separator and use it for ten weeks before paying for it. All we ask is that you send us the name of the hanker with whom you deal, or have him give you a letter saying he is acquainted with you and knows you to he reliable. Then send the letter to us with your order. When you receive the Economy King you have seventy days to try it. If at the end of that time you are satisfied, send us the purchase price. If not satisfied return the machine and we will return to you the freight charges you paid on the machine.

Send Small Deposit—C. O. D. for Balance.

If you live East of the Rocky Mountains, make a deposit of $1.00 on any machine ordered; or a deposit of $5.00 if you live West of the Rocky Mountains. We will ship the separator immediately and you pay the balance to your express agent when separator reaches your station. The express agent will make a small charge of 50 or 75 cents in addition to regular freight charges. This charge is for collecting and returning the money and makes this method a little more expensive than where money is sent with the order.

Deposit the Price With Your Banker.

Write to us for a Cream Separator Certificate of Deposit. When you receive it, take it to your hanker and deposit with him the purchase price of the separator you select. The banker will then fill out and sign the Certificate of Deposit. Return the certificate to us with your order. Your banker will hold the money on deposit for ten weeks after you receive the separator. At the end of that time if you tell him you are satisfied with the separator or if he does not hear from you, he will send the money to us. If you do not wish to keep the separator, send it baek to us by freight. The freight agent will give you a bill of lading, present this to your banker and he will give you haek your money without question. We will also return to you the freight charges you paid on the shipment, so you will not he out one penny on the transaction.

ABOUT THE FREIGHT CHARGES.

We ship Economy King Separators from a nearby warehouse and in most cases you will get your separator in from two to five days after we receive your order. Besides saving time, you also save transportation charges on your separator, as you pay only the freight from our nearest warchouse point. Look at the table of freight rates below; note the low freight rate per 100 pounds from our nearest warehouse to the town in the list that is closest to you. This rate will vary but slightly from the rate to your home town station. The shipping weight of each size is given in the description, so you can easily figure the freight charges you must pay very closely and you will see that they amount to hut a trifle when compared with your saving in buying from us.

Be sure to mail your order direct to Sears, Roebuck and Co., Chicago, Ill. We then notify our warehouse nearest you to ship the size you selected. We cannot ship separators from Chicago in one shipment with other goods ordered at the same time, as our separator warehouse is located in a distant part of the city.

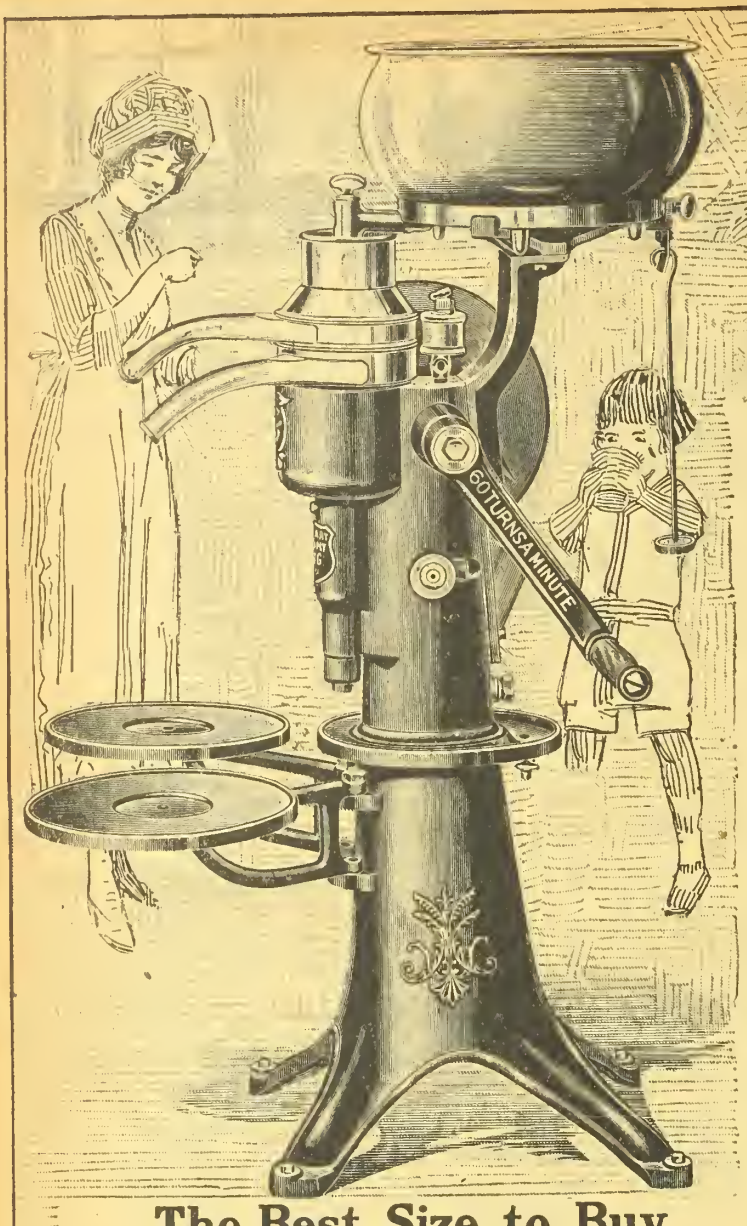
OUR ELEVEN WAREHOUSES INSURE QUICK DELIVERY.

We aim to carry all sizes of our Economy King Cream Separators in stock in eleven warehouses, so we can ship the separator you select promptly and at a very low cost or freight charges. This is in line with our policy of giving our customers the benefit of every possible saving. Warehouse points from which we ship Economy Kings are as follows:

Albany, N. Y. Columbus, Ohio Chicago, Ill. Fargo, N. Dak. Waterloo, Iowa Kansas City, Mo.
Buffalo, N. Y. Grand Rapids, Mich. St. Paul, Minn. Sioux Falls, S. Dak. Omaha, Neb.

Buy a Separator of Proper Size. Make Plans to Increase Your Herd



The Best Size to Buy

AS WE have a wide experience in the sale of cream separators for herds of every size, we in your own interests wish to call your attention to the many good reasons for ordering a separator of ample capacity for future as well as present needs.

The larger sizes skim any quantity of milk in one-half to two-thirds the time of the smaller ones, or less, saving time and labor every day you use your separator. They are cleaned as quickly as the smaller sizes and are practically as easy to run and to care for. They easily handle the big milk flow you will have at certain seasons of the year, and also save valuable time in the planting and harvesting seasons, when every moment from daylight to dark is a busy one, and when but little time can be spared for separating the morning and evening's milk.

Nearly all of our customers have found that a cream separator makes the dairy work so much easier and increases the profits so much that it pays them to enlarge their herd and give more attention to dairying. This makes it necessary to buy another separator unless the one ordered previously was big enough to take care of the increased milk supply. No buyer of one of the larger sizes has had reason to regret it. There are many who have purchased a small capacity machine and have increased their herds and been obliged to buy a bigger separator later on.

For these reasons, unless your herd is a very small one and you are sure you will never increase it, we always recommend our No. 23N386 Economy King, capacity 600 pounds per hour, listed on the following page, for any herd of from three to twelve or fifteen cows, and if you order this size you will make a wise selection.

No. 12

Economy King Cream Separator

Skimming Capacity, 250 Pounds

(About 120 Quarts) an Hour.

This is the smallest of our regular dairy machines with stand, and will give good satisfaction where the herd is small—from two to four cows—and where the buyer does not intend to increase his herd. It is best, however, to order a larger size if your herd is larger than this or if you some day expect to increase it.

This size is made of the same high quality of material and in the same careful manner as our larger sizes. It has our latest improvements, including the sanitary loose disc bowl with detachable spindle and splash oiling system with indicator. It is easy to run, to handle and to keep clean. It skims any quantity of milk from 1 gallon up and will give you a cream of any desired density. This separator is equipped with our new crank speed timer, which enables you to turn the crank at just the right speed to insure perfect skimming and uniform cream.

No. 23N382 Economy King Cream Separator No. 12 with stand. Skimming capacity, 250 pounds of milk an hour. Shipping weight, 175 pounds. Price..... **$43.75**

No. 14

Economy King Cream Separator

Skimming Capacity, 375 Pounds

(About 180 Quarts) an Hour.

This is an excellent size for any herd of from two to five or six cows. In case of necessity, it could, of course, be used for a larger herd. We do not, however, recommend it for herds of more than five cows, because of the time required in doing the skimming, a large part of which can be saved by using a separator of greater capacity. Like all Economy Kings, our No. 14 is a very close skimmer, and gives you a cream of any density you wish in splendid condition. It has all our new features and conveniences and is fully guaranteed. This separator is equipped with our new crank speed timer, which enables you to turn the crank at just the right speed to insure perfect skimming and uniform cream.

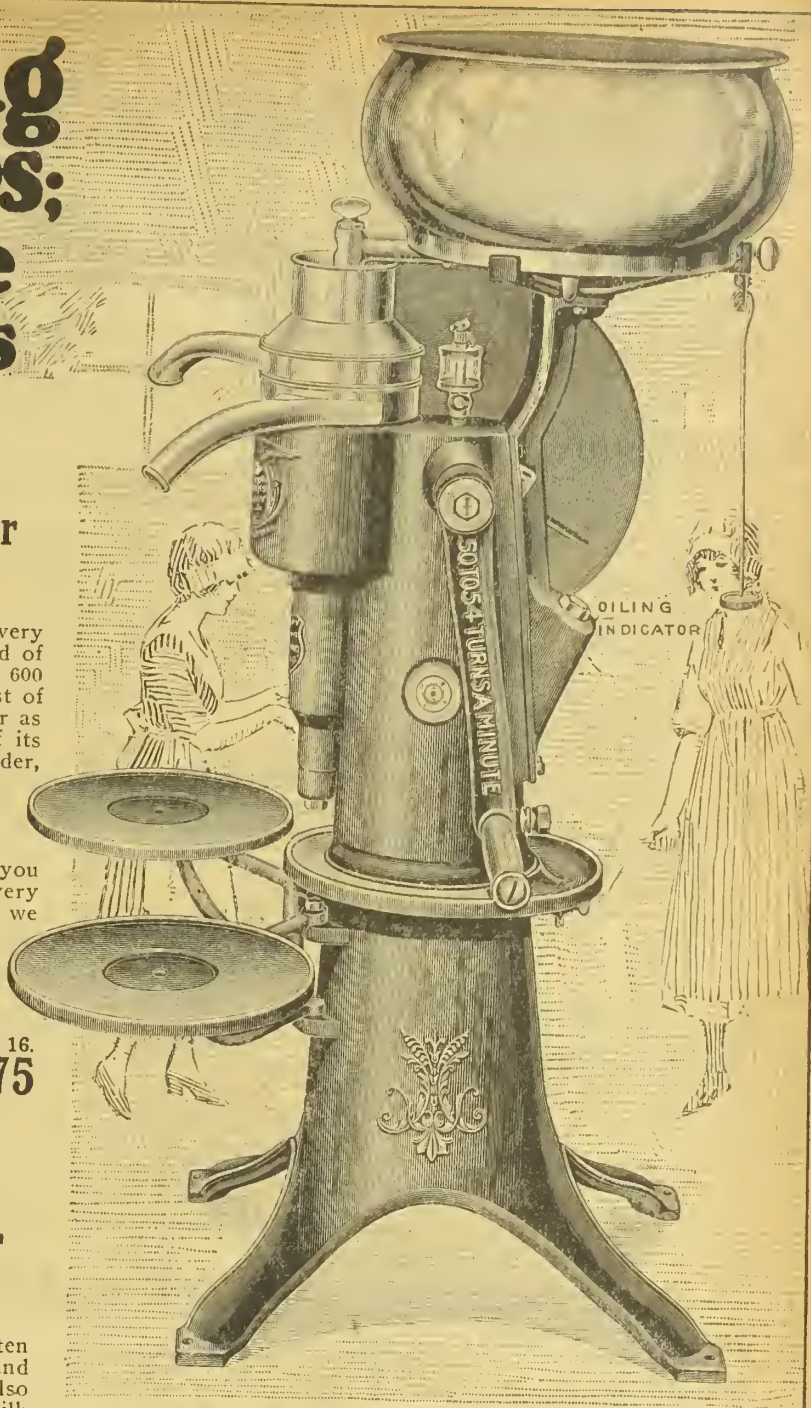
No. 23N384 Economy King Cream Separator with stand. Skimming capacity, 375 pounds of milk an hour. Shipping weight, 190 pounds. Price. **$53.85**

Flexible Power Drive for Nos. 12, 14, 16 and 18 Economy King Separators operated by power is shown on page 1496.

We ship from a nearby warehouse. See page 1493 for freight rates.

IMPORTANT! Be Sure to Read the Handy Post Cards Following Page 4

Fast Skimming Economy Kings; Ideal in Size for Most Dairies



No. 16

Economy King Cream Separator

Skimming Capacity, 600 Pounds
(About 290 Quarts) an Hour.

This is our most popular size and best for all but very large or very small dairies. If you are milking a herd of any size of from three to twelve or fifteen cows, this 600 pounds per hour Economy King will give you the best of satisfaction. It is almost as easy to clean and care for as the smaller sizes, runs about as easy, and because of its big capacity skims any ordinary milking in short order, saving time and labor daily. It is extra sturdy and substantial, with heavy non-weaving frame, large diameter shafting and ample bearing surfaces, so that with ordinary care there is almost no wear out to it.

We fully guarantee this Economy King and allow you ten full weeks for trial. We ask you to put it to every test and prove to your satisfaction that every claim we make for it is true and justified. This separator is equipped with our new crank speed timer, which enables you to turn the crank at just the right speed to insure perfect skimming and uniform cream. Send us your trial order today.

No. 23N386 Economy King Cream Separator No. 16. Skimming capacity, 600 pounds of milk an hour. Shipping weight, 240 pounds. Price..... **$63.75**

No. 18

Economy King Cream Separator

Skimming Capacity, 800 Pounds
(About 390 Quarts) an Hour.

This is the size we recommend for dairies of from ten or twelve to fifty cows or more. Owners of medium and large size herds will find it just what they need. It is also especially adapted for use with power, and for city milk dealers and ice cream makers who must separate large quantities of milk without loss of time.

This big, fast skimming machine takes practically all the cream from the milk and delivers it in splendid condition. You will find it a time saver and money maker from the day you start to use it. This separator is equipped with our new crank speed timer, which enables you to turn the crank at just the right speed to insure perfect skimming and uniform cream. Order on ten weeks' trial and let it prove its worth to you in your own dairy.

No. 23N388 Economy King Cream Separator No. 18. Skimming capacity, 800 pounds of milk an hour. Shipping weight, 255 pounds.
Price..... **$69.80**

WAREHOUSE SHIPMENTS. We will ship your cream separator from a warehouse near your own town, insuring quick delivery and very low freight charges. We have warehouse stocks at Fargo, N. Dak.; St. Paul, Minn.; Sioux Falls, S. Dak.; Waterloo, Iowa; Omaha, Neb.; Kansas City, Mo.; Chicago, Ill.; Grand Rapids, Mich.; Columbus, Ohio; Buffalo, N. Y., and Albany, N. Y. Be sure to send your order direct to SEARS, ROEBUCK AND CO., CHICAGO, ILL., and we will ship from our nearest warehouse stock.

Flexible Power Drive for Nos. 12, 14, 16 and 18 Economy King Separators operated by power is shown on page 1496.

Don't Make the Mistake of Buying Too Small a Size

Experienced users of cream separators always buy machines of large capacity, because they well know the many advantages of a separator that will skim any milking, large or small, in quick time.

The larger sizes at skimming speed run almost as easily as the smaller sizes and do any skimming in about one-half the time. The 600-pound capacity size listed on this page skims a milk pailful in about two minutes, while to skim the same amount with the 250-pound size will require nearly five minutes. A proportionate saving of time and labor for larger skimmings twice daily during all the years you use the separator is, of course, a wonderful advantage, and well worth many times the difference in price.

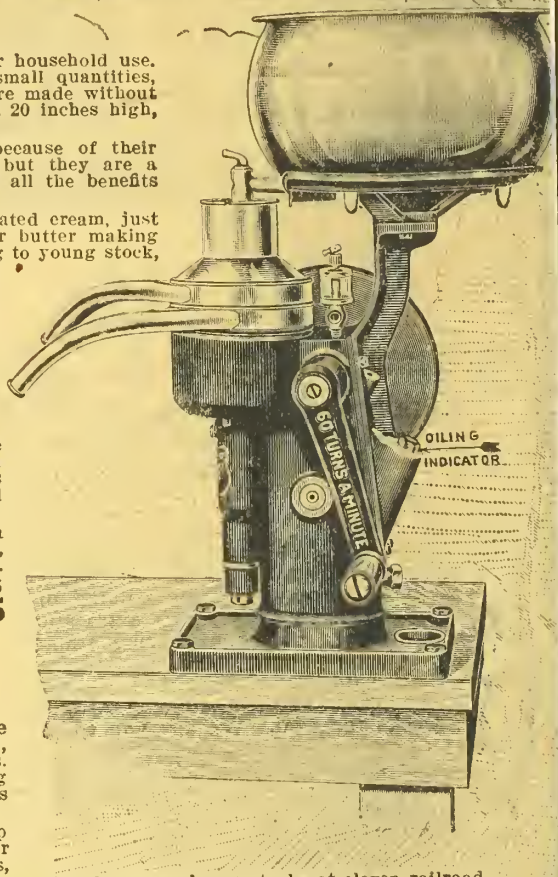
Do not make the mistake of selecting a separator that will prove too small in future years, in case you increase the size of your dairy. A big capacity, fast skimming machine is always best.

Table Separators for Very Small Dairies

ECONOMY KING CREAM SEPARATORS in the table sizes are just the thing for household use. They are fine, too, for milk dealers who have calls for pure, sweet cream in small quantities, and for hotels, boarding houses, cafes and Summer resorts. These table sizes are made without the base or stand and are inteuded to be bolted to a small bench or table about 20 inches high, to be supplied by the user.

They are not intended to take the place of our regular dairy machines, and because of their small capacity we do not recommend their use for dairies of four cows or more, but they are a great advantage to the owner of from one to three cows and give him in his home all the benefits of a large dairy or creamery.

They skim milk in any quantity from 1 quart up; give you a sweet, pure, aerated cream, just as light or heavy as you want it and in perfect condition for table use, to ripen for butter making or to sell. They also supply sweet skim milk for household purposes or for feeding to young stock, and in addition take away the hardest and most disagreeable part of the dairy work. These small machines are made with the same care and accuracy as our larger sizes and have the same improvements and conveniences, but are not supplied with crank speed timer. Every one is seut out on ten weeks' trial, and we guarantee complete satisfaction.



No. 10 Economy King Cream Separator

Skimming Capacity, 135 Pounds (about 65 quarts) an Hour.

This is the smallest cream separator we make and skims at the rate of a trifle over a quart a minute. Because of its small capacity we recommend its use in households where only one or two cows are milked and the quantity to be skimmed is always small. In most cases it is best to buy the larger capacity table machine listed below, as it saves time with every skimming.

These small sizes are not supplied with a stand and are intended to be bolted to a low bench to be furnished by the user. They have our improved splash oiling system, sanitary, loose disc bowls, and in material and finish are equal to our larger machines.

No. 23N380 Economy King Cream Separator No. 10. Skimming capacity, 135 pounds of milk an hour. Shipping weight, 90 pounds. Price..... **$26.75**

No. 11 Economy King Cream Separator

Skimming Capacity, 200 Pounds (about 95 quarts) an Hour.

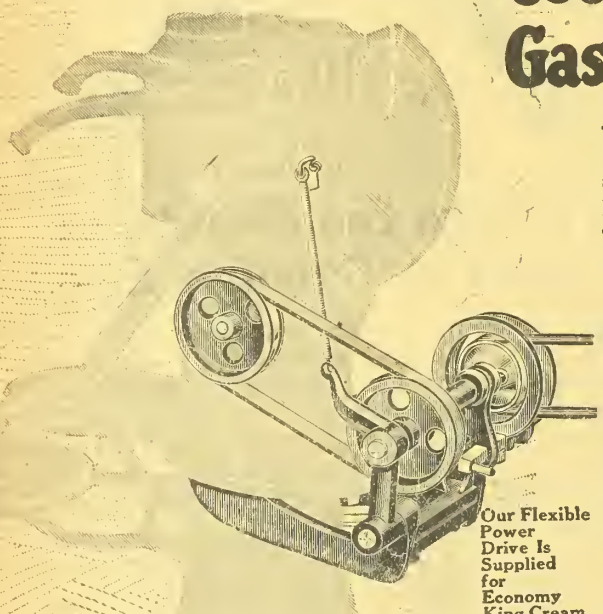
For home dairies of from one to three cows, this is the size we always advise buyiug. Before ordering, however, be sure to figure on future additions to your herd, which might make the purchase of one of our regular dairy machines advantageous. These sturdy little machines are built with greatest care. There is absolutely nothing cheap about them, and they are as finely finished and have the same improvements and conveniences as the highest priced separators we offer.

They skim closely, run very easily, are of sanitary construction and easy to keep clean. In your dairy one of these small separators will insure pure, sweet cream for table use or butter making, and sweet skim milk for cooking, preparing desserts, making prepared buttermilk and other uses. You will find it a great convenience.

No. 23N381 Economy King Cream Separator No. 11. Skimming capacity, 200 pounds of milk an hour. Not supplied with stand. Shipping weight, 100 lbs. Price..... **$31.60**

We have warehouse stocks at eleven railroad centers and can make very quick delivery to almost any point. See page 1493 for warehouse stocks and freight rates.

Use Our Flexible Power Drive With Gasoline Engine or Other Power



Our Flexible Power Drive Is Supplied for Economy King Cream Separators in the Dairy Sizes Only.

WHEN our cream separators are to be operated by any form of power, either through a countershaft or direct, it is always advisable to use our Flexible Power Drive. If a gasoline engine is directly connected to the separator by means of a belt and the ordinary solid pulley, the continual shock and jar of the engine explosions put an undue strain on the gearing, causing the shafts, bearings and gears to wear rapidly and necessitating frequent and expensive repairs.

Our Flexible Power Drive prevents this by absorbing these explosion shocks and delivering a smooth, steady flow of power to the separator, so that it is under even less strain than with hand operation. It consists of a yoke fitting the base below the drip shelf. To this yoke is attached a rocker arm provided with a shaft consisting of a highly tempered, closely coiled steel spring. On one end are mounted the usual tight and loose pulleys for belting to the source of power and on the other end a single pulley connected by a short belt to a pulley mounted on an extension of the pinion shaft.

When the power is applied suddeuly the rocker arm swings inward, permitting the belt to slip and applying the power to the separator gearing gradually, bringing it up to skimming speed in two or three minutes without shock or undue strain. The sudden impulses due to the engine explosions are absorbed by the coiled steel spring shaft, which delivers the power in a smooth, even flow. In case of the sudden stoppage of the engine, a ratchet in the pulleys permits the separator to run unchecked until it runs down. Diameter of driviug pulley to be belted to source of power is 3¾ inches and a belt 1 inch wide should be used. Our Flexible Power Drive is shipped complete, with special extended pinion shaft to replace the regular shaft used for hand operation. Shipping weight, 50 pounds.

No. 23N772 Flexible Power Drive for Nos. 12 aud 14 Economy King. Price..... **$10.40**

No. 23N776 Flexible Power Drive for Nos. 16 aud 18 Economy Kiug. Price..... **10.60**

The 3¾-inch driving pulley on the flexible power drive should run at the following speeds: For Nos. 12 and 14 Economy King, 707 turns a minute; for No. 16 Economy King, 645 to 696 turns a minute; for No. 18 Economy King, 619 to 671 turus a minute.

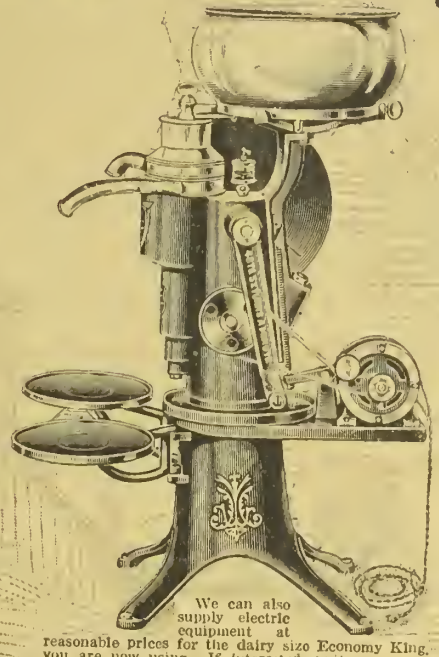
Pages 925, 926 and 927 Tell You How to Figure Transportation Charges.

Electric Driven Separators

WE SUPPLY Economy King Cream Separators in the dairy sizes equipped with electric motors for operation with any form of electric power. If you have a home electric lighting plant, or can purchase electric current, this is one of the most satisfactory and economical methods of operating a cream separator.

Our electrically operated separators are provided with special heavy duty motors especially adapted to stand the heavy starting load. The motors are mounted on a bracket below the drip shelf and drive the separator through an endless belt connecting with a pulley mounted on an extension of the pinion shaft. They do not in any way interfere with hand operation, and if the power is off the belt can be slipped off the pulley and separating done by turning the hand crank.

In ordering give voltage and say whether you have direct or alternating current. If alternating current is used, find out from your electric company whether single phase, two-phase or three-phase, and the number of cycles, or frequencies. If different from those listed herewith, send us full information and we will quote special prices. Electrically equipped separators are **shipped from BUFFALO, N. Y., and CHICAGO, ILL., only.**



We can also supply electric equipment at reasonable prices for the dairy size Economy King you are now using. If interested, write us.

Electric Drive Economy King Cream Separators

110 or 220-Volt Direct Current.

Electric Drive Separator, complete with 110 or 220-volt DIRECT current motor and 10 feet of cord, with attachment plug for lamp socket.

No. 23N382 Skimming capacity, 250 lbs. an hour. Price **$88.85**

No. 23N384 Skimming capacity, 375 lbs. an hour. Price **$98.95**

No. 23N386 Skimming capacity, 600 lbs. an hour. Price **$108.90**

No. 23N388 Skimming capacity, 800 lbs. an hour. Price **$114.95**

110 or 220-Volt Alternating Current.

Electric Drive Separator, complete with 110 or 220-volt, 60-cycle ALTERNATING current motor and 10 feet of cord, with attachment plug for lamp socket.

No. 23N382 Skimming capacity, 250 lbs. an hour. Price **$103.90**

No. 23N384 Skimming capacity, 375 lbs. an hour. Price **$114.00**

No. 23N386 Skimming capacity, 600 lbs. an hour. Price **$124.00**

No. 23N388 Skimming capacity, 800 lbs. an hour. Price **$129.95**

32-Volt Direct Current.

Electric Drive Separator, complete with 32-volt DIRECT current motor, knife switch, fuse plugs and 40 feet of insulated wire (price of extra wire if wanted, 3 cents per foot).

No. 23N382 Skimming capacity, 250 lbs. an hour. Price **$90.15**

No. 23N384 Skimming capacity, 375 lbs. an hour. Price **$100.25**

No. 23N386 Skimming capacity, 600 lbs. an hour. Price **$114.35**

No. 23N388 Skimming capacity, 800 lbs. an hour. Price **$120.40**

Average shipping weights as follows: No. 23N382, 235 pounds; No. 23N384, 250 pounds; No. 23N386, 300 pounds; No. 23N388, 315 pounds.

Separator Repairs and Accessories

WE AIM to carry in stock, both in Chicago and at the factory, repair parts for every Economy King Cream Separator that we now list or ever have sold. We furnish these parts to our customers at reasonable prices and ship very promptly. Should any part of your Economy King be accidentally broken, or need replacing through natural wear after long use, we can quickly supply you with a new part that will fit exactly, as all Economy parts are true to size and interchangeable.

We guarantee every Economy King against flaws or breakages resulting from faulty workmanship or material, and under our guarantee make no charge for replacing such parts. This guarantee of ours is a very real thing, and it absolutely protects you from faults due to defective workmanship and material during the entire life of the machine.

Rubber Bowl Rings to Fit Any Size Improved Economy or Economy Chief Cream Separators.

Catalog No.	Size No.	Price, per Package of 6 Rings	Shipping Weight, 6 Rings	Price, per Package of 12 Rings	Shipping Weight, 12 Rings

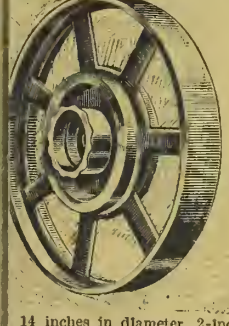
We sell Rubber Bowl Rings only in packages of six or twelve and we do not break packages. Directions for care of rings are printed on every package.

IT PAYS to buy your separator from a house with a reputation for living up to its guarantee—a house with an immense factory of its own, building its separators under the eyes of watchful inspectors and taking every precaution to insure a perfect product. We have sold nearly 600,000 Economy Separators. We are in business to stay, as you know. You may be certain, therefore, that no matter which model you order from us or how long you may use it, you can always secure repair parts promptly and at small prices, or repair parts which come under the terms of our guarantee.

In addition we have a complete repair shop at Chicago, where we are equipped to do bowl balancing, rebuilding and Economy Separator repairing of all kinds, skillfully and at very reasonable prices.



Power Pulleys

Pulleys for use when our cream separators are to be operated by gasoline engine or other power are applied by simply removing the crank and replacing it with the pulley.

Never attempt to belt from gasoline engine direct to these pulleys, as it runs much too fast, and to do so is highly dangerous. Use a countershaft and have the size of the pulleys calculated by some one you know is competent.

No. 23N135 Friction Pulley for Economy King Cream Separators Nos. 10, 11, 2, 4, 12 or 14. Size, 14 inches in diameter, 1½-inch face. Shipping weight, 25 pounds. Price.....$3.05

No. 23N130 Friction Pulley for Economy King Cream Separators Nos. 6, 8, 16 or 18. Size, 14 inches in diameter, 2-inch face. Shipping weight, 30 lbs. Price.....$3.25

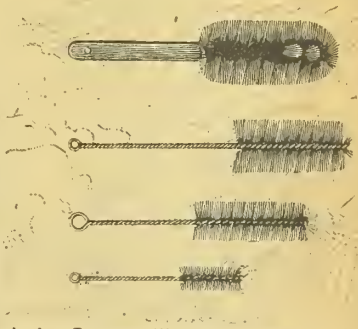
No. 23N128 Friction Pulley for Improved Economy and Economy Chief Cream Separators, all sizes. Size, 14 inches in diameter, 2-inch face. Shipping weight, 30 lbs. Price.....$3.20

No. 23N127 Solid Pulley for Improved Economy and Economy Chief Cream Separators, all sizes. Size, 12 inches in diameter, 2-inch face. Shipping weight, 15 lbs. Price.....$1.65

If pulley is ordered separately always state in your order which size separator it is for. We do not furnish pulleys to fit other cream separators.

Cleaning Brushes

The best brushes we know of for cleaning Economy bowl parts and tinware. Made of extra quality stiff bristle stock.



No. 23N131 Wood Handle Brush for Economy King and Economy Chief. Length, 14 inches. Width across bristles, 2¾ inches. Shipping weight, 8 ounces. Price....22c

No. 23N668 Wire Handle Brush for Economy Chief. Length, 13½ inches. Width across bristles, 2 inches. Shipping weight, 7 ounces. Price.....15c

No. 23N130 Wire Handle Brush for Economy King. Length, 12 inches. Width across bristles, 1½ inches. Shipping wt., 6 ounces. Price.....15c

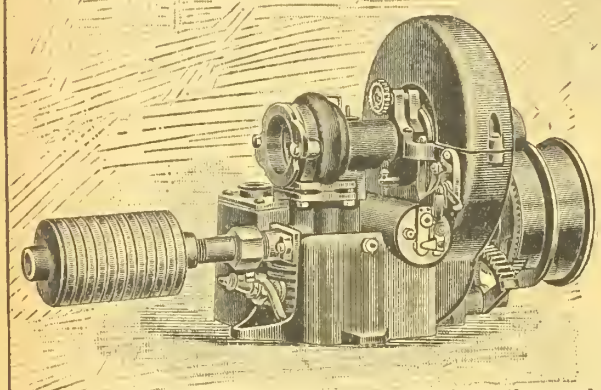
No. 23N669 Small Wire Handle Brush for Economy Chief. Length, 8½ inches. Width across bristles, ⅝ inch. Shipping weight, 2 ounces. Price.....5c

CREAM SEPARATOR SUPPLIES. For prices on other supplies and repairs for Economy Cream Separators see direction booklet furnished with the machine. If you have lost or mislaid your direction booklet, write us, giving the name and bowl number of your separator, and we will gladly send you another direction booklet free of charge.

For Cream Separator Oil See Page 1499.

Run Your Separator by Power



This view of the Little King Engine shows the speed regulating nut, built-in spark coil and inverted cylinder.

Here is the new and easy way to run your Economy King Cream Separator—easy on the separator and easy on you; and yet costs so little to operate that it will not pay you to waste your time and energy in turning a hand crank any more.

There is plenty of work on the farm for everybody, and anything that saves time or labor is welcome. You can operate your Economy King Cream Separator by hand just as you perhaps do now and countless thousands of other users are doing, but why not let the Little King Power Outfit do this work for you? You do not need the exercise and you cannot afford to turn a separator crank for but a few cents an hour. This is the total cost of operating the Little King.

The Little King Power Outfit is simple and safe. It starts with just a pressure on the foot pedal and does the work of a strong man.

The Little King Engine has plenty of power to pull an Economy King Cream Separator of any size up to speed and maintain that speed indefinitely. It will, in addition, operate a churn or a family washing machine; also a fanning mill, corn sheller, pump, grinding and other machines of medium or small size. It can be used for power sheep shearing outfits, horse clipping machines, spray pumps and other machines, usually run by hand power.

It develops ½ horse-power on an average, and has a 2-inch bore and 2-inch stroke. It weighs complete about 60 pounds, and occupies about a square foot of floor space. It is the only gasoline engine we have ever seen that is specially adapted for women and children to use. It has no hand crank, but is started by simply stepping on the foot pedal. The flywheel and moving parts, except the driving pulley, are enclosed. There are no high tension electrical connections uncovered, and the parts that naturally become heated are out of the way of anyone handling the machine.

With the Little King Power Outfit we supply our patented flexible power drive, described on page 1496, which absorbs the shock and jar of the engine explosions, and applies a smooth, steady flow of power to the separator, so that it is under even less strain than with hand operation.

We also include a multiple enclosed battery, extended pinion shaft for separator and 15 feet of 1-inch leather belt.

Prices of Power Separator Outfits.

No. 23N352 **Little King Engine and Flexible Drive** for any No. 2, 4, 12 or 14 Economy King Cream Separator. This outfit is complete, except separator, and consists of patented flexible power drive to attach to separator, special extended pinion shaft with pulley and endless belt; Little King Engine, with multiple enclosed battery, and 15 feet of 1-inch leather belt. Shpg. wt., 148 lbs. Price..... **$47.25**

No. 23N356 **Little King Engine and Flexible Drive** for any No. 6, 8, 16 or 18 Economy King Cream Separator. Complete outfit, excepting separator, consisting of patented flexible power drive to attach to separator, special extended pinion shaft with pulley and endless belt; Little King Engine, with multiple enclosed battery, and 15 feet of 1-inch leather belt. Shpg. wt., 148 lbs. Price..... **$47.50**

No. 23N362 **Complete Separator Power Outfit**, consisting of our No. 12 Economy King Cream Separator, with a skimming capacity of 250 pounds, or 120 quarts, of milk an hour. This has the latest improved type of sanitary loose disc bowl, detachable spindle, oil-splash lubrication and all the new features. Little King Engine, with multiple enclosed battery, flexible power drive, extended pinion shaft, pulley and endless belt; also 15 feet of leather belt to connect engine to separator. Shpg. wt., 325 lbs. Price..... **$91.15**

No. 23N364 **Complete Separator Power Outfit**, consisting of our No. 14 Economy King Separator, skimming capacity, 375 pounds, or about 180 quarts, of milk an hour. This is our latest 1918 pattern machine, with all the new features and improvements. Little King Engine, with multiple enclosed battery, flexible power drive, extended pinion shaft, pulley and endless belt; also 15 ft. of leather belt to connect engine to separator. Shpg. wt., 340 lbs. Price. **$100.85**

No. 23N366 **Complete Separator Power Outfit**, consisting of our No. 16 Economy King Cream Separator, skimming capacity, 600 pounds, or about 290 quarts, of milk an hour. This is our most popular size, adapted for any herd of from three to twelve or fifteen cows, and has all the new improvements and conveniences. Little King Engine, with multiple enclosed battery, flexible power drive, extended pinion shaft, pulley and endless belt; also 15 feet of leather belt to connect engine to separator included in this outfit. Shipping weight, 390 pounds. Price..... **$111.15**

No. 23N368 **Complete Separator Power Outfit**, consisting of our No. 18 Economy King Cream Separator, skimming capacity, 800 pounds, or about 390 quarts, of milk an hour. This is our largest size and we recommend it for dairies of from ten or twelve to fifty cows or more; fully guaranteed. Little King Engine, with multiple enclosed battery, flexible power drive, extended pinion shaft, pulley, endless belt and 15 feet of leather belt to connect engine and separator. Shipping weight, 410 pounds. Price..... **$117.20**

After a big day's work in the field, in the heat of an oppressive Summer evening, or in the busy planting and harvest seasons when every minute counts, you will appreciate this Little King Power Outfit for your Economy King Cream Separator the most, but you will also find it a comfort and joy every time you skim a milking.

Our prices for the Little King Power Outfit, complete with the Economy King Cream Separator and patented Flexible Power Drive, are attractively low. Take advantage of this liberal offer and send us your order for a power outfit, with or without the Economy King Cream Separator, and start now to skim with power in the pleasant, up to date and modern way.

No. 23N11 **Flexible Exhaust Tube.** If engine is operated in a room or enclosed space, the exhaust must be piped to the outside. Ordinary ¾-inch iron gas pipe can be used for this purpose. This exhaust tube, however, is often more convenient, as it is easily bent and can be carried around corners, etc. It has a flexible wound galvanized steel covering and non-combustible lining. Inside diameter, about ¾ inch. Shipping weight, ⅜ pound per foot.
Price, per foot..... **25c**

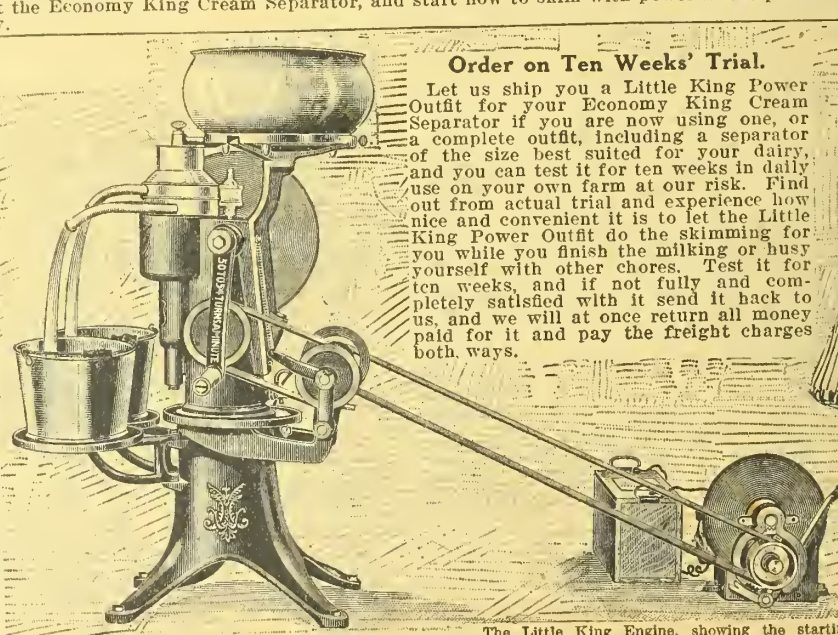
No. 23N15 **Leather Belting.** We supply 15 feet of belting with each outfit, but if it is desired to increase the distance between engine and separator, or to belt to other machinery, can furnish extra 1-inch leather belt at. per foot..... **11c**
Shipping weight, 1 oz. per foot.

No. 23N17 **Extra Pulley.** The Little King Engine is regularly supplied with a 6-inch flanged pulley, but we can furnish 2½-inch, 4-inch or 8-inch pulley for operating other machinery. **In ordering state which size is wanted.**
Shipping wts., 2 to 5 lbs.
Price, each..... **80c**

Power Separator Outfits are shipped from CHICAGO.

Order on Ten Weeks' Trial.

Let us ship you a Little King Power Outfit for your Economy King Cream Separator if you are now using one, or a complete outfit, including a separator of the size best suited for your dairy, and you can test it for ten weeks in daily use on your own farm at our risk. Find out from actual trial and experience how nice and convenient it is to let the Little King Power Outfit do the skimming for you while you finish the milking or busy yourself with other chores. Test it for ten weeks, and if not fully and completely satisfied with it send it back to us, and we will at once return all money paid for it and pay the freight charges both ways.



The Little King Engine, showing the starting pedal and geared driving pulley. Note that the flywheel and other moving parts, except the driving pulley, are enclosed and protected.

Read This. Because of the uncertainty of the oil market we cannot guarantee the prices in this catalog for any stated period. Therefore, we must reserve the privilege of changing our oil prices without notice in accordance with the market changes. In the future as in the past we will save you money. There is a few cents difference in the price per gallon of oil in the various containers. This difference is due to the cost of putting up and handling as well as the difference in price charged us for the empty cans and barrels.

Separator Oil

For Hand Power Machines That Are Kept in Unheated Rooms.

This oil is especially made for use in machines that are operated in unheated rooms at a temperature below 40 degrees Fahrenheit. It is a very light bodied oil and, since it carries very little lubricating matter, it should only be used for the purpose for which it is intended. Manufacturers of cream separators usually send this grade of oil with new cream separators. We recommend that the cream separator be kept in a warm room so that our best grade separator oil (No. 30N3354) may be used. It will save the bearings of the machine and reduce your repair bills. For weights see bottom of page.

Separator Oil

Cream Separator Oil for Hand Power Machines.

A fine white oil which will not gum. This oil is guaranteed to eatisfactorily lubricate the bearings of any make cream separator, saving power and reducing friction. It possesses every requirement of a high grade lubricant. Recommended for use in machines that are kept in moderately warm rooms where the temperature does not drop below 40 degrees. Keep your cream separator in a warm room and use this oil. It will save the bearings of your machine and reduce your repair bills.

Tractor Oil

Regardless of the make of your tractor engine, this oil will prove your insurance against friction. The heat generated in the cylinders of the kerosene or distillate tractor is enormous. It therefore requires an oil which will not break down under the highest temperatures, but which will retain its lubricating efficiency, maintaining a friction proof film between moving parts, protecting them from wear and giving you the utmost power from your engine.

We recommend this Tractor Oil as possessing every requirement of a high grade lubricant. By passing an exceptionally high fire test it insures lubrication, even under the highest temperatures, saves power, reduces friction and lengthens the life of your engine. Our guarantee of satisfaction or money returned assures you that it will do all we claim for it. In all our practical and laboratory tests we have not found an oil which could be recommended so highly as the grade which we are listing. For shipping weights see bottom of this page.

Steam Cylinder Oil

The following Cylinder Oils are made from Pennsylvania Premium Crude. This crude is settled before distilling and refiltered after distilling, doing away with all foreign matter. The tests of these oils, such as fire, flash, viscosity and gravity, are unexcelled.

High Test Cylinder Oil. Made from fine stock. Amber in color. May be used in any engine; high or low steam pressure. For weights see bottom of page.

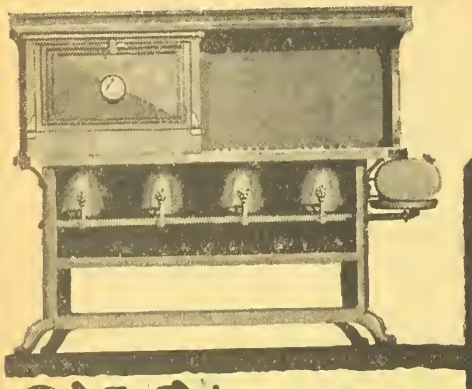
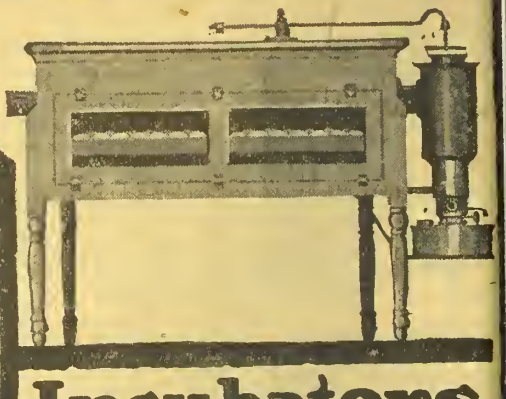
KEROSENE





Oil Stoves

Tractors

Incubators

High Grade Kerosene in Wood Barrels.

Our High Grade Kerosene is a pure water-white liquid refined from a high grade oil produced in Pennsylvania, free from impurities. It will not incrust the asbestos ring in an oil stove nor spoil the lamp and incubator wicks. Operators of incubators realize that without an even temperature it would be impossible to secure a successful hatch, and an even temperature cannot be obtained except with a good grade of oil. Our kerosene burns with a steady white flame and you do not have to trim the wicks often. For oil stoves this kerosene will produce the maximum amount of heat and the rooms will be free from disagreeable odor. When used in house lamps it will give an even light with very little wick and soot trouble. Once a week is often enough to clean lamp chimneys when using this kerosene, and the wicks need very little attention.

No. 30N3300 50-gallon wood barrel High Grade Kerosene. Shipping weight, 430 pounds. Shipped from factory in NORTHEASTERN ILLINOIS.

Price, per gallon.....27c

You will find this grade of kerosene ideal for use in tractors and kerosene stoves, as well as for use in incubators. The price is very low considering the exceptionally high quality, because it contains a maximum of heat units—the units by which gasoline, kerosene and all fuel oils are tested to determine their value as both power and heat producing oils.

High Grade Kerosene in Steel Barrels.

Steel barrels are always clean, safe and ready for use. We ship a brass lock faucet attached to the barrel, and a few minutes' work will make the barrel a very handy steel oil tank. On one end of the barrel a large plug is inserted. Unscrew this plug, detach the faucet which is secured on the inside end of the plug and screw back in its original place. Then unscrew the small plug which you will find at the side of the barrel and attach the faucet. Set the barrel on its end on some slight elevation and you have a steel oil tank from which the oil can be taken without dirt, trouble or waste. When the barrel is empty it is not useless like the ordinary wooden barrel, for it can be used for many purposes. After the kerosene is all used, clean the barrel with gasoline and set it high up in your loft or attic. Fill it with water, attach a pipe or hose to the tank and you have an ever ready fire extinguisher with very little labor. It can be set on wheels and used as a water cart.

Shipped from factory in NORTHEASTERN ILLINOIS.

No. 30N3303 Kerosene in Steel Barrels. 15 Gallons High Grade Incubator Oil (Kerosene) in 15-gallon steel barrel. Shipping weight, 125 pounds. Price..... **$5.51**

30 Gallons High Grade Incubator Oil (Kerosene) in 30-gallon steel barrel. Shipping weight, 250 pounds. Price..... **$9.60**

50 Gallons High Grade Incubator Oil (Kerosene) in 50-gallon steel barrel. Shipping weight, 420 lbs. Price..... **$15.00**

Combination Pump.

Can be used equally as well for lubricating oil or kerosene. The detachable spout can be unscrewed to relieve the pressure when transferring heavy oils. All our 60-gallon kerosene tanks are now fitted with this pump and it can be used with any ordinary tank also. The larger mouth enables you to pump the oil out faster and easier, while the small cap can be screwed on when used for pumping kerosene. Shipping weight, each, about 9 pounds.

No. 30N3297 Pump for 30-gallon tank. Length of suction pipe, 20 inches. Price..... **$2.25**

No. 30N3299 Pump for 60-gallon tank. Length of suction pipe, 27½ inches. Price..... **$2.48**

No. 30N3302 Pump for 110-gallon tank. Length of suction pipe, 34 inches. Price..... **$2.78**

Faucets.

No. 30N3275 Brass Lock Faucet, fits ¾-inch opening. This faucet fits our Steel Barrels No. 30N3311, No. 30N3313 and No. 30N3315. Shipping wt., about 1 pound.
Price 78c

No. 30N3277 Brass Lock Faucet, fits 1-inch opening. Shipping weight, about 1 pound.
Price 98c

Empty Steel Barrels. (Without Faucet.)

Painted Red or Black, as Desired.

These barrels are furnished without a faucet because many of our customers prefer to use a pump. The faucets which are usually furnished with steel barrels are too small to be of any service. So rather than include a faucet, we are quoting the barrels, pumps and faucets separately, so that should you prefer a faucet to a pump we are prepared to serve you. If faucet is wanted, order No. 30N3275.

Empty Steel Barrel, No.	Capacity, Gallons	Diam., Inches	Height, Inches	Size of Opening for Pump	Gauge	Shpg. Wt., Lbs.	Price, Empty
30N3311	15	16	20	1¾ inches	20	20	$2.44
30N3313	30	19	28	1¾ inches	20	30	4.10
30N3315	50	23	32	1¾ inches	18	50	5.80

Some states have laws making it a misdemeanor with a severe penalty to store or ship gasoline in anything but a red container. It is also unlawful in such states to ship or store any other liquid than gasoline in a red container. We have therefore arranged to supply you with either a red or a black barrel to suit your requirements. In ordering state which color you wish. If no color is stated, black will be furnished.

Tanks With Brass Faucets.

Galvanized Iron Tanks Painted Red for Gasoline Storage.

The 30, 60 and 110-gallon tanks are made of 26-gauge galvanized iron in body and bottom. The 200 and 300-gallon tanks are made of 22-gauge galvanized iron. Wood bottom under metal; have 4-inch screw top and lock faucet. Gasoline cannot be shipped in these tanks, as the railroad companies will not accept them filled. We do not guarantee these tanks against rough usage. If a tank is wanted in which to carry oil, one which must be hauled around in a wagon, we recommend our Barrel No. 30N3315, shown above.

Catalog No.	Capacity, Gallons	Diam., Inches	Height, Inches	Brass Lock Faucet	Shipping Wt., Lbs.	Price
30N3294	30	20	25	½-inch	30	$ 4.72
30N3295	60	26	29	½-inch	50	6.50

30N3286	200	41	37	¾-inch	160	20.74
30N3288	300	50	37	¾-inch	195	25.83

Brass Lock Faucet furnished with each tank. The 200 and 300-gallon tanks are shipped from factory in NORTHEASTERN ILLINOIS.

Kerosene Tanks.

For Kerosene or Lubricating Oils.

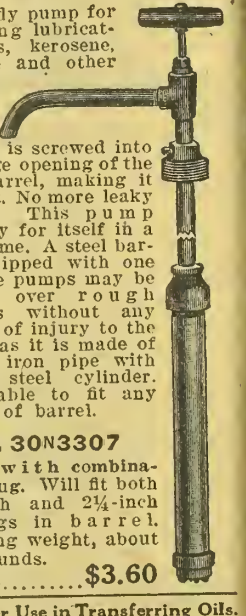
Our Kerosene Tanks are made of guaranteed quality 26-gauge galvanized iron in body and bottom; wood bottom under metal, tin hood, and fitted with our new combination pump which can be taken out of tank and used for pumping kerosene from barrel into tank. All tanks are painted green and securely crated. The prices below do not include kerosene. We cannot ship kerosene in these tanks as the railroad companies will not accept them filled.

No. 30N3290 Capacity, 30 gallons; diameter, 23 inches; height, 27 inches. Shipping weight, 35 pounds. Price..... **$6.30**

No. 30N3291 Capacity, 60 gallons; diameter, 26 inches; height, 32 inches. Shipping weight, 50 pounds. Price..... **$7.80**

No. 30N3292 Capacity, 110 gallons; diameter, 31 inches; height, 37 inches. Shipping weight, 65 pounds. Price..... **$10.35**

Steel Barrel Pump.



A handy pump for pumping lubricating oils, kerosene, gasoline and other oils from steel barrels. It is screwed into the large opening of the steel barrel, making it airtight. No more leaky faucets. This pump will pay for itself in a short time. A steel barrel equipped with one of these pumps may be hauled over rough roads without any danger of injury to the pump, as it is made of strong iron pipe with heavy steel cylinder. Adjustable to fit any height of barrel.

No. 30N3307
Pump with combination plug. Will fit both 1¾-inch and 2¼-inch openings in barrel. Shipping weight, about 7½ pounds.
Price..... **$3.60**

Hose for Use in Transferring Oils.

It oftentimes happens that much time and many steps can be saved by using a hose to transfer oil instead of using a bucket. Especially where the supply tank can be drawn close to the engine is the use of hose desirable. This is a heavy non-collapsible hose sold by the foot. A hose clamp is furnished with each length of hose. The inside size opening of the hose is ¾ inch, outside size opening 1¼ inches. This hose can be used with pump No. 30N3307. We do not cut less than 5-foot lengths.

No. 30N2385 Hose for transferring oils. Shipping weight, per foot, 12 ounces. Price, per foot.....24c

Heavy Duty Double Back Geared Jack for Operating Wells Up to 300 Feet Deep.

Used with an engine to run the pump. tra heavy. Suitable for wells up to 300 t deep. Double back geared, 1 to 6⅞.

Attaches to the pump standard with clamp, d to the pump platform by two cast iron ndards with babbitted bearings. It is fitted th 13x2¼-inch tight and loose pulleys. eed, 275 revolutions per minute. Stroke justable to 5, 7½ or 9¾ inches.

Pump rods adjustable to any height of wind-ll pumps. Price does not include pump. ipped from factory near CHICAGO.

PRICE.

No. 47N339 Pump Jack. Weight, about pounds. Price..... $8.65

SPEED GOVERNING LINE SHAFT.

It is more economical to run several machines at the same time than to run each one separately. By putting in a line shaft, as shown above, and connecting several machines, you can run them all at the same time with one engine, or you can run each machine separately. The illustration at the top of this page shows how this can be done. The line shaft used is the 12-foot outfit described below, and is complete. Mounted on a heavy wood plank, so that all you have to do is fasten the plank to the ceiling or side wall and connect the belts.

DESCRIPTION OF SPEED GOVERNING LINE SHAFT OUTFIT.

Complete line shaft outfit with speed governor and clutch control to run the Cream Separator, Churn, Washing Machine, Pump Jack or any small machine. Can be used with any engine up to 5 horse-power, as speed governor takes care of variation in speed and size of engine pulley.

A special adjustment on the speed governor regulates the speed of the line shaft, and can be set permanently for any desired speed, or the speed can be increased or decreased, as desired, according to the requirements of your machines. Governor also acts as a clutch. Turn wheel to the left to stop machines or to the right to start them gradually.

8-FOOT OUTFIT

Consists of an 8-foot shaft, the speed governor, one 4-inch, one 6-inch, two 8-inch pulleys and two hangers, mounted on 8-foot wood base.

12-FOOT OUTFIT

Consists of a 12-foot shaft, the speed governor, one 4-inch, two 6-inch, three 8-inch pulleys, and three hangers mounted on 12-foot wood base. Hangers on both 8 and 12-foot outfits are provided with grease cups for lubrication.

BELTING.

Belt furnished in 50-foot lengths from warehouses at prices shown below. If you buy the 8-foot outfit, one 50-foot roll of belting will be enough. If you buy the 12-foot outfit, you should get two of the 50-foot rolls.

SHIPPED FROM CITY NEAR YOU.

We carry these Line Shaft Outfits and Belting in a warehouse at the following cities, from which point we can make immediate shipment. **You pay freight only from the city nearest you.**

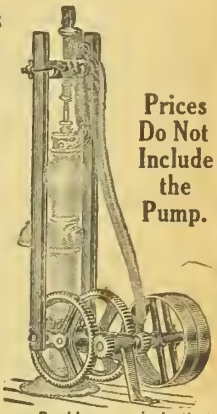
Pump Jacks

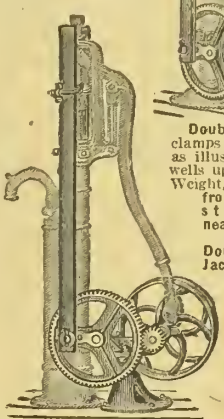
The jacks shown below are used with a gasoline engine to run the pump. They fasten to the pump platform or to the pump itself. They are back geared, 4 to 1, having three strokes, 4½, 7 and 9½ inches, with two 13-inch pulleys, 2¼-inch crown face, one tight, the other loose; speed, 160 revolutions per minute, operates pump 40 strokes a minute.

Prices Do Not Include the Pump.



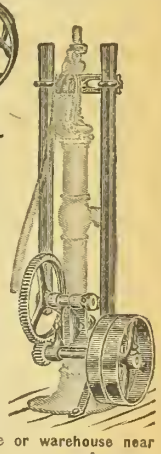
Double gear jack that clamps to base of pump, as illustrated, for use on wells up to 300 feet deep. Weight, 90 lbs. **Shipped from our CHICAGO store or warehouse near you.**

No. 47N337 Double Gear Jack. Price. $6.25



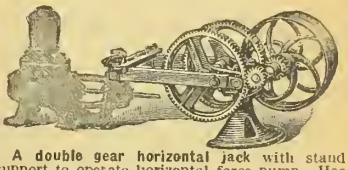
Double gear jack with stand for three-way pumps, or where it is impossible to fasten jack to the pump, or it can be used as **overhead jack.** For wells up to 300 feet deep. Weight, 95 pounds. **Shipped from warehouse near you or from our CHICAGO store.**

No. 47N304 Double Gear Stand or Overhead Jack. Price..... $6.50



Single gear jack that clamps to base of pump, as illustrated, for use on wells up to 200 feet deep. Weight, 74 lbs. **Shipped from our CHICAGO store or warehouse near you.**

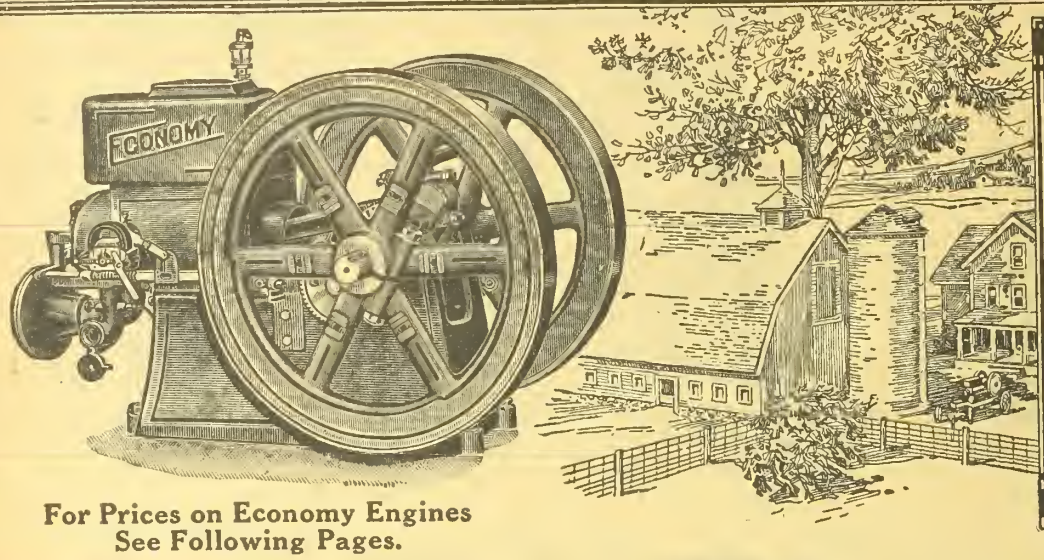
No. 47N303 Single Gear Jack. Price..... $5.40



A double gear horizontal jack with stand support to operate horizontal force pump. Has clamp for attaching to pump handle. Weight, 95 pounds. **Shipped from warehouse near you or from our CHICAGO store.**

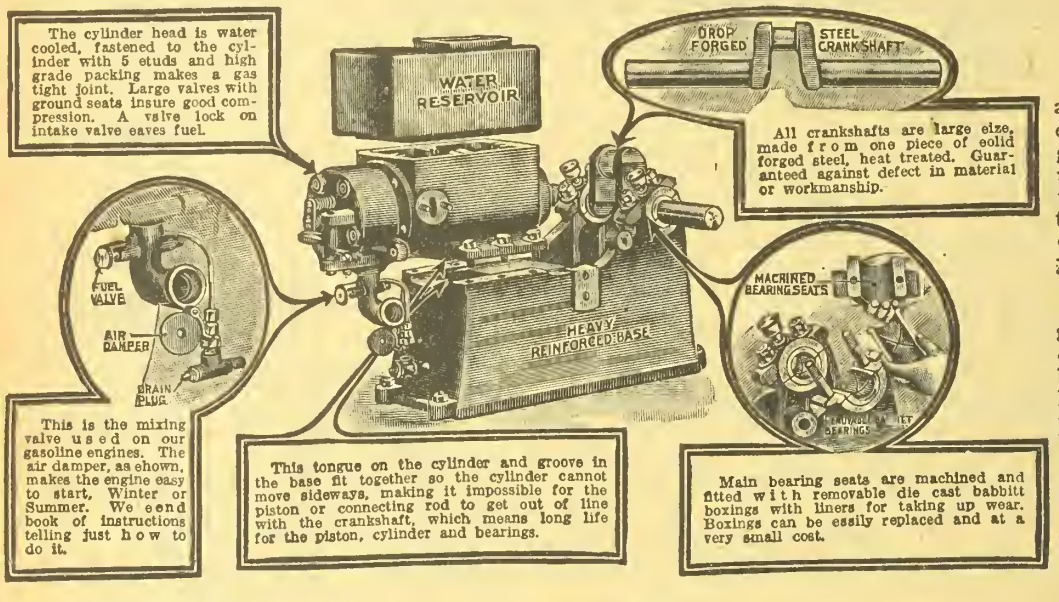
No. 47N310 Double Gear Horizontal Pump Jack. Price..... $6.50

Economy Gasoline Engines



Equipped with Webster Magneto Furnishing A big hot spark on one turn of the fly wheel winter or summer No batteries needed

For Prices on Economy Engines See Following Pages.



The cylinder head is water cooled, fastened to the cylinder with 5 studs and high grade packing makes a gas tight joint. Large valves with ground seats insure good compression. A valve lock on intake valve saves fuel.

All crankshafts are large size, made from one piece of solid forged steel, heat treated. Guaranteed against defect in material or workmanship.

This is the mixing valve used on our gasoline engines. The air damper, as shown, makes the engine easy to start, Winter or Summer. We send book of instructions telling just how to do it.

This tongue on the cylinder and groove in the base fit together so the cylinder cannot move sideways, making it impossible for the piston or connecting rod to get out of line with the crankshaft, which means long life for the piston, cylinder and bearings.

Main bearing seats are machined and fitted with removable die cast babbitt boxings with liners for taking up wear. Boxings can be easily replaced and at a very small cost.

ECONOMY ENGINES ARE BUILT TO LAST.

Economy Engines were designed and are built by gasoline engine experts. They are made of high grade materials and are shipped under the guarantee as shown on the inside front cover page of this book, and we replace free of charge at any time any parts that you think are defective.

Economy Engines are built to run continuously day in and day out for years. They have large bearings, large crankshafts and heavy flywheels, a simple, sensitive governor, the high grade Webster Oscillating Magneto, a fuel saving mixing valve and a speed changing lever; in fact, everything to make an easy, smooth running engine that will do your work and do it easily and for a long time.

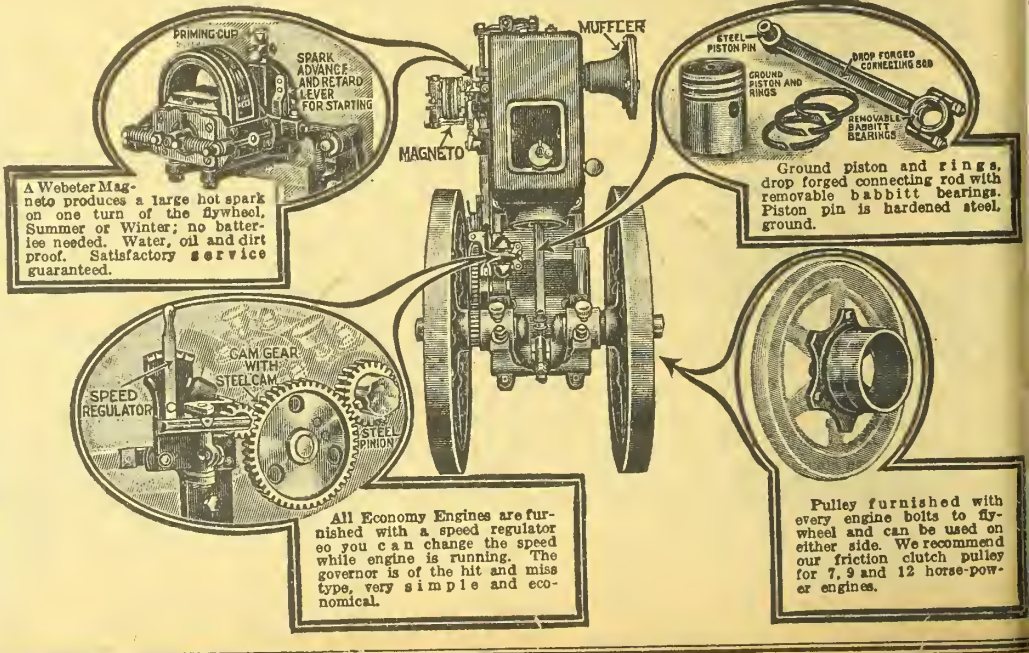
COMPLETE, READY TO RUN.

When you buy an Economy Engine it is set up complete, with fuel tank in the base of the engine and a pulley on the flywheel, so that when the engine reaches you all you have to do is to supply the fuel and follow the simple instructions regarding starting.

Anyone can run an Economy Engine, even though he has never had any experience with an engine, as it is simple in construction, and the book that we send you is very complete, telling just how to start the engine and also how to run it and take care of it.

SHIPPED ON TRIAL.

Send us your order, enclosing our price, and we will ship you an Economy Gasoline Engine; you can use it on your own work as long as you want before you decide to keep it. We guarantee the engine will satisfy you in every way. If, after a thorough trial, you feel that you have not secured full value for the money invested we will either exchange the engine or return your money.



A Webster Magneto produces a large hot spark on one turn of the flywheel, Summer or Winter; no batteries needed. Water, oil and dirt proof. Satisfactory service guaranteed.

Ground piston and rings, drop forged connecting rod with removable babbitt bearings. Piston pin is hardened steel, ground.

All Economy Engines are furnished with a speed regulator so you can change the speed while engine is running. The governor is of the hit and miss type, very simple and economical.

Pulley furnished with every engine bolts to flywheel and can be used on either side. We recommend our friction clutch pulley for 7, 9 and 12 horse-power engines.

Read Pages 925, 926 and 927 About Shipments and Shipping Charges.

Economy Gasoline Engines

More Power

Is the Answer to the Labor Problem

YOU NEED every inch of driving power that you can command NOW. You need all the help you can gather so that your farm may produce the maximum of its capacity. You are asked to do this at a time when good help is scarce.

There is a way to get more power; a way to get more with less physical labor; a way to successfully meet the situation that is confronting you.

With an Economy Gasoline Engine at your command, the most difficult of tasks becomes easy, the most arduous work becomes mechanical, the work of half a dozen men is done easily and quickly with one man.

With man power so scarce and so very expensive when it is obtainable, it is most unwise to use that help when the work can be done cheaply and efficiently with the aid of an Economy Gasoline Engine. Release your man power for work that can't be done mechanically.

Economy Gasoline Engines, illustrated and described on the following pages, represent what we believe to be the most advanced, the most practical and withal the least expensive, value considered, of any on the market.

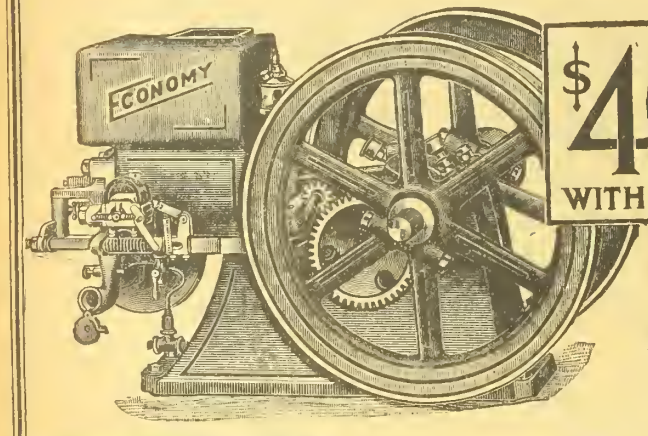
Made in our own factory, under our own supervision, tested and examined by experts, Economy Engines are right. Honestly built, they stand the test of hard usage. They are backed by our guarantee of satisfaction. You may take an Economy Gasoline Engine on your farm and try it for ten days—a month, or as long as is necessary—and if you do not want it, simply return it and we will send you your money, including all transportation charges you paid.

You who are looking for more power, for a way out of the problem of help, for you who appreciate economy, who value time and who believe in increased profits, the wisdom of the early purchase of an Economy Gasoline Engine will be readily evident.

Study the pages that follow and select the engine that would be most suitable for your work.

DO IT NOW!

1½ Horse-Power Gasoline Engine



$46.75 WITH MAGNETO

Economy Engines Are Guaranteed to Give You Satisfactory Service. If, After Giving the Engine a Thorough Trial, You Are Not Satisfied for Any Reason Whatsoever, We Expect You to Return It to Us at Our Expense. We Will Then Exchange It for Exactly What You Want or Return Your Money.

Shipped From Warehouse Near You.

We carry all engines, outfits and equipment shown on this page in a warehouse near you and can ship them at once from any of the following cities at the prices shown:

FARGO, N. DAK.
SIOUX FALLS, S. DAK.
ST. PAUL, MINN.
OMAHA, NEB.

HARRISBURG, PENN.
ALBANY, N. Y.
RICHMOND, VA.
ATLANTA, GA.
LITTLE ROCK, ARK.

Mail your order to Sears, Roebuck and Co., Chicago, Ill., and tell us from which city you would like to have us make shipment and it will go forward at once. You pay freight only from the city nearest you.

Price With Webster Magneto.

No. 47N151 1½ Horse-Power Webster Magneto Equipped Economy Gasoline Engine, with 4x4-Inch Pulley. Shipping weight, about 278 pounds. Price..... **$46.75**

Engine Specifications.

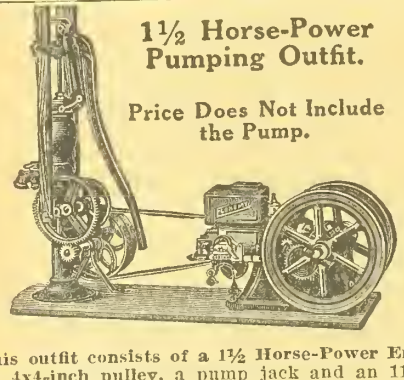
BORE—3¼ inches. STROKE—5 inches. TYPE—Four-cycle, water cooled. IGNITION—Make and break magneto. SPEED—550 revolutions per minute. PULLEY—4x4 inches. FLY-WHEELS—18 inches in diameter; weight, each, 43 pounds. CRANKSHAFT—1¼ inches, drop forged. SPEED REGULATOR gives a wide range in speed without stopping the engine.

How Engine Is Made and What It Will Do.

Our 1½ Horse-Power Engines are high grade in every respect, water cooled, and we guarantee them to give the service you have a right to expect. Made the same as our larger engines, except that the base, cylinder and water hopper are cast in one piece and pulley is attached to crankshaft instead of to the flywheel. The connecting rod is made of malleable iron. Particularly adapted for running light machines, such as the cream separator, churn, washing machine, grindstone, fanning mill, small feed cutter, for pumping water or running a line shaft with two or three of these machines attached. For Line Shaft Outfits, Pump Jacks, etc., see page 1501 or write us for information.

1½ Horse-Power Pumping Outfit.

Price Does Not Include the Pump.



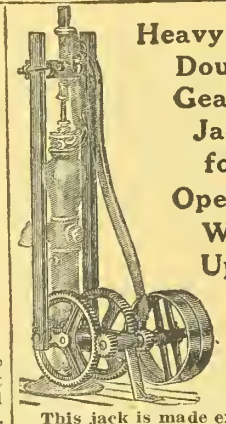
This outfit consists of a 1½ Horse-Power Engine with 4x4-inch pulley, a pump jack and an 11-foot belt, all ready for attaching to pump. Shipped complete from warehouse near you, as stated above. The pump jack clamps to the base of any hand or windmill force pump. Pump can be run with engine or by hand. Jack has 4½, 7 and 9½-inch strokes, running pump forty strokes a minute.

Price With Webster Magneto Equipped Gasoline Engine.

No. 47N15303 1½ Horse-Power Pumping Outfit complete with Single Gear Jack for wells up to 200 feet deep. Shipping weight, about 355 pounds. Price..... **$53.15**

No. 47N15337 1½ Horse-Power Pumping Outfit complete with Double Gear Jack for wells up to 300 feet deep. Shipping weight, about 371 pounds. Price..... **$54.00**

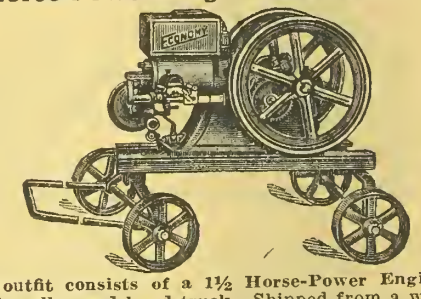
Heavy Duty Double Geared Jack for Operating Wells Up to 300 Feet Deep.



This jack is made extra heavy with double gears. One end clamps around the body of the pump, the other end is supported by a heavy iron brace shown in the illustration. Used to operate wells up to 300 feet deep and can be run with our 1½ horse-power engine as shown above. **Shipped from CHICAGO, or a warehouse near you.** Price does not include pump. Shipping weight, about 90 pounds.

No. 47N337 Heavy Duty Double Geared Jack. Price..... **$6.25**

1½ Horse-Power Engine and Hand Truck.



This outfit consists of a 1½ Horse-Power Engine, with 4x4-inch pulley and hand truck. Shipped from a warehouse near you, as stated above. Truck has steel beams 33 inches long, metal axles 24 inches wide, 9-inch metal wheels with 2-inch tires.

No. 47N1512 1½ Horse-Power Webster Magneto Equipped Economy Gasoline Engine and Hand Truck. Shpg. wt., about 343 lbs. Price..... **$52.75**

Solid Woven Fabric Belt.

This is a solid woven belt, made of fine quality long staple cotton, specially treated. It is not affected by heat or cold, and will always remain pliable. Recommended for inside or outside use. **We carry this belt in the length and size shown below** in a warehouse at cities mentioned above, from which points we can make shipment at once.

PRICES.

No. 47N370 11 Feet of 2-Inch Three-Ply Solid Woven Belt, made endless. To run the pump jack. Weight, about 2 pounds. Price..... **$1.00**

No. 47N323 50 Feet of 2-Inch Three-Ply Solid Woven Belt, with six belt fasteners, for line shaft work. Weight, about 6 lbs. Price..... **4.75**

OMAHA, NEB.
KANSAS CITY, MO.
DAVENPORT, IOWA
MILWAUKEE, WIS.
EVANSVILLE, IND.
GRAND RAPIDS, MICH.
COLUMBUS, OHIO
HARRISBURG, PENN.
ALBANY, N. Y.
RICHMOND, VA.
ATLANTA, GA.
LITTLE ROCK, ARK.

Mail your order to Sears, Roebuck and Co., Chicago, Ill., and tell us from which city you would like to have us make shipment and it will go forward at once. You pay freight only from the city nearest you.

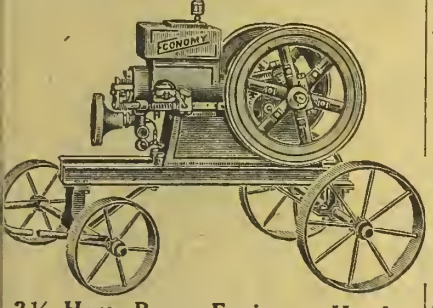
Engine Specifications.

BORE—4 inches. STROKE—6 inches. TYPE—Four-cycle, water cooled. IGNITION—Make and break magneto. SPEED—450 revolutions per minute. FLYWHEELS—22 inches in diameter; weight, each, 88 pounds. CRANKSHAFT—1⅝ inches, drop forged. SPEED REGULATOR gives a wide range in speed without stopping the engine.

What a 2½ Horse-Power Engine Will Do.

A 2½ Horse-Power Engine is just the size you want for running light machinery, such as 10 to 12-inch feed cutters, 4 to 6-inch feed grinders, grindstone, cream separator, washing machine, churn, two-hole corn sheller, fanning mill, bone and vegetable cutter, 5-inch cane mill, 18 or 20-inch cut-off saw, 8 or 10-inch rip saw, sheep shearing machines, small lathes, drill presses; for running the pump, electric light plant, pneumatic water system, etc.

It is more economical to run several machines at the same time than to run each one separately. This engine is particularly adapted for light line shaft work. By putting in an outfit as shown above you can run several machines at the same time or each machine separately. Write and tell us what machines you have or the ones you would like to buy and we will tell you just what you need to get the best results. This information is free of charge and you do not have to buy your machinery or the engine from us unless you want to.



2½ Horse-Power Engine on Hand Truck.

Truck has 3-inch steel channel beams, 4 feet 4 inches long; 1⅜-inch solid steel axles. Steel wheels, 14 inches front, 20 inches rear, with 2½-inch tires. Width of truck, 30 inches; front wheels turn under.

PRICE

Prices, Engine Equipped With Webster Magneto.

No. 47N51 5 Horse-Power Gasoline Engine with 12x6-Inch Pulley. Shipping weight, about 861 pounds. Price..... **$119.75**

No. 47N517 5 Horse-Power Gasoline Engine with 12x6-Inch Pulley, on Truck with Pole. Shipping weight, about 1,448 pounds. Price..... **169.75**

No. 47N517A Tilting Table Saw Rig with 5 Horse-Power Gasoline Engine; 12x6-Inch Pulley; 26-Inch Saw. Shpg. wt., abt. 1,698 lbs. Price... **212.25**

ENGINE SPECIFICATIONS.

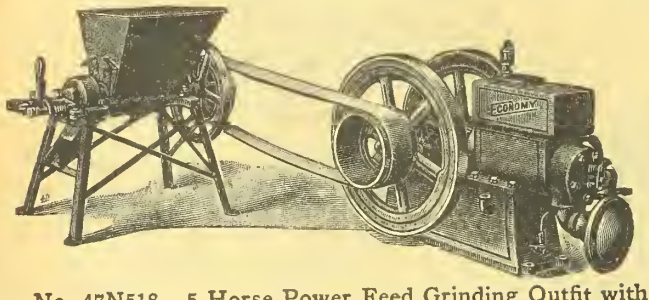
BORE—5 inches. STROKE—7½ inches. TYPE—Four-cycle, water cooled. IGNITION—Webster make and break magneto. SPEED—425 revolutions per minute. FLYWHEELS—28 inches in diameter; weight, each, 168 pounds. CRANKSHAFT—2-inch, drop forged. SPEED REGULATOR gives a wide range in speed without stopping the engine.

What a 5 Horse-Power Engine Will Do.

This size of engine is particularly suitable for small farms. It will not only run all the small machines usually operated by hand, such as the cream separator, washing machine, etc., but will run 6 or 8-inch feed grinder, 24 or 26-inch cut-off saw, 12 or 14-inch rip saw, two-hole corn sheller, 12 or 13-inch feed cutter, 8-inch cane mill, grain dump with elevator, drag saw, cider mill, pea and bean huller.

If you have several small machines to run, the engine can be connected to a line shaft so you can run two or more at the same time. Also suitable for small shop or garage work, to run a line shaft to operate the lathe, drill press, air compressor, rip or cut-off saw, woodworking machinery, emery wheel or the average machines found in a small woodworking shop, blacksmith shop or garage.

5 Horse-Power Feed Grinding Outfit.

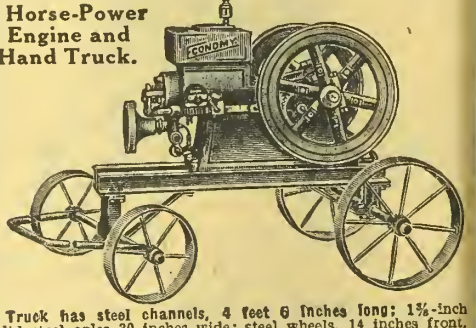


No. 47N518 5 Horse-Power Feed Grinding Outfit with Webster Magneto Equipped Gasoline Engine. Shipping weight, about 1,146 pounds. Price... **$156.50**

This outfit is complete, all ready to grind feed, including a 5 Horse-Power Economy Gasoline Engine with a 12x6-inch pulley, an 8-inch David Bradley Feed Grinder and a 30-foot 5-inch solid woven belt.

It will grind from 10 to 15 bushels of dry ear corn, or 10 to 25 bushels of shelled corn, wheat, oats or barley per hour, depending on the condition of the grain and the fineness of grinding. The grinder is furnished with two sets of burrs for rough or medium grinding. For description of grinder see grinder pages in this catalog.

5 Horse-Power Engine and Hand Truck.



Truck has steel channels, 4 feet 6 inches long; 1¾-inch solid steel axles 30 inches wide; steel wheels, 14 inches front, 20 inches rear, with 2½-inch tires; front wheels turn under.

No. 47N515 5 Horse-Power Webster Magneto Equipped Gasoline Engine and Truck. Weight, about 1,020 pounds. Price..... **$134.25**

Friction Clutch Pulley.

We furnish a pulley with all our engines as regular equipment. A friction clutch pulley, however, is much better, so we carry the following sizes in our warehouses for shipment with the engine in place of regular pulley, at the prices shown.

PRICES.

LITTLE ROCK, ARK.

Mail your order to Sears, Roebuck and Co., Chicago and tell us from which city you would like to have us make shipment and it will go forward at once. You pay freight only from the city nearest you.

What a 7 Horse-Power Engine Will Do.

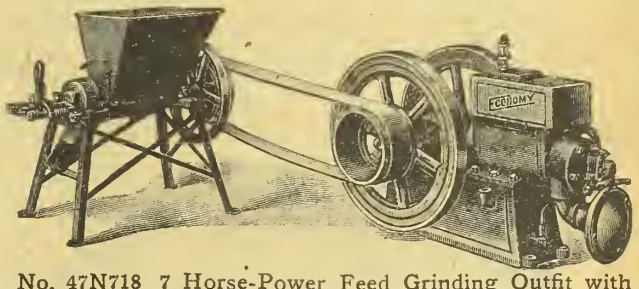
We recommend our 7 Horse-Power Engines for running the following machines: An 8-inch feed grinder, 12-inch French buhr mill, 12-inch ensilage cutter with blower, 16-inch ensilage cutter with carrier, two-roll husker and shredder, four-hole corn sheller, hay press with a 14x18-inch bale chamber, 30-inch cut-off saw. It will also handle large pumps for irrigation or run a line of shaft for shop work.

These recommendations are to give you an idea as to what these engines will do. They will, of course, operate a great many more machines than we have mentioned and will take care of the smaller machines ordinarily handled by engines of less horse-power and do it economically. If you are not sure what size engine you need, write and tell us what machines you want to run and we will tell you what size engine will do your work to the best advantage.

7 Horse-Power Feed Grinding Outfit.

This outfit is complete, all ready to grind feed, including a 7 Horse-Power Economy Gasoline Engine with a 16x6-inch pulley, an 8-inch David Bradley Feed Grinder and a 50-foot 5-inch solid woven belt.

It will grind from 10 to 25 bushels of dry ear corn, or 10 to 40 bushels of shelled corn, wheat, oats or barley per hour, depending on the condition of the grain and the fineness of grinding. The grinder is furnished with two sets of burrs for rough or medium grinding. For description of grinder see grinder pages in this catalog.



No. 47N718 7 Horse-Power Feed Grinding Outfit with Webster Magneto Equipped Gasoline Engine. Shipping weight, about 1,485 lbs. Price..... **$189.70**

Friction Clutch Pulley in Place of Regular.

We furnish a pulley with Economy Gasoline Engines as regular equipment. A friction clutch pulley, however, is much better, as it enables you to start or stop the engine or machines independent of each other, saving wear and tear on both. We carry the following sizes in our warehouses for shipment with the engine in place of regular pulley, at the prices shown:

PRICES.

No. 47N401 12x6-Inch Friction Clutch pulley. Weight, about 80 pounds. Price..... **$12.75**

No. 47N402 16x6-Inch Friction Clutch pulley. Weight, about 97 pounds. Price..... **17.25**

No. 47N403 20x8-Inch Friction Clutch pulley. Weight, about 206 pounds. Price..... **24.50**

Solid Woven Fabric Belt.

This is a solid woven belt, made of fine quality long staple cotton specially treated. It is not affected by heat or cold, and will always remain pliable. Recommended for the hardest kind of work. For inside or outside use.

We carry belts in the length and size shown below in a warehouse at cities mentioned above, from which points we can make shipment at once, either separately or with the engine you order.

PRICE.

No. 47N376 30 Feet of 5-inch, 4-Ply Solid Woven Belt, with fasteners. Weight, about 13 pounds. Price..... **$8.50**

FOR GAS ENGINE OIL SEE PAGE 1499.

No. 47N405 30x8-Inch Friction Clutch Pulley. Wt., about 230 pounds. Price..... **32.60**

What a 9 and 12 Horse-Power Engine Will Do.

These engines are very powerful, well made, with large cranks, heavy flywheels, and the water reservoir holds enough water to keep the engine cool even on long continuous runs.

We recommend our 9 horse-power engine to run the following: A 13-inch ensilage cutter with blower or a 20-inch cutter with carrier, 16 and 18-inch French buhr mills, four-roll husker and shredder, 16x18 or 17x22-inch hay balers, four-hole corn sheller, 32 to 36-inch cut-off saws, 20 or 22-inch rip saws, threshing machines with 14x30 or 16x24-inch cylinders.

We recommend our 12 horse-power engine to run the following: An 18 to 20-inch French buhr mill, 14-inch ensilage cutter with blower or a 20-inch cutter with carrier, four and six-roll husker and shredder, 16x18 or 17x22-inch hay balers, six-hole corn sheller, 36 or 38-inch cut-off saws, 24-inch rip saws, threshing machines with 22x36 or 15x30-inch cylinders.

These recommendations are to give you an idea as to what these engines will do. They will of course operate a great many more machines than we have mentioned and will take care of the smaller machines ordinarily handled by the 5 and 7 horse-power engines. If you are not sure as to just what size engine you need, write and tell us what machines you want to run and we will be glad to tell you what size engine will do your work to the best advantage.

GASOLINE ENGINE SPECIFICATIONS.

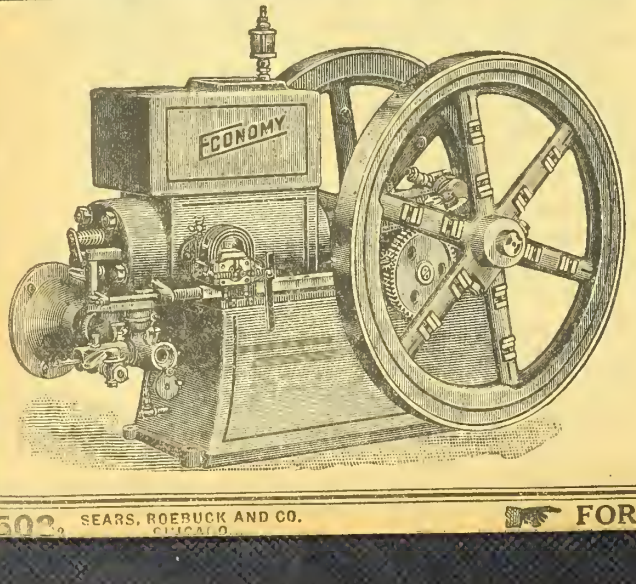
9 Horse-Power Engine.

BORE—6½ inches. **STROKE**—11 inches. **TYPE**—Four-cycle, water cooled. **IGNITION**—Make and break magneto. **SPEED**—325 revolutions per minute. **FLYWHEELS**—38 inches in diameter; weight, each, 386 pounds. **CRANKSHAFT**—2½ inches: drop forged. **SPEED REGULATOR**—Gives a wide range in speed without stopping the engine.

12 Horse-Power Engine.

BORE—7½ inches. **STROKE**—12 inches. **TYPE**—Four-cycle, water cooled. **IGNITION**—Make and break magneto. **SPEED**—300 revolutions per minute. **FLYWHEELS**—44 inches in diameter; weight, each, 530 pounds. **CRANKSHAFT**—2¾ inches; drop forged. **SPEED REGULATOR**—Gives a wide range of speed without stopping the engine.

Economy Gas Engines



Burn Natural, Artificial Gas or Gasoline

This is our regular Economy Gasoline Engine with a special attachment for using natural or artificial gas for fuel. It will also burn gasoline. Furnished complete with Webster Magneto for ignition. Shipped from a warehouse near you.

When connecting the engine to your gas supply pipe, a gas bag or gasometer should be used to secure the best results. The gas bag where the pressure is low and gasometer where the pressure is high. If you are not sure which one to order ask your gas company if the gas you use is under high or low pressure. Price of gas bag for any size of engine, add, $4.00; for gasometer on 1½, 2½ or 5 horse-power, add, $12.75; on the larger sizes, add, $18.00.

These engines are all equipped with the Webster magneto, which gives a big, hot spark Winter or Summer, and we guarantee it to last as long as the engine. As these engines are exactly the same as our regular gasoline engine, if you want to know the weight or any other specifications, refer to the description of the gasoline engine, according to the size of engine in which you are interested.

PRICES, EQUIPPED WITH MAGNETO.

LITTLE ROCK, ARK.

Mail your order to Sears, Roebuck and Co., Chicago, and tell us from which city you would like to have us make shipment and it will go forward at once. You pay freight only from the city nearest you.

Economy Gasoline Portable Engines.

These outfits are made up of our Economy Gasoline Engines, with an all steel truck and pole. The truck is of special low down construction, with large heavy channels well braced. The axles are solid steel, reinforced with I beams, the all steel wheels on the 5 and 7 horse-power outfits are 24 inches front and 32 inches rear, with 4x⅜-inch tires. On the 9 and 12 horse-power outfits they are 26 inches front and 36 inches rear, with 5x⅜-inch tires.

Our method of mounting the engine on the bent channel brings the weight down low, so the engine runs much steadier and there is no tendency for it to tip, even on a very short turn, yet there is plenty of road clearance, making the truck particularly adapted for long hauls over rough ground. The engines are all set up ready to run with fuel tank and pulley, and we send a book of instructions with each outfit.

Prices With Webster Magneto Equipped Gasoline Engine.

No. 47N517 5 Horse-Power, with 12x6-Inch Pulley on Truck with Pole. Shipping weight, about 1,448 pounds. Price $169.75

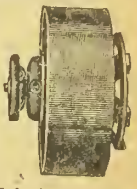
No. 47N717 7 Horse-Power, with 16x6-Inch Pulley on Truck with Pole. Shipping weight, about 1,787 pounds. Price 202.95

No. 47N919 9 Horse-Power, with 20x8-Inch Pulley on Truck with Pole. Shipping weight, 2,769 pounds. Price 288.05

No. 47N1219 12 Horse-Power, with 24x8-Inch Pulley on Truck with Pole. Shipping weight, about 3,367 pounds. Price 350.25

Friction Clutch Pulley in Place of Regular.

We furnish an engine pulley with all outfits shown on this page as regular equipment. A friction clutch pulley, however, is much better, as it enables you to start or stop the engine or machines independent of each other, saving wear and tear on both. We carry the following sizes in our warehouses for shipment with the engine in place of regular pulley, at the prices shown:



PRICES.

No. 47N401 12x6-Inch Friction Clutch Pulley. Weight, about 80 lbs. Price $12.75

No. 47N402 16x6-Inch Friction Clutch Pulley. Weight, about 97 lbs. Price $17.25

No. 47N403 20x8-Inch Friction Clutch Pulley. Weight, about 206 lbs. Price $24.50

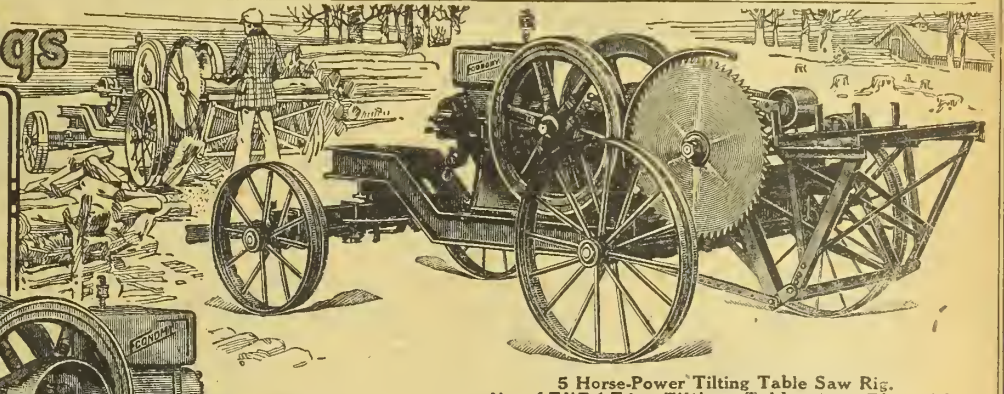
No. 47N404 24x8-Inch Friction Clutch Pulley. Weight, about 213 lbs. Price $27.85

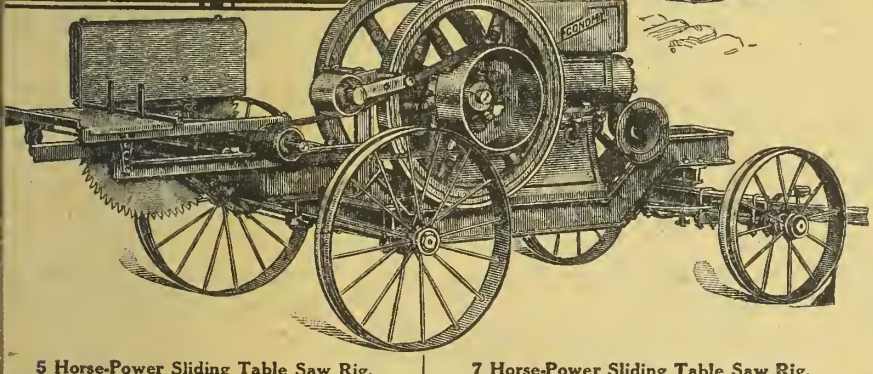
No. 47N405 30x8-Inch Friction Clutch Pulley. Weight, about 230 lbs. Price $32.60

Portable Saw Rigs

These saw rigs are complete, ready to saw wood. They consist of an Economy Gasoline Engine, set up ready to run, with pulley and fuel tank, an all steel truck, as described above, with pole, and a saw frame that is fastened and braced to the back of the truck.

Saw frame consists of either sliding or tilting table, a saw with guard, a belt tightener and belt. The illustration to the right shows the tilting table outfit; the one below, the sliding table. We ship either outfit, including the engine, from a city near you and guarantee it will give you satisfactory service. For description of engines see previous pages.





5 Horse-Power Tilting Table Saw Rig.

No. 47N517A Tilting Table Saw Rig with 5 Horse-Power Gasoline Engine. 12x6-Inch Pulley. 26-Inch Saw. Shipping weight, about 1,698 pounds. Price $212.25

7 Horse-Power Tilting Table Saw Rig.

No. 47N717A Tilting Table Saw Rig with 7 Horse-Power Gasoline Engine. 16x6-Inch Pulley. 30-Inch Saw. Shipping weight, about 2,045 pounds. Price $248.05

5 Horse-Power Sliding Table Saw Rig.

No. 47N517B Sliding Table Saw Rig with 5 Horse-Power Economy Gasoline Engine, 12x6-Inch Pulley, 26-Inch Saw. Shipping weight, about 1,718 pounds. Price $213.00

7 Horse-Power Sliding Table Saw Rig.

No. 47N717B Sliding Table Saw Rig with 7 Horse-Power Economy Gasoline Engine, 16x6-Inch Pulley, 30-Inch Saw. Shipping weight, 2,065 pounds. Price $248.80

You run absolutely no risk in buying one of these saw rigs, as they include everything necessary to saw wood. The outfits are shipped from a warehouse near you, as explained above, and we send full instructions telling just how to put them together.

We will ship you any outfit shown on this page with the understanding that you are to give it a thorough trial before you decide to keep it. If for any reason whatever you are dissatisfied with the outfit, we expect you to return it to us at our expense. We will then exchange it for exactly what you want or will return your money, including any freight charges you have paid.

FOR GAS ENGINE OIL SEE PAGE 1499.

No. 47N807 4-Horse-Power Engine, with Schebler Carburetor and equipment, except propeller, propeller shaft and stuffing box. Weight, 175 pounds. Price **67.75**

Shipped from factory in SOUTHERN MICHIGAN.

Motorgo Engines are high grade in every respect, made of high grade materials according to the highest standard of marine engine construction. We will ship you any engine on this page with the understanding that you are to give it a thorough trial in your own boat before you decide to keep it.

Engines shown on this page are covered by our guarantee as shown on the inside front cover page of this book.

The prices on our two-cycle engines with complete equipment include the electrical equipment of coil, batteries, spark plugs and wires, also 6 feet of propeller shafting, a bronze stuffing box, muffler and bronze speed propeller (or will furnish weedless propeller if desired), and we furnish a book of instructions telling how to run and take care of engine.

Specifications Two-Cycle Motorgo Engines.

Horse-Power	Bore, Inches	Stroke, Inches	Speed, R. P. M.	Propeller Shaft	Two-Blade Wheel Diam.	Two-Blade Wheel Pitch
2½	3¼	3¼	750	¾ in.	12 in.	14 in.

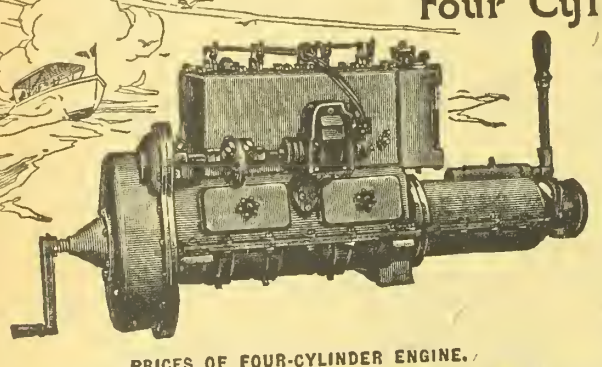
Four Cylinder Four-Cycle



PRICES OF FOUR-CYLINDER ENGINE.

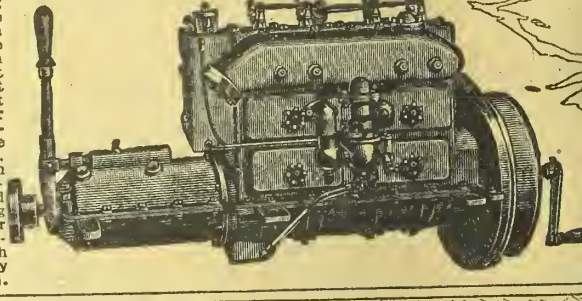
No. 47N829 Unit Power Plant, consisting of engine and reverse gear. Weight, 825 pounds. Price **$342.00**

No. 47N830 Engine complete but without reverse gear. Weight, 550 pounds. Price **270.00**

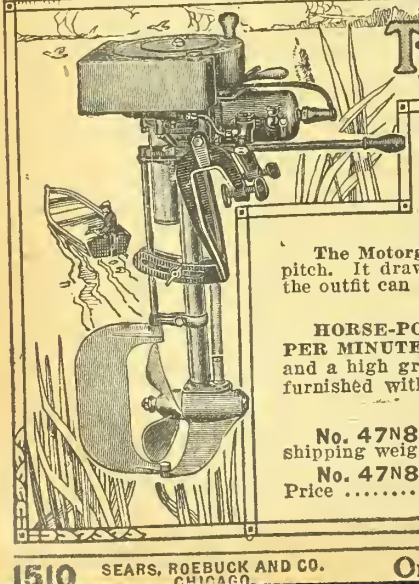
EXTRAS—Bronze speed or weedless propeller, 2-blade, 16-inch, $5.65. Three-blade speed propeller, bronze, 16-inch, $7.65. Propeller shafting, steel, 48 cents per foot; bronze, $2.70 per foot. Bronze stuffing box, $2.95.

This engine embodies all the latest features of four-cylinder engine construction. Every moving part is enclosed, insuring the utmost cleanliness and quietness. The unit castings mean compactness, endurance, strength and freedom from vibration. The big side plates make the crank case and bearings easily accessible.

The engine is complete with reverse gear as a unit power plant, developing 14 horse-power at 750 revolutions per minute, 16 horse-power at 850 revolutions per minute, 18 horse-power at 1,000 revolutions per minute, and 20 horse-power at 1,100 revolutions per minute. **Ignition Equipment** consists of Splitdorf Dixie high tension magneto, with cables and spark plugs. **The Carburetor** is the well known Model "D" Schebler with hot air connection. The exhaust and intake manifolds are cast in one piece and the cylinder head is removable. The crankshaft and connecting rods are drop forged, heat treated. The bearings are of high grade removable die cast babbitt. Both the splash and force feed systems of oiling are used, which insures proper lubrication. Book of instructions furnished with each engine. **Shipped from factory in SOUTHERN MICHIGAN.**



Two-Cycle Row Boat Engines



The Motorgo is a high grade rowboat engine that we guarantee will give you just as satisfactory service as any rowboat engine on the market. It is correctly designed, built of high quality materials and will give years of satisfactory service. It can be easily and quickly attached to any standard rowboat. It steers with a rudder and will propel a rowboat 6 to 8 miles an hour. The outfit is very simple and easy to start, so that anyone can run it. It is complete with full equipment, ready to run, and transforms any rowboat into an efficient motor boat.

The Motorgo Rowboat Engine is equipped with a bronze weedless propeller, 9¼ inches in diameter, with 14-inch pitch. It draws from 9 to 10 inches of water. The propeller, rudder and gear housing are made of bronze, so that the outfit can be used in either fresh or salt water.

SPECIFICATIONS.

HORSE-POWER—1¼ (commonly called 2 horse-power). **BORE**—2⅝ inches. **STROKE**—2½ inches. **REVOLUTIONS PER MINUTE**—850. **SPEED OF BOAT**—6 to 8 miles per hour. **IGNITION**—A battery, consisting of three dry cells and a high grade spark coil, put up in a wooden box with all wiring ready to attach to engine. Book of instructions furnished with each engine. **Shipped from factory in SOUTHERN MICHIGAN.**

PRICE OF MOTORGO ROWBOAT ENGINE.

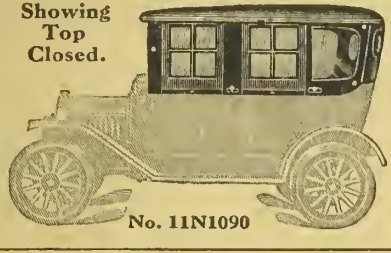
Stationary Closed Tops for Ford Cars

Top for Ford Touring Cars

Description.

Our closed tops for Ford touring cars, as illustrated, are built to fit models of 1915, 1916, 1917 and 1918 only. We do not furnish these tops to fit any other models. Top is well constructed, built with a heavy rubber roof over wood frame. Rear curtain is of heavy rubber, with rear and side lights. Rear side panels are of wood, fitted with heavy glass. Top is supported in front by metal posts, which attach to wind shield. The center post, as shown in the small illustration, is removed when side curtains are not needed. The two side curtains on each side are attached to rollers and are fitted with four mica lights. Top is very easily attached, as the frame part of top is attached to regular irons on body. Rear curtain is stationary and is attached on back of seat the same as regular Ford tops.

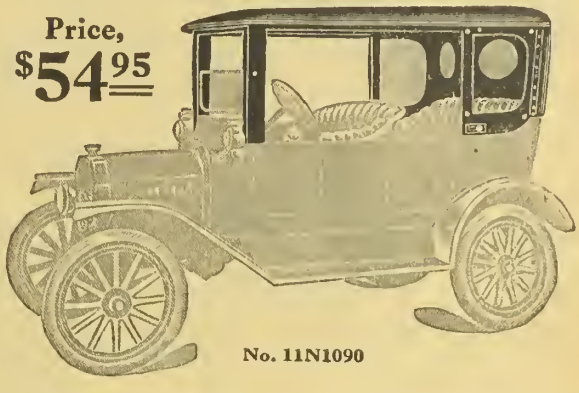
These tops weigh very little more than the regular Ford top; are very easily attached, and will greatly improve the looks of the car. When entirely closed they are almost as satisfactory as a limousine. Fit your Ford with one of these tops and you will be surprised at the difference it will make in the appearance of your car and the enjoyment you will get out of it.



Showing Top Closed.

No. 11N1090

Price, $54.95



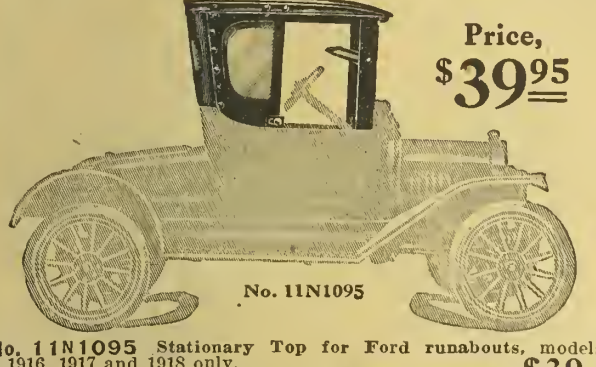
No. 11N1090

No. 11N1090 Stationary Top to fit Ford touring cars, models of 1915, 1916, 1917 and 1918 only.
Price..... **$54.95**

Shipped from factory at EVANSVILLE, IND. Net weight, 100 pounds. Shipping weight, crated ready for shipment, 250 pounds.

Top for Ford Runabouts

Price, $39.95



No. 11N1095

No. 11N1095 Stationary Top for Ford runabouts, models of 1915, 1916, 1917 and 1918 only.
Price..... **$39.95**

Net weight, about 75 pounds. Shipping weight, crated ready for shipment, about 165 pounds. Shipped from factory in EVANSVILLE, IND.

Description.

The general construction of this top is just the same as our No. 11N1090. Top is built to fit models of 1915, 1916, 1917 and 1918 only. Roof is covered with heavy rubber over wood frame with rubber back curtain fitted with one large rear mica light. The rear side panels are of wood, with glass windows, and door curtains are of heavy rubber with four mica lights attached to rollers in roof of top. Top is supported in front by metal posts, which attach to wind shield. This is a very satisfactory and serviceable top for both Summer and Winter use. Very serviceable for doctors, or anyone who uses a car during the bad Winter months. This top weighs very little more than the ordinary Ford top and can be very easily attached, as it fits over the regular top irons. Rear curtain is attached the same as the regular curtain on the Ford top and cannot be rolled up. Order one of these tops now and give it a trial.

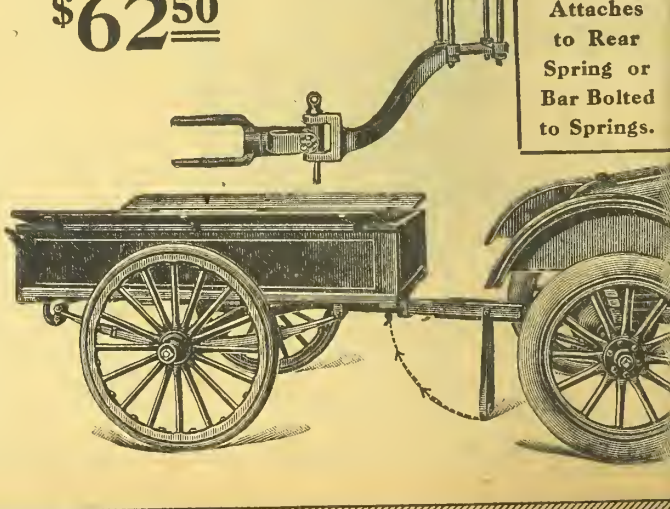
Sears Auto Trailer

$62.50

Attaches to Rear Spring or Bar Bolted to Springs.



DESCRIPTION.

BODY—40 inches wide by 56 inches long, 11-inch side panels, with 7-inch flare boards and drop endgate; heavily ironed and braced. **AXLES**—1¼-inch Timken roller bearing. We do not furnish plain axles on trailers. Roller bearing axles are the only type that prove satisfactory for this purpose. **SPRINGS**—1¾-inch, seven-plate, semi-elliptic automobile style. This type of spring does away with most of the rebound, whether the trailer is loaded or empty. **WHEELS**—Selected hickory; 1¼-inch rims; 30 inches high; fitted with 1¼-inch solid guaranteed rubber tires. We recommend rubber tires on trailers. We will furnish with steel tires, if wanted. **PAINTING**—Body and gear, Brewster green, neatly striped. **HITCH**—We are furnishing a new style hitch on this trailer, which is built to attach on Ford cars to the spring, directly underneath the body. This is a most satisfactory attachment, as it is not necessary to attach a bar from one spring to the opposite spring and attach the yoke to this. **CAPACITY**—About 800 pounds.

No. 11N1065 Price, as described, with 1¼-inch solid rubber tires and ball bearing axles..... **$62.50**
Weight, about 300 pounds. Weight, crated for shipment, about 525 lbs.

EXTRAS.

Will furnish with regular Ford wheels, with 3-inch pneumatic tires in place of regular wheels for the extra price of	$25.00
If wanted with ⅜-inch steel tires in place of rubber tires, deduct from price	3.00

Trailer is shipped from our factory in EVANSVILLE, IND.

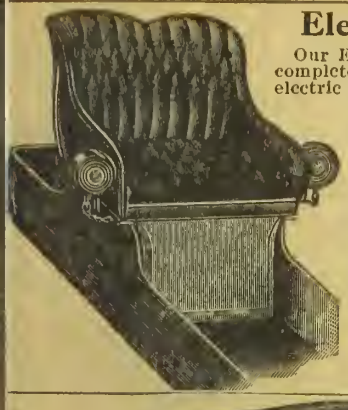
TOP BUGGIES AND ACCESSORIES



Electric Lighting Outfit

Our Electric Lighting Outfit is furnished complete with brackets, black japanned electric lamps with wires and five dry cells. The five dry cells which are carried in a small case underneath the seat will, with ordinary use, give about 100 hours' service. The lamps are 5½ inches in height, 3½ inches across the face, fitted with red signal lights in rear, and each lamp is fitted with an individual switch, making it possible to burn only one lamp at a time if so desired. **Shipped only from factory in EVANSVILLE, IND.** Shipping weight, about 19 pounds.

No. 11N26 Electric Lighting Outfit for vehicles.
Price..... **$5.00**

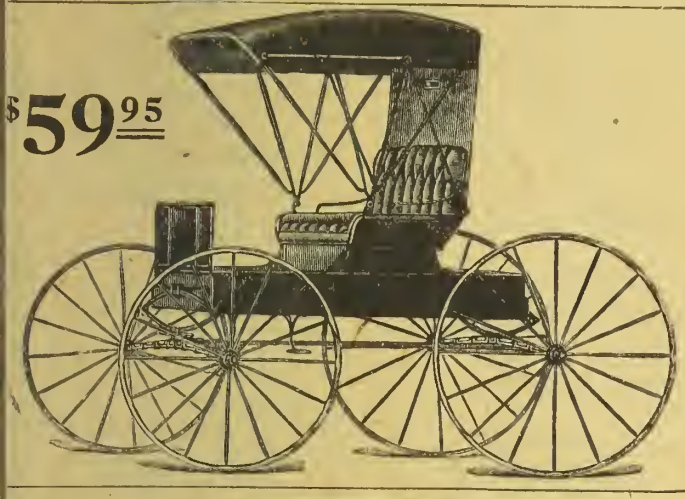
For other vehicle lamps see page 1029.

Acme Storm Shield

Made of special ficcce lined waterproofed material, fitted with large front mica light in metal frame; mica lights in sides, also a 12-inch line pocket with metal frame. Spring dash connections. Metal clasps for attaching to box or side of bed. Will fit buggies with 23, or 25-inch bodies, with tops measuring 40 to 44 inches across top of bows. **Shipped with vehicles from factory in EVANSVILLE, IND., only.** Shipping weight, about 4 pounds.

No. 11N21 Acme Storm Shield, as described.
Price..... **$3.75**

For other storm protectors see page 1405.



$59.95

Farm Wagons—Wood and Steel Wheel Trucks

Two-Horse Wagons

PRICE,
$87.80

Complete With Seat, Box, Neckyoke and Doubletrees.

No. 11N1873
Shipped From St. Paul, Minn., or Northern Illinois Factories.

Our two-horse farm wagons, as here described, are shipped from St. Paul, Minn., or Northern Illinois factories. This is a medium grade wagon, made of good material and heavily ironed. Gear is fully clipped, gear woods are thoroughly seasoned and wagon is nicely painted. Read description below.

WHEELS—Made of thoroughly air dried material; hubs are of birch or oak; spokes are of oak or hickory, with either hickory or rock elm rims; wheels are 40 inches front and 48 inches rear. We furnish them with either 3 or 1½-inch steel tires. **AXLES**—Made of rock maple or hickory. We guarantee the axles to carry the full capacity of the wagon, which is 4,000 pounds. **SKEINS** are 3¼x10 inches, set to axles in red lead; fitted with truss rod. **GEAR** woods are of oak or maple. The entire gear is heavily ironed, well braced, and bolsters fitted with wear plates on top. Gears are fully clipped and nicely painted. **POLE**—Made of oak, heavily ironed; will not break. **BOX** is well made, of standard size, 10½ feet long and 26 inches deep; furnished complete with spring seat, box fasteners, rods and foot board. **TRACK**—4 feet 6 inches narrow or 5 feet wide. **State which is wanted.** Weight, 1,100 pounds.

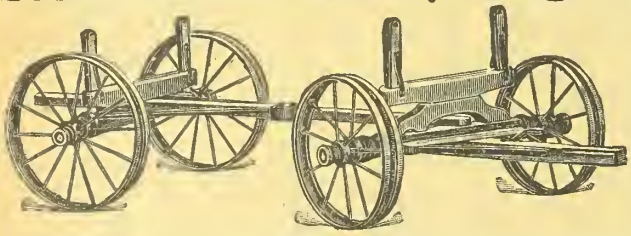
Steel Wheel Handy Wagon



Our handy wagons carry our regular guarantee of satisfaction. These wagons are all well built of oak, hickory and maple. They are well ironed and we guarantee them to give satisfactory service. Fitted with 3¼x10-inch skeins, with a 9-foot 4-inch coupling pole; bolster stakes are ironed and fitted with rings; both front and rear gears are fitted with angle steel hounds. We guarantee the spokes never to come loose in the hub on any of our iron wheels, no matter how long the wheels may be in service. These trucks are furnished with different heights of wheels, but we recommend either our No. 11N1891, with 26-inch front and 30-inch rear wheels, or the No. 11N1892, with 28-inch front and 32-inch rear wheels. These are the two popular sizes and are carried in stock ready for immediate shipment. The three larger sizes are not carried in stock, and we will require about fifteen days to build and ship after the order is received. These trucks are furnished in either the 4-foot 8-inch or 5-foot 2-inch track. **Be sure to specify width wanted.** Handy wagons are **shipped only from our factory in NORTHERN ILLINOIS.**

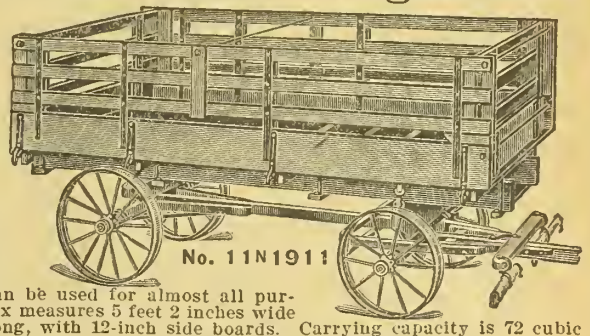
A Bigger and Better Wagon Box

PRICE,
$42.75
With Hog Rack.
$32.00
For Box Only.



No. 11N1911

This type of wagon box is being used in a great many sections of the country. It is more serviceable than the old style box. Can be used for almost all purposes on the farm. Box measures 5 feet 2 inches wide and 13 feet 8 inches long, with 12-inch side boards. Carrying capacity is 72 cubic feet, while the ordinary wagon box holds only 65 cubic feet.

This box can be converted into a hay rack and is furnished regularly with a hay ladder in front. Sides drop down and convert the box into a hay rack 8 feet wide and 14 feet long. We guarantee this box to give satisfactory service. It is made of long-leaf yellow pine and all braces are of wrought iron or steel. Will fit any truck with rear wheels not more than 44 inches high. Furnished to fit 38 or 42-inch bolsters. Specify which you want.

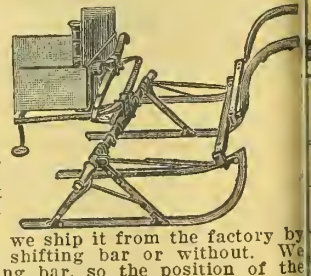
Catalog No.	Size of Axle to Be Used On	Weight, About	Price, per Set
11N1430	⅞ in. or 1 in.	35 lbs.	$6.75
11N1431	1⅛ in. or 1¼ in.	55 lbs.	7.75
11N1432	1⅜ in. or 1½ in.	75 lbs.	9.00

Pole and Shaft Attachment for Runners



Everyone using the common runner attachments has had more or less trouble with them due to the fact that there was nothing to support the attachment in front, and in striking a rough place, they frequently turn up on the nose.

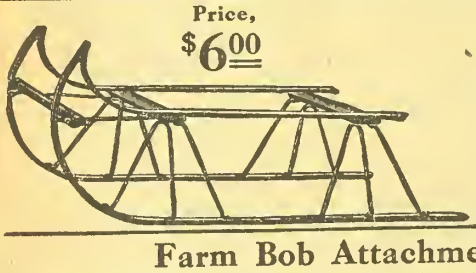
We have overcome this difficulty by furnishing an attachment as here described, which gives you a crosshar to which the shafts are attached. This does not in any way change the pull, as this still comes directly from the axle, but it does support the nose of the runners in front, stiffens them and holds them in place. This attachment is very light and we ship it from the factory by parcel post. It can be furnished with shifting bar or without. We always recommend the use of the shifting bar, so the position of the shafts can be changed without any trouble.

No. 11N1435 Attachment for Runners With Shifting Bar, complete; weight, 15 pounds. Price..... **$3.00**

No. 11N1436 Attachment for Runners Without Shifting Bar; weight, 10 pounds. Price..... **$2.20**

Steel Knee Cutter Gear

Price, $6.00



This steel knee cutter gear is guaranteed to be a strictly first quality cutter gear. It has bent steel knees and all wood parts are selected hickory or rock elm. You can fasten your buggy body to it in a few moments' time. Shifting bar is furnished, which permits the use of regular buggy shafts. This is a strictly high grade gear, made of first quality, reliable materials throughout. Used with the body of your regular buggy it gives you an attractive, comfortable cutter at an exceptionally low cost.

Weight, about 50 pounds. **Shipped knocked down and bundled from factory in MICHIGAN.**

No. 11N1498 Cutter Gear. Price..... **$6.00**

Farm Bob Attachment

We have made up this farm bob attachment especially for use in Wisconsin territory.

After January 1, 1919, all bobs sold in Wisconsin must be built in the 56-inch track. We have these attachments in the 38, 44 or 56-inch widths. It can be used on any standard farm wagon by simply removing the wheels and pole. The axles are clipped on to the beams of the sled and the bob is then ready for use.

The track on these attachments can be changed. If bought in the regular 38-inch width, which is standard, it can be changed to the 56-inch width by simply moving over the runners to the proper distance and putting in place a new roll between the rear runners, with a new roll on the pole. This is all the work necessary to change from one width to another.

DESCRIPTION.

Price of harness with 1½-inch leather traces, without collars,	Price of harness with 1¾-inch leather traces, without collars,	Price of harness with leather covered flexible galvanized steel wire cable traces, as shown in small illustration, without collars,
$57.25	$58.49	$56.98

Add extra for Breeching No. 10N2490 (page 1546) to buckle on single hip straps..$8.55
Add extra for Breeching No. 10N2496 (page 1546) to buckle on hip straps, with four extra hip straps to snap in trace carriers, as shown in small illustration.....$12.85

This harness represents quality and a high standard of value. It is made throughout of genuine bark tanned leather, all parts being exceptionally well made and strong. For all kinds of heavy teaming we highly recommend it.

BRIDLES—1-inch cheeks, extra strong.
LINES—Made from firm selected stock, uniform in thickness.
TRACES—Considered the most important part of a harness, are cut extra heavy, from selected trace stock, 6 feet 4 inches long, with heel chains extra; or No. 10N2765 flexible leather covered galvanized steel wire cable traces shown in small illustration and described on page 1546.
BELLYBANDS—Heavy folded.
HAMES—Dandy, red, ball top, bolt style, heavy bame straps and spreader straps.
BREECHING—Heavy folded harness leather body with wide layer stitched on; heavy rings, three-ring hip straps with trace carriers, extra long lazy straps. Note size used in each harness.
BREAST STRAPS—Extra heavy, with roller snaps.
MARTINGALES—Chicago style, the kind universally used by large trucking companies.
TRIMMINGS—Buckles and rings japanned; brass hame balls.
Weight of complete harness, packed for shipment, about 80 lbs.

SPECIAL—At an extra charge of $1.50 we will fit the harness with flexible jointed clip attachments at the hames, as shown in small illustration. These attachments take much of the wear off the leather and make the traces last longer. They also make it more convenient for you to hang up the traces in the barn. The flexible joint allows the traces to hang straight.

HEAVY STOCK SADDLES CANNOT BE SHIPPED BY PARCEL POST.

Genuine Hand Woven Navajo Indian Saddle Blankets

These NAVAJO SADDLE BLANKETS are all wool and made from start to finish by the Indians. They are strongly woven, sometimes taking weeks to weave and will give years of useful service.

No Two Blankets Exactly Alike.

The figures on these NAVAJO SADDLE BLANKETS are woven through from one side to the other, the pattern on each side being identical but changing with each blanket woven. One of the chief attractions of Indian weaving is VARIETY—where designs and patterns are concerned—and each pattern is a symbol of Indian life.

Don't Consider Price Alone.

If the price charged for these NAVAJO SADDLE BLANKETS were based on the length of time it takes to make them the price would be prohibitive. The Indian places very little value on his time so asks for his product a price only slightly above the cost of his materials, the wool and dyes.

Their Value Increases With Time.

Aside from their artistic worth these NAVAJO SADDLE BLANKETS will give practical and satisfactory service for years and later will have a sentimental value because of their connection with the life of the Indians. If properly taken care of they may be preserved in years to come as reminders of American History.

Sizes and Weights Vary Slightly.

The NAVAJO INDIAN SADDLE BLANKETS are woven heavy and thick and can be used under the saddle single or double, therefore, we furnish both kinds. The single blanket measures about 26x33 inches and weighs about 2½ to 3 pounds; the double blanket measures about 34x52 inches and weighs about 4½ to 6½ pounds. **Order by catalog number.**

The Navajo *SINGLE* Indian Saddle Blanket.

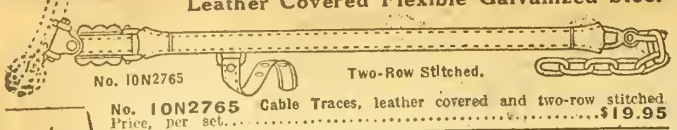
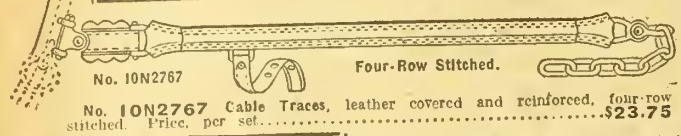
Leather Covered Flexible Galvanized Steel Wire Cable Traces.



No. 10N2765 Two-Row Stitched.

No. 10N2765 Cable Traces, leather covered and two-row stitched. Price, per set.....$19.95



No. 10N2767 Four-Row Stitched.

No. 10N2767 Cable Traces, leather covered and reinforced, four-row stitched. Price, per set.....$23.75

The cable is made of the same material and constructed on the same principle as that used for elevators, cranes, dredges and other weight lifting machinery, which must be of great strength. It is entirely covered with leather, stitched at top and bottom, making the traces look like all leather traces. Cable traces are stronger than leather traces, cost less and will wear better and last longer. Each trace withstood a pulling test of over 2,000 pounds dead weight. These traces should be used by every owner of harness who has in mind the idea of long and satisfactory service at low cost. Traces are 6 feet 4 inches long, not measuring heel chains. Shipping weight, per set, about 22 pounds.

Breast Collars With Traces.

Made of Dundee bark tanned leather, wide V shaped braast collar, 1⅜-inch single strap traces, double neck strap. Nickel plated or brass line ring on neck strap. Shpg. wt., abt. 3¾ lbs.

The Right Way to Measure Horse Collars.

Be sure your old collar fits the horse as close at the throat as you want the new one to fit. If you have no old collar, measure your horse's neck from top to throat, where the collar sets, **on one side only and in a straight line** (not with the curve of the neck). The number of inches will be the size needed.

No. 10N3403¼ "Berts" Heavy Canvas Duck Plow Collar. Tick face, split leather rim and hame wear leathers, buckle and billet top, 16-inch draft, leather top pad. An exceptionally good collar. **State size.** Shipping wt., about 8 lbs.

For prices on extra knives see No. 1ON4682 and No. 1ON4684 above.

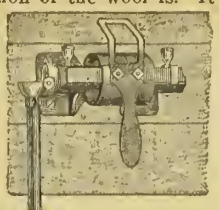
lipse Sheep Shearing Attachment for Horse Clipping Machine.

No. 1ON4681¼ This attachment consists of jointed ball bearing arm shaft with eep shearing head and four pairs of combs d cutters, to attach to the "Eclipse" horse pping machine in place of the web cov- d flexible chain sheft and horse clipping ad. If you now have the "Eclipse" Clean tting Horse Clipping Machine, you can idily convert it into a sheep shearing ma- ine by the use of this attachment. Ship- ng weight, about 15 pounds.
Price $10.95

NOTE — We charge 50 cents per pair for sharpening combs and cutters if horse clipping machines and 10 cents per pair for sharpening combs and cutters of sheep shearing machines. You also pay postage both ways. Send combs and cutters to us by parcel post, and send instructions in a separate letter including enough postage to return the combs and cutters to you by parcel post. Eight to ten days' time is required for sharpening combs and cutters.

Improved Engine Power Sheep Shearing Machine.

This machine is guaranteed to cut any wool that grows, no matter what the condition of the wool is. It may be long, thick, matted and greasy, or fine, crinkly, soft wool. The machine has been tested in all kinds of wool and has proved thoroughly efficient. All parts of the machine are made of high grade material and perfectly finished to the smallest detail, and there is nothing about it that will readily get out of order, nothing to prevent it from giving good, lasting and satisfactory service.



No. 1ON4881¼ Improved Engine Power Sheep Shearing Machine, complete, as shown in illustration, with Wizard narrow shearing head (three-point cutters) and four pairs of knives. Shipping weight, about 40 pounds.
Price...$28.85

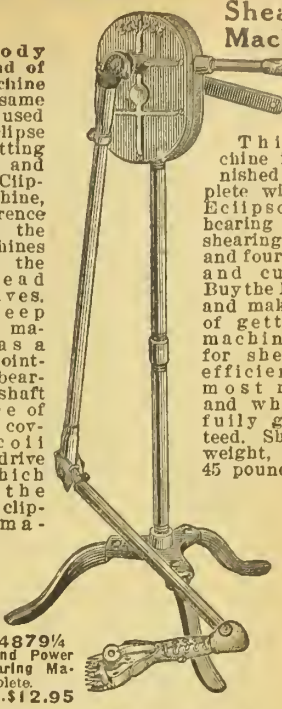
Eclipse Hand Power Sheep Shearing Machine.

The body and stand of this machine are the same as those used on the Eclipse Clean Cutting Horse and Cattle Clipping Machine, the difference between the two machines being in the shaft, head and knives. The sheep shearing machine has a flexible jointed, ball bearing arm shaft in place of the web covered coil chain drive shaft which is on the horse clipping machine.



This machine is furnished complete with the Eclipse ball bearing sheep shearing head and four combs and cutters. Buy the Eclipse and make sure of getting a machine that for shearing efficiency is most reliable and which is fully guaranteed. Shipping weight, about 45 pounds.

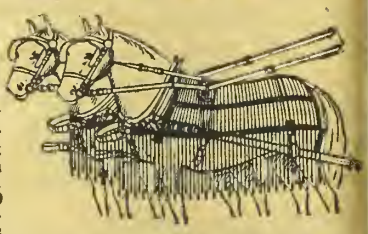
"Rosser Junior" Special Fly Nets.

Medium Weight 3-Ply Cotton Fish Cord. Hand Braided Bars.



These nets are made up in the same way and of the same quality material as our regular "Rosser Brand," but are of lighter cord. They are just the thing for those of our customers who want light weight but practical fly nets at low cost. Our "Rosser Brand" and "Rosser Junior" cotton cord nets will protect your horses just as well as our high priced leather nets and cost much less. The "Rosser Junior" nets have 72 or 90 lashes, 7½ feet long in the body and extra lashes cover the breast. The lashes are braided through the bars so they cannot readily slip and each lash has a wire fastened end to prevent its unraveling. The hand braided bars are 5 feet long. Note colors. Shipping weight, each, about 4½ pounds.

State Catalog Number and Number of Lashes When Ordering.

No. 1ON9220 Nets with black and yellow bars, white lashes.

72-lash net. Price, each, for one horse $2.47

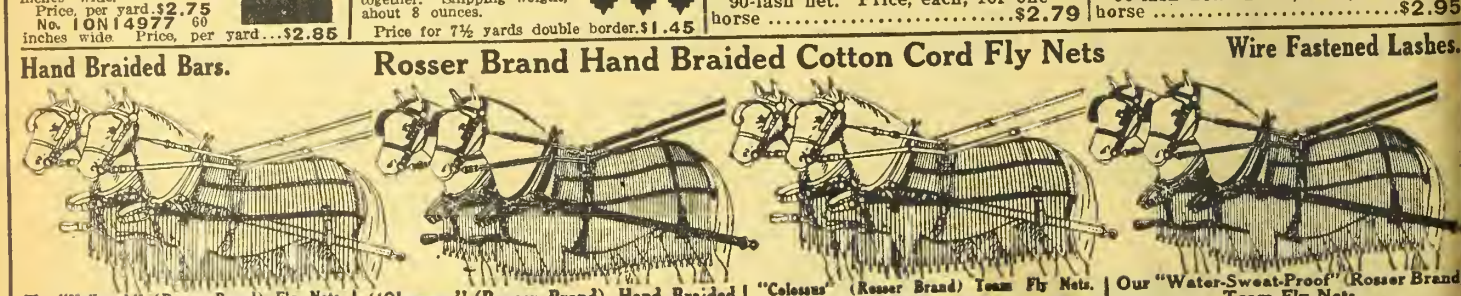
72-lash net. Price, each, for one horse $2.65

90-lash net. Price, each, for one horse $2.95

Rosser Brand Hand Braided Cotton Cord Fly Nets

Hand Braided Bars. **Wire Fastened Lashes.**



The "Holbrook" (Rosser Brand) Fly Nets.

Body and breast style, strong twisted three-ply cotton fish cord fly nets in different colored bars. Lashes are gold color. Full size net, 5 feet long in the body with extra strings across the breast; will fit horses of average size; made with 70, 84 and 100 hard twisted strings, 7½ feet long. The nets are all the same length, but the 100-lash net has the strings closer together than the 70 and 84-lash. Bars are strongly woven by hand and the lashes braided through them so they cannot slip back and forth. Each string has wire fastened end to prevent unraveling. These cotton cord nets are becoming more popular than leather nets because they are lighter and cheaper and wear splendidly. Shipping weights, each, about 4, 4½ and 5 pounds.

"Olympus" (Rosser Brand) Hand Braided Three-Ply Fish Cord Team Fly Nets.

Dark brown lashes, 7½ feet long, old gold color bars. The strings are braided in the bars which are hand braided. This makes the nets very strong and prevents the strings pulling out of the bars. The bars lie down flat on the horse's back. The strings are close enough together and long enough to keep the flies off the horse's legs and under part of the body; braided breast piece with snap to fasten across the breast. The nets are 5 feet long on the back and will fit the average size horse. Made with 70, 84 or 100 strings in the body, with breast piece containing enough strings to keep the flies off the front of the horse. These hand braided cotton cord fly nets have one of the largest sales of any cord team net on the market. For good wearing quality and low priced fly nets that will give excellent service, order these. Shipping weights, from about 3¾ pounds to 6 pounds each.

"Colossus" (Rosser Brand) Team Fly Nets. EXTRA BIG NETS FOR BIG HORSES.

Black and purple hand braided bars or white and green hand braided bars, gold color lashes. Have you extra large horses for which you have hitherto had difficulty in securing nets large enough? If so, these are the nets for you to buy. Will fit the largest draft horse and keep the flies off the body and legs. Both styles are made with 5½-foot body and the lashes are full 9 feet long. The 84-string net has black and purple hand braided bars with gold color lashes braided through them. The 100-string net has white and green hand braided bars with gold color lashes braided through them. End of each lash is wire fastened so it cannot unravel. Shipping weights, each, about 5 and 5½ pounds.

Our "Water-Sweat-Proof" (Rosser Brand) Team Fly Nets.

Color all black, 9-foot lashes. Perspiration will rot the best of ordinary fly nets; even rain water will have the same effect if the nets are not allowed to properly dry out. These nets are waterproofed by a special process so that rain and sweat cannot penetrate and rot the cord; with reasonable care they will last from three to five years. They are guaranteed not to rot out. Made of heavy twisted two-ply cotton fish cord, black, waterproofed. Body is 5 feet long, containing 70 or 84 cotton cord lashes wide, hand braided bars with the strings braided through the bars so they will not pull out; strings have wire fastened ends to prevent their unraveling. Shipping weights, each, about 7¼ and 8½ pounds.

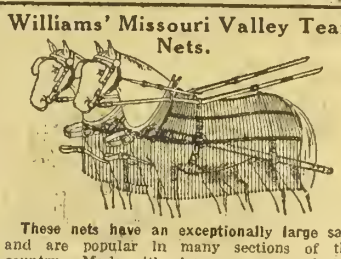
Belting Leather Nets.

Our Belting Leather Net is the greatest bargain that we can offer our customers in a full leather net. This net is not as strong as our upper leather nets and will not give as good service, but for a low priced belting leather net with ¾-inch bars with lashes laced through bars in the same manner as the upper leather nets, this is an unusual value. The lashes are pieced in the center and are extra long. Shipping weight, each, about 5½ pounds.

No. 10N9124 Price, one net for one horse.....$2.25
Price, two nets for two horses..... 4.50

Williams' Missouri Valley Team Nets.



These nets have an exceptionally large sale and are popular in many sections of the country. Made with sixty cotton cord lashes in the body and extra lashes across the breast. Double woven web bars with lashes between the bars sewed together. Body of these nets is 5 feet long and the lashes are 8 feet long, so as to keep the flies off the legs and under parts of the horse's body. The cost of cotton cord team nets is much lower than leather nets and, being strong and serviceable, they are in big demand. Shipping weight, each, about 3 pounds 7 ounces.

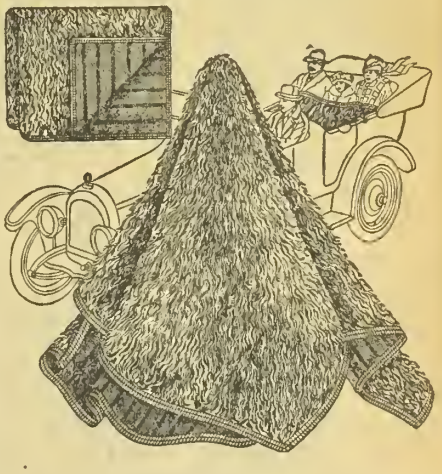
The Nu-Back Mohair Fur Robe.

The Nu-Back fur robe is a development of the knitting industry. The mohair is separated from the hide and woven or knitted through the cotton warp base on standard knitting machines. It looks like a natural fur robe and will wear splendidly. It is not waterproof, but will turn the rain, and, if dampened by snow, will dry quickly.

The Nu-Back fur robe is made of long mohair in three colors, gray, brown or black. State the color you prefer and give your second choice. This robe is lined with heavy fabric, interlined with a windproof cloth. It is neatly bound and stitched all around. Size, 54x72 inches. Weight, about 7 pounds. Shpg. wt., 7¾ lbs.



No. 10N14650 Nu-Back GRAY Fur Robe. Price, each...**$14.75**
No. 10N14651 Nu-Back BROWN Fur Robe. Price, each... **15.75**

The "Belvidere" Striped Horse Blanket

An Extra Large Blanket for Big Draft Horses.

Size, 90x96 Inches.
Price,
$4.50
Wt., About 10 Lbs.

We Highly Recommend This Blanket for Its Splendid Wearing Qualities.

A Wonderful Value.

A Strong, Heavy Warm Blanket, at a Low Price Sure to Give Satisfaction.

Our Advice: Order Early.

Made from a mixture of cotton and a small quantity of wool. The present high cost of materials, labor, etc., has increased the manufacturing cost of blankets to such an extent that we have been compelled to raise blanket prices slightly over those of last year. However, the quality of our blankets remains the same. Your opportunity for saving at our new price is as great as ever.

Dark gray blanket with striped border. Shipping weight, about 11½ pounds.

Save Money on Axle Greases and Harness Dressings

Save the Cost of New Things by Keeping the Old From Wearing Out.

Seroco Solid Axle Grease

"Give me five pounds of wagon dope," is a very expensive way to buy your axle grease. Axle greases can be made from either good or poor quality oils, and when you are indifferent about the quality and just ask for "wagon dope" you may not get the best. It is only after several months' use that you can tell the difference in grease—and then it is generally too late. The worn axles showing wasted power and the exhausted grease supply will have proven a costly experiment. The best way to buy your grease is to trade with a reliable concern that has a reputation for fair dealing—a concern that will guarantee the grease and stand back of the guarantee.

Our Seroco Solid Axle Grease is a high grade lubricant. It is used by many of the large teaming concerns in Chicago and other cities. It has given satisfaction wherever used and we can safely recommend it as an excellent lubricant.

Longlife Harness Oil

Since harness seldom wears out until it dries out, it is real economy to keep it well oiled. Rain, sun, dust and perspiration shorten the life of harness because they dry up the natural oil. Oil your harness and keep it from cracking. A few hours spent oiling your harness with this Longlife Harness Oil will be time well invested. Get your harness ready for Spring work during your spare time this Winter.

This is a special high grade compounded oil that will renew leather harness, make it pliable and prevent leather from cracking. It contains sufficient coloring matter to color the cracks in old harness and make the leather look like new without any injury to it. Send us a trial order; if you are not satisfied after a fair trial, send back the balance of the oil and your money will be promptly returned.

Have You Any Harness? Read This.

Fairman, Ill.

I certainly am very highly pleased with your Harness Oil. I have a vat into which I put the oil and dip the harness. I have dipped harness for at least forty men, and each and every one of them has expressed his perfect satisfaction. This Longlife Harness Oil makes harness look as good as new, and more pliable than when new. I wish to thank you for putting this oil on the market, as it is far better than other oils I have used. R. M. CARRIGAN.

Harness Dipping Oil.

Same quality as our High Grade Harness Oil No. 30N3410, but somewhat thinner. To be used in connection with our Harness Dipping Tank listed below. Guaranteed to give perfect satisfaction.

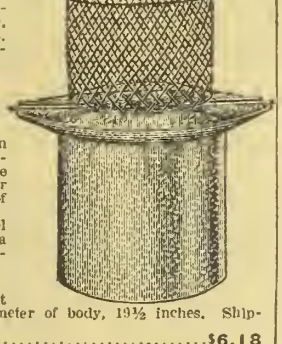
Harness Dipping Tank With Basket.



Harness and leather that is not oiled thoroughly soon loses its life, becomes hard and cracks. The quickest and most effective way to keep harness and leather pliable is by dipping in the preservative liquid. Every part then gets a thorough application. This tank will save its cost many times over in prolonging the life of your harness.

Made of galvanized steel and equipped with extra heavy wire basket. Furnished in two sizes.

Leather Preservative.

Preserves Harness by Keeping It Pliable. Makes Two Pairs of Shoes Do the Work of Three.

This oil preparation will lengthen the life of your shoes, harness and all leather goods by preserving the leather and making it pliable. It makes the leather soft and thus prevents it from cracking. It has been known to lengthen the life of leather in many cases over one-third. This means a considerable saving in the cost of your footwear. One good application to the soles and uppers of your shoes will make them as watertight as leather can be made. The oil soaks into the leather and does not remain on the surface to look greasy. One pint should be enough to keep your shoes in good condition for several months. Liverymen, railroad men, farmers, policemen, in fact, everyone who is exposed to wet, sloppy weather, should not be without a can of this wonderful Leather Preservative. Besides being recommended for shoes it should be used on leather gloves, harness, automobile leather clutches, and as a rust preventive on guns, knives, razors, etc.

1-gallon can	(Shpg. wt., 10 lbs.)	1.94

Strictly Pure Pine Tar.

Used by horseshoers for packing, healing and dressing the hoof. Used by the farmer for tarring the hands before husking, for healing sores on horses and cattle and as a sheep dip. Pine tar will keep buffalo gnats off your live stock. Used by nurserymen to promote the growth of bark on trees and to keep off the insects. Also used for tarring seines, rope and steel cables.

No. 30N3466

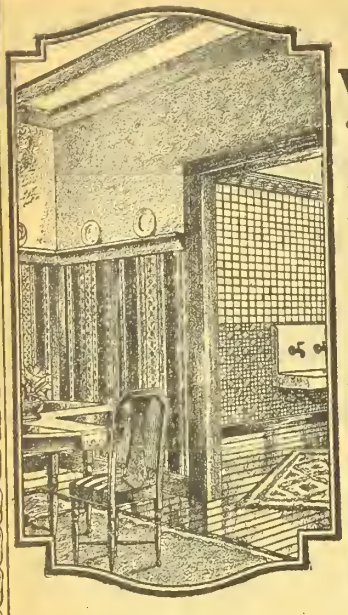
For a Complete Line of Machinery Lubricating Oils See Page 1499.

Sanitary Wall Oilcloth



WALL Oilcloth is a sanitary and very serviceable and beautiful wall covering for kitchens, pantries and bathrooms. Just think of the fact that the walls of your kitchen, pantry or bathroom can be washed with soap and water, making them clean and like new, without the trouble and expense of replacing as is necessary with other wall coverings.

Wall Oilcloth is easy to apply—it is hung just like wall paper.

All the tile and figured patterns have a high gloss finish and have borders to match. The designs are printed in fadeless oil colors.

The plain dull finish patterns are pebble embossed solid tints and have a soft velvety finish, making them a very desirable decoration for bedrooms, living rooms, etc. Used with a stencil border these patterns will make some of the most attractive rooms possible to obtain.

To find the amount of 47-inch Oilcloth Wall Covering required to cover a certain area divide the area in square feet by eleven (11). For example: Area to cover 132 square feet, divided by eleven, equals 12 yards, the quantity of Oilcloth to order. For border divide the distance around the room in feet by 3 to get the number of yards of border to order.

Prices of Oilcloth Wall Covering.

Width, About 47 Inches.

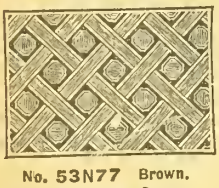
Ceiling, Plain Gloss White No. 53N46.

Lincrusta Wall Covering



No. 53N77 Brown.
No. 53N78 Green.

LINCRUSTA Wall Covering is a practical and high class decoration closely resembling carved leather. The designs stand out boldly and in deep relief from the background, somewhat on the order of embossing, but in a much more pronounced manner. The material is heavy, and under proper treatment gives excellent service for years.

It is used for wainscoting in libraries, vestibules, public halls and churches, for stairways and entrance halls, and is used for the lower third or two-thirds of the dining room wall, being placed just beneath the plate rail. It makes one of the most serviceable wall coverings it is possible to secure. It resists dampness and may be washed with soap and water without the least injury to material or finish. The colors are permanent. A coat or two of ordinary ready mixed house paint may be applied at any time if a change of color is desired. Lincrusta is hung just like wall paper.

No. 53N63 Blue.
No. 53N64 Green.
No. 53N65 Brown.
No. 53N79 Gray.

We can furnish this material in eight different designs. Samples will be sent on request. Width, 19½ in. Shipping wt., per yard, 1 pound.

Paper Veneer for Walls

Paper Veneer is a heavy manila paper printed in oil colors to resemble oak grain. It is used in place of wall paper in dining rooms, halls, stairways and dens and produces a dignified and beautiful effect. It is hung with ordinary paste. When dry, a coat of Shellac No. 30N2657, page 1583 and a coat of Seroco Cabinet Varnish No. 30N2716, page 1580, applied over it gives it the appearance of genuine oak wood. Each roll is 36 inches wide. Shipping weight, 2½ pounds per 8-yard roll. Samples furnished free on request.

No. 53N1178 Straight grained golden oak.
No. 53N1179 Quarter sawed oak (as illustrated).
No. 53N1180 Straight grained brown weathered oak.

Price, per 8-yard roll.....$0.65
Price, per 16-yard roll..... 1.15

Vitrophane for Windows

Vitrophane produces an imitation art glass effect at small cost. It is used to decorate windows, glass doors and transoms in both private and public buildings. It does not exclude the light and oftentimes takes the place of curtains or shades. It may be washed without injury to the fabric, is guaranteed not to fade, peel or blister. It is not affected by excessive heat or cold and will last many years. Any housewife can apply it. Directions for applying are furnished with each roll. We have this material in five different designs, furnished in rolls 4½ yards long, 18 inches wide. Shipping weight, 12 ounces. Samples on request.

No. 53N1194 Red and green squares, black lines.

Colored Burlap for Walls

A heavy, closely woven, jute burlap, especially prepared for use on walls and must not be confused with the cheaper, lighter grades of burlap sold for curtain hangings and portieres. It is dyed with fast colors in three beautiful shades and is heavily sized on the back, ready for pasting. It is applied just like wall paper. It will last for years and can be painted any time a change of color is desired. Width, 36 inches. Shipping weight, per yard, 1 pound.

Samples mailed free on application.

Shipping wt., 30 lbs.

Seroco Elastic Sizing.

This sizing can be used on whitewashed, kalsomined, painted or sand finished walls or ceilings. It creates a perfect surface on which to hang any material. It sticks, and sticks for good. For heavy wall coverings it is ideal. Used on kalsomined walls it saves the annoyance of washing, and paper can be hung without danger of peeling. One quart will make enough size for the walls of an ordinary room.

PAPERHANGERS' TOOLS

Simplex Wall Paper Trimming Outfit, $3.45 and Up

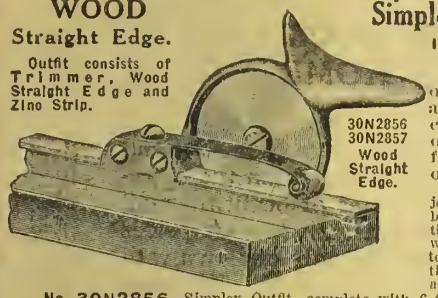
If You Do Your Own Papering You Should Have This Excellent and Reliable Simplex Wall Paper Trimming Outfit.

This Simplex Wall Paper Trimming Outfit was originally made for professional paperhangers and is a thoroughly practical and serviceable device. By purchasing the patents and manufacturing the outfit in our own factory, we are able to make a price of $3.45 for the complete outfit, placing it within the reach of all home owners.

The wood straight edge is made of strips of selected hardwood joined in such a way as to prevent warping and bound on the edge by brass strips. An accurate scale is laid off on the straight edge, thus enabling the paperhanger to measure the paper while cutting, without the use of a rule. The trimmer blade is made of selected tool steel and is mounted in a nickel plated casting that fits the hand perfectly. This trimmer runs in a brass mounted channel and will withstand hard usage.

WOOD
Straight Edge.

Outfit consists of Trimmer, Wood Straight Edge and Zinc Strip.



No. 30N2856 Simplex Outfit, complete with 6-foot wood straight edge. Shipping weight, 8 pounds. Price.....$3.45
No. 30N2857 Simplex Outfit, complete with 7-foot wood straight edge. Shipping weight, 9 pounds. Price.....$3.60

STEEL
Straight Edge.

Outfit consists of Trimmer, Metal Straight Edge and Zinc Strip.

We can supply all repair parts.

No. 30N2855 Simplex Outfit, complete with 6-foot metal straight edge. Shipping weight, 11 pounds. Price.....$3.45
No. 30N2854 Simplex Outfit, complete with 7-foot metal straight edge. Shipping weight, 13 pounds. Price.....$3.60

Folding PasteTables.

Straight Edge and Tools Not Included. Folding Paste Table. Strong and light in weight, with space and hooks for carrying straight edge and tools. A zinc strip furnished with each table. Width, open, 22 inches; closed, 11 inches; height, 32 inches. Shipping weight, 20 to 23 lbs.

Wall Paper

Ready Trimmed and Shipped in Boxes

OUR WALL PAPER SAMPLE BOOK SHOULD BE IN EVERY HOME

TAKE advantage of our low prices and decorate your rooms. Send for a copy of the Wall Paper Sample Book illustrated on the opposite page. It contains nearly 100 actual samples of beautiful wall papers that will help you make your home more attractive. Our prices are based on factory cost, because we manufacture not only our own wall paper, but the **paper stock on which the designs are printed.** We save money on every operation and you get the benefit in our low prices.

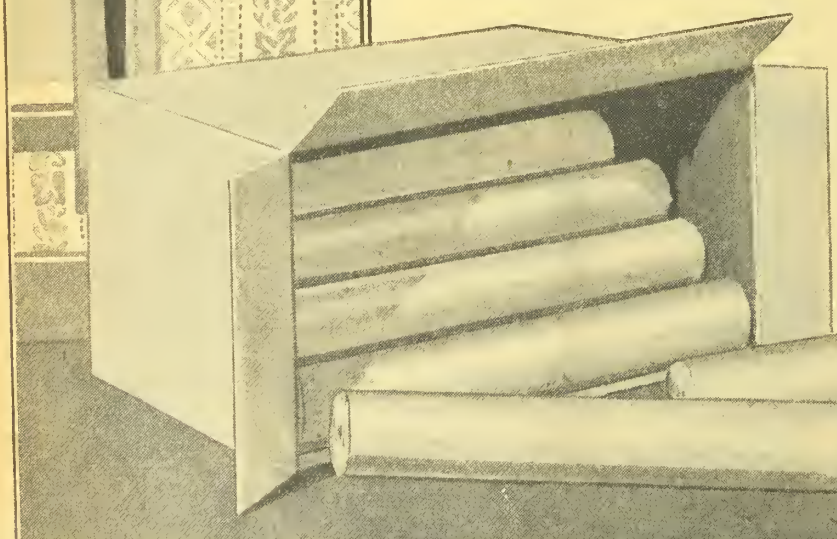
An inspection of this Wall Paper Sample Book will prove to you that we can save you money and furnish you papers that will lend grace and elegance to the decoration of your home. It shows papers for every requirement—practical papers for the kitchen, pantry or bathroom; dainty, exquisite designs for the bedroom, dining room, living room or library—in a large variety of colorings and patterns from which to make your selection; wall papers of highest quality.

Write today for your copy of this book. Just send us a letter or post card and say, "Send me a copy of the Wall Paper Sample Book," and it will be sent to you free and postpaid.

We Trim Your Wall Paper Free.

The wall paper you buy from us comes to you ready to hang. We trim off one edge so that all you have to do is paste the paper and hang it. The edges are trimmed absolutely straight and it is a simple matter for you to do a perfect job. By trimming one edge of the paper for you we help you save time, labor and money. There will be no trimmed off, pasted edges to be tracked all over the house, no disagreeable mess to clean up after the job is done, if you use our ready trimmed wall paper. You can hang more paper by using ready trimmed paper because you don't have to take the time to trim it. Paperhanging has been made easier than ever because of this new feature of ready trimmed paper.

This additional service costs you nothing. We trim the paper in our own wall paper mill, where we not only print all the patterns, but manufacture the paper upon which the designs are printed.



We Ship All Orders in Dustproof, Heavy Fiber Board Boxes.

If you have ever purchased wall paper before, you realize what a satisfaction it will be to receive your paper with the ends perfectly clean and undamaged.

AS THE years have brought advances in science, in manufacture, in education, so have we continually developed our paint products to their present high standard.

The latest methods of handling, the most advanced machinery, the perfected formulas for the mixture of ingredients have brought Seroco Paint to a degree of excellence which years ago seemed unattainable.

As experiments teach our experts new and better ways of producing paint, these discoveries are immediately put into use, so that our customers may be assured of the best that we can provide. Naturally, also, we take advantage of the progress science makes in this direction with the end in view of bringing Seroco Paint to the highest state of development.

Our guarantee, which protects the purchaser even after Seroco Paint is applied, is evidence indeed of our firm belief in Seroco quality. The test of wear is the only real test for paint quality, and a guarantee which fully covers that point must of necessity go only with a product of unquestioned quality.

We could tell you in technical terms of the problems which enter into the manufacture of paint; of the ingredients from which it is made and the process these ingredients must go through before the finished product is produced. But all this would avail nothing—unless we were willing to back these statements with our guarantee.

And that is why you will find the formula for the manufacture of Seroco Paint on every can we sell. Open and above board, we frankly tell you the ingredients which compose Seroco Paint—and back of this formula is our rigid guarantee.

Today, in every part of the country, under all climatic conditions, Seroco Paint is giving perfect satisfaction to thousands upon thousands of paint users. Seroco Paint is not an experiment; it is a proved success.

Made in our own factory, under the supervision of our paint experts, Seroco quality is unchanging. Uniform at all times, it stands as a remarkable example of what really good paint can do.

Quality, yet more quality, and quality added to that, and you have some idea of Seroco Paint. The best ingredients we can obtain enter into its making. The most skilled workmen and the most advanced machinery see that these ingredients do their work.

In marketing Seroco Paint we are able to offer it to you a price which means a distinct saving,

BECAUSE—

FIRST—We manufacture it ourselves in our own factory;

SECOND—We sell it direct to you, thereby eliminating middlem profits; and,

THIRD—It is made and sold in enormous quantities.

When you buy paint, however, consider quality first, because un tain quality at a low price is not economy.

Buy Seroco Paint for—

Protection. If your house is not painted the weather is destro it just as surely as though it were on fire, because decay and fire both c practically the same results, the length of time required for the dest tion being the only difference. It would be false economy not to pr the money you have invested in your home. Rot and decay cost much more than a coat of paint. So lengthen the life of your hom keeping it always painted with Seroco Paint.

Beauty. Seroco Paint forms a beautiful high gloss over the su which readily sheds water. It will beautify your home and make it attractive. And best of all about Seroco Paint is that **its beauty la** because it does not chalk or peel or rub off. Its long wearing qua are amazing and we guarantee it to give absolute satisfaction so that besides beautifying your home and making it more attractive, Seroco Paint protects it from decay and helps you safeguard the money you have invested in it.

Whether you paint for appearance or for weather protection the quality of the paint you use is of the utmost importance, because paint which peels, blisters or rubs off neither looks well nor does it protect. Seroco Paint is backed by our guarantee of satisfaction or money returned. In all our tests we have found it a most durable paint.

Price. In considering the low price of this paint remember that Seroco Paint is made in our own factory and sold to you direct with only one profit added.

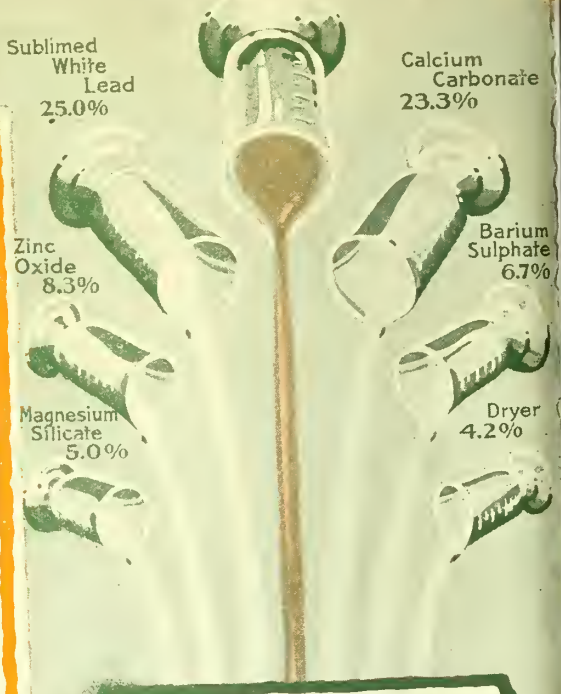
HOW TO MEASURE YOUR HOUSE FOR PAINT See Page 1572.

Why SEROCO PAINT is so Durable



SEROCO Paint is made from white lead, zinc, calcium carbonate, barium sulphate, magnesium silicate, linseed oil and dryer. The formula of the Outside White is printed below. You will notice that several different materials are used in the manufacture of Seroco Paint. This is for the reason that a paint composed of three or four pigments of different size particles forms a less porous film than a paint made from one or two pigments. It will thus be seen that by balancing each formula so as to supply what is lacking in one pigment by the addition of others we produce a paint, the pigment particles of which render adequate support to the oil film and at the same time do not chemically act upon it to destroy it. Innumerable laboratory and exposure tests have shown conclusively that the linseed oil of any paint is of more vital importance than any pigment which may be added to it. The best paint, therefore, is one which is made of absolutely pure linseed oil and the proper proportion of pigments which have no effect on linseed oil.

THE FORMULA OF CONTENTS IS ON EVERY LABEL.

Of course you would like to know that the paint represents full value for the price. For this reason every can of Seroco Paint shows the formula of contents on the label. You naturally want to know something of its contents, of its protecting, wearing and preserving qualities and its appearance. When you buy Seroco Paint you are sure of all these qualifications before you invest a penny. Our guarantee of **ABSOLUTE SATISFACTION** protects you. This guarantee makes you the sole judge. We put the decision squarely up to you.

We have made numerous tests of Seroco Paint, and after years of weather exposure it has proved that its wearing qualities are of the highest standard. We want you to try Seroco Paint and put it to the most severe test. **Seroco Paint will prove what we claim for it.**

If a more durable paint could be made, we would make it. And if at **ANY** time you feel that you are not satisfied; that you could have done better elsewhere; that you have not saved money, or that the paint is not wearing—we agree to make it **RIGHT!** Can you find a squarer man to man offer than this—could anybody be more fair?

We show herewith the formula of Outside White Seroco Paint. An inspection of this formula will show how carefully the pigment portions have been balanced. All colors have been as carefully made.

ANALYSIS No. 243. OUTSIDE WHITE.

	Total	Solid Materials	Liquids
Sublimed White Lead	25.0%	36.6%

Guarantee

We guarantee our paint to give you the service you have a right to expect; that it represents full value for the price you pay. After applying a portion of any paint you purchased from us, if you are dissatisfied in any way, you may send back the remainder and we will return the money you paid for the entire quantity, including all shipping charges. Or, if after you have applied all the paint, you are not satisfied with the service it gives, we agree to furnish new paint free of charge and pay all shipping charges.

Sears, Roebuck and Co.

How to measure your house for painting

To find the quantity of paint you require, measure the length, width and height of the building. Add together the total length in feet of the two sides and two ends of the building. Multiply this by the height of the building. Then divide the number of square feet of building surface by 250 and you have the number of gallons required for the building.

For example, suppose your building measures 26 feet wide, 33 feet long and 22 feet high, you would figure it as follows:

Front	26 feet
One side	33 feet
Rear	26 feet
Other side	33 feet
Total	118 feet
Multiply this by height	22 feet
Total	2,596 sq. ft.

Divide this by 250, which represents the approximate number of square feet of surface that 1 gallon of our paint will cover, two coats. You will find this gives about 11 gallons. If the surface is in good condition and has been previously painted, it should not require even that much, and if the surface has never been painted we recommend three coats for a first class job. In figuring the amount of trimming required, the rule of 1 gallon of trimming to 5 gallons of body is usually followed. If you want to paint a barn or a fence, measure the same way as we have measured this house, and figure the amount of our barn paint accordingly.

POLICY HOUSE PAINT

OLICY HOUSE PAINT is made of white lead, zinc and linseed oil with pure turpentine Japan dryer and enough color to make the desired shade. It is made of the highest priced materials and it costs just as much to make as the highest priced paints he market today. The formula of contents is on every label.

The only reason you can buy Policy House Paint at only **$2.62** to **$2.78** per gallon is use we make it in our own factory. You will be agreeably surprised at the saving prices will effect for you. The money we save you is the middlemen's profit. If you to use a white lead and zinc paint you can make a big saving by buying it from us.

Policy House Paint will wear practically as well as any other white lead, zinc and oil t, but from exhaustive tests that have been made all the evidence proves that our co Paint is more durable than any combination of white lead, zinc and oil that we have been able to find.

Some people have never heard of anything but white lead and oil paints. Naturally n they think of painting they believe that the only paint for them to use is white lead and Indeed, white lead still remains the basic pigment from which paint is made, but it long since been discovered that it is as unwise to use all white lead in paint as it would be to use pure gold in a watch. A watch case of pure would very soon wear out. A pure white lead paint generally breaks down in two years.

If you have been mixing your own paint from white lead and oil, send for antity of Policy House Paint and test it out in any way you see fit. We are g to let you be the judge. But whether you wish to use a white lead and paint or our Seroco House Paint we can save you money.

NOTE—Colors No. 30N713 and No. 30N744 are recommended for rior use only.

Concrete or Stucco Paint for Any Building or Silo Made of Brick, Stone, Concrete or Stucco

Our Concrete or Stucco Paint provides a most efficient and durable dampproofing treatment for exterior masonry surfaces. It penetrates the pores of the surface and on hardening thoroughly seals them, preventing the absorption of water into the treated area.

The distinctive appearance of a masonry surface is entirely retained by the use of this stucco paint. It equalizes the color of the surface and imparts a finish of stonelike texture of a most attractive nature. It is strictly a cement coating prepared to meet the exact physical and chemical requirements of a masonry surface and not only excludes dampness from the wall, maintaining a perfectly dry and sanitary condition on the interior, but it prevents all tendency of the treated area to become stained and unsightly.

This paint is also adapted for painting concrete floors. By forming a tough film over the surface it prevents the cement dust from accumulating and keeps the floor clean.

Our Concrete or Stucco Paint covers approximately 100 square feet, two coats per gallon, on a surface of average porosity. It is easily ied and retains its original color.

Concrete or Stucco Paint can be furnished only in the following colors. For color samples send for our Paint Catalog.

30N2028	White	30N2030	Cream	30N2032	Chocolate Brown	30N2034	Willow Green

BARN PAINT

For Color Samples Send for Our Paint Book.

Whether you paint for appearance or for preservation you should use the best paint possible to obtain, regardless of price. When it comes to price, however, you are able to get right quality from us at such a saving that it will pay you well to send us your order.

Seroco Mineral Barn Paint has many friends because of its preservative qualities. The minerals are ground and re-ground to unusual fineness by up to date machinery and the oils are thoroughly mixed with the pigment in large batches. Its wearing qualities will give you excellent satisfaction. It is especially suitable for metal roofs and many customers have testified to its excellent service for this purpose.

We want you to try it out for yourself. Send for a gallon can, costing $1.48, paint a section of your barn which has the hardest wear, and after a thorough trial we believe that you will send for a sufficient quantity to paint the entire barn.

One gallon of Seroco Weatherproof Mineral Barn Paint will cover about 250 square feet of surface, two good coats, and in many instances it will cover 300 square feet and over, two coats, depending upon the condition of the surface. All new wood should receive three coats for a good job. It is a very economical paint to use. Give it a trial on the next job; you will never regret it and you take no risk whatever, as you are protected by our guarantee.

You do not need to be an expert painter in order to do a first class job with this paint. Our Paint Color Book, sent free on request, tells what brushes and tools to use, and it helps you to do a good job. Take advantage of our money saving paint prices, and with the help of this book do the work yourself and you will be surprised how good a job you can do at such little cost.

For directions on how to measure your barn for painting see page 1572.

The difference in the cost per gallon in the various containers is due to the cost of putting up and handling as well as the difference in cost of the containers.

Wagon and Implement Paint.

A paint made expressly for wagons and farm implements and one which has wonderful wearing qualities. Made of high grade materials with non-fading colors. Being extremely tough, it will not crack or peel off. It is cheaper to use paint than to allow your wagon or farm implements to go to decay. One gallon will, in many instances, refinish every implement on the farm. It is an ideal implement paint because it can be used on iron as well as wood. Saves many times its cost in preventing rust and decay. Dries hard with a high gloss. Apply with a varnish brush, 1, 2 or 2½ inches in width.

For Color Samples Send for Our Paint Book.

Few people would care to take the trouble of applying a beautifying stain only, when by paying a little more money they can obtain a stain that both beautifies and preserves. Such a stain is our Preservative Creosote Shingle Stain.

Shingles certainly get all the sun, the rain and the snow and have every reason in the world for rotting. You can protect them and prolong their life with a coat of Preservative Shingle Stain.

Buy a Shingle Stain That Preserves.

A Combined Wood Preserver and Shingle Stain.

Shingles treated with this Creosote Stain will neither warp nor rot. The preserving liquid penetrates the wood, remains to protect it from the weather and does not evaporate. One gallon of this Creosote Stain will cover 75 to 80 square feet of shingles, two coats. When dipped, 2½ to 3 gallons will cover 1,000 of the regulation 4x16-inch shingles. Two-thirds of the length of the shingle only need be dipped. Shingles should never be painted, because the paint leaves a ridge at the butt end of the shingle and holds the moisture under the lap, causing the shingles to rot. Our Preservative Creosote Shingle Stain penetrates the shingles, follows the pores and grain of the wood up under the lap and prevents rot and decay. In buying it you are getting a thoroughly dependable stain and one which you can rely on to give you the best possible service.

Preservative Creosote Shingle Stain is made only in the following colors, the only colors in which Creosote Stain can be successfully made.

How to measure your roof for shingle stain on page 1572.

NOTE—Only the brown can be used on hardwood.

The difference in the cost per gallon in the various containers is due to the cost of putting up and handling as well as the difference in cost of the containers.

Buggy and Carriage Paint.

Seroco Buggy Paint will withstand the wear of frequent washing and still retain its luster. It is made from first quality pigments ground in fine grade carriage varnish and for durability and finish our buggy paints are recommended. One coat makes a beautiful and durable finish and no varnish required. One quart costing 61 cents, with very little labor, will make an old buggy look like new. No experience necessary. Anyone can apply it, as it comes to you ready for use. While this paint is made expressly for buggies and other vehicles, it can be used with excellent results on settees, benches, lawn swings, chairs or any article exposed to the weather. Apply Seroco Buggy Paint with an oval varnish brush.

STOP THE ROOF LEAKS

Longlife Liquid and Elastic Compounds

You don't have to wait for a tinner or roofer to repair your roof when it is leaking! Here are two materials that may be used for repair work on all types of roofs—wood, metal, concrete, tile, stone and composition roofings.

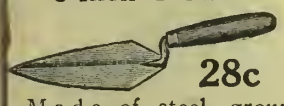
Longlife Elastic and Liquid Compounds are a combination of weather-resisting gums, oils and asbestos fibers that will stop roof leaks positively and permanently. These compounds never crumble, disintegrate, split, crack or chip off; contain no ingredients that will soften under the sun's hottest rays but retain elasticity and pliability under all extremes of temperature. They will not harden in the package and what is left can be used at a later date.

Longlife Elastic Compound is of putty like consistency and recommended as an entire roof coating to be applied about ⅛ inch thick with a trowel. Where an old roof is badly worn it need not be removed, as it will form a base for this material. For patching large holes and gaps and in repairing gutters, chimneys, flashings, skylights, cornices, parapets, etc., it is excellent.

Longlife Liquid Compound is a glossy black liquid of paint consistency recommended as a preservative to be applied to the entire roof. It is applied with a roof brush.

These two compounds are made of exactly the same materials but in two consistencies. The nature of the repair work will determine which to use but in many cases either one will work. On a badly worn roof we would suggest first going over the whole surface with a trowel, filling the larger cracks and holes with Elastic Compound and then giving the entire roof a coat of Liquid Compound. An additional coat of Liquid Compound every two or three years will keep your roof in permanent repair.

6-Inch Trowel.



28c

Made of steel, ground smooth and well shaped. Especially recommended for applying Longlife Elastic Compound. Weight, about 6 ounces.

Rufix

For Painting Roofs and Keeping Them in Good Condition.

It preserves shingles, tin, iron or felt from the action of the elements and will make an ordinary roof last many years longer. Ordinary leaky roofs, either tin, iron, composition, felt or old shingles, can be made watertight with our Rufix. It is a combination of oils, gums and other ingredients made for this particular purpose.

Rufix does not contain an ounce of coal tar. Coal tar products will soften during very hot weather, causing them to crawl and expose parts of the roof. Our Rufix Paint, after once dry, will not soften during the hottest weather. It is a heavy, rubberlike, waterproof liquid that will make an old roof watertight. In most cases one coat will be sufficient to stop leaks. (Longlife Elastic Compound is needed for large holes.) Suitable also for all iron work, bridges, smokestacks, water tanks, iron pipes, etc., that are exposed to heat, acid, electricity or the weather. One gallon will cover 200 square feet, one coat, on smooth surfaces.

		No. 30N1910 Black.	No. 30N1920 Maroon.

Asphalt Roof Paint.

For Painting Felt or Composition Roofing, Iron or Shingle Roofs, Iron Bridges and Trestles, Sheds, Warehouses and Other Buildings. Second in Quality Only to Our Rufix.

This Asphalt Roof Paint will give far better service for felt and composition roofing and for painting iron and shingle roofs than any of the coal tar preparations. It is elastic, has a good body and is very durable.

If conditions are such that you cannot use our Rufix, then send us your order for this Asphalt Roof Paint with the guarantee that the paint, considering its low price, is one of the best values we ever offered and that it will prove satisfactory in finish, durability and covering capacity.

One gallon of this Asphalt Roof Paint will cover about 250 square feet of smooth surface, one coat, or about 150 square feet of wood shingles or felt roofing, one coat.

No. 30N1941 Asphalt Roof Paint. Black only.

Longlife Wood Preserver.

Wood decay is caused by germs or fungi. The wood decaying germs or organisms thrive best at the surface of the ground where a uniform condition of heat and moisture exists. Keep your timbers from rotting by preventing these organisms from developing. They cannot live in the presence of LONGLIFE Wood Preserver, and for the effective preservation of fence posts, sills, joists, mine timbers, telegraph poles, railroad ties, and all other timbers which come in contact with the surface of the ground, LONGLIFE Wood Preserver has proved its preservative qualities.

Although excellent preservation can be obtained by merely brushing two or three coats of the liquid on the post, preservation is best accomplished by heating LONGLIFE Wood Preserver and dipping the butt ends of the posts in the hot liquid to about 6 inches above the ground line.

LONGLIFE Wood Preserver does not have a tendency to evaporate, remains in the wood indefinitely, and is impervious to water, which makes it an ideal preservative. LONGLIFE Wood Preserver has been known to double the life of cedar posts and to add from ten to fifteen years to the life of cottonwood and other soft woods that otherwise cannot be used for posts. The cost per post, measured in length of preservation, makes LONGLIFE Wood Preserver one of the best investments you can possibly make. One gallon will treat the butt ends of about twenty ordinary posts to a distance of 2½ feet.

Concrete walls and blocks can be made waterproof with two coats of LONGLIFE Wood Preserver, which should be applied at an interval of 24 hours. Concrete so treated is not injured by frost, nor does it become slippery from ice or sleet.

LONGLIFE Wood Preserver gives a handsome brown color that never fades, darkens or peels off. It is highly recommended for shingle roofs, as it spreads evenly and does not form ridges between or at the lower edges of the shingles.

PRICES No. 30N1947 LONGLIFE Wood Preserver.

KALSOMINE

VELVET Sanitary Kalsomine is furnished in a complete range of beautiful tints and colors. It dries with a smooth hard finish that will not rub off. Kalsomine is used extensively; in fact, it is one of the most popular ways of decorating, because of its beauty and sanitary properties. Kalsomining a room is a very economical way of decorating it; the kalsomine is not at all expensive and it is so easy to apply that you can do the work yourself, making it possible, if desired, to redecorate your home each season. Complete directions for applying kalsomine are given on each package. Kalsomine can be used for any room, and by using different and harmonizing colors in the various rooms, a very charming and artistic home will result. It can be used over paper or wood.

A stencil border or panel on the walls or ceiling of a kalsomined room produces a beautiful effect at a very little cost. A complete line of stencils is shown below.

One package will cover the walls and ceiling of the average 10x12-foot room.

Velvet Sanitary Kalsomine Is Furnished in the Following Colors:
For Darker Shades of Kalsomine See Fresco Colors Listed Below.
For Color Samples Send for Our Paint Book.

Kalsomine an Entire Room for Only 45 Cents.

Per case of 25 packages, all one color. (Shipping weight, 115 pounds.) Price..... **10.50**

Fresco Color Kalsomine.

Fresco Colors are used for the same purposes as Velvet Sanitary Colors, but come in darker shades and are usually listed separately from the lighter colors. They are used for the walls of halls, dining rooms, living rooms and wherever a dark shade is desired. The covering capacity of Fresco Colors is greater than the covering capacity of the regular colors: 3 pounds of the Fresco Color will cover as much surface as 4 pounds of the Fresco Color kalsomine. Three pounds are usually sufficient for the walls of a medium size parlor or dining room. These colors may also be used for stenciling on kalsomined walls.

You must see that the walls are thoroughly sized before applying the Fresco Color.

For Color Samples Send for Our Paint Book.

Undercoat for Kalsomine.

A special size to be used on plastered walls before applying Kalsomine or Fresco Colors. Two pounds will finish an ordinary sized room. It is very economical because it produces an extra hard, permanent surface which holds up the kalsomine, thus increasing the spreading capacity and making the color flow evenly. It prevents grease and stain spots from working through and killing the color of the kalsomine. Full directions on every package.

These stencils are made of heavy oiled paper about 15 to 25 inches long and are used for making borders, binders or centerpieces on kalsomine, painted or frescoed walls, or on plain or ingrain wall papers. When stenciling kalsomine walls, coat the stencil with shellac before using.

They are made in one repeat only. Wherever two repeats are illustrated it is to show the effects which can be produced.

SEROCO FLAT FINISH PAINT

Practical.

The practicability of Seroco Flat Finish Paint is one of its most desirable qualities. It can be easily applied by anyone, even though inexperienced, because no special preparation is necessary. Just open the can, stir up the contents and apply with a flat paint brush. No special mixing or cooking necessary.

It is low in price and has a covering capacity of over 200 square feet per gallon, two coats, and is therefore one of the most economical finishes that you can apply to your walls. It is delicate in appearance only, and is so tough, durable and elastic that it will withstand numerous washings with little or no injury to the finish. Thrifty housewives everywhere are using Seroco Flat Finish Paint because of its practical qualities.

Size or First Coater.

Before applying Seroco Flat Finish Paint the walls should be thoroughly sized. We recommend the following size to be mixed in equal parts with Flat Finish Paint, thus: 1 quart of size to 1 quart of Flat Finish Paint will cover about 250 square feet. **Order by catalog number.**

No. 30N2734 Size for use with Flat Finish Paint.

Sanitary.

Seroco Flat Finish Paint combines, to a highly satisfactory degree, sanitation, beauty and economy, at a low price. It is an oil paint which will give to your walls a dull finish washable surface so desirable for kitchens, bathrooms, play rooms, hospitals, etc.

Every housewife likes a clean kitchen. Apply this paint to the walls of your kitchen and you can easily keep the walls clean and sanitary. In hospitals, where sanitation is so essential, this quality in Seroco Flat Finish Paint is especially appreciated. Housewives who desire cleanliness are using Seroco Flat Finish Paint for the decoration of the walls in their homes which might require repeated washings.

Beautiful.

Seroco Flat Finish Paint gives to the walls that soft, velvetlike finish which is so sought after by the high grade interior decorators. There is no glare or shine to walls finished with Seroco Flat Finish Paint, but only that delicate artistic tone indicating refinement and good taste. This beautiful finish can be furnished in several attractive colors and possesses decorative qualities found in few other finishes recommended for interior walls and woodwork. Our Special Paint Book gives but a slight idea of how really beautiful your walls will look. There is no room in the home which cannot be satisfactorily decorated with this delightful finish. Living rooms, libraries, dining rooms and bedrooms all have an added charm when the artistic color combinations of Seroco Flat Finish Paint are used to decorate the walls and ceiling. Notice the delightful effect produced by the stencil borders illustrated in the colored interiors in our Special Paint Book. They assist in creating a desirable, charming, decorative effect so expressive of individuality.

NOTE — Before applying Seroco Flat Finish Paint the walls should be thoroughly sized. See **Size or First Coater**, listed opposite.

CHINESE GLOSS LACQUER

Colored Varnish.

$2.36 A GALLON

For Color Samples Send for Our Paint Book.

Beautiful, highly polished furniture is generally purchased to replace the old unsightly pieces that have become scratched, marred and soiled through continual service. This replacement is expensive and oftentimes the old furniture is just as substantial as the new. Then why not replace the finish with 33 cents worth of Chinese Gloss Lacquer, instead of replacing the entire piece of furniture, and save the difference?

Chinese Gloss Lacquer is a special Colored Varnish that makes old, scratched or marred furniture, woodwork or floors look like new with but one or two applications. It can be applied by any housewife and the finished work will be satisfactory, rich and beautiful. Open the can, pour a little of the liquid into a saucer or cup and apply it with a flat varnish brush. There are no intricate directions to follow and there is no special mixing to be done. It is put up ready to use. Twenty-four hours after the lacquer is applied the furniture, woodwork or floor can be used.

All your dark, smoky, painted woodwork can be given a bright amber color lustrous finish or can be made to represent mahogany, oak, walnut or various other woods by applying one or two coats of our Chinese Gloss Lacquer of the shade desired. It is not necessary to remove the original finish. If the woodwork is light, Chinese Gloss Lacquer can be used alone. If the woodwork is dark and a light finish is required, apply one coat of ground color and over this ground color apply whatever shade of Chinese Gloss Lacquer is desired. One gallon will cover 600 square feet, one coat.

Order a quantity of Chinese Gloss Lacquer, use a portion of it as directed on any piece of furniture or woodwork, and if you are not entirely satisfied send back the remainder of the finish and we guarantee to return your money and all transportation charges you paid. Clear, transparent varnishes are listed on page 1580.

For First Coater or Undercoat, use No. 30N2697, listed below.

Apply Chinese Gloss Lacquer with a flat varnish brush. Either of the following brushes may be used: Nos. 30N3035 or 30N3037, 1½ to 2½ inches in width.

Ground Color.

Ground Color is an opaque yellow paint. It is used as a first coater for Chinese Gloss Lacquer and for graining colors. It completely covers up the original finish and forms a foundation for later finishes. Woodwork that is to be grained should first be painted with Ground Color. If you wish to change the color of your floors or woodwork from a dark to a lighter shade, apply a coat of this Ground Color and, when dry, as per directions on the can, apply the desired shade of Chineso Gloss Lacquer.

SERO-VAR, a "Universal" Varnish.

For use on Floors, Interior Woodwork, Exterior Woodwork, Staircases, Window Sills, Furniture, Boats of all kinds, Toys.

"Universal" because it may be used any place and every place that a varnish is required. Its usefulness is practically unlimited, as will be readily seen from the above list of surfaces and articles for which it is recommended.

It is easy to apply, dries hard over night and wears so well that we feel perfectly FREE in guaranteeing it. It fulfills every requirement of a high grade, durable varnish. It is sufficiently tough and elastic to withstand the foot friction to which a floor is subjected. It is not affected by heat or cold and water will not turn it white. It is therefore ideal as a finish for outside doors, porch ceilings, under eaves, or boats, or wherever a varnish is needed that can be depended upon to stand up under severe exposure to the weather.

On furniture it imparts that beautiful, bright mirror-like finish. It may be used on chairs with perfect confidence as it will not soften under the heat from the body.

On table tops especially it satisfies every requirement of a high grade table top varnish. High gloss, tough and elastic—cannot be easily scratched or marred and water will not affect it.

Send for a gallon and try it. It will do all we say, and you may have your money back if you are not entirely satisfied with it.

Seroco Linoleum and Floor Oilcloth Varnish.

Why allow your linoleum or floor oilcloth to wear away when it can be preserved for a few cents and give a better finish than the original finish of the linoleum or floor oilcloth? This material puts a hard coating on the linoleum, but remains elastic like the linoleum or oilcloth itself, therefore it will not crack or check. Linoleum is today one of the most popular of all floor coverings; its most objectionable feature has been the unevenness of wear, causing the color to become dull and pattern to be lost, leaving a decidedly spotted effect. By using Seroco Linoleum Varnish the linoleum or oilcloth will retain all its original brightness and luster. Hot or cold water does not affect it. One coat will do the work; applied in the evening, it will be dry in the morning. One quart will cover a square 12x15 feet.

No. 30N2642

1-pint can	(Shpg. wt., 1¾ lbs.)	31c
1-quart can	(Shpg. wt., 2¾ lbs.)	58c

Floor Varnish, Extra Durable.

This varnish is clear amber in color and can be applied to interior woodwork, as well as floors. It is exceptionally tough and elastic and dries very quickly with a permanent luster. It will dry over night. Water will not turn it white and it will retain its wonderful luster even when subjected to hard heels and the moving of furniture. It will cover approximately 600 square feet on oak and 400 square feet on soft pine, one coat per gallon.

FURNI-FLOR, the Universal Polish.

For Making Dustless Mops and Dustcloths.

For preparing as well as replenishing the oil in Dustless Mops and Cloths. You can make your own Dustless Cloths by saturating a piece of cheesecloth with water, removing the surplus water by passing through a wringer, then adding a small quantity of Furni-Flor. The germ laden dust and dirt is collected and held in the cloth or mop and when through dusting you shake out the dust and it is again ready for use. It cleans as well as polishes all varnished, waxed and painted woodwork, furniture and floors. Contains no grease.

Quick Refinisher.

Applied with a cloth, no expensive brushes required. It produces a high gloss finish on old scratched and marred furniture, woodwork and floors. It dries in a few hours and leaves a highly polished surface. Try it on an old marred piece of furniture and see the wonderful results. This Quick Refinisher is used in hundreds of furniture stores to give a fresh, new appearance to furniture that has been used for show purposes, or has been in stock for some time. One quart can of this material will refinish the furniture of an entire room. It is easy to apply and a little goes a long way.

ENAMELS

Seroco Snowhite Enamel.

This Snowhite Enamel is easy flowing and brushes easily like ordinary paint. It is not tough or sticky, nor will it show brush marks. It flows as smoothly as paint, so that the most inexperienced person can produce with this material a fine enamel finish on woodwork and plastered walls. It will withstand repeated washings without destroying the high gloss. Steam or moisture does not affect it in any way. Recommended for enameling the woodwork of bedrooms, woodwork and walls of bathrooms, kitchens, pantries or any interior woodwork; also recommended for use in hotels, restaurants, dairies, creameries, meat markets and stores. Spreading capacity 200 square feet, two coats per gallon. To save one coat of Snowhite Enamel and to make a hard surface on which to apply the enamel, we recommend our No. 30N2654 Undercoat for Snowhite Enamel (listed below) to be applied before the enamel is put on.

Seroco Gloss Enamel.

For actual colors send for our Paint Book.

A high gloss interior paint. Anybody can put it on very easily. A sanitary finish. You can wash dirt or grease off your walls without affecting the finish. Seroco Gloss Enamel is ready mixed, comes to you prepared ready for use and the directions are so simple that the most inexperienced can secure that smooth glossy porcelain finish on woodwork, walls, etc., similar to the most costly enamel work produced by expert painters. Give this enamel a trial. Send us an order and finish the walls and woodwork of one of your bedrooms. You will be so well pleased with the porcelain-like finish that you will probably treat other bedrooms likewise. Since Seroco Gloss Enamel is made in a variety of beautiful shades, harmonious color combinations are possible; for instance, use one color for the walls and a harmonizing color for the woodwork. The covering capacity of this enamel is 200 square feet per gallon two coats. Apply with a varnish brush. VARNISHES

Sero - Var Is Our Own Trade Mark. Registered in U. S. Patent Office.

Seroco Is Our Own Trade Mark. Registered in U. S. Patent Office.

Sero-Var.

A "Universal" Varnish for Floors, Interiors, Exteriors, Staircases, Window Sills, Tables, Chairs, Furniture.

"Universal" because it may be used any place and every place that a varnish is required. Its usefulness is practically unlimited, as will be readily seen from the above list of surfaces and articles for which it is recommended.

It is easy to apply, dries hard over night and wears so well that we feel perfectly free in guaranteeing it. It fulfills every requirement of a high grade, durable varnish. It is sufficiently tough and elastic to withstand the foot friction to which a floor is subjected. It is not affected by heat or cold and water will not turn it white. It is, therefore, ideal as a finish for outside doors, porch ceilings, under eaves, or boats, or wherever a varnish is needed that can be depended upon to stand up under severe exposure to the weather.

On furniture it imparts that beautiful, bright, mirror-like finish so characteristic of new and fresh from the store goods. It may be used on chairs with perfect confidence that it will not soften under the heat from the body.

On table tops especially is it desirable, because it satisfies every requirement of a high grade table top varnish. High gloss, tough and elastic—cannot be easily scratched or marred, and hot water will not affect it.

What a relief to know that if the teapot is overturned or a hot dish is accidentally allowed to remain on the table, the varnish will not be affected.

Every home owner especially should have a can of this universal varnish always on hand. It is economical because it serves so many purposes which otherwise would require a large stock of special varnishes.

No. 30N2727 Sero-Var.

Outside Spar Varnish.

For finishing all kinds of exposed surfaces, such as outside doors, vestibules and store fronts. It is also especially recommended for finishing inside blinds and the woodwork in bathrooms and on sinks, where a very elastic and durable varnish should be employed.

No. 30N2722

	5 Gal., per Gal.	1 Gal.	Quart	Pint
Price	$3.04	$3.09	81c	42c

Automobile Body Varnish.

A brilliant, transparent and durable varnish for finishing carriage, automobile and buggy bodies. It works and flows with surprising freedom and may be used on the largest surfaces, such as carriage bodies, with the greatest safety and satisfaction. It is very pale and will not darken or injure the lightest shades of body color. It dries free from dust in twelve to sixteen hours and hardens properly in from two to three days.

No. 30N2740	1 Gal.	Quart	Pint
Price	$4.05	$1.05	54c

All varnishes listed on this page are clear, transparent amber color. Any of these varnishes may be used on oak, mahogany, walnut, birdseye maple and all other woods, as they do not change the color of the finish. For changing the color of the finish, see Chinese Gloss Lacquer, page 1577.

Furniture Varnishes

Special Seroco Flat Varnish.

The popular dull rubbed finish can be produced with this varnish without the old time necessity of rubbing. Persons who wish to obtain a dull finish on their varnished woodwork and furniture have heretofore found it necessary to apply a coat of rubbing varnish which required much labor in rubbing to obtain a dull finish. One coat of this Seroco Flat Varnish over old shellacked or varnished surfaces or two coats over new wood will give a finish that only the most expert wood finishers can tell from a carefully hand rubbed surface.

We guarantee Seroco Flat Varnish to give you perfect satisfaction as to appearance and service. It will not show laps or streaks, contains no wax, and is therefore very durable. Apply it like all other varnishes.

No. 30N2712

Price	$2.54	$2.59	68c	36c

Cabinet Varnish.

This varnish is designed for highest grade interior woodwork that is to be rubbed and polished; also gives a beautiful finish when left in the gloss. Is exceptionally rich and lustrous and on account of its elasticity is extremely durable. Dries free from dust in three to four hours and sufficiently hard for rubbing in forty-eight hours.

Floor Varnishes

Seroco Extra Durable Floor Varnish, Our Highest Grade.

This varnish is clear amber in color and can be applied to both interior woodwork and floors. It is exceptionally tough and elastic and dries very quickly with a permanent luster. It will dry over night. Water will not turn it white and it will retain its wonderful luster even when subjected to hard heels and the moving of furniture. It will cover approximately 600 square feet on oak and 400 square feet on soft pine, one coat per gallon.

For years we have been working on a floor varnish that would be tough, elastic and durable and that would dry over night. We have perfected this Seroco Extra Durable Floor Varnish and believe it to be the finest varnish of this kind. We offer it to you at a saving that will make it worth your while to include it in your order.

No. 30N2723

Price	$2.70	$2.75	72c	38c

Seroco Durable Floor Varnish.

Cheaply made varnishes do not stand the wear caused by hard heels and heavy furniture pounding and scratching along the surface. This varnish, while not quite so good in quality as the one shown above, will answer all the requirements of a high grade varnish. This varnish will cover approximately 600 square feet on oak and 400 square feet on soft pine floors, one coat per gallon. Is easily applied, dries readily and has a permanent glossy surface.

Price	$2.09	$2.14	57c	30c

For Shipping Weight of Varnish See Below.

Seroco Linoleum and Floor Oilcloth Varnish.

This varnish dries hard, but remains elastic like the linoleum or oilcloth itself, therefore it will not crack or check. By using Seroco Linoleum Varnish the linoleum or oilcloth will retain all its original brightness and luster, even under the severe wear it receives at doorways and halls, thus making the life of linoleum much longer. Hot or cold water do not affect it. A quart can and a few minutes of your time will save you ten times its cost. One coat will do the work; applied in the evening, it will be dry in the morning. One quart will cover a square 12x15 feet.

FLOOR FINISHES

Interior Floor Paint.

Our Seroco Ready Mixed Floor Paint will stand a great amount of foot friction and general wear. It is easily applied, dries quickly and is easily kept clean. It is highly recommended wherever the constant wear requires a serviceable covering that will protect the wood. After this paint has been applied and becomes dry, the floor can be washed without affecting the paint. Seroco Ready Mixed Floor Paint is the result of many years' experimenting and is made in our own factory according to our own formula.

New or old floors which have not been previously painted require three coats. One gallon will cover from 300 to 350 square feet, two coats, and from 200 to 250 square feet, three coats. It will dry in a single night. Our floor paint is furnished in the colors mentioned.

For color samples send for our Paint Book. Furnished only in the following colors:

30N500	Buff.	30N555	Light Brown.
30N510	Yellow.	30N570	Gray.
30N540	Lead Color.	30N590	Green.

Graining Outfit, Complete, $2.55.

Your floors and woodwork can be so grained as to imitate beautiful oak. It is easy to do a good job of graining with this outfit. It is complete with material enough to cover the floor around the rugs of two large rooms, 10x10 feet. The outfit contains the following first class materials with full directions for applying:

1 Set Special Wood Grainers, including two rollers and a Steel Graining Comb.
1 Rubberset Paint Brush, 2½ inches wide.
1 Rubberset Varnish Brush, 2 inches wide.
1 Quart Undercoat Color.
1 Quart Golden Oak Graining Color, mixed ready for use.
1 Quart High Grade Extra Durable Floor Varnish.

These materials if bought separately from this catalog would cost more. Shpg. wt., about 10 lbs.

No. 30N2978 Price, complete outfit.... **$2.55**

Porch Paint.

The paint on the floor of the ordinary porch receives more actual wear than paint used on almost any other surface. It is usually exposed to all the destructive weather. Rain beats upon it and snow and ice sometimes cover it for days. The entire family walks on it almost daily and it is swept and scrubbed regularly. Furniture and hammocks all do their share in wearing off a porch floor paint.

Realizing the severe tests to which a porch floor paint is usually subjected, we set about to develop a formula for the manufacture of a paint that would answer every requirement demanded of a paint for this purpose.

How well we have succeeded is demonstrated by the marked success this paint has had under actual use and we therefore recommend it as a most durable paint for this purpose.

Furnished only in the following colors:

No. 30N600	Gray.	No. 30N620	Drab.
No. 30N610	Lead.	No. 30N630	Brown.

Fifteen-Minute Floor Finish.

A most wonderful finish for floors, interior stairs, etc. It is a compound consisting of wax and other ingredients and is applied to the floor in liquid form with a cloth. Brings out the grain of the wood and imparts a rich color. Floors finished with this material can be kept thoroughly clean without scrubbing, as all dust and dirt are readily removed with an ordinary broom or dustless mop. Highly recommended for schools, colleges, stores, public halls, churches, as well as residences. For hard and soft wood floors. The scrubbing expense of large schools, colleges, etc., is enormous. This expense can be greatly reduced by using—our Fifteen-Minute Floor Finish. Do not apply this preparation over a painted or varnished surface, as it is only intended for new floors or floors that have previously been oiled or waxed. One quart will finish 150 square feet of surface.

Improved Davis Wood Grainers.

With these rollers any known growth of wood can be imitated. Complete directions are given with each set of rollers explaining fully what rollers to use to produce the grain of wood desired. Anyone possessing a set of our improved graining rollers can, with a few minutes' practice, do a good job of graining and imitate natural wood so that it would be almost impossible to distinguish the natural grain of any wood from the grain made by our improved wood grainers. Shipping weight, 12 ounces.

No. 30N2964 Price, per set of 3 rollers..... **89c**

Ground Color.

Ground Color is an opaque yellow paint. It is used as a first coater for Chinese Gloss Lacquer and for graining colors. It completely covers up the original finish and forms a foundation for later finishes. Woodwork that is to be grained should first be painted with Ground Color. If you wish to change the color of your floors or woodwork from a dark to a lighter shade, apply a coat of this Ground Color, and when dry, as per directions on the can, apply the desired shade of Chinese Gloss Lacquer shown on page 1577.

Special Wood Grainers.

A set of two rollers, both producing the heart oak grain, one fine and the other slightly heavier. The graining roller producing the heart of oak grain is highly recommended because it produces a more natural grain than any other roller. We have included a steel graining comb with each set. This gives you an outfit with which you can imitate an endless variety of growths of oak wood and the grain made with these rollers is hard to detect from the natural grain of oak. Rollers are 5 inches in length. Shipping weight, 8 ounces.

No. 30N2967 Price, per set of 2 rollers, including a steel graining comb..... **66c**

Seroco Floor Oil.

A special preparation for floors of residences and stores. A very small quantity applied with a cloth will bring out a rich color; also it will do away with scrubbing, as floors oiled with Seroco Floor Oil are easily cleaned by simply washing them with soap and water. One gallon will cover about 600 square feet, one coat.

Handy Whitewashing and Spraying Mach

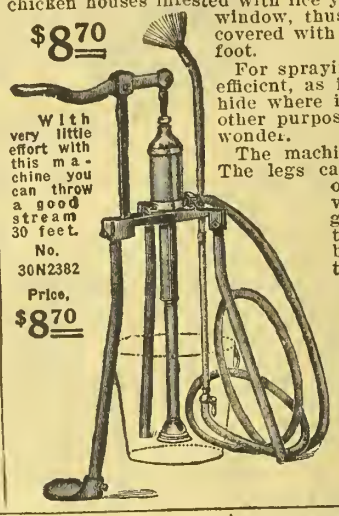
It Whitewashes, Sprays Sheep, Cattle, Trees and Shrub and Does Many Other Useful Things.

It forces whitewash into corners and crevices where disease ge lodge and which cannot be reached with brushes. In whitewashi chicken houses infested with lice you can do the work from a door window, thus avoiding the discomfort of bei covered with chicken lice and dirt from head foot.

For spraying sheep and cattle it is especial efficient, as it forces the liquid through to t hide where it is really wanted. For the ma other purposes for which it is intended it is wonder.

The machine is simple and easy to opera The legs can be removed instantly and th occupy little space. It can be co veniently carried on cars or in bu gies. It is always ready, nothing take apart or attach, and with bucket of water you are ready throw a 30-foot stream at any ti

Equipment consists of a 6-foot wrou iron spray pipe with ⅛-inch brass off cock and brass spray nozzle, brass nozzle for straight stream work, follower wrench (used for tightening plu ring in bottom pump cylinder), ru suction hose with screen attachment 3 feet of ⅜-inch special high pressure ber discharge hose. Net weight, 20 pou shipping weight, 30 pounds.



For full line of hand and power spra see pages 1482 and 1483.

No. 30N2382 Price, complete..... **$8.**

SPECIAL NOTICE—Our white leads are put up in heavy steel pails. The old style wood kegs absorb the oil in the lead, while the lead in the steel pails retains all the oil. These pails are seamless. All sizes excepting the 100-pound pails have iron handles or bails, and may be used for a variety of purposes when empty.

Seroco White Lead Combination.

Will cover better and wear better than the best and purest white lead on the market. It is a combination of lead, zinc, barytee and other ingredients ground in pure linseed oil. It will give you a better paint when mixed with linseed oil than the best white lead you can buy. We cannot afford to offer a material that will not give the best of satisfaction. Seroco White Lead Combination has stood the test; we know what it contains and what it will do. Put up in steel pails.

Seroco Dry Colors.

The following dry colors are used for tinting kalsomines, making graining colors and other purposes. Some use these dry colors for painting purposes by mixing them with linseed oil. This we do not recommend unless the mixtures is put through o paint mill, as you will have nothing but a coarse mixture which is not fit for anything. If a mineral paint is desired at a low price you will profit by purchasing the Seroco Weatherproof Mineral Barn Paint; then you will have a substantial paint, a paint that will wear much longer, therefore cheapest in the end.

S. R. Substitute Turpentine.

Turpentine is used to thin paints and varnishes, renderlng them easier to spread. It makes the paint or varnish film very thin, which facilitates drying. When the paint or varnish has dried the turpentine is entirely gone, having evaporated after having performed its function. Our S. R. Substitute Turpentine will evaporate entirely the same as the pure turpentine, and for mixing with flat colors it will give good satisfaction.

Seroco Oil Stain.

An excellent imitation of natural wood, cherry, mahogany, walnut, light oak, dark oak, antique oak. For staining interior woodwork or any work not finished. This stain should not be applied over varnished or painted surfaces. One or two coats of varnish applied over it will produce a fine finish. No. 30N2716, No. 30N2718 or No. 30N2710 Varnish may be used in connection with these stains. Apply with a varnish brush. One gallon will cover about 400 square feet, one coat. **Don't forget to state color wanted.**

Seroco Paste Wood Filler.

All open grain hardwood, such as oak, ash, walnut and mahogany, must be filled before being stained in order to produce a perfect surface for varnishing or waxing. Our Seroco Paste Wood Filler is of standard quality. It comes in light and dark oak, but can be colored with our Seroco Architectural Wood Stains to the shade desired. 5 pounds of the filler will cover about 300 square feet. Dries very hard. For soft or close grained woods no filler should be used; simply thin first coat of varnish with 10% of pure turpentine.

No. 30N2661 Light Oak.
No. 30N2662 Dark Oak.

Seroco Substitute for Shellac.

ue to the scarcity of genuine shellac, the cost has become so great prohibit its use in many lines. We are therefore prepared to fur- good quality shellac substitute at a very moderate price. It is a made especially from high grade selected hard gums cut in red alcohol, has the same consistency as shellac, and dries in the same time with the characteristic shellac finish. It is made h orange and clear and can be reduced with denatured alcohol.

the various tests which we have made, we have found it is more roof than shellac; that it will sand without gumming the sandpaper; freely under the brush and will not pull; has exceptional covering ty and does not show laps or streaks; it dries hard in about the time as shellac and can be brushed, sprayed or dipped; it is trans- and can be successfully used in place of shellac for practically wood finishing purpose.

Pure Clear Shellac in Denatured Alcohol (Light).

This shellac is of lighter body than No. 30N2762, having been thinned with denatured alcohol to the proper consistency for use in connection with our Seroco Architectural Wood Stains. We cannot guarantee good results if heavier shellacs are used. The wood is first filled and stained and when dry a light coat of shellac is applied. Clear shellac is applied when Pollard and Weathered Oak stains are used. One gallon will cover about 600 square feet, one coat.

Price	$3.72	98c	53c

Denatured Alcohol Orange Shellac (Heavy).

Pure shellac in denatured alcohol. The best first coater for furniture, woodwork or any surface that is to be finished in varnish, excepting floors. Shellac dries in from two to four hours so that in using it you save considerable time in finishing the job. All piano and high grade wood finishers use shellac for first coating. Orange shellac will give the wood an oak color. Clear shellac is used where no coloring is desired. Also recommended for coating knots and sappy streaks before painting. Before using, thin with denatured alcohol in the proportion of 3 pints of alcohol to 1 gallon of shellac, as this shellac is very heavy.

Price, each...27c

How to Care for Brushes. When storing away paint brushes, wash them in turpentine, then in warm soapsuds, then store them in a cool place. Never put new or old varnish brushes in water; they can be swelled the same as paint brushes, but the bristles should never touch water; keep them suspended in raw linseed oil when not in use. Before using again brush out the oil on a board. Never use a varnish brush for any other purpose but varnishing. Never varnish with a brush which has been used in paint, as it will not give good results. Never put a brush in newly slaked lime, it destroys the bristles. Many brushes are ruined in this manner.

Our Guarantee Is Your Protection. We MUST Satisfy You in Every Way.

Save Money On Ladders

Regular Extension Ladder.

Thoroughly tested and guaranteed to be a solid, substantial ladder that will stand up under severe strain and hard usage. Specially designed drop books aid in raising and lowering the upper section. Shipping wt., 2½ pounds per foot.

No. 30N2944

20-foot—two 10-foot sections.	Price	$3.80
24-foot—two 12-foot sections.	Price	4.56
28-foot—two 14-foot sections.	Price	5.32
32-foot—two 16-foot sections.	Price	6.08
36-foot—two 18-foot sections.	Price	6.84
40-foot—two 20-foot sections.	Price	7.58

Every detail of the construction of these ladders warrants our guarantee of satisfaction or money returned. The rungs are made of seasoned hickory and are thoroughly tested before they are used. The sides are made only of good straight grain pine and are decidedly solid and strong.

A substantial ladder that will stand hard usage because it is built to be sound and safe.

Both the Regular and the Rope extension ladders are made of the same high grade materials with two sections of equal length to each ladder.

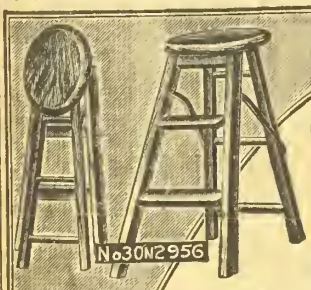
Shipped from factory in NORTH-EASTERN ILLINOIS.

Rope Extension Ladder.

The upper section is raised and lowered by a rope, pulley and windlass attachment. A special feature of the self locking hook makes the operation of this ladder completely automatic. Shipping weight, 2½ pounds per foot.

No. 30N2946

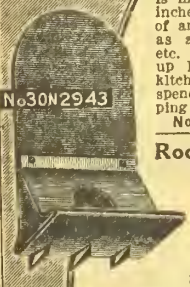
24-foot—two 12-foot sections.		$5.28
32-foot—two 16-foot sections.		7.04
36-foot—two 18-foot sections.		7.92
40-foot—two 20-foot sections.		8.80



Combination Stool and Stepladder.

Get one of these handy Stool Stepladders for the many little odd jobs about the house, such as cleaning windows, hanging curtains or putting up stovepipe. Standing on this Stool Stepladder you can reach the back of the top shelf of your pantry with ease. It is more compact than a chair, standing 24 inches high or 6 inches higher than a seat of an ordinary chair. Housewives use them as a seat while washing dishes, ironing, etc. Folds flat, as illustrated, and takes up little room. No better investment for kitchen comfort could be made than to spend 95 cents for this useful article. Shipping weight, 7 pounds.

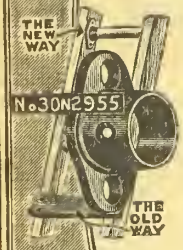
No. 30N2956 Price.....95c



Roof Brackets or Safety Stage Supports.

For use on shingled roofs. Secure, convenient and will not injure the shingles. Does away entirely with nailing cleats. Shipping weight, each, 2¼ pounds.

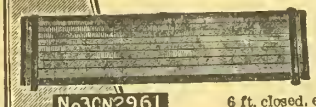
No. 30N2943 Each, 42c; Set of 6.....$2.40



Rung Replacers.

Used for replacing rungs, as shown in illustration. Made of iron. Guaranteed to hold any rung. Shipping weight, about 10 ounces.

No. 30N2955 Price, per set of 4, complete with screws....18c



Extension Plank.

Made in two sections, telescoping and with stops preventing pulling apart. There are 10 pieces of clear fir, each piece 1 inch wide by 1½ inches thick. The plank is 10¾ inches wide and will extend any fraction of an inch to the full length. Stronger than a solid board and much lighter. Weight, 3 pounds per foot.

No. 30N2961

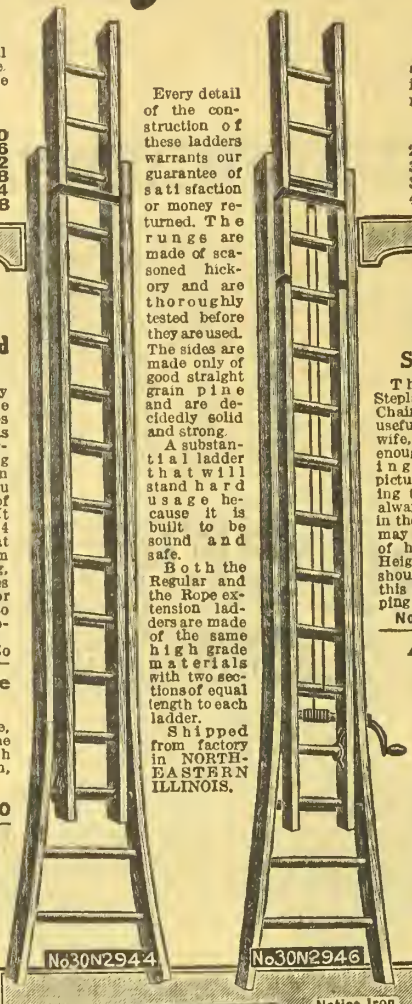
6 ft. closed, extends to 10½ ft. Price $2.70
8 ft. closed, extends to 13½ ft. Price 3.38

Painters' and Paperhangers' Stepladder.

Made of clear pine, very light weight yet strong. Braces so arranged that plank can be put on any step. Steps are braced with irons in front and every other step similarly braced in back. Shpg. wt., per ft., abt. 3½ lbs.

No. 30N2949

Height, 5 feet.	Each	$1.20
Height, 6 feet.	Each	1.44
Height, 8 feet.	Each	1.92
Height, 10 feet.	Each	2.40

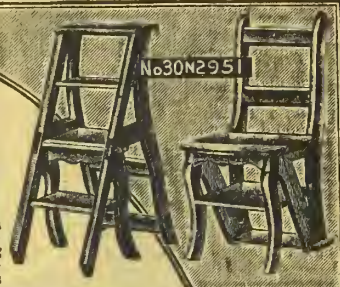


A Substantial Stepladder.

An exceptional value for the money. Every step is securely braced with an iron rod. There are large iron washers on the sides of the ladder which prevent the nails from coming out of the steps. Besides a handy pail shelf the ladder has double flanged steel hinge cleats riveted to the top and sides and is fitted with a folding iron lock brace. A very safe and durable ladder and worth a great deal more than the price we ask.

Shpg. wt., abt. 2¾ lbs. per foot. **No. 30N2948**

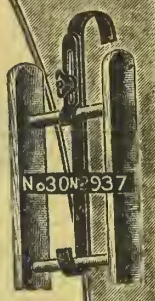
Height, 5 feet.	Price	$1.30
Height, 6 feet.	Price	1.56
Height, 8 feet.	Price	2.08



Folding Stepladder.

This Combination Stepladder and Kitchen Chair will prove very useful to the housewife, for it is just high enough to use in hanging curtains, dusting picture moldings, washing top windows and is always working, never in the way. When not in use as a stepladder it may be folded and used as a chair. Made of hardwood and varnished in light color. Height, when extended, 3 feet. Every home should have one. Illustrations show how this folding stepladder can be used. Shipping weight, about 10 pounds.

No. 30N2951 Price.....$1.62



Adjustable Ladder Hook.

Ladder Hook. Adjustable to fit any ladder. The hook drops over the ridge board, making roof work safer. Not only painters, but every property owner should have one of these hooks; they are handy when making roof repairs. Shipping weight, 2¾ pounds.

No. 30N2937 Price..... 39c

Farm or Long Ladder.

Sides are made of clear pine. Rungs are made of hickory and securely fastened. A strong and well constructed ladder, suitable for use on the farm, also for painters. Made only in the following lengths. **Shipped direct from our CHICAGO store.** Shipping weight, per foot, about 2½ pounds.

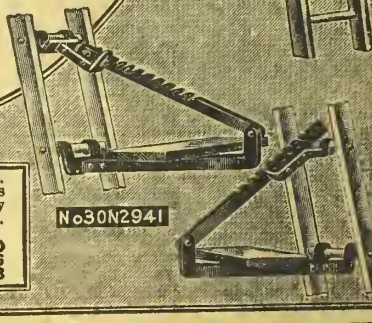
No. 30N2947

Length, 12 feet.	Price	$1.68
Length, 14 feet.	Price	1.96
Length, 16 feet.	Price	2.24
Length, 18 feet.	Price	2.70
Length, 20 feet.	Price	3.00

Ladder Jacks.

With a set of these attachments, two ladders and a plank, you can do away entirely with stage or scaffold on small jobs of painting. Carpenters will also find a set of these ladder jacks useful in repair work. Made of high grade steel. Takes planks up to 18 inches in width. Shipping weight, per pair, 22 pounds.

No. 30N2941 Price, per pair..... $2.45



"Hi-Bred" Sanitary Poultry Houses

Come in Sections—Bolt Together—No Nailing or Carpentry Work Required.

A Brand New High Grade Typewriter for Everyone

$1.50 Down

$3.00 A Month

Specimen of type the Harris prints.

NOW you can have a typewriter. Only a small deposit down and a small payment every thirty days for a while will soon make you the owner of a brand new high grade standard typewriter. You could hardly rent a good machine on better terms than these. The method of payment is like renting, except that you will own the machine and stop paying when you have sent us the purchase price in small monthly payments.

Think What It Can Do for You.

FOR FATHER'S business correspondence and records, typewriting not only LOOKS more businesslike, but really IS so. With a typewriter you can write your letters easier, faster, cleaner and plainer than with pen or pencil. You can keep records which you or anyone can read at any time. You can make carbon copies of important business transactions.

FOR SON the typewriter will turn out much neater school or college work. And experience and expertness on the typewriter means a good start in the business life to come.

FOR DAUGHTER the typewriter will do even more, perhaps, than for son, both at school and later in business. A good stenographer and typist is well paid for pleasant work.

FOR MOTHER it will mean increased ease and neatness in anything she has to write—letters, orders, club papers, etc.

Easy to Typewrite.

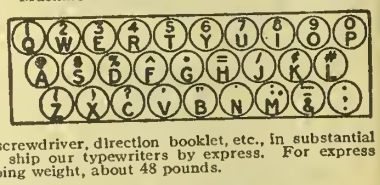
The typewriter is easy and simple to handle, requiring no previous experience of any kind. Our complete Instruction Book sent with each machine not only gives full directions how to run it, but also includes a short course in modern touch typewriting, which will enable almost anyone to become an expert touch operator in a short time. Even without any instructions at all, no one, to our knowledge, has ever had any trouble in writing at satisfactory speed after a little practice.

A Standard Typewriter Below "Standard" Price.

Don't judge the Harris by our low price. In this case, as with many other articles that we sell, our ability to buy very large quantities enables us to obtain the manufacturer's lowest price; and then our large sales direct to our customers without the expense of salesmen permit us to take considerably less profit per sale, with a further saving to you. The Harris isn't a "cheap" machine, but a **high grade** machine at an unusually low price.

To show you how good the Harris is, let us give you the experience of a big business house with it. We, ourselves, are now using more than one thousand Harris typewriters in our big Chicago store—machines that are pounded steadily for eight hours every working day in the year. In our own experience of more than five years' steady use we have found the Harris equal or superior in both strength and speed to any of the standard machines sold elsewhere for $100.00. We have tried most of them in our search for a reliable machine to do our exceptionally hard work, and we can sincerely recommend the Harris.

The Harris is a front strike, visible writer of standard size and shape, handsomely finished in black enamel with gold and light blue striping. Universal keyboard, as illustrated, with arrangement of letters same as on other standard machines. Twenty-eight keys, writing eighty-four letters, figures and other characters. Takes paper up to 11 inches wide and writes line 9 inches (90 spaces) long. The type is the regular pica size, plain, easily read typewriter type. Machine has back spacer, tabulator, shift keys at both ends of keyboard, shift lock and release, marginal release—the standard equipment of all up to date standard typewriters. Remarkably light, lively touch and action. Comes packed complete with purple copying ribbon, rubber cover, cleaning brush, oil, screwdriver, direction booklet, etc., in substantial wooden box. We always ship our typewriters by express. For express rates see page 926. Shipping weight, about 48 pounds.



Sold on Easy Monthly Payments.

We now offer the Harris on easy payments of $1.50 down and $3.00 a month, as follows:

No. 58N5 Harris Typewriter, with regular keyboard, as illustrated above.
Total price, payable $1.50 down and $3.00 per month..... **$61.50**

No. 58N7 Harris Typewriter, with keyboard containing fractions ¼, ½ and ¾ instead of A, * and = signs.
Total price, payable $1.50 down and $3.00 per month..... **$61.50**

When ordering on our monthly payment plan, kindly fill out the simple blank at the bottom of this page and send it in with $1.50.

If you wish to pay cash, our price is $3.00 less, or only **$58.50.**

Ten Days' Trial.

Get a Harris typewriter on trial by sending in only $1.50 with the order form printed below, or by sending the full cash price. When you receive the typewriter, test it in your own work and in your own way for ten days. If, after ten days' thorough trial, you are not satisfied and pleased, we expect you to return it to us at our expense. We will then at once return the money you have paid, including transportation charges. We have sold thousands of Harris typewriters with this understanding, and it is seldom that one is returned to us for any reason whatever.

Extra Ribbons for Harris Typewriters.

Our ribbons are high quality fresh stock, wound on spools to fit the ribbon shaft. Two kinds: Copying ribbons, the print of which can be copied in a letter press; record ribbons, the print of which is sharper and cleaner, but cannot be copied. Both put up in tin boxes. Shipping weight, each, 3 ounces.

Date _____ 191__

Sears, Roebuck and Co., Chicago, Ill.

Please send me on ten days' trial, without any obligation on my part to buy unless I am perfectly satisfied—

HARRIS TYPEWRITER, Catalog No. _____, Price _____, for which I enclose $1.50 as a deposit.

Should I decide after ten days' trial that the HARRIS is not satisfactory, I will notify you, and you are to give shipping instructions, so that I may send back the typewriter at your expense. Then you are to return to me at once my $1.50 deposit, together with the transportation charges I pay when the typewriter is delivered to me.

If I decide to keep the typewriter, I will send you the first monthly payment of $3.00 within one month from date of delivery to me, and $3.00 each month thereafter until a total of $61.50 has been paid; then the typewriter becomes my property.

I have always been faithful in paying my obligations and am making this statement for the purpose of inducing you to grant me these terms and I give you my pledge that you may feel safe in trusting me to pay as agreed.

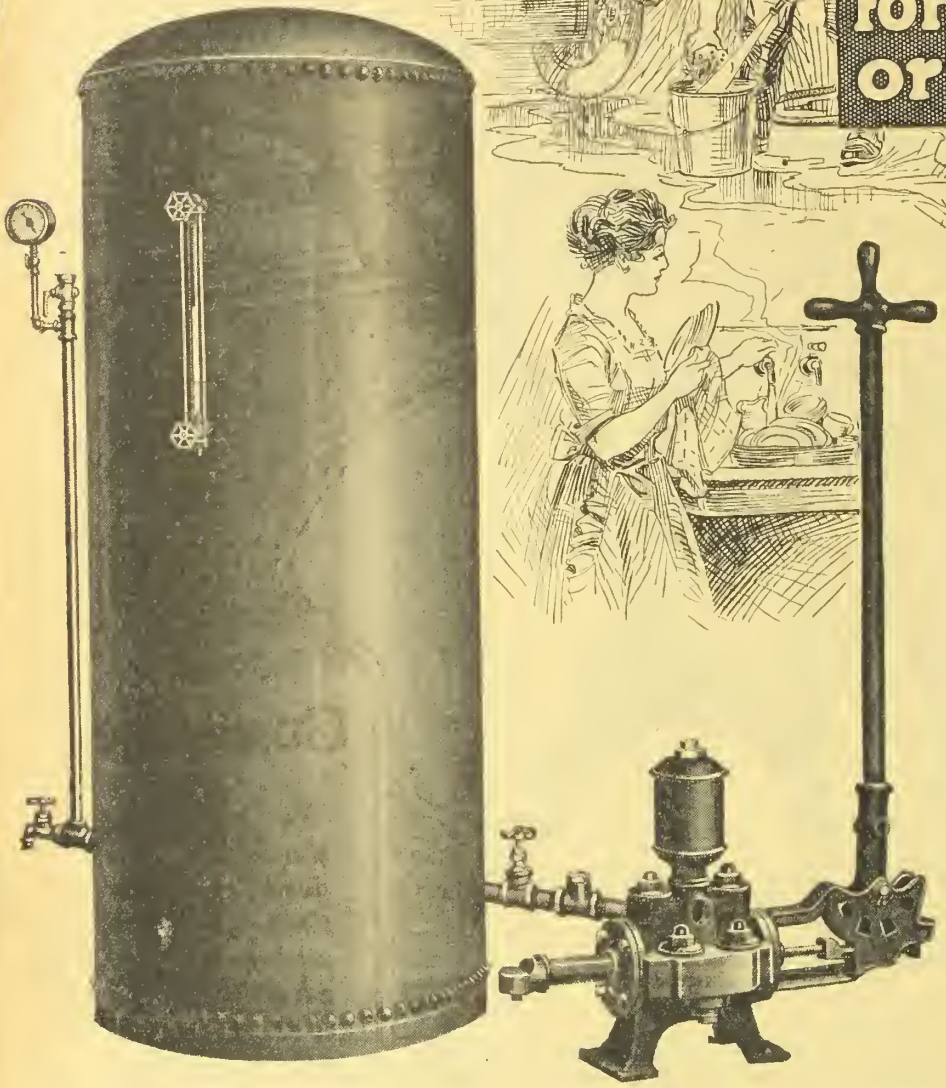
EVER READY for Shallow Wells or Cisterns



DO YOU KNOW what a blessing running water will be to you?

DO YOU REALIZE what a convenience it will be in your home?

HAVE YOU ANY IDEA at what a small investment you can have all the modern conveniences—yes, necessities—that are pictured on this and opposite page?

HAVE YOU EVER STOPPED TO CONSIDER what a simple matter it is to have water pressure on YOUR premises like that in big cities, with the comforts and FIRE PROTECTION it brings?

Why continue carrying water for the house, for the stock, for the garden? One of our Ever Ready Water Supply Outfits will force water through pipe lines to any point you desire. It will enable you to install in your house a modern sink, bathtub, lavatory or water closet, with hot and cold water always on tap at the turn of the faucet. It will deliver running water to the barn, to the garden, to the fields. You can have all this modern service, with its big saving of hard work and time, at a cost that is well within your means.

We sell outfits for hand pumping or for windmill, gasoline engine or electric power. The outfits for hand pumping require no more effort than the ordinary pump, and twenty minutes' pumping per day will furnish all the water necessary for ordinary use. If you have electricity, or can easily obtain it, we call your attention to our electric outfits shown on page 1591.

Our outfits are very easy to install. Practically all of the hundreds we have sold have been put in by our customers themselves. We send full and plain directions for installing and operating. Satisfaction guaranteed or your money back without question.

Ever Ready Water Supply Outfits for SHALLOW Wells or Cisterns

THE outfits listed and illustrated here are for places where the water in the well, cistern or other source of water is not more than 22 feet below the level where you will place the pump. These outfits are for HAND pumping. They come complete, as illustrated. All you need order extra is sufficient 1¼-inch pipe (No. 42N5711¼, page 1606) to reach from pump to within a foot of bottom of well or cistern; enough 1-inch pipe to run from pump to tank, if these are not set close together, and enough ¾-inch pipe to run from tank to your various faucets. Also order a 1¼-inch foot valve (No. 42N5670, page 1613) for end of pipe in well.

No. 42N2043½ Outfit. One 6-foot vertical black steel pneumatic tank, 24 inches in diameter. Total capacity, 140 gallons; working capacity, 100 gallons. One special horizontal double acting force pump with 3-inch brass lined cylinder and hydropneumatic cylinder attached, 1-inch gate valve, 1-inch check valve, water gauge, pressure gauge, ¾-inch stop and waste cock, ½-inch hose bibb and all connections as shown in illustration. hat will distance he from pump to well and from well to tank?
› you wish to pump the water by hand, windmill, gasoline engine or electric motor?
ave you a pump, engine or motor which you desire to use in connection with this system? If so, pleaso give a full cription of it.
you wish us also to figure on plumhing fixtures for your house, kindly send rough drawings of your basement, first and any other floors, with dimensions of rooms and height of ceilings. Give height from basement floor to roof distance from water supply to house. Give us the catalog numbers of the fixtures you desire (see our special og showing Water Supply Outfits), and show on your drawings where you wish to place them. Our experts will then you an itemized estimate.
will also help us very much if you will make a little drawing of your whole place, showing the location of the rent buildings and the water supply, giving distances between the locations.

Automatic Electric Water Supply Systems

AUTOMATICALLY supply RUNNING WATER to the bathroom, kitchen sink, laundry, stables, garden and any other part of your home or farm. Can be installed any place where electric power is available and the water supply is not more than 22 feet below the pump.

The Ever Ready Automatic Electric Water Supply System means running water on tap at all times at a low cost, practically without attention. The outfit consists of a pump, motor and automatic switch all combined, mounted on a cast iron base; an airtight pressure tank and the necessary valves, gauges and fittings. To install, it is only necessary to connect the motor to your electric wiring and the outlet of the tank to the supply pipe of the different faucets from which water is to be drawn. The automatic switch starts the pump when the pressure falls to 20 pounds, and then stops it when the pressure has been raised to 35 pounds. The pump is self oiling and outfit will operate for weeks at a time without any attention.

The tank is made of steel and is capable of withstanding from two to three times the pressure under which it is placed. It is listed in both black and galvanized.

The pump is of a new type, embodying the latest improvements of the most reliable electric house pumps now in use and, in addition, has several exclusive features which add much to the efficiency and life of the system. It has a capacity of 125 gallons per hour. It is self priming and has a splash system of oiling, which makes it operate with little or no noise.

The motor is built especially to meet the requirements of this system. It is made by one of the largest electric motor manufacturers and is of the latest approved design.

The automatic switch starts and stops the motor, keeping the pressure between 20 and 35 pounds. It is of simple construction and has hut few working parts. By merely tightening or loosening a nut at the top of the switch, either a higher or lower pressure can he maintained.

The valves and gauges consist of a hrass relief valve, a stop or shut-off valve, a pressure gauge and a water gauge. The relief valve is a safeguard, preventing an excess pressure upon the system should the regulating switch ever fail to work properly. The pressure gauge shows the pressure on the system and the water gauge indicates the height of the water in the tank.

With each outfit we furnish a guarantee which protects you ahsolutely against inferior workmanship or material; also full directions for installing.

Pump with motor and automatic switch shipped from the factory in OHIO, tank from factory in ILLINOIS, gauges and valves from our CHICAGO store.

Automatic electric outfits cannot be used where the suction lift is more than 22 feet.

Common overflow and waste plug for above bathtubs, for 1½-inch lead pipe, $1.20; for 1½-inch iron pipe, $1.95.

There Is Nothing So Invigorating as a Refreshing Bath

It is a pleasure to bathe in a snowy white tub or to take a quick plunge in it upon arising, with the water tempered just enough to make your body tingle and glow with a new vigor, fresh for the day's work. Why not take advantage of these comforts when they cost so little?

Full Description of Bathtubs on this Page.

All the bathtubs on this page are shipped from LAYTON PARK, WIS., except Nos. 42N160⅓ to 42N163⅓, steel. They are made of cast iron, porcelain enameled, except the painted steel tubs. The porcelain is guaranteed not to crack, peel or chip.

The Inside and Roll Rim of all cast iron tubs are porcelain enameled. The outside, except in the case of the extra finish tubs (Nos. 42N191⅓, 42N186⅓, 42N188, 42N180 and 42N197⅓), is given a coat of filler. It may be enameled or painted to match the bathroom walls.

Extra Finish Bathtubs Nos. 42N191⅓ and 42N186⅓ are finished on the outside by a special process. The surface of the tub is ground smooth and given a number of coats of special zinc enamel. Each coat is rubbed down before the next is applied. The result is a smooth white finish closely resembling porcelain enamel. Bathtubs Nos. 42N180 and 42N197⅓ are porcelain enameled inside and out.

Trimmings. When furnished they consist of combination Fuller pattern bath cock, two offset supply pipes, and for the waste either combination waste and overflow with chain and rubber plug, or a Model waste when shown. All trimmings highly nickel plated. They are regularly furnished to connect to lead pipe. If wanted for iron pipe, add 75 cents to prices.

Size of Pipe Connections. All our tubs are fitted for ½-inch supply pipe and 1½-inch waste pipe. For lead pipe see page 1604. For iron pipe and fittings see page 1606.

We do not list seconds, nor do we quote prices on "B" grade fixtures.

An All White Built-In Bathtub.

The tub is cast iron with three coats of porcelain enamel inside and painted outside and furnished with a nickel plated brass model waste and overflow with a China lifting knob. The supplies are nickel plated brass post supplies, and a nickel plated combination bath cock with indexed China handles. For the reason that this tub sets up against the back and end walls and fits tight to the floor, it is strictly sanitary and easily kept clean, as it will not allow the accumulation of dirt or any other foreign substance at the end or beneath the tub. It is a very attractive and durable fixture, greatly adds to beautifying the bathroom, and is also designed for different conditions as it can be fitted either right or left hand. **State which is wanted.**

No. 42N188 Bathtub, complete with trimmings, as illustrated, for lead pipe. The above tub can be furnished with fittings threaded for iron pipe for 75 cents extra.

FULL DESCRIPTION OF LAVATORIES.

All shipped from factory in LAYTON PARK, WIS.

All lavatories on this page and the next are made of cast iron cast in one piece (except pedestals, which are separate pieces.) They are white porcelain enameled. We guarantee first quality material and workmanship throughout. All lavatories, except those fitted with Model waste, are made with depression for holding soap directly above overflow. Overflow channel and strainer are cast as part of the lavatory itself, making it sanitary and easy to keep clean. The lavatories hang on concealed wall brackets, which hold them firmly in position, making any other support unnecessary.

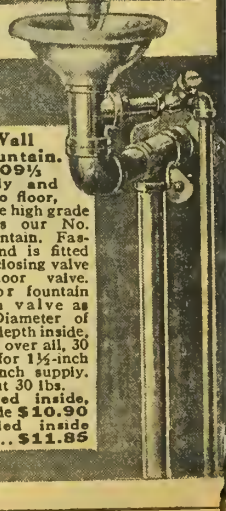
Trimmings. Two compression cocks, with china tops, marked "Hot" and "Cold," two supply pipes with flanges, trap with flange and adjustable slip joint connections, chain stay, chain and rubber plug, or Model waste, when shown. All trimmings brass, nickel plated. Supply pipes fitted with nickel plated brass compression shut off cocks, for $2.50 per pair, extra. For further information read under "Full Description" on opposite page.

SANITARY DRINKING FOUNTAINS

Porcelain Enameled Sanitary Drinking Fountain.
No. 42N9208½

Bowl and pedestal are in one piece, enameled with white porcelain. Bowl is 12 inches wide. Has nickel plated brass bubbling cup with filter, concealed galvanized iron supply and waste pipes and self closing valve with china handle. Fitted for ½-inch supply and 1½-inch drain pipes. Shipping weight, about 140 pounds.
30 inches high...$20.90
36 inches high... 21.65

You owe it to your community to insist on sanitary drinking fountains in your schools, factories and shops—wherever a large number of persons must be supplied with drinking water. Everybody is entitled to fresh, pure, clean water—not water taken from a glass or cup from which many others have been drinking.



Sanitary Wall Drinking Fountain.
No. 42N9209½

With supply and waste pipes to floor, as shown. Same high grade construction as our No. 42N9208½ Fountain. Fastens to wall and is fitted with hand self closing valve instead of floor valve. Prices are for fountain complete, with valve as illustrated. Diameter of bowl, 9 inches; depth inside, 3 inches; height over all, 30 inches. Fitted for 1½-inch drain and ½-inch supply. Shpg wt., about 30 lbs.
Bowl enameled inside, painted outside $10.90
Bowl enameled inside and outside.. $11.85

Full Description of Lavatories.

Also read under "Full Description" on opposite page.

The Model waste is a device for stopping the waste opening without rubber stopper. It also prevents bowl from filling above a certain point. Made of brass, nickel plated, with china top knob marked "Waste." A half turn of knob raises or lowers plunger, opening or closing waste outlet.

Lavatories Only, as listed, consist of lavatory, with nickel plated brass waste plug with coupling, chain and chain stay, or with Model waste when shown. They do not include any other trimmings. The waste plug will be threaded for iron pipe for 25 cents extra.

The Pedestal Lavatories. Those with pedestal or leg are cast in one piece, except the pedestal, which is separate. The inside, back, apron and leg are porcelain enameled; the under side is painted.

Pipe Connections. Lavatories regularly fitted for ⅜-inch lead supply and 1¼-inch lead waste pipe. Can be furnished threaded for **iron** pipe for 75 cents extra.

For Lead Pipe see page 1604; for Iron Pipe and Fittings see page 1606.

We do not list seconds nor do we quote prices on "B" grade fixtures.

Kitchen Sink Outfit With Cistern Pump.

Gives you fresh water in your home, at very small expense. No. 42N9076¼ outfit consists of cast iron sink, porcelain enameled inside; pump with 3-inch cylinder, fitted for 1¼-inch iron pipe; three japanned steel brackets; pump board of 1¼-inch first quality oak, kiln dried; sink trap of cast iron, tapped for 1½-inch iron pipe. Pump should not be placed more than 20 feet above the water in your cistern or well. For the necessary pipe, order enough 1¼-inch iron pipe to reach from pump to water supply; also enough 1½-inch iron pipe for the waste water to reach from sink to wherever you wish to run it. Iron pipe will be found on page 1606. Easy to install. We furnish complete directions with each outfit. State size.

Have You a Modern, Sanitary One-Piece Enameled Sink in Your Kitchen?

Do you realize how many steps it will save? What a convenience it will be? How easy it is to keep clean? All the sinks shown on this and the opposite page are made of cast iron, in one piece, and are coated with white porcelain enamel, a glass-like substance. They have no cracks, sharp corners or crevices into which grease or dirt can lodge.

All sinks listed on this and the next page, except outfits Nos. 42N9076¼, 42N9075⅓ and 42N9078¼, are shipped from LAYTON PARK, WIS., and have 12-inch high back and 2¼-inch roll rim. Inside of sink, roll rim, back, end piece and drain board carefully enameled with white porcelain, while under side of sink is painted. First quality in every respect. Porcelain enamel guaranteed not to chip, peel, crack or flake.

Each sink fitted with concealed cast iron brackets to hang to wall. In addition, sinks No. 42N39103⅓, No. 42N39123⅓, No. 42N39134⅓, No. 42N39127⅓ and No. 42N39129⅓ are furnished with two adjustable bronzed iron legs, as they are too heavy to be supported by wall hangers only. If wanted with porcelain enameled legs, allow $3.00 extra. Any sink furnished with wall brackets only can be fitted with two adjustable bronzed iron legs for $1.25 extra, or with two adjustable porcelain enameled iron legs for $4.50 extra.

TRIMMINGS—All sinks listed with trimmings are fitted with two ¾-inch Fuller pattern bibbs or faucets and a 1½-inch adjustable slip joint trap with a new type strainer. All trimmings are made of nickel plated brass, nicely finished.

SINKS ONLY—Sinks only as listed include a new type nickel plated brass strainer.

PIPE CONNECTIONS—All sinks on this and the next page fitted for ¾-inch supply and 1½-inch drain lead pipe. Can be furnished threaded for wrought pipe for 75 cents extra.

We do not list seconds nor can we quote prices on "B" grade fixtures.

How to Order Pipe for Sinks

All the porcelain enameled sinks on this page and the opposite page are fitted for ¾-inch lead supply pipe and 1½-inch lead drain pipe. As stated above, we can also furnish them threaded for wrought iron pipe for 75 cents extra added to the prices given. You will find lead pipe and fittings on page 1604 and iron pipe and fittings on page 1606.

In figuring the supply pipe for cold water, just measure from your nearest cold water pipe, or from your tank and, of course, order the necessary elbows for making turns and whatever other fittings seem necessary. The hot wate

pe is measured from your range boiler, or the arest hot water pipe, in the same way.

The drain pipe is measured from the sink to erever you will dispose of the waste water. r the drainage elbows and tees, in case you using iron pipe, use drainage fittings as ed on page 1606. These fittings are so con-ucted that they offer a perfectly smooth pass-e to the waste and thus prevent stoppage. If have not already a vent pipe running to the f of your house, enough pipe should be or-ed to run this, as it prevents the water from ng sucked out of your sink trap when the k is being emptied.

f you are in any doubt as to just what fit-gs to order, we will gladly give you any ad-e you may wish.

If wanted with bowl fitted for vent connection, allow 50 cents extra.

Supply pipe of any of above outfits fitted for iron pipe, 50 cents extra.

Siphon Washdown Bowl.

The water enters at back near top and flows into bowl from duct which extends clear around top edge, flushing all parts thoroughly. Flows out through curved channel, which forms both trap and siphon.

Siphon Jet Bowl.

Trap curve in back, differing from washdown bowl. Jet of water directed to entrance of trap assists flush. Requires less water and acts more directly than washdown bowl.

Full Description of Closet Outfits.

The Closet Outfits on this page (excepting Frostproof Outfit No. 42N106¼) all operate on the same general principles. They consist of closet bowl, seat and tank. When the water in the tank is released by turning lever or pulling chain, it rushes down into bowl and flushes it out thoroughly. We list low tank and high tank outfits. Both are widely used. The low tank closet is preferred because it makes less noise when flushing and is more compact. The differences in our various outfits are in the material of which the tank and seat are made and the design of the bowl (siphon washdown or siphon jet). Therefore the following general description applies to all outfits, excepting No. 42N106¼.

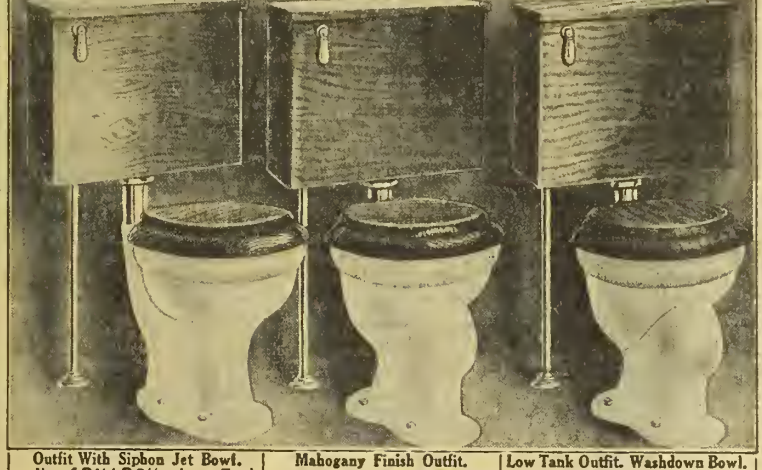
TANKS. Wood tanks are made of oak or birch, lined inside with copper. Vitreous tanks are of vitreous earthenware (chinaware) the same material as the bowls. Cast iron tanks are enameled inside and out with white porcelain enamel, same as used on our lavatories, bathtubs and sinks, shown on pages 1593 to 1597. All tanks are fitted with the latest type flush and intake valves, and nickel plated supply and flush pipes. Low tanks have china flush levers. High tanks have nickel plated pull chains with wood pull handles.

BOWLS. The two different designs of bowls are described above at the left and right of the center illustration. Both types are made of vitreous earthenware, sometimes called chinaware.

SEATS. Seats are made of oak or birch, as specified in the descriptions. All are highly polished and fitted with nickel plated brass hinges.

PIPE CONNECTIONS. All closet outfits on this page, except No. 42N106¼ require ⅜-inch supply pipe and 4-inch waste (soil) pipe. Lead pipe will be found on page 1604; iron pipe on page 1606; soil pipe on page 1603. Full directions for installing closets and arranging for sewage will be sent without charge upon request.

EXTRA. If supply pipe of closet is to be connected to iron pipe, allow 50 cents extra. Bowl fitted with vent connection, 75 cents extra.



High Tank Outfit. Washdown Bowl.

Solid oak tank, oak seat with cover, siphon washdown bowl. Shpg. wt., about 105 lbs. Read full description in center of page.

No. 42N1067¼ Quarter sawed oak tank only. Shipping wt., abt. 35 lbs. Price..$11.00

NDOOR CHEMICAL TOILET $14.95

ODORLESS SANITARY — PRIVATE COMFORTABLE — PRACTICAL CONVENIENT

EASILY AND QUICKLY INSTALLED

In Your Bedroom, Clothes Closet, Cellar, Attic or Under the Stairs. In Fact, Anywhere

THINK what it means to have one of these toilets right in your house on rainy or stormy days, dar nights, or in the Winter. Warm, clean, well ventilated, fly free and odorless, and pronounced per fectly sanitary by state health authorities. One of the greatest conveniences for the farm home, th Summer cottage, the little schoolhouse, the small town hotel or any human habitation where seweragi and running water has not been installed.

It is a practical necessity for old folks, youngsters, invalids or guests—a great comfort for everybod It gives you one of the comforts and conveniences that your city friends have with running water and u to date plumbing.

This modern "Handee" Toilet can be placed anywhere in the house and the vent pipe run to the chimney or ou side wall. You do not have to build a special room. It can be easily hidden by a curtain, as it only occupies floor spa about 20 inches square and seat is 19 inches from floor.

Each closet is made of heavy steel with a removable, snug fitting, hinged cover. All parts are nicely gray enamele and included with each is an oak finished wood seat and inner removable galvanized container. This container has capacity of 8 gallons, and in the average family of five people would only have to be emptied once every wee Contents are disinfected by the action of the chemical and can be emptied on the manure pile or buried. Sev 12-inch lengths of 3-inch gray enameled ventilating pipe, one of which has damper to prevent back draft in co weather, two elbows, one wall collar, one toilet paper holder, one roll toilet paper and ½ gallon of chemical. charging the container simply add ½ cupful of chemical to 1 gallon of water, and closet can be used until containe is about three-fourths full. The only expense is for the chemical, which is very little, 1 gallon being sufficient for a average family for about four months.

Read What the State Boards of Health Say About the Chemical Close

And why you should install one to make your home more sanitary and comfortable.

Department of State Board of Health.
Topeka, Kans.
May 10, 1918.

Any kind of a chemical toilet is certainly superior and safer than the insanitary outside privy.
S. J. CRUMBINE, M. D.,
Secretary.

State Department of Health,
Augusta, Maine.
May 7, 1918.

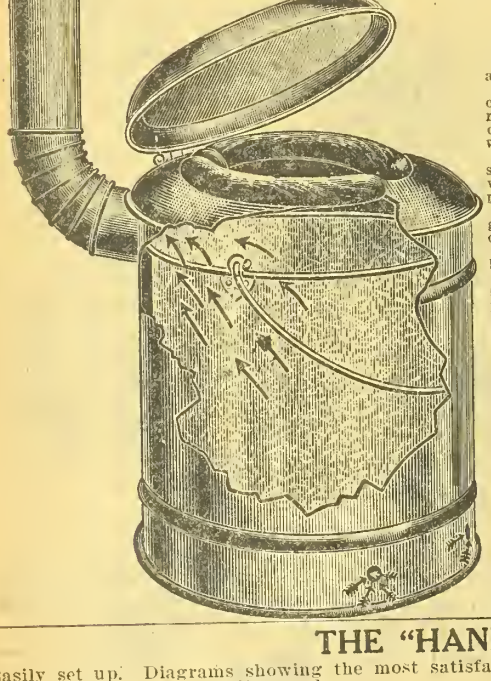
* * * where the public health problems of the rural communities are great, I feel certain that there is a great need for some efficient chemical indoor toilet.
L. D. BRISTOL, M. D.,
Commissioner.

Department of Public Health,
Springfield, Ill.
May 8, 1918.

We feel that the chemical type of closet has a broad and important field in the rural districts, or in a city or village where sewerage facilities are not available.
M. C. SJOBLOM,
Acting Chief Engineer.

Missouri State Board of Health,
Jefferson City, Mo.
May 8, 1918.

* * * this general type of sanitary indoor toilets receives our full endorsement.
GEO. H. JONES,
Secretary.



MICHIGAN STATE BOARD OF HEALTH.
Engineering Bulletin No. 5.
THE CHEMICAL CLOSET.
By EDWARD D. RICH, C. E.,
State Sanitary Engineer.

The chemical closet, in providing a substitute for the dangerous cesspool and the pestiferous privy, constitutes a good example of indirect sanitation.

Let us consider the advantages of the sanitary chemical closet. In this connection it is well to understand at the outset that it is not intended or recommended to take the place of a modern city sewerage system, but is designed for use in the country, small villages, or suburbs of the city where no sewers are available.

1. **Accessibility.** It may be set up in any convenient part of the house, so as to be reached without subjecting oneself to the inclemency of the weather. This is especially important in the case of invalids and elderly persons, thus encouraging regularity.

2. **Privacy.** Being inside the dwelling, the user is not exposed to public gaze while going or coming, and the closet is protected from use by persons other than the owners.

3. **Comfort and Convenience.** The room in which it is established may be kept warm, well ventilated, light, neat and clean.

4. **Abolishes the outside privy and cesspool with all their dangers and nuisance.** It is gradually coming to the notice of the public that no cesspool or privy in the vicinity of a well can be regarded as a sanitary or even decent way of disposing of sewage, and the scattering of disease from privies by means of flies and other living forms is a question of vast importance.

5. **Ventilation.** A properly constructed chemical closet provides a channel for the frequent change of air in the room where it stands, thus furnishing better air for the upbuilding of the vitality of the inmates and rendering them less liable to the attacks of disease.

6. **Germ Destruction.** A properly operated chemical closet should deal death to any and all germs of disease contained in the discharges of the bowels and kidneys.

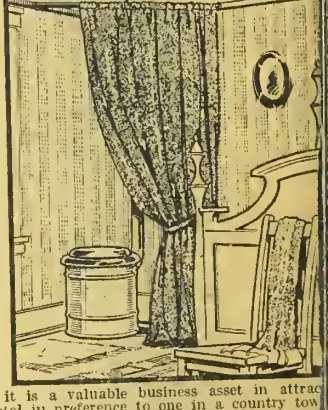
7. **Fly Prevention.** The chemical feature of this invention eliminates one of the prolific breeding and feeding places—the out of doors closet.

8. **For Schools.** All of the above advantages apply especially to schools, and in addition it preserves the health of the pupils by providing them a warm place in Winter and encourages them to be regular in attention to nature's demands.

9. **For Country Hotels.** In addition to the points enumerated above, it is a valuable business asset in attrac guests who would otherwise arrange their business so as to reach a city hotel in preference to one in a country tow

10. **For Summer Resorts.** It is surprising to see what inconveniences of this kind are tolerated during the vac season by persons who would not for a moment endure them in their city homes. Such toleration is all the surprising when we consider that by a little attention and slight additional expense, danger and nuisance ca replaced by safety, comfort and convenience.

WHICH?



THE "HANDEE" INDOOR CHEMICAL CLOSET

Easily set up. Diagrams showing the most satisfactory methods for setting up the "Handee" enclosed with each closet. Can be concealed a screen. Shipping weight, 40 pounds.

Stationary Laundry Tub Saves Time and Work

Two-Compartment Granitine Laundry Tubs.

48-In. Laundry Tub $9.35

A stationary laundry tub does away with all the hard work of lifting and carrying water to and from the washtub. The hot and cold water are connected to the tub itself, and the waste water is drained out by pipe leading directly to sewer or other drain. These tubs are fastened securely to the floor, making it much easier to use the washboard. Our tubs are molded all in one piece and then coated with a special composition which makes the surfaces hard and smooth. All edges and corners are rounded off, leaving no place for the dirt to collect. Tubs with this construction are far easier to keep clean and more sanitary than those made of slabs cemented together.

The two-compartment tub shown at the left is furnished with metal rim and wringer guards and painted waste connections. Each compartment has a brass waste plug, but prices shown below do not include faucets. Either No. 42N758 or No. 42N755 Laundry Bibbs, listed on this page, can be used. The compression bibb is the most popular, as it fits closer to the back of the tub. Read below "About Waste Pipe."

All tubs measure 24 inches from front to back and are 16 inches deep. Dimensions are over all and may vary slightly. Shipped from factory in NORTHEASTERN ILLINOIS.

No. 42N733⅓ Length over all, 48 inches. Shipping weight, about 380 pounds. Price.....$9.3

No. 42N734⅓ Length over all, 54 inches. Shipping weight, about 400 pounds. Price.....$10.5

No. 42N735⅓ Length over all, 60 inches. Shipping weight, about 450 pounds. Price.....$11.0

If wanted with waste opening threaded for iron pipe, allow 25 cents extra.

About Waste Pipe.

Connect the laundry tubs on this page to waste pipe with No. 42N1537 Sink Trap for two-compartment, or No. 42N1532 Drum Trap for three-compartment tub. Traps prevent foul odors coming up through waste pipe. Traps on page 1605. Wrought pipe, page 1606.

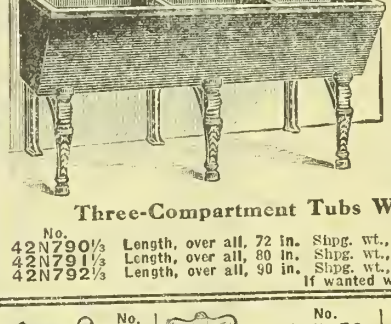
Steel Clothes Posts.

Why put up with heavy, clumsy wood posts, which rot and break, when Steel Posts cost no more?

Our posts are of 1½-inch steel pipe with cast head. 9 feet long. Should be placed 2½ or 3 feet in ground. Setting in concrete is still better.

No. 42N513¼ Hercules Steel Clothes Posts, painted. Shipping weight, about 28 lbs. Each $2.15

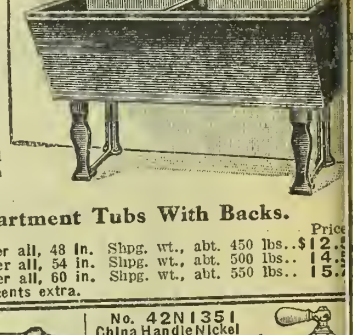
No. 42N514¼ Hercules Steel Posts, galvanized. Shpg. wt., same as above. Each $2.50



Granitine Tubs With Backs.

These tubs are of exactly the same construction as described above, except they have a back 6 inches high. All measure 24 inches from front to back and are 16 inches deep. Dimensions are over all and may vary slightly. Prices shown below do not include faucets. Suitable faucets are listed below under Nos. 42N758, 42N759 and 42N755. For the proper waste connections read above, "About Waste Pipe." All tubs shipped from factory in NORTHEASTERN ILLINOIS.

NOTICE—We also furnish Porcelain Enameled Pedestal Two-Compartment Laundry Tubs With High Backs. Prices quoted on application.



Three-Compartment Tubs With Backs.

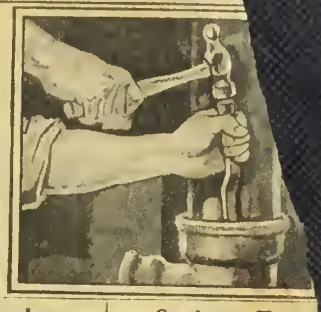
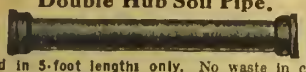
Cast Iron Soil Pipe and Fitting

CAST iron soil pipe and fittings are tarred inside and out. They are used for conveying the waste water from plumbing fixtures to the sewer or drain. Each piece of pipe and fitting has a hub on one end, except double hub soil pipe which has a hub on each end. Soil pipe is connected by placing the end of one fitting or pipe into the hub of another, packing a small amount of oakum into the joint and then pouring molten lead on top of the oakum until the hub is full. After the lead is cool it is driven down tight with a caiking chisel and hammer. Four-inch soil pipe and fittings are necessary where a closet discharges into the drain; for lavatories, bathtubs, sinks and laundry tubs the 2-inch size is large enough. Oakum, lead, caiking chisels and other plumbing tools are shown on page 1604.



Double Hub Soil Pipe.



Sold in 5-foot lengths only. No waste in cutting, s each part will have a hub.

No. 42N1568¼ tandard. 2-inch. Shpg. t., about 19 lbs. Price, er 5-foot length.$1.18

Diam., 2½ in., extends from 36 to 52 in. Shpg. wt., about 26 lbs. Price $2.40
No. 42N1707¼
Diam., 2½ in., extends from 54 to 78 in. Shpg. wt., about 34 lbs. Price $3.20

lot Water at the Turn of a Faucet

How to Get Running HOT Water

You can easily have running hot water if you have running cold water supplied by an attic or barn tank, a water supply outfit like those on page 1590, or city water pressure. It is only necessary to have a range boiler to store the hot water ready for use. Heat the water in a water front in your kitchen range, or by coils in your furnace, or by a gas, oil or coal heater like those shown on page 1235.

Picture at left shows proper pipe connections between boiler and stove. Same arrangement is used for connection with coils in furnace. Picture at right shows connection with a heater.

Description of Our Range Boilers

All our range boilers as listed below are first shaped and then galvanized inside and out. This covers all parts of the boiler with a coating of zinc and protects it from rusting. All our boilers are tapped for 1-inch pipe, but when furnished with couplings they are fitted for ⅜ or ¾-inch lead pipe, or, when threaded, for ¾-inch wrought iron pipe. Lead pipe and fittings are listed below; iron pipe and fittings on page 1606.

Full instructions for installing furnished upon request.

If you wish any further information or an estimate, we will gladly give it.

Standard Vertical or Horizontal Range Boilers.

Guaranteed for one year to withstand a pressure of 85 pounds. Read full description above. Where the regular or fire pressure is more than 85 pounds an extra heavy boiler should be used. A stand, inner tube and set of brass coupings for ¾-inch lead pipe connection are included with each vertical boiler. Coupings only are furnished with horizontal boiler. State size boiler wanted and whether vertical or horizontal.

No. 42N1081¼ Standard VERTICAL Range Boilers.				No. 42N1093¼ Standard HORIZONTAL Range Boilers.		
Approximate capacity, gallons...	30	40	52	30	40	52

Price	$15.65	$19.95	$28.35	$15.60	$19.90	$28.30

Above prices are for boilers fitted with ¾-inch lead pipe connection. If galvanized couplings are wanted for ¾-inch iron pipe, add 20 cents.

Extra Heavy Vertical or Horizontal Range Boilers.

Guaranteed for Three Years to Stand 150 Pounds Working Pressure. Read full description above. Vertical boilers have stand, tube and couplings. Horizontal boilers furnished with couplings only. Much heavier than boilers listed at left. Should be used in cities having a water pressure of over 85 pounds. Will outwear the standard boiler and withstand a pressure of 150 pounds. State size boiler wanted and whether vertical or horizontal.

No. 42N1087¼ Extra Heavy VERTICAL Range Boilers.				No. 42N1096¼ Extra Heavy HORIZONTAL Range Boilers.		
Approximate capacity, gallons...	30	40	52	30	40	52

Rope Oakum.

No. 42N1866¼ For calking iron soil pipe and fittings. A 4-inch soil pipe joint requires ¼ pound of oakum; a 2-inch joint, ⅛ pound.

Price, per pound.....$0.10
Per 50-pound coil..... 4.75

The plumbing tools here shown are used for calking lead joints in soil pipe and fittings, and for installing lead and brass pipe and fittings. When calking joints oakum (No. 42N1866¼) is forced into the joint with a yarning iron (No. 42N1825), and molten lead is then poured in on top of the oakum with a pouring ladle. After lead cools it is forced down solid into joint with a calking chisel (No. 42N1831). Plumbers' blast furnaces, melting pots and ladles on page 1449.

Plumbers' Wiping Cloth.

42N1845 Made of good quality ticking. Shpg. wt., about 2 ounces.
Price 15c

Asbestos Joint Runner.

With Pouring Cup.

No. 42N1815 For running molten metal in horizontal soil, water or gas pipe. Illustration shows runner as applied to pipe. For 2, 4, 5 and 6-inch pipe. Shpg. wt., about 2 lbs.
Price, each.....$1.65

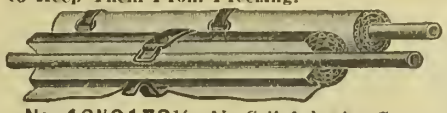
Cover Hot Water and Steam Pipes to Prevent Loss of Heat. Cover Cold Water Pipes to Keep Them From Freezing.



No. 42N2173⅓ Air Cell Asbestos Covering for Steam or Hot Water Pipes. Asbestos is one of the best non-conductors of heat known. By leaving small air spaces between the layers of asbestos the efficiency of the covering is increased twofold. It is very light, thereby reducing freight charges and is not as liable to become broken while in transit as the molded covering. Sizes of covering shown below represent pipe sizes for which it is to be used. Comes in 3-foot lengths only. All sizes are 1 inch thick, 4-ply. Shipped from factory in NORTHEASTERN ILLINOIS. Owing to manner in which covering is packed, shipping weights vary with amount of covering ordered.

For Pipe, Size	Price, per Foot	For Pipe, Size	Price, per Foot
½ inch	10	2 inches	18c

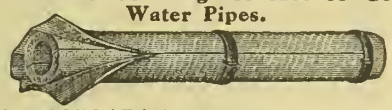
Wool Felt Covering for Hot or Cold Water Pipes.



No. 42N2171⅓ Generally used for covering cold water pipes to prevent them from freezing, as it holds the heat in the water better than asbestos. Can also be used for covering hot water pipes, but should not be put around steam pipes or near a fire, as it is inflammable. Made of layers of felt with an asbestos lining on the inside where it fits around the pipe, and a canvas covering to hold the two sections firmly in place. Very easily put on. Cut lengthwise through the center. Comes in 3-foot lengths only, 1 inch thick. Sizes of covering shown below represent pipe sizes for which covering is to be used. Shipped from factory in NORTHEASTERN ILLINOIS. Owing to manner in which covering is packed, shipping weights vary with amount of covering ordered.

For Pipe, Size	Price, per Foot	For Pipe, Size	Price, per Foot
½ inch	11c	2 inches	18c
¾ inch	12c	2½ inches	20c
1 inch	13½c	3 inches	22½c
1¼ inches	15c	3½ inches	25c
1½ inches	16½c	4 inches	30c

Above covering can be placed around pipe already installed. For asbestos paste see page 1268.

Mix It With Water and Apply Just Like Mortar.

No. 42N2172¼ Asbestos Cement. For covering iron or any other surface to prevent loss of heat and effect a great saving in your coal bills. Boilers are generally covered to a thickness of 1½ inches. One hundred pounds of cement will cover boiler surface about 1,600 square inches to a thickness of 1 inch. Comes in bags of 100 pounds.
Price, per bag..... .....$1.75
Price, per pound, in less than full bags ..... .03½
For furnace cement see page 1268.

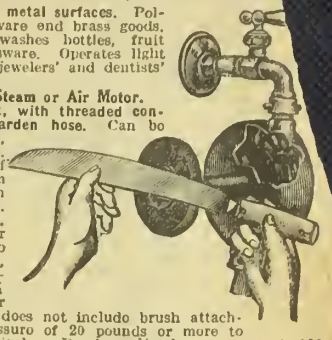
SHIPPING WEIGHTS — Where shipping weights are not given in some of the descriptions on this page, the weights vary with the number ordered and the method of shipment. An estimate of the shipping weights and freight, express or parcel post charges will be given upon receipt of a list of the fittings in which you are interested.

Sharpens Knives, Scissors, Tools and Sk

Smoothes wood or metal surfaces. Polishes jewelry, silverware and brass goods. Brush attachment washes bottles, fruit jars and other glassware. Operates light machinery, such as jewelers' and dentists' lathes.

Hercules Water, Steam or Air Motor.

Attaches to faucet, with threaded connection, same as garden hose. Can be operated by water, steam or air pressure. Outfit consists of motor, corundum wheel, steel disc with sheet of sandpaper, 4-inch buffing wheel, stick of rouge for polishing and two cast follower plates, one of which is recessed to receive ¼ or 5/16-inch round or V shaped belt, but does not include brush attachment. Requires pressure of 20 pounds or more to operate motor effectively. Develops 1/10 horse-power at 100 pounds pressure. Shipping weight, about 8 pounds.

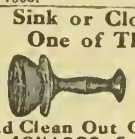


No. 42N1392 Hercules Water, Steam or Air Motor, complete with attachments, as described above.
Price $3.15

No. 42N1393 Brush Attachment for use with above motor for washing bottles, jars and glasses.
Price 30c

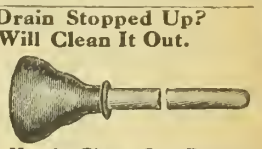
For Hose Nipple for connecting to iron pipe see No. 9N7100, page 1398.

Sink or Closet Drain Stopped Up? One of These Will Clean It Out.



Hand Clean Out Cup.

No. 42N1882 For removing obstructions in discharge pipe of lavatory, sink or bathtubs. Run several inches of water into fixtures, place rubber cup over outlet and force down quickly three or four times. Water beneath cup is forced into discharge pipe with a succession of sudden impulsions, dislodging the stoppage and forcing it through pipe. Dimension of cup, about 3¾ inches. Shipping wt., about 2 lbs.
Price 26c



Handy Clean Out Pump.

No. 42N1881¼ For forcing stoppages and cleaning waste pipes, closets, sinks, wash bowls and bathtubs in the same manner as the hand clean out cup described at left. Made with a heavy rubber cup on the end of a long wooden handle. Shipping weight, about 1½ pounds.
Price 35c

No. 42N1881¼ Same size as above, except that cup is made of extra good quality red rubber. Shipping weight, about 1½ lbs.
Price 65c

Supply Connections for Lavatories and Bathtubs.

Basin Supply Pipes.

No. 42N992 Plain Wall Supplies. Brass, nickel plated, with flanges, ⅜ inch. Shipping weight, about 1½ pounds.
Price, per pair.....$1.55

No. 42N993 Plain Straight Supplies, ⅜ inch, complete with flanges. Brass, nickel plated. Shipping weight, about 3 pounds.
Price, per pair.....$1.65

Bath Supply Pipes.

No. 42N997 Plain Offset, with flanges. Brass, nickel plated. Size, ½ inch. Shipping weight, about 3 pounds.
Price, per pair.....$2.45

Simplex Lavatory Connections.

Allow the use of ⅜-inch iron pipe for supplies to wall or floor. To attach, remove tailpiece and nut from basin cock, slip nut over connection, insert rubber gasket and screw nut up tight. Made of brass, tinned. Prices include brass washer and rubber gasket, but not nut, as this is part of basin cock. Shipping weight, about 4 ounces.

No. 42N998 Simplex Connection to floor.
Price, per pair.....45c

No. 42N999 Simplex Connection to wall.
Price, per pair.....45c

Traps for Sinks and Lavatories.

Nickel Plated Traps.

No. 42N974 Nickel Plated Brass P Trap.

Shipping wt., about 3 lbs.
Size, 1¼ inches, for lavatories.
Price $2.45
Size, 1½ inches, for sinks.
Price $2.70
Above threaded for iron pipe, 50 cents extra.

No. 42N984 Nickel Plated Brass S Trap, plain, not vented. Shipping wt., about 5 lbs.

1¼ inches, for lavatories.
Price ..$3.25
1½ inches, for sinks.
Price ..$3.65
Above threaded for iron pipe, 50 cents extra.

No. 42N979 S Trap, with vent to wall and flanges. Brass, nickeled plated. Shpg. wt., about 5¾ pounds.

1¼ in., for lavatories.
Price $3.90
1½ inches, for sinks. Price..$4.40
Above threaded for iron pipe, 50c extra.

Waste Connections for Bathtubs.

Connected Bathtub Waste and Overflow.

No. 42N1002 With slip joints and floor flange. Size, 1⅜ inches. Brass, nickel plated. Shipping wt., about 3½ pounds.

Price $2.80
Above threaded for 1½-inch iron pipe, 50 cents extra.

Connected Bath Waste and Overflow.

No. 42N1004 With trap to floor. Nickel plated brass. Cast S trap to floor with clean out and slip joint and flange. Size, 1½ inches. Shpg. weight, about 6 pounds.

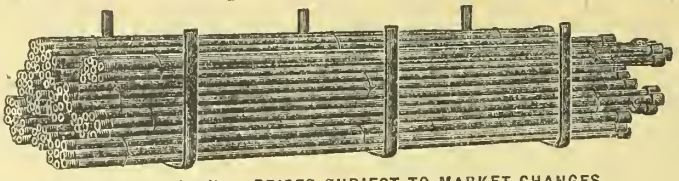
Price $5.40
Above threaded for 1½-inch iron pipe, 50 cents extra.

Wrought Pipe and Pipe Fittings

carrying steam, gas or water. of good quality evenly rolled , carefully welded and free from ections. Black pipe and fittings are used ping gas, for steam and hot water heating and for any other purpose where it is not ct to corrosion, or where rusty or discolored r is no drawback. Galvanized pipe and fit- are used for supplying water for drinking domestic use, also for the waste piping of mbing systems and for any other similar pur- se.

No. 42N5710¼ Black Pipe.
No. 42N5711¼ Galvanized Pipe.
Always include cost of threads when pipe is ordered cut to exact lengths. PRICES SUBJECT TO MARKET CHANGES.

Standard Wrought Steam, Gas and Water Pipe.



We carry in stock at our Chicago store ⅛-inc to 6-inch pipe in stock lengths as it comes fro the mill, both in black and galvanized. Pric on larger sizes will be quoted on applicatio Prices given for each of the different sizes pipe are for regular stock lengths of about feet, as they come from the mill. One couplin is furnished with each stock length. When yo specify exact lengths, threaded, we charge for t threads on both ends, as per price list show below, and no coupling is included.

We handle only new first quality pipe as comes from the mills.

Read Before Ordering Fittings, Valves, Etc.

The sizes of wrought pipe, as given in this catalog, refer to the INSIDE diameter of the pipe. The pipe sizes given for fittings, valves, oil cups, etc., refer to the inside diameter of the pipe to which they connect, and not the diameter of the tapping on the inside or outside of the fitting itself. When in doubt as to the pipe size of a fitting, measure the diameter across the tapping, or threads you wish to fit, and then refer to the table given below for the corresponding pipe size. Example: An oil or grease cup is desired to fit a tapping in a bearing or fitting that measures 9/16 inch in diameter. By referring to the table below we find that a pipe thread 9/16 inch in diameter is for ¼-inch pipe; it will therefore be necessary to order an oil cup for ¼-inch pipe connection. See illustration.

Pipe size, inches	⅛	¼	⅜	½	¾	1	1¼	1½	2	2½	3	3½	4
Outside diam. of pipe and inside measure of fittings.	⅜	9/16	11/16	⅞	1 1/16	1 5/16	1 5/8	1 7/8	2 3/8	2 7/8	3 1/4	4	4 1/2

Shipping Weights

The shipping weight of pipe fittings varies, according to the number ordered and the method of shipment. An estimate of the shipping weights and freight, express or parcel post charges will be furnished, if desired, upon receipt of a list of the fittings in which you are interested.

For Cleaning and Polishing Machinery of All Kinds.

Cotton Waste. Made by fluffing or pulling apart the threads of cotton cloth and the waste material from cotton mills.

No. 1 waste, either white or colored, is made from new cuttings and waste threads that accumulate when weaving cloth in the cotton mills. It is very fluffy, more absorbent and stronger than the lower grades.

No. 3 waste is made from reclaimed cotton goods and mill sweepings with a sufficient quantity of long threads to hold it together properly. It is used for packing and cleaning, but is not as absorbent or fluffy as the No. 1 grade.

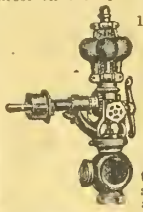
The Judson Steam Engine Governor.



No. 42N6398¼ For traction or stationary engines. Speed of engine can be increased or diminished from 25 to 30 per cent without stopping or changing tension of spring. On a traction engine the engineer can increase the speed when climbing hills by pulling on the little side lever. Jolting of engine over rough and uneven ground or roads has but slight effect on the operation of governor.

Beading or Calking Tool.

No. 42N6187 For turning over edges of boiler tubes after they have been expanded. High quality tempered tool steel. Shipping weight, about 1½ pounds.
Price 45c

Hancock Inspirator, Stationary Type.

No. 42N6300 For stationary, marine and portable boilers. Made of brass with ground joint unions and brass strainer. Works with low or high steam pressure on lifts up to 25 feet. Water can be raised about 2½ feet for each pound of steam pressure. With 45 pounds steam pressure water can be lifted 25 feet and elevated 112½ feet, a total elevation of 137½ feet. Horse-power of boiler is for ordinary type.

Size No.	Pipe Size Steam	Suct'n and Delivery	Overflow	Horse-Power, Boiler	Shipping Wt., About, Lbs.	Price

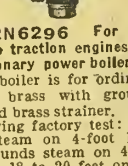
Automatic Injectors.



No. 42N6296 For feeding water into traction engines, portable and stationary power boilers. Horse-power of boiler is for ordinary type. Made of brass with ground joint unions and brass strainer. Must pass the following factory test: Start, 20 pounds steam on 4-foot lift; work to 150 pounds steam on 4-foot lift; lift water 18 to 20 feet on 60 to 80 pounds steam pressure; handle hot water 120 to 125 degrees at 60 to 80 pounds steam and 85 to 100 degrees at 125 pounds pressure. Our injectors deliver a maximum quantity of water, while the capacity can be cut down about one-half by simply throttling water supply valve.

Flue Brushes for Power and House Heating Boilers.

Hercules Self Adjusting Round Flue Cleaner.

No. 42N6188 A high quality flue cleaner which cuts or planes the soot from the inside surfaces of round flues. Especially recommended for power boilers, as it is heavily constructed and will stand rough handling and continuous hard usage. The spiral knives are automatically kept tight against the inside of the flue and remove the soot with less effort than when using a brush. Tapped to fit on a handle made of ¼-inch pipe or with a standard ¼-inch pipe thread except size 3-inch, which has a ⅜-inch pipe thread.

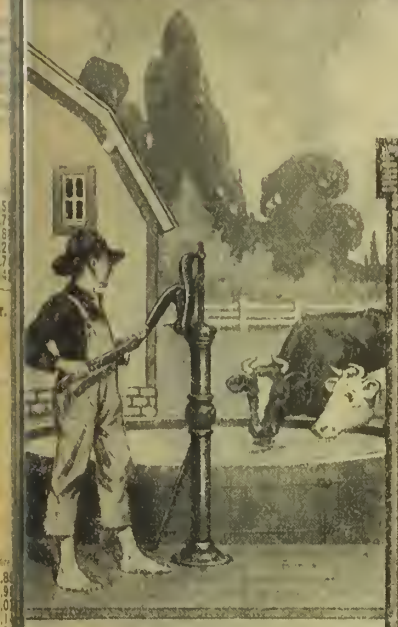
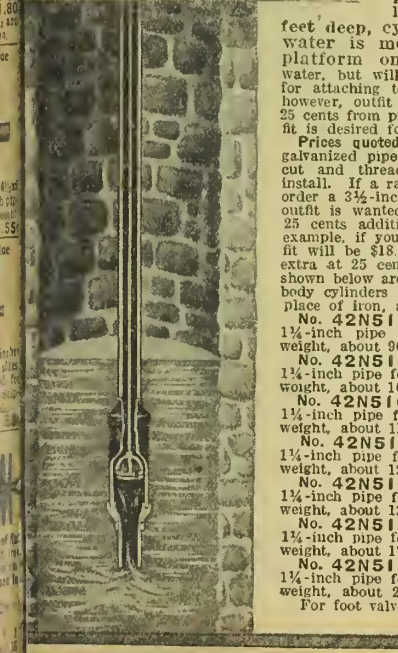
HIGH GRADE PUMPS AT POPULAR PRIC





These Pump Outfits Are Complete, Ready to Put Into Your Well

All you need for installing them is a pipe wrench. Just screw the pipe and rod together and drop it down into your well. It is very simple; anyone can do it.

Each outfit consists of a pump, pump cylinder, suction pipe and cylinder rod. The pipe and rod are just the right length to fit down into a well of the depth for which the outfit is intended.

Outfits Nos. 42N5100¼ to 42N5106¼ raise the water from the well to the pump spout. It flows from the spout by gravity. Outfits Nos. 42N5130¼ to 42N5135¼ raise the water from the well and force it out of the spout or through the opening in the back. They can, therefore, be used for sprinkling, washing windows, etc., or for forcing the water into an elevated storage tank.

Eureka Anti-Freezing Lift Pump Outfit.

For Hand or Windmill Pumping. For Dug or Open Wells.

A heavily constructed lift pump guaranteed to give excellent results in wells up to 80 feet deep, cylinder to be lowered whenever water is more than 25 feet below pump platform on page 1610. Pump will lift water, but will not force it. Has combination head for attaching to windmill or pumping by hand. If, however, outfit is desired for hand use only, deduct 25 cents from prices shown below and specify that outfit is desired for hand use only.

Prices quoted below are for complete outfit, pump, galvanized pipe, 3x10-inch iron cylinder and rod, all cut and threaded to the proper lengths. Easy to install. If a rather large quantity of water is desired, order a 3½-inch cylinder, allowing 50 cents extra. If outfit is wanted for wells deeper than 50 feet, allow 25 cents additional for each foot over 50 feet. For example, if your well is 75 feet deep, the cost of outfit will be $18.25 for 50-foot well outfit, plus 25 feet extra at 25 cents a foot, $6.25; total, $24.50. Prices shown below are for pumps with iron cylinders. Brass body cylinders are more serviceable and if wanted in place of iron, add $3.30 extra.

No. 42N5100¼ Pumping Outfit, complete with 1¼-inch pipe for 10-foot well. Shipping weight, about 90 pounds. Price..... **$8.50**

No. 42N5101¼ Pumping Outfit, complete with 1¼-inch pipe for 15-foot well. Shipping weight, about 102 pounds. Price..... **$9.70**

No. 42N5102¼ Pumping Outfit, complete with 1¼-inch pipe for 20-foot well. Shipping weight, about 114 pounds. Price..... **$10.60**

No. 42N5103¼ Pumping Outfit, complete with 1¼-inch pipe for 25-foot well. Shipping weight, about 126 pounds. Price..... **$11.50**

No. 42N5104¼ Pumping Outfit, complete with 1¼-inch pipe for 30-foot well. Shipping weight, about 138 pounds. Price..... **$13.50**

No. 42N5105¼ Pumping Outfit, complete with 1¼-inch pipe for 40-foot well. Shipping weight, about 174 pounds. Price..... **$15.75**

No. 42N5106¼ Pumping Outfit, complete with 1¼-inch pipe for 50-foot well. Shipping weight, about 200 pounds. Price..... **$18.25**

For foot valves and strainers see page 1613.

Triumph Windmill Force Pump Outfit.

Also for Hand Pumping.

Especially designed to meet a large demand for a substantial high grade force pump outfit. Made of high quality material throughout. Fitted with 3x10-inch cylinder having a 6-inch stroke. Adapted for connecting to windmill, but also gives very satisfactory results when operated by hand. Brass cock at spout and brass shut off at back, as illustrated, enables changing of water discharge from spout to pipe leading to an elevated tank. By connecting 1-inch galvanized pipe to shut off, also known as back attachment, water can be forced into an elevated tank or reservoir placed at a distance from the pump. Cock at spout is threaded for ¾ inch hose and pump will throw a stream of water for some distance. An excellent pump for fire protection as well as supplying water to storage or other tanks. Pipe leading from pump to tank not included at prices quoted below. It must be ordered separately. Triumph outfits cannot be used in wells over 25 feet deep unless diameter is 4½ inches or more, as cylinder must be lowered into or near the water in well, as described on page 1610, headed "How to Order a Pump Outfit." If wanted with brass body cylinder instead of iron, add $3.30 extra.

No. 42N5130¼ Pumping Outfit, complete with 1¼-inch pipe for 20-foot well. Shipping weight, about 125 pounds. Price..... **$15.45**

No. 42N5131¼ Pumping Outfit, complete with 1¼-inch pipe for 30-foot well. Shipping weight, about 175 pounds. Price..... **$18.35**

No. 42N5132¼ Pumping Outfit, complete with 1¼-inch pipe for 40-foot well. Shipping weight, about 210 pounds. Price..... **$20.60**

No. 42N5133¼ Pumping Outfit, complete with 1¼-inch pipe for 50-foot well. Shipping weight, about 240 pounds. Price..... **$23.10**

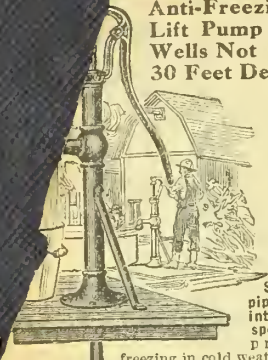
No. 42N5134¼ Pumping Outfit, complete with 1¼-inch pipe for 60-foot well. Shipping weight, about 270 pounds. Price..... **$25.60**

No. 42N5135¼ Pumping Outfit, complete with 1¼-inch pipe for 75-foot well. Shipping weight, about 320 pounds. Price..... **$29.70**

For foot valves and strainers see page 1613.

st Quality Iron Pumps, Priced Low

Anti-Freezing Lift Pump for Wells Not Over 30 Feet Deep.

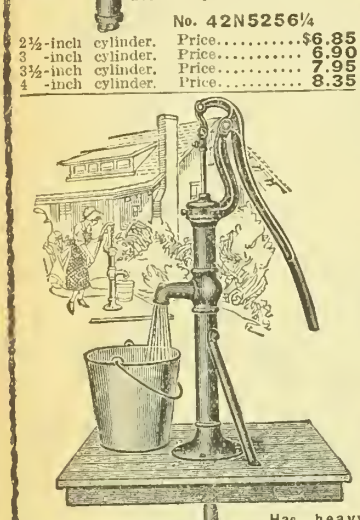


Suction pipe screws into pump at spout. This prevents freezing in cold weather. Iron cylinder 10 inches long with 6-inch stroke, fitted for 1¼-inch pipe. If wanted with galvanized pipe from pump to cylinder, add 50 cents extra. For information on ordering your pump outfit, see section headed "How to Order a Pump Outfit," on this page. Shipping weight, about 62 pounds.

Fitted with revolving top so handle may be turned as desired.

No. 42N5256¼

2½-inch cylinder.	Price	$6.85
3 -inch cylinder.	Price	6.90
3½-inch cylinder.	Price	7.95
4 -inch cylinder.	Price	8.35

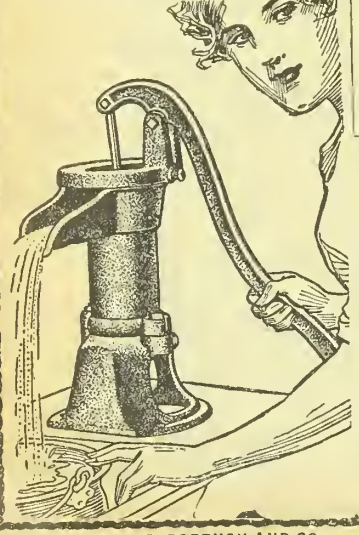


Triumph Hand Anti-Freezing Lift Pump.

Has heavy revolving top so handle may be turned as desired.

For wells not more than 80 feet deep. Top of pump covered except where piston rod passes through. Piston rod connected to handle with oscillating coupling, making it work more easily. Guaranteed to give excellent results when cylinder is lowered as explained in "How to Order a Pump Outfit" on this page. Four feet of black suction pipe included. Iron cylinder, 10 inches long, 6-inch stroke. If wanted with brass body cylinder instead, add $3.30 extra. If wanted with galvanized (instead of black) pipe from pump to cylinder, add 50 cents extra. Shipping weight, about 64 pounds.

No. 42N5264¼ 3- in. cylinder.. $7.30
No. 42N5266¼ 3½-in. cylinder.. 9.90



How to Order a Pump Outfit.

We show a complete line of pumps on the following pages at prices (quality considered) exceptionally low. We list two styles, lift pumps and force pumps. Lift pumps merely lift the water to the spout from which it flows. Force pumps not only lift the water to the spout, but will also force it up into an attic tank, through a garden hose, or to different places on your premises.

On this page we list two complete pumping outfits, including everything cut and threaded, ready to set up. If neither of these outfits quite suits your requirements, it is easy to make up your own outfit from the pumps on the following pages. Follow the few directions given below and you will receive your outfit all cut and fitted.

If you would like an estimate from us, send us the dimensions of your well, stating diameter, distance from surface of ground to water, and total depth of well, and tell us whether you wish to lift or force the water.

To figure your own outfit, first measure the depth and width of your well, also the distance from ground to water. Then select a pump to fit your needs. This will depend upon the amount of water you use, the depth of your well, and whether pump is to be operated by hand, windmill or belt power. The larger the cylinder and the longer the stroke, the greater amount of water can be pumped per stroke. For ordinary purposes a 3-inch cylinder and a 6-inch stroke are sufficient. With a deep well it is necessary to use a smaller cylinder and a longer stroke, otherwise pump would work too hard. In our descriptions of pumps we advise as to the best size to use.

If distance from ground to surface of water is more than 25 feet, it will be necessary to lower cylinder. To obtain best results, place cylinder down in water. This keeps it primed at all times. For lowering cylinder we charge 7 cents a foot, which covers cutting and threading cylinder rod. This charge does not include piping.

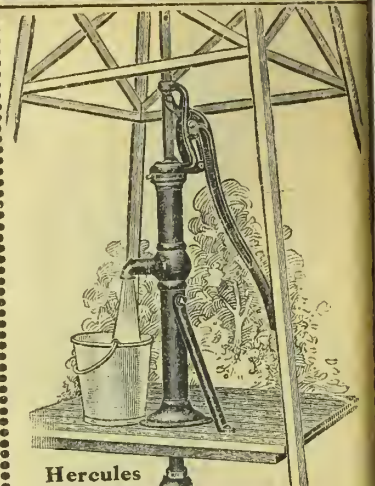
Order sufficient pipe to reach from pump down into well, to a distance 10 feet below lowest possible water level (except when water is shallow), and sufficient extending cylinder rod to place cylinder on end of pipe. When pump includes cylinder and a piece of pipe, the distance from pump base to end of cylinder is 4 feet with the exception of Nos. 42N5323¼ and 42N5332¼, which are 6 feet, and No. 42N5352¼, which is 4 feet 6 inches. (See page 1611.) These distances should be deducted from pipe and rod required. If there is but a small amount of water in well, say 2 or 3 feet, it is best to lower cylinder to level of water and then use a short piece of pipe that will reach to within one foot of bottom of well. Galvanized wrought pipe is listed on page 1606. In the description of each pump the size pipe required is given.

EXAMPLE: First, we will figure an outfit for a 50-foot well 6 inches in diameter with lowest possible water level 20 feet from bottom. We desire to use a hand lift pump and we will assume that only an ordinary amount of water is required. We will, therefore, need the following:

No. 42N5264¼	One pump with 3-inch cylinder. Price	$ 7.30
No. 42N5711¼	36 feet 1¼-inch galvanized pipe (pump is furnished with 4 feet of pipe and rod) at 18 cents per foot	6.48
	SPECIAL. 36 feet extending cylinder rod, at 7 cents per foot	2.52
	Total	16.30

As a second example, we will assume that the conditions are exactly the same except that there is but 2 feet of water in the well instead of 20 feet. For this outfit we will need:

No. 42N5264¼	One pump with 3-inch cylinder. Price	$ 7.30
No. 42N5711¼	45 feet 1¼-inch galvanized pipe (pump is furnished with 4 feet of pipe and rod) at 18 cents per foot	8.10
	SPECIAL. 44 feet extending cylinder rod, at 7 cents per foot	3.08
	Total	$18.48



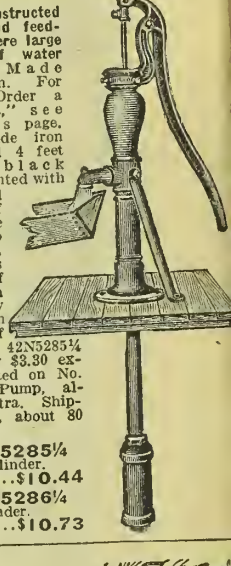
Hercules Windmill Anti-Freezing Lift Pump.

For wells not over 100 feet deep. Has 10-inch cylinder, 6-inch stroke and 4 feet of 1¼-inch black pipe. Piston rod works through double guide. Has closed top. Can be operated by windmill or hand. See top of this page, "How to Order a Pump Outfit."

Prices quoted include iron cylinder. If wanted with brass body cylinder instead, add $3.30 extra. If wanted with galvanized (instead of black) pipe from pump to cylinder, add 50 cents extra. Shipping weight, about 74 pounds.

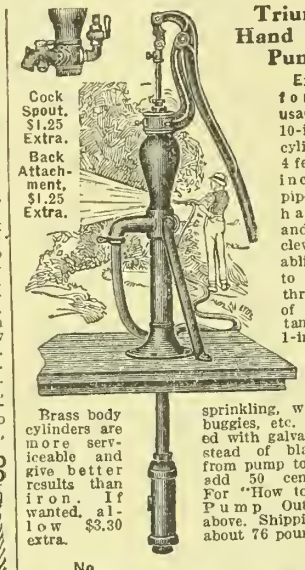
No. 42N5276¼ 3-inch cylinder for 1¼-inch pipe. Price.....$9.00
No. 42N5278¼ 3½-inch cylinder for 1¼-inch pipe. Price.....$9.75

Extra Heavy Lift Pump.



Heavily constructed for stock and feeding yards where large quantities of water are needed. Made of cast iron. For "How to Order a Pump Outfit," see top of this page. Prices include iron cylinder and 4 feet of 1¼-inch black pipe. If wanted with galvanized (instead of black) pipe from pump to cylinder, add 50 cents extra. If wanted with a brass body cylinder in place of iron on No. 42N5285¼ Pump, allow $3.30 extra; if wanted on No. 42N5286¼ Pump, allow $4.05 extra. Shipping weight, about 80 pounds.

No. 42N5285¼ 3½-inch cylinder. Price $10.44
No. 42N5286¼ 4-inch cylinder. Price $10.73



Cock Spout, $1.25 Extra.

Back Attachment, $1.25 Extra.

Triumph Hand Force Pump.

Extra heavy for hard usage. Has 10-inch iron cylinder and 4 feet of 1¼-inch black pipe. Spout has hose and shut off clevis, enabling water to be forced through back of pump to tank through 1-in. pipe or through ¾-in. hose for sprinkling, washing buggies, etc. If wanted with galvanized (instead of black) pipe from pump to cylinder, add 50 cents extra. For "How to Order a Pump Outfit," see above. Shipping weight, about 76 pounds.

Brass body cylinders are more serviceable and give better results than iron. If wanted, allow $3.30 extra.

No.		Price
No. 42N5301¼	2½-in. cylinder..	$10.25
No. 42N5302¼	3 -in. cylinder..	10.30
No. 42N5303¼	3½-in. cylinder..	10.50

Pitcher Spout Iron Pump.

For wells or cisterns 20 feet deep or less. Has revolving top so handle may be turned as desired; 2½ and 3-inch cylinders fitted for 1¼-inch iron pipe; 4-inch cylinder for 1½-inch iron pipe. Order pipe from water to pump.

No. 42N5200¼ 2½-inch iron cylinder. Shipping wt., about 20 lbs. Price....$2.18

No. 42N5200¼ 2½-inch brass lined cylinder. Price.....$3.60

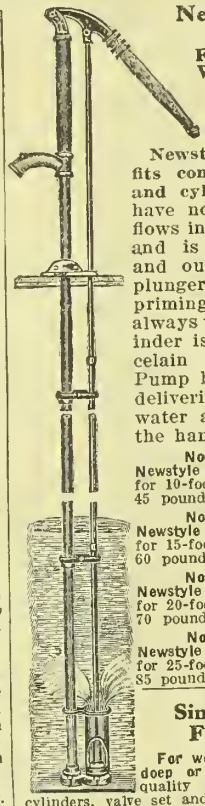
No. 42N5202¼ 3-inch iron cylinder. Shipping wt., about 23 lbs. Price....$2.43

No. 42N5202¼ 3-inch brass lined cylinder. Price.....$3.96

No. 42N5204¼ 4-inch iron cylinder. Shipping wt., about 31 lbs. Price....$3.17

No. 42N5204¼ 4-inch brass lined cylinder. Price $5.20

No pipe included in above prices.



Newstyle Pump Outfit.

For Cisterns and Wells Not More Than 25 Feet Deep.

Newstyle pump outfits complete with pipe and cylinder rod. They have no suction. Water flows into top of cylinder and is forced up pipe and out of spout by plunger. Requires no priming, as cylinder is always under water. Cylinder is 3x9 inches, porcelain enameled inside. Pump has 8-inch stroke, delivering a quart of water at each stroke of the handle.

No. 42N5115¼
Newstyle Pump Outfit, complete for 10-foot well. Shipping wt., 45 pounds. Price.....$7.55

No. 42N5116¼
Newstyle Pump Outfit, complete for 15-foot well. Shipping wt., 60 pounds. Price.....$8.65

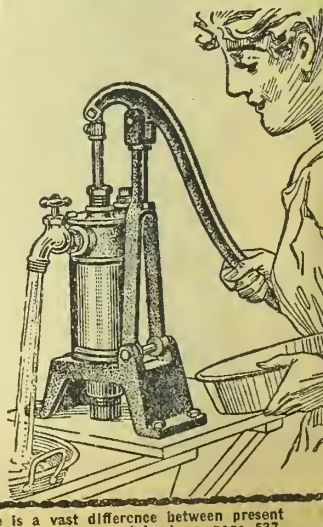
No. 42N5117¼
Newstyle Pump Outfit, complete for 20-foot well. Shipping wt., 70 pounds. Price.....$9.75

No. 42N5118¼
Newstyle Pump Outfit, complete for 25-foot well. Shipping wt., 85 pounds. Price.....$11.20

Simplex Cistern Force Pump.

For wells or cisterns 20 feet deep or less. Made of high quality cast iron, with brass cylinders, valve set and stuffing nut. Gooseneck spout fitted with hose coupling or faucet cock, as illustrated. Tapped for 1¼-inch suction and 1-inch top outlet for forcing water to elevated tank. Shipping weight, about 20 pounds.

No. 42N5206¼ With plain spout and 2½-inch cylinder. Price.....$6.00
No. 42N5207¼ With plain spout and 3-inch cylinder. Price.....$6.29
No. 42N5208¼ With faucet spout, as illustrated, and 2½-inch cylinder. Price.....$6.72
No. 42N5209¼ With faucet spout and 3-inch cylinder. Price.....$7.00



Did you know that the pump has a history dating back for many centuries? There is a vast difference between present pumps and those of the early days. Many other interesting facts can be readily obtained, as explained on page 537.

Power Pumps-Wood Pumps

Double Acting rilled Well Force Pump.

For small bore wells ot more than 200 et deep. Windmill ead. Construction iows casing to be rought up to pump atform. Double ac- on is caused by the two cylinders, e upper brass lined, the lower brass dy. Makes operating by hand sier and causes a steady, even pull windmill. For "How to Order a mp Outfit," see top of page 1610. ipping weight, about 141 pounds.

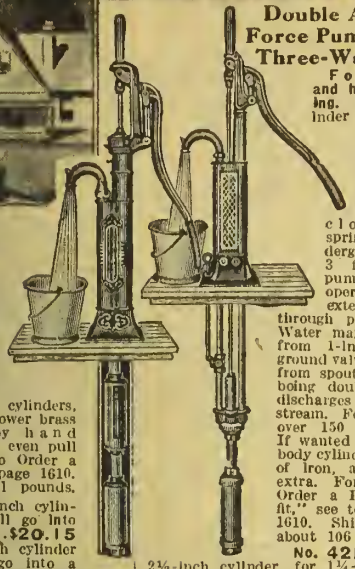
No. 42N5332¼ 2½-inch cylin- r for 1¼-inch pipe. Will go into 3-inch cased well. Price..**$20.15**

No. 42N5333¼ 3-inch cylinder r 1¼-inch pipe. Will go into a 2-inch casod well. Price..**$20.30**

No. 42N5334¼ 3½-inch cylinder for 2-inch pipe. Will go into a 4¼-inch sed well. Price.....**$21.40**

Galvanized pipe from pump to cylinder, cents extra.

Double Acting Force Pump With Three-Way Cock.



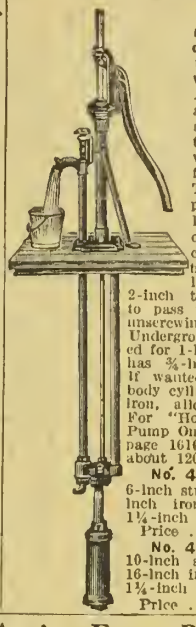
For windmill and hand pumping. Upper cylinder brass; lower cylinder of iron. Spout can be turned to right or left; has ¾-in. hose clevis for sprinkling. Underground valve 3 feet below pump platform operated by rod extending up through pump base. Water may be piped from 1-inch underground valve or forced from spout. Pump being double acting, discharges steady stream. For wells not over 150 feet deep. If wanted with brass body cylinder in place of iron, allow $3.30 extra. For "How to Order a Pump Outfit," see top of page 1610. Shipping wt., about 106 pounds.

No. 42N5323¼ 2½-inch cylinder, for 1¼-inch pipe. Price.....**$21.10**

No. 42N5324¼ 3-inch cylinder. for 1¼-inch pipe. Price....**$22.20**

No. 42N5325¼ 3½-inch cylinder, for 1½-inch pipe. Price.....**$22.70**

Underground Valve Force Pump.

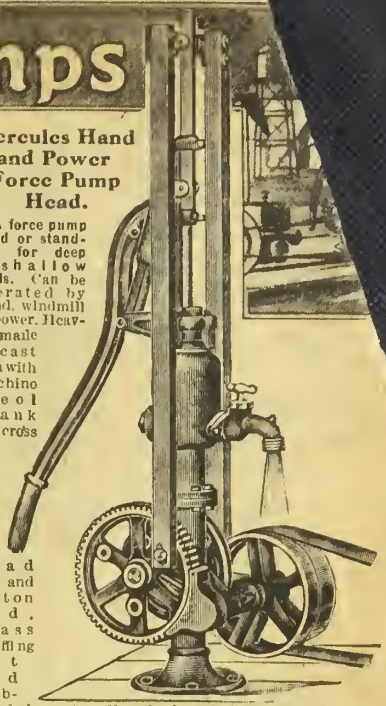


Water can be run from spout or forced through underground valve to tank. All valve parts are underground and pipe leading to spout drains when water is forced to tank. This protects pump from freezing. Cap at top of suction pipe connection can be unscrewed, allowing plunger of 2-inch tubular cylinder to pass through without unscrewing suction pipe. Underground valve threaded for 1-inch pipe. Spout has ¾-inch hose clevis. If wanted with brass body cylinder in place of iron, allow $3.30 extra. For "How to Order a Pump Outfit," see top of page 1610. Shipping wt., about 120 pounds.

No. 42N5352¼ 6-inch stroke, with 3x10-inch iron cylinder, for 1¼-inch pipe. Price.....**$17.80**

No. 42N5363¼ 10-inch stroke, with 3x 16-inch iron cylinder, for 1¼-inch pipe. Price.....**$18.25**

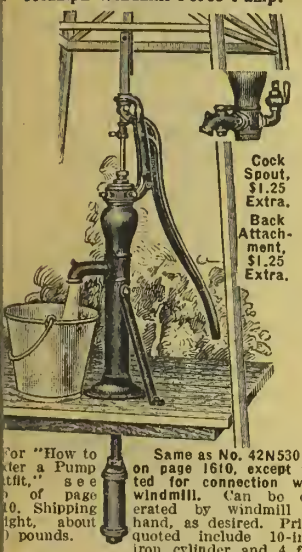
Hercules Hand and Power Force Pump Head.



A force pump head or standard for deep or shallow wells. Can be operated by hand, windmill or power. Heavily made of cast iron with machine steel crank pin, cross head pins and piston rod. Brass stuffing nut and babbitted journals. Has 6, 8 and 10-inch stroke. Spout fitted with shut off and detachable connection for 1-inch hose. Pipe 2 inches in diameter or less can be connected to back of pump and run to tank or reservoir. Suction for 2½-inch pipe or less. Pump has tight and loose pulleys 12 inches in diameter, 2½-inch face, and is back geared 5 to 1. Shipping weight, about 185 lbs.

No. 42N5356 Hercules Hand and Power Force Pump Head. Price.....**$32.00**
Cylinder, pipe and rod not included in above price.

Triumph Windmill Force Pump.



Cock Spout, $1.25 Extra.

Back Attachment, $1.25 Extra.

For "How to ter a Pump tfit," see of page 0. Shipping ght, about pounds.

Same as No. 42N5301¼ on page 1610, except fitted for connection with windmill. Can be operated by windmill or hand, as desired. Prices quoted include 10-inch iron cylinder and 4 feet of 1¼-inch black suction pe. If wanted with brass body cylinder stead of iron allow $3.30 extra. If nted with galvanized (instead of black) pe from pump to cylinder, add 50 cents ra.

2N5310¼ 2½x10-in. cylinder.**$12.15**
2N5312¼ 3 x10-in. cylinder. **12.25**
2N5314¼ 3½x10-in. cylinder. **12.55**

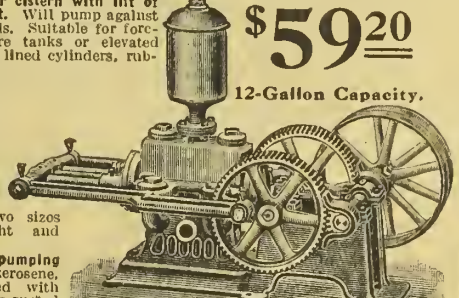
Hercules Double Acting Force Pump.

For shallow well or cistern with lift of not more than 25 feet. Will pump against pressure of 100 pounds. Suitable for forcing water to pressure tanks or elevated reservoirs. Has brass lined cylinders, rubber valves with brass seats, brass cased piston rod, babbitted journals and machine cut gears. A high quality pump at a moderate price. Back geared 4 to 1. Pump with 3x5-inch cylinder has 2½x14-inch tight and loose pulleys, the other two sizes have 4x16-inch tight and loose pulleys.

When wanted for pumping oils, gasoline or kerosene, pump must be fitted with special packing. Prices quoted on application.

$59.20

12-Gallon Capacity.



No. 42N5383¼

Cylinder, Inches	Capacity, Gallons	Suction, Inches	Discharge	Shipping Weight, About, Pounds	Price
3x5	12	1½	1¼ in.	325	$59.20
4x5	21	2	2 in.	425	68.00
5x5	34	2	2 in.	500	72.55

Capacities shown above are in gallons per minute, at forty complete strokes per minute.

Wood Farm Pumps.

Made from first grade 6x6-inch stock, measuring about 5½ inches square when dressed. Nicely painted, striped and varnished. Iron handle brackets and iron spout. For wells not over 30 feet deep. When ordering include tubing listed below to reach from bottom of pump to bottom of well. When more than 9 feet of tubing is required, order coupling for each joint to connect tubing. Shipping weight, about 38 pounds.

No. 42N5412¼ Length, 6 feet, for wells up to 20 feet deep.
Price, plain pump....**$4.80**
Price, with porcelain lined cylinder.....**$6.00**

No. 42N5413¼ Length, 7 feet, for wells 20 to 25 feet deep.

Price, with porcelain lined cylinder.....**$6.60**

No. 42N5414¼ Length, 8 feet, for wells 25 to 30 feet deep.
Price, plain pump.....**$6.00**
Price, with porcelain lined cylinder **$7.20**

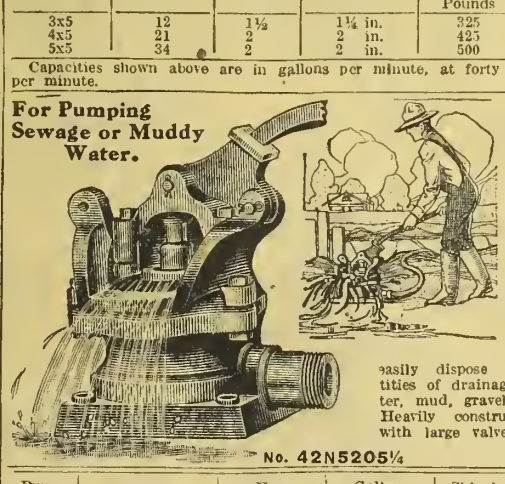
No. 42N5415¼ Tubing to fit above pumps, 4 inches square, with 1¾-inch bore, in random lengths from 6 to 9 feet. Shipping weight, per foot, about 1¼ pounds. Per foot.....**16c**

No. 42N5416¼ Couplings for Tubing. Shipping weight, each, about 5 pounds. Price, each.....**48c**

No. 42N5660 Plunger Leathers, for above pumps. High quality. Far superior to cross grained leathers. Shipping weight, each, about 8 ounces.
Price, each.....**15c**

Iron pipe cannot be used with wood pumps.

For Pumping Sewage or Muddy Water.



Triumph Non-Clog Diaphragm Pump.

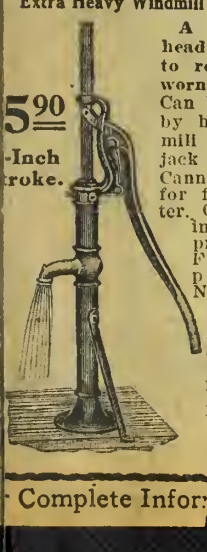
Recommended by contractors, sewer diggers and ditchers for pumping dirty or gritty water. Will quickly and easily dispose of large quantities of drainage or sewer matter, mud, gravel and quicksand. Heavily constructed throughout with large valve ways.

No. 42N5205¼

Pump No.	Suction	Hose or Pipe	Gallons per Hour	Shipping Wt., Lbs.	Price
1	Side suction	2½-in.	1,500	85	$19.85
2	Side suction	3 -in.	3,500	185	25.60
3	Bottom suction	2½-in.	1,500	95	18.70
4	Bottom suction	3 -in.	3,500	170	24.35

For Suction Hose See Index.

Extra Heavy Windmill Standard.



A lift pump head or standard to replace your worn out pump. Can be operated by hand, windmill or pump jack and engine. Cannot be used for forcing water. Cylinder not included in prices quoted. For force pumps see No. 42N5347¼ or No. 42N5351¼. Designed especially for heavy service, such as pumping water for stock and in feed yards; made extra heavy with high spout. Two-inch pipe generally used, but we will furnish for 1½ or 1¼-inch pipe when requested. Prices quoted do not include pipe, cylinder or rod. For "How to Order a Pump Outfit" see top of page 1610. For cylinders, see No. 42N5402¼ to No. 42N5424¼, page 1613. Shipping weight, about 71 pounds.

No. 42N5349¼ 6-inch stroke.....**$5.90**
No. 42N5350¼ 10-inch stroke..... **6.50**

5.90
-Inch troke.

Extra Heavy Windmill Force Pump Standard.

A force pump head or standard to replace your worn out pump. For operating by hand, windmill or pump jack and engine. With brass stuffing box. Threaded in back for 1-inch pipe to lead to elevated tank. Placing shut off clevis on spout forces water to tank. Prices are for standard only. For cylinders, see No. 42N5402¼ to No. 42N5424¼ on page 1613. For "How to Order a Pump Outfit," see top of page 1610. Shipping weight, about 75 pounds.

Cock Spout, $1.25 extra. Back Attachment, $1.25 extra.

No. 42N5347¼ 6-inch stroke for 1¼-inch pipe. Price.....**$8.05**

No. 42N5351¼ 10-inch stroke for 2-inch pipe. Price.....**$8.65**

Fire Fighting Apparatus and Pumps

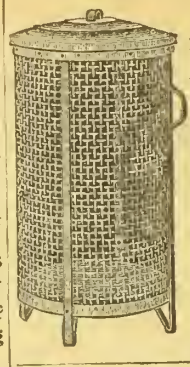
Non-Freezing Fire Extinguisher.

No. 42N501¼ Contents will not freeze at 50 degrees below zero. Just the thing for barns, stables, warehouses or any other building that is not heated. To use, insert tool and jerk out seal nut. Consists of drawn steel reservoir, containing 2 gallons of solution under 90 pounds air pressure. To recharge pour in solution and pump in air with an ordinary bicycle or auto pump. Need never be recharged until used. Shipping weight, about 40 pounds. Complete directions with each extinguisher.

Price $7.15

No. 42N502 Eight-Pound Can Calcium Chloride and seal for recharging extinguisher. Price.....90c

For Burning Rubbish of All Kinds.



No. 42N503¼

A Hercules Rubbish Burner prevents the wind from blowing the rubbish about while it is burning. It also makes a good receptacle for holding rubbish until ready to burn it. Made of heavy steel wire. Size, 14½ inches wide by 26 inches high. Shipping weight, about 20 lbs.

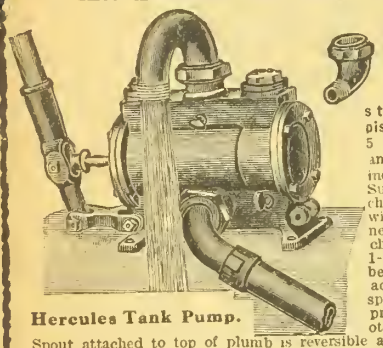
Price, with cover $3.00

Hercules Fire Extinguisher.

Approved by the National Board of Fire Underwriters.

No. 42N500¼ How much would you be willing to pay for a reliable extinguisher in case of an actual fire starting in your home? How long would it take a fire to burn $13.50 worth of clothing, property, etc., to say nothing of a possible loss of life? Think it over. This extinguisher is a 3-gallon copper cylinder, with opening in top into which is fitted a heavy brass cage holding an 8-ounce round glass bottle containing 4 ounces of sulphuric acid. The extinguisher is partly filled with water in which 1½ pounds of soda are dissolved. Tested by water pressure to 350 pounds per square inch and capable of withstanding four times the pressure possible to generate. To operate turn extinguisher upside down and direct the stream to base of fire. Has extinguishing power of 120 gallons of water. Shipping weight, about 23 pounds. Price.....$13.50

For Filling Thresher Tanks and Pumping Into Elevated and Stock Tanks.

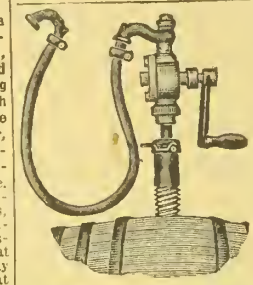


Hercules Tank Pump. Strictly a double acting pump, sucking and discharging water at each stroke of the piston. Cylinder, 5 inches in diameter with 5-inch stroke. Suction and discharge 2 inches, with extra connection for discharge so that 1-inch hose may be used, a great advantage for sprinkling, fire protection and other purposes. Spout attached to top of plumb is reversible and so arranged that a large pail can be placed under it. Pump has capacity of about 50 gallons a minute, will force water 60 feet and is equipped with brass valve seats. This tank pump is of excellent quality, workmanship and design, and will give absolute satisfaction. Shipping weight, about 78 pounds.

No. 42N5386¼ Pump, complete, as shown in illustration. No hose. Price.....$10.00

No. 42N5657 5-Inch Crimped Plunger Leathers. Shipping weight, about 8 ounces. Price, per set of two...65c

For suction hose, strainers and clamps see Index.

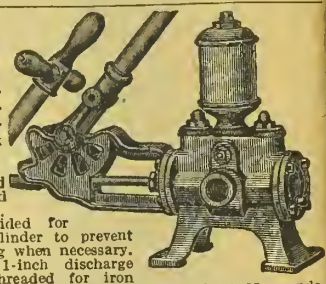


For Pumping Oil, Syrup or Other Liquids Out of Barrels and Forcing Them Into a Tank or Other Receptacle.

Hand Rotary Barrel Pump. Simply screw suction into bung of barrel, prime pump through cap at top and turn the handle. Will force liquids 15 or 20 feet above pump. Working parts are same as Acme rotary power force pump, shown on this page. Made of iron. Furnished with 3-foot suction pipe, 5-foot discharge hose and goose neck, as illustrated. Capacity, 13 gallons per minute. Shpg. wt., about 65 lbs.

No. 42N5365¼ Hand Rotary Barrel Pump. Price.....$9.90

For Pumping Water From Cisterns or Shallow Wells to Elevated Tanks. Also Used for Cleaning and Filling Boilers, for Fire Protection and as a Deck Pump.



Double Acting Hand Force Pumps. Fitted with all brass valves, brass plugs also provided for draining water from cylinder to prevent freezing, and for priming when necessary. 1¼-inch suction and 1-inch discharge openings both sides, threaded for iron pipe. Cylinder, 4-inch stroke. Shipping weight, about 65 pounds.

Catalog No.	Diam. Cylinder, Inches	Price, Iron Cylinder	Price, Brass Lined Cylinder
42N5417¼	2½	$11.75	$13.75
42N5418¼	3	12.10	14.30

No pipe included in above prices.

Acme Rotary Power Force Pump.

Will force water a horizontal distance of 200 feet and throw a solid stream 20 feet. An excellent pump for raising a large amount of water with minimum amount of power where lift is not over 15 feet and elevated tank into which water is forced not over 50 feet above pump. Fine protection in case of fire. Driving shaft made long enough to allow use of balance wheel with handle so pump may be worked by hand when desired. Spout threaded for iron pipe at end and also at top where it connects to pump. Can be run at 200 revolutions per minute without injury, although 100 is recommended. If wanted with balance wheel and handle for hand power, allow $3.60 extra. Prices quoted do not include pipe or belt. For pipe see page 1606, Nos. 42N5710¼ and 42N5711¼.

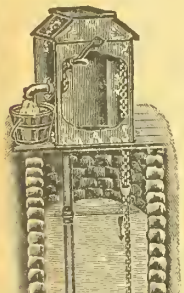
Hercules Wood Curb Chain Pumps With Galvanized Steel Tubing.



Curb is made of No. 1 select wood, nicely painted. Chain is heavily galvanized. Buckets furnished with this pump are made of good quality rubber with large inside flanges and links of galvanized steel, making it practically impossible for rubber to shift or become loose. We advise the use of this pump for wells no deeper than 20 feet. For wells of greater depth purchase one of our iron pumps. Shipping wt., about 64 pounds.

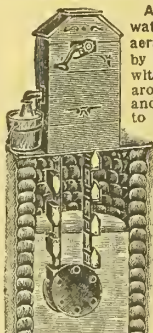
Challenge Wood Curb Purifying Pumps.



A simple method for raising water and at the same time aerating it. Water is raised by means of an endless chain with buckets which pass around bearings in pump and well. Buckets carry air to bottom of well where it is released and works its way to the surface in small bubbles. These bubbles liberate the gases the water may contain while the oxygen in the air helps to purify the water. Order outfit that will reach to within 2 feet of well bottom as water is cooler and fresher at this point. Pumps consist of wood curb nicely painted, galvanized endless chain with buckets and lower bearing all ready to place in well. Shipping weight, about 90 pounds.

No. 42N5622 Size, 1/2 inch. 14 threads to the inch. Price 6c

Let a Simplex Automatic Ram Pump Water for You. No Power Required.

Will elevate water to a high tank or reservoir, or will force it a long distance from the source of supply. Set the ram below a spring or body of water at a distance of from 25 to 50 feet. Will lift water 4 to 10 feet for every foot of fall (difference in level) between water and ram. The ram lifts about one-seventh of the water which runs into it; the balance of the water runs out of the ram at the valve in the operation of lifting and is, of course, wasted. Find out how many gallons per minute your spring or stream will supply. Determine by table shown above which ram you will need. Order enough pipe for your purpose, prices of which will be found under Nos. 42N5710¼ and 42N5711¼ on page 1600. All you have to do is to connect the supply or feed pipe to ram and place one end in the water. Connect the discharge pipe to the other side of ram and run it to the tank into which you wish the water to empty. Ram will not work with less than 2 feet of fall. We furnish full directions for installing. If you wish any further information write and ask for our Hydraulic Ram Circular, mailed free on request.

Hercules Well Boring Outfit and Post Hole Digger.

Bores wells 25 feet deep, 8, 9, 10, 11, 12, 13 or 14 inches in diameter and digs post holes quickly and with little effort. Requires no special machinery for boring wells; simply place auger on ground where you want well and turn handle. Bores through sand, gravel, sticky clay, mud or hard pan. Will dig under water; works easily and rapidly. When auger is full, draw it out of hole, pull up release catch and it opens, as shown in illustration, allowing earth to drop out without shaking or pounding. Auger bores 8-inch hole, but by attaching extension blade diameter may be increased to 9, 10, 11, 12, 13 or 14 inches. This makes the auger suitable for digging holes for foundation piling for barns or other outbuildings.

Outfit consists of a new type earth auger, extension rods with malleable couplings for boring down 25 feet, extension blade for increasing diameter of hole and a smooth finish hardwood handle. Shipping weight, about 50 pounds.

No. 42N6213¼ Hercules Well Boring Outfit and Post Hole Digger, complete, as described above.....$8.25

For complete line of post hole diggers see page 1402. Earth augers are listed on this page.

No. 42N5612¼ Harder the pull, tighter the grip. For 1, 1¼ and 1½-inch pipe. Dog has corrugated chilled surface. Shipping wt., about 35 pounds.

Price $2.40

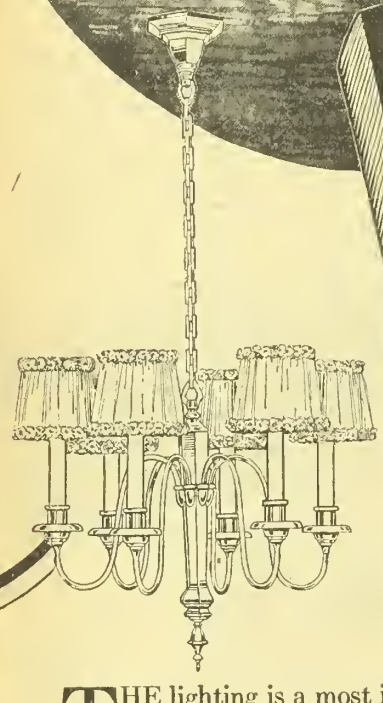
Our New Lighting Fixture Catalog

Ask for It



Send Today for This Book

THE lighting is a most important feature of a well appointed home. Our new Lighting Fixture Catalog illustrates a comprehensive line of Lighting Fixtures, embodying the latest ideas in modern illumination. It also contains a complete selection of standard electrical house wiring materials, lighting glassware and portable lamps. It will pay you to send for this catalog. Quality should be considered when buying lighting fixtures. Quality is the foundation of our line, and our liberal guarantee protects you.

Have you been thinking of putting a new lighting fixture in your living room or dining room, something to replace the old one that's an eyesore to you? Or is the lighting of the bedroom bad, making it hard to see how to dress? Why not put that new fixture in right away?

Perhaps you have a house or an apartment that you want to rent or sell. Why not make it more beautiful and valuable by installing attractive Lighting Fixtures? The increase in the rent or sale price will pay for the fixtures many times over. Write today for our Lighting Fixture Catalog.

Now is the time to buy lighting fixtures while they can be obtained. Labor and materials are getting more difficult to procure each day. Buy now, for prices today are as low if not lower than they will be for some time to come.

Our electric fixtures are properly constructed and wired for use with either city current or any home lighting plant.

Our fixtures are shipped to you completely assembled, wired ready to hang, fitted with "NOTORCH" attachments, which enables you to install them without the use of a soldering torch or any tools other than a screwdriver.

Our fixtures are approved by the Underwriters' Laboratories, Inc., under the direction of the National Board of Fire Underwriters, and each and every fixture bears their stamp of approval in the form of a serial numbered label.

Atlas U. S. Standard Scales

A scale to be of any value must weigh accurately on all weights up to [illegible] **capacity.** Should wear take place in any of the bearing points it will [illegible] under the scale inaccurate. Atlas Weightless Scale.

Capacity, 600 Pounds.

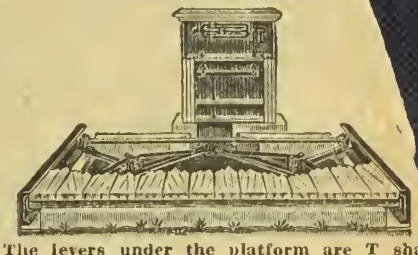
This scale has no loose weights. Upper beam marked to 100 pounds by ½-pound marks; lower beam to 500 pounds by 100-pound notches. Platform measurea 16½x24 inches. Shipping wt., 160 pounds.

No. 44N7052 Price..... **$28.50**

Atlas Test Weight.

No. 44N7199 50-Pound Sealed Test Weight. Guaranteed accurate. Used for testing any scale. Price..... **$5.75**

Atlas Pitless Scale.



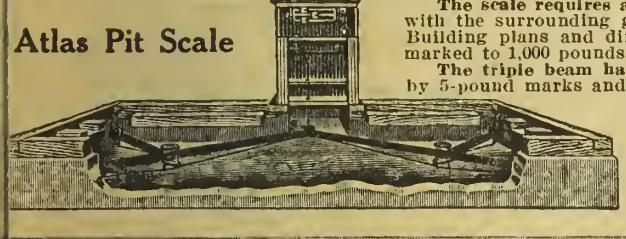
The levers under the platform are T shape steel beams. The bearing pivots are of hardened tool steel and rest in hard bearing loops, which mean long life and an accurate sensitive bearing. Weigh beams are solid brass. Upper bar of the double beam is marked to 1,000 pounds by 5-pound marks; lower bar by 500-pound notches to 9,000 pounds, capacity of scale.

The triple beam has upper bar marked to 2,000 pounds by 10-pound marks, the lower bar to 500 pounds by 5-pound marks and the middle bar to 9,000 pounds by 500-pound notches; heavy steel I beams securely tied together by iron pipe and special locknuts make a rigid steel frame on which the wood platform is mounted. Furnished complete with painted beam box and full directions. Lumber for frame and platform not included.

No. 44N7096 5-Ton Pitless Scale. Furnished for wood ends, with double beam. Shipping weight, 900 pounds. Price..... **$95.00**

No. 44N7145 5-Ton Pitless Scale. Furnished with steel ends and triple beam. We especially recommend this scale. Shipping weight, 1,160 pounds. Price..... **$120.00**

Atlas Pit Scale



The scale requires a pit 22 inches deep in which the scale is mounted and the platform is then level with the surrounding ground. Beam boxes are well made, painted and fitted with good lock and key. Building plans and directions included. Weigh beams are solid brass. Upper bar of the double beam is marked to 1,000 pounds by 5-pound marks; lower bar by 500-pound notches to 9,000 pounds.

The triple beam has upper bar marked to 2,000 pounds by 10-pound marks, lower bar to 500 pounds by 5-pound marks and the middle bar to 9,000 pounds by 500-pound notches. The 8-ton has one loose weight for weighing between 5 and 8 tons. Platform size is 8x14 feet. Lumber for platform and frame is not included at prices shown.

No. 44N7085 5-Ton Double Beam Atlas Pit Scale. Shipping weight, 565 pounds. Price..... **$ 79.80**

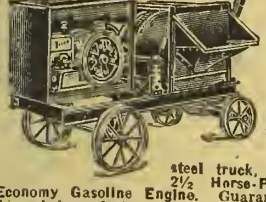
No. 44N7105 5-Ton Triple Beam Atlas Pit Scale. Shipping weight, 600 pounds. Price..... **93.75**

No. 44N7108 8-Ton Triple Beam Atlas Pit Scale. Shipping weight, 800 pounds. Price..... **127.50**

CONCRETE MACHINERY

Ellis Portable Mixing Plant.

5 Cubic Feet Capacity.



$259.00

A strong, well constructed standard type contractors' mixer on a steel truck, complete with 2½ Horse-Power Magneto Equipped Economy Gasoline Engine. Guaranteed in every respect. **Shipped from factory in CENTRAL OHIO.** Shipping weight, 2,350 pounds.

Triumph Block Machine.

A popular low priced but very efficient and practical machine with outfit for making 8x8x16-inch concrete blocks in whole, half and quarter sizes. Our Concrete Machinery Catalog shows other styles and sizes as low as $12.90. **Shipped from factory in OHIO.** Weight, 160 lbs.

No. 44N5708 Triumph Block Machine. Price.. **$18.50**

$18.50

EVERYTHING in Concrete Machinery.

We are headquarters for high grade concrete machinery of every description at money saving prices. In fact, our line is so complete that it requires a special catalog to show it.

If you use cement in any form you need our special Concrete Machinery Catalog and it will be sent for the asking.

This catalog shows concrete mixers of various types and sizes. It also shows a complete line of machines and molds for making blocks and brick, porch material, chimneys, fence posts, tile and other concrete products and contains valuable information on the manufacture of concrete products for the concrete worker or farmer. Send a letter or postal card today for your copy. Simply ask for Concrete Machinery Catalog.

Even though our description is very brief, you can order any of the above items with the understanding that you will be satisfied with the machine in every way or it can be returned and the price paid will be returned to you, together with all freight charges you paid.

Harvard Concrete Mixer.

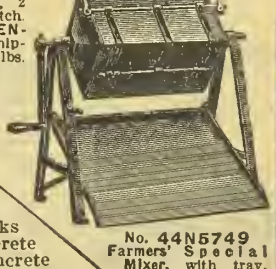
$33.50

A well known power driven paddle type Concrete Mixer. Steel drum, 4 feet long, 1 foot wide. Pulley, 11 inches in diameter, to be driven about 150 revolutions per minute. Has a 3-gallon galvanized water tank with brass valve. **Shipped from factory in CENTRAL OHIO or NORTHEASTERN IOWA.** Shipping weight, 240 pounds.

No. 44N5674 Harvard Concrete Mixer. Price..... **$33.50**

Farmers' Special Concrete Mixer.

Just the machine for the man who has occasion to mix a small batch of concrete. Can also be used for mixing feed. Steel drum measures 14x14x31 inches. Mixing capacity, 2 cubic feet per batch. **Shipped from CENTRAL OHIO.** Shipping wt., 200 lbs.

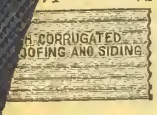


No. 44N5749 Farmers' Special Mixer, with tray, as illustrated. Price. **$20.75**

STEEL ROOFING AND SIDING

D FROM STEEL MILLS IN CENTRAL OHIO .....

1¼ and 2½-Inch Corrugated Steel.



2½-INCH CORRUGATED SHEETS are furnished in sheets which actually measure 26 inches wide. 1¼-Inch Corrugated Sheets are furnished in sheets which actually measure 25 inches in width. Both have a covering width of only 24 inches on account of the side lap. When ordering, allow from 4 to 6 inches for end laps, ding upon the pitch or slant of the roof. If used for siding, nch end lap is sufficient. When ordering by the square or 100 e feet be eure to order 109 square feet to cover 100 square feet ½-inch corrugated, and 105 square feet of the 1¼-inch corru- , not including the end laps.

WHEN ORDERING ALWAYS SPECIFY LENGTH.

We furnish two thicknesses United States Standard 28-Gauge, which is known the country over as standard weight and thickness, and United States Standard 26-gauge, which we describe as EXTRA HEAVY and which is fully 20 per cent or one-fifth heavier than standard 28-gauge. We recommend the 26-gauge in preference to the standard weight as it costs but a trifle more; costs no more to lay and gives nearly double the wear.

Two-V and Three-V Crimp Steel.

Two-V and Three-V Crimp Steel Roofing has a covering width of 24 inches after lapping one crimp over the other.

Requires no soldering, folding or hammering of seams or joints; anyone who has ordinary mechanical ability can put it on.

Price, each	29c	32c	42c

HOW TO ORDER PIPE AND GUTTER.

First. Be sure to state how much left hand and how much right hand Eaves Trough you need.

Second. Make a list of fittings for Eaves Troughs, such as Miters, Hangers, End Caps and Outlets. These should be exactly the same size as the Eaves Trough.

Third. State how much Conductor Pipe you will need and be sure to order the proper size to fit the Eaves Trough. Conductor Pipe is always smaller than the Eaves Trough. For instance, 3-inch Conductor Pipe should be used with 5-in. Eaves Trough.

Fourth. Make a list of fittings which go with Conductor Pipe, such as Elbows, Conductor Hooks, Strainers, Funnels and Cut-offs. These should be ordered exactly the same size as Conductor Pipe.

Prices on Steel are subject to market changes. If prices go lower, customers get the benefit of the reduction. If higher, we will advance prices only enough to cover the increased cost to us.

Conductor Pipe.

Corrugated conductor makes a stiff, strong pipe; is easily put together and is most commonly used. It will not burst when full of ice, as the corrugations allow the pipe to expand. Furnished only in 10-foot lengths. They are made to fit the following eaves troughs:

Size of eaves trough, inches	3½	4	4½	5	6
Size of conductor, inches	2	2	3	3	4

No. 48N3180 Standard Weight, U. S. Standard 28-Gauge.

WEATHER-PROOF PURE ASPHALT BEST-OF-ALL FELT ROOFING FIRE RESISTING

WARRANTE

4 PLY WEIG

Thick, Heavy and Durable

TEST BEST-OF-ALL ROOFING FOR
1. THICKNESS
2. WEIGHT
3. FLEXIBILITY AND STRENGTH
4. QUALITY

These four tests, simple as they may seem, will explain why we guarantee 4-ply Best-of-all Roofing to wear twelve years.

Best-of-all Roofing is a smooth finished roofing, suitable for any roof with a pitch of 1½ inches or more per running foot.

Best-of-all Roofing will outwear wood shingles, tin, tar or steel roofing, as it has stood the test in all climates. A weatherproof and fire resisting roofing that looks like rubber, feels like rubber and wears better than steel roofing. Best-of-all Roofing is elastic, pliable and tough. It is free from odor and will not discolor rain water. Anyone can lay it, the only tools required being a knife and a hammer. Needs no paint.

Every ingredient that enters into the manufacture of Best-of-all Roofing is as good as we can procure. **Strong, tough** roofing felt and tested grades of asphalt only are used. Then, not being satisfied with using **the most dependable grades of materials,** we analyze every ingredient thoroughly before we use it, so that we feel satisfied that everything going into the makeup of this roofing is positively **weather resisting and durable.** These precautions, together with the use of only the latest improved machinery, skilled workmen, and every roll being made under our own most careful inspection, result in **Best-of-all Roofing being a most reliable and durable smooth surfaced roofing.** Galvanized nails ⅞ inch long and cement included without extra charge. The heavier weights, namely, 4-ply and 2½-ply, are recommended for use over shingles. **Unless instructed otherwise, we will send the ⅞-inch galvanized nails.**

FOR 1¾-INCH NAILS TO LAY THIS ROOFING OVER SHINGLES ADD 10 CENTS PER ROLL EXTRA.

EACH ROLL OF BEST-OF-ALL ROOFING CONTAINS 108 SQUARE FEET AND WILL COVER 100 SQUARE FEET, 8 SQUARE FEET BEING ALLOWED FOR 2-INCH LAPS. ROLLS ARE 36 FEET LONG AND 3 FEET WIDE.

One of Our Very Highest Grades of Roofing

Our Flint Surfaced Asphalt Roofing is heavily surfaced on both sides with clean flint sand. Being sanded makes it especially fire resisting, because flying embers or coals are not likely to set it on fire. Flint Surfaced Asphalt Roofing is a time tested roofing and can be found in all sections of the country defying the coldest and hottest climates. It is guaranteed to be made from a long fiber roofing felt, saturated with high grade asphalt and double coated with strictly first quality pure mineral asphalt. It is absolutely free from animal oil and tar, and is guaranteed not to melt or run in Summer, or crack or break in Winter. As a fire resisting roofing it is second only to Oriental Slate Surfaced Roofing described on page 1622 and Fire-Chief Slate Surfaced Shingle Roll Roofing described on page 1621. Suitable for any roof with a pitch of 1½ inches or more per running foot.

This is an asphalt roofing; there is positively no coal tar used in its manufacture. This fact alone helps to make it fire resisting, and the waterproofing qualities of our coating give it a good heavy body, making it very strong and flexible. Flint Surfaced Asphalt Roofing will give absolute satisfaction. We **GUARANTEE** it.

Judge this roofing by its thickness, weight, strength and quality of materials used and the result will be that you will order from us. Needs no paint.

We furnish ⅞-inch galvanized nails and cement without extra charge. The ⅞-inch nails are plenty large for all prepared roofing when laid over sheathing boards. We will furnish 1¾-inch nails at 10 cents a roll extra for 3½-ply and 2½-ply roofing if it is to be laid over wood shingles.

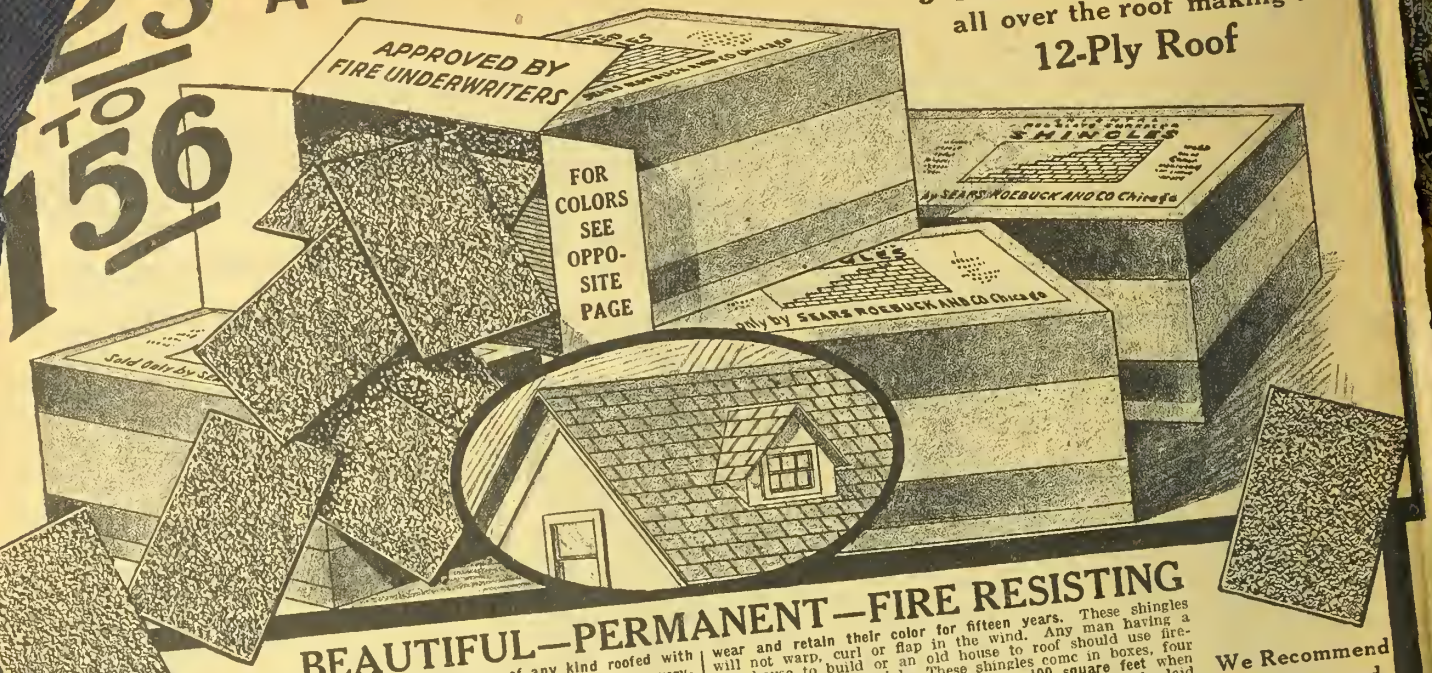
Quicker delivery and lower freight charges are assured by shipping direct from warehouse near you. SEE PRICES TO THE LEFT.

Each roll of Flint Surfaced Roofing contains 108 square feet and will cover 100 square feet, eight square feet being allowed for 2-inch laps. Rolls are 36 feet long and 3 feet wide.

$1.50 Per Roll and Up

23 TO 156 A BOX FOR ORIENTAL SHINGLES

3 Thicknesses of 4-Ply Stock all over the roof making a 12-Ply Roof



BEAUTIFUL—PERMANENT—FIRE RESISTING

The beautiful appearance of houses of any kind roofed with Oriental Slate Surfaced Shingles is increasing their sales everywhere. They are admired for the rich red or sea green colors that never fade and need no paint or stain. They are practically fireproof—the slate surface presenting a rocklike resistance to flying sparks. Approved by the Underwriters' Laboratories, Inc., under direction of the National Board of Fire Underwriters. No culls to be thrown away, no loss of time in selecting the proper size of shingles. They can be laid with less expense than wood shingles and they are guaranteed to wear and retain their color for fifteen years. These shingles will not warp, curl or flap in the wind. Any man having a new house to build or an old house to roof should use fire-resisting roofing material. These shingles come in boxes, four boxes to the square, sufficient to cover 100 square feet when laid 4 inches to the weather and ½ inch apart. Can be laid on the same sheathing as wood shingles, even if roof boards are from 1 to 2 inches apart. They make a safe, warm, beautiful and durable roof. Size of each shingle, 8x12¾ inches. Shipped from warehouses near CHICAGO, ILL., or CINCINNATI, OHIO.

We Recommend the Approved Shingles.

Size of Each Shingle, 8x12¾ In.

PRICE OF ORIENTAL SLATE SURFACED SHINGLES — Approved by National Board of Underwriters.

Catalog No.		Price, per Box, 106 Shingles	Shpg. Wt., per Box, Pounds

BEAR HIDE ROOFING

Bear Hide Is Our Own Trade Mark, Registered in U. S. Patent Office.

GOOD ROOFING AT LOW PRICES

Bear Hide Asphalt Roofing is STRONG, TOUGH and DURABLE. It is made of good grade materials—felt and asphalt—no tar or other low grade ingredients being used. It comes in standard weights, 35, 45 and 55 pounds to the roll.

This roofing is a superior quality of standard asphalt roofing. It is easy to lay, looks well on the roof and will last for an indefinite period. While it looks nearly as good as our GUARANTEED BEST-OF-ALL ROOFING we cannot guarantee it to wear for any given number of years. But you can be assured that Bear Hide Roofing will give you the maximum amount of wear and service.

If you want to be absolutely sure that you are getting strictly first quality roofing buy our Best-of-all, Flint Surfaced, Oriental Slate Surfaced or Fire-Chief Slate Surfaced Shingle Roll Roofing.

Bear Hide Asphalt Roofing has been adopted by us to prove to our customers that a quality roofing can be sold at a reasonable price. It has been our aim in the manufacture of our different brands of roofing to make them so good in every way, so thick, so heavy and so durable that people everywhere would not hesitate to use them on the better class of buildings. The great POPULARITY OF OUR GUARANTEED ROOFINGS is the result of this policy. Bear Hide Asphalt Roofing for $1.50 to $2.15 a roll is second only to our very highest grades. Rolls are 36 inches wide and contain 108 square feet, covering surface 100 square feet. Nails and cement included.

Prices for Standard Grades Bear Hide Roofing. Shipped Only From Warehouses Near CHICAGO, ILL., or CINCINNATI, OHIO.
Will also ship from our CHICAGO store if requested.

Fire Chief Shingle Roll Roofing

Makes Fire Resisting Roofs

90 POUNDS

GUARANTEED 15 YEARS

Approved by Underwriters

Approved by the Underwriters' Laboratories, Inc., Under Direction National Board of Fire Underwriters.

LOOKS EXACTLY LIKE PAINTED RED OR GREEN WOOD SHINGLES, but costs less than half as much. Wears practically twice as long and does not catch fire from flying sparks. Fire-Chief Shingle Roll Roofing does not have the defects, such as curled or warped shingles, so often found in wood shingle roofs.

THE PATTERN is made of real red or sea green crushed slate (your choice of color), with black shaded lines inlaid between each shingle, a treatment that is permanent and beautiful. Needs no painting.

EITHER COLOR will make a nice appearing roof, but we recommend the green because the shingle pattern is more pronounced.

RESISTS FIRE. Fire-Chief Shingle Roll Roofing actually resists fire, whereas wood shingles when dry will catch fire easily from sparks.

EXCLUDES SNOW AND WATER BETTER THAN WOOD SHINGLES. Fire-Chief Shingle Roll Roofing is airtight and watertight.

WARMER THAN WOOD SHINGLES and helps make a house cooler in Summer and warmer in Winter. Can be used over old shingles, giving double roof protection.

GUARANTEED FOR FIFTEEN YEARS. A written guarantee, backed by the entire resources of Sears, Roebuck and Co., protects you for fifteen years. If the building is kept in good condition this roofing will wear many years longer.

IT PAYS TO BUY GOOD ROOFING because the roof of a building has to stand the hardest weather conditions.

WEARING QUALITY FULLY TESTED. The formula and process for making Fire-Chief Shingle Roll Roofing have been in use for years in our Oriental Slate Surfaced Roofing. It has been put to the most severe tests. Roofing laid twelve years ago is practically as good as the day it was laid. It is an asphalt roofing that defies heat, cold, rain and snow.

We have made this THE HEAVIEST, THICKEST, STRONGEST AND MOST BEAUTIFUL of all our roofings. Each roll weighs 90 pounds. IT IS 4-PLY STOCK.

Shipped from warehouses in CINCINNATI, OHIO, ST. PAUL, MINN., KANSAS CITY, MO., ALBANY, N. Y., PITTSBURGH, PENN., or NORTHEASTERN ILLINOIS. We will also ship from our CHICAGO store with other goods if requested; also from ATLANTA, GA., for $3.64 per roll.

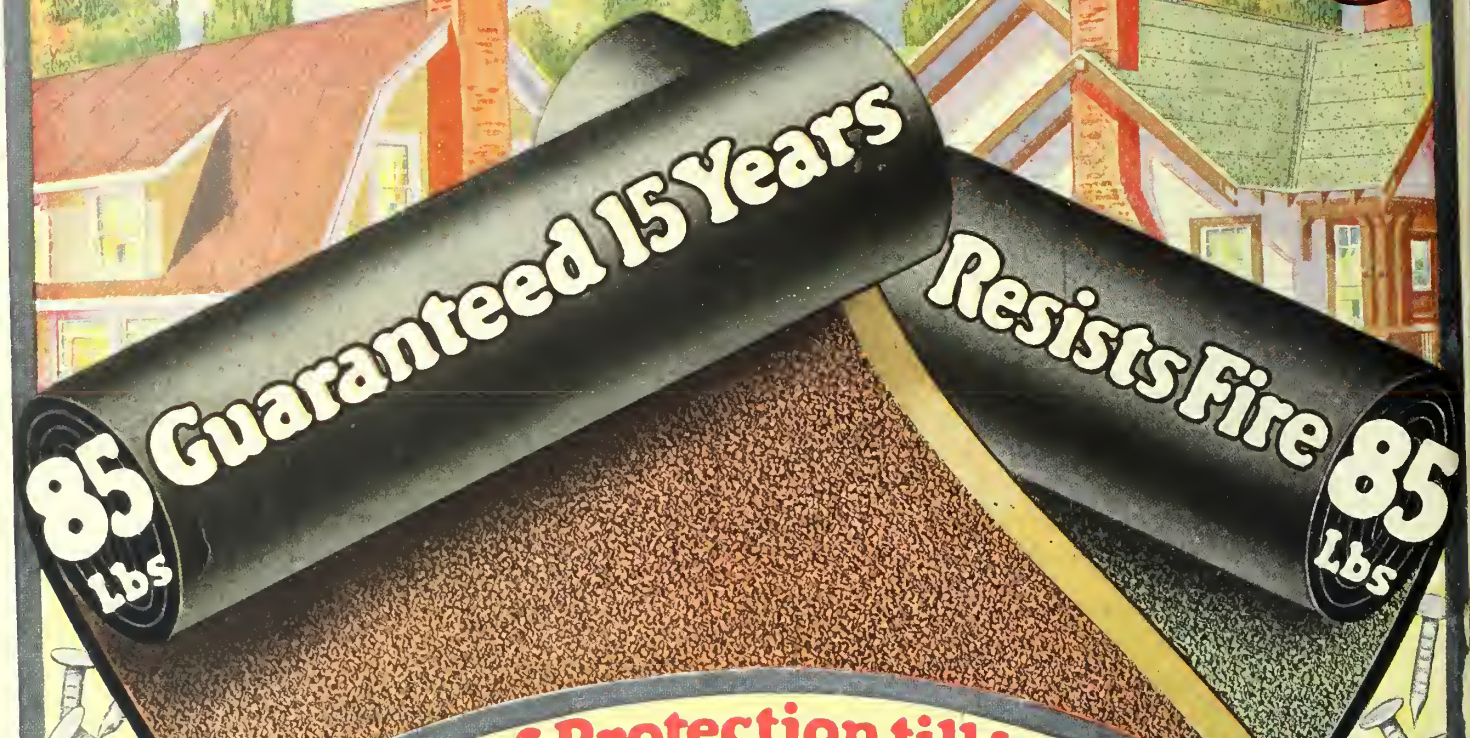
THIS SHINGLE ROOFING IS FURNISHED IN ROLLS containing 108 square feet, 36 inches wide, with 8 square feet extra allowed for 2-inch laps, and will cover 100 square feet. All in one piece.

CEMENT AND GALVANIZED RUSTPROOF 1-INCH NAILS INCLUDED. For 1¾-inch nails to lay this roofing over wood shingles, add 10 cents per roll extra.

48N3320 Red
48N3321 Sea Green

$3.35 PER ROLL
108 Sq. Feet.

Oriental Slate Surfaced Roofing



Roof Protection till 1933

OUR PRICE $2.90

Buy Fire Resisting Oriental Slate Surfaced Roofing and Forget Your Roofing Troubles Until the Year 1933 and Longer.

FOR 85-lb. ROOFING

Approved by Underwriters' Laboratories, Inc., Under Direction National Board of Fire Underwriters.

Oriental Slate Surfaced Roofing, Red or Sea Green, is guaranteed for fifteen years. It will not fade or lose its pleasing Oriental colors. Never needs paint. **IT IS 4-PLY EXTRA HEAVY, EXTRA STRONG AND EXTRA DURABLE.** A most beautiful roofing for all purposes. **GUARANTEED FOR 15 YEARS.**

Made of high quality waterproof and fire resisting material—heavy roofing felt, high grade asphalt (not tar) and **GENUINE CRUSHED SLATE**—not crushed brick or soft stone. **WEIGHS 85 FULL POUNDS to the ROLL.** Gives better protection than wood shingles. Thousands of delighted customers in **EVERY STATE IN THE UNION** recommend it for fine appearance and long wear. Rain only washes it clean and renews the rich Oriental colors. It is snowproof and sunproof. **EXTRA WEIGHT WITHOUT EXTRA COST.**

PROTECT YOUR HOUSE FROM FIRE. Sparks from a train or a chimney may destroy a wood shingled building at any moment. With Oriental Slate Surfaced Roofing on your house you are safe from this danger.

Each roll contains 108 square feet, and will cover 100 square feet of roof surface, a space 10 feet by 10 feet. Width of rolls, 36 inches. Large headed 1-inch **GALVANIZED** rustproof nails and cement for laps furnished with each roll without extra charge. For 1¾-inch nails to lay this roofing over wood shingles, add 10 cents per roll extra. Suitable for any roof with a pitch of 1½ inches or over to the running foot.

Shipped from ALBANY, N. Y., CINCINNATI, OHIO, KANSAS CITY, MO., PITTSBURGH, PENN., ST. PAUL, MINN., or NORTHEASTERN ILLINOIS. We will also ship from our CHICAGO store with other goods, if requested, at $2.90 a roll. Shipped from ATLANTA, GA., at $3.16 a roll.

No. 48N3064 Sea Green. Price, per roll of 108 square feet.....

DON'T OVERLOOK FIRE-CHIEF AND ORIENTAL SLATE SURFACED ROOFING

For Guaranteed Roofing see five preceding Pages

IT PAYS TO BUY GOOD ROOFING. It wears longest, gives you fullest protection and is therefore the most economical in the end. It looks better on your roof, improves the appearance of the entire building and increases its rental or selling value.

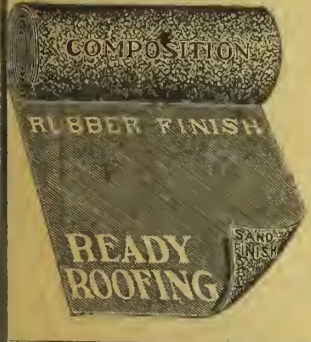
OUR GUARANTEED ROOFING IS GOOD ROOFING. Our guarantee means that it will wear the full term specified. We stand back of every roll for durability and complete satisfaction. Our Fire-Chief Shingle Roll Roofing and our Oriental Slate Surfaced Roofing ARE GUARANTEED FOR FIFTEEN YEARS' WEAR AND COLOR. These roofings never need paint or stain.

Our extra heavy grades of Best-of-all and Flint Surfaced Roofing are guaranteed for twelve and ten years, respectively. Thousands of people testify from experience that these roofings live up to our guarantee.

IF ANY OF OUR ROOFING SHOULD NOT LIVE UP TO ITS GUARANTEE, WE WILL REIMBURSE YOU FOR EVERY YEAR OF SERVICE IT FALLS SHORT. Could you ask a fairer deal than this? Could we offer any better proof of the strength, weight and durability of our roofing?

Before you finally make up your mind what kind of roofing to buy, be sure to study the five preceding pages carefully. If you want roofing for temporary purposes, such as sheds, chicken coops, etc., our Composition Roofing, described below, will give good service. For permanent buildings of all kinds, we recommend and guarantee the roofing described and illustrated on the five preceding pages.

Composition Rubber Roofing



The "rubber" referred to in the description of this roofing is merely the trade name for a mineral substance that looks like rubber and feels like rubber.

Composition Roofing is sold by us for the purpose of meeting the demand of those who want ready roofing because it is low in price and who are not particular about its wearing qualities. Whereas we guarantee our other roofings for nine to fifteen years or longer, we hesitate to recommend or guarantee Composition Roofing for this period because it does not contain the high grade asphalt and felt such as are found in our Best-of-all Roofing, Oriental Slate Surfaced Roofing, Fire-Chief Slate Surfaced Shingle Roll Roofing, and Flint Surfaced Asphalt Roofing.

OUR POLICY—Roofing which is recommended to wear a given time as printed in connection with our prices is backed by our binding guarantee. **If it does not last the full length of time we claim it should wear, we will protect the purchaser. WE CAN MAKE NO CLAIMS AS TO THE LENGTH OF TIME COMPOSITION ROOFING WILL WEAR,** but we believe it is a good bargain at the price we quote. Composition Roofing is finished on one side with a smooth coating, and on the other with a coating of fine sand. This roofing may be used with either side up, according to the wishes of the purchaser.

Furnished complete with ⅞-inch nails and cement inside the rolls. Shipped from warehouses in CHICAGO, ILL., or CINCINNATI, OHIO.

Catalog No.	Thickness	Weight, Pounds	Width, Inches	Rolls Contain	Will Cover	Price, per Roll

BUILDING PAPER

Shipped from our CHICAGO store or from factory in SOUTHERN OHIO.

Tarred Felt—Used for Sheathing or General Building Purposes.

Tarred Felt is one of the best kinds of building paper for lining floors and for use between sheathing and siding. Can be used under stucco and brick veneers. It is also used for gravel roofs. It is made of carefully selected felt, thoroughly saturated with redistilled low heat American coal tar.

This Felt is used extensively for roofing sheds and temporary buildings. No. 48N3050 TARRED FELT we recommend for all first-class jobs, because it is the thickest. It makes an excellent deadening felt and should be used under all floors where a good job is wanted.

No. 48N3054 TARRED FELT, medium thickness. This thickness of tarred felt is also used for gravel roofing where several layers are specified. It is lighter weight (not so thick), and where a medium grade of work is required a No. 48N3054 Tarred Felt will be found very satisfactory.

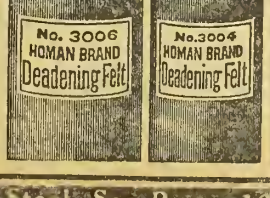
No. 48N3055 TARRED FELT. This thickness of felt is made with the same care as the two heavier grades, but is much thinner.

Catalog No.	Weight, per Roll	Number of Square Feet, per Roll	Width, Inches	Price, per Roll
48N3050	60 lbs.	250	32	$2.60
48N3054	60 lbs.	400	32	2.60
48N3055	60 lbs.	500	32	2.60

Average shipping weight on above, per roll, 60 pounds.

Homan Brand Deadening Felt.

Deadening Felt is used to deaden the sound between floors nd in walls. It is made of a good grade of felt, soft and liable, and will add much to the warmth of your building. oman Brand Deadening Felt should be under every floor, hipped from our CHICAGO store.

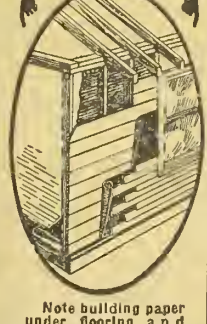


Prices of Homan Brand Deadening Felt.

Catalog No.	Brand	Weight, per Square Yard	Width, Inches	Approximate Wt.	Price, per Roll
8N3004	Homan	1 pound	36	50 pounds	$2.85
8N3006	Homan	1½ pounds	36	75 pounds	4.24

About 50 square yards to the roll.

Makes Your Building Comfortable



Note building paper under flooring and siding.

Red Rosin Sized Building Paper.

65 CENTS Per Roll AND UP

Red Rosin Sized Building Paper should be used under siding and between floors to exclude wind and moisture. It is thoroughly rosin sized, rendering it damp resisting. We sell four different weights of this paper. We recommend for ordinary building purposes our Leader Brand, as it is of sufficient thickness to give entire satisfaction.

Our Fulton Brand is made with exactly the same stock, but is considerably heavier than our Leader Brand. It is an unusually high grade of Red Rosin Sized Paper.

Our Acme Brand is the same quality as our Leader except that it is a lighter weight.

Our Competition Brand is a fair grade, light in weight, and runs 20 pounds to the roll.

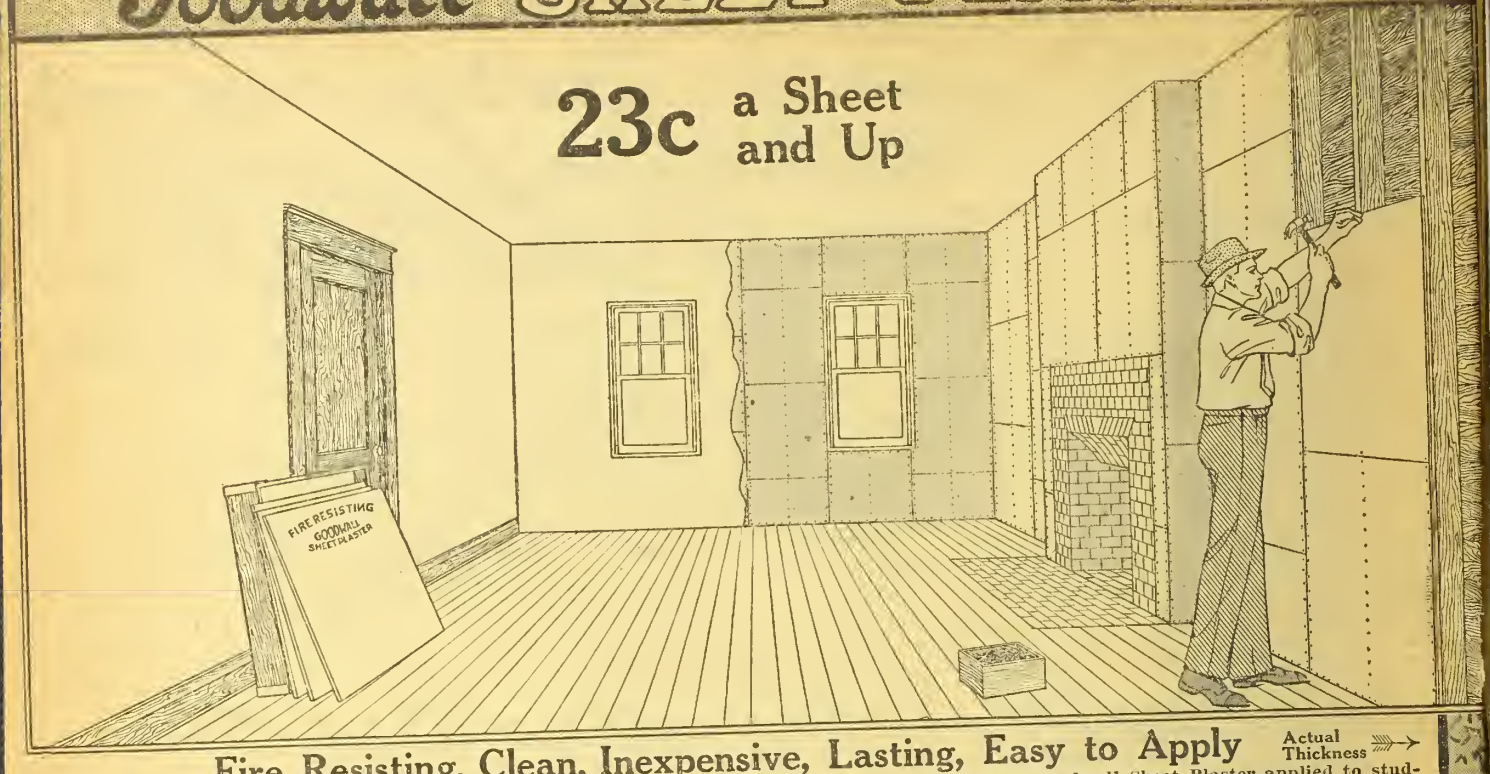
Shipped from our CHICAGO store.

Catalog No.	Braad	Weight, Pounds	Width, Inches	Price, per Roll
48N3001	Fultoa	50	36	$1.60
48N3000	Leader	40	36	1.30
48N3002	Acme	30	36	.95
48N3007	Competition	20	36	.65

All rolls contain 500 square feet.

Goodwall SHEET PLASTER

23c a Sheet and Up

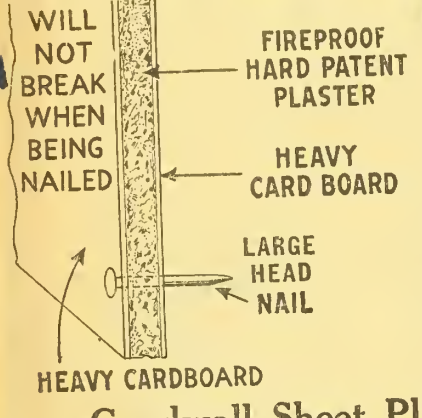


Fire Resisting, Clean, Inexpensive, Lasting, Easy to Apply

Actual Thickness

WHAT IT IS: Goodwall Sheet Plaster is a fire resisting gypsum rock composition plaster of even thickness between two sheets of heavy cardboard. These cardboards are so saturated with the fire resisting gypsum composition that they make Goodwall Sheet Plaster far more fire resisting than regular lath and plaster. It comes in sheets 32x36 inches, and long sheets for panel work, and takes the place of regular lath and plaster at less cost and with less labor. Border to the right shows actual thickness, 5/16 inch.

Illustration above shows Goodwall Sheet Plaster applied to studding. It is given a coat of our specially prepared Hard Plaster Finish. It can be wall papered without the use of sizing or Hard Plaster Finish, but for best results we recommend a ¼-inch coat of Hard Plaster Finish. You will then have fire resisting walls, with a perfectly smooth surface, which can be tinted any desired color or decorated like any other wall.



Read About Its Many Advantages.

It enables you to do a better job for less money and can be applied by yourself.

It is equal in service and strength to a lath and plaster wall.

It does away with lath stains and hair cracks.

It deadens sound as effectively as lath and plaster.

It is vermin proof and can be painted, papered or kalsomined.

It can be covered with a plaster coat of any thickness, but ¼ of an inch will be sufficient to make a smooth and seamless wall.

It is dry. No need to wait for weeks to drive the dampness out.

It is clean. No muss and dirt when you apply it.

It is strong. Send for a sample and try to break it with your hands.

It cuts out cost of lath; none needed with Goodwall Sheet Plaster.

It will not break when being nailed.

It can be cut with a saw, or broken with a clean edge by scoring the cardboard on both sides with a knife, breaking where scored.

The Hard Plaster Finish No. 48N2999 Sticks Firmly to Goodwall Sheet Plaster. The Handy Size Sheet, 32x36 In.

Goodwall Sheet Plaster Resists Fire

We have satisfied ourselves by many tests and experiments that Goodwall Sheet Plaster has all the good qualities we claim for it. We have subjected a sheet of this plaster to a blow torch test for fully five minutes, the flame being directed at one spot during all that time. Only the outer cardboard burned away. The gypsum composition steadily resisted the flame and did not even break.

Quick Delivery and Low Freight Charges from Six Shipping Points.
Goodwall Sheet Plaster comes in sizes and sheets as listed below.

PRICES OF GOODWALL SHEET PLASTER.

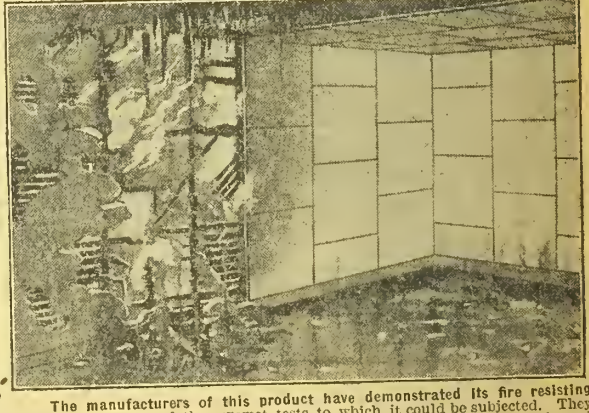
48x 96	56 lbs.	1.15	
48x108	63 lbs.	1.30	



The manufacturers of this product have demonstrated its fire resisting qualities by one of the severest tests to which it could be subjected. They built a two-room house, one-half of which was finished with lath and plaster in a regular way and the other half with Goodwall Sheet Plaster. Then the building was set on fire. The portion finished with the lath and plaster was burned to the ground, while the room which was finished with Goodwall Sheet Plaster, although charred in places, remained standing. IT ABSOLUTELY STOPPED THE FIRE. The experiment was conducted under the supervision of a Battalion Chief of the Chicago Fire Department.

Specially Prepared Hard Plaster Finish.
Gives an even, hard, perfectly smooth surface. Shipped in good strong bags with sheet plaster from all points.

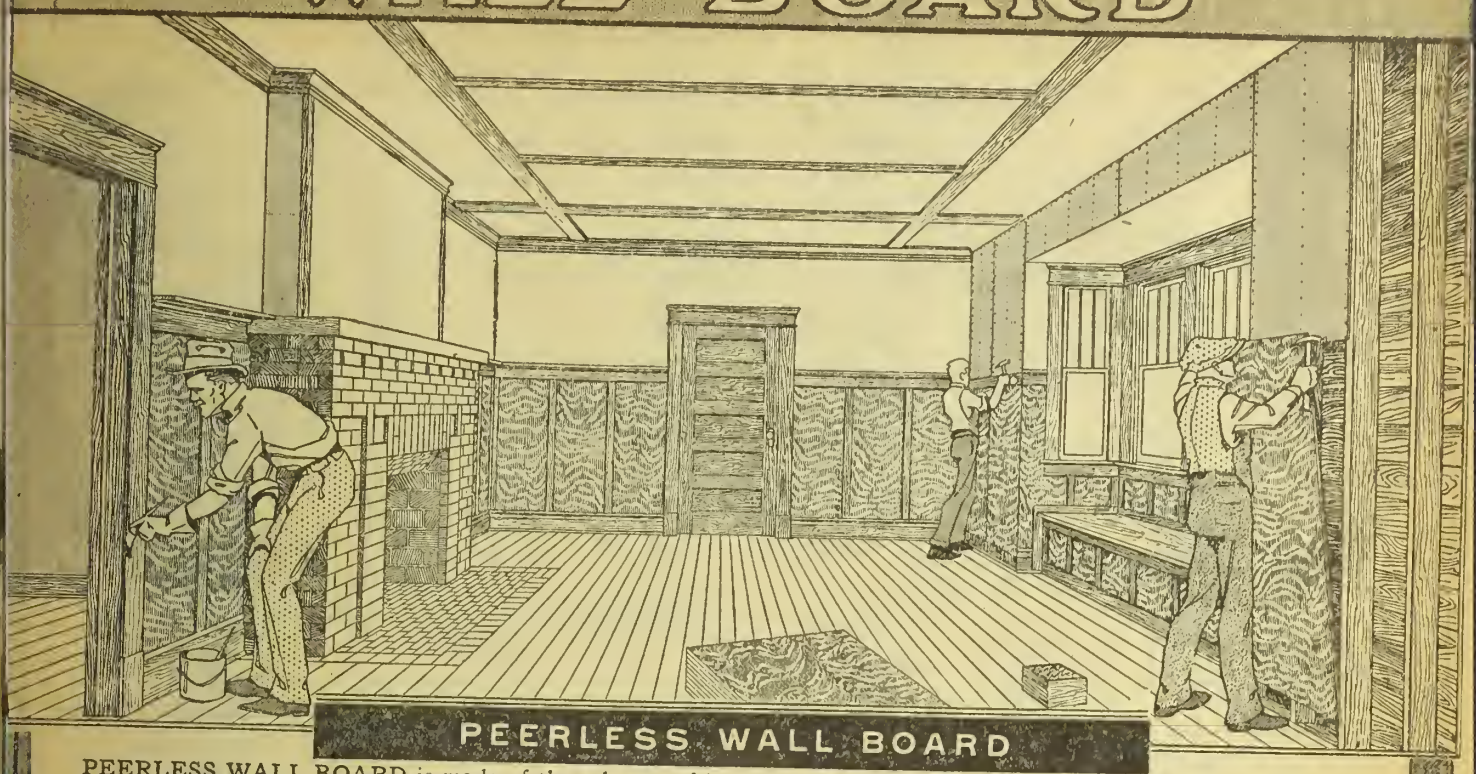
WALL BOARD



PEERLESS WALL BOARD

PEERLESS WALL BOARD is made of three layers of heavy cardboard held together by two layers of asphalt. We are selling it for less than 3¾ **CENTS PER SQUARE FOOT.** It is used instead of plaster, and can be applied by anyone. Comes in three finishes—plain light brown, quarter sawed oak and Circassian walnut. Plain finish wall board **CAN BE PAINTED ANY COLOR** desired, but most people consider the plain light brown finish very effective. Fine for basements or attics and for dividing large rooms into small ones.

Consider the time you save on any job and the ease with which the work is done when wall board is used instead of lath and plaster. Before the last sheet is applied, the carpenter can put on the trim and the painter can apply the stain or varnish to it—three operations going on at about the same time **without any muss or dirt.** No waiting for plaster to dry and no dampness in the building after the work is done. You can put on this wall board right over the studding or apply it to old plaster if you wish. Can be sawed like wood and solidly nailed without danger of splitting. Wall board is furnished in sheets from 8 to 12 feet long, each sheet being 32 inches wide and about 3/16 of an inch thick. (See border.) The quarter sawed oak and Circassian walnut finish wall board needs no paint at any time. We furnish Joint Tape in all three finishes to cover the joints, but we recommend the wood panel strips for rooms where a fine effect is desired. Packed in wood crates, guaranteed to reach you in good condition. **Shipped from factory in SOUTHERN OHIO only.** When ordering give lengths of sheets for side walls and ceilings.

JOINT TAPE.

Particular attention is directed to the Peerless Joint Tape which we are now offering to be used in covering the joints where the different sheets of Peerless Wall Board meet. This takes the place of both shellac and putty. Costs less, is easier to apply and gives better results. It comes in all three finishes, plain, quarter sawed oak and Circassian walnut, gummed on one side and needs only to be moistened before applying.

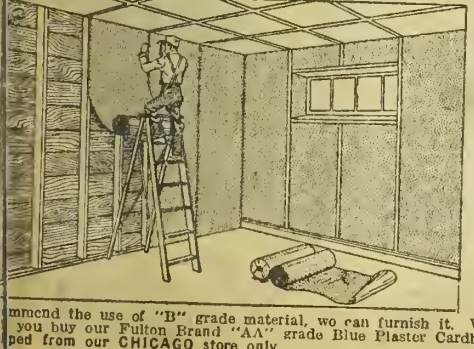
BLUE PLASTER CARDBOARD



Less than one-half of a cent a square foot for our Fulton Brand Blue Plaster Cardboard. This material is being used very extensively in camps, cottages, bungalows, etc., as a cheap material to take the place of lath and plaster. Wall paper may be used over it, or by covering the seams with one-half round molding or flat panel strips a very neat paneled effect may be had. See illustration.

Fulton Brand Blue Plaster Cardboard is light weight cardboard, less than 1/16 of an inch in thickness, made only in AA grade from carefully selected stock and makes a sheet strong and durable. In color it is a pleasing shade of blue. It is put on with an ordinary large headed tack. If Blue Plaster Cardboard is to be covered with wall paper, we recommend that a narrow strip of cheese cloth be pasted over all joints. This prevents the wall paper from cracking at the seams. For sheathing purposes it would be hard to obtain a stronger or tougher material for the purpose than our Fulton Brand Blue Plaster Cardboard. **It can be included with your order for wall paper or other merchandise.**

Catalog No.	Number of Square Feet per Roll	Weight, Pounds	Price, per Roll

SEND US A LIST of the Lumber and Mill Work you require. We employ expert estimators who will gladly figure your lists and quote you prices on everything required in building. THIS SERVICE IS FREE. Send us your list today.

IF YOU WANT BUILDING MATERIAL IN A HURRY SEE FOLLOWING PAGES.

What Our Special Building Material and Mill Work Catalog Contains:

Oak and Birch Doors, Soft Wood Doors. Two, four, five and five-cross panel doors in cypress, white pine, yellow pine, fir, etc. Garage, Storm, Screen, China Closet and Cupboard Doors.

Complete Door and Window Sets.

Colonnades of the very latest designs.

Built-In Sideboards, Buffets and Medicine Cabinets.

Sixty kinds and sizes of Fancy and Plain Windows and Sash, also Storm and Hotbed Sash.

What Our Special Building Material and Mill Work Catalog Contains:

Fancy Glass.

Window and Door Frames, for frame, stone, cement block or brick buildings.

Moldings of every description.

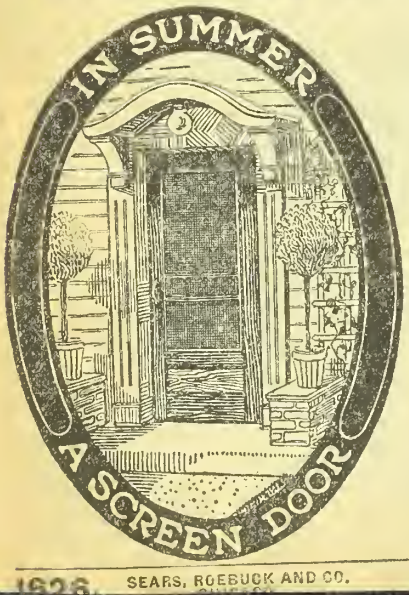
Hard and Soft Wood Flooring.

Porch Materials, Columns, Newels, Rail, Balusters, Spindles, Gable and Eaves Brackets, Etc.

Outside Trimmings, Rafter Ends, Gable Drapery, Roof Cresting, Finishing Lumber.

Stairwork, Newels, Rail, Balusters, String Board, Treads, Risers, Etc.

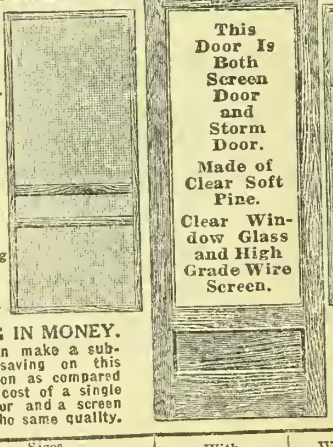
COMBINATION SCREEN AND STORM DOOR



No Tools Needed. Simply Change the Panels.

See Page 1627 for Full Line of Storm Doors and Windows.

For Screening and Screen Frames see page 1373.



SAVING IN MONEY.
You can make a substantial saving on this combination as compared with the cost of a single storm door and a screen door of the same quality.

SAVING IN LABOR.
This combination door and screen once fixed in position remains permanently in place. You simply change the center panel in Spring and Fall.

NOTE.
Prices are subject to market changes. If the market prices go lower, customers will get the benefit of the reduction; if higher, we will advance only enough to cover the increased cost to us.

Storm Doors and Windows

No. 63N6800 Painted.
No. 63N6801 Grained.

Painted and Grained Storm Doors.

Made of same grade lumber used in all standard painted and grained storm doors. All imperfections carefully shellacked and the entire door given three coats of paint. We use double strength glass instead of single strength kind. Painted doors are silver gray and grained doors golden oak; 1⅛ inches thick.

GIVE WIDTH FIRST.

Save Coal Save Money

Coal is high priced and hard to get.

Every pound saved means more money than ever before.

If shrewd buyers found storm windows and storm doors a profitable investment in past years, they will find them doubly profitable this year.

Storm windows and storm doors will pay for themselves and then show a considerable saving in real money.

It calls for no sacrifice or hardship to make this saving. On the contrary it means added comfort and health.

Read about the excellent values in storm windows and storm doors we offer on this page.

Measurements are not hard to take.

Make out your order and send it today so you will have your storm doors and storm windows in place for the cold weather.

No. 63N6808 D. S. Glass.

No. 1, Our Highest Grade Storm Doors.

Made of clear soft pine, no imperfections of any kind being allowed in these doors. For high class storm doors for front entrances we especially recommend No. 1 clear soft pine storm doors. They can be painted or varnished and will last for years. 1⅛ inches thick.

STORM WINDOWS

MADE OF CLEAR SOFT PINE. Primed with linseed oil compound before glass is set. Made extra strong to withstand continued putting up and taking down. We use high grade glass and plenty of points and putty.

Please notice outside measurements of storm sash. These sizes will fit all ordinary openings in frame buildings. If sash are wanted for brick buildings (which require sash about 2 in. longer than frame buildings) allow the price of the next larger size shown on this page and a little extra time to make them to your order.

THE REASON FOR OUR LOW PRICES: We manufacture storm doors and windows in enormous quantities by the most modern methods. We sell them to our customers at wholesale prices. MAKE UP YOUR ORDER NOW.

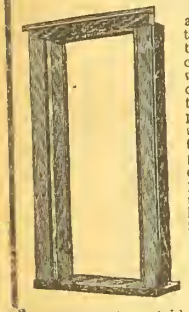
CAN BE FURNISHED 1¾ INCHES THICK FOR 75 CENTS EXTRA.

OUTSIDE DOOR FRAMES.

Can be used with any of the front doors shown above.



Our door frames are extra well made, the parts exposed to the weather being cypress, the best wood known for outside purposes, the sill or bottom part being oak, which will stand the wear and tear put on that part of the frame. All parts are made of specially selected high grade lumber. Shipped knocked down, grooved and fitted, ready to put together.

Made with 1⅛x1⅝-inch drip cap; 1⅛x4½-inch outside casing; 1⅜x5¾-inch jamb, grooved to suit thickness of door; oak sill, 1¾ inches thick. All good sound stock. Jambs are grooved for head. Shipping weight, about 60 pounds.

No. 63N7975 Plain Drip Cap Outside Door Frame, for frame buildings with 2x4 studding. Knocked down and carefully bundled for shipment. For doors 3 feet wide by 7 feet high or smaller.

Price, each.....$3.35

When ordering be sure to give thickness of door for which frame is intended.

INSIDE MOLDINGS FOR DOORS.

To order moldings for trimming the inside of a door it is only necessary to give the size of the door you want to trim. Every piece of molding will be cut to exact size. The head trim will be nailed together and the ends of the cap will be returned, or molded, as shown in the illustration. There will be no work on these moldings except to nail them in place. All the fitting and trimming will be done at the factory.

All moldings used in this trim set are standard size. The side casing is ¾x4¼ inches, the base blocks are 4½x10x1⅛ inches and the head trim, which is composed of three moldings all nailed together ready to nail in place, is 6½ inches wide.

Every part is carefully sandpapered and each side of trim will be carefully wrapped one set to a package so that it will reach you bright, clean and new, ready for varnish.

Prices quoted include stops, and cover any size door up to 3 by 7 feet. Outside doors require one side of trim and inside doors two sides.

IMPORTANT

Prices are subject to market changes. If the market prices go lower, we will give our customers the benefit of the reduction. If higher, we will advance our prices only enough to cover the increased cost to us.

YELLOW PINE

GLENDALE

Our inside doors are made under our own supervision. The lumber is carefully selected and thoroughly dried. The hardwood doors, Woodlawn, Wilcox and Stratford, are made with rotary cut veneers and flat panel. The soft wood doors are made of solid wood—the White Pine with heavy raised panels and the Yellow Pine with flat built-up panels. All doors shown here are strictly No. 1 quality and are carefully sandpapered, ready for varnish.

All sizes up to and including opening size of window 4 feet 4⅛ inches wide by 6 feet 6 inches high. Price, per set.....$2.73

WHITE PINE—WINDOWS AND FRAMES—CYPRESS

WINDOWS—All our windows are made of CLEAR SOFT WHITE PINE, thoroughly seasoned and kiln dried, carefully machined and sandpapered, and dipped or primed with linseed oil compound. We sell only Glazed Windows. We use only an extra good quality window glass and a high grade of putty.

WINDOW FRAMES—The outside casings, or the parts exposed to the weather, are made of selected clear cypress, "the wood eternal," a wood best suited to withstand exposure to sun and rain—a wood that takes paint readily. The pulley stiles, parting stops, blind stops or the surfaces against which the window slides up and down are made of clear pine. These frames are furnished with steel pulleys fastened into place. Price includes pulleys. Frames are made grooved and finished ready to put together without sawing or fitting. Carefully bundled and packed in a manner to insure safe delivery.

WINDOW FRAMES—How to order. By referring to column under the heading of "Outside Measurement of Entire Window" (which is the same as inside measurement of window frame), you can readily choose the exact size required. Under the heading of "Window Frames, Price, Each," is quoted our price for each size frame. When ordering be sure to give OUTSIDE MEASUREMENT of window for which frame is to be used and allow catalog price.

NOTE—All frames shown on this page are made to fit 2x4 studding. If narrower or wider studding is used be sure to mention it when ordering.

Free Tile Catalog.

Here is the catalog which shows you how to have a tiled porch, bathroom or kitchen at small cost. It illustrates a full line of Tile in actual colors. You can lay this material yourself.

With the catalog we send you an actual sample on an illustrated card showing how one of our blue and white designs looks when laid. The catalog will be sent to you free and postpaid. Ask for Free Tile Book No. 622N.

Free Mantel Catalog.

In this Free Mantel Catalog we illustrate and describe a beautiful line of Wood Mantels from $5.85 up; also some beautiful designs of Bedford Red Brick and Tile Mantels, together with Fireplace Furnishings, Consoles, etc. Full page of Tile for Wood Mantels shown in colors.

You will be surprised at the improvement you can make by a few selections from our Free Catalog of Mantels and Fireplace Furnishings sent to you free and postpaid for the asking. Write for Mantel Catalog No. 541N.

Tile in the Bathroom.

$16.40

The bathroom, more than all other rooms, must be kept clean and sanitary. The paramount virtue of tile in the bathroom is its imperviousness to moisture and dirt, the breeders of germs. Water splashed on a tile floor cannot soak in, and dirt on the floor or wall does not penetrate the tile and is easily wiped off with a damp cloth. Our price for enough tile in two colors, red and white, for a bathroom 6 by 9 feet is only $16.40. Side walls not included.

Shipped from our factory in OHIO.

Ceramic Tile for Kitchens.

$24.97

A kitchen with tile floor sounds inviting, doesn't it?

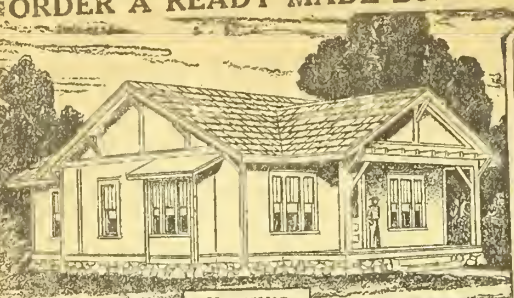
Cleaning tile floors is a pleasure, not work. And they stay clean, too, so much longer than any other kind. Back breaking scrubbing is forgotten when you have tile floors in your kitchen, hathroom, vestibule or place of business.

Our price for enough tile for a kitchen 7 by 12 feet is only $24.97 (side walls not included). The design shown at the right is furnished in blue, white and gray at $24.97.

Shipped from our factory in OHIO.

ORDER A READY MADE BUILDING FROM THIS PAGE. BOLT IT TOGETHER YOURSELF.

Order from this page or send for this free catalog No. 456N, which illustrates and describes our complete line of 1918 designs.



No. 55N17 $641.00

No. 55N18 $540.00

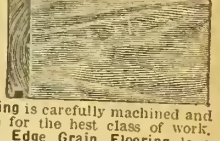
CLEAR YELLOW PINE FLOORING, carefully machined, tongued and grooved, thoroughly kiln dried, free from all defects.

No. 1 Grade is our next grade below Clear. Suitable for medium grade floors where stained or covered with rugs.

No. 2 Flooring, our lowest grade. Makes a serviceable floor for inexpensive work. Can be used with economy by cutting out some defects when laying.



Weight, per 100 Square Feet, 200 Pounds.

Our Clear Edge Grain Flooring is carefully machined and free from all defects. Suitable for the best class of work.

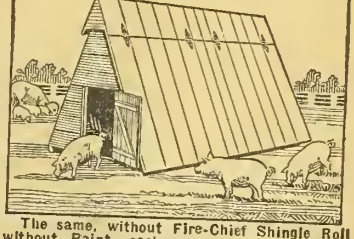
Our Select or Second Grade Edge Grain Flooring is a grade below Clear, but contains only slight imperfections that do not injure it for medium priced work.

EDGE GRAIN FIR FLOORING. Made especially for porch floors. Noted for its lasting qualities when exposed to the weather.

In ordering 1-inch flooring order one-fourth extra for tongue and groove. If 1¼-inch flooring is ordered, allow an additional one-fourth on account of thickness.

Above prices are for assorted lengths.

Portable Hog Pens



"Wigwam" Movable Hog Pen No. 56N2076 Size, 8 Feet Long, 6 Feet Wide. Price, "Already Cut" and Fitted, with Fire-Chief Shingle Roll Roofing and Paint, each, $30.80

The same, without Fire-Chief Shingle Roll Roofing and without Paint, each.....$24.65

Hardware Included.

The "Wigwam" Hog Pen.

This type is of triangular shape. It is built up on two solid 4x4 timbers or runners. The runners serve as a sleigh on which the whole hog pen is moved from place to place. The total length of the hog pen is 8 feet, its width, 6 feet, height, 7 feet. All the material employed for the "Wigwam" is No. 1 yellow pine. Each side of the "Wigwam" has two doors, extending over the whole width of structure. These doors may be opened by means of a wooden prop hinged right to the door. This permits of adjustment of doors to meet weather requirements. The floor is made of 2-inch planks. A fixed pig fender runs across both ends of the "Wigwam." The gable ends are covered with siding. The siding is not brought right to the top. A small space is left open in order to secure ventilation when "Wigwam" is closed.

Lumber, Lath

Yellow Pine Timbers

Our No. 1 Yellow Pine Timbers, Girders and Sills for Houses and Barns. Our best grade, stronger than hemlock, Norway pine or spruce. Carefully manufactured. Planed on all four sides to standard sizes. ¼ inch less on each side dressed.

Weight, per 100 Feet Board Measure, 350 Pounds.

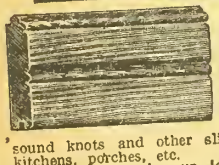
If longer timbers are required, we can furnish at proportionate prices.

Yellow Pine Ceiling



Beaded center and edge, thoroughly kiln dried.

Clear Grade, our highest grade, free from defects, carefully machined, suitable for the highest class interior work.

No. 1 Grade, next grade below Clear. Contains a few sound knots and other slight defects. Fine for ceiling kitchens, porches, etc.

No. 2 Grade is our lowest grade, but can be used economically for inexpensive work with a little sawing out of defects. Finished 3¼-inch face.

Weight, per 100 Square Feet, 140 Pounds.

Size, In.	Clear Grade. Price, per 100 Square Feet	No. 1 Grade. Price, per 100 Square Feet	No. 2 Grade. Price, per 100 Square Feet
⅝x4	$4.73	$4.43	$3.65

Order one-fourth extra to allow for tongue and groove.

Yellow Pine Partition

Beaded Both Sides.

Finished to 3¼-inch Face.

Weight per 100 Square Feet, 170 Pounds.

Size, In.	Clear Grade. Price, per 100 Square Feet	No. 1 Grade. Price, per 100 Square Feet	No. 2 Grade. Price, per 100 Square Feet
¾x4	$5.28	$4.98	$4.18

Order one-fourth extra to allow for tongue and groove.

Yellow Pine Studding Joists and Rafters

No. 1 Grade Framing Lumber is our best grade. It is planed on one side and one edge to uniform size, which enables you to build walls that are true and straight. Our joists will enable you to lay a smooth, level floor upon them. Our rafters are finished in the same manner so that you may erect the frame for your roof without difficulty.

No. 2 Grade is the next grade below No. 1. Suitable for moderate priced work.

Weight, per 100 Feet Board Measure, 250 Pounds.

Sizes in column headed "Size" are for lumber fresh from saw. Shrinkage due to seasoning and planing one side and one edge to an equal thickness will result in finished sizes as follows: 2x4, planed to 1⅝x3⅝ inches; 2x6, planed to 1⅝x5⅝ inches; 2x8, planed to 1⅝x7¼ inches; 2x10, planed to 1⅝x9½ inches; 2x12, planed to 1⅝x11½ inches. Dimension planed four sides measures ⅜ of an inch less than above sizes.

Strictly High Grade Lumber at Money Saving Prices.

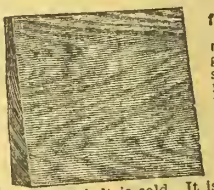
We guarantee the Lumber, Lath and Shingles priced on this and on the opposite page to be graded according to Lumber Manufacturers' Association standard grades and sizes. It is high grade lumber, suitable for all building purposes.

If you need as much lumber as a small carload, the freight rate is lower than on quantities less than a carload, but the prices on these two pages are for lumber in any quantity. The average house or barn requires 14,000 feet to 16,000 feet board measure, which is sufficient to make a small carload.

Price are subject to market changes, but we will always give you the lowest prices in effect at the time your order is received. All material on these two pages shipped from our yard in SOUTHERN ILLINOIS.

Bevel Siding, Weather Board

Cypress, Redwood and Yellow Pine.



Clear Grade is free from defects as its name implies.

Select or Second Grade is next grade below Clear, a [illegible]ign grade and contains only a few small knots and slight imperfections, which will not show when painted.

The actual finished size of weather boarding is ½x3½ and ½x5½ inches. The sizes below are trade sizes by which the stock is usually described and upon which it is sold. It is planed smooth on one side and edge, other side rough for rough finish if desired. Lay with 1-inch lap. To determine quantity required, if using 4-inch siding—add one-third to the total number of square feet to be covered. If ordering 6-inch siding, add one-fourth to allow for lap. No deductions to be made for doors or windows.

Weight, per 100 Square Feet, 80 Pounds.

Size, Inches	Kind of Wood	Grade	Price, per 100 Square Feet
½x4	Cypress	Clear	$3.85

½x6	Yellow Pine	Clear	3.[illegible]
½x4	Yellow Pine	Clear	3.[illegible]

Yellow Pine Boar[illegible]

No. 1 Grade we recommend for sheds, fencing[illegible]d other purposes where a good sound board is required. It contains only a medium quantity of tight knots that will not weaken the strength of the piece.

No. 2 Grade is the next lower grade. It is specially suitable for sheathing purposes, sub-floors or [illegible]floor lining, etc.

No. 3 Grade is the lowest grade we carry, but may be used for low grade floor lining and sheathing with some waste.

Weight, per 100 Square Feet, 250 Pounds.

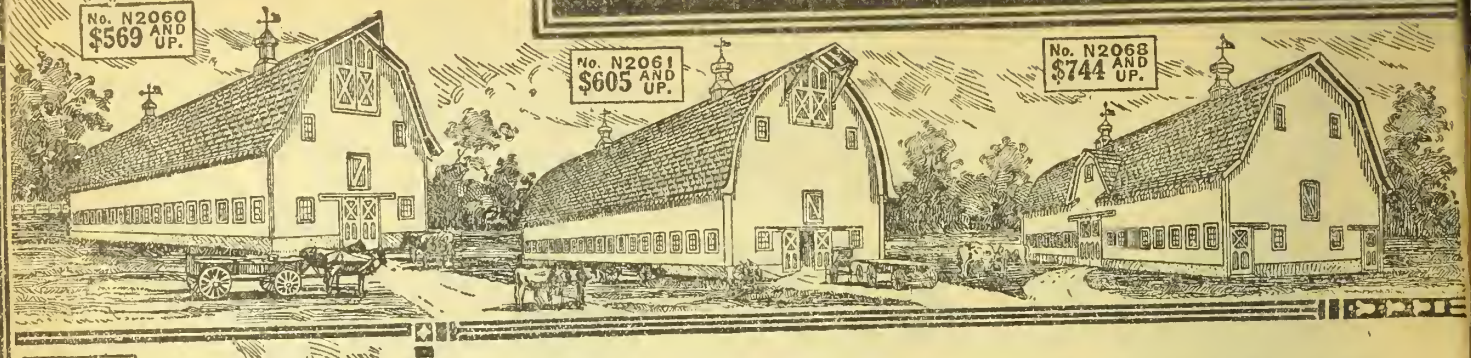
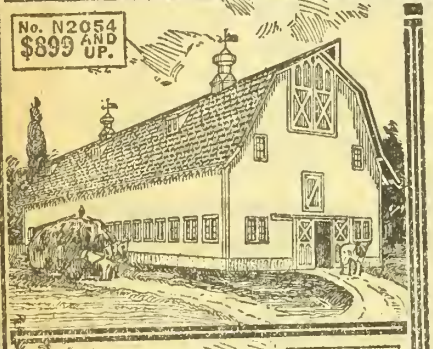
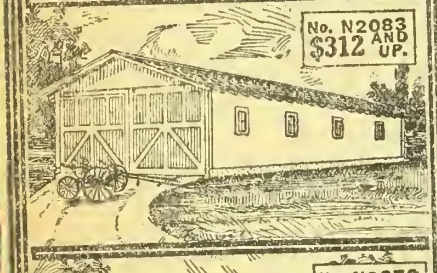
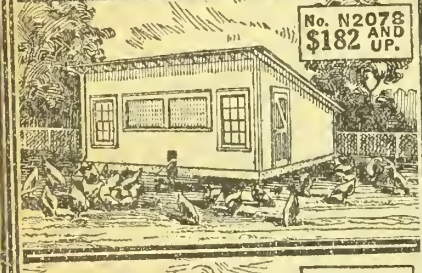
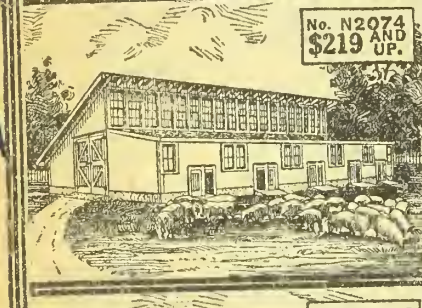
Modern Already Cut

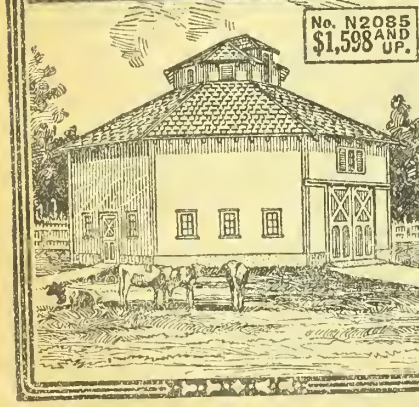




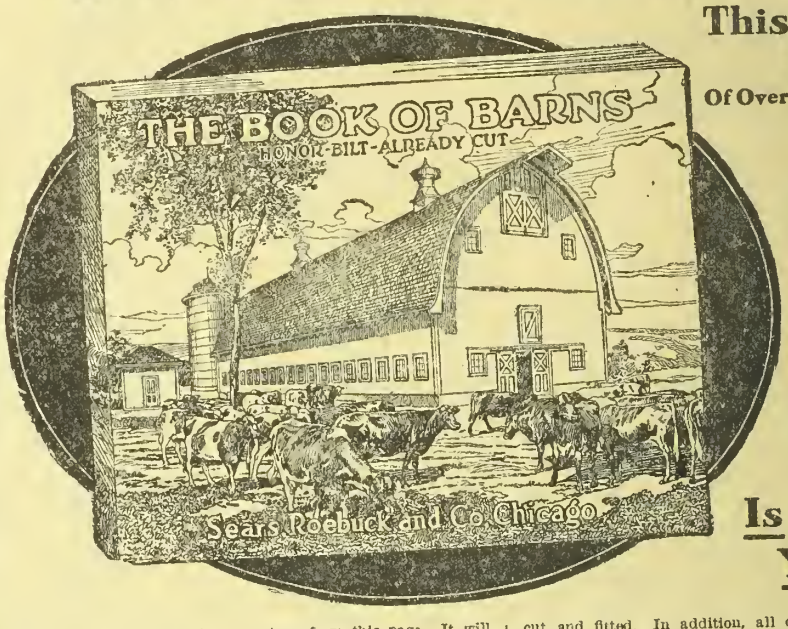








Here Is Your Great Opportunity



This New Free Book

Of Over 1,200 Designs and Sizes of

Barns, Hog Houses, Granaries, Corn Cribs, Silos, Chicken Houses, Tool Sheds, Milk Houses, Ice Houses, Etc.,

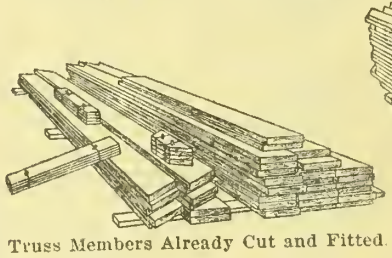
Is Ready for You Now

Write for it today, before you turn from this page. It will show you how to get one of the finest barns in your county at a wonderful saving. You can build it yourself. All you have to do is to simply nail the different pieces together. No use for a saw, no waste material, no time lost in figuring, measuring or guessing. EASY PAYMENTS IF YOU WISH.

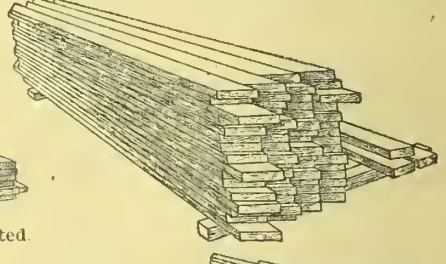
On this and the opposite page we show you how all of the material for our modern farm buildings comes to you already cut and fitted. In addition, all of the doors are ALREADY MADE. All you have to do is to hang them in place.

Our new catalog fully describes and illustrates the buildings shown on these two pages, together with many others. It contains the very latest ideas in modern farm buildings secured from leading authorities. If you are thinking of building any kind of farm structure, be sure to write for this free Book of Barns, No. 573N, today.

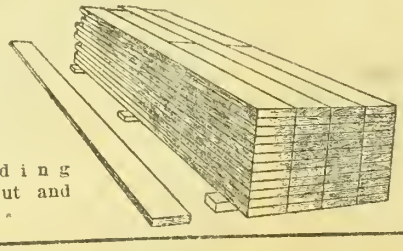
Here's How the Material Comes Already Cut and Fitted.



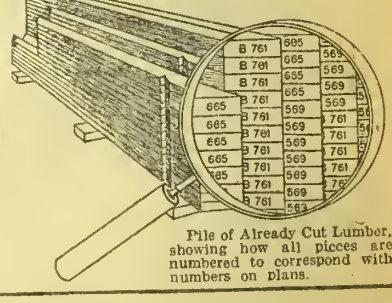
Truss Members Already Cut and Fitted.



Rafters Already Cut and Fitted.



Studding Already Cut and Fitted.



Pile of Already Cut Lumber, showing how all pieces are numbered to correspond with numbers on plans.

For Lumber (Not Already Cut), Also Lath and Shingles, See Pages 1633 to 1635.

Farm Buildings

Build Your Own Modern Farm Buildings

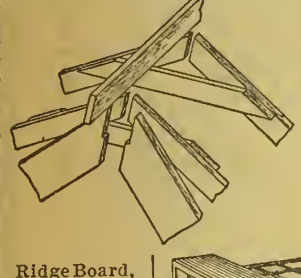
Think of all the money you can save when you can dispense with expert labor in putting up your farm buildings. Think of all the money you can save when you can purchase material from us at practically wholesale prices. Think of all the money you can save when all of the material is guaranteed to be the best of its kind—material that will last you a lifetime.

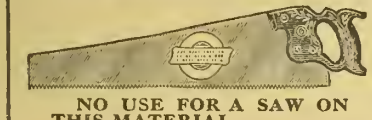
Only first grade yellow pine and time defying cypress used in our modern farm buildings. We furnish select and clear grade cypress for our barn siding, and cypress has been known to last for nearly ONE HUNDRED YEARS.

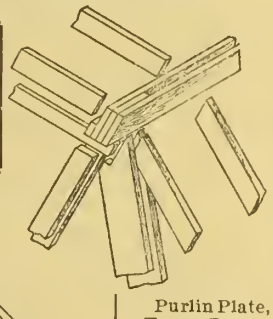
We are the only concern that we know of that furnishes this high grade material for farm buildings.

The Free Book of Barns, illustrated on the opposite page, is a really wonderful book. It will help you in many ways. It contains, in addition to a complete collection of modern farm buildings, the latest ideas on ventilation, ventilating systems, floor arrangements and barn equipment. To be sure of having a truly modern, sanitary and durable farm building on your property—a building that your children can point to with pride in future years—sit down right now and mail us a letter or a postal card asking for our **Free Book of Barns, No. 573N.** It will be sent to you promptly, postage prepaid.

Here's How the Material Comes Already Cut and Fitted.

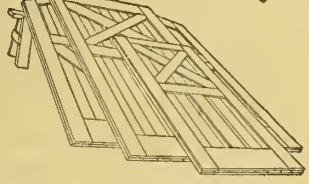






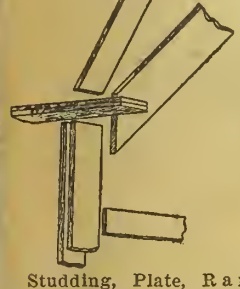
Ridge Board, Truss Principals, Rafters and Collar Beam, showing how they fit together.

Windows Already MADE and Frames Already Cut and Bundled.

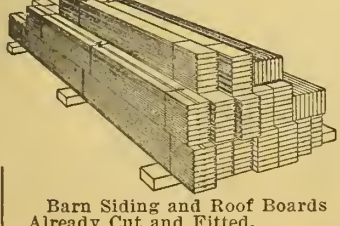


Doors Already MADE. Nothing to do but hang them in place.

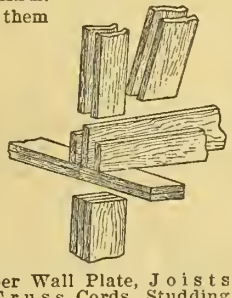
Purlin Plate, Truss Posts and Rafters, showing how they fit together.



Studding, Plate, Rafter, Truss Principal and Tie, showing how they fit together.



Barn Siding and Roof Boards Already Cut and Fitted.



Upper Wall Plate, Joists and Truss Cords, Studding and Purlin Posts, showing how they fit together.

MACHINE MADE HOUSES

Already Cut to Fit.

THE TWELVE HOUSES SHOWN ON THIS PAGE are not portable or of flimsy construction, but **double walled, double floored houses,** with 2x4 studding only 14⅜ inches apart; built warm enough for cold climates. They are twelve of our Machine Made, Ready Cut Houses. Lumber and mill work that go into these buildings are cut to fit by improved machinery—making perfectly true cuts and miters, far better than could be done by hand labor. YOU HAVE NO MITERING, NO MEASURING TO DO—YOU SIMPLY NAIL THEM TOGETHER.

THE MATERIAL IS GUARANTEED TO BE FIRST CLASS. We furnish Framing and Dimension Lumber, Clear Yellow Pine Flooring, Clear Red Cypress Siding and Clear Finishing Lumber, all Mill Work, such as Doors, Windows and Frames, all Building Paper, Eaves Trough, 4-Ply Fifteen-Year Guaranteed Fire-Chief Shingle Roll Roofing, all the Hardware, and Painting Material for two coats outside and inside, at the low prices quoted. We will furnish the material on EASY PAYMENTS and even ADVANCE CASH, if needed, to HELP YOU BUILD.

EVERY ONE OF THESE BUILDINGS IS A REAL BARGAIN. These are but a few of over 100 great values in our Free Book of "Honor Bilt" Modern Homes illustrated below. An entirely new book with several color pages suggesting beautiful interior and exterior treatment. Be sure to send for this book. It will show you how to cut your building costs way down and how to save ALL architects' fees. Our method is so easy and simple. Select a house from our book, send in your order, and in a short while the materials will be laid down at your station. NO WORRIES, NO WAITING for months selecting and making material to order. We do all of that for you and WE DO IT QUICKLY.

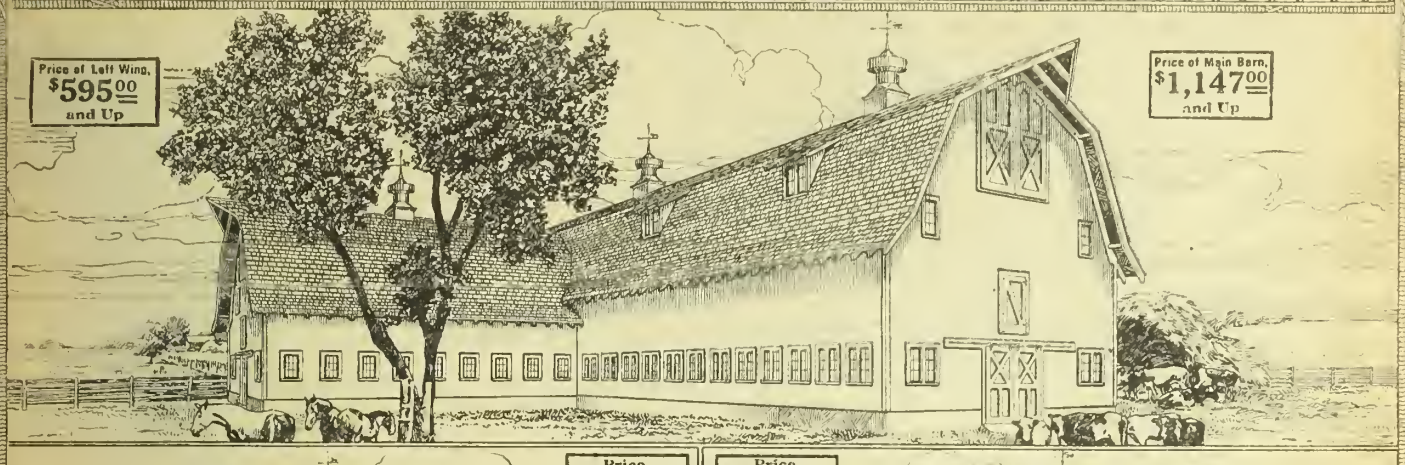
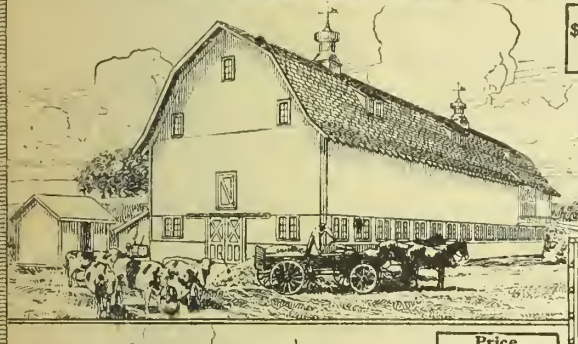
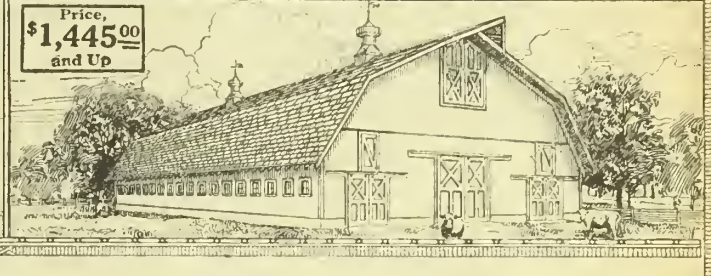
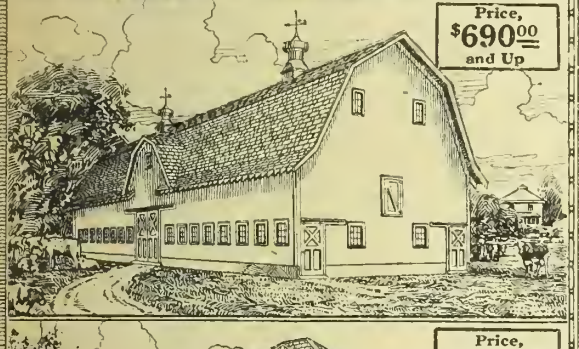
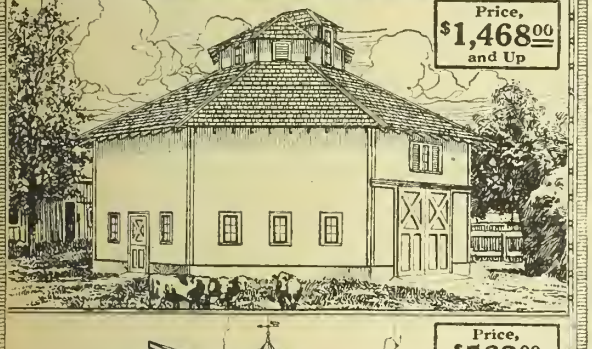
ALREADY CUT BARNS ON EASY PAYMENTS

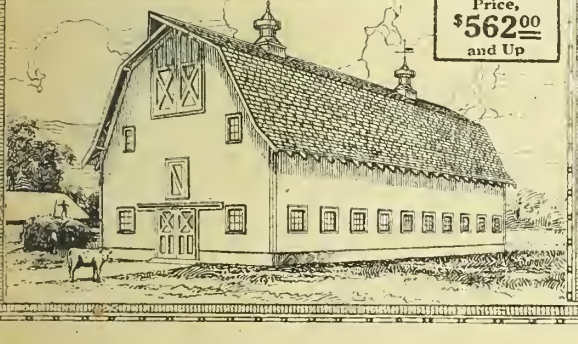












The Farmers' Golden Opportunity

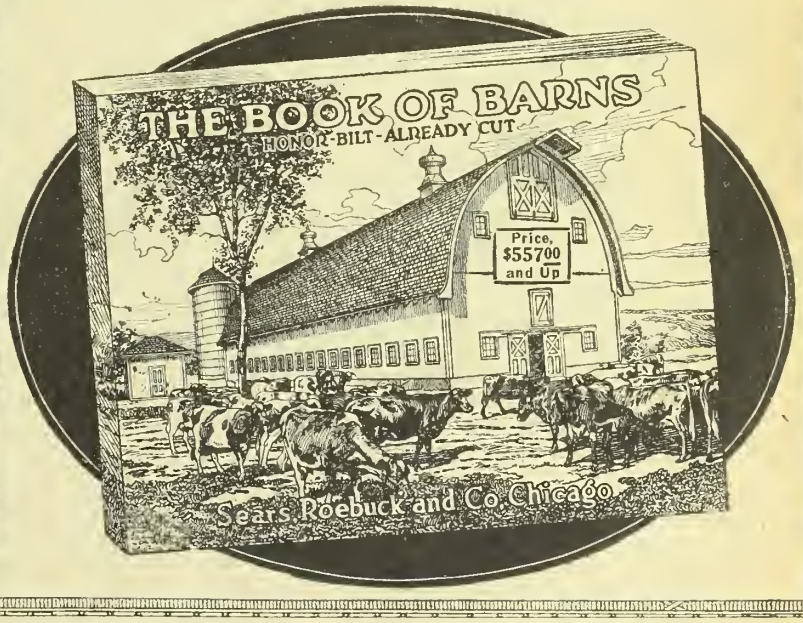
The chance of a lifetime to get a first class barn or other outbuilding on easy terms. We furnish the material ALREADY CUT AND FITTED. You can do most of the work yourself. Doors and windows already made. If you can drive nails and insert bolts, you can put up one of these buildings. No use for a saw whatever. Note the roofs. They are rainproof, snowproof, FIRE RESISTING and are **guaranteed for fifteen years.** Patented and sold only by us. **Roofing experts claim they will wear twenty to twenty-five years.**

Build One of the Finest Barns in Your County

You can have it. The size and design you want will probably be found in our book. The material we furnish, No. 1 yellow pine for the framing and cypress, the "wood eternal," for siding, gives you a building that cannot be excelled for durability and appearance. Hardware and paint furnished for every building.

This Free Book Shows You How

THE BOOK OF BARNS illustrated below is yours for the asking. It shows you how to become the owner of one of the finest barns in your county. It shows you how to pay for it on easy terms. It explains why the construction is so simple and the system so perfect. It prices barns and outbuildings in many sizes, among which you will surely find one for your requirements. We price a few of these barns in the smaller sizes on this page. Any kind of an outbuilding you need, including hog houses, tool sheds, corn cribs and chicken houses, will be found at money saving prices in our new Book of Barns, No. 57SN. Write for it today.



Order Blank of SEARS, ROEBUCK AND CO. CHICAGO

YOUR MONEY INCLUDING ANY TRANSPORTATION CHARGES YOU PAID WILL BE IMMEDIATELY RETURNED TO YOU FOR ANY GOODS NOT PERFECTLY SATISFACTORY.

STATE HOW YOU WANT GOODS SHIPPED BY PLACING AN X IN PROPER SQUARE BELOW.

Parcel Post ☐

Always allow sufficient money to cover parcel post charges. Weight of packages can be easily figured from the weights given in the catalog descriptions. Knowing the weight and the parcel post zone in which your postoffice is located, measuring from Chicago, you can easily figure the amount of charges required by referring to the parcel post page in our big General Catalog.

Freight ☐ Prepaid Freight ☐

Express ☐

IF THERE IS NO FREIGHT AGENT at your shipping point you must send money to prepay freight charges. If there is an agent you can pay the freight when shipment reaches you. It is only necessary to prepay when there is no agent at your station.

HOW TO SEND MONEY. The best and safest ways to send money are by Postoffice Money Order, Express Money Order, Bank Draft or Check.

DO NOT SEND COIN; it is liable to break through the envelope and be lost. If absolutely necessary to send coin BE SURE to wrap it in strong paper before putting it in the envelope, and then send by REGISTERED MAIL.

FOR INFORMATION ABOUT FREIGHT AND EXPRESS RATES, how to send money, methods of shipment, and other information, see pages 902, 925, 926 and 927 of our big General Catalog No. 137.

Measurement Blank for Men's, Women's, Boys' and Children's Clothing

FIRST, BE SURE TO GIVE CORRECT NUMBER of garment or article you are ordering, as found in the catalog. Put this number on other side of this sheet in column reading: "Number of Article in Catalog." Put this same number on this side also, together with number of your second choice, in space allowed for them. Then take your measurements and give information required, as explained below, according to the kind of garments you are ordering. WE GUARANTEE TO FIT AND PLEASE YOU PERFECTLY OR RETURN YOUR MONEY.

Be Sure to Give First and Second Choice

Be sure to give first and second choice of garments on your order. While we are rarely out of garments ordered from our catalog or sample books during the season, it is possible that by some chance we may be out of the garments of your first choice when your order comes. If so, we can send your second choice and thus avoid delay and disappointment. We would not need to write you to make another choice.

Measurements for Men's and Young Men's Suits or Overcoats and Boys' Long Pants Suits or Overcoats.

	Catalog No. of First Choice.
First Choice	
Second Choice ...	Catalog No. of Second Choice.

Height	Weight	Age

COAT OR OVERCOAT

Style No.

(These measurements to be taken over vest.)

Be sure to state style number.

Stand in your natural way, breathe regularly and don't expand chest; also take everything bulky out of your pockets.

Inches

Breast. Around body at breast, close up under arms at 1, snug but not tight. Tape should be over shoulder blades at the back (measure over vest only).....

Waist. All around body at waist at 2. Waistline is just above hip bones. Always feel sides for location of hip bones (measure over vest only).....

Sleeve. From middle of back at 3 to wrist joint at 5, giving full length desired.....

Extend arm thus in taking sleeve measurement.

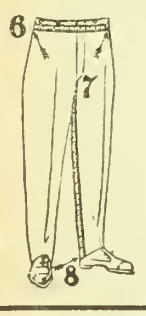
VEST.

Inches

(These measurements must be taken over the vest.)

Breast. Around the body at breast, close up under arms at 1, snug but not tight. Tape should be over the shoulder blades at back (measure over vest only).....

Waist. All around body at waist at 2. Waistline is just above hip bones. Always feel sides for location of hip bones (measure over vest only).....



PANTS AND OVERALLS.

Inches

(Turn up your vest.)

Stand erect and draw pants well up in the crotch.

Waist. All around body at waist over pants at 6. Waistline is just above hip bones. Always feel sides for location of hip bones.....

Inseam. From close up in crotch at 7 to heel seam of shoe at 8.....

How to Order Boys' and Little Fellows' Clothing.

Give this information when ordering Boys' Knee Pants Suits, Raincoats, Mackinaw Coats or Overcoats, Little Fellows' Suits or Overcoats, Knee Pants, Blouses or Rompers.

State Size	If you are not certain as to size required, state the boy's age and whether he is large, small or average size for his age.

Give This Information When Ordering Men's Mackinaws, Mackintoshes, Rubber Raincoats, Oiled Slicker Clothing, Duck or Fur Coats, Leather or Working Clothing.

Breast Measure Over Vest	Height	Weight

SHOES For Size Chart and Instructions for Shoe Measurements See Page 245 of Our Big General Catalog No. 137.

Measurements for Women's and Misses' Tailored Suits, Coats, Fur Coats, Skirts, Dresses, Waists and Dressing Sacques.

Catalog No. and Color of Garment. (First Choice)	Catalog No. and Color of Garment. (Second Choice)
No. ..... Color	No. ..... Color .....

First, tie a tape or cord around your waist in order that you may properly locate the natural waistline. This is important. Second, be sure that your tape line is accurate. Then measure over a tight fitting waist or blouse.

Height	Weight	Age

Figure 1.

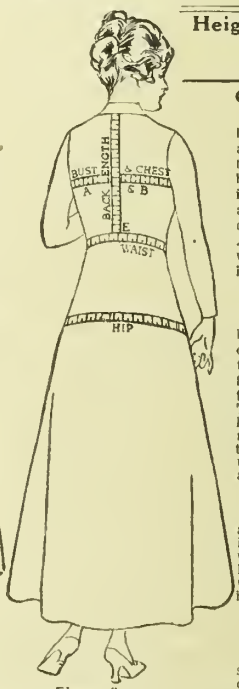


Figure 2.

Chest Measurement. Inches

Measure all around the body, close up under the arms, and well up over the shoulder blades at back. Tape should meet in front above the bust, and directly across the chest. The line marked A in Figure 1 shows where this measurement is taken.....

Bust Measurement.

Measure all around the body, the same as for chest measurement, except that tape must meet in front directly across fullest part of the bust. The line marked B in Figure 1 shows where this measurement is to be taken. Give actual measurements—do not make any allowances.....

Sleeve Length.

Measure from armhole at C (Figure 1) along inside seam of sleeve to wrist at D, or to desired length of shorter sleeves, with arm held as shown in illustration.....

Length of Waist in Back.

Measure from collar seam (Figure 2) straight down back to waistline at E.....

Measurements for Skirts.

Waist Measure. Measure around the smallest part of the waist.	Inches	Hip Measure. Measure all around the body 6½ inches below the smallest part of the waist, as at F. Figures 1 and 2.	Inches	Front Length of Skirt. Measure from smallest part of waist down the front to length of skirt desired.	Inches

Be sure to note sizes in which garments are furnished. Each wearing apparel page of our catalog tells you.

When Ordering Corsets, Give your CORSET size, not your actual waist measure. See corset pages for instructions.

How to Order Babies' and Children's Bonnets.

Measure head exactly as shown in illustration, placing tape measure from point on the neck just below the ear, as shown, around face to same point on opposite side. Send us the exact measurement in inches.

Necessary Information When Ordering Children's Garments.

Age	Length of Garment	Bust Measure	Large or Small for Age

HOW TO MEASURE HAND FOR GLOVES

HOLD HAND OUT FLAT WITH FINGERS TOUCHING, THUMB RAISED; draw tape close but not tight, as shown in illustration (do not include thumb). To the number of inches shown by this measurement add one-quarter of an inch, which will be your correct glove size. For example, if your hand measures 7 inches in this manner your glove size will be 7¼. ALWAYS STATE SIZE AND COLOR WANTED.

Sizes for gloves are as follows:

Women's Sizes in Silk, Fabric, Knitted Yarn and Fleece Lined Kid Gloves: 6, 6½, 7, 7½, 8, 8½.

Women's Sizes in Unlined Kid Gloves: 5½, 5¾, 6, 6¼, 6½, 6¾, 7, 7¼, 7½, 7¾, 8, 8½.

Men's Sizes: 7, 7¼, 7½, 7¾, 8, 8¼, 8½, 8¾, 9, 9½, 10, 10½.

HOW TO MEASURE FOR A RING

See Instructions on page 710 of Jewelry Department pages of our big General Catalog No. 137 for finding correct size of any ring you select.

CHILDREN'S HAT SIZES, 6 TO 6¾.
BOYS' HAT SIZES, 6⅜ TO 7⅛.
MEN'S HAT SIZES, 6¾ TO 7¾.

Hat Sizes	Measures Around Head, Inches	Hat Sizes	Measures Around Head, Inches
6	19	7	22¼
6⅛	19⅜	7⅛	22½
6¼	19¾	7¼	23
6⅜	20¼	7⅜	23⅜
6½	20¾	7½	23¾
6⅝	21	7⅝	24
6¾	21½	7¾	24½
6⅞	21⅝		

TO MEASURE FOR HAT SIZE. When you order measure your head as above illustrated and send us either this measurement in inches or compare the number of inches your head measures with this scale of hat sizes and send us the hat size you wear.

THE FLASH LIGHT

The rays of the sun, the beams of the moon, the light of the stars cannot reach all places. Overpowering in their wonder, they bow before the work of man, who has, in the medium of the flash light, exceeded their powers.

For the flash light seeks out the dark corners where the sun does not shine, where the moon fails to reach, where the stars' light is absent. In a short space of time it has become an actual necessity.

Immediately below we illustrate and describe one flash light from our large line. We direct your attention to pages 1026, 1027, 1028 and 1029 for a complete selection.

Eveready Large Lens Daylos.

Throw a powerful light farther than the ordinary lens. Black vulcanized fiber case, nickel plated trimmings. Large lens, 3 inches in diameter. Diameter of case, 1½ inches. Two lengths. Shipping weights, about 3 pounds and 5 pounds, respectively.
